President, A. M. Deyoe, County Superintendent of Schools.

State Superintendent of Public Instruction, John F. Riggs is expected to be present and either conduct or participate in the discussions.

The October meeting at Britt was a decided success in every particular, except that the time was considered too short to satisfactorily finish the discussions of the topics. The association voted to have a second meeting in Garner for the second Wednesday in January, 1908.

The committee were unanimously of the opinion that in arranging the program, in informal discussion of the topics would be most profitable.

Teachers and patrons of the schools are especially invited.

Every school officer in the county is urged to attend and take part in the talks.

The usefulness of the meeting will depend greatly upon PROMPT attendance that the program may "begin on time."

—Program (Forenoon Session.)

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. Write now for our low prices and a dozen reasons why every farm should have them.

MYSTERY IN CRUEL MURDER

WOMAN'S NUDE BODY FOUND IN POND AT HARRISON, N. J.

Killed in the Night—She Was Seen Crossing Hackensack Meadows with Man.

Newark, N. J.—A murder, combining the elements of mystery and deliberate cruelty that take it out of the ordinary, was committed on the Hackensack Meadows in the town of Harrison early Thursday, and the nude body of the victim, a comely woman of perhaps 30 years, was found nearly submerged in the icy waters of a little pond. Only the feet projected when chance passers-by broke the ice in which the exposed portions were incrusted and dragged the body ashore

The dead woman was finely featured; her hair and nails gave evidence of a recent and scrupulous toilet, and such of her clothing as was subsequently found suggested in texture and style an owner of refinement.

Two men, who occupied a yacht moored near where the body was found, are detained by the police.

The most important clew obtained was furnished Thursday night by Peter Coogan, a watchman employed by the Marine Engine company, who recognized the body as that of a woman whom he had seen crossing the meadows in company with a man early in the day. Later he saw the man alone. He then carried a bundle in his arms. The man was short and stout.

Two girls returning to their home in Harrison long after midnight heard a woman's cries floating over the marsh land. They seemed to come from the direction of the pond and, to the startled girls sounded like "Spare me," and "Help!" Nearer home the girls were approached by a well-dressed stranger, who accosted and followed them until a policeman was met with, when he turned and fled.

WASTED PUBLIC FUNDS.

New York Water Commissioners Will Be Removed by Mayor.

New York. — As a result of the investigation made by the commissioners of accounts into the award of the contract for the construction of the Ashokan dam, a part of the city's new water supply system, the board of water commissioners will be removed by Mayor McClellan unless his action is forestalled by their resignations. This was made known Wednesday following the receipt by the mayor of the report of the commissioners of accounts, John Purrey Mitchell and Philip B. Gaynor.

The water commissioners, Edward Simmons, Charles N. Chadwick and Charles N. Shaw, awarded the Ashokan contract to MacArthur Brothers company, whose bid was $12,669,775, against $10,315,530 bid for the work by the John Peirce company. Protests were immediately filed and an inquiry was ordered by the mayor. Charges of incompetency and misconduct, based upon an alleged waste of public funds, will be preferred against the members of the water board.

FAIRBANKS IS INDORSED.

Nomination for Presidency Urged by Indiana Republicans.

Indianapolis, Ind.—Resolutions were adopted unanimously Thursday at the biennial love feast of Indiana Republicans, urging the nomination of Vice President Charles W. Fairbanks for the presidency.

The resolutions were introduced by Gov. J. Frank Hanly and were adopted with a round of cheers by the thousand and more active party workers of the state who were present.

KULP DISOBEYED ORDERS.

Court-Martial Recommends That Iowa Captain Be Reprimanded

Des Moines, Ia.—The court-martial trying Capt. Kulp of company B, Thirty-fourth regiment, for alleged failure to stop a prize fight upon the orders of Adjt. Gen. Thrift on the night of November 21, returned a verdict late Friday, holding that Capt. Kulp, while he may not have intentionally disobeyed the orders of Adjt. Gen. Thrift did so, and the court recommended that he be reprimanded.

Seattle, Wash.—T. C. Woodbury, acting commander of the department of the Columbia, U. S. A., in a statement Wednesday said that the whole Pacific coast would be helpless in case the navy should prove unable to prevent the landing of a force of 20,000 Japanese or other foreign army at any of the numerous unprotected bays along the coast.

IOWA STATE NEWS

Events of Recent Occurrence Throughout the Commonwealth.

BYERS AT DAVENPORT.

Attorney General Addresses Crowd on Law Enforcement.

Davenport.—Attorney General Byers addressed an audience of 2,000 persons, mostly men, in St. John's Methodist church on Sunday afternoon, and gave them some plain talk. He said that it was a shame that a city that had built a $350,000 high school, as has Davenport, should be teaching its boys and girls the open disregard for law that is shown by the Sunday and the all night saloon. The statement was loudly applauded.

He took issue with Mayor Becker's recent statement that every Iowa city would have just the kind of government that the people demand and that city officials will always measure up to the average of citizenship and no more.

"That is not true," said the attorney general. "Under the method that we have had in this state for the last quarter of a century of selecting our city officers, men have often managed to get into office who were incompetent and inefficient and no more fit to run a city than a farm."

The attorney general painted a fine picture of the zealous sheriff and policemen following into alleys the wretched victims of drink, to pounce upon them as they raised a window and tapped a till or stole a coat, and sarcastically told how the county attorney would promptly carry the case before the grand jury without waiting for any one to "file information". The same sheriff and policemen, he declared, were using no effort to see that the laws protecting public morality and decency and the American home were enforced.

He prescribed five years in the penitentiary as a proper punishment for every saloonkeeper who sells liquor to a man who is in the habit of becoming intoxicated. "He has debauched men, taken the bread out of the mouths of wives and children, and increased the sorrow and want in the home," he said. "It is the duty of every good citizen to see that he doesn't do it again."

Mr. Byers sad he was glad to see that the saloon keepers of Davenport were conforming to the law. This was the only town in Iowa, he said, where saloons had been open on holidays, as well as election days and Sundays. After the address he was asked as to the necessity of all saloon keepers filing bonds, and said the bond section of the law must be complied with. A citizen arose in the audience and stated he had asked a policeman to accompany him, and had gone into two gambling rooms over saloons and found thirty or forty men in each and a policeman watching the game in one of them.

"What would you do, Mr. Byers," he was asked, "with a county attorney and police force who allow these conditions to exist and make no move to prevent them?"

"If I lived here and were a citizen of this town," answered the attorney general, "I should certainly take steps to have such officials removed from office."

HOWARD IS GUILTY.

Youthful Soldier Is Convicted of Killing Mrs. Picray.

Des Moines.—Private Elroy Howard of the Second cavalry must spend the next few years of his life behind prison walls for shooting Mrs. Picray a few weeks ago. A jury in the district court found him guilty of manslaughter. He will be sentenced for an indeterminate period not to exceed eight years.

Howard's story that his mind was a blank when he fired the shot that killed Mrs. Picray was not given much weight by the jury. In the opinion of the jurors his admission that he remembered where he placed the gun after the shooting disproved that claim.

Howard, who is only 20 years of age, shot Mrs. Picray while walking home with her sister and Alexander McIntosh. The state claimed that the bullet was intended for the sister, Mabel Adair, with whom he had a slight quarrel. Howard ran away from the scene and returned to the army post where he was arrested the next morning. He was indicted for murder in the first degree.

SUE FOR TREMENDOUS SUM.

Depositors of Defunct Seymour Institution Demand $200,000.

Seymour.—The officers of the defunct Farmers and Drovers' bank of Seymour, Iowa, have been sued by the depositors through their attorneys, Miles and Steele of Corydon and Howard Clark of Des Moines in the sum of $200,000 for negligence of duty connected with the bank.

Ware remains in jail at Corydon, his wife and children being at the home of Mr. Ware's parents in Seymour. Mrs. Ware recently made an effort to secure bonds for her husband but was unsuccessful.

TRAGEDY DRIVES HIM INSANE.

Clinton Man Losses Mind While Searching for Daughter.

Council Bluffs.—W. Breen of Clinton, who has been in Council Bluffs for several days searching for his 15-year-old daughter, who is alleged to have left home about two weeks ago, was picked up by Officer Delehanty of the Omaha police force, apparently in a demented condition.

Breen is well known in the state. He has been in the employ of the Union Pacific and Northwestern as a signal block syestem expert. His breakdown is attributed to a succession of deaths in his family.

Since last January his parents have died in Mercy hospital in Clinton, a brother was killed by the Northwestern in Sioux City, two brothers died in the west, and Mr. Breen's wife and four of his children also died, leaving only one daughter of his immediate family surviving.

The action of the daughter in leaving home is said to have affected her father deeply and he has been making desperate effort to find her. He learned that she had been seen in this city and came here to search for her but without success. Breen is about 50 years. When found by the officers he was operating a mimic signal system which he had rigged up with some old bottle, pieces of string, etc. and after his arrest he talked incoherently of his work.

HONORS FOR CRESTON ARTIST.

Sherry Fry Honored by American Academy at Rome.

Creston.—Word has been received by Creston friends of Sherry Fry, the eminent young American artist now studying in Paris, of a high honor that has been recently conferred on him by the American Academy of Rome. At a recent meeting of the trustees of the American Academy at Rome it was decided to offer Mr. Fry a three-years' fellowship in the academy. This is a distinction and honor that is rarely achieved by artists and sculptors, and it is only those at the head of their professions that may hope thus to be honored. It is a distinction that is gained only by merit, and is awarded only after the work of the applicant is approved by the best critics of Europe and America who are found at the head of this institution.

Mr. Fry is a former Creston boy who has made wonderful advancement in the world of art in the past few years. The best critics in the country have spoken very highly of his work. He has been honored by having his work exhibited in the Salon at Paris for several years. He designed and executed the statue of the Indian chief, Mahaska, which was presented to the city of Oskaloosa last summer by Mr. Edmundson of Des Moines.

CAIN CUTS HIS THROAT.

Des Moines.—Less than an hour before he was to have been taken to Fort Madison to spend the remainder of his life within penitentiary walls for the murder of Charles H. Morris, J. C. Cain slashed himself from ear to ear with a razor secretly slipped in to him and died in agony within the St. Louis cage in the county jail.

As he left his cell to enter the lavatory Cain stopped and scribbled this note on the bottom and side of an empty candy box—a box that had contained the few sweets his children had given him on Christmas day:

"The Plymouth Rock or any other church since the world began. Hodgdon and Brennan, may the Lord in heaven attend to you. You will be sorry before you die.—J. C. Caine."

Then he placed the empty box on the girder surrounding the St. Louis cage walked quickly into the lavatory and there deliberately sawed himself across the throat until death was certain.

The razor severed the jugular vein and artery and the windpipe. But even then surgeons might have prolonged Cain's life had he not fought them off viciously whenever they attempted to aid the suffering man.

Murder at a "Keg" Party.

Oskaloosa.—Tom Frazier, 30 years of age, shot and fatally wounded James Mitchell, both colored, at the Cricket coal mining camp, southwest of Oskaloosa, Christmas afternoon. They were at a "keg party". A quarrel followed a disagreement in an argument and Frazier pulled a gun and fired, the ball taking effect in Mitchell's head. The wounded man will die. Frazier did not attempt to escape and made no resistance to arrest. He is now in jail at Oskaloosa.

Burned Herself to Death.

Sioux City.—Stella Long a clairvoyant, aged 68 years burned herself to death by saturating her clothes with coal oil and igniting them in her room in the Bolton block. She had first filled her stockings with rags and sticks and hung them over her bed.

THREE PERISH IN WRECK

TRAINS COLLIDE ON ELEVATED TRACKS AT CAMDEN, N. J.

Seventeen Others Suffer Injuries When Crash Occurs as Result of a Heavy Fog.

Camden, N. J.—Three persons were killed and 17 injured in a collision on the elevated tracks of the Pennsylvania railroad just outside the station here Friday when a Pemberton accommodation train ran into the rear of an Atlantic City express. A heavy fog was the principal contributory cause of the accident. The dead are: C. H. Brown, Moorestown, N. J.; J. L. Garbarini, Mount Holly, N. J.; T. L. Webster, Merchantville, N. J.

All those killed or injured were passengers in the first car of the Pemberton accommodation. The fog was so thick that the engineers of the two trains were running cautiously, and just outside the station the Atlantic City train was signaled to stop. The engineer of the Pemberton train failed to see the Atlantic City train in time to avoid a collision, but he instantly jammed his brakes down hard when it loomed up through the fog.

The sudden jolt forced the tender of the Pemberton train into the first car, wrecking it badly and either killing or injuring everybody in the coach. The train, however, did not come to a full stop but slid into the rear of the Atlantic City express, causing the tender to still further telescope the first car.

EDITOR BONFILS ARRESTED.

Denverite Charged with Assaulting Ex-Senator Patterson.

Denver, Col.—Fred G. Bonfils, one of the proprietors of the Denver Post, was arrested Friday on a warrant sworn out by Thomas M. Patterson, former United States senator and principal owner of the Rocky Mountain News and Denver Times, charging him with assault and battery. Mr. Bonfils was taken before Justice of the Peace Thomas Carlon, who issued the warrant, and furnished bonds for his appearance for trial.

The assault was committed Thursday as Mr. Patterson was walking from his home to his office. Mr. Bonfils knocked Mr. Patterson down and struck him repeatedly, inflicting painful injuries.

Missouri Bank Robbed.

Camden Point, Mo.—The Bank of Camden Point was robbed by three men Friday and $4,000 in currency was taken. A fierce battle between citizens and the robbers took place, in which many shots were exchanged, but the robbers escaped. They were pursued by a posse and surrounded in the hills near Dearborn, six miles from Camden Point.

Society Man Kills Himself.

New York. — Despondent over continued ill-health, Henry F. Terry, a well-known society man of Brooklyn, committed suicide by shooting himself through the chest in Prospect park Friday night.

URGED TO GO TO BROOKLYN.

New York "Rent Strikers" Are Besieged by Agents.

New York. — Real estate agents from Brooklyn went into the crowded tenement house districts on the East side of Manhattan Friday and tried to do missionary work in their own interests by urging the tenants who are now engaged in a crusade for lower rents, to move to Brooklyn.

But activity of outsiders did not seem to disturb the local real estate owners and agents. One of them said that the East sider is a clannish creature and likes to associate with the friends and neighbors whom he has known since his arrival from Europe.

"A majority of them come right here from the steamers that bring them over, or from the immigrant station," he said. "They stay here, too, until such time as they have earned their little piles and can move elsewhere."

At the Socialist party headquarters on Grand street it was learned that the evictions which have been made since the rent strike was decided upon have no real connection with the movement. Such evictions are for failure to pay rent for the present and past months. The crucial point will come, if at all, when the collectors make their January calls.

WORK OF JAPENESE SPIES.

Maps of Portland and Its Pipe Lines Have Been Secured.

Portland, Ore.—Mayor Harry Lane created a sensation Friday in an address before the National Guard association when he declared that agents of the Japanese government had secured accurate maps of the city of Portland, maps and specifications of every roadway leading into the city and the various pipe lines from which the city obtains its water supply.

Mayor Lane did not discover the presence of the alleged spies until their work was completed, whereupon he transmitted his information to Washington and was asked to furnish all the details of the operations of the alleged spies.

Veteran Diplomat Passes Away.

Washington. — John Chandler Bancroft Davis, for the past 24 years reporter for the United States supreme court, and formerly United States minister to Germany, died here Friday. He was born in Worcester, Mass., December 29, 1822. Among the more important positions held by Mr. Davis were those of secretary of the United States legation at London, assistant secretary of state, agent of the United States government before the Geneva court of arbitration in the settlement of the Alabama claims and judge of the United States court of claims.

Bandits Rob a Depot.

Springfield, Ill.—In a pistol battle following the robbery of the Vandalia passenger depot in Smithboro Friday one of two robbers was shot five times and Emory Brown, city marshal of Sorento, Ill., was wounded twice. Both men were reported as being in a serious condition. The pal of the wounded robber was arrested and locked up

Mr. Barnes, American

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Suspicion is created that Marina is in league with the Corsicans. A man, believed to be Corregio Danella, is seen passing the house and Marina is thought to have given him a sign. Marina refuses to explain to Barnes which fact adds to his latent suspicions. Barnes' plans for the safety of the party are learned by the Corsicans. The carriage carrying their party to the local landing is followed by two men. One of the horsemen is supposed to be Corregio. They try to murder the American. The cook on the yacht—a Frenchman is suspected of complicity in the plot. The party anchors at St. Tropez. The yacht is followed by a small boat. The cook is detected giving signals to the boat. Barnes attempts to throw him overboard, but is prevented by Marina and Enid. The cook is found to be innocent of the supposed plot and is forgiven. The party arrive at Nice and find Lady Chartris and her daughter Maud domiciled in the villa rented with Barnes' money. Barnes is amazed to find that Count Corregio is at Nice and is acting the role of admirer to Lady Chartris. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress

CHAPTER VII.—Continued.

"Yes, the day after you left, the poor fellow called to ask if I knew the particulars of his dear brother's death. You, having lately come from Corsica, he thought, might tell him. Under the melancholy circumstances, I deemed it advisable to say to him that you would be at my villa in Villefranche soon and would, of course, give him the facts you might know in regard to poor Musso! He was killed by some bandit or other in Corsica, I understand. But after the gallant Cipriano met me here on the des Anglais three days ago, he—he didn't seem able to talk about anyone else but me." The widow blushes slightly, looks eagerly at the clock and flutters: "The only other subject Count Cipriano mentioned was—was weddings."

Barnes plunges his fork disgustedly into his salad and curses his half confidences to Lady Chartris. The retreat he had so carefully arranged for Enid and Marina while he and Edwin should hunt down the demons who threatened their young lives, was now by his hostess' babbling tongue become known to their pursuers.

He glances moodily at his sweetheart. Miss Anstruther's eyes and her cheeks are both aflame. As if to defy the dangers that are gathering about her wedding day, she says in resolute tones: "You know, Lady Chartris, I marry Mr. Barnes to-morrow," and turns the conversation on her coming nuptials, discussing with her hostess the necessary preparations for the ceremony the next evening.

With the dessert, Miss Maud enters to give life and vivacity to the feast. She has been put by her governess in evening infant dress, prattles merrily of the approaching nuptials, suggests that her youthful ears have heard some of the dinner table conversation through the curtains that separate the dining-room from the parlor. Once or twice, when her mother's head is turned, obeying a nod surreptitiously given her by Mr. Barnes, she bolts a glass of champagne, that is generally forbidden her.

Inspired by the stimulating beverage, Miss Maud suddenly ejaculates: "Isn't it a pity you're going to be married on the sneak, Barnes? When I get spliced, as you say, Cousin Edwin, I'm going to church with six bridesmaids and a train ten feet long."

Soon after the party rises, and Enid, drawing her betrothed into the privacy of the parlor, whispers: "My own, remember one of the Danellas is here. Be careful for my sake." She puts her fair arms entreatingly about his neck.

"I have my pistols," answers Burton, ostentiously, and administers a soothing kiss.

Stepping to Edwin, he whispers: "Keep a sharper lookout than ever."

"Yes, it's yardarm to yardarm now," answers the sailor.

Lady Chartris' carriage is announced.

"Help me with my wraps, Cousin Burton," cries the widow, eagerly, and seems anxious to be gone.

As Barnes is cloaking Prunella, Enid entreats, nervously: "You will come back soon?"

"Oh yes, by to-morrow morning," laughs Anstruther, trying to make light of her fears. "Jack's last cruise ashore, you know."

"No ward-room jokes about my coming husband!" commands his sister, indignantly.

"Yes, but I—I can't bring Burton home very early," says Lady Chartris, in embarrassed tone. "You see I—I promised to go to the Casino with—with Count Cipriano Danella," adding eagerly: "Couldn't I invite him to the wedding?"

"Yes, bring him, please—I want to see the gentleman," returns Barnes, quietly, his eyes growing steely.

Anstruther looks astounded and Enid seems amazed, but the most startling effect is produced upon Marina. Her delicate face grows of a deathly pallor, her slight fingers work nervously, but her dark eyes begin to flame.

"Gee," remarks Maud, the champagne making her reckless, "you needn't look as if you were going to execution, Marina. Cip isn't your beau."

"Maud, don't talk that way and go to bed!" commands her mother, severely. Though the widow as she steps into her victoria reflects with delighted horror: "These foreign brides are awful. Here's a two weeks' one jealous of that fascinating Count Danella, who's now devoted to me."

Barnes immediately follows his hostess and the carriage drives away rapidly, Lady Chartris calling to the driver to hurry.

Miss Anstruther gazes after it till it disappears in the shrubbery leading to the entrance of the grounds. Then with a sigh she languidly remarks that she is tired and will go to bed. Leaving Edwin and Marina in some honeymoon conference in the parlor she steps up to her chamber and gives her maid a few directions about her coming wedding, when there comes a sharp, sudden rapping on the door.

"What is it?" cries Miss Anstruther, and grasps a pistol Barnes has given her, as they sailed into the Villefranche harbor, with the suggestion: "It may be useful some day."

In answer, Maud's excited voice through the panel makes Miss Anstruther laugh. "Enid, I can't go to sleep till you let me be your maid of honor at the wedding."

"If it will please you, dear," remarks Enid affably.

"That's bully," cries Maud; "they give bridesmaids presents, don't they?" This last very eagerly.

Then she suddenly breaks out: "Didn't Marina get on a high horse when ma said she was going in to meet Cip Danella? She's jealous of him, I reckon."

"Hush!" commands Enid. "You have the most extraordinary ideas for a child."

"Child? I'm 16!" cries Maud, defiantly. Then repressed in one direction, the champagne that is coursing through Miss Chartris' brain breaks out in another. "Anyway," she hints roguishly, "Barnes might find an old sweetheart this evening if he stepped into the Hotel St. Petersburg."

"Who?" The coming bride's voice is excited.

"Oh, a little girl isn't permitted to speak the name of such a lady," replies Maud, innocently, "but it commences with a 'Belle' and it ends with a 'Blackwood.'"

"My heavens, is she here?"

"Gee, and Blackie's in great shape, too. I was on the Promenade des Anglais with Marston yesterday. Not a woman to touch her for beauty. Diamonds to beat Starr & Mortimer's, and that Mr. Ruggles running after her with an open checkbook in his hand, everybody said."

"Then we'll leave her to Mr. Ruggles," says Enid, coldly, though her heart is beating wildly.

"Oh, but she won't stick to Mr. Ruggles. So I thought I'd just give you a hint, so that if she cuts in after you're married you'll know how to fix her. Of course, this evening you are blocked."

"Blocked, this evening?"

"I want to tell you something that happened!"

"Don't dare to."

"But I will, for your sake. A note came to Barnsey from her."

"A note from that infamous creature? Impossible!"

"Impossible? I slipped it into Burton's hand just before he went in to dinner, and he slipped it into his pocket. I saw the address; it was in her handwriting."

"Liar, how do you know La Blackwood's handwriting," cries the tortured one.

"Blackie's autograph facsimile was published in an advertisement of Lily's Soap, in the London Gossip last month. 'I recommend your soap for its unblemished purity,' she wrote. How I laughed at that ad. But you want to take this seriously, you do, Enid, and not giggle hysterically, as you are now."

"Very well, I will," says the young lady, whose face has become that of a marble statue, lighted by two burning, tortured eyes. "Now to bed, you meddler, and not a word of this to anyone on earth, or you know what I know and will tell your mother."

And Maud retires subdued, but she leaves convulsed features, clenched hands and a dizzy brain behind her. Miss Anstruther sighs: "Oh, if he dares to see her!" then murmurs, "No, no, impossible! He's gone to get the minister for to-morrow—to wed me."

Yet several burning tears run down the fair cheeks of the coming bride as she tosses herself into bed and cannot go to sleep.

Barnes Alights, and as He Glances at the Neighboring Hotel des Anglais, He Recollects This Had Been the Scene of His First Call Upon Enid.

CHAPTER VIII.
A Night in Nice.

The drive to Nice is not only a short but pleasant one. Mr. Barnes, seated by Lady Chartris, though chatting alertly, keeps both his eyes and his ears open.

Once or twice the American listens intently, he thinks he hears pursuing hoofs. But these blend into the noises of general traffic as they reach and pass through the old town. Crossing the river by the Pont Neuf and turning down the Quai St. Jean, they drive along the Avenue Massena nearly to the sea.

Though visitors have for the last month been leaving the great watering place by the Mediterranean, there are still enough sojourners to comfortably fill the public gardens. The band is playing, the night is only pleasantly warm, and Lady Chartris seems in high spirits as Barnes says to her: "You can drop me anywhere now. Only, where shall I meet you?"

"At the Hotel de la Mediterranee. There Count Danella is doubtless waiting for me," replies the hostess. "Call for me at 11 and I'll drive you back."

Barnes alights and, as he glances at the neighboring Hotel des Anglais, he recollects this had been the scene of his first call upon Enid when Lady Chartris had invited him to accompany her and her charge to Monte Carlo. He can scarce believe it is only a month ago since he had looked in her face. His step grows light with happiness.

Suddenly somebody in the passing throng mentions the name of the fascinating American adventuress. A Parisian countess is saying to a lady friend: "That La Blackwood crushes us with her toilettes. Did you ever see such a robe as the wretch sported to-day?"

"By Jove, that reminds me. I wonder what Sally has to say to me?" thinks Burton, and pulls out an almost forgotten note from his pocket.

A big arc light, which was the great illuminating medium of that epoch, permits him to read:

"Mon. Cher Barnes:

"Don't hold your horses, but come to me at the St. Petersburg like a shot. I want to warn you of a very imminent danger. I have just discovered your location here by accident. Don't think I hate you, though I ought to.

Yours sincerely,

"SALLY SPOTTS."

WAS READY FOR HIM.

Clerk's Suggestion to Customer Who Was "a Little Short."

John Brink prided himself on having the largest general store in the county. "If man wishes it, and it is made, I have it," was the sign over his advertisements in the newspapers. "William," said Mr. Brink one morning, as he was giving instructions to a green clerk; "no one must ever leave this store without making a purchase. If a person doesn't know what he wants, suggest something. And, remember, we have everything from carpet tacks to mausoleums." William's first customer was a leisurely appearing chap, who gazed about curiously, but had no definite object in view. "Just looking around," he explained. "Wouldn't you like to look at our new line of postal cards?" suggested the eager clerk. "No, not this time," answered the stranger; "I'm just a little short this morning." "Ah," urged the new clerk, who was not familiar with the wonderful expansiveness of the language; "then, perhaps, you'd like to look at our line of new and handsome stretchers?"—Harper's Weekly.

On the Death of Balzac.

There can be but austere and serious thoughts in all hearts when a sublime spirit makes its majestic entrance into another life, when one of those beings who have long soared above the crowd on the visible wings of genius, spreading all at once other wings which we did not see, plunges swiftly into the unknown. No, it is not the unknown; no, it is not night, it is light. It is not the end, it is the beginning! It is not extinction, it is eternity. Is it not true, such tombs as this demonstrate immortality? In the presence we call man.—Victor Hugo.

TROOPS WILL STAY

ROOSEVELT COUNTERMANDS ORDER FOR REMOVAL.

LEGISLATURE TO BE CONVENED

Not at all Certain that that Body Will Ask for Troops.

Washington, D. C., Dec. 29.—In accordance with the president's instructions, the secretary of war late yesterday sent telegraphic orders to General Funston, commanding the department of California at San Francisco, countermanding previous orders for the withdrawal of the troops from Goldfield tomorrow.

The soldiers are to remain there for a further period of three weeks, provided Governor Sparks within five days issues a call for a special session of the state legislature.

The telegram was in response to one from the governor in which he set forth the needs of armed intervention and expresses the doubt that to call the legislature would result in the necessary request from that body for federal aid.

CALLS SESSION LEGISLATURE.

Nevada Executive is Forced to Act By President.

Reno, Nev., Dec. 30.—A special session of the Nevada legislature will be called today by Gov. John Sparks. The governor said last night that he would issue the proclamation this morning, and that the date of convening will be in about two weeks.

The call will be made at the request of President Roosevelt, who has notified Nevada's governor that such action must be taken.

County Commissioner Rosenthal of Goldfield, whose resignation has been requested by Governor Sparks, has refused to vacate his office.

Goldfield, Nev., Dec. 30.—The announcement made here today that Governor Sparks has telegraphed word to President Roosevelt that he will call the Nevada legislature together in special session, has put an entirely new aspect upon the labor situation here. At least a portion of the federal troops will, it is thought, remain in Goldfield for an indefinite period and all fear of any serious disturbance growing out of the dispute has vanished. It is, not at all certain, however, that the legislature will act in accordance with the wishes of Governor Sparks.

EDDY FOUNDATION HIT.

Notice Served That $1,000,000 Disbursement Is Illegal.

Boston, Mass., Dec. 30.—Disputing the power of Mrs. Baker Glover Eddy, head of the Christian Science church, to make disposition of so large a part of her fortune, formal notices have been served upon Trustees McLellan, Fernold and Baker, having in charge Mrs. Eddy's estate, ordering them not to make the $1,000,000 to found a charitable institution recently announced, or any other appropriation, from Mrs. Eddy's estate pending the outcome of litigation.

According to the former United States Senator William E. Chandler this action is to be followed by a new law suit involving the Christian Science head and her trustees brought by the "next friends," Mrs. Eddy's son, George W. Glover; his daughter, Mary Baker Glover, and Mrs. Eddy's adopted son, Dr. Ebenezer J. Foster, of Waterbury, Vt.

The contention of Mr. Chandler is that the proposed appropriation of $1,000,000 is in direct violation of Mrs. Eddy's deed of trust of March 6, 1907, by which she turned over all her property to the three trustees for life, reserving only the right to use the income and certain realty, and which act marked the partial termination of litigation against her and the trustees by the "next friends" a few months since.

The new action, it is declared, will be entirely dependent on another suit now pending against F. S. Streeter, Mrs. Eddy's attorney in Concord, demanding information concerning the deed of trust for $125,000 set aside by Mrs. Eddy for the benefit of her son, George W. Glover, and his daughter.

ALLISON FAVORS THE PLAN.

Agrees With Cleveland That Provisions Should Be Made.

Washington, D. C., Dec. 30.—Senator William B. Allison of Iowa, chairman of the committee on appropriations, favors action by congress looking to the care and support of ex-presidents of the United States. In an interview last night he referred to the recent utterances of former President Grover Cleveland on the subject, and agreed with him that some provision should be made in this direction.

The matter deserved consideration at the hands of congress, he said, and undoubtedly would receive it. In the case of Thomas Jefferson, who died poor, Mr. Allison said the government would have done well to pay his debts. At present Mrs. Garfield is receiving an allowance from the government, and he said that to make provisions for ex-presidents would cause no considerable drain on the treasury, as rarely have there been two of them alive at one time.

German M. E. Church Items

E. P. Schaefer of Crookston, Minn., called on his relatives the first of the week.

B. Lau departed Sunday morning for Chicago where he has accepted a position.

Hulda and Esther Gruetzmacher were the guests of Emma Sampson Sunday.

Mother Lau was indisposed for a few days last week but is able to be around again.

Art Schoenwetter and wife went to Charles city last Thursday to spend a few days.

E. L. Schaub dropped in on his Klemme friends on Monday evening for a short visit.

The Klemme W. H. M. S. meets with Mrs. John Gruetzmacher this afternoon (Thursday.)

Rev. F. H. Wellemeyer was seen on our streets Monday evening on his way to Germantown.

Emil Sampson and Elmer Ludeke left Friday for Charles City where they will attend college.

Mrs. H. Josten and children of Garner were over Sunday visitors at the home of John Josten and family.

Klemme's 400 met last Friday evening at the home of Mr. and Mrs. Chas. Busch. It is needless to say that they had a good time.

On account of the snow storm last Sunday the meetings were small, never the less all the servives were held as usual and a goodly number were not daunted by a little snow.

The Klemme Sunday School elected its officers for the ensuing year on Wednesday evening as follows: Supt., August Wenz; Vice-Supt., T. Blank; Sec. Minnie Lenz; Treas. Carl Albright; Libr., Geo. Lau and R. Ludeke; Organist, Miss Esther Gruetzmacher; Supt. of Cradle roll, Mrs. G. H. Wessel.

To close up the old year in an appropriate manner, the Germantown League gave suitable program on Tuesday evening after which the Sunday school elected its officers for the coming year. The following officers were elected·

Supt., Wm. Bredlow; Vice Supt., Chas. Bredlow; Secretary Geo. Schoenwetter; Ass't Sec., Erick Josten; Treas. W. F. Stille; Libr., Frank Bredlow; Ass't Libr., Edw. Schlei and Willie Riemer; Organist, Lizzie Riemer Supt. of cradle roll, Mrs. Wm. Kraus; Supt. of Home department, Mrs. H. J. Stille. The social committee then waited on the audience with a nice lunch which was enjoyed by the large audience present. The last hour was spent in devotional exercises and while the church bell was toling the last few minutes and the year 1907 with all its memories was slipping into eternity, the entire audience was bowed in a silent consecration. It was a touching moment. As the hand of the clock crossed the midnight line the bell rang with a joyful tune the birth of the new year and the congregation sang. A general handshake and wishing each other a happy new year.

YOUNG LADIES AND PRETTY MAI S

This is your golden opportunity, a chance which comes to you only, once in four years.

APPROACH THE YOUNG MAN with a smile, hand him a cigar, and then

SIZE HIM UP From head to foot:—

1st—Does he wear a "Lampher" hat? (a good man always wears a good hat)
2nd—Does he wear one of our "K. E." suits? (a man of character will wear clothing with "individuality."
3rd—Does he wear "our Crow" overalls? (never marry a man who is too nice to wear overalls)
4th—Does he wear "Iron Clad" socks? (a strong sock for a strong man)
5th—Does he wear "Peters Shoes"? (His temper will be sweet, for these shoes don't pinch his feet)

POP THE QUESTION At once for when you have a man of this description you have got the best there is.

HIS ANSWER If you are wearing an elegant "Lampher Fur" and have on a pair of "Peters Shoes" he never could refuse you.

COMING WEST.

Shoe Industry Gradually Leaving Eastern Coast.

Massachusetts and Connecticut are generally thought of as the big shoe manufacturing states, but, as the great west has become more densely populated, these states are slowly losing prestige.

Wisconsin, for instance, has the largest manufacturer of full vamp shoes in the world—The F. Mayer Boot & Shoe Co. of Milwaukee. The market for this company's product is the great west from the Mississippi to the Pacific. Undoubtedly it is Milwaukee's nearness to this great west market which is responsible for the great growth of this concern which has been in proportion to the growth of the west. In the last 25 years they have outgrown six factories. Including the new Seattle factory nearly completed and the Milwaukee factory annex built this last year the total capacity of the Mayer Boot & Shoe Company exceeds 9,000 pairs per day, which already has been inadequate to meet the demand of the west.

QUITE AS BAD.

Griggs—The idea of your letting your wife go 'round saying she made a man of you. You don't hear my wife saying that.

Briggs—No, but I heard her telling my wife that she did her best.

SUFFERED TWENTY-FIVE YEARS.

With Eczema—Her Limb Peeled and Foot Was Raw—Thought Amputation Was Necessary—Believes Life Saved by Cuticura.

"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My doctor had advised me to have my leg cut off. At this time my leg was peeled from the knee, my foot was like a piece of raw flesh, and I had to walk on crutches. I bought a set of Cuticura Remedies. After the first two treatments the swelling went down, and in two months my leg was cured and the new skin came on. The doctor was surprised and said that he would use Cuticura for his own patients. I have now been cured over seven years, and but for the Cuticura Remedies I might have lost my life. Mrs. J. B. Renaud, 277 Mentana St., Montreal, Que., Feb. 20, 1907."

Changed His Mind.

"Well, what are you doing there?" asked the lady, addressing a tramp who had just climbed a tree in time to escape a savage bulldog.

"Madam," replied the hobo, "it was my intention to ask for a hand-out, but in the interest of humanity I now request that you give any surplus food you may have on hand to my canine friend down there."

FIVE MONTHS IN HOSPITAL.

Discharged Because Doctors Could Not Cure.

Levi P. Brockway, S. Second Ave., Anoka, Minn., says: "After lying for five months in a hospital I was discharged as incurable and given only six months to live. My heart was affected, I had smothering spells, and sometimes fell unconscious. I got so I couldn't use my arms, my eyesight was impaired and the kidney secretions were badly disordered. I was completely worn out and discouraged when I began using Doan's Kidney Pills, but they went right to the cause of the trouble and did their work well. I have been feeling well ever since."

NO WONDER HE WAS SCARED.

Costume Suggested Would Have Made Youth Look Like Circus Freak.

Not long ago a large clothing house in New York received a letter from the remote southwest to this effect:

"What is the proper dress for a groom in the afternoon?"

The clerk who opened the mail referred the inquiry to the livery department, and the head of that department dictated a brief reply:

"Bottle green coat, fawn-colored trousers, with top boots, silk hat and cockade. We can make you prices."

In about a week came a plaintive note:

"I always knew it was expensive to get married, but can't you suggest something a little less elaborate?"

The Quality of Mercy.

A notorious mountain moonshiner, familiarly known as "Wild Bill," was recently tried before a federal court in Georgia and was adjudged guilty. Before pronouncing sentence the judge lectured the prisoner on his long criminal record, and at last informing him that the court entertained no feeling of anger toward him, but felt only unmixed pity, sentenced him to spend six years in the federal prison at Atlanta.

Bill stolidly shifted the quid of tobacco in his mouth and turned to leave the courtroom with the marshal. Once outside, the only thing he said was this:

"Well, I suah am glad he wa'n't mad at me!"—Youth's Companion.

DEFENSE OF THE BACHELOR.

Baltimore Man Points Out a Few Facts Generally Overlooked.

As a matter of fact, it is obvious that more crimes are committed by married men than by single men, for the simple reason tthat many offenses exceedingly popular among the former are entirely impossible to the latter. One such crime is wife murder. How could a single man murder his wife? There are 775 wife murderers in the United States every year, and all are committed by married men. Again, consider the crime of demonicide, or mother-in-law killing. Its practice is confined entirely to married men. And forget not the lesser felonies and misdemeanors. How could a single man elope with his wife's sister? How could he desert his children? How could he commit bigamy? How could he flirt with his wife's maid? How could he be accused of non-support? What incentive is there for him to cheat the gas meter, swindle the instalment man or rob his brother-in-law at poker? Being prosperous, well fed and happy—as all bachelors are—why should he steal, forge, embezzle, burgle or fight?—Baltimore Sun.

Dec. 31, 1907—

Miss Lydia Beier is spending a few weeks visiting her sister Mrs. Kulper and others at Waterloo, Iowa.

The school in Dist. No. 8 was reopened by Miss Iris Brown on Monday morning after a vacation of one week.

Wesley Schaper of Pearl City, Ill who was visiting at Schaper's, Tanner's, etc., returned home last Thursday evening.

The following is a copy of a sale bill as it appeared in 1846 in Pike county, Missouri. It came into the hands of Albert Tanner while in Kansas some time ago:

PUBLIC SALE

State of Missouri, County of Pike, to whom it may concern: The undersigned will on Thursday, Sept. 29, A. D., 1846 sell at public out-cry for cash on premises where Coon Creek crosses the old Mission Road, the following chattels to-wit: 6 yoke of oxen with yokes and chains, 2 wagons with beds, 3 nigger wenches. 4 buck niggers, 3 nigger boys, 2 prairie plows, 25 steel traps, 1 barrel pickeled cabbage, 1 hogshead tobacco, 1 lot nigger shoes. 1 spinning wheel, 1 loom, 13 fox hounds a lot of coon, mink and skunk skins and a lot of other articles, Am gwine to California.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

QUIET AT RUSSELLVILLE, BUT THE WAR IS NOT ENDED

Burley Growers and Trust Fail to Agree—Friday's Raid Will Be Investigated.

Louisville, Ky. — Although all is apparently quiet in the war between the tobacco growers of Kentucky and Tennessee against the American Tobacco company, the developments of Friday have given great uneasiness. The town of Russellville, which was raided by nightriders early in the morning, was quiet at night, but the sheriff and his deputies, the police and the citizens were on the alert to prevent any repetition of the outrages.

It was decided by the peace officers and the leading citizens in view of the improbability of another raid that the governor would not be asked for troops. State Fire Marshal Mott Ayres, however, is on his way to Russellville and will begin an immediate investigation of Thursday night's raid which resulted in the shooting of three men by the riders, the burning of two tobacco warehouses and a planing mill and the partial destruction of three smaller buildings. The county judge and court officials notified Gov. Willson that a special term of court will be called to consider the evidence brought out by the investigation and that extraordinary efforts will be made to apprehend and punish the guilty parties.

The most disturbing news of the day, following, as it did, on the heels of the Russellville raid, was the failure of the Burley Tobacco society and the chief buyers for the American Tobacco company to agree regarding the marketing of the 1907 crop held by the society. The parties met at Winchester in accordance with the terms of a compromise agreement recently brought about by Gov. Willson. The Burley men wanted the company to buy 60,000 hogsheads of tobacco from them, while the buyers would agree to take but 10,000 hogsheads. The Burley men consented to sell the smaller amount. The tobacco had already been inspected and graded. The Burley men fixed a minimum price of 15 cents a pound. The company buyers refused to give more than 12 cents.

RECEIVERS FOR SEABOARD LINE.

Federal Judge Places Road in Hands of Bankers.

Richmond, Va. — The Seaboard Air Line Railroad system was put into the hands of receivers here Thursday through the action of Judge Pritchard, of the United States circuit court, who was hurriedly summoned from Asheville, N. C.

Judge Pritchard appointed as receivers R. Lancaster Williams of Richmond and S. Davies Warfield of Baltimore. Both men are identified with banking houses in Baltimore, Williams being of the firm of Middendorf, Williams & Co., and Warfield being president of the Continental Trust company. Mr. Williams is also a partner in the firm of John L. Williams & Sons of this city. The bond of each was fixed at $50,000.

Judge Pritchard's decree gives the receivers immediate possession of the property, which embraces the main stem from Portsmouth, Va., to Tampa, Fla., with numerous branches to coast points on the east and Atlanta, Montgomery and Birmingham on the west, a total of 2,382 miles.

DR. NICHOLAS SENN DIES.

Famous "Fighting Surgeon" of Chicago Passes Away.

Chicago.—Dr. Nicholas Senn, Chicago's "fighting doctor" and one of the foremost surgeons of the central west, died at his residence here Thursday.

It was at the time of the Spanish war that Dr. Senn rose to national prominence. He was appointed surgeon general of the Sixth Army Corps, with the rank of lieutenant colonel and chief of the operating staff of the army in the field. He saw active service in Cuba from May until September, and after his return wrote several books.

Dr. Senn was American delegate to the international medical congress held in Berlin in 1900, and a delegate for the United States to the International Red Cross congress held in St. Petersburg the following year. He also was connected with many medical and surgical associations in this country and abroad. He was a Swiss by birth, having been born at St. Gall on October 31, 1844.

IOWA STATE NEWS

Events of Recent Occurrence Throughout the Commonwealth.

PUT $4,000 IN STOVE.

Lehigh Man's Distrust of Banks Costs Him Dearly.

Lehigh.—George Cunningham, a well known farmer of this community, is anxiously awaiting a letter from the treasury department at Washington, for upon the news it contains depends the issue whether a little pile of ashes owned by him will be recognized for what it once was, or remain forever merely the ashes of a snug little fortune of $4,000.

Cunningham put neither his trust nor his money in banks during the late financial flurry. Instead, he bundled his cash accumulations of a little more than $4,000 into a precious wad and stuffed it into a satchel. Thinking himself exceedingly wise, he capped the climax of his caution by putting satchel and all into an old, unused stove, telling no one about his secret hiding place. Without consulting Cunningham, another person of his household kindled a fire in the stove, and before he could stop the costly blaze, his money and his satchel were burned.

Forgetting in his unhappiness his former district of banks and bankers he now appealed to Cashier Cox of the First National Bank for help. The cashier told him that the pile of ashes might be sent to the treasury department at Washington for examination and that if it could identify any of the debris as money, it might redeem it in part at least.

So the ashes were gently packed away and forwarded to Washington. It is doubtful if very much, if any, of the money can be definitely identified, for when the satchel was touched it crumbled away. Among the ashes were bits of money, but only bits, and Cunningham will be lucky if he recovers enough to pay the express charges.

BLOWS OUT BRAINS.

Dr. Wachendorf Does So To Escape Arrest.

Jefferson.—Dr. C. H. Wachendorf, recently of Lidderdale, a small town north of Jefferson, committed suicide at Sioux Falls, S. D., thereby escaping arrest on a charge of using the United States mail to defraud. Dr. Wachendorf has been followed by the United States marshals for the past six months, and up to a few days ago he had eluded every effort to find him. When it became known that they were upon his track and that he would be taken into custody he fired a 32-caliber revolver, the ball entering his temple and death following almost instantly.

Had Wachendorf been taken into custody he would have been brought to Lidderdale to answer to the charge of using the United States mails to blackmail, the particular charge being of sending a letter addressed to Henry Quaid, a wealthy wholesale liquor dealer of Omaha, last year.

After leaving Lidderdale he went to Manning and from there he went to Council Bluffs, where he remained several weeks.

"DRY" FOR DAVENPORT.

Saloonkeepers Fail to Open Doors on New Year's Day.

Davenport.—Davenport had its first dry New Year's this year, with only a few incidents connected with the all i mtrtnaopsk-lR'|cfiofft Tnseod-lET all important subject of the lid.

The service federation mailed a letter to every saloonkeper, calling his attention to the immediate need of filing with the county auditor of the bond for $3,000 required by the mulct law. Only a few of the 181 saloonkeepers have yet filed this bond.

Emil Berg, manager of Schuetzen park, the leading pleasure resort for the German-Americans of Davenport, announced that it probably would not be opened this year as a public resort. The same announcement is made for Suburban Island park, which has helped the Davenport breweries in the past to dispose of a large proportion of their product.

ONE HOUR WAS ENOUGH.

Bride Deserts Husband an Hour After Marriage.

Waterloo.—In less than an hour Miss Nellie Tripp, a young waitress in a west side restaurant, tired of the matrimonial bonds that tied her to Elmer E. Hanks, a stone cutter, and she immediately set about to secure a divorce. It was perhaps the shortest lived marriage on record in Iowa.

The couple appeared at the clerk's office Monday afternoon and applied for a license. The groom was 51 and the bride 25 years old. George Knoche, a regularly ordained pastor of the Evangelical association church, employed as deputy recorder, performed the ceremony. Next day she was back and wanted to know how to get a divorce, saying she had never loved him, and had left him an hour after the marriage.

NEW RAILWAY IN OPERATION.

First Train Run Over Altantic, Northern & Southern.

Atlantic—The last rail on the Atlantic Northern and Southern railway, traversing the territory between the town of Kimballton and Atlantic was laid on the last afternoon of the old year and on the morning of Jan. 1, the first regular train was run over the new road. On it were gathered all of the officers and directors of the company, together with about 200 stockholders.

The people of Kimballton had invited them to attend a big New Year's feast in that place, and the entire trainload of people were the guests of the citizens there. One of the largest crowds in the history of that thriving community congregated to give a rousing welcome to the visitors. Refreshments on an elaborate plan were served and at the close of the banquet speeches were made.

The finances of the road are represented within the $300,000 mark, which includes the entire cost of construction, stations, etc. This money has been raised by stock subscriptions and is held by about 700 stockholders, each and every one being a local merchant or clerk in one of the towns on the A. N. & S.. It is doubtless the only road in the history of railroad building where such a large body of stockholders have so tenaciously stuck together and carried out a project of such magnitude.

At the present time enthusiasm is developing over the prospect of building the road on to Manning in the north and to Villisca on the south.

BOYS IN REAL BATTLE.

They Use Shotguns At Too Close Range.

Guthrie Center.—Down in the vicinity of Bear Creek in this county was enacted a scene that has not been witnessed since the aborigines of Audubon county shot up the wick-ups of the denizens of the Big Woods in Guthrie county, as a result of which several young hopefuls are candidates for the hospital.

About a dozen boys from Guthrie Center were out in that neighborhood looking for jacks and molly-cottons. It was a fine day for rabbits. So fine, in fact, that all the rabbits had gone visiting over in the next county.

Finally the boys tired of hunting, and some one proposed a sham battle. Two sides were chosen and battle lines drawn. It was intended that the lines should be out of shotgun range of each other, but either the officer of the day had absorbed a little too much Bear creek water, or the armament was above the average, for the first few volleys perforated about a half dozens amateur Grants and Shermans with a pint of No. 6 shot. No one was seriously hurt, but several were pretty well ballasted with lead.

WHOLESALE GRAFT.

Deputy Sheriffs and Constables at Buxton Accused.

Albia.—Four deputy sheriffs and constables of Bluff Creek township, Monroe county, and which includes the town of Buxton, were placed under arrest and brought here for preliminary hearing on graft charges. They were arraigned in justice court and then given a contiuance.

The officers are charged with accepting a bribe, and the informations were not issued until the county attorney's office had been well fortified with affidavits from men who have been conducting joints in that township. The names of the men who will be placed under arrest are Nelson Walker, Ed Lee, Andrew Blakely and Jim Smith.

These men have been of the law compelling force of the county for several years, and during their time the joints have thrived at Buxton. An investigation from the county attorney's office found many joint keepers who were anxious to get from under the burden of paying bribes for immunity, and they gave such affidavits as to cause the filing of the informations.

Refuse to Drain Lowlands.

Burlington.—The board of supervisors has taken action on the question of draining the low lands in the north part of the county which stops the project and delays an improvement that meant the expenditure of some $250,000 and would mean an estimated million dollar increase in the value of the land. The action of the board was taken on the strength of the strenuous protests from the land owners who objected to the expense.

Burlington Barbers Strike.

Burlington.—Unkempt countenances on the patrons of the barbershops will be the rule in Burlington on account of a general walk-out of the barbers. Employes of two of the most prominent shops quit and others will follow suit during the day. The men want a straight salary of $12 per week and 60 per cent of their earnings. The old scale was $10 per week. The bosses are firm. Over 100 men are out.

SOLDIERS SENT TO MUNCIE

ADJUTANT GENERAL ASKS FOR THEM AFTER CONFERENCE.

Gov. Hanly Orders Battery and Twelve Companies of Infantry to Help Suppress Riots.

Muncie, Ind. — At a conference Friday night between Adjt. Gen. Perry, Mayor Guthrie, the sheriff, city officials and several prominent citizens, it was decided to ask Gov. Hanly to send state troops here at once.

When the day's work was ended many of the policemen who had been on constant duty for 48 hours lay down on the station floor and fell asleep. The majority of the special men who had been sworn in refused to serve longer.

As a result Gen. Perry telephoned Gov. Hanly details of the situation and he promptly ordered out battery A and four companies of Indianapolis infantry and eight companies from other cities in the state. The understanding was that martial law is not to be proclaimed unless necessary, the duty of the troops being to work in conjunction with the police in maintaining order. The troops will be brought by special cars.

Rioting was resumed Friday. Cars started to run on regular schedule without interruption and were not molested for several hours. A crowd attacked two cars in the outskirts of the city, hurling stones and other missiles, and after driving off the crews completely wrecked the cars. Squads of police were hurried to the place and over 50 arrests were made. The jail is nearly filled with rioters, and orders were repeated to arrest every member of a street gathering that contained more than three persons. There was no attempt at violence in the downtown sections of the city. Two of the rioters were badly hurt, one of them being cut in the throat with a knife, but not fatally hurt.

CHILDREN BURN TO DEATH.

Three Perish in Flames and Mother Is Badly Injured.

Collinsville, Ill.—The explosion of a lamp in the home of George Steger set fire to the house and three children perished in the flames. The victims, aged respectively eight years, four years and 18 days, were in bed when the explosion took place and scattered coal oil all over the room and saturated the bed clothing which at once burst into a roaring blaze. The mother, Mrs. Mary Steger, was seriously burned in attempting to rescue her children.

Paris Suburbanites in Riot.

Paris.—Three thousand suburbanites residing along the line of the Western railroad, exasperated by continuous delays in transit through which they allege they lose hours in pay daily and sometimes even are dismissed by their employers, Friday wrecked the offices at the St. Lazare terminus of the railroad and for an hour held the police at bay, finally being dislodged by the fire department, which played streams from two lines of hose upon them. The company says cold weather caused the delays.

Mr. Barnes, American

By Archibald Clavering Gunter

Author of Mr. Barnes of New York, Mr. Potter of Texas, That Frenchman, etc.

A Sequel to Mr. Barnes of New York

COPYRIGHT, 1907, DODD MEAD & CO. N.Y.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta purposes and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Suspicion is created that Marina is in league with the Corsicans. A man, believed to be Corregio Danella, is seen passing the house and Marina is thought to have given him a sign. Marina refuses to explain to Barnes which fact adds to his latent suspicions. Barnes' plans for the safety of the party are learned by the Corsicans. The carriage carrying their party to the local landing is followed by two men. One of the horsemen is supposed to be Corregio. They try to murder the American. The cook on the yacht—a Frenchman is suspected of complicity in the plot. The party anchors at St. Tropez. The yacht is followed by a small boat. The cook is detected giving signals to the boat. Barnes attempts to throw him overboard, but is prevented by Marina and Enid. The cook is found to be innocent of the supposed plot and is forgiven. The party arrive at Nice and find Lady Chartris and her daughter Maud domiciled in the villa rented with Barnes' money. Barnes is amazed to find that Count Corregio is at Nice and is acting the role of admirer to Lady Chartris. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival

CHAPTER VIII.—Continued.

"Will that woman never let me alone?" thinks the American, and pushes the note back in his pocket. "I'll forget Sally Spotts forever by going and seeing the minister."

But at the entrance to the residence of the divine a suspicion enters his mind that he is being followed. He makes his interview with the minister of the church of England a very short one, and coming rapidly out of the house, his quick eyes perceive two men on the opposite side of the street. These turn casually toward the traffic of the busy avenue from the railroad station and are lost in the crowd from an arriving train.

Now that his footsteps are being dogged, he thinks he had better see Perrier, the French detective recommended by the Pinkerton man. Therefore, keeping his eyes about him sharp at any dark corners of the streets, he walks to the Rue Palermo, and rings the bell at the house mentioned in Emory's letter.

Here an old woman concierge informs him that Monsieur Perrier's room is number four on the second floor.

Barnes, pushing his way to number four on the second floor, is confronted at the door of this apartment by a man of very brisk manner, sharp, penetrating eyes and a nose whose peculiar aquiline formation impresses itself on Barnes' memory.

"In order to avoid any mistake," whispers the American, "I simply mention to you the word 'Vendetta.'"

"And I simply reply 'Marseilles,'" answers the man, "but I don't wish to have anything to do with the affair."

"You are Monsieur Perrier?"

"Yes, of course; you know by my returning the word of recognition to you," remarks the Frenchman.

"I must have a reason for your declining to aid me. This matter is too important for you not to listen to me."

"I have been informed," answers Perrier, "by my poor friend Emory's letters of this peculiar and most unfortunate affair, but I do not wish to engage in it."

"Why not?" asks Barnes, shortly. "Don't you think I have money to pay for it?"

"Of course, I know Monsieur is rich," answers the Frenchman, deprecatingly. "But my life is my only asset. I have a wife and children. I saw one vendetta in Corsica a few years ago, and I don't want to get into another cat fight where cats are armed with stilletos. Your enemies already know your location at Villefranche. Bernardo Saliceti has come from Corsica hoping to win the election in his island by vengeance upon you. He and Enrico Danella, the dead Musso's nephew, are in Nice."

"Has Enrico a scar upon his forehead over his left eye?" asks Barnes, eagerly.

"He has."

"Then I've the name of the scar-faced gentleman, thank you," remarks Burton. "Now it is necessary you come into this affair, Perrier. You've got to aid not only me, but two women."

The answer that comes causes Barnes to look aghast.

"I dare not," answers Perrier, shortly. "The fate of my poor friend Emory is too horrible."

"Fate! What fate?"

"Why, he was to be here two days ago, according to his letters to me, to arrange for guarding your villa. He is not here even to-day. His last note from St. Tropez indicated he was close upon the track of those who have sworn this blood feud against you—and all who aid you. That letter was written four days ago and—what has become of Emory?"

"How can I tell?" mutters the American gloomily.

"But I can," answers the private detective. "Madame Blackwood, for whom I have executed some little commissions, called on me two days ago excitedly. 'Perrier,' she said, in her American abruptness, 'I want you to bring to justice some villains who murdered a Yankee detective named Emory, the other day near St. Tropez.' 'You saw him killed?' I asked. 'No, but I've got evidence—a few words from—' she checked herself; but added, 'I don't dare to tell Mr. Ruggles of this; he's so impulsive he'd spend his money and his blood, too, to bring a murderer of one of his countrymen to justice. So you just go on and get the evidence against these fellows and trot them to the guillotine.' But the fate of Emory warned me, I determined to give up the whole affair," adds Perrier.

"Thank you again," sneers Barnes, and coming out the American laughs to himself. But the mention of Madame Blackwood reminds him of her letter. "By George, Sally's note hinted at grave danger to me. It must be this Emory business!" and without more ado Mr. Barnes, hurriedly keeping his eyes alert for sudden daggers, makes his way to the promenade, by the sea and shortly after enters the luxurious Hotel St. Petersburg.

It is ten in the evening. He is about to send up his card to Madame Blackwood and request an interview when she enters. As she comes in by the ladies' entrance, the Kansas cattle king, who attends her, chances to glance into the office and calls out: "Whew, Barnes, that was a lucky address you gave me in Paris five weeks ago," and, taking him aside, whispers, "I caught the lady. The goods came high, but they're worth the money. Step up and have supper with us."

This invitation Barnes finds it impossible to politely decline, as Sally Blackwood has already put her beautiful eyes upon him and said: "So glad you're here. You mustn't refuse. We saw so little of you in Monte Carlo."

A moment later Barnes finds himself ushered into La Blackwood's private parlor, where supper is shortly served to them. Several times Burton is about to hint at the purport of her note, but the expressive eyes of the adventuress warn him to hold his tongue. Coffee, however, is no sooner served than the fascinating creature says: "Now, Dan, supposing you run downstairs and have your smoke there. I want to talk with Mr. Barnes of New York—something I don't want you to hear. That needn't make you jealous—it's about my parents in Ohio."

The minute the cattle king disappears the lady's manner changes. She cries airily: "Guess what made me write to you?"

"Hate," mutters Barnes, between puffs of his cigarette.

"No, though I ought to hate you. What I want to see you about—" La Blackwood's eyes become intense and her voice falls to a whisper—"is to save your life—if I can. Do you know that half of a commune in Corsica want your blood?"

"I've guessed it in the last few days," observes Barnes grimly.

"Are you acquainted with a certain Count Cipriano Danella?"

"Never have seen him."

"No, but you've heard of him?"

"Oh, yes, he's a brother of the Danella who was killed in Corsica."

"Yes. Now, this gentleman, who is a very good man and very tenderhearted, obtained an introduction to me about three days ago on the des Anglais. From some words of a Lady Chartris, a cousin of yours, he has learned that you are to marry very shortly the pretty girl whose lips I threatened to kiss at Monte Carlo. Well, this Cipriano Danella, who looks quite romantic in his Corsican mourning, while making love to me till Dan got jealous," she laughs slightly, "hinted to me that it would be very unfortunate for Miss Anstruther should she become Mrs. Barnes of New York; that, as your wife, she would be drawn into this blood feud that has been declared against you. 'Now,' suggested Count Cipriano, 'you are the lady best fitted by past friendship and present charm, to prevent this danger to the pretty English girl, by destroying the wedding.'"

"You have brought me here for this?" says Burton, his eyes growing angry.

"Wait! Listen! As an American, my desire is to protect you from death. I appeared to accede to Cipriano's request to fascinate you again. I wonder if I could do it?" She looks at him roguishly and laughs through her white teeth. "Don't be frightened of me. So I pumped the romantic Corsican, who made half love to me while he tried to persuade me. I found out that not only was the commune of Boco—Bocognano or something of that kind—anxious for your blood, but that several gentlemen from that neighborhood were here in order to obtain it, and to make their task easy, they had done up in some way or other a detective you had employed to shadow them, a Yankee named Emory, I believe. Therefore, I said to myself: 'I'll take care if possible to inform Mr. Barnes of the dangers that surround him, and if he is the man I think him, he is about as well able to protect himself and his coming bride as anyone I know."

"Hold up a moment. I want to ask you a question," interrupts Barnes. "What makes you think the devils have done up poor Emory?"

"Well, a careless expression of Count Danella—only this: 'He won't bother them again,' something of that kind from Cipriano."

"I must be going. I'm deeply grateful to you." Burton rises. "Mr. Ruggles—"

"Don't be afraid. Dan won't be jealous."

She extends to him her beautifully formed white fingers dazzling with rings. "Good-by, I hope you'll be happy on your wedding trip, but don't let love make you careless, mon Bayard."

Barnes takes her hint. His pistol is ready as he throws open the door of her apartment and passes cautiously out; so all the way down the stairs of the hotel he is careful as to corners, and out on the street, well peopled as is the Des Anglais, the American has a wary eye about him. Lady Chartris has doubtless told Cipriano Danella of his visit to Nice and that he returns with her to her villa this evening. He therefore breaks his appointment with Prunella and taking a hired carriage watches till the lady, tired of waiting, drives angrily home, then jogs along a few hundred yards behind her, ready for any emergency. But nothing of a threatening nature is seen.

As the vehicle enters the grounds of the villa, the sight of a Scotch tar on the lookout gives the coming bridegroom confidence in the sailor's watch.

As he wakes up in the morning, notwithstanding the thought that it is his wedding day is dominant in his mind, he reflects over the matter. What has this Cipriano Danella done except to arouse his suspicions? "Even the count's conversation with la Belle Blackwood didn't disclose that he meditated any attack upon me or my bride," he reflects, moodily, "only that Cipriano wished to prevent an innocent young girl being drawn into this frightful feud. Hang it, I can't shoot the cuss on suspicion—and yet!" The American closes his jaw with a snap and goes down to breakfast, to meet as charming a bride as the sun has shone upon.

"Why He Was to Be Here Two Days Ago."

Lightning in Role of Jailer.

In playing pranks about a house a bolt of lightning locked Wallace, fourteen-year-old son of William J. Wheeler, in a closet at Worcester, Mass., but failed to release him again. The boy was in the house, when a bolt completely wrecked the dining room, forcing the windows out onto the lawn. He sought refuge in his favorite place, the cupboard, and had no sooner entered it than the bolt hit the door and locked it. He remained there until his parents came home and heard his shrieks for help.

TEARS OF THE CROCODILE.

Belief Said to Have Origin in an Ancient Fable.

The phrase "crocodile tears" owes its origin to the imagination of some of the old travelers, who invented the fable that the crocodile weeps over its prey. One of the earliest English globe-trotters to mention this fiction was Sir John Mandeville, who in his "Travels" (1499), speaking of "Aethiop," "Ynde" and an "Yle clept Silla," says: "That Lond is full of Serpents and of Cokadrilles. Theise Cokadrilles ben a manner of Long Serpents, zalowe and rayed aboven, and had 4 Feete and schorte Thyes, and grete Nayles as Clees or Tallonns; and there ben sume that had 5 Fadme in length; and sume of six and a halfenday. And in the nyght thei dwellen in the Water, and on the Day won upon the Lond. Theise Serpentes slue men, and thei eten hem wepynge; and when thei eten thei moven the over Jowe, and noughte the nether Jowe, and thei have no Tonge."—Montreal Standard.

A Celebrated Celibate.

A young and handsome rector was recently engaged for a fashionable church. One of the vestrymen with a keen relish for a joke circulated the rumor that the new parson belonged to the order of celibates, thinking thereby to baffle the spinsters and widows of the congregation who were many. One matron, with several marriagable daughters, assembled these and a few young friends about her, and gave the group a solemn warning. "Now, girls," she said, "you must not fall in love with the rector. You know he is a celebrity!" And a celebrity the poor man remained so long as he was rector of that church.

IMMENSE THRONG ATTENDS NEW YEAR'S RECEPTION.

ALL OFFICIALDOM THERE

Brilliant Scene in the White House—Mr. Roosevelt Especially Greets Centenarian Resident of Washington.

Washington. — Theodore Roosevelt Wednesday officiated for the seventh time as president of the United States at the New Year's reception at the White House. Assisting him in exchanging the salutations of the season were Mrs. Roosevelt and the members and ladies of the cabinet.

The niceties of diplomatic etiquette were religiously observed in the conduct of that part of the reception which has grown during the past hundred years and more to partake largely of the nature of an official function. In this way, but without appearance of prearrangement, the president greeted first the vice president and the members of his cabinet, then each foreign nation represented in the person of ambassador or minister; the judiciary, through the personnel of the supreme court bench and the judges of the local federal and district courts; senators and representatives in congress; officers of the army, navy, marine corps and militia of the District of Columbia; heads of government bureaus, and members of government commissions; organizations of veterans, and Oldest Inhabitants' association of the District of Columbia.

Public There In a Throng.

Then came the public gathering in a constantly lengthening line at the west gate of the White House grounds, the people had stood since nine o'clock in the morning. It was one o'clock when the gates were opened to admit them. The line, kept intact by a special detail of police, now extended in double column for two blocks up Pennsylvania avenue and for two blocks down Seventeenth street past the state, war and navy building. It was a joyous holiday throng and left its impress of good feeling on the president, who, after more than four hours of handshaking, expressed exhiliration rather than exhaustion.

Three members of the recent Central American peace conference, who still remain in the city, were specially invited guests, including Senor Don Policarpo Bonilla, ex-president of Honduras; Senor Don E. Constantino Fiallos, minister of foreign affairs of Honduras, and senor Don Jose Madriz of Nicaragua, secretary to the conference. W. W. Rockhill, United States minister to China, also was in attendance. Assistant Secretaries Bacon, Adee and Wilson occupied themselves actively in entertaining the diplomats.

Admiral Dewey, who has just passed his seventieth birthday, headed the naval contingent, and was heartily greeted by the president.

Admiral Brownson Calls.

Rear Admiral Brownson was one of the first officers of the navy to greet President Roosevelt. To do this he left his place in the line as soon as he entered the White House and made his way through the crowd and into the red parlor, passing Rear Admiral Rixey and taking his place immediately after the army officers who preceded the navy. Admiral Brownson's hand was grasped by several of his brother officers as he was making his way ahead of them. After his greeting to the president, which was cordial, he remained in the east room for some time chatting and receiving greetings.

President Roosevelt took occasion in his New Year's greeting to Dr. Starr, who has just celebrated his one hundredth birthday anniversary, to congratulate the veteran member of the Oldest Inhabitants' association and wish him many returns of the day.

"You, sir, have seen the growth of this republic," said the president as he recognized Dr. Starr, and recalled his previous New Year's visits.

Dr. Starr made an earnest reply, whereupon the president remarked: "Any word from you, sir, will receive instant consideration."

Secretary Cortelyou, who has been confined to his home for some time past with an attack of the grip, had so far recovered as to be able to attend the reception. He was warmly greeted by the president and his fellow cabinet members.

Shakes Hands 5,645 Times.

The last person in the line, a newspaper man, asked the president if he was tired. "Not a bit," he replied, laughing. Just then Chief Usher Stone informed the president that he had shaken hands 5,645 times. Beyond another laugh the president made no answer.

Throughout the long reception Mrs. Roosevelt and the ladies of the cabinet stood with the president in the blue room. They appeared to be not fatigued by the ordeal. The reception terminated at 1:57 p. m.

DES MOINES LETTER

Items of Interest From Our Correspondent at the State Capital.

Capt. Kulp Is Reprimanded.

Des Moines.—Governor Cummins on the 4th administered the reprimand coming to Capt. Oliver W. Kulp of the Davenport company of the national guard for not preventing the prize fight of Nov. 21.

Governor Cummins severely criticised the court martial for its remarkable finding in the reprimand administered to Captain Kulp in accordance with that recommendation.

In this connection the governor's order says:

"With the foregoing record and sentence the courtmartial submitted certain suggestions and recommendations. Among them are the following:

"First—That the accused had, until this occurrence, an excellent record as an officer of the Iowa National guard.

Second—That he was to some extent affected by local sentiment and influence.

"Third—That he was a frank witness and his apparent effort to carry out the letter of the order, even though he erred in interpreting it, are worthy of note; but the court adds that he did not do all he should have done pursuant to the order, and it calls attention to the fact that obedience to orders is the first duty of a soldier, regardless of personal consequences, and that the accused in failing to observe this duty had marred an otherwise excellent record as a soldier.

"The court further suggests to me that while the accused did not wilfully disobey the order given him, yet either through ignorance or negligence he failed to carry it out; that the order was not so specific but that he might have been led to believe that a discretionary power was granted him to determine whether the exhibition which took place, by his permission while it might have lacked some of the elements of a prize fight, was certainly one that should have been prevented under the order received and in his failure to prevent the same the accused erred; that though he thought he had discretionary power, he should have communicated with the commander-in-chief, and advised him of the proposed change in the exhibition and that in failing to do so he clearly violated the military rule that enjoins upon all subordinates the duty of advising commanders whenever possible of changed situations.

"The above is the substance of the paper accompanying the record and sentence, in so far as it is material to the matter in hand, and it is due to the people of the state, to the guard, and to Captain Kulp, that it be given publication.

"I have implicit confidence in the members of the court martial, and have no doubt that they gave to the case the most faithful and honest consideration; but inasmuch as I must determine the character of the reprimand to be administered to Captain Kulp, I am compelled to say that as I view the matter, the order was as specific as it could have been made, and that Captain Kulp disobeyed it witnout any excuse whatever. His conduct has impaired the faith that the people of the state have had in the national guard, and every officer and all its men will suffer for his failure to perform a plain duty. It may be that he was not conscious that he was violating the order given to him but when he allowed himself to be persuaded into unconsciousness of duty he was guilty of as grave an offense as an officer can commit.

"What I have said constitutes the reprimand imposed by the court martial upon Capt. Oliver W. Kulp, Company B, Fifty-fourth infantry, Iowa National Guard, and I earnestly hope that never again will an officer or man of the Iowa National Guard be unfaithful to the trust reposed in him.

"Albert B. Cummins."

To Revise School Statutes

Prof. F. E. Bolton of the State university was made chairman of the new legislative educational commission at its first meeting at the office of the governor at the capitol.

Arthur Springer of Columbus Junction was made the secretary of the commission of which he, Professor Bolton, and William H. Baily of Des Moines are the members under appointment by Governor Cummins by act of the legislature.

At this initial meeting the commissioners discussed their work at some length and in a general way arranged the details of the preliminary investigation which they propose to make.

It was decided that Mr. Baily should rearrange the present school laws in a general way, as a preliminary classification. Mr. Springer was commissioned to collect and annotate the decisions of the supreme court and of the superintendent of public instruction with reference to their bearing on the statutes. Mr. Bolton in the meantime will secure information with respect to comparative school legislation.

Teachers Choose Officers.

The following were chosen officers of the State Teachers association at the annual meeting:

President—Principal Abbie S. Abbott of Cedar Rapids;

First vice president—Principal S. L. Thomas of Council Bluffs.

Second vice president—County Supt. E. J. Hook of Decorah;

Third vice president—City Supt. Charles E. Bodgett of Atlantic;

Member of executive committee—Prof. F. F. Almy of Iowa college, Grinnell;

Members of educational council—Principal Maurice Ricker of Des Moines and County Supt. Fred Mahannah of Mason City.

Treasurer G. W. Samson of Cedar Rapids and Secretary C. R. Scroggie of Des Foines hold their offices for another year, and consequently no nominations were made for these two positions.

Miss Abbott is the third woman to serve as president of the association. She is decidedly popular among the teachers, and her selection will give general satisfaction.

The State Teachers' association this year is the record breaker for the association. For the first time in history the enrollment has reached 1,537. Last year it came to 1,445, which was then the record breaker year. The certificates this year were made non-transferable and no buttons issued, so that this number means the actual number of teachers in attendance. Des Moines furnished 500 of the teachers enrolled.

Want Superintendency Appointive.

In face of the allegation that the county superintendents do not wish it themselves, the State Teachers' association decided that the office of county superintendent should be taken out of politics and made appointive rather than elective. Even if the county superintendents do not wish to legislate themselves out of politics the state association, by its indorsement of a resolution assumed the initiative to having that office removed so far as possible from politics by further legislation.

Before adjournment the association adopted a number of resolutions as the report of the committee on resolutions embracing all of the points adopted separately by the association, and were:

"That the best interests of the schools of Iowa demand that teachers' institutes be supported at public expense and not by a system of fees as at present, and that teachers receive their regular wages for attendance at such institutes.

"That since we believe any division of our educational resources would prove a serious detriment to the cause of secondary education in our state, we are opposed to the establishment at the present time of separate technical high schools in Iowa out of state funds.

"That we recommend the enactment of a law providing for a minimum wage for teachers and for an increase in this wage graded according to the teachers' experience, success and scholarship.

"That we recommend amendment to the present truancy law as follows:

"To make compulsory the employment of a truant officer by the board of directors of every school corporation.

"That we declare ourselves in favor of making the county superintendency an appointive instead of an elective office.

"Resolved, by the State Teachers' association, that we heartily approve the present law for the certification of teachers, as wise in its conception and as tending to raise the educational standard of our state; that we also commend the efforts of our state department and our educational board of examiners to give the law a wise, effective and reasonable interpretation."

Governor for Better High Schools.

Governor Cummins declared for better high schools in his address at the normal banquet in Shrine temple. He said that the courses in the high schools should be so arranged as to provide for the final training of the young instead of being a mere preparatory school.

The governor said that the Iowa schools are better than those in any other state in the country. He especially praised the rural schools of the state, but stated that they should be fewer, that each one might have a larger attendance, thus making it possible to give to pupils the best possible attention. Governor Cummins said that the rural teachers of Iowa are not paid enough, but in order to increase their salaries the school houses should be fewer and of better grade.

The governor closed his speech by asking the normalites to stand by the state certificate law, which has recently caused some trouble among the educators of the state.

Another Remarkable Cure of Serious Kidney Trouble.

C. L. Wood, a prominent merchant of Fentress, Norfolk Co., Va., was suffering some months ago with frequent attacks of hard pain in the back, kidneys and bladder and the kidney secretions were irregularly scanty or profuse. Medical treatment failed to cure him. "At last," says Mr. Wood, "I began using Doan's Kidney Pills, and before one box was gone, I went through four days of intense pain, finally passing a stone, one-half by five-sixteenths of an inch in diameter. I haven't had a sign of kidney trouble since."

OBJECT LESSON FOR CHILDREN.

Mayor Was Quick to See and Impress Good Point.

It was five minutes before noon. The mayor and the state superintendend had spent an hour talking to the children in an Ohio school, and just before the stroke of the gong the chairman of the local school committee was called upon to follow them.

"Children," he said, pointing toward the window, "as you go out from the school in about two minutes you will see a gang of men who are now shoveling cinders into a railway train. They are earning $35 a month.

"Beside them is a timekeeper earning $55.

"At the head of the train is an engineer getting $100, and over him is a superintendent getting two hundred.

"What is the difference between those men? Education. Get all you can of it."—Youth's Companion.

Father—Yes, you're a regular little pig! Wouldn't give your brother any of that candy. Do you know what a little pig is?

Kid--Er—er—sure—er—pig is—er —hog's little boy.

For an Appetite.

"You must have a good appetite," remarked the thin man, enviously. "What do you take for it?"

"In all my experience," replied the plump one, "I have found nothing more suitable than food."

Whether our crosses are bearable or not depends upon our method of carrying them.—Elizabeth Gibson.

FOUND A WAY

To Be Clear of the Coffee Troubles.

"Husband and myself both had the coffee habit and finally his stomach and kidneys got in such a bad condition that he was compelled to give up a good position that he had held for years. He was too sick to work. His skin was yellow, and I hardly think there was an organ in his body that was not affected.

"I told him I felt sure his sickness was due to coffee and after some discussion he decided to give it up.

"It was a struggle because of the powerful habit. One day we heard about Postum and concluded to try it, and then it was easy to leave off coffee.

"His fearful headaches grew less frequent, his complexion began to clear, kidneys grew better until at last he was a new man altogether, as a result of leaving off coffee and taking up Postum. Then I began to drink it, too.

"Although I was never as bad off as my husband, I was always very nervous and never at any time very strong, only weighing 95 lbs. before I began to use Postum. Now I weigh 115 lbs. and can do as much work as anyone my size, I think.

"Many do not use Postum because they have not taken the trouble to make it right. I have successfully fooled a great many persons who have drunk it at my table. They would remark, 'You must buy a high grade of coffee.' One young man who clerked in a grocery store was very enthusiastic about my 'coffee.' When I told him what it was, he said, 'why I've sold Postum for four years but I had no idea it was like this. Think I'll drink Postum hereafter.'"

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville" in pkgs. "There's a Reason."

HERE GOES ANOTHER ILLUSION.

"Fiddling Bob" Declares He Has Not Played for Many Years.

Another cherished illusion has been shattered. Senator Taylor of Tennessee, lovingly called throughout the union "Fiddling Bob," doesn't play the fiddle after all. He has entered a formal denial. Pretty soon somebody will be saying that Congressman Richmond Pearson Hobson of Merrimac fame never kissed a pretty young hero worshiper. Representative Hughes of New Jersey asked Senator Taylor about his musical accomplishments.

"Haven't played a fiddle for a dozen years," said the Tennesseean. "That fiddling story is all wrong. I haven't touched a bow for years."

"Maybe you play the violin, then?" ventured Hughes.

"Oh, I never even saw one of those darned things," retorted the senator.

DOCTOR SAID "USE CUTICURA"

In Bad Case of Eczema on Child—Disease Had Reached a Fearful State—His Order Resulted in Complete Cure.

"When I was small I was troubled with eczema for about three months. It was all over my face and covered nearly all of my head. It reached such a state that it was just a large scab all over, and the pain and itching were terrible. I doctored with an able physician for some time and was then advised by him to use the Cuticura Remedies which I did and I was entirely cured. I have not been bothered with it since. I used Cuticura Soap and Cuticura Ointment but do not know exactly how much was used to complete the cure. I can safely say that Cuticura did a lot for me. But Not the Same.

Mushley—Indeed, yes, he's very tender-hearted. I really believe if a beggar approached him and he had no money about him he'd actually take off his coat and give it to him.

Crabbe—Well, I'm not tender-hearted, but some of these nervy beggars make me feel like taking off my coat and giving it to them—good and proper.

Parisian Electro Skin Food

The New Discovery, guaranteed absolutely and wholly soluble. The skin absorbs it as if by magic. **It is the only preparation for the skin ever discovered that will truly and surely develop.** It is made additionally effective by the aid of electricity, being thoroughly charged during the process of manufacture, rendering it further soluble and more susceptible to free introduction through the pores. **It is the only Skin Food thoroughly and completely absorbed by the skin** (hence the only true developer), in fact the skin fairly eats it, resulting in the speedy and permanent banishment of wrinkles, pimples, blackheads and facial blemishes of every kind. It makes hollow cheeks plump and rosy. It develops plumpness wherever applied; face, neck, chest or hands. It is the only preparation of its kind that will **actually produce the much coveted** rose-tinted complexion. Its electro and healing qualities also make it an efficient remedy for chapped hands, lips, cuts, bruises, sores etc. Two or three applications will clarify and whiten the skin and make it as soft as velvet, and its continued use for a few weeks will produce absolutely marvelous results in the most obstinate cases. **An elegantly clear and flawless complexion awaits every lady who avails herself of this opportunity.** In order that everyone may know of its great worth as a developer and beautifier, we will send by return post our regular large $1.00 jar for fifty cents in stamps and the name of your nearest druggist.

MISS ANNIE CATRON

CATARRH MADE LIFE A BURDEN TO ME.

MISS ANNIE CATRON, 927 Main St., Cincinnati, Ohio, writes:

"As I have found Peruna a blessing for a severe case of catarrh of the head and throat which I suffered from for a number of years, I am only too pleased to give it my personal endorsement.

"Catarrh, such as I suffered from, made life a burden to me, my ***breath was offensive, stomach bad, and my head stopped up*** so that I was usually troubled with a headache, and although I tried many so-called remedies, nothing gave me permanent relief. I was rather discouraged with all medicines when Peruna was suggested to me.

"However, I did buy a bottle, and before that was finished there was a marked change in my condition. Much encouraged I kept on until I was ***completely cured*** in a month's time, and I find that my general health is also excellent."

People who prefer solid medicines should try Peruna tablets. Each tablet represents one average dose of Peruna.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BROWNSON SCORED

PRESIDENT GETS AFTER NAVAL QUITTERS.

SAYS SUCH ACTION CHILDISH

Executive Deplores Lack of Obedience and Loyalty in Navy Department.

Washington, D. C., Jan. 6.—President Roosevelt's attitude on the question of the command of hospital ships in the navy, which resulted in the resignation of Rear Admiral Brownson, and incidentally caused some caustic observations on that incident, and the controversy among the naval officers and their adherents as to details of naval construction and methods of training, were made known yesterday when Secretary Metcalf gave to the press the following letter:

Washington, D. C., Jan. 2. 1908.—The Secretary of the Navy: In accordance with our conversation today, Captain Pillsbury will be appointed chief of the bureau of navigation.

The action of the late chief of the bureau, Admiral Brownson, in tendering his resignation because he did not agree with the president and the department regarding an order, issued before he came into the bureau, by the secretary of the navy as to the control of the hospital ships, was unseeming and improper, and coupled with the various controversies among the officers of the navy and their adherents as to details of naval construction and methods of training, has undoubtedly been prejudicial to the interests of the navy, and may seriously impair the confidence in the navy, which is essential to securing the legislation so sorely needed by the navy.

The way in which these controversies have been carried out is highly injurious to the service, whether the communications are made openly over the signatures of the naval officers or by civilians who have evidently gained their information from naval officers. There always are and will be defects to correct, both in the construction of ships and in the organization of the department and in the actual drill of the fleet. It is well that these defects should be pointed out, but it is also well that they should be pointed out without hysterical exaggeration or malicious untruthfulness; while it is of course reprehensible in the highest degree to exploit them in grossly exaggerated form in the fancied interests of an individuals or clique of individuals, or for the sake of supplying sensational material to some service or nonservice newspaper.

The officers of the navy who are guilty of such conduct deserve grave rebuke. They cast discredit upon the service and their conduct is deeply mortifying to every American who believes in the navy; and is anxious to uphold its interest and honor. There has been so much misrepresentation and exaggeration that I desire you to make me a statement as to the exact facts concerning which there has been dispute. In particular, I desire to get the opinion of Admiral Converse, who, until last spring, was chief of the bureau of navigation, and whose high professional standing and professional knowledge and attainments, render him peculiarly fit to give judgment.

I would willingly pass over the conduct of Admiral Brownson because of his fine service in the past if it were not that at a time when a new chief is chosen to succeed him it becomes imperative to stamp with disapproval the behavior which, if followed through the navy generally, would literally ruin the navy's efficiency. The questions as to which Admiral Brownson took issue with the department I will deal with in a separate letter. It is one as to which there can be entirely legitimate differences of opinion, although in my judgment the considerations in favor of the course decided upon are overwhelming. But there is no room for difference of opinion as to the gross impropriety of the admiral's conduct in resigning sooner than carry out the orders of his superior officers in such a matter.

The question whether one officer or another shall command a ship is of little consequence compared with the weakening of all command and discipline, which would result if officers were to refuse to serve whenever their tempers are ruffled by adverse decisions on the part of their superiors. Their sole concern should be the good of the service and save only lack of courage in actual warfare, obedience and loyalty are the most essential qualities in keeping the service up to the highest standard. The different bureaus of the department, the different branches of the service, must act in co-ordination or the questions that arise between them must be settled by the authority of the secretary of the navy and of the president, under and in accordance withthe law enacted by congress—"and the first duty of every officer, whether of the line, of the pay department, of the medical department or of the construction department, whether in one bureau or another, is to give immediate and loyal obedience to every lawful command of a superior and of course, above all, to the law itself. This duty is incumbent upon all, but it is most incimbent upon those highest in rank, whose example may be of far reaching effect."

(Signed) Theodore Roosevelt.

Danderine

Grew Miss Carroll's Hair

AND WE CAN

PROVE IT!

BEAUTIFUL HAIR

AT

Small Cost

WITHIN the last decade great and rapid strides have been made in the medical profession. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been searching for the cause, the foundation, the reason and the starting point of disease, fully realizing that the actual and true cause must be ascertained before the remedy can be created. Hair troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the **hair** grows must receive the attention if you are to expect **it** to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural and logical thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Dr. Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp.

It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One twenty-five cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—**try it and see for yourself.** Now on sale at every **Drug** and **Toilet Store** in the land. Three sizes,

Why Sloan's Liniment and Veterinary Remedies Are the Best to Use.

Let me tell you why Sloan's Liniment and Veterinary Remedies are the safest and most practical on the market to-day. In the first place, Dr. Earl S. Sloan is the son of a veterinary surgeon, and from his earliest infancy he was associated with horses.

He bought and sold horses while yet very young. He practiced as a veterinary for 20 years and has battled successfully with every disease to which that animal is subject.

All his remedies are the result of experiments made to save life or relieve suffering while he was practicing his profession.

Any reader, by writing to Dr. Earl S. Sloan, 615 Albany Street, Boston, Mass., will receive "Sloan's Treatise on the Horse," free. This book tells how to treat horses, cattle, hogs, and poultry.

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. If hunters would keep these few simple things in mind, many lives would be saved every year.

That a large part of the eastern fresh halibut comes from the Pacific coast will probably surprise many of the lovers of that huge fish. The business of western halibut is growing constantly, and the supply going to Boston comprises about all of the 25,000,000 pounds a year taken by the fishermen in Seattle and Alaska. The fish is carefully boxed and iced down and then rushed to Boston by express freight and sold back again to New York, Chicago, and other large centers for distribution. Comparatively little halibut is brought to Boston in vessels.

KILED BY TRAIN.

Young Man Meets Death Under Wheels at Osceola.

Osceola.—Frank Prine was instantly killed and T. Carson was probably fatally injured here at 11:30 o'clock p. m. by a Burlington fast mail train bound for Chicago. Prine was 20 years of age and had been employed by a farmer named E. G. Paul, residing near here. Carson is 21 years of age and resides in New Virginia, a few miles distant. They were returning home from visiting their sweethearts in Osceola.

No one saw the accident except the engineer of the flyer. The young men were crossing the track behind a freight which had pulled in on the siding. They did not know the passenger was coming. When about 100 yards from the depot the iron monster suddenly bore down upon them. They scarcely had time to see it before their bodies were hurled fifty feet from the track.

The engineer applied the emergency brakes and backed the train to the scene. Passengers and train officials got down and went to the crushed and bleeding bodies. Prine was dead, his bones ground to fragments by the awful contact with the boiler head. Carson lay near Prine, groaning feebly. They carried him across the tracks to the hotel, where medical aid was summoned quickly. He complained of his leg and his back. The limb was broken and he is injured internally. He could make no statement. The doctor says he will die.

THE CONTRACTORS LOSE OUT

Court Refuses Them Pay for Unauthorized Ditch Construction.

Sidney.—The auditor of Fremont county and the board of supervisors have been enjoined by the taxpayers interested in the Mule Slough ditch from making any further payment to Katz, Callaghan & Co., the contractors who dug the ditch. Warrants to the amount of $26,831.91 have already been issued to Katz, Callaghan & Co., which sum the taxpayers claimed was more than $7,000 in excess of the amount named in the original contract. The contractors claimed that there was still due them in addition to the amount already received, $6,335.79, as the amount of earth removed exceeded by many thousand yards the estimate upon which the ditch was established. The case was tried before Judge Macy last October and in his decree just rendered the judge holds that the contractors are entitled to the amount already received, but no more, as no changes in the dimensions of the ditch had been authorized by the board and the changes made were so great as to amount to a fraud on the rights of plaintiffs.

A REAL LID FOR SIOUX CITY.

Anti-Saloon Man Extends His Campaign for Law Enforcement.

Sioux City.—After porsecuting nearly every saloon in Sioux City, the Rev. H. H Sawyer, superintendent of the Woodbury County Anti-Saloon league, has been consulting with the attorney of the league as to the advisability of bringing actions against disorderly resorts which sell liquor without paying the mulct tax. Most of these houses pay simply a government license for selling liquor. It has been practically decided to start proceedings against these places. During the past two years the anti-saloon league has waged a relentless warfare against saloons, and at the present time the Martin law is being pretty well observed. In the district court, Frank Donohoe, landlord of the Hotel West, was fined $200 for violating an injunction by keeping his bar open after hours, and Len Lesenich and William Mason, proprietors of the Chicago house, were each fined $200 on the same grounds.

GIRL SHOOTS YOUNG MAN.

Sad Accident Threatens To Break Down Her Mind.

Osceola.—Will Green, the 18-year-old boy who was accidentally shot with a rifle at the home of William Loomis, north of Osceola, has died of his wounds. His home is in Nebraska, but he was visiting at the Loomis home.

While Green was engaged in practice with a 22-caliber rifle, one of Mr. Loomis' daughters, about 18 years of age, came up. Green handed her the rifle, which was a repeater. The girl saw the old shell ejected and not knowing that a new one had taken its place, she put her hand on the trigger. The gun was discharged, shooting Green in the abdomen. The girl was so shocked that it was necessary to take her away to recover.

Loses Arm in Corn Shredder.

Creston.—A most distressing accident happened to James Kiever, a well known citizen of Prescott. While employed with a corn shredder, his hand was caught in such a manner as to draw his arm into the machine, crushing and tearing it in a shocking manner.

CLINTON BAND OF THIEVES.

C. & N. W. Men Charged With Thefts.

Clinton.—Warrants have been issued for the arrest of twelve of the local employes of the Chicago & Northwestern railroad company, who are accused of the crime of larceny. No arrests have yet been made, but it is believed there will be sensational developments, as the men accused by the local officials of the company are all employes of the railroad company in Clinton.

The men are accused of stealing grain from cars in the local yards, and it is said they adopted very ingenious methods to extract the oats and shelled corn from the company's cars. One of these, the story goes, was to drill a small hole in the bottom or side of the car, with an augur. Beneath the hole they held a sack, and as the grain poured out through the orifice, they caught it and sacked it up. Another way was to pry loose a board and let the grain run through into sacks. The augur hole was filled, and the loose board replaced, so it was some time before the company ascertained that these methods were being used to take grain from merchandise cars at this point.

SAVES TWO LIVES; RISKS OWN.

Jack Colwell of Atlantic Injured While Making Rescue.

Atlantic.—A runaway broncho, riderless and crazy wild, almost crushed the life out of Mrs. Geo. Birdsell, and her small child at a street crossing. Only the heroism of Jack Colwell, an engineer on the Rock Island, preventing a tragedy.

Colwell, who saw the horse plunging toward the woman ran forward, shoving the woman and child out of danger. But he was not quick enough to save himself and was struck by the brute. The man and horse crashed into an iron railing closing the stairway leading into the basement, and it was miraculous that Colwell was not killed outright. The iron railing was bent almost double by the force of the impact.

The rescuer was helped out of the stairway and was taken to a physician's office where an examination did not disclose any broken bones but his left arm was lacerated and his front teeth were loose. His left side was badly crushed from contact with the rail.

CHECK CRAFTERS CAUGHT.

C. E. Bragg and Oscar Clow Names Given.

Cedar Rapids.—C. E. Bragg and Oscar Clow, two smooth young fellows who have worked the forged check racket with success during the past month in Des Moines, Burlington, Ottumwa, and elsewhere, were captured here by Capt. McCuire, just as they were getting ready to start their work. These fellows dressed to represent brick masons or plasterers, visited saloons and restaurants usually, and presenting checks for small amounts, have little trouble in floating them.

They secured nearly a hundred dollars at Ottumwa and about the same sum at Burlington. Working clothes blanks, checks, etc., of value in assisting in prosecution, were recovered from their grips.

The two men had about $400.

Judge to Prosecute Saloons.

Ottumwa.—Judge Roberts of the district court announced that he would take the saloon injunction cases out of the hands of the attorneys of the Anti-Saloon league for the present and make an investigation of conditions on his own account. He directed the county attorney to report on the methods of the saloons in Ottumwa, and intimated that there must be a strict oberience of the provisions of the mulct law. Meanwhile the saloons of Ottumwa are endeavoring to keep within the provisions of the law.

Hollen Must Take Medicine.

Atlantic,—The appeal case of Henry Hollen, who was convicted of misappropriation of funds and gross carelessness while in office as supervisor and who was removed from office, seems to have been waylaid and the last of the now famous case seems to have been written. The attorneys for the ex-supervisor were too slow in perfecting their appeal and County Attorney Goodspeed moved that it be for filing had passed before the brief dismissed, because the legal limit was ready.

Boy Kills Himself.

Hiteman.—"Watch me kill myself!" said 16-year-old Dennis Armena, as he placed a 22-caliber revolver, which had failed to go off after repeated snapping, in place over his heart and pulled the trigger. The cartridge exploded and he fell dead at the feet of the little brother to whom he had made the remark. The two boys had gone to the Hiteman cemetery to practice shooting at a target.

SENSATIONAL CHARGES IN SNELL SUIT AT CLINTON, ILL.

Son Trying to Break Will—Late Millionaire Spent Large Sums on Grand-Niece.

Clinton, Ill.—Testimony was begun Thursday in the suit instituted by Richard Snell, son of Col. Thomas Snell, the late millionaire railroad builder, in the Dewitt county circuit court to break the will which cuts young Snell off with an annuity of but $50.

Sensational statements were made by counsel for the plaintiff to the effect that Col. Snell had expended no less than $300,000 upon women during the last ten years of his life, of which $75,000 had gone to his alleged grandniece, Maybelle Snell, of Kansas City, Mo., now Mrs. McNamara.

The plaintiff stated that letters will be read to the jury that were found among Col. Snell's possessions indicating that society women had cajoled nearly a quarter of a million dollars from the late millionaire.

Richard Snell, who is president of the Dewitt County National bank, alleges that the terms of his father's will were the result of an "evil and wrongful influence" exerted over his father by Mabelle Snell, now Mrs. McNamara.

Col. Snell made his fortune building railroads, including 800 miles of the Illinois Central. During the civil war he commanded the One Hundred and Seventh regiment of Illinois volunteers. He died over a year ago at 90 years of age.

Kansas City, Mo.—Mr. James V. McNamara, formerly Miss Maybelle Snell, was married last November. Her husband is chief deputy sheriff of Jackson county, and the couple live in this city. Mrs. McNamara and her mother, Mrs. Priscilla Snell, declined to discuss the Snell will case.

Miss Snell was left $1,200 a year by the Illinois millionaire. Besides this her relatives gave her securities and deeded lands within the last four or five years amounting to not less than $25,000.

CURRENCY BILL BEFORE SENATE

Republican Measure Is Introduced by Mr. Aldrich.

Washington. — Senator Aldrich introduced in the senate Tuesday the currency bill which for some time has been under consideration by Republican members of the senate committee on finance. At his request the bill was read in the senate and careful attention was awarded the reading.

The bill provides for an additional issue of bank circulation which shall at no time exceed $250,000,000 upon bonds other than those issued by the government, including state and municipal bonds in approved cases. The comptroller of the currency is given discretion in the issuance of the proposed currency and is authorized to decide as to the time and the amount to be awarded to any banking institution. It is provided that the increased circulation shall in no case exceed 75 per cent. of the value of the bonds deposited.

Graft Scandal in St. Joseph, Mo.

St. Joseph, Mo.—Walter C. Stewart, superintendent of the municipal lighting plant, with which he has been connected 21 years, has been indicted by the grand jury, charged with obtaining money by false pretenses and on false certificates. Charles W. Waller, foreman, also an old employe, is under arrest. There are two charges against Stewart, seven against Waller, and seven against Ferdinand Mays, a saloonkeeper, who is charged with forgery in connection with cashing time slips.

"BLACK HAND" IN CLEVELAND

Ohio City Said to Be Center of Organization's Operations.

Cleveland, O. — That Cleveland is the center of so-called "Black Hand" operations is the declaration made Wednesday night by 18 detectives from several important cities in the United States, now here searching the city for members of that organization. Chief A. J. Phumphrey of Baltimore, who is trying to extradite John Scallata, wanted in Baltimore on a charge of dynamiting, has seven men with him, and officers from Buffalo, Syracuse, Harrisburg, Pittsburg, New York and Wheeling are assisting the Baltimore official.

The wholesale manufacture of explosives, it is claimed, has been conducted in Cleveland by Black Hand men. The police claim to have obtained information showing that several hundred "dangerous" Italians lately have found asylum here. Letters demanding large sums of money have been received by local wealthy Italians.

BROWNSON CASE DISCUSSED.

Comes Up When Senator Hale Introduces Navy Personnel Bill.

Washington. — The Brownson affair was the chief topic of discussion in the senate Thursday. It was brought up when Senator Hale explained the navy personnel bill which was introduced by him. The presentation of the bill led Senator Tillman to ask whether members of the committee would have an opportunity to get facts in relation to the controversy over the Brownson affair. Mr. Tillman intimated that he wished to call before the committee witnesses to testify concerning this matter. Mr. Hale replied that he thought there would be no obstacle to allowing the senator to do that.

The members of the house participated in a lottery for rooms in the new office building, and great confusion resulted.

BISHOP WORTHINGTON DIES

Prelate of Nebraska Expires Suddenly in France.

Mentone, France.—Rt. Rev. George Worthington of Nebraska, who was recently appointed to take charge of the Episcopal churches on the continent in succession to Bishop Henry Potter of New York, died here Tuesday.

Dr. Worthington was walking in the direction of Cap Martin alone when he was suddenly taken ill. He asked a stranger to help him into a trolley car, but he had no sooner entered the car than he fell dead. The body was removed to the Catholic cemetery, as no papers were found on it by which it could be identified. Later, however, it was identified by Mrs. Worthington as that of the bishop.

Government Sues Railroads.

Danville, Ill. — The United States government Monday filed suits in the federal court here against the Iron Mountain, the Illinois Central and the Mobile & Ohio railroads, charging violation of the cattle quarantine law. It is alleged that the defedant railroads transported cattle suffering from fever from points in Mississippi, Alabama and Arkansas to the National stockyards at St. Louis.

Three Killed in Wreck.

Atlanta, Ga.—Running at a speed of 30 miles an hour the second section of an excursion train on the Southern railway from Cleveland, O., known as the Collver special, and bound for Florida points, plunged through a trestle over Copper Mine creek, about 59 miles west of Atlanta Tuesday, and as a result three persons are dead, two others are fatally injured and 40 passengers were hurt.

Mr. Barnes, American

By Archibald Clavering Gunter

Author of Mr. Barnes of New York, Mr. Potter of Texas, That Frenchman, etc.

A Sequel to Mr. Barnes of New York

COPYRIGHT, 1907, DODD MEAD & CO. N.Y.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Suspicion is created that Marina is in league with the Corsicans. A man, believed to be Corregio Danella, is seen passing the house and Marina is thought to have given him a sign. Marina refuses to explain to Barnes which fact adds to his latent suspicions. Barnes' plans for the safety of the party are learned by the Corsicans. The carriage carrying their party to the local landing is followed by two men. One of the horsemen is supposed to be Corregio. They try to murder the American. The cook on the yacht—a Frenchman is suspected of complicity in the plot. The party anchors at St. Tropez. The yacht is followed by a small boat. The cook is detected giving signals to the boat. Barnes attempts to throw him overboard, but is prevented by Marina and Enid. The cook is found to be innocent of the supposed plot and is forgiven. The party arrive at Nice and find Lady Chartris and her daughter Maud domiciled in the villa rented with Barnes' money. Barnes is amazed to find that Count Corregio is at Nice and is acting the role of admirer to Lady Chartris. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous feud.

CHAPTER IX.

The Coming of Danella.

At the morning meal Barnes finds the rest of the party growing excited over the approaching ceremony, and Maud telling them about her maid-of-honor dress. "You'll have to lend me a pair of silk stockings, Enid," cries the putative infant. "I don't think I have any bang up enough for the ceremony. They should be corkers. Mine show, yours don't."

This oration is interrupted by Lady Chartris saying, insinuatingly: "Cousin Burton, you must have had a pretty long chat with the minister. I waited for you last evening till half-past 11."

A sly giggle from Maud sets Enid's blue eyes ablaze, though there's a whimper on her sweet lips.

"Yes, lots of details," replies Barnes, casually. "Did you have a pleasant outing with Cip, Cousin Prunella?"

"Of course I did, with such a cavalier."

"You invited Count Danella to my wedding?" asks the American abruptly.

"Of course I did," cries the widow, rapturously. "He accepted immediately; said he was very anxious to meet you."

"The pleasure will be mutual," observes Burton, grimly.

Enid and her brother look at each other solemnly, but Marina's face, when she learns that Cipriano Danella has accepted the invitation to the nuptials becomes so serious that Barnes, after breakfast, takes her husband aside and says: "Have you found out about that accursed letter?"

"No, she begged me not to ask her. She sobbed it was for my happiness that I didn't know. You'll soon discover, Barnes," remarks Edwin moodily, "that you cannot do much with a bride when she turns on the hose and washes the matrimonial decks."

This reminds Burton that he had better not start his married life with a secret, and getting Enid alone with him, which isn't very difficult, he briefly, but pointedly, tells his fiancee of his interview with la Belle Blackwood.

"Oh, I'm so glad you told me—so glad she's not all bad!" exclaims the girl, rewarding him with so rapturous a kiss that he is delighted he refused Sally's farewell salute. "I—I learned from Maud that you had received a letter from her," she adds, hesitatingly.

"You didn't doubt me?" This issues in stern reproach from the lips of the American.

"Oh, no, but—but no secrets from me, please," she entreats. "There's no real love without a little jealousy;" then shudders: "And so those villains killed poor Emory?"

"I'm afraid so," answers her lover, and his tone grows very solemn. "You see how remorselessly, how craftily we are pursued, that the haven of safety I had planned for you, dear one, when I left you to put those devils forever out of the way, is now known to them. You remember the awful threat against any woman who weds me. You've—you've no wish to delay our marriage?" His eyes are very eager.

Her eyes answer his with equal passion. "No, on the contrary," answers the resolute English girl, "I am resolved more than ever."

"Then may God never forgive me if I don't save you from all harm," mutters the coming husband. "Yet we must take all precautions. Just try and see if you cannot do better than your brother."

"How?" asks Enid, eagerly.

"The knowledge of the contents of that letter to Marina may be vital, not only for the happiness of her husband and herself, but perhaps to the safety of all of us. See if you cannot in some woman's way get the information of what it contained."

"Have You Found Out About That Accursed Letter?"

About an hour after this, Enid returns and remarks disappointedly: "Not a word from Marina except that it was something entirely between her and her husband; that we would discover some day." Then she blushingly asks: "Where are you going to take me after marriage?"

This is a proposition upon which Barnes has been racking his brain. He says, meditatively: "Supposing you and I go out on the yacht?"

"What, alone together? Delightful, romantic!"

"Not entirely. I shall take Graham and three seamen, to sail the schooner. We'll only be away two or three days."

"Two or three days of happiness," whispers the girl, radiantly, and runs away to prepare for her coming nuptials.

Barnes's own preparations occupy him most of the time till the ceremony, though he contrives to discuss his yachting plans with Edwin.

"All right," answers the sailor, "Graham can take care of the schooner as well as I. You leave me the balance of the jackies and I'll guarantee everything's all a-taut when you come into port. I shall take no cruises into Nice. I have enough here to make me happy."

"If Emory should by any chance turn up," remarks Barnes, "keep him with you to help you."

They are interrupted by the French cook, who has come on shore in the dingy bearing a magnificent wedding cake that he has manufactured in the schooner's galley. "My offering to your bride," remarks the culinary artist. "This will be the crowning glory of your noces, Monsieur Barnes. I am to cook for you on your wedding cruise. I must walk into Villefranche to get supplies."

The American is minded to call him back and caution the fellow to have a quiet tongue, but Maud breaks in upon him in all the glories of her child maid-of-honor frock, crying: "The notary is here and the minister has arrived."

Soon after the party assembles in the parlor, which has been decked with the flowers of southern France, and Miss Anstruther comes down to them looking in her fresh beauty, with her modest blue eyes filled with love, very bridelike. She is in an exquisite summer yachting costume, all lace and sheer muslin, through which her fair arms and shoulders gleam like chiselled ivory. A hat of white plumes and ribbons graces her golden hair.

"I didn't put on an evening gown," she whispered, "so I'm ready to go on board, Burton, immediately after the ceremony."

"My heavens, no bridal veil," flutters Lady Chartris; then she cries in a tone of dismay; "and Count Cipriano is late."

But without waiting for him, the English divine having made the necessary official arrangements as prescribed by the French law, the civil contract is hastily signed before the notary, Edwin acting as Enid's guardian and giving his formal consent.

Then what is to Miss Anstruther her real wedding begins, the sacrament of the English church. She standing before the divine, giving her assent modestly, but very firmly, Barnes making the responses ardently and determinedly, and thinking even as he puts the ring upon his bride's finger: "It is a kind of curious feeling, getting married with a revolver in your hip pocket ready for business."

A moment later the usual congratulations and kisses have been given, the party are about to turn to the dining-room, where the wedding supper is spread, there to drink the bride's health before she flits away.

But their steps are stayed by the sound of prancing steeds announcing the coming of the belated yet only invited guest. "Oh, at last! But you are late," cries Prunella, ecstatically, as she runs into the hall. "Just time, Count Cipriano, to toast the bride."

"Yes, an unfortunate accident to my horses," enters to them in a soft, southern voice from the hallway, where Prunella is interviewing the cavalier she has been waiting for so eagerly.

As this takes place, Edwin whispers: "I'll keep my eye on the beggar."

"And I'll talk to the gentleman as soon as I can get a chance, and if he doesn't give me a clean bill of health—"

The rest of Barnes's speech is interrupted by the entry of the object of their suspicions. Count Cipriano greets the company with extreme politeness.

Upon the ceremony Marina had looked with a very pale face, but now two hectic spots flame in either cheek as she returns the salute of Danella, who murmurs: "'Tis years since I saw you—the little girl poor Musso loved. You have grown into a beautiful woman—you who were my dead brother's ward."

But soon after, as the champagne sparkles, the count toasts the bride very gallantly, remarking on her youthful English beauty. "Signore Barnes should be a very happy man," he whispers to her, and goes on chatting so unaffectedly and pleasantly that Enid, who had looked upon his entrance as if he were Mephisto himself, begins to think this pleasant-voiced but vivacious-mannered gentleman is not so dangerous as she suspected.

Dressed in the deep mourning of southern France, the high Corsican hat he still carries in his hand lends picturesqueness to Cipriano's costume.

Notwithstanding his somber garb, soon the gentleman is laughing with Lady Chartris; Maud driving her mother distracted by crying: "I'm only 11, but I'm as tall as the bride, ain't I, mamma, dear?" and standing up back to back with Enid, making a great juvenile display of baby waist and pink silken stockings.

It's her high-heeled slippers," cries her mother, angrily. "The deceitful child is standing on tip-toe!"

"Ma foi, la petite is anxious to be married herself," smiles Cipriano.

"Ain't I?" cries Maud, merrily. "Ask mamma for me, count."

"Oh, mercy, the champagne has gone to the minx's head," gasps Lady Chartris, savagely. But Corregio has again devoted his attention to Marina. As well he may; her dark, liquid eyes carrying in their depths the passion of the south, yet always seeming to ask this man a pathetic question—one his orbs refuse to answer, though several times there is so amorous a gleam in them that the young English husband would like to take their owner by the throat.

At the first opportunity, while the ladies are gathered about Enid talking to her of her yachting cruise, Barnes says to Danella: "A few words in private with you, please, count."

"Certainly, I was about to request that myself," remarks Cipriano.

"Perhaps the garden would be more secluded," and the American, ready for action, keeping his eye upon his visitor, politely opens the door and bows him out into the grounds.

His visitor walks well into the shade of the orange ad citron trees, passing to where a rift in the foliage permits a view of the boat landing, which in the coming night is now hardly discernible. Here he pauses carelessly, his brilliant orbs occasionally directed toward the water. A moment later he observes quietly: "Your wedding made me sad, Signore."

(TO BE CONTINUED.)

To Clean Window Shades.

We have all heard the story of the woman who told the new maid to wash the curtains, meaning the lace ones, and came into the kitchen just in time to discover the newest window shades melting in the boiler. But we do not all know that when shades are merely dust soiled the surface can be freshened by the application of hot corn meal. The shade should first be spread out flat on a large table and the meal rubbed in with a circular motion of the palm. Then if rubbed gently with a soft, dry cloth the meal and the dust it has absorbed will be removed without leaving any trace of either —Country Life in America.

Sadness Is Penalty of Humor.

All the great humorists are sad—Cervantes, Moliere, Swift, Sterne, Heine, Richter, Balzac, Dickens—for sadness is the penalty which nature has annexed to that deep- searching knowledge of life we call humor. Hence is the tragedy of literature. If the man did not weep sometimes, we would cease to laugh at his jests—in the end he weeps too much, and then we talk of the failure of art!—Michael Monahan in Papyrus.

Louisiana's Frog Industry.

The revenue from the frog industry in Louisiana is something over $100,000 per annum. The frogs are shipped alive in barrels, packed in moss. Over 1,000,000 barrels of this living freight are shipped yearly—some going west as far as California. Of course, they are no ordinary frogs, but are carefully raised and fattened, being fed on bread, meal and cracklings.

Puzzled.

She—Do you think a girl should allow a man to kiss her before they become engaged?

He—No. I hold it to be the height of impropriety.

Then she began to wonder if he was just naturally slow or whether he intended to propose, but didn't dare.—Detroit Free Press.

THIRTY FIREMEN DIE

SIX MEN RESCUED FROM ROOF OF SKY SCRAPER.

AWFUL FIRE IN NEW YORK

Half of the City's Fire Fighters Fail to Check the Progress of the Flames.

New York, Jan 11.—At least thirty firemen may be dead and as many more injured as a result of a fierce fire which destroyed the Parker building here last night. The fifteen story structure occupied the corner located at Nineteenth street and Eighth avenue.

Half the fire fighting apparatus of New York blocked the streets for blocks in every direction. but the flames were never under control.

Floor after floor of the great building gave way and beneath the debris buried the men who had risked their lives to check the progress of the flames.

On the fifth floor where the watchman discovered the fire five girls employed by the Ditman Woolen company were at work. As the flames arose above them the girls hurried down stairs to the street.

On the top floor in the Suffolk Engraving company establishment six men were working. Their rescue was cut off and they fled to the roof. Flames had surrounded them on three sides and they were in imminent danger of death when rescued by means of a life line shot from a mortar gun and manned by a hook and ladder company on the roof of the Florence hotel adjoining. The hotel is seven stories in height and from its roof a rope was fired across the top of the burning building. Then it was seized by the imperiled and the free end made fast around a chimney. On this rope hand over hand dropped the six men to safety. Meantime the Florence hotel had been emptied of its 200 guests and near by houses were also vacated.

Seven firemen of engine company No. 72. which first arrived, ran up to the fifth floor of the burning building after an eight-five foot extension ladder had been raised to the windows of that story to make possible the firemen's retreat. After a fruitless effort to stay the flames at the place of origin, the firemen were driven to the windows only to find that the top of the ladders had been burned, cutting off their only retreat. Three of the seven made a desperate effort to reach the roof. They were not seen again and are supposed to be dead in the ruins.

The other four were rescued by men of hook and ladder company No. 7, who, at the risk of their lives, ran up scaling ladders and dragged the more or less burned men from the windows. These men had barely reached the ground when the great masses of cement which formed a pillar of the steel frame work gave way and crashed through to the ground, carrying with it everything below the seventh floor. John Fallon. Tim Tutchinson and Sergeant Kelly went down in the wreckage. Fallon was not seen again.

Hutchinson and Kelly, fighting desperately against the plaster and cement which threatened to bury them alive, managed to reach the street, though frightfully injured. Hutchinson was able only to say that his partner, Fallon, was in the debris, when he collapsed and was removed in a dying condition.

More than a score of firemen were working within the walls or near enough to be struck when they collapsed. Battalion Chief Shea was rendered unconscious by a blow on the head and received a gash in the cheeck. Deputy Chief Langford and Captains Weldon and Garyann were also removed to the temporary hospital. Meantime the fire practically had its own way and the efforts of the fire fighters were successfully directed towards the saving of adjacent property.

Further investigation proved the fire loss to be much greater than was at first thought possible. Fire Commissioner Lantry and Assistant Fire Chief Binns thought it might reach more than $6,000,000, though the general estimate was a million dollars less.

LANDSLIDE FOR TAFT.

That Is Rosevelt's Opinion As To The Nomination.

Washington, D. C., Jan. 11.—What President Roosevelt thinks of the political situation as regards the various candidates has been made known to some of his callers. He has been going over the situation carefully, and as he is remarkably astute in judging political situations, his verdict will undoubtedly attract notice.

He is telling callers that Secretary Taft will be nominated at Chicago on the first ballot. He looks for most of the favorite son candidates to have little support outside of their own states, that is, not enough to make them formidable. He believes Taft will get practically a solid far west, many delegates from the central west, from such states as Iowa, Nebraska, Minnesota, Missouri and Kansas; most of the southern vote; over half of New York and half of New England.

He deems it probable that Taft will get about 600 votes on the first ballot, or about two-thirds of the convention strength.

Most of our holiday visitors have gone and a number departed this week for their respective homes.

Jno. Schwichtenberg has not lost faith in farming nor in Hancock county as he purchased an additional farm last week, the Henry Martin place.

Ye scribe had a tussle with the "grippe" a few days last week but he managed to keep the upper hand. Quite a number are more or less afflicted and complaining this week, among them we know are F. Gruetzmacher, Mother Schwichtenberg, Mrs. Arnold and Ella Griewe,

The reprimand given Capt. Kulp for not preventing the prize fight in Devenport on Nov. 21st has turned out very tame and appears more like a huge joke than a punishment. Nevertheless the state militia, especially the boys of Scott county have thereby fallen sixty per cent in the estimation of the people. If they can not stop a prize fight and obey orders in time of peace, what could they accomplish in time of war.

M. W. A. 25th Anniversary.

The entertainment given by the Klemme M. W. A. Camp Tuesday evening was a decided success both from numbers and programme. The weather was all that could be desired and the hall was crowded and standing room at a premium at an early hour. After the regular routine of the lodge work was finished, Mr. P. M. Griesemer as Master of Ceremonies of the entertainment, gave a neat introductory address which was followed by an address of welcome by Wm. Fuller which was well rendered and enthusiastically received.

A beautiful public installation of officers followed which is one of the pleasant features of this fraternity.

The Klemme male quartette rendered some fine music and responded to hearty encores.

Chas. Gibbs followed with an able and interesting address on Woodcraft. Miss Gertrude Parker rendered a fine selection in elocution and has few equals as a speaker.

P. M. Griesemer closed with an address on Progress which was highly entertaining and instructive.

Last but not least the Royal Neighbors served a nice lunch and after a time spent in pleasant social intercourse and conversation, all departed for home with pleasant memories of the occasion. The Klemme Camp is in a flourishing condition and Woodcraft is steadily forging to the front.

If a cough once gets into your system it acts on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated so in order to get rid of a cold thoroughly and without delay you should not take anything that will tend to constipate. Kennedy's laxative cough syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates, it is pleasant to take and is highly recommended for children. Mss Mary Dowling of No. 228 8th Ave. Sanfrancisco recommends a remedy for stomach trouble. She says: Gratitude for the wonderful effect of Electric Bitters in a case of acute indigestion prompts this testimonial. I am fully convinced that for stomach liver troubles Electric Bitters is the best remedy on the market today. NATURE
AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

Republican Conventions Called.

Des Moines.—The republican state central committee met in Des Moines on the 9th and fixed the dates for the two state conventions of this year, selected officers for the first one and directed the issuance of the call for selection of delegates to the first convention on the basis of the vote for Governor Cummins in 1906.

Attorney General H. W. Byers was made temporary chairman of the first convention to be held in this city, March 18. Ora Williams was made secretary. Officers for the second convention, which will be held at Waterloo on June 24, will be selected at a meeting of the state committee at the first state convention.

Committeeman George S. Wright of Council Bluffs proposed the name of Leslie M. Shaw for temporary chairman of the first convention, but withdrew the suggestion, and General Byers was then elected by unanimous vote.

It was voted not to allow Cal George of Clinton to sit with the committee on the proxy of W. J. McCoy, who has removed to Washington. The motion was to allow him to participate with the committee on this proxy, and the vote was five for and five against, on which it was declared not carried.

The committee did not divide on giving Des Moines the first. It will be the larger and probably the longer one.

Cedar Rapids and Waterloo indulged in the contest for the second convention, with Des Moines. Cedar Rapids was represented by W. R. Boyd, E. R. Moore and W. G. Haskell. Major S. H Rathbun was also present asking for the convention for Cedar Rapids. Mr. Moore, who is representative in the legislature from Linn county, presented the claims of Cedar Rapids, and Attorney General Mullan for Waterloo. B. S. Walker and Milo Ward of the Commercial exchange were assisted by a committee of Des Moines business men in presenting the claims of this city.

After Des Moines had been awarded the first convention the vote was taken between Cedar Rapids and Waterloo, resulting seven for the latter and three for the former. Chairman Woods and Committeemen Estabrook and Epps are said to have voted for Cedar Rapids.

Postal Receipts Grow.

Postal receipts at the Des Moines office increased nearly $30,000 over those of 1906. This is the excellent showing made in figures compiled by Postmaster Joseph I. Myerly.

The receipts for 1907 were $588,784.90. For 1906 they were $560,333.13. The increase was $28,451.77.

The increase for the last quarter in the year which includes the holiday business, was $9,722.17 over the corresponding quarter for last year. The average monthly increase was 6.7 per cent.

December increased 6.9 per cent over December, 1906. The total this past quarter was $58,890.93. For the last quarter in 1906 they were $55,052.60. The increase was $3,808.33.

Statistics show that in the year 1907 there were 9,996,907 pounds of newspapers mailed out of Des Moines. This is a remarkable showing and gives some idea of the tremendous importance of Des Moines as a newspaper center. Of this amount 132,243 pounds went inside the county. The heaviest quarter was the final quarter of the year, with 2,858,895 pounds.

To Fight Tuberculosis.

The state of Iowa is now in the midst of the warfare on tuberculosis. A sanatorium which will accommodate about two hundred patients is nearing completion. This institution is located near Iowa City. Only incipient cases will be admitted, however, as the state will attempt to cure only early cases.

In addition to this a great educational campaign is now being carried on by the board of control of state institutions. This work is in charge of Mr. A. E. Kepford. Free lectures in every part of the state are to be a feature. These lectures will include stereopticon lantern exhibitions and literature dealing with every aspect of tuberculosis, its prevention and cure, will be distributed throughout the state. Correspondence is solicited by the board and everything possible will be done to stamp out the "White plague" from our state.

Thinks Iowa for Taft.

Governor Cummins has authorized an interview in which he states that he has no doubt that the Iowa delegation will be for Secretary Taft for president.

The meeting of the state central committee resulted in the presence in the city of a large number of politicians, and especially of progressive republicans. There was much talk relative to the presidency as well as the senatorship and the coming fight at the primaries for candidates for state office.

Friends of the governor were free in expressing their belief that Secretary Taft was the coming man.

Standard Fee $10,000.

A check for $10,000.00 was taken in by the office of Secretary of State Hayward a few days ago from the Prairie Oil & Gas company of Independence, Kas., for fees required by the incorporation law.

This is understood to be the company which owns the pipe line for transporting petroleum from Kansas to Whiting, Ind., and which follows the Santa Fe railroad line through Lee county, in Iowa.

It is supposed to be owned by the Standard Oil company, which has refineries at Whiting and transports all of the Kansas crude oil not refined by independent producers on the spot to the Whiting establishments.

This company has paid the state of Iowa to exceed $20,000 in fees in the last three years. Originally its capital was $10,000,000. It cost it to exceed $10,000 to file the original articles, which were filed about three years ago. They are not recorded in this state, so that there were no recording fees. The fees just collected by the secretary of state was for the increase in capital stock from $10,000,000 to $20,000,000.

J. E. O'Neil is given as vice president and E. T. Patterson as secretary of the company. The articles disclose the fact that it cost the company $5,050 in fees to the public to have the amendment to its articles filed in Kansas.

It is not likely that the state executive council will give some attention this year to the assessment and taxation of the Standard's pipe line across Iowa. It is understood that it is now taxed, as it has been doubted if there was a law which would cover property of that kind. Nevertheless, it is used as a common carrier, and probably will be listed and assessed. It is not likely that Lee county assessed it.

Governors for Waterway.

A determined effort to secure the improvement of the Missouri river will be launched at Sioux City, Jan. 22 and 23, when friends of the movement will gather and organize a Missouri river navigation congress. The movement is attracting wide interest throughout the surrounding states and the friends of river navigation are enthusiastic over the plan to have the Missouri made navigable. Among the speakers at the Sioux City meeting will be Governors Cummins of Iowa, Crawford of South Dakota, Johnson of Minnesota, Sheldon of Nebraska, Burke of North Dakota and Deneen of Illinois. Congressman Joseph E. Ransdall of Louisiana, president of the National Rivers and Harbors congress, and Congressman Edgar C. Ellis, a member of the rivers and harbors body, are also expected to be present. Iowa, Nebraska, South Dakota, North Dakota and several other states will be represented by delegates of persons interested.

Crockett Gets Good Appointment.

A dispatch from Washington announces that John Crockett, now clerk of the Iowa supreme court, has been chosen for reading clerk of the senate.

Mr. Crockett was one of over sixty candidates who took the test, ten of those who participated in the preliminary tests were required to take a second test before the senate committee, consisting of Senators Lodge, Carter, Burrows, Bacon and Tillman. The contest finally narrowed down to three men, one from Rhode Island, one from California and Mr. Crockett. The latter was declared a winner by the committee and Secretary Bennett selected him. Senators Allison and Dolliver backed Mr. Crockett, who will enter on his duties shortly and is expected to resign from his position as clerk of the supreme court.

Must List Pass Holders.

An almost forgotten provision of the anti-pass law provides that the railroad companies must file with the state executive council annually a list of the persons to whom they have issued passes.

Their first annual report is now due, covering the period from July when the law took effect, to the end of the year, 1907.

Blanks for the lists of names have been prepared by the secretary of the executive council and will be sent to the general offices of the companies within a few days. Provison is made on the blanks for an affidavit by the officer in charge of the matter substantiating the list furnished as correct and complete.

Saloons File Bonds.

Assistant Attorney General Lyon has just returned from Davenport, where he went to investigate the matter of bonds filed by the local saloonkeepers. When he appeared at the office of the county auditor, it was found that but fifteen bonds were on file. While examining these the saloonmen got wind of his presence in the city and bonds began to come in. When he got ready to leave, more than a hundred saloonkeepers had complied with the law.

TO OUST TAFT MEN

FORAKER POWERS IN OHIO DENOUNCE REGULAR COMMITTEE.

POLICE GUARD BIG MEETING

County Executive Committee to Be Selected from Three Different Bodies—Crisis Precipitated.

Cleveland, O., Jan. 12.—The first stroke of the Foraker powers here was made yesterday when at a mass-meeting a committee was selected to displace the "regular" republican county executive committee.

The question of the legality of the committee selected as against the "regular" committee said by the Forakerites to be a Taft organization, will now be placed in the hands of the county boards of elections. The claims of the so-called Roosevelt committee, a third element in the local situation, also rest in the same conditon.

It will be the duty of the board to determine which committee is lawful and of authority to act for the party in this county. To place the issue squarely before the board each committee has issued a call for the republican primaries, all on the same date—Feb. 11.

The regular committee held by the Foraker element to be without authority precipitated the crisis by filing a call for the primaries with the board of elections on Friday. Immediately the Foraker faction protested the rights of the committee and issued a call for a convention to select a committee. On Friday evening the Roosevelt organization named a committee. Yesterday the Foraker committee was named.

The board has until next Wednesday to decide upon the merits of each of the three claimants.

Many policemen were on duty yesterday in the convention hall in anticipation of an encounter between the Forakerites and the followers of Taft, who early announced their intention of packing the convention, but it was as quiet as a Sunday school convention and everything went through unanimously and without a hitch. Resolutions condemning the "regular" committee and one man power in the party were adopted.

At the proposed primaries delegates to the national convention will be chosen.

SIXTEEN CRUSHED TO DEATH.

Stampede, From No Known Cause Responsible for the Slaughter.

Barnsley, York, England, Jan. 12.—The senseless stampede of a crowd of people in a theater of this city resulted yesterday in a shocking disaster. Sixteen persons, including a number of children in arms, were crushed to death by the frantic efforts of the crowd to get clear of the building, and many others were injured. And all for no reason. There was no danger, no fire, only the unaccountable panic of the crowd that found its egress from the theater hampered by its members.

There had been a performance for children at Harvey institute. The hall was crowded to its utmost capacity and many persons had been refused admittance at the door. At the conclusion of the performance an inexplicable mad rush was made for the exits, and it was there that the fearful and fatal crush occurred. The weaker went to the ground and were trampled to death by the stronger. Lives were crushed out and limbs were broken by the frantic people as they struggled and fought to make their way to the open.

THREATEN VON BUELOW.

Police Have Hard Time Dispersing Noisy Berlin Mob.

Berlin, Jan. 13.—The determination of the socialists to secure direct universal suffrage, combined with their indignation against Chancellor von Buelow's curt declaration refusing their demand, gave rise yesterday to an unusual scene and a monster popular demonstration, accompanied by disorders in the streets of the German capital in which 40,000 organized socialists with 30,000 sympathizers from time to time actively joined in the manifestations.

Later some thousands of the demonstrators gathered a short distance from Chancellor Von Buelow's residence and began shouting down the chancellor who had driven through the Friederickstrasse. The attitude of the people became so threatening that both the mounted and foot police charged them fiercely, striking right and left with the flat side of their sabres. Scores of the manifestants were knocked down and trampled upon and the great crowd at length was broken up into small groups among whom there were many injured.

King Puts End to Pomp.

Stockholm, Jan. 13.—King Gustav yesterday made known his intentions of abolishing the pompous ceremonies with which the Swedish Parliament in the past has been opened. He says these observances are a relic of mediaevalism and inappropriate to a modern and progressive nation.

This step, together with the abolition of the coronation ceremonies, recently ordered by the King, is hailed with great appreciation throughout Sweden as initiating a new democratic era.

The Chauffeur's Thought.

A well-known Englishman tells a good motor-car story. He says that on one occasion, when instructing his chauffeur to drive carefully, he remarked: "I don't mind about running up people and dogs, but do be careful about children and babies." Whereupon the chauffeur replied: "Yes, they feeding-bottles do cut up the tires dreadful."

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

MAY FREE SCHMITZ

APPELATE COURT FINDS HIS INDICTMENT INVALID.

HIS ACT WAS NO CRIME

Abe Ruef, Former Boss of Frisco, Also Benefited by Decision—Both Entitled to Release on Bail.

San Francisco.—The district court of appeals handed down a decision Thursday setting aside the judgment in the case of former Mayor Eugene E. Schmitz, convicted of extortion in the French restaurant case. Abe Ruef also benefits by the ruling of the upper court, for, according to its decision, he pleaded guilty to an act that was no offense against the laws of the state.

According to the appellate judges the compelling of French restaurants to pay "fees" to Abe Ruef was not a crime, even though Ruef divided the "fees" with the mayor.

After discussing the point the court reversed the judgment against Schmitz on the ground that no acts constituting a crime had been proved against him. Abe Ruef, who pleaded guilty to extorting money from the French restaurants, is therefore equally guiltless.

In passing upon the legality of the indictment the appellate court said:

"The indictment is claimed to be invalid for two reasons: First, that it does not allege any threat to injure property, and, second, it does not allege that the threat was to do an unlawful injury."

The gist of that portion of the decision relating to the allegation that there was no threat to injure property is contained in the following sentence:

"There is no allegation as to any threat to injure any business in direct terms, but only the threat to prevent the parties from obtaining a license to sell liquor." A license to sell liquor is not property in the ordinary sense of the word, says the court.

Commenting on the second contention of Schmitz's attorneys that there was no threat to do unlawful injury the court declares:

"We are clearly of the opinion that the indictment is insufficient, because it does not allege nor show that the specific injury threatened was an unlawful injury." It is not an unlawful act, reasons the court, to threaten to hold up the licenses of the restaurant keepers or actually to do so.

Entitled to Release on Bail.

The decision will stop the French restaurant cases, and pending charges of extortion against Schmitz and Ruef must be dismissed. Both are now entitled to release on bail. If they obtain the necessary bondsmen they can remain at liberty until such time as a jury finds them guilty on one of the indictments charging them with receiving bribes from corporations. Owing to the number of cases against them the bail, figured at $10,000 a case, would reach an enormous figure.

Can't Get Out for 60 Days.

Schmitz and Ruef cannot take advantage of the decision for 60 days. The prosecution has 20 days in which to ask for a rehearing. Then the appellate court will have ten days to consider the application. When that is done the prosecution will go through the same procedure in the supreme court, which will take the same length of time. Consequently Schmitz and Ruef will still be kept in the county jail for two months at least.

The news of the decision of the appellate court spread rapidly over the city, causing consternation in some quarters and delight in others.

BLAMED FOR CHILD'S DEATH.

Woman in Michigan Declared Guilty of Gross Negligence.

Kalamazoo, Mich.—The cornoner's jury at Plainwell which has been inquiring into the death there of Walter Neeley, aged 2½ years, son of Mr. and Mrs. David Neeley, of Sacramento, Cal., brought in a verdict Thursday afternoon finding that the child died of pleuro-pneumonia and declaring the mother guilty of gross negligence for failing to secure the services of a physician or to call in medical attendance. The child was treated by two members of a sect of mental healers. The verdict declares Mrs. Willmot of Grand Rapids and Mrs. Mary A. Blood of Kalamazoo, who treated the child are guilty of gross negligence in not doing anything to learn the nature of the disease and not calling in physicians.

AND SHE BELIEVED HIM.

After This Who Can Doubt the Power of Love?

George had been away on business for a whole long week, and during that time he had sent Clara ten letters, six letter-cards and 42 picture postcards.

Why, then, was there a touch of coldness in her greeting when he flew to her arms on his return?

"Dearest," he whispered, "what is the matter?"

"Oh, George," she said, "you didn't send a kiss in your ninth letter."

"My precious," he replied, "that night I had steak and onions for dinner, and you wouldn't have liked a kiss after onions, would you?"

And, such is the unfathomable power of love, she was satisfied, and nestled to him.

Baby Had Severe Attack—Grandfather Suffered Torments with It—Owe Recovery to Cuticura.

"In 1884 my grandson, a babe, had an attack of eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease and suffering, I recommended Cuticura and in a few weeks the child was well. He is to-day a strong man and absolutely free from the disease. A few years ago I contracted eczema, and became an intense sufferer. A whole winter passed without once having on shoes, nearly from the knees to the toes being covered with virulent sores. I tried many doctors to no purpose. Then I procured the Cuticura Remedies and found immediate improvement and final cure. M. W. LaRue, 845 Seventh St., Louisville, Ky., Apr. 23 and May 14, '07."

The Starfish Analyzed.

The starfish, one of the lowest forms of life, has on its back about 25,000 jaws or hands arranged in rings and bands. By the aid of these it captures many animals for food, even quick, active fish of considerable size. Prof. Jennings of Johns Hopkins has photographed the starfish at dinner, and has discovered that even this low form of animal life has "habits."

The great art of life consists in fortitude and perseverance. The mischance of those who fall behind, though flung upon fortune, more frequently arises from want of skill and perseverance.—Sir Walter Scott.

RAILROAD MAN

Didn't Like Being Starved.

A man running on a railroad has to be in good condition all the time or he is liable to do harm to himself and others.

A clear head is necessary to run a locomotive or conduct a train. Even a railroad man's appetite and digestion are matters of importance, as the clear brain and steady hand result from the healthy appetite followed by the proper digestion of food.

"For the past five years," writes a railroader, "I have been constantly troubled with indigestion. Every doctor I consulted seemed to want to starve me to death. First I was dieted on warm water and toast until I was almost starved; then, when they would let me eat, the indigestion would be right back again.

"Only temporary relief came from remedies, and I tried about all of them I saw advertised. About three months ago a friend advised me to try Grape-Nuts food. The very first day I noticed that my appetite was satisfied, which had not been the case before, that I can remember.

"In a week, I believe, I had more energy than ever before in my life. I have gained seven pounds and have not had a touch of indigestion since I have been eating Grape-Nuts. When my wife saw how much good this food was doing me she thought she would try it awhile. We believe the discoverer of Grape-Nuts found the 'Perfect Food.'"

I have used many different medicines and was discouraged when I began with Doan's Kidney Pills, but now the symptoms that alarmed me are gone."

The Matter With It.

"What is the matter with my poem?" asked the amateur contributor; "isn't the meter all right?"

"Oh, yes," replied the editor, "the meter is excellent."

"The rhymes are very good, quite ingenious, I might say."

"Then why do you decline it?"

"You have forgotten to say anything."

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We send, and in confidence recommend

A Wolf Hunt.

This was the scene in North Germantown one day last week. At first it was thought by surrounding neighbors in that locality that Coxsie's army had broke out, then again that probably a tribe of savage Indians were on the war path and all the neighborhood were frightened out of a year's growth, but by investigating matters, it was discovered that it was no one else but the crack hunters of North Germantown and the frightened neighborhood breathed in relief again. It was the North Germantown Army, Regiment No. 23 Skidoo who are famously known all over the country for their heroic deeds. The officers and privates were: Fred Riehm, Captain; Haes Bros. and Lunn Bros. as privates; Wm. Haes, Sentinel The Sentinel stood guard on a high bridge where he could view the whole country with his keen optics. No enemy appeared but only a half starved lonely wolf. The alarm was immediately given and the whole regiment took in pursuit of the wolf, but as the wolf was too cunning for them, he was lost in the jungles of Sioux Island and the regiment were obliged to return to camp defeated.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Proper Ventilation of Cars

It is very important that railway cars be adequately and properly ventilated.

In sleeping cars, especially, passengers appreciate pure air—an absence of that "stuffy" atmosphere which means headache and car-sickness.

All Pullman sleeping cars on the "Rock Island" are now equipped with the new Garland Car Ventilator—a most effective device.

The "Rock Island" was the ***first Western road*** to install the ventilator on its coaches, and is to-day the ***only*** line having them in general use.

How He Hunted Bear.

A New York Irishman was visiting a friend in the Adirondacks and was taken with a desire to go hunting. Borrowing a gun from his friend he set off alone in search of game. Some time after his host heard a distant report of a gun. A few minutes later he heard some one shouting. From a window he spied, in the distance, his friend, hot-footing it for home, and behind him a bear, gaining at every step. Nearly spent, the pursued reached the door just in time to cry out:

"Quick, Mike! Quick! Open the door! I'm bringing him home aloive!"

TOO BAD FOR PUBLIC

JEROME WANTS EVELYN THAW'S STORY TOLD IN PRIVATE.

DEFENSE VERY WILLING

Young Wife Begins Testimony, But Prosecutor Tears It to Pieces—Prisoner's Mother Takes Witness Stand.

New York.—A series of surprises brought the Thaw trial near a crisis Friday. Both Evelyn Thaw, the wife, and Mrs. William Thaw, the mother of the defendant, were on the witness stand, and just as the former was about to relate anew the story of her life, as she told it to Thaw in Paris in 1903, District Attorney Jerome arose and suggested that in the interest of public morals all persons save those immediately interested in the case should be excluded from the courtroom during the recital of what he termed "a horrible tale." The defense agreed and Justice Dowling adjourned court until Monday morning, when, he said, he would decide the matter.

Suggestion Is a Surprise.

The district attorney's suggestion was a distinct surprise and called forth the remark from Justice Dowling that it would have come with greater force at the first hearing of the case. When Mr. Jerome arose it was generally believed that he was about to contend against the admissibility of young Mrs. Thaw's testimony on the ground that it could not have had a very serious effect upon the mind of the man who subsequently became her husband, inasmuch as the homicide did not occur until three years thereafter.

Mr. Jerome had previously objected to Mrs. Thaw detailing conversations she had with Thaw three years prior to the tragedy, but Justice Dowling ruled that the declarations of the defendant were admissible on general principles and without any reference to the Wood case, under which the evidence in dispute was admitted last year, and which Mr. Jerome had been expected to ask a construction of this year.

"I will not except to your honor's ruling," said the district attorney as he took his seat after his objection, "for the state has no power of appeal."

Tears Evelyn's Story to Pieces.

Then Mr. Jerome attacked the witness in another way and, by standing immediately in front of her and objecting to practically every question which Mr. Littleton asked in his preliminary examination as to her early history, cut the young woman's recital from the effective narrative form it assumed last year into a hundred fragments. Many of the objections, based upon irrelevancy and immateriality, were sustained by the court. When these failed the prosecutor was ever ready with others until the testimony fairly was torn into shreds and had lost entirely the many little touches of human interest which were a part of the narration last year when no objections were offered. Mr. Jerome said his objections were intended to cut out all stories about pet cats "and a lot of other stuff" which had no place in the trial.

Elder Mrs. Thaw Testifies.

The day, however, was one of good progress for the defense. The elder Mrs. Thaw, pale and weak from her recent illness, was assisted to the witness chair and repeated a large part of the testimony she gave a year ago. Her appearance and the sincerity of her evidence as she told of her son's strange conduct after meeting Evelyn Nesbit and hearing her story had a marked effect upon all who listened. On account of her weak condition her examination was interrupted by consent, to be resumed some time next week, when she will tell of Thaw's infancy.

District Attorney Jerome's manner while the mother was on the stand was all deference, and it was his suggestion which led to the respite in her ordeal. But when the young wife took the stand the change was marked. Jerome glared at her from the very first and his objections were fairly shouted in her ears. Well accustomed to court usage from her former experience, the young woman waited patiently for a ruling as to each objection. When they were sustained she was silent; when overruled she was ever read with her response.

BURY HOLOCAUST VICTIMS

BOYERTOWN, PA., HEARS LAST RITES OVER THEATER DEAD.

Fatalities from Awful Playhouse Disaster Likely to Reach 180, Say Officials.

Boyertown, Pa. — This little borough, which lost one-fifteenth of its population in the opera house horror, Thursday turned to the task of burying its dead. Because of the condition of most of the bodies the borough authorities have asked the bereaved relatives to bury the dead within three days. All night long scores of men worked in the morgues preparing the identified bodies for removal to their late homes or to the cemetery. A long line of death wagons moved here and there about the town distributing the corpses and by nightfall most of the dead were ready for interment.

There was a slight hitch in the work of removing the remains from the morgues, through the action of Coroner Strasser forbidding the removal of any bodies during his absence. It rained slightly Thursday, and there was a little fall of snow, but this did not deter the work of digging graves. A force of men started to dig graves in Fairview and Union cemeteries and they were relieved at intetrvals. The borough has decided to buy eight lots for the burial of the unidentified dead. In the center of the plot sufficient space will be left for the erection of a monument.

The death list continues to grow, and it is now feared that the number of victims will reach 180, and possibly higher. Thursday Mrs. James Fryer, who was injured by leaping from the burning building, died, making the total number of known dead 172.

Druce Witness Arrested.

London.—Miss Mary Robinson, an American woman, the daughter of a southern planter, who in the recent Druce case testified that she knew Druce as the duke of Portland, that Charles Dickens told her that Druce was the duke of Portland and that Druce himself afterward confirmed the statement, was arrested Friday on a warrant charging her with perjury.

Three Killed by Wood Alcohol.

Vallejo, Cal.—John Harf of the cruiser St. Louis died Thursday from the effects of wood alcohol, surreptitiously taken. He is the third victim in a week to succumb to the poisonous drink, two other sailors are totally blind from the same cause and five others may never again be fit for active service. The men procured the wood alcohol from linoleum cement.

MOROCCAN REBELS ROUTED.

Great Victory Is Gained by French in Desperate Battle.

Tangier.—News has reached here of a terrific ten hours' engagement in a ravine near Settat Wednesday between a French column under the command of Gen. d'Amade, and a column commanded by Mulai Rachid, one of the chiefs of Mulai Hafid's forces.

The French gained a splendid victory in the face of heavy odds, succeeding in dispersing the enemy and occupying Settat. Twenty of the French soldiers were wounded, but many of the Arabs were killed. The latter not only offered a dogged and fearless defense, but returned repeatedly to the battle after they had been routed, and attacked the French from three sides.

In the later hours of the fighting Mulai Rachid's column was suddenly re-enforced by the powerful Chaouia tribe, which figured in the massacres at Casablanca and which had arrived from the mountains at the very moment when Mulai Rachid was about to retreat.

Under the combined charge of the now confident Moors, the French not only held their ground, but steadily threw back the enemy, driving them eventually in mad haste to the hills. The engagement between the French and the Moors followed immediately upon a 25 hours' march of Gen. d'Amade's column, and under these trying circumstances the French forces are considered to have shown more than ordinary stamina and bravery. The French wounded include three officers.

After destroying the camp of the enemy at Settat, Gen. d'Amade pushed forward and occupied Kasbah Ber Rohid.

Judge Hough also directed Otto H. Kuhn of Kuhn, Loeb & Co. to answer all questions asked him by the interstate commerce commission.

GOTHAM BANKER INDICTED

PRESIDENT MONTGOMERY OF THE HAMILTON IS ACCUSED.

Is Released on Bail—Charged with Irregular Acts While Vice President of Institution.

New York.—The special grand jury which was sworn in to investigate the conduct of certain banks in New York county returned two indictments Wednesday against William R. Montgomery, president of the Hamilton bank.

The charges, involving over-drafts and over-certification, have to do with acts alleged to have been committed by Montgomery while he was vice president of the instittuion. When E. R. and O. F. Thomas retired from their banking interests Mr. Montgomery succeeded the former in the presidency.

The Hamilton bank suspended on October 23 last. Recently the court decided that the receivership should not be made permanent. The decision was made the occasion of joyful demonstration on the part of the depositors who, headed by a band of music, marched to the home of the president and cheered him until he responded with a speech in which he declared that his personal vindication as an officer would follow the investigation of the bank's affairs. At the time Montgomery had been accused of lax management by Receiver White.

Montgomery was present when wanted Wednesday and in the criminal branch of the supreme court pleaded guilty with the usual reservation of his right to change his plea or demur to the indictments. The $5,000 bail required was furnished by William H. Birkmire, a director of the bank.

One indictment charges that on August 29 last Montgomery drew a check for $12,950, payable to B. Strassburger, a Maiden Lane jeweler, and caused it to be certified. The transaction, it is alleged, constituted an overdraft of $12,869.

The second indictment sets forth that on September 6, last, the defendant drew a check to the order of L. C. Warner for $21,000, at a time when the maker's balance in the bank was only $5,918. This balance, it is charged, had been further reduced to $154 when the check in question was presented three days later and was paid by the bank.

REAL LEAP YEAR WEDDING.

Minneapolis Romance Is to Culminate in the Jail.

Minneapolis, Minn. — Miss Emma Steger, 729 Fourth avenue south, Thursday took out a license to wed Charles Eakin, and Minneapolis' first real leap year wedding ceremony is to be performed in the county jail. Eakin, the groom, is serving a five months' term in the jail on a charge of grand larceny in the second degree. Miss Steger is 22 years old. Eakin's age is the same.

The wedding will come as the culmination of a friendship which has lasted since their childhood and which developed into love only after Eakin had been convicted. Unwilling to wed the woman of his choice to marry a man who had been convicted of crime Eakin believed that he and Miss Steger would never be wedded. It was here that leap year entered the romance. Miss Steger visited Eakin in the jail, told him that she would marry him if he wished, and when he had consented she arranged the details of the jail wedding.

RENT RIOT IN NEW YORK.

Officers Attempt to Evict Tenants and Are Mobbed.

New York.—Forcible resistance by tenants whom an upper East side landlord was trying to evict resulted Friday in the gathering of a crowd of 2,000 or more sympathizers in the neighborhood, who made much trouble for the police that the precinct reserves were called out. During the rioting four women and a number of men were taken into custody.

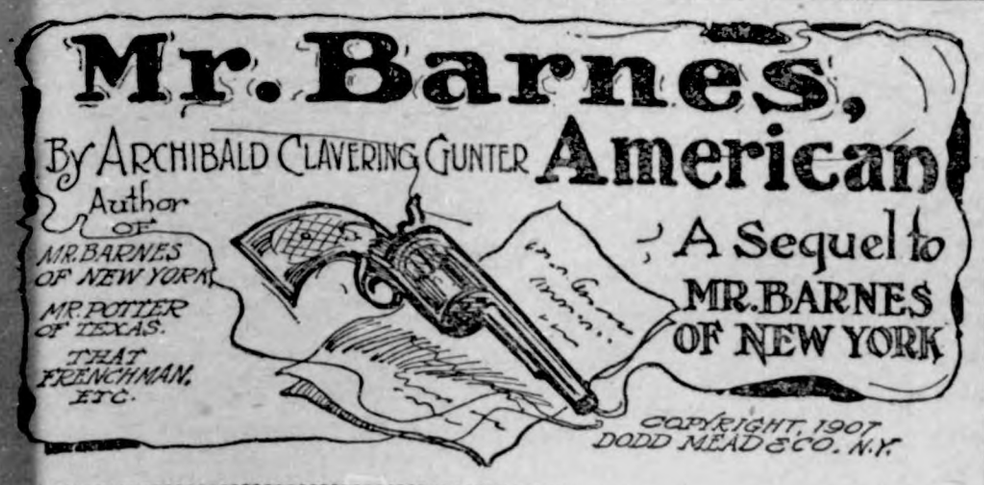
The immediate purpose of the demonstration, however, was effected, the marshal deciding not to attempt the serving of more dispossess warrants at the time.

Fails to Indorse Hughes.

New York.—After one of the bitterest fights in its existence the New York county Republican committee adjourned at midnight Thursday night without having indorsed any candidate for the presidential nomination. An attempt to take up the tabled resolution indorsing Gov. Hughes failed and the meeting was adjourned for a month.

Mills and Elevator Burned.

Kenora, Ont.—The Maple-Leaf mills belonging to the Hedley-Shaw company were destroyed by fire early Wednesday. The elevator, in which was stored over 300,000 bushels of wheat, was also destroyed. The loss will reach $1,000,000; insured.



SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Suspicion is created that Marina is in league with the Corsicans. A man, believed to be Corregio Danella, is seen passing the house and Marina is thought to have given him a sign. Marina refuses to explain to Barnes which fact adds to his latent suspicions. Barnes' plans for the safety of the party are learned by the Corsicans. The carriage carrying their party to the local landing is followed by two men. One of the horsemen is supposed to be Corregio. They try to murder the American. The cook on the yacht—a Frenchman is suspected of complicity in the plot. The party anchors at St. Tropez. The yacht is followed by a small boat. The cook is detected giving signals to the boat. Barnes attempts to throw him overboard, but is prevented by Marina and Enid. The cook is found to be innocent of the supposed plot and is forgiven. The party arrive at Nice and find Lady Chartris and her daughter Maud domiciled in the villa rented with Barnes' money. Barnes is amazed to find that Count Corregio is at Nice and is acting the role of admirer to Lady Chartris. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous feud. Barnes and Enid are married.

CHAPTER IX.—Continued.

"So much so you tried to stop it," rejoins Barnes, drily, striving to keep the anger from his tones.

"Ah, Madame Blackwood told you our conversation." The Corsican laughs slightly. "I confess I should have done even more to prevent or postpone your nuptials had I seen your bride before and known her extreme youth, beauty and innocence."

The American is about to interrupt him, but Cipriano continues, a strain of sadness in his voice: "Therefore I am very sorry that I didn't arrive before your nuptials. You were the companion of my dead brother, you went mufloon shooting with him several times in Corsica. As such I wished in friendship to warn you not to make any woman your bride; at all events, not till an unhappy suspicion had been settled forever. Some of the natives of Bocognano, who loved my brother, believe that his death was in some way attributable to you, not personally, perhaps, but it would please me if you would give me the particulars as you understand them of the murder of my brother."

"Certainly, all the particulars," replies Burton, anxious to make this man understand the true facts of his brother's death, and thinking, perhaps, he can convince Corregio that Musso Danella's assassination came from his own vindictive love of revenge. Therefore, concisely, yet rapidly and logically, Mr. Barnes relates the details of Musso Danella's being stabbed by the old Corsican Tomasso Monaldi in mistake for Edwin Anstruther in Marina's bridal chamber nearly two weeks before.

"Yes, but our people believe that you in some way aided it."

"I beg your pardon. Your brother was dead almost as I dismounted from my horse at the house," sharply returns the American.

"Yes, but the natives of Bocagnano declare it was by your arts—by your telegram—that I and they have been bereft.

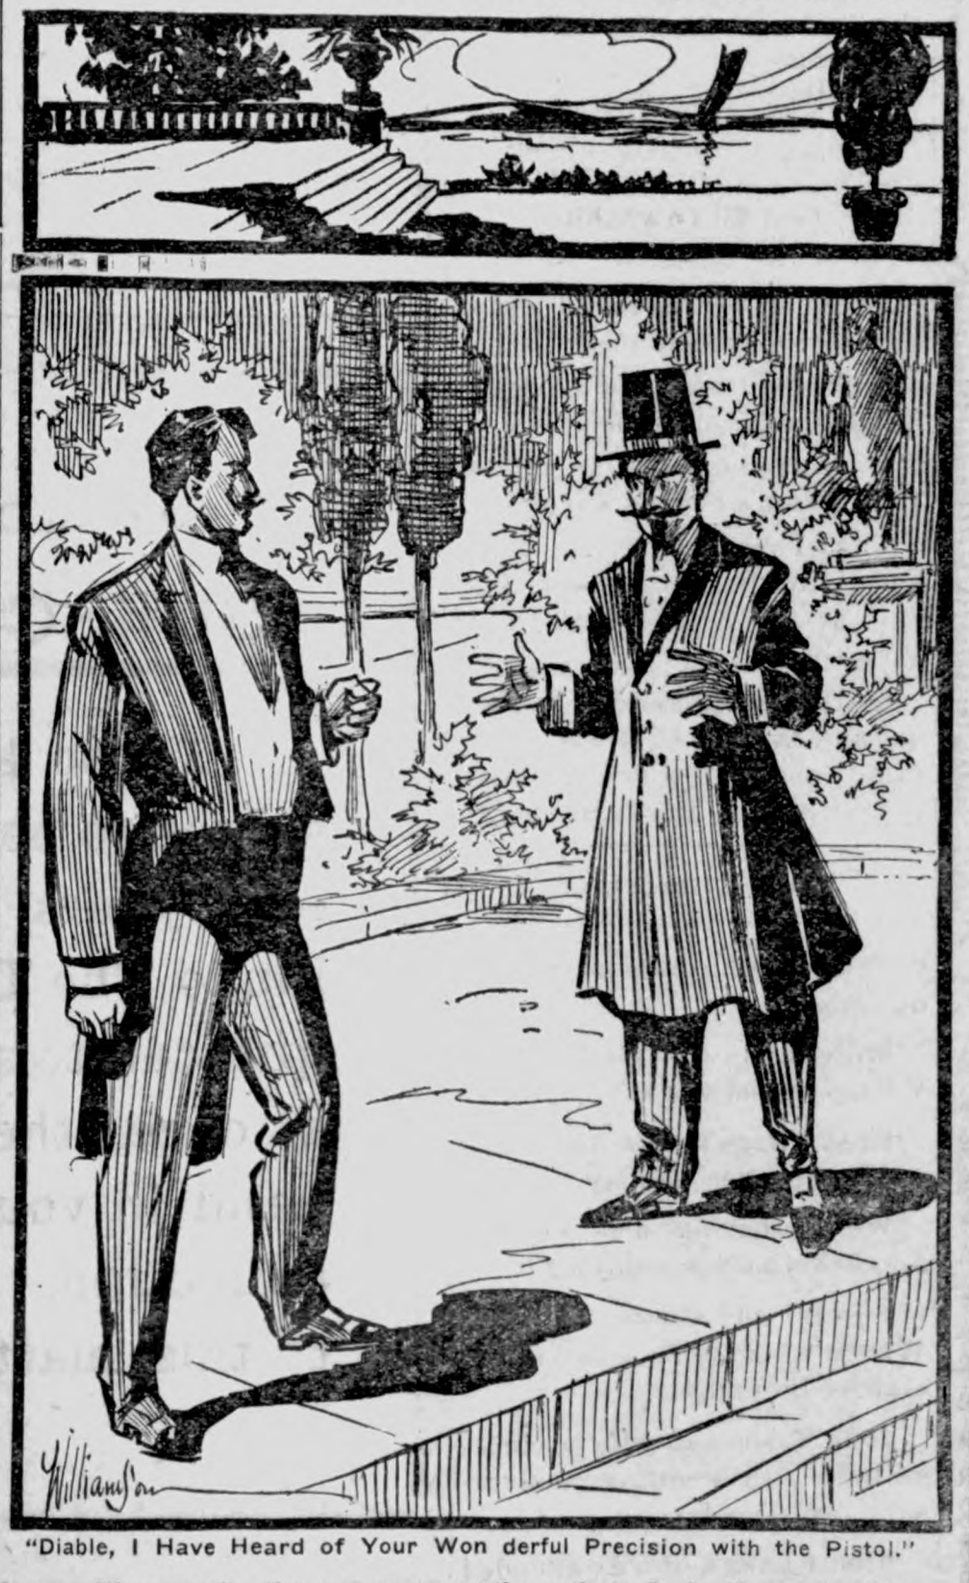
"They say," cries the Corsican, trying to stifle an almost uncontrollable grief, "that poor Musso was done to death by the arts of foreigners, who came to the island for a nuptial fete but bringing blood with them. They say this naval officer in that house there pretends he didn't slay Antonio, the brother of Marina, because he fears Marina's vow of vendetta, and that she, my brother's ward, gave poor Musso to his assassin to save her husband from a vengeance all Corsicans think righteous. I am only repeating to you that this is what the people of Bocognano think," he says, controlling himself. "They have sworn the vendetta against you, Monsieur Barnes, also against Marina Paoli, who has forgotten, in this naval lieutenant's arms, to avenge her brother. As the woman my poor dead brother brought up from childhood, I feel Marina should at least have protection. Therefore I tell you what my friends in Corsica say, that you and she may have warning."

"And you can tell your friends in Corsica," answers the American, "that if they bother me, or my bride or any of us, I shall plant them with no more compunction than a western gun man would."

"Diable, I have heard of your wonderful precision with the pistol from my dead brother many times," remarks Cipriano, with almost a shudder. Then his eyes catching a gleam of light from the distant landing stage, pauses with a little start of triumph and adds: "But I have said all possible to warn you, Signore Americano. The rest is not my affair, though I would like to voice a few words to Madame Paoli, who was my brother's ward."

"I do not think her husband will let you," answers Burton. "At all events, he won't let you wrack her nerves by mentioning the awful tragedy."

So the two together return to the



"Diable, I Have Heard of Your Won derful Precision with the Pistol."

house. They reenter the supper room where Lady Chartris takes possession of Cipriano, notwithstanding his eyes follow every movement of the beautiful Marina.

A moment later Barnes asks Lady Chartris ardently where his bride is.

"Oh, she's gone up to her chamber to primp for going away," cries Maud, "and you haven't given me any bridesmaid's present, either." This last is emphasized by a very sullen pout."

"Oh, that will arrive after I return from my honeymoon cruise," returns the American, lightly, and runs up the stairs to the chamber lately occupied by Miss Anstruther, but finding only Tompson in it, he asks: "Where's your mistress?"

"Oh, Miss Enid—I beg your pardon—Mrs. Barnes has gone on board the yacht, sir. You sent for her."

"I sent for her. What do you mean?"

"Yes, sir; a man coming up from the landing told me to tell my mistress you were waiting on board for her."

"That's very curious. Graham and his crew are not even on board the yacht."

Barnes dashes downstair, calls the mate to him and asks: "Has any boat come off from the yacht?"

"No, sir."

"Very well; run down to the landing stage with me."

"What's the matter?"

"Why, there's something wrong, I think," whispers Barnes, not breaking his rapid pace. "Tompson has said that I sent for Enid to come to me on board the yacht."

They are already at the landing stage, but in the darkness they cannot see even the hundred yards to the vessel.

"Her lights are not there!" cries the mate; they spring into a boat and row to where the yacht was moored, but find she has disappeared in the darkness.

"By heaven, somebody's gone away with the yacht!" gasps Graham.

"And with it on board my bride!" boans Barnes. "They have gone away by water; we must follow by water. Graham, get across the harbor and charter some smart craft that can chase the yacht."

The mate says quietly: "I understand," and lights a boat's lantern, as the night is very dark.

As the match gives out its glow, Barnes utters a short, sharp exclamation and seizes a small piece of paper tacked on the wooden balustrade of the landing place.

"Your light!" he commands; then mutters: "By the Lord, their message!" for he reads by the flickering flame in foreign script:

"Americano,

"If you would rescue your bride, come to Corsica!"

CHAPTER X.

The Missing Fragment of the Letter.

As Graham departs on his errand, the bereft bridegroom, whose face has grown devilish, mutters: "By heaven, there's a gentleman in that house up there I must see first!" and darts up the path to Lady Chartris's villa, reflecting: "Her fate I must not think of! That would unman me. My mind must be clear to save my darling."

As he reaches the door of the supper room, Lady Chartris's voice is saying, "Dear Count Cipriano, abate your interest in your late brother's ward and have another glass of wine to again toast the bride."

But the bridegroom's awful face as he enters stops revelry. Marina with a little shriek rises from a sofa on which she has been seated beside Cipriano Danella, and Edwin, springing up, says: "What's happened?"

In all his fears and all his agony, into the vengeful husband's mind as looks upon the party, one mighty consideration springs, that saves Danella's life: "By heaven, this man's remaining here indicates his innocence. If Cipriano had aught to do with the abduction of my wife, he'd scarcely dare to stand unconcerned here before me." For the count's gaze is carelessly not turned to him, but lingers admiringly upon Marina.

The easy bearing of Danella continues as Barnes briefly tells his tale, though once or twice he raises his thin Italian eyebrows and rolls his dark orbs in sympathy.

"Dio mio, it is as I feared!" exclaims the count sorrowfully. "They have seized your lovely bride."

"Oh, if they're drowning poor Enid now!" cries Maud, with a childish morbidness.

"Oh, I do no. imagine any injury will come immediately to the young lady. Lately, in the vendetta, women who do not bring about the tragedy are spared," remarks Cipriano quite sympathetically, though his glance rests malevolently upon Marina till her passionate beauty seems to soften his austerity. "But in Bocognano I imagine they wish a visit from you, Mr. Barnes, to rescue your bride," he continues dryly. "You see, in Corsica, a native jury would look much more leniently than a continental one upon the death of the vendetta. That's only my surmise, but I am quite confident it's the correct one."

"Thank you, count," says Barnes, "you have told me just what I wanted to know—the location of my loved one!" Then his voice becomes strident; he remarks grimly: "Your friends want a visit from me in Corsica—they shall have one!" To this he adds eagerly: "Danella, come over with me to the island."

"Mon cher Monsieur Barnes," says Danella, "though I would willingly aid you, it would not be wise to go with you to Corsica. Should ill befall you in that island, you might blame me, of whom you have already had, I am sorry to say, suspicion. As I said before, my poor brother is dead, I meddle in this affair no more. I remain to soothe the Lady Chartris in Nice."

"Thank God!" ejaculates Prunella, sentimentally seizing Danella's hand.

"Yes, I will stay," remarks the count, heroically.

Suddenly Marina startles them all. She says dominantly: "No one should go to Corsica but me. In the home of my fathers and my kindred—they will believe me when I tell them there is no cause for a vendetta against my friends. I can save your bride, dear Burton, and bring her back to you. My words will have weight with all in Bocognano."

"It would be most unwise!" dissents Danella shudderingly. "Have they not declared the vendetta even against you, Marina? Does not Bernardo Saliceti swear that you, by your arts, produced the death of the father of the girl, Etheria, he is about to marry, old Tomasso Monaldi's daughter?"

"Monstrous!" cries the girl mournfully. "Who dares to accuse me of the death of poor faithful Tomasso, my foster father who worshiped me—and whom I adored?" Tears make her dark eyes tender; but she continues enthusiastically: "Pah, they love me—they will not believe! My people even worship the name of the Paolis. I'll meet Saliceti and prove to the whole commune that he lies." Her eyes are now those of a Corsican.

"And by heaven, I'll go with you to save my sister!" cries Edwin.

"Ah, that is right—go to save your sister," answers Danella excitedly. "But Madame Anstruther should remain here with Lady Chartris. Only men should go. 'Tis a man's duty, lieutenant."

Size of Oregon Mosquitoes.

The late Col. L. L. Hawkins was fond of telling a mosquito story of his own, when Mazamas, gathered round their evening campfire, had to fight off the singing pest at the foot of snow mountains, where the "hot footed birds" are often troublesome. "You can talk about your big mosquitoes," said he, after the tale telling drifted into fairy topics, "but we (meaning Rodney Gilsan and himself) can tell something about mosquitoes ourselves. We climbed Skinner's Butte, at Eugene, to see the sunset. After we had watched the sun awhile it was obscured by a dense cloud of tremendous mosquitoes. They were the hugest I ever saw." Here somebody usually asked: "How big were they, colonel?" "They were so big," was the response that many of them weighed a pound." Strange to say, Col. Hawkins never suffered bodily injury for telling this story.—Portland Oregonian.

Terse and Truthful.

A despairing debt collector decided the other day to corner his quarry at the bar of the Hoffman house in the presence of a number of his friends thinking that by this ruse he would so embarrrass his man that he would either get his money in rage or a promise in mortification, says the New York Times. Advancing gently he tapped the debtor on the shoulder and said: "Pardon me, Mr. ——. When are you going to pay that small amount you owe my firm?" The debtor spun around on his heel and glared. "I'm no prophet!" he roared. The debt collector retired amid roars of laughter.

Human Perversity.

"Tennis," remarked the active man, "is great exercise."

"Yes," answered the insolent person; "it illustrates the perversity of human nature; when a man is supposed to be working he wants to idle, and when he is supposed to be idling, he wants to work."—Washington Star.

Truth and Quality

Appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

REMINDED HIM OF HOME.

New Yorker Saw Beauty In Sign, Where Maiden Lady Could Not.

A party of tourists was being shown around Ciudad Juarez, the little Mexican town just across the Rio Grande from El Paso, Texas. Every one was delighted with its picturesqueness, and in particular a maiden lady, who went into raptures about each new sight.

"It is all so quaint," she said. "These adobe houses, the old church, the narrow streets, the little plaza, those dreadful-looking men wearing sombreros; everything breathes the spirit of an old-world civilization. It is so different from our United States."

"That's so," assented a New York man who had been listening. "For instance, where in all the world could you find anything so antique, so full of inherent beauty, so charged, as it were, with the essence of pure joy, as that sign over there." He pointed toward a whitewashed mud house on whose exterior was painted:

"BIGGEST BEER IN TOWN, 5c."

The woman eagerly turned to look. Then she froze the horrid man with a glance and did not speak to him again during the whole trip.

BANISHED

Coffee Finally Had to Go.

The way some persons cling to coffee even after they know it is doing them harm, is a puzzler. But it is an easy matter to give it up for good, when Postum Food Coffee is properly made and used instead.

A girl writes: "Mother had been suffering with nervous headaches for seven weary years, but kept drinking coffee.

"One day I asked her why she did not give up coffee as a cousin of mine had done who had taken to Postum. But Mother was such a slave to coffee she thought it would be terrible to give it up.

"Finally, one day, she made the change to Postum, and quickly her headaches disappeared. One morning while she was drinking Postum so freely and with such relish I asked for a taste.

"That started me on Postum and I now drink it more freely than I did coffee, which never comes into our house now.

"A girl friend of mine, one day, saw me drinking Postum and asked if it was coffee. I told her it was Postum and gave her some to take home, but forgot to tell her how to make it.

"The next day she said she did not see how I could drink Postum. I found she had made it like ordinary coffee. So I told her how to make it right and gave her a cupful I made, after boiling it fifteen minutes. She said she never drank any coffee that tasted as good, and now coffee is banished from both our homes." Name given by Postum Co., Battle Creek, Michigan.

On last Sunday evening some one without fear of the law or respect of a religious meeting, threw stones at the German M. E. church windows and broke one of the lights. It must be remembered that there is a fine of $100 or imprisonment for 30 days for an act of this kind or otherwise disturbing a religious meeting.

If a cough once gets into your system it acts on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated so in order to get rid of a cold thoroughly and without delay you should not take anything that will tend to constipate. Kennedy's laxative cough syrup acts upon the bowels and there by drives the cold out of the system. It contains no opiates, it is pleasant to take and is highly recommended for children. There was a dance at the home of Dan Webner's last week Friday evening to which a large number from this vicinity attended. An enjoyable evening was reported. There was a little difficulty in securing music from our town musicians as most of our players were out of practice, however, one musician from here was secured and one from the country.

NO BLESSING FOR HER.

Disappointed Youngster Discriminated in His Prayer.

For several weeks, little Ralph had enjoyed the use of a Shetland pony, the property of a horse dealer who was a friend of the family. But much to Ralph's sorrow, there came a day recently when the pony was sold, and the delightful horseback rides came to a sudden end. The purchaser, as Ralph found out by inquiry, was a little girl of about his own mature age of five. Ever since his acquaintance with the pony began, Ralph had included him in his bedtime prayer, and "God bless the pony," was an earnest nightly petition. The first evening after the sale of the pony, Ralph hesitated when he reached his pet's place in the prayer. Then, after a moment's thought, he continued:

"Please, God, bless the pony just the same; but, God, don't you bless the little girl what's got the pony."

DR. JONES IS FOUND.

Dead Body of Keokuk Man Discovered Near Burlington.

Burlington.—With its face protruding from a snow bank in a lonely strip of lowland forest two miles north of Burlington, the body of Dr. George W. Jones, the missing Keokuk physician, was found.

A long, heart breaking search has ended with the discovery, and a three weeks' mystery solved. In the hands of the dead man was a pocket knife, and a revolver was lying near. Through the neck was a bullet hole and in the throat on both sides were numerous knife cuts. Evidently while in a demental condition Dr. Jones had wandered away from Burlington on Christmas evening and ended his life at the spot where the body was found. There were no signs of foul play. The doctor's money and valuables were still on his person; a costly diamond ring was on his finger, and a diamond scarf pin ornamented his tie.

The spot chosen for the fatal tragedy was well calculated to preserve the secret of the doctor's fate. There was no house within a mile of the spot and it was far enough from the traveled road to prevent easy discovery. Joseph Knapp, a hunter, came upon the body staring at him out of the snow which in melting had left only the upturned face exposed. Knap hurried to the city and reported to the coroner, who had the body brought to this place. A. B. Dunlap, assistant deputy United States marshal, of Keokuk, who has been conducting the search, viewed the body and positively identified it as that of Dr. Jones. It was in perfect condition having remained frozen all the time it lay in the woods.

Dr. Jones disappeared from Burlington Christmas night, having come here from Keokuk on his way to attend a surgical case at Lockey Bridge. A search for him has since been conducted by his brother, W. Clyde Jones of Chicago, assisted by detectives. There is no question that he wandered away and committed the deed while insane.

MUST HELP INTERURBANS.

So Says Pres. Loring of Fort Dodge & Des Moines Line.

Fort Dodge.—Preident Homer Loring, of the Fort Dodge, Des Moines & Southern road, was the guest of the business men of the city at luncheon This was his first inspection of the completed road, and the affair was in the nature of a testimonial of appreciation of his personal efforts which have contributed to the successful completion of the longest interurban line in the west.

"Eastern capitalists are taking deep interest in this line," remarked Mr. Loring. "The fact that it is the longest interurban in the west operating over its own private right of way makes it a criterion of the roads in the west. The financing of future interurbans will depend in a large measure upon the success of our line. People who are promoting the new line north from here to the lake will find this to be true. It is now up to the people of Fort Dodge and along the line to give us the necessary amount of business to make a proper showing if the capitalist is to look with favor upon interurban investments in Iowa.'

During the course of the luncheon various speakers assured President Loring that if his road would connect with the Northwestern at Boone practically all of the stock shipments from this territory would go over the interurban on the route to Chicago. Traffic arrangements with the main line of the Northwestern would insure a large increase in the traffic from Fort Dodge. Business men here very generally expressed themselves as being favorable to freight shipments over the interurban as a mark of appreciation for what it has done for the city.

POOR MAN NOW RICH.

Webster City Laborer Comes Into Unexpected Fortune.

Webster City.—William H. Baker, a day laborer residing on James street in this city, has just learned that he is one of the heirs to the $75,000 estate of the late Mrs. Augustus Mitchler, in Whiteside county, Ill. The estate is now up in the district court of that county for probate.

Baker is a nephew of Mrs. Mitchler and is one of six heirs. His share of the estate will reach $12,000. The property of the estate is located in and about Sterling and consists of dwelling houses and farms. Baker is a hard working man and one to whom $12,000 seems like a large fortune. He is industrious, however, and will put the money to good use. Mr. and Mrs. Baker are the parents of fourteen children. They will receive their share of the estate of their relative within a few months.

ATTORNEY GENERAL BALKED.

District Judge at Burlington Refuses a Special Grand Jury.

Burlington.—The state of Iowa, as represented by Attorney General Byers and his assistant, George Cossen, was turned down hard by Judge James Smyth of the Des Moines county district court. Cossen had appeared before the present term of the grand jury in behalf of B. E. Jones of Burlington, who was seeking an indictment of the men who assaulted him a year or more ago in connection with the enforcement of the saloon laws.

The jury found no indictment and Cossen, much vexed, filed a motion for the calling of a special grand jury. Judge Smyth declined to grant the motion, stating that the present grand jury were reliable and honest men and had thoroughly investigated the complaint and did not feel justified in causing the county any further expense.

Jones went before five grand juries with his charges, but was not able to secure an indictment. Then he went to Des Moines and conferred with Governor Cummins, who turned the matter over to Attorney General Byers, with instructions to push the case for Jones.

Cossen called upon County Attorney Kuhlemeier to give notice at once that the provisions of the mulct law would be rigidly enforced from now on.

MYSTERY IS EXPLAINED.

Strange Case of Assault at Capitol Is Solved.

Des Moines.—Carl L. Clemmens' reason for registering Harriet L. Clemmens, the name of his wife, at the Elliott hotel has become known. This has been the real mystery of the strange state house assault case as a result of which R. H. Dosh, the Stuart attorney, was sent in the dangerous condition tot he Methodist hospital and the Pacific coast lumberman is still on bonds for his appearance before a police magistrate.

The wife's name was signed to the hotel register as a decoy to Dosh, to whom Clemmens had previously written a letter, signing his wife's name, and making an appointment. Clemmens wanted Dosh to give to him the letters written to Dosh by Mrs. Clemmens before she was married. Dosh did not keep the appointment and the men met by accident at the office of the attorney general in the state house. The strange assault followed. The signature, "Harriet L. Clemmens," on the hotel register has been the real mystery in the case for the detectives, and, by clearing that up, the story of the ill feeling of many years, leading up to the assault, also became known.

FUGITIVE IS CAPTURED.

Accused of Brutal Murder in Louisa County in 1879.

Des Moines.—A requisition has been issued for the transportation of William Pickard of Conroe, Tex., to Iowa to answer to the charge of the murder of W. F. Teets of Grand View, who was killed July 8, 1879. For twenty-eight years and over Pickard has been a fugitive from justice, and after all search had been abandoned he has been, so the authorities believe, recognized in a prominent citizen of the Texas town.

The murder was an especially brutal one. Pickard is claimed to have used a bar of iron and to have smashed Teets over the head, pounding and beating him to a pulp. He immediately left the country and a number of times he has been almost within the pale of the law.

Herman Harris, wanted in Anamosa for cheating by false pretenses and captured by the authorities of Omaha, was extradited on warrants drawn on the governor of Nebraska.

Farm Renters Are Scarce.

Clear Lake.—The farmers of this county are considerably excited over the shortage of good renters. The last two or three seasons of excessive rainfall has led to a heavy emigration of tenants to other states, especially into Minnesota, the Dakotas and Canada. Very few of the hundreds of farms that are for rent in the county have secured tenants. The rent is not high, but there are few men who are willing to risk another season here. It is planned to do some canvassing, hoping to get located a good class of tenants to keep the land up in shape.

Accused of Woman's Death.

Fort Dodge.—The grand jury returned an indictment charging Dr. P. K. Dahl, a well known physician, with manslaughter. The charge is due to an operation performed on Mrs. Dora Bowen, who died soon after in great agony. The indictment has caused a sensation here as the defendant stands highly in social circles. Mrs. Dahl is a prominent musician.

REV. TROUTMAN SENDS BEST WISHES FOR PE-RU-NA

Rev. George A. E. Troutman, Mt. Washington, Mo., Writes,

REV. GEORGE A. E. TROUTMAN.

Catarrh and La Grippe.

Rev. Geo. A. E. Troutman, Mt. Washington, Mo., writes: "My wife and I are strong believers in Peruna.

"For several years I have been troubled with a peculiar spasmodic *affection* ***the throat.*** It would seize me suddenly and for a few minutes I would be able to speak audibly, and my breath would be greatly interfered with and I would be obliged to gasp for breath.

"I finally concluded that it was some catarrhal affection which probably excited the spasm. It interfered with my vocation as a preacher, attacking me occasionally in the pulpit.

"I had heard so much about Peruna as a catarrh remedy that I determined to try it. After taking two bottles the ***trouble has disappeared.*** I feel sure that Peruna has greatly benefitted me."

Rev. P. E. Swanstrom, Swedish Baptist Pastor, Box 228, Grantsburg, Wis., writes that from the use of Peruna he is perfectly well, entirely cured of chronic diarrhea and catarrh.

Peruna in Tablet Form.

For two years Dr. Hartman and assistants have incessantly labored to create Peruna in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure Peruna Tablets, which represent the medicinal ingredients of Peruna. Each tablet is equivalent to one average dose of Peruna.

I was cured of a bad case of catarrh when nothing else that I tried had any effect. My wife was cured from a ***severe case of la grippe,*** and we feel that the least we can do is to gratefully acknowledge the merit of Peruna.

"My wife joins me in sending best wishes for your success."

WALSH IS GUILTY

PROMINENT CHICAGO BANKER FACES LONG PRISON TERM.

MAY SERVE MANY YEARS

Walsh Smiles When Greeted by His Friends after the Verdict Was Announced.

Chicago, Jan. 19.—John R. Walsh, former president of the Chicago National bank, which closed it doors in December, 1905, was found guilty yesterday on fifty-four counts of the indictment against him charging misappropriation of the bank's funds. The verdict was returned by a jury in the federal ristrict court here.

Walsh was permitted to remain at liberty under the bond furnished by him after the indictment had been returned against him one year ago to a day pending the hearing of arguments on Jan. 28 on a motion by his counsel for a new trial.

The penalty fixed by the statutes for the offense of which the aged financier was convicted is imprisonment for not less than five years or more than ten for each count upon which his guilt was established.

John R. Walsh, the aged defendant, walked into the court room just before the jury entered, and sat chatting with his attorney and friends at the same table that he had occupied throughout the progress of the long trial. He seemed in the best of spirits and looked more unconcerned than any of his attorneys. From the first he and his attorneys were confident of an acquittal. A moment later the verdict was read by the clerk of the court. Walsh sat motionless and the crowd of spectators was hushed.

After the reading of the verdict and the motion for a new trial, the defendant arose from his seat and was immediately surrounded by scores of friends who pressed forward to shake his hand and speak a word of sympathy. He received each with a smile, but refrained from making any comment.

"Have you anything to say in regard to the verdict?" he was asked.

"Not a word," he replied with dignity.

A few minutes later he left the court room with his attorneys.

The charge against Walsh grew out of the closing in 1905 of the Chicago National bank, of which Walsh was president, and its allied institutions, the Home Savings bank and the Equitable Trust Company. Walsh was accused of having loaned funds of these institutions, aggregating some $16,000,000 on fictious and insufficiently secured notes to nearly a score of struggling enterprises which he himself had founded and practically owned. Many of the notes, it developed at the trial, were signed, without authority, in the names of various employes of Walsh. The directors of the bank took the stand and testified that they were not consulted by Walsh as to the making of the loans and that they knew nothing of them. Twenty-six of the notes were described as "memorandum" notes, and they formed one of the chief features of the trial. The represented more than $2,000,000. Methods of concealment were employed in carrying the transactions on the books of the bank, and alleged misrepresentations made in reports to the national bank examiners kept the latter in ignorance of the true condition of the bank's finances, and the nature of their securities for several years prior to the closing of the institution.

PLOT TO DESTROY FLEET.

Destruction of U. S. Armada Foiled by Rio Police.

Rio De Janeiro, Jan. 20.—The Brazilian police have discovered an anarchistic plot here having as its object the destruction of the American fleet now lying in the harbor.

The conspiracy, while centering in Rio de Janeiro and Petropolis, has ramifications in Sao Paulo and Minas Geraes. An individual named Jean Fedher, who resided in Petropolis, was the chief conspirator here, although it is understood that foreign anarchists are deeply involved in the plot. Fedher is believed to have fled to Sao Paula, and the police, who know him, have been sent to that place for the purpose of apprehending him.

One of the detectives, who was well acquainted with Fedher, having served on the police force at Petropolis for some time, returned from that place yesterday after having made investigations there and having a long conference with the chief of police at Rio de Janeiro. The latter gave it to be understood that the Sao Paulo police are on the track of the conspirator and expect to secure him

In an official note, which the chief of police sent to the correspondent of The Associated Press, he says:

"Some time before the arrival of the American fleet at Rio de Janeiro, the Brazilian government received notice from Washington aid Paris that anarchists of different nationalities determined to harm one of the ships. The names and addresses of the conspirators were indicated by information which the police here had received previously from France and Germany. The police of this district are working with the police of Sao Paulo and Minas Geraes and I am sure every precaution will be exercised and the most rigorous vigilanec observed both on land and at sea to prevent any injury being done."

"Listen," replied the man; "half an hour ago I sent Isaac to the delicatessen. I gave him two quarters, one with which to buy bread, the other to buy fish. And now he comes back and says he wants to know which quarter is for the fish and which for the bread. Is it enough?"

"It is," replied Kneirem.—New York World.

ITCHING HUMOR ON BOY

His Hands Were a Solid Mass, and Disease Spread All Over Body —Cured in 4 Days By Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Ring Watches Popular.

Swiss watchmakers are reported to be busy filling English and American orders for finger ring watches. The ring watch, though little seen, is no novelty. The manager of an old London watch-making firm says that he saw them more than 14 years ago. Queen Victoria had three or four. The simplest ones—a plain gold ring with the watch inserted—cost about $100, but with diamonds or other stones, $5,000 to $10,000 may be paid.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this marvelous prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves — re-establish them as needed, with

Mr and Mrs. J. E. Stille had their baby christened last week naming it Ruben William.

Wm. Bredlow and wife were Klemme visitors last week and took in the revival meetings one evening.

Rev. H. Kaste of Charles City, Iowa, arrived Wednesday evening to assist in the revival meetings a few days.

George Gast arrived Tuesday from Beltrami, Minn. to spend a few weeks with his relatives and many friends.

Della Schlei, Lydia Beier, Lizzie Riemer and Herman Gast were elected delegates to the district S. S. convention from the Germantown school.

Erick Josten was elected President of the Germantown League and E. G. Beier, 1st Vice-Pres.; G. I. Schaper, 2nd Vice Pres.; Lydia Beier, 3rd Vice-Pres. and Dell Schlei, 4th Vice-Pres.

Our Germantown farmers were well represented in Klemme on Tuesday, marketing hogs. Jno Tanner delivered 16,000 pounds of porkers and Wm. Prull, Jno. Schwichtenberg and Leppo Blank loaded a car together.

The revival meetings have been well attended thus far and the interest is on the increase. It is gratifying and helpful to see members of the other churches attending so regular. Cottage prayer meetings are held every afternoon this week in connection with evening services.

On Saturday evening an illustrated lecture on "Japan and the Japaneese" will be given in the Germantown church. The subject is one before which the civilized nations have stood in awe for the past quarter of a century. An Empire which has been shrouded and exiled in myth and superstition during all annals of history to span the great space of a thousand years transforming ascendency and to leap in a day to the front rank among the nations of the earth is the most astounding transformation that has taken place in the history of the world. One hundred, mostly colored views, will be throwd on the canvas.

HOES MADE OF WOOD.

The ancient Egyptians used wooden hoes. The blades and handles were simply inserted the one into the other and bound together with a twisted rope.

Small Channel Island.

Jethou island is by far the smallest of the channel islands, and boasts the distinction of being the smallest inhabited island in Europe, having, indeed, only one dwelling house upon it. It has a population of seven souls. It has no road or pathway or post. At the last census more than half the population of the island was absent, having gone into Guernsey market with the butter and cream from the Jethou cows. The weather being bad, the visitors had to stay at Guernsey during the census time.

Secured Veteran Catfish.

Nearly asleep reading about a bear coming up a bank after a hunter, Howard Davidheiser was almost pulled into the water by a sudden pulling at his rod while fishing at Sanatoga Lake, Pa. The rod did finally break, but Davidheiser managed to land his prize, an ancient catfish over 17 inches long. He was badly stung in the thumb, however, and his hand swelled to alarming proportions. Half a dozen hooks were found inside the fish, an indication of how crafty he had been in escaping from the anglers.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. Write now for our low prices and a dozen reasons why every farm should have them.

At a cursory glance there is no good reason apparent on the surface why the members of the United States life-saving service should not be entitled to pensions the same as some others.

If walking from New York to Chicago cures the man of the liquor habit he can recommend it to his friends, but he will never be able to put up his new discovery in bottles and sell it to sufferers at $1 a bottle.

The New York Times indulges in merriment at the expense of the lady who locked up bank checks for safety instead of depositing them. Still she might have done worse by depositing them in the bank and hoarding the cash. That is a masculine foolishness, more particularly.

With railroad passes abolished, it is not believed that the Republican or the Democratic national conventions next year will be largely attended by outsiders. Hitherto fully 20,000 auditors other than delegates and alternates have turned up at national conventions, to the grief and anger of the doorkeepers, but to the substantial joy of hotel men and barkeepers.

One night, says a writer in the Ladies' Home Journal, when the duchess of Roxburghe was entertaining King Edward at dinner, the bishop of London, who was present, omitted to say grace. The duchess suddenly remembered in some alarm, but his majesty soothed her feelings. Turning to her with a genial smile, he said: "Your Grace is sufficient."

Two interesting facts have been disclosed already by the investigation of Pullman car rates at St. Paul. One is that when upper berths have to be used, agents are instructed to allot them to persons of light weight, and to assign the heavyweight passengers to lower berths. The other is that the Pullman company pays its porters $25 a month, leaving them to collect the rest of their wages in tips.

The wine merchant turned a switch and a strong electric current shot through the cask of wine. "That is this autumn's wine," he said, "and it is sweet, harsh, rough—in a word, a nasty new wine. Well, in a few days it will be smooth and fragrant; in a few days it will be eight years old. We age wine by electricity now. Wonderful thing, electricity, isn't it? It grows fruit, it rejuvenates people, and now, by jingo, it ages wine."

Chicago justice may become as famous as that dispensed in New Jersey if the courts continue in their present course. A Chicago judge not long ago sentenced a man to talk to his wife for half an hour every day for a month, and another man was ordered to give a box of candy and a bouquet of flowers to his wife once a week for four weeks. The object was to restore harmony to unhappy homes, and according to latest reports, it was successful.

LAUNCH RIVER PLANS.

Seven States Combine to Improve the Big Missouri.

Sioux City.—An appropriation of $40,000,000 for the establishment of a 12-foot channel in the Missouri river from St. Louis to Sioux City will be asked of congress as a result of the first annual convention of the Missouri river navigation congress.

Governors and congressmen from seven states bordering on the Missouri river were in attendance at the convention. It was the voice of the convention that the Missouri river as well as the Mississippi should be made navigable as soon as congress can see its way clear to spend that much money. It was the sentiment of the convention that the deepening of the Missouri river channel would be the greatest stroke toward the sentiment of railroad rate troubles in the great middle west.

Engineers reported that the Missouri river, if improved according to the plans of this convention, would have the carrying capacity of 600 railroads—fifty times the capacity of all the roads running between the Mississippi river and the lower Missouri, and more than twenty-five times the capacity of all the railroads running from the Mississippi to the Missouri at all points.

These engineers reported that making the Missouri river navigable from Sioux City to St. Louis would cost less than paralleling any single railroad between these two points.

Speakers at the two-day session of the convention were Gov. A. B. Cummins of Iowa, Gov. Chas. S. Deneen of Illinois, Gov. Jos. Folk of Missouri, Gov. John A. Johnson of Minnesota, Gov. Geo. L. Sheldon of Nebraska, Gov. Coe I. Crawford of South Dakota, and Gov. Jas. Burke of North Dakota. It was the greatest collection of governors since President Roosevelt made his trip down the Mississippi.

Yankton was awarded the next meeting of the congress. Congressman E. C. Ellis of Kansas City was elected president and George C. Call, secretary and treasurer.

MERCHANTS PROTEST.

Say Pure Food Prosecution Is Unjust.

Council Bluffs.—The indictment and arrest of thirteen grocers of Council Bluffs on a charge of selling a substitute for butter, has developed a situation, they claim which is unjust to them and that brings out facts and information that will be of interest and value to dealers in every part of the state.

The articles which the dealers were selling and upon which the indictments were based was oleomargarine and the indictments are in the main based on the charge that the oleo had coloring matter in it, which is contrary to the law. While this charge is not denied, the dealers claim the protection of the wholesalers, who were presumed to have complied with the law in all respects.

One store the proprietors of which were indicted and arrested, has near its entrance a large box partly filled with imitation butter. On each side of the box is stamped the words "Substitute for butter". The contention of the pure food department is that each package should be stamped and also that the coloring matter was illegal.

The grocerymen claim they have no way of knowing whether their oleo has any coloring matter in it, as it is invariably almost white, but on the last count the dealers can be held liable for an infraction of the law. The dealers claim no attempt was made by them to deceive the public and that signs were posted announcing the fact that they sold imitation butter. They admit that technically they are liable but feel that the extenuating circumstances of their displaying openly the goods with the sign on the box should absolve them from a fine.

A HOSPITAL TRAGEDY.

Centerville.—In the presence of his wife, who was sitting by his bedside in the Centerville public hospital, Ivan Beach of Lineville, Iowa, committed suicide by shooting himself in the temple with a revolver before the wife or nurses could interfere. Despondency was the cause. He had been sick for some time and was brought to the Centerville hospital for treatment.

Mrs. Beach had come to visit her husband, and the attending nurse had stepped from the room. Mr. Beach asked his wife to reach his suit case, which was standing in a corner, and give it to him. She set it on the edge of the bed and opened it. He reached in and took a revolver out of it, and before she could restrain him or call assistance he placed the revolver to his temple and fired, the ball entering the brain and causing death in a short time afterward. He was a prominent stock raiser and farmer in Wayne county, living near Lineville.

EXPLOSION WRECKS TOWN.

Dynamite Works Havoc During Fire in Supply Store.

Hocking.—An explosion of forty boxes of dynamite here seriously injured two men, slightly injured thirty-one other people, destroyed three business buildings and completely demolished twelve freight cars and their loads of merchandise. There is not a house in the town that is not more or less injured, and scores of men who were in the vicinity of the explosion had a miraculous escape from instant death.

The explosion followed a fire in the Hocking Supply company's store, which was discovered soon after midnight. The side tracks of the Iowa Central railroad run near this building and the fire communicated from the building to the car containing the dynamite. When it became apparent that the fire would spread to the nearby string of freight cars on the track, men began pushing them away. While they were at work on one car which was already ablaze, some one shouted frantically to them that it contained a consignment of dynamite; the men ran, dodging around the corner of the building just in time to get out of the direct force of the explosion which followed.

Two of the men were seriously injured in spite of their flight.

Malcom Pilkington, aged 18, was badly cut by glass and flying debris, and he inhaled sulphurous gases. He is in a critical condition.

Tim McCleod, aged 34, married, a clerk in the Hocking Supply company's store, had his ear drums burst, and he was also badly cut about the body with glass and bruised by debris, and he suffers from gases inhaled. His condition is pitiful.

Thirty-one other residents suffered slight injuries from the shock, flying glass and falling brick.

The time of the explosion was recorded in every residence and business building in the town by the stopping of the clocks.

The force of the explosion was terrific. It tore a great hole in the ground underneath the car, and completely demolished the twelve other cars that stood near the track side. Men who were fighting the fire were knocked down like so many straws. Windows were broken in practically every building, while the J. I. Corbett restaurant and the Joe Robinson barber shop near by were wrecked. The whole surrounding country was aroused and shocked by the noise of the explosion and the concussion, and in Albia, more than two miles away, the plate glass front of the Armstrong & Simon drug store was broken in.

TURNER SOCIETY DRY.

First Dance in Years at Which Beer was Not Served.

Des Moines.—The club rooms of the Des Moines Turnverein society are "dry" for the first time in years. The closing of the bar was a voluntary action by the club, and it was taken in the nick of time, for a justice of the peace and two constables were kept out of bed until midnight waiting to seize any brew that might be offered for sale. Two representatives of the Anti-Saloon league attended the monthly dance for the purpose of securing evidence against the club, but their errand was a fruitless one because no liquid refreshments were served harder than ginger pop.

Whether the officers of the German society were tipped off on the planned raid and disposed of all beer beforehand, or whether the bar is permanently closed, cannot be learned.

The Anti-Saloon league had made complete preparations to seize beer that was offered for sale. Instead of the two or three men that are usually kept busy waiting on trade between dances, the league's amateur detectives found a lone man behind the counter selling pop. W. C. Barber of the league stated that the Turner hall would be watched in the future, saying that the reform might be only temporary and that the sale of liquor might be resumed.

LYNCHING IS AVERTED.

Mob Storms Jail at Ottumwa But Is Foiled.

Ottumwa.—Only the forethought of Sheriff Jackson in spiriting away a prisoner prevented a riot at the county jail with probably casualties and a possible lynching.

A mob of more than two hundred gathered at the doors of the jail at 8:30 o'clock, p. m., and demanded the person of Ray Edwards, a negro, who was arrested for criminal assault upon Mrs. Clara Erwin. The lights in the jail were quickly extinguished, the guards armed themselves at the doors and a riot call was turned in to the police. In the meantime Sheriff Jackson appeared before the mob and told them that Edwards had been taken to the jail at Albia.

THINGS GOOD TO REMEMBER.

Soda Crackers with Raisins and Almonds—Onion in Gravy.

Dip any of the crisp soda crackers in milk, but do not permit them to become too sodden. Brush with beaten egg, sprinkle with sugar and spread upon a platter, on which there is room enough to lie singly. Put in the oven, let them brown slightly, and sprinkle with minced raisins and almonds. Lay two or three together and serve with whipped cream.

All white meats gain in flavor from a delicate onion admixture with the gravy. The nion is to be grated and put over the meat before it has just finished roasting and then blended by basting. In this way one avoids the burnt onion slices, which sometimes result from other methods, and which have, in a way, caused the addition of onion to be regarded with disfavor.

The bits of tongue and ham which do not look well upon the table should be saved and chopped up together for meat pies. Spinach prepared with a butter sauce is mixed with the fragments just before they are put into the chopper. A little tomato ketchup is an improvement. The thickening should be either grated bread or cracker crumbs. The usual pie crust is best, with a little niggardliness in the matter of shortening.

An old carpet dyed often looks as good as new. If, therefore you have a carpet which is badly faded, but otherwise in good repair, send it to be dyed, and if you choose a nice color you will be delighted when you get it back again.

HOUSEHOLD HINTS.

Never stir a cake after final beating. Beating motion should always be last used.

It is said that if a little borax is put in the water it will remove fruit stains from the hands.

The rollers of a clothes wringer may be easily and effectively cleaned by rubbing them with a cloth which has been dipped in coal oil.

In order to be sure that the cocoanut for pies and candy is perfectly fresh it is well to buy the whole fruit and shred it in the meat chopper.

It is said that if an onion is cut into small pieces and placed about a room it will absorb many disagreeable odors, including fresh paint and turpentine.

A few economical housewives have tried grinding their tea leaves like coffee, and they declare that the result is excellent, only about half the usual quantity being used. Of course, the tea strainer must be as fine as can be bought.

Dainty Dresser Scarf.

When handkerchiefs are cheap buy four embroidered ones with the plain hemstitched edge and sew them all neatly together with a strip of torchon lace insertion about an inch and a half or two inches in width between each handkerchief and on the edge of the one at each end. When this has been neatly done sew lace, which should match the insertion used, on both sides and ends a little full. Now make a plain cover to go under this of some delicate color, a pale yellow or pink being especially pretty, and you will have a dresser cover of which you may justly be proud. If a commode cover be desired to match this, use three handkerchiefs instead of four to make it shorter and proceed the same as before.

Coffee Creams.

Heat one pint of milk. Beat up the yolks of three eggs and one white, and add to the hot, not boiling, milk. When it has cooled add two ounces of granulated sugar and enough coffee essence to color and flavor it. Put into a bowl one-half gill of boiling water, three quarters ounce of gelatine. Stir it over the fire until dissolved, then strain it into the custard, which should be warm.

To Obtain Gloss on Pie Crust.

Even when the oven is quite right and the pastry has been made moderately rich, a woman will feel dissatisfied at the appearance of a pie because she misses the rich brown gloss that she has seen on pastry made by practical cooks. To obtain this gloss she needs a wrinkle. It is produced by egg wash. An egg is beaten up with a little sugar and a small quantity of milk is added. With this wash the pie is brushed over after the pastry has been finished.

Cream Cheese Pie.

Mash a cream cheese; add two beaten eggs and a half cup of white sugar; mix all together and pour this filling in a pie plate lined with ordinary pie crust. Lay on the cream strips of the dough, lengthwise and crosswise, and set in a moderate oven.

Powdered Sugar.

Turn coffee mill down very tightly, fill the hopper with granulated sugar, grind it through once or twice, or even three times, and you have an excellent powdered sugar.

CHAPTER X.—Continued.

"...while we talk I should be act...! No one but me must go!" re... Barnes shortly. "They hate ...Anstruther, for being English, as ...your wife. They won't believe ...other English officer and not ...killed Antonio in that duel. Be...es, it is my mission to save my ...ide, as it is your mission to protect ...d care for the dear wife in your ...ms. Don't fear, I will bring Enid ...ck or—or you won't see me again!" ...The splash of oars interrupts him. ...strides out of the room and ...rriedly down to the landing ...es. "Quick, Graham," he calls, "is ...at you?"

"Yes," answers the mate, who is ...pping from the boat; and he reports ... has engaged a lateen-rigged fishing ...ssel, which, as soon as they have got ...me provisions and water on board, ...ll be over with its Italian crew, prob...ly in half an hour.

"Then leave every foreigner behind ...u," directs Barnes. "Pay them to ...ay on shore. You sail the craft with ... few of your Scotch tars. The rest ... your men we will leave here to as...t Edwin in patroling these grounds ...d taking care of his wife, whom you ...ow is threatened also."

"Yes, by the cursed Corsican gang ...t is pursuing you," says the mate, ...ding a muttered oath. "I'll stand by ...r, wi' my life."

... returns up the walk and en... house, to go up to the cham... had occupied, he passes the ... room. Noting that Danella, ...gh he is bending over Lady Char...is with almost the effusiveness of a ...ver, has his eyes always upon the ...ttractive Marina, who is in consulta...on with her husband, Barnes enters. ...To him, Edwin, springing up, says: ...Have procured the craft to follow ...em?"

"Yes, Graham did that for me," and ...rnes hurriedly tells the young Eng...sh officer the arrangements he has ...ade, adding: "You stay here, old ...an, and trust me to bring your sister ...

... Marina, her face full of gen... enthusiasm, cries: "Let me go ... Corsica. You are a foreigner, dear ...r. Barnes. In my own island I can ...t you could not do—they ail ...ve me!"

"...t! When they've been hunting ...t like a wild beast and sending you ...things that make you faint!" shudders ...husband.

"...e quite right, Lieut. An...truther," returns Danella, "in not per...tting your wife to go. One unfor...nate, helpless woman in that wild ...and amid the passions of their bar...aric feud is pitiable to think of. To ...ubject another, whose life is already threatened by the dagger of the vendetta, to a similar risk, would be hideous."

"I do not fear my kindred," answers Marina proudly. "My words, the rustics of my commune will believe. I should go."

"And have them murder you?" shudders her husband. "Never!"

His young wife's only response is a plaintive sigh.

"Again you are right, Monsieur Anstruther. Of course, we know they loved Marina; still they might not believe," observes the count, his ardent eyes resting upon the excited girl, whose very enthusiasm renders her more lovely. "I am now returning to Nice, where Lady Chartris knows that I am at her command to do anything to aid her in this unfortunate matter. I shall drive out to-morrow. May you have good fortune, Signore Barnes, in your efforts. But remember one thing: In that barbaric island, they want your blood. You can only rescue your wife by risking it, but no suggestion from me is necessary to a brave and determined man!"

Jamming the Open Spaces Full of Cartridges.

Danella would bow himself out, but Marina says eagerly: "Two words in private with you?"

"Certainly," answers the count, and Barnes notes as the beautiful woman whispers to him a look of astonishment enters his mobile face.

After he has answered her, the girl says curtly: "I thank you, Signore."

"You may trust me, Madam," is the count's reply; and courteously kisses the trembling fingers of Anstruther's beautiful wife, his eyes seemingly filled with a new and strange passion.

This is scarce noted by the American, whose misery distracts him.

A few moments later, Burton selects for himself a rough shooting costume that he has fortunately with him.

Then he hurriedly slings a field glass over his shoulder; puts one or two little trinkets, mementoes of his lost love, in his pocket; takes his valise with the articles it happens to contain, jamming all open spaces full of cartridges for his revolvers, and brings it downstairs with him.

Marina stands in the hallway with her husband. To Barnes, as he wrings her hand, she whispers: "Remember, a dead man cannot take Enid from that barbarous home of mine. Therefore, guard your own life."

They step out on the porch. Some moving lights are at the landing place and they hear the swash of sweeps and the cries of the Italian crew as they warp their fishing vessel up to the platform.

"Here' I'll go down with you and see you on board and your craft shipshape," remarks Anstruther. "Let me carry that rifle of yours."

"Come!" says Barnes, to whom every minute seems an hour, and hurries down the path; but as Edwin follows, Marina's white arms twine round him close, tight and clinging as if they couldn't let him go.

"Don't fear for me, you trembling dear," whispers her husband, kissing the excited face. "I'll be back soon."

At the landing, Barnes finds he has quite a little to do paying the Italian fishermen to remain on shore as Graham is getting their stores and water properly arranged on the craft. Of this Anstruther now takes charge, but though he works with a will, it is almost half an hour before the young naval officer pronounces the fishing vessel shipshape in case of heavy weather.

Then the young English officer leads the American aside and says, with the craft of a seaman: "Under this present breeze, if those devils you're in pursuit of want to make their island quickly, they'll be compelled to strike its northwest coast somewhere near Porto. Graham will know how to steer the course. I'd go with you, but—"

"But your first duty is here to protect your wife."

"You think these devils haven't all gone away; that there is still danger for her?"

"Yes, keep a sharp eye on your loved one. That was my error," moans Burton. "I left Enid out of my sight for only a few minutes."

"Then good-by," says the sailor hurriedly, and wringing Barnes' hand, strides up the path to Lady Chartris' villa.

Then Burton stepping on board the fishing lugger, which is big enough to make the run to Corsica, they would immediately throw off their moorings to the little landing stage, but the Italian padrone of the craft, noting Barnes' haste seems great and his need extreme, steps up and demands additional recompense from the American milord for his vessel, declaring he will not let her go until he has more money; that his ship may be wrecked at sea and he has no insurance.

"Pay him!" mutters Barnes impatiently, and hands his pocketbook to Graham.

But payment takes some time, the light of the lantern not being very good and the Italian inspecting every bill to see its value and again greedily imploring for more money, stating that his men will desert him if he gives them not speedy employment.

"Give him what he asks," cries Burton again; then pauses and mutters: "Good God!" and springs on shore! For a shout has rung out through the night air from Lady Chartris' villa and there is terror in it, and he knows it is the voice of the stout-nerved Anstruther, who would not give cry unless some sudden and uncanny despair had come upon him.

The American rushes up the path and a few steps from the door almost runs against Edwin. In the darkness the frenzied men seize each other, for Anstruther is now as frantic as himself. Recognizing him, Barnes asks: "What's the matter?"

"By heaven! Another blow in the dark! My wife has gone also!"

"Marina? Impossible! You have looked the grounds over? You have searched the house?"

"Here's a note from her, left in her chamber, begging me to forgive her, saying it is to save my life."

"My God, what horrible plot is it that has bereft us both in a moment?" asks Barnes. "If she had only told you the contents of that devilish letter."

The two are in the hall together, in their anguish, their voices ring out loudly. A frightened-eyed, short-skirted creature runs to them, and tremblingly asks: "Did you want Marina's knock-out letter very much, Barnsey? The last part of it?"

"It was perhaps Enid's life, perhaps the life of Edwin's bride."

"Well, then, I—I—oh, forgive me! I lied to you. I've got the letter—the last part of it; I was going to sell it to you for marrons glaces—I'll get it for you. It is tucked in my lucky stocking for fear ma'll see it. It said something about murder! I'll—oh, don't look at me so awful!"

Maud flies upstairs and a moment later dashes back bringing the portion of the epistle.

As they try to decipher its cramped foreign hand, Lady Chartris, coming out wildly from her chamber, for now she fears she will be abducted herself, and is half crazy with fright, suddenly, looking over their shoulders, cries, half shrieking: "Oh, heavens, Cipriano's writing!"

"You are sure?"

"I fear, I fear! I've got three love notes from him—this looks quite like his hand."

And the astounded and dismayed widow wrings her hands, her face pallid with jealous chagrin.

"This is the most crafty, subtle and satanic plot against your married happiness, Edwin," whispers Barnes. "As near as I can make out, this devilish missive says that Marina must desert you, her accursed English husband; then they will spare your life. If she remains with you, your fate will be hers. Your safety from death is offered as a bribe to your young wife if she deserts your bed and leaves herself open to the stilletos of these devils. If she stays with you and clings to you, you will be assassinated, even in her arms."

"Then the wife of my heart has left me fearing as the attack upon my sister's liberty has been successful their efforts against my life will be equally so," shudders Edwin; next cries out almost angrily: "She was mad not to trust me."

"Marina knew you wouldn't let her go if she did," suggests Burton more calmly.

(TO BE CONTINUED.)

Berlin's Woman Chauffeur.

Berlin's woman chauffeur is making—as she always intended to do—a very good livelihood. Clad in a simple but becoming coat and skirt of serviceable material, Frau von Papp drives one of the Bedag company's electro droschkes with consummate skill. She is not, however, at the beck and call of the general public, but is in the employment of the Kaiserhof hotel, and drives its visitors alone. The woman's story is interesting. Her husband—an apparently well-to-do lawyer—died, leaving her and three young children penniless. Frau von Papp always had a fondness for automobiling, and quickly decided upon her profession. Having satisfied the police authorities as to her capabilities, she obtained her present post and is keeping herself and family in comfort.

Why He Doesn't Drink Milk.

My son, who is a little over two years of age, has always disliked to drink milk, says a writer in the New York World. I have repeatedly told him that to be a strong and healthy boy, he should always drink milk. While visiting a neighbor with me one day he saw a little boy who was a cripple and could not walk. "Mamma," said he, "why can't the little baby walk?" I told him the reason was because the baby did not drink milk. Then I said to my little son: "Why don't you drink milk?" This was his reply: "Because I can walk." Since then I have had more trouble in persuading him to drink milk than ever before.

Immense Deposits of Talc.

Apparently the Brazilian deposits of talc are inexhaustible. The price depends on labor and transportation rather than on supply. Practically all of the principal deposits now being worked are in the state of Sao Paulo. Three qualities are produced, the quality depending upon the color. The stone ready for crushing is being furnished in Rio de Janeiro at from 82 to 120 milreis a ton, or from $25.42 to $37.20 a ton at present exchange.

Limit to Achievement.

WORN OUT WOMEN

Will Find Encouragement in Mrs. Merritt's Advice.

Mrs. W. L. Merritt, 207 S. First Ave., Anoka, Minn., says: "Last winter I began to suffer with my kidneys. I had pains in my back and hips and felt all worn out. Dizzy spells bothered me and the kidney secretions were irregular. The first box of Doan's Kidney Pills brought decided relief. I am sure they would do the same for any other woman suffering as I did."

COMPLAINTS MANY AND VARIED.

Complete Harmony Had to Obtain in Organizations.

"All clubs," said the secretary, "keep complaint books, and some of the complaints set down in them are funny. In our book yesterday a member complained 'that the hot water was always cold, and moreover, there never was any.'

"A novelist last week had the nerve to complain that his last new novel hadn't been added to the club library.

"Young swells sometimes complain about the club wines and cigarettes and cigars in order to introduce brands that they are touting for on the sly.

"Sometimes anonymous scandal soils the complaint book's pages. Thus, last year, appeared this entry about a very popular member:

"'Maj. Hawkins is flirting with too many of our wives. By the way, he still owes that tenner—he knows to whom.'"

WHY, INDEED?

There was a young man of Slough,
Who was singing "The Mistletoe Bough;"
When his uncle said: "Fred,
As the young lady is dead,
Why on earth make this terrible row?"

Collecting in New Hampshire.

A New Hampshire man tells of a tight-fisted man of affairs in a town of that state, who until recently had never been observed to take an interest in church matters. Suddenly, however, he became a regular attendant at divine service, greatly to the astonishment of his fellow townsmen.

"What do you think of the case of old Ketchum?" said one of the business men of the place to a friend. "Is it true that he has got religion?"

"Well, hardly," replied the other. "The fact is, it's entirely a matter of business with him. I am in a position to know that about a year ago he loaned the pastor $50, which the latter was unable to pay. So there remained nothing for Ketchum but to take it out in pew rent."—Sunday Magazine.

CUBS' FOOD

They Thrive on Grape-Nuts.

Healthy babies don't cry and the well-nourished baby that is fed on Grape-Nuts is never a crying baby. Many babies who cannot take any other food relish the perfect food, Grape-Nuts, and get well.

"My little baby was given up by three doctors who said that the condensed milk on which I fed her had ruined the child's stomach. One of the doctors told me that the only thing to do would be to try Grape-Nuts, so I got some and prepared it as follows: I soaked 1½ tablespoonfuls in one pint of cold water for half an hour, then I strained off the liquid and mixed 12 teaspoonfuls of this strained Grape-Nuts juice with six teaspoonfuls of rich milk, put in a pinch of salt and a little sugar, warmed it and gave it to baby every two hours.

"In this simple, easy way I saved baby's life and have built her up to a strong healthy child, rosy and laughing. The food must certainly be perfect to have such a wonderful effect as this. I can truthfully say I think it is the best food in the world to raise delicate babies on, and is also a delicious healthful food for grown-ups as we have discovered in our family."

Grape-Nuts is equally valuable to the strong, healthy man or woman. It stands for the true theory of health "There's a Reason. Read "The Road to Wellville," in pkgs.

MANY DEFENDANTS NAMED

Bill in Equity Filed to Set Aside Control of Subsidiary Lines.

Washington, D. C., Jan. 26.—Attorney General Bonaparte has directed that a bill in equity be filed to set aside the control of the Union Pacific Railroad company and its subsidiary corporations of the Southern Pacific and the San Pedro, Los Angeles & Salt Lake road; also to have declared illegal the ownership by the Union Pacific and the Oregon Short line of stock in the Santa Fe, the Great Northern and Northern Pacific; all of said lines being competitors of the Union Pacific.

The attorney general yesterday issued an official statement to this effect and after referring to the extended investigation by the interstate commerce commission into the relations existing between the various lines of road engaged in transcontinental traffic says:

"From the evidence so adduced and from independent investigation the department has arrived at the conclusion that the stockholdings of the Union Pacific and its subsidiary companies in the other corporations mentioned above is in direct violation of the Sherman act.

"The department regards the suit as of first importance, as it is sought by means thereof to break up a substantial monopoly of the transportation business of the country between the Missouri river on the east and the entire Pacific coast south of Portland on the west."

Aside from the railway companies above named, the other defendants in the suit are the Farmers' Loan and Trust company of New York, which is the depository of all the stock of the San Pedro road under a contract by which it is required to give proxies to such persons as named by Mr. Harriman and Clark for a period of years.

There are also the following individual defendants who are alleged to have conceived and carried out the conspiracy complained of, towit: E. H Harriman, Jacob H. Schiff, Otto H. Kahn, James Stilman, Henry C. Frick, Henry H. Rogers and William A. Clark.

While naming the individual defendants the statement makes no mention of any intention to prosecute any of these officials personally in any criminal proceedings.

NEW YORK BANK FAILS.

Controller Ridgely Closes National of North America.

New York, Jan. 27.—Controller of the Currency William B. Ridgely yesterday ordered the National Bank of North America closed for liquidation and appointed Charles Hanna, national bank examiner, as receiver.

Controller Ridgely's action followed an appeal from W. F. Havemeyer president of the institution, asking him to take charge of the bank. The decision to close was reached at a long conference of the bank's officials held yesterday.

President Havemeyer said last night that he believed the bank is entirely solvent and that with a careful liquidation the stockholders will receive par for their stock.

The National Bank of North America has a capital of $2,000,000 and Aug 22 last at which time a report was made to the controller of the currency, showed deposits of $19,787,400. This sum had been largely and gradually decreased by withdrawals during and subsequent to the panic and on Dec. 3, the date of the next report showed deposits of $6,926,500. Cash on hand $3,1,900. Since that time according to President Havemeyer's statement the deposits have shrunk still further and today amount to a little over $3,000,000.

American Torpedo Boat Flortilla Reaches Argentine.

Buenos Ayres, Jan. 27.—Attended by a division of Argentine torpedo boats, the American torpedo boat Flotilla, which left Rio de Janeiro Jan 21, entered the port of Buenos Ayres at 5:30 yesterday morning, the arrival being witnessed by a great crowdl of spectators.

The Americans were met by the Argentine flotilla off Flores island. The welcome fleet saluted and steamed around the flotilla and for a half hour there was an exchange of greetings. Commander Cone subsequently boarded the Argentine flagship and the trip to this port was continued. The torpedo boats anchored in the roads shortly after midnight and came up to the dock as early as possible.

Every boat in the American flotilla is in excellent condition and made the passage here without a hitch. The boats will remain here until Thursday morning when they will steam for Sandy point in the Magellan strait, to join the battleship fleet.

Commissioner Smith vs. The Standard Oil Co.

From the Railway World, January 3, 1908.

Mr. Herbert Knox Smith, whose zeal in the cause of economic reform has been in no wise abated by the panic which he and his kind did so much to bring on, is out with an answer to President Moffett, of the Standard Oil Company of Indiana. The publication of this answer, it is officially given out, was delayed several weeks, "for business reasons," because it was not deemed advisable to further excite the public mind, which was profoundly disturbed by the crisis. Now that the storm clouds have rolled by, however, the Commissioner rushes again into the fray.

Our readers remember that the chief points in the defence of the Standard Oil Company, as presented by President Moffett, were (1) that the date of six cents on oil from Whiting to East St. Louis has been issued to the Standard Oil Company as the lawful rate by employes of the Alton, (2) that the 18-cent rate on file with the Interstate Commerce Commission was a class and not a commodity rate, never being intended to apply to oil, (3) that oil was shipped in large quantities between Whiting and East St. Louis over the Chicago & Eastern Illinois at 6¼ cents per hundred pounds, which has been filed with the Interstate Commerce Commission as the lawful rate, and (4) that the 18-cent rate on oil was entirely out of proportion to lawful rates on other commodities between these points of a similar character, and of greater value, such, for example, as linseed oil, the lawful rate on which was eight cents. President Moffett also stated that thousands of tons of freight had been sent by other shippers between these points under substantially the same conditions as governed the shipments of the Standard Oil Company.

This defence of the Standard Oil Company was widely quoted and has undoubtedly exerted a powerful influence upon the public mind. Naturally the Administration, which has staked the success of its campaign against the "trusts" upon the result of its attack upon this company, endeavors to offset this influence, and hence the new deliverance of Commissioner Smith.

We need hardly to point out that his rebuttal argument is extremely weak, although as strong, no doubt, as the circumstances would warrant. He answers the points made by President Moffett substantially as follows: (1) The Standard Oil Company had a traffic department, and should have known that the six-cent rate had not been filed, (2) no answer, (3) the Chicago & Eastern Illinois rate was a secret rate because it read, not from Whiting, but from Dolton, which is described as "a village of about 1,500 population just outside of Chicago. Its only claim to note is that it has been for many years the point of origin for this and similar secret rates." The Commissioner admits in describing this rate that there was a note attached stating that the rate could also be used from Whiting.

The press has quite generally hailed this statement of the Commissioner of Corporations as a conclusive refutation of what is evidently recognized as the strongest rebuttal argument advanced by the Standard.

In fact, it is as weak and inconclusive as the remainder of his argument. The lines of the Chicago & Eastern Illinois do not run into Chicago. They terminate at Dolton, from which point entrance is made over the Belt Line. Whiting, where the oil freight originates, is not on the lines of the Chicago & Eastern Illinois, which receives its Whiting freight from the Belt Line at Dolton. The former practice, now discontinued, in filing tariffs was to make them read from a point on the line of the filing road, and it was also general to state on the same sheet, that the tariff would apply to other points, e. g., Whiting. The Chicago & Eastern Illinois followed this practice in filing its rate from Dolton, and making a note on the sheet that is applied to Whiting. This was in 1895 when this method of filing tariffs was in common use.

Now let us see in what way the intending shipper of oil could be misled and deceived by the fact that the Chicago & Eastern Illinois had not filed a rate reading from Whiting. Commissioner Smith contends that "concealment is the only motive for such a circuitous arrangement," i. e., that this method of filing the rate was intended to mislead intending competitors of the Standard Oil Company. Suppose such a prospective oil refiner had applied to the Interstate Commerce Commission for the rate from Chicago to East St. Louis over the Chicago & Eastern Illinois, he would have been informed that the only rate filed with the commission by this company was 6¼ cents from Dolton, and he would have been further informed, if indeed he did not know this already, that this rate applied throughout Chicago territory. So that whether he wished to locate his plant at Whiting, or anywhere else about Chicago, under an arrangement of long standing, and which applies to all the industrial towns in the neighborhood of Chicago, he could have his freight delivered over the Belt Line to the Chicago & Eastern Illinois at Dolton and transported to East St. Louis at a rate of 6¼ cents. Where then is the concealment which the Commissioner of Corporations makes so much of? Any rate—from Dolton on the Eastern Illinois or Chappell on the Alton, or Harvey on the Illinois Central, or Blue Island on the Rock Island, applies throughout Chicago territory to shipments from any other point in the district. So far from the Eastern Illinois filing its rate from Dolton in order to deceive the shipper, it is the Commissioner of Corporations who either betrays his gross ignorance of transportation customs in Chicago territory or relies on the public ignorance of these customs to deceive the public too apt to accept unquestioningly every statement made by a Government official as necessarily true, although, as in the present instance, a careful examination shows these statements to be false.

The final point made by President Moffett that other commodities of a character similar to oil were carried at much lower rates than 18 cents, the Commissioner of Corporations discusses only with the remark that "the 'reasonableness' of this rate is not in question. The question is whether this rate constituted a discrimination as against other shippers of oil," and he also makes much of the failure of President Moffett to produce before the grand jury evidence of the alleged illegal acts of which the Standard Oil official said that other large shippers in the territory had been guilty. Considering the fact that these shippers included the packers and elevator men of Chicago the action of the grand jury in calling upon President Moffett to furnish evidence of their wrong-doing may be interpreted as a demand for an elaboration of the obvious; but the fact that a rate-book containing these freight fates for other shippers was offered in evidence during the trial and ruled out by Judge Landis, was kept out of sight. President Moffett would not, of course, accept the invitation of the grand jury although he might have been pardoned if he had referred them to various official investigations by the Interstate Commerce Commission and other departments of the Government.

We come back, therefore, to the conclusion of the whole matter, which is that the Standard Oil Company of Indiana was fined an amount equal to seven or eight times the value of its entire property, because its traffic department did not verify the statement of the Alton rate clerk, that the six-cent commodity rate on oil had been properly filed with the Interstate Commerce Commission. There is no evidence, and none was introduced at the trial, that any shipper of oil from Chicago territory had been interfered with by the 18-cent rate nor that the failure of the Alton to file its six-cent rate had resulted in any discrimination against any independent shipper,—we must take this on the word of the Commissioner of Corporations and of Judge Landis. Neither is it denied even by Mr. Smith that the "independent" shipper of oil, whom he pictures as being driven out of business by this discrimination of the Alton, could have shipped all the oil he desired to ship from Whiting via Dolton over the lines of the Chicago & Eastern Illinois to East St. Louis. In short, President Moffett's defence is still good, and we predict will be so declared by the higher court.

The Standard Oil Company has been charged with all manner of crimes and misdemeanors. Beginning with the famous Rice of Marietta, passing down to that apostle of popular liberties, Henry Demarest Lloyd, with his Wealth Against the Commonwealth, descending by easy stages to Miss Tarbell's offensive personalities, we finally reach the nether depths of unfair and baseless misrepresentation in the report of the Commissioner of Corporations. The Standard has been charged with every form of commercial piracy and with most of the crimes on the corporation calendar. After long years of strenuous attack, under the leadership of the President of the United States, the corporation is at last dragged to the bar of justice to answer for its misdoings. The whole strength of the Government is directed against it, and at last, we are told, the Standard Oil Company is to pay the penalty of its crimes, and it is finally convicted of having failed to verify the statement of a rate clerk and is forthwith fined a prodigious sum, measured by the car. Under the old criminal law, the theft of property worth more than a shilling was punishable by death. Under the interpretation of the Interstate Commerce law by Theodore Roosevelt and Judge Kenesaw Landis, a technical error of a traffic official is made the excuse for the confiscation of a vast amount of property.

TNESSES FROM EUROPE ARE UNABLE TO REACH LAND.

ome Fails to Learn Their Identity —Case May End by Next Saturday.

New York. — The blinding snowrm which swept New York Fri caused the first serious interption of the second Thaw trial. It an embargo on practically all the pping in the lower bay and preated the big steamer Adriatic from aching her dock.

On board the liner are four physiins and a trained nurse from Euope, who, Mr. Littleton declared in urt, are important witnesses for the fense and whose testimony he deres to place upon the record before pounding hypothetical questions to three experts who will swear that hen Harry K. Thaw shot and killed anford White he was so mentally ficient that he did not know the naure or quality of his act or that the t was wrong. The request for an journment until Monday, made on the opening of court, was granted Justice Dowling.

Mr. Littleton promised to have the ong hypothetical question ready immediately after his few remaining witnesses of fact have testified on Monday, and unless Mr. Jerome's crossexamination of the experts is unexpectedly long, the defense will rest Monday night. The prosecution will proceed on Tuesday with its rebuttal case and should not occupy ore than a day and a half. The surbuttal by the defense will be brief nd the case should end by Friday or aturday of next week.

The witnesses who are to land from the Adriatic are expected to tell of alleged irrational outbreaks by Thaw in Europe long before Evelyn Nesbit came into his life. The district attorney tried to secure the names of the witnesses from Mr. Littleton Friday, and there was a lively exchange of words for a few minutes, ending with the identity of the newcomers as much of a mystery as ever.

MITCHELL REFUSES MONEY.

President of Miners' Union Declines Gift of $2,700.

Indianapolis, Ind.—Perhaps the most eloquent speech President John Mitchell of the United Mine Workers ever made in his life was Tuesday afternoon, when he declined to accept a personal gift of $2,700 tendered him by the miners of Montana and Wyoming as a token of their appreciation of his efforts to make their condition better.

As he spoke, trying to check his emotion, tears came to his eyes.

John Mitchell.

"Give it to Mrs. Mitchell and the children," he said, trembling with emotion. Big, hardy miners shed tears with him.

Thomas Gibson, president of the Montana miners, had come to the platform carrying a draft for $2,300. He said the draft was backed by a smaller amount which would bring the total up to $2,700.

The draft will be sent to Mrs. Mitchell.

Attorney S. R. Hamill Dies.

Chicago. — Samuel R. Hamill, associate counsel for John R. Walsh, died Friday afternoon at the Auditorium Annex of pneumonia. Mr. Hamill was born in Sullivan, Ind., December 13, 1857. He was the son of Samuel R. Hamill, a prominent Indiana lawyer

ONE WIFE IN HARD TIMES.

Financial Reasons Made Him Disbelieve in Polygamy.

S. P. Orth, assistant United States district atttorney, was the government representative at a naturalization hearing over in Toledo the other day.

The applicant for papers, a German, who ran mostly to mustache, had answered all of the questions that had been put to him satisfactorily.

"And do you believe in the principles of polygamy?" asked the judge, in ponderous tones.

"Sure," says the German, for the word sounded as if it was something that he ought to be in favor of. Like as not it was something about the constitution.

"Do you know what 'polygamy' means?" thundered the judge.

The applicant confessed that the word was a new one on him.

"Well, I'll make it plain to you," said the court, sternly. "Can you get along with one wife?"

"Shure," replied the applicant, earnestly; "one's a plenty, the way prices are."—Toledo Blade.

CUTICURA CURED FOUR

Southern Woman Suffered with Itching, Burning Rash—Three Little Babies Had Skin Troubles.

"My baby had a running sore on his neck and nothing that I did for it took effect until I used Cuticura. My face was nearly full of tetter or some similar skin disease. It would itch and burn so that I could hardly stand it. Two cakes of Cuticura Soap and a box of Cuticura Ointment cured me. Two years after it broke out on my hands and wrist. Sometimes I would go nearly crazy for it itched so badly. I went back to my old stand-by, that had never failed me—one set of Cuticura Remedies did the work. One set also cured my uncle's baby whose head was a cake of sores, and another baby who was in the same fix. Mrs. Lillie Wilcher, 770 Eleventh St., Chattanooga, Tenn., Feb. 16, 1907."

EXPLAINED.

"I have called," said the captious critic, "to find out what reason you can give for representing the New Year as a nude small boy."

"That is done," responded the art editor, "because the year does not get its close until the 31st of December."

AN ADVERTISING TRICK FOR WESTERN FARMERS.

Real Estate "Agents" Go After Men with Land for Sale and Reap Rich Harvest.

A smooth scheme for separating farmers from their money has been worked with much success in South Dakota. An oily grafter calls on a farmer and makes a bid for his land. The figures are absurdly low at first, but by degrees are raised as high as $60 an acre, and the farmer consents. Then the visitor explains that he is only an agent, but that he can sell the land at the price named if the owner will agree to pay for advertising at the rate of fifty cents an acre. The "agent" promises orally that the advertising money will not be payable until the land is sold, but this stipulation is not contained in a contract that the farmer signs.

In a few days he receives a copy of an ad and not over-courteous demand for money. It is said that twenty-two agriculturists were caught with this bait in Brown County and that one of them gave up $320. Others declare hotly that they will not pay but they will make a fight in the courts.

Danderine

GREW MISS LEWIS' HAIR

AND WE CAN

PROVE IT

The Great Danderine Never Fails to Produce the Desired Results

MISS Lewis' hair was very thin and it was less than two feet in length when she began using Danderine. She says her hair and scalp are now fairly **teeming with new life and vigor.**

That's the main secret of this great remedy's success as a hair grower. It enlivens, invigorates and fairly electrifies the **hair glands** and **tissues** of the scalp, causing unusual and unheard-of activity on the part of these two most important organs, **resulting in a strenuous and continuous growth of the hair.**

The following is a reproduction of Miss Lewis' last letter:

January 3, 1905.

Dear Doctor Knowlton:—

You know I told you in my first letter that my hair would not reach much below my shoulders, and that all of it together only made one tiny braid.

I am sending you my photograph, which I had taken at Stevens Bros. It tells the whole story better than I can tell it.

Everybody I know is using Danderine, so you see I am doing something to show my appreciation.

Sincerely yours, (Miss) EVA LEWIS.

Danderine makes the scalp healthy and fertile and keeps it so. It is the greatest scalp fertilizer and therefore the greatest **hair-producing remedy** the world has ever known. It is a natural food and a wholesome medicine for both the hair and scalp. **Even a 25c bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made. It shows results from the very start.**

NOW at all druggists in three sizes, 25 cents, 50 cents and $1. per bottle

FREE To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

NEW YORK GOVERNOR'S VIEWS ON NATIONAL ISSUES.

TRIBUTE TO ROOSEVELT

Asserts His Opposition to Government Ownership of Railways—Favors Strengthening of Anti-Trust Act.

New York. — Gov. Charles E. Hughes, whose nomination for the presidency by the Republican national convention in Chicago next June is being urged by the New York county committee and other Republican county committees in New York state, has made open declaration of his views of national issues and principles.

Until Friday night, when he was welcomed by scores of well-known Republicans at a reception tendered him at the Republican club, Gov. Hughes has maintained silence on all questions affecting the country and the definition of his position on federal issues has consequently been expectantly awaited.

Gov. Hughes' Address.

First acknowledging the high honor paid him by the club, and reviewing briefly the record and policies of the Republican party, Gov. Hughes had this to say of President Roosevelt's administration:

"We are contemplating a new administration at the close of one which to a degree almost unparalleled has impressed the popular imagination and won the confidence of the people. The country is under lasting obligation to President Roosevelt for his vigorous opposition to abuses and for the strong impulse he has given to movements for their correction. Differences of opinion now as always exist with regard to the best means of solving some of the extremely difficult problems that are presented. But those who earnestly desire progress and the establishment of our security on its necessary foundation of fair dealing and recognition of equal rights, appreciate the great service he has rendered and the fundamental importance of the purposes he has had in view. We shall have in the next campaign a notable vantage ground, gained through the general admiration of his strong personality and the popular appreciation of the intensity of his desire to promote the righteous conduct of affairs and the welfare of his fellow men."

Views on Many Topics.

The governor then denounced socialism as un-American, urged the necessity of stringent measures to prevent corrupt practices in elections, and, in relation to special privileges, declared there must be no encroachment on the common right for the purpose of serving the interests of the few at the expense of the many. He said the unlawful acquisition of property should be prevented or punished, but property lawfully acquired must be safeguarded; that the opportunities for labor should be protected and enlarged and the conditions of labor improved.

Of federal and state powers Gov. Hughes said:

"It must be remembered that an evil is not the proper subject of federal cognizance merely because it may exist in many states. All sorts of evils exist in many states which should be corrected by the exercise of local power, and they are not evils of federal concern, although they may be widespread.

"On the other hand it cannot be regarded as a policy of unwise centralization that, wherever there is a serious evil demanding governmental correction which afflicts interstate commerce and hence is beyond the control of the states, the power of congress should unhesitatingly be exercised."

The speaker said he did not believe in governmental ownership of railroads, but that regulation of interstate transportation was essential.

Trusts and Combinations.

Of trusts and combinations, the governor said:

"The Sherman anti-trust act should be clarified and made more explicit. The law may be made stronger and more effective by being made more definite. Sweeping condemnations, of uncertain meaning, do not aid but rather embarrass the prosecution of those who are guilty of pernicious practices. Combinations and practices in unreasonable restraint of trade and which menace the freedom of interstate commerce should be condemned in precise terms. At the same time provision may well be made for joint agreements, under proper circumstances, as to railroad rates, which should be subject to the approval of the interstate commerce commission."

IOWA STATE NEWS

Events of Recent Occurrence Throughout the Commonwealth.

SIOUX CITY AFTER DENS.

Anti-Saloon League Stops Sale of Liquor in Brothels.

Sioux City.—After many years of effort on the part of various reformers to find a way to stamp out the "red light" district in Sioux City, the anti-saloon league seems finally to have found a way. At any rate, it has found a way to put new penalties, taxes and restrictions upon the nefarious traffic and in many cases these are certain to prove destructive.

The anti-saloon league has merely determined to enforce the state mulct law as to the "red light" houses as well as to the saloons. Every house in the past has sold liquor; in fact, liquor sales not merely add to the enticements of the places, but also increase their profits very largely. But none of the houses here or elsewhere obey the state mulct law. Beer and other drinks are sold at all hours of the day and night; they are sold without reference to the regulations as to lawful location of the premises or their interior arrangement. The anti-saloon league now proposes to require these houses to pay the state tax first, which is in itself a heavy burden, and then obey every other requirement of the statutes.

In Sioux City at least the proprietors of the houses seem to be "up against it". They declare that they can not run their places with out selling liquor, and they can not sell liquor in compliance with the law, even though they could afford to pay the tax. If the anti-saloon league persists and is vigilant enough it may drive these institutions out of the city.

Incidentally, when the court proceedings against the keepers and owners of the houses were published a striking lot of names were brought out, including well known people who profit from the traffic through the larger rentals they receive for the buildings occupied by it.

AGENT'S SHORTAGE $3,900.

Defalcations Extend Over Three Years.

Ida Grove.—Auditor Bowen of the Northwestern and his assistants completed the examination of the books of Agent George Spelbring and left for Chicago, taking Spelbring along with them. It is reported that the shortage is $3,900, and that it extends over a period of three years, but the railroad officials are, as usual, very reticent and will say but little.

Spelbring in 56 years of age and for twenty-eight years has been connected with the Northwestern railroad, most of the time as agent in Ida Grove The business of the road is very heavy here, requiring one force for tickets and telegraph and another for freight and express. The freight and express was handled by Agent Spelbring and he had his office in the freight depot. The rest of the road's business—tickets, telepraph, etc.—was handled at the passenger depot and about these accounts there is no question.

It is alleged that Spelbring ran a double set of books, one for the company and one for himself, and in this way kept things in such shape that as a matter of bookkeeping it was almost impossible for an ordinary examination to show anything out of the way.

SYRIANS GIVEN 25 YEARS.

Murderers of Fred Nawfal Are Sentenced.

Denison.—Judge F. M. Powers sentenced Joseph and Soloman Harssan to a term of twenty-five each in the penitentiary for the murder of their cousin, Fred Newfal, last January. A motion for a new trial was overruled and the case will be taken to the supreme court.

The case was a hard fought one and the costs amount to several thousand dollars. The aged father of the Harssans came from Syria to attend the trial and he was overcome when he learned that a motion for a new trial was overruled.

Jos Harssan declared his innocence before sentence was passed.

Letts Burned Second Time.

Muscatine.—Property to the amount of $30,000 was destroyed by a disastrous fire which visited the little town of Letts. Two large frame buildings were burned to the ground, the glass in the surrounding buildings, was cracked by the heat and the adjacent structures badly scorched. The fire started in the grocery department of Snyder's general store and spread rapidly. A bucket brigade fought the flames. The loss is partially covered by insurance. This is the second disastrous fire in Letts during the past two years.

Cow Drags Boy to Death.

Oskaloosa.—Jay Parchin, aged 12 years, son of Geo. Parchin, a real estate agent, met death in a distressing manner by being dragged by a cow sixty rods over the frozen ground, with a long rope wrapped four times about his neck. His neck was broken.

COOPERATIVES GROW.

Many New Farmers' Grain Companies for 1907.

Mason City.—The records show that the prophecy made two years ago that the co-operative movement in Iowa would soon reach its height, and that it would then be on the wane, was a poor one. At that time there were less than 150 co-operative societies in the state; today there are 225, and their number is steadily growing. The last few months has seen a greater increase for the same length of time than before, and now there are ten societies either in the course of organization or are erecting buildings.

The new societies are located at New Hall, Grimes, Chapin, Holstein, Clarion, Dillon, Huxley Decorah and Arthur. Three new societies are organized at Huxley, and one of the elevators will be built upon the Milwaukee road and two on the electric line which recently entered that place. The subscribed stock to each of these organizations is from $6,000 to $10,000, and the tendency is now to increase the capital stock instead of lessening it, in all future organizations.

The annual convention of the state organization will be held again in Fort Dodge on Feb. 13 and 14. Mayor McConlogue of this city has been invited to give his address on city government.

SELLS OUT A WHOLE TOWN.

Kingsley is Startled By a Deed Just Filed.

Kingsley.—The title to every home and business building in Kingsley is called into question by the filed of a deed at Le Mars which transfers the whole site of the town and the surrounding farms from George B. Smyth to David A. Collier for the consideration of $1.

The deed is an echo of the old railroad grant days when Smyth, who now lives in Keokuk, was wealthy and a railroad promoter. He acquired the land where Kingsley stands in an old grant and when in the '70s he met reverses he deeded the property to his wife, who later executed a defeasance deed to P. Thornton Lomax, a Keokuk man, to secure creditors. This defeasance deed provided that if the Smyths paid their $12,000 indebtedness to Lomax the land was to be deeded back to them. They failed to do this and the defeasance deed was foreclosed. Instead of executing a sheriff's deed to Lomax, Mrs. Smith deeded her equity of redemption to Lomax. Her husband did not sign this instrument and now his new deed, just filed, is based on the dower interest which he claims he did not relinquish.

A PEACEMAKER IS KILLED.

Clinton Man Receives Injuries That Prove Fatal.

Clinton.—Gus Considine, a Clinton saloon keeper, has just died at one of the local hospitals from injuries received as a peacemaker.

Considine attempted to separate two men who were fighting at a party. On the porch words led to an encounter, and when the men commenced to fight, Considine tried to stop them. With one of the men he fell from the porch, and the other man landed on top of him, his elbow crushing the saloon keeper's nose and face.

Considine refused an anesthetic while the surgeons set the bones in his face, never flinching. A highly nervous condition developed and the saloon man died.

The coroner was notified and is investigating. In the meantime the relatives secured the body and took it across the river to Fulton, Ill. Just what will develop in the case is conjectural.

Boy Robbers Are Caught.

Cedar Falls.—Fred and Harry Husson, aged 16 and 18 years, were arrested at Belden, Mo., charged with tampering with gas meters and taking money therefrom. They are also accused of robbing several business houses in this city ten days ago. Soon after committing the deeds, their mother put them on the train and sent them to relatives, where they were found by Chief of Police Enlow of Cedar Falls, who will receive the $50 reward offered by the gas company for the capture of the guilty parties.

Five Cars of Goods Burn.

Marshalltown.—A rear end collision of freights on the Iowa Central at Dillon late resulted in the burning of five cars loaded with merchandise and damaged one engine slightly. An express car of the Northwestern fast mail No. 9 caught fire between this city and Tama, causing the distruction of several pieces of expres. The train was stopped and the blaze extinguished by trainmen.

Spinal Meningitis Kills Quickly.

Marshalltown.—Little Margaret King, aged 2, daughter of J. W. King of this city, died after a week's illness of spinal meningitis. The house has been quarantined and no public funeral was permitted.

ANOTHER MORSE BANK SHUT

NEW AMSTERDAM NATIONAL IS CLOSED BY COMPTROLLER.

President Kinsman Says Depositors Will Lose Nothing and Stockholders Will Get Dividend.

New York.—The New Amsterdam National bank, capitalized at $1,000,000 and situated at Broadway and Thirty-ninth street, was closed by the order of the comptroller of the currency Wednesday night and National Bank Examiner Charles A. Hanna was placed in charge.

The institution's liabilities are placed at $4,482,016, of which $2,065,272.49 are due depositors. The bank's officers assert that not only will every depositor be paid in full, but the stockholders will receive a substantial dividend.

The New Amsterdam National was formerly one of the chief links in the chain of banks established by Charles W. Morse. President Frank W. Kinsman, Jr., declared, in a statement issued Wednesday night, that "the closing of the National Bank of North America, attracting renewed attention to the interests which had previously dominated both institutions in their past administrations, started fresh reports of an exaggerated and sensational nature which necessitated the liquidation of the bank." The institution occupied quarters in the Metropolitan Opera house, in the heart of the uptown theatrical district and numbered among its clientele many of those prominent on the stage.

About a year ago the New Amsterdam underwent a reorganization because of a falling off in its business and Frank W. Kinsman, Jr., was elected president. Every effort was made to rehabilitate the institution. The recent panic was not without its effect, though the bank weathered the storm and succeeded in reducing its clearing house certificates from $1,705,000 to $300,000.

President D. A. Sullivan of the Mechanics' and Traders' bank announced shortly after midnight Wednesday night that the institution would not open its doors Thursday. This decision was reached at a meeting of the board of directors lasting four hours In a statement issued after the meeting the directors declared the bank solvent, but the state of the cash resources made it appear inadvisable for the bank to continue business.

New York. — The Oriental bank, on which a run of depositors was started Thursday, did not open for business Friday. A notice was posted on its doors announcing that the institution was closed by order of the state superintendent of banks. The Oriental is a state bank having a capital stock of $750,000.

DISASTROUS CHICAGO FIRE.

Loss of $1,700,000 Caused by Blaze in Loop District.

Chicago.—Fire in the loop district of Chicago Tuesday evening did about $1,700,000 damage and interrupted transportation for hours. The flames broke out in the wall paper house of Alfred Peats & Co., on Wabash avenue between Madison and Monroe streets, and in a short time the entire building was like a furnace. The fire quickly jumped a narrow alley in the rear and attacked the big wholesale millinery establishment of Edson Keith & Co. at 132 Michigan avenue. The four upper floors of the Keith building were gutted and only by hard work were several other large millinery houses saved. Meanwhile on Wabash avenue the conflagration spread south to the building occupied by John A. Colby & Sons, furniture, and that firm and a dozen others sustained heavy losses. The fire lasted all night and was one of the most disastrous in this city since 1874.

Kansas City, Mo.—Fire of unknown origin which started in the canning department on the second floor of one of the twin main buildings of the $27,000,000 packing plant of Nelson Morris & Co. on the Kaw river in Kansas City, Kan., Tuesday night, threatened destruction of the entire plant and caused loss estimated at half a million dollars before it was controlled.

Shipwrecked Crew Rescued.

Nantucket, Mass.—After a struggle of five hours against intense cold and a turbulent sea, the life savers of the Coslata station rescued the crew of the Newport brigantine Fredericka Schepp, which was wrecked Thursday on the north side of Coatue beach. Mrs. Charles Oversen, wife of the captain, and her year-old baby, who were on board, were also taken off the stranded vessel.

Famine in North Lapland.

Stockholm.—Serious famine is prevalent in the iron district of northern Lapland. According to a dispatch to Dagens Nyhester, from Kiruna, the inhabitants in the parish of Velhelmina have gone to the extreme of slaughtering dogs and cats for food to prevent starving to death.

The yacht followed by a small boat. The cook is attacked giving signals to the boat. Barnes attempts to throw him overboard, but is prevented by Marina and Enid. The cook is found to be innocent of the supposed plot and is forgiven. The party arrive at Nice and find Lady Chartris and her daughter Maud domiciled in the villa rented with Barnes' money. Barnes is amazed to find that Count Corregio is at Nice and is acting the role of admirer to Lady Chartris. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Salceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous feud. Barnes and Enid are married. Soon after their wedding Barnes' valet disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing.

CHAPTER X.—Continued.

Burton the other breaks in: "She is helpless in that devil's hands, who's tricked us both. This man means to kill her!"

"Not as you fear," mutters Barnes. "Cipriano doubtless came here, in his mind some infamous plot against your life and hers, but now I think the same crazy passion for Marina that was in his brother has entered him. Never did your wife look more lovely than when she so nobly offered to go to Corsica to try and bring your sister back."

"Bring my sister back? That's why she's gone," asserts Anstruther. "Do you suppose any other consideration would have induced her to leave me? She thinks her word is potent among the friends of her childhood in Bocognano. Marina is going to Corsica, Barnes, and I go with you. The vessel is there—come!" Anstruther's rapid strides are carrying him to the door of the hallway, but the American's voice stays him.

"She will never get to Corsica," says Barnes, sadly.

"Why not?"

"Why not? Danelia longs for her. Couldn't you see his uncanny passion gradually growing as he looked upon my loveliness? No, she will not be permitted to get very far away from him. Don't you suppose his emissaries are alert now—the man with the scar over his eye that delivered this dastardly note to her?" Then the tone of the American changes; he says very solemnly: "And yet, I think you can thank God that the passion of the lover has entered this devil's heart and taken the passion of the assassin from it; for otherwise, with his thugs about her, your wife would now be dead. You stay here and try and find Marina. As for me, my duty is to go to that island and if she is living, to bring back my bride—if she is dead, avenge her!" continues Burton.

"What is my duty here, rescue or revenge Marina!" cries the Englishman.

Barnes leaves his brother-in-law arming himself and making ready to go out of the villa in pursuit of the boat one he has lost, and hurries down the path to the water. The haziness is now so great he can scarce discern the little fishing vessel still moored up to the landing stage. He rapidly springs over her low freeboard, and calls: "Get under way!" The alert Graham is already at her helm; her big lateen sails are hoisted flapping in the soft air, and a moment later under a smart breeze the little craft is gliding toward the entrance of the Bay of Villefranche.

The illuminations of Nice fade away in the darkness of the night to the American upon the deck of the fishing vessel, which now, under a fresh and increasing breeze, is bounding through the water.

Graham is still at the wheel, Barnes pacing the little deck of the silent craft. His steely eyes peer into the gloomy blank ahead of him. His life seems a blank also. To-night he had expected the lovelit eyes of his fairy bride to be beside him on a honeymoon cruise. Now! He smites his hands despairingly together.

He turns to Graham at the wheel and asks: "How long before we reach Corsica?"

"With this breeze, I dinna think before early to-morrow."

"You are carrying all the sail possible?"

"Every cloth she has."

Barnes turns to step into the cabin.

"You're going down to try and get a wee bit o' sleep, I ha' hopes," remarks the Scotch mate sympathetically.

"Sleep?" the American laughs as if in mockery of the idea, yet goes below and tries to force his mind to the common sense of this strange abduction.

The next morning with the first rays of the sun, Barnes is on deck again, peering toward the east, and before him is a blue haze that Graham, who is again at the wheel, says is Corsica.

But now some few feet from the stem of the little vessel, a figure that has been crouching under the low bulwarks, rises, half shrouded by the sea fog, before him. After two glances to make his astounded eyes believe, he gasps: "Marina!"

For the wife of Anstruther, with some wraps thrown over her fete costume of the night before, stands before him, the fresh breeze twining the garments about her figure till she seems risen from the mists of the morning.

"My God, why have you come here?"

"To try and save your wife, the sister of my husband!" cries the Corsican girl. "You couldn't have done it. You know too little of this curious island and its customs. To you, a stranger, every one of that jealous, suspicious race would be an enemy—to me, born with them—the name of my family adored—some will be friends. You would surely fail, I may succeed!"

"You should have told your husband." The American's voice is almost stern.

"I dared not! Edwin would not have let me go. My darling values me too highly to risk a hair of my head on such a venture," answers the Corsican bride proudly.

"Why didn't you tell me when I came on board? You lay here unsheltered all night save by the bulwarks," utters Burton sympathetically.

"The night was warm; the wind, though strong, was balmy. Besides, I waited till you were near enough to Corsica not to turn back from it, even to restore me to my husband. There is the island. There I will help you find your bride. Enid shall not die nor suffer because she is the sister of my husband or because she is your wife."

"Great Scott, you're the Marina of old!" he exclaims in astonished admiration.

"Of course I am," she answers buoyantly. "My darling husband is for the moment safe. Their letter which branded me as traitor to my race for marrying Edwin, says if I desert my husband they will spare him. Corsicans keep their devilish promises. These assassins will think I have abandoned the husband of my heart and will spare him till I return to again nestle in his arms and shield him with my very life against these fiends of the blood feud."

"Pleased to See You Aboard, Ma'am."

BOOK THREE.

CHAPTER XI.

"Beware the Path Ahead of You!"

The American paces the deck more buoyantly; reflection shows him what a prodigious aid Marina's knowledge of her native island, its proud, vengeful race and curious customs, will be to him in his search for his lost bride.

The mists of the morning are slowly rising from the bluff headlands of Cape Rosso; before the vessel's bow rises the old Genoese watch tower that guards the little harbor of Porto, from which is shipped the pine timber of the great Valdoniello forest.

The alert Graham, who has gazed from the stern astounded at the sudden appearance of Mrs. Anstruther on board his craft, leaving the wheel to a jack tar, now comes forward and touching his hat to the lady, says: "Pleased to see you on board, ma'am, though I'm afraid, Mr. Barnes, you'll not think we kept a very good watch on deck. Our eyes were always on the sea, trying to catch sight of the damned pirates." A moment later, he remarks: "With this wind, we can make the coast a wee bit farther to the sou'."

"Then do so!" commands Marina. "Make a landing, if you can, nearly 15 miles below here at Sagone."

"Why?" asked Barnes, some surprise in his tone.

"Sagone by its mountain path is the nearest port to Bocognano. They dare never convey your wife through Ajaccio. By the wild mountain paths they can take Enid to Bocognano unobserved and unquestioned by the wood cutters of the forest glens or the shepherds of the steep pastures of Del Oro."

"You think the Seagull will be at Sagone?"

"I hope so," answers the girl. "That will be proof that they are taking her to Bocognano."

By Barnes' direction Graham immediately alters the course of the vessel further to the south, and they dash down the picturesque coast of the island, whose forest clad mountains run to the very waters of the sea, till they weather the point of Cargese and open the beautiful Gulf of Sagone, now calm as a summer lake.

Here, to the east, in the far recesses of the bay, is a sail gleaming white under the sun that has just risen over the wooded headlands.

Barnes puts his field glasses upon it and for a moment thinks it some fishing craft, but the Scotch mate leaving the wheel to a seaman's hands, springs forward, takes a long look at it; then borrows the American's glasses and runs nimbly up the rigging to the top of the mast.

From his eerie post he calls excitedly: "By St. Andrew, it's the Seagull!"

"Can Enid be on board of her?" is heard in Marina's anxious voice.

"I can ne'er believe it," answers Graham, as he descends to the deck, "for the vessel is anchored."

"For God's sake, get us to the yacht!" commands the American.

But despite every exertion, for the breeze has died with the rising sun, it is another hour before they fan their way near the Seagull. Upon its deck is a solitary man, who frantically screams to them: "A moi, mes amis! Rescue me! Sacre bleu, ze pirate cochons have left me. I am Leboeuf, ze cook!"

"Take heart; we'll board ye, braw Leboeuf!" shouts Graham, and carefully conned by the Scotch mate, the fishing vessel is run alongside of the Seagull. The light swell permits them to spring from one little craft to the other, and in a moment Barnes has assisted Marina onto the yacht's deck.

Here they are met by volatile exclamations and explanations, from Monsieur Leboeuf. "Monsieur Barnes," he cries sympathetically, "ze pirates have carried your bride away. Zey boarded me at ze moment I was placing your supper on ze cabin table last evening. Zen zey gagged me till I could not speak. One—two—three minutes and she came on board in ze blackness. Expecting to meet you, Madame Barnes ran down into ze cabin, and zen—"

"Then?" Barnes' face is set like that of a statue.

"Zen zey locked ze cabin door upon Madame, and though she cry out, pay no more attention to her till zey had got under way. Zen—zen—"

"What next?" Burton's voice is hoarse.

"Aftaire zat, zey come to me and say: 'No harm to you. Cook us a good meal,' and one young man, handsome-faced, bright-eyed, well-dressed gallant, he gave me a louis and said: 'Feed us well but feed us on deck. We are gentlemen; we do not intrude upon a lady.' Zen I give zem, mon Dieu, ze beautiful meal I have prepared for you. Ah, how ze pirates ate it!"

(TO BE CONTINUED.)

To the Home-Maker.

To build up the power of our homes, for beauty, for companionship, for intelligence, for charity, for a constant acknowledgment and furtherance of the rights of others, is to build up a power greater, perhaps, than we ourselves shall ever realize. And its within the reach of every home, whether it's a big or a very little one.—Harper's Bazar.

More Light Needed.

People are now demanding more powerful lights, using 30 condlepower electric lamps where a few years back they would have been content with eight. The reason appears to be that the pall over our towns is increasing in general intensity, though actual fogs are fewer. Hence more and more lights are being fitted in dark corners.

Not Too Simple.

John Simple, 14 years old, of Dadsden, Ala., is not as simple as you might think from his name. He saw a fellow hanging around the barn and acting in a suspicious manner, and set a big bear trap where he thought it would do the most good; and then got up next morning to find that he had bagged his game. The man had entered the barn to steal one of the horses, but put his foot into it instead. He turned out to be a noted thief, for whom a reward of $500 had been offered, and John Simple is going to get the money. It's not what a boy is named, but what he does, that counts.

Bats in Belfries.

"Bats in belfries are a frightful nuisance," said a young clergyman. "In the belfry of dear old Saint Jude's they are as thick as flies, and I don't know how to get rid of them. They eat the candles, you know, the communion cloths, the vestments, the incense, the mattings, and they even drink the consecrated wine. Strange it is to think of bats doing that, isn't it? A strange bat diet, truly—candles, incense, embroidered vestments and holy wine. I have tried to smoke out the pests by burning sulphur, but they appear rather to like those fumes. For a sure way to rid my belfy of its bats I'd gladly give two dollars."

A Complaining Voice.

"I wuz born in a log cabin an' never learned to read an' write until I wuz 21 years old."

"Well?"

"An' yit I've never been even mentioned fer the presidency. History is a fickle jade."—Washington Herald.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"We hear," began the reporter, "that you are to marry Blobb, the billionaire. Won't you give us the details?"

"Sure," replied the obliging actress, "I like these things to be exact. Get out your notebook. I do not know Blobb, but I have heard of him, and understand he has a wife. I am myself happily married. I do not believe in divorce or bigamy. I would not, if free, marry a divorced man. I would not marry Blobb if we were both free and he was the last man on earth."

A Remedy for Neuralgia or Pain in the Nerves.

For neuralgia and sciatica Sloan's Liniment has no equal. It has a powerfully sedative effect on the nerves—penetrates without rubbing and gives immediate relief from pain—quickens the circulation of the blood and gives a pleasant sensation of comfort and warmth.

"For three years I suffered with neuralgia in the head and jaws," writes J. P. Hubbard, of Marietta, S. C., "and had almost decided to have three of my teeth pulled, when a friend recommended me to buy a 25 cent bottle of Sloan's Liniment. I did so and experienced immediate relief, and I kept on using it until the neuralgia was entirely cured. I will never be without a bottle of Sloan's Liniment in my house again. I use it also for insect bites and sore throat, and I can cheerfully recommend it to any one who suffers from any of the ills I have mentioned."

She Was in No Hurry.

Rev. Dr. Wallace, new pastor of the East End Baptist church, brought a new one to Cleveland with him.

According to the story, a Boston girl got on the street car one day carrying one of those muffs the size of an ordinary hassock. She had only one hand in the muff. A young man sitting next to her took advantage of the opportunity to slip his hand into the unoccupied end of the muff.

The Boston girl turned upon him severely. "I could have you arrested for such a familiarity," said she. "But," she added, "I'm from Boston and I purpose to keep calm. Now, I'll just give you ten minutes to let go of my hand."—Cleveland Plain Dealer.

Rapid Rise.

"Pa," said Mrs. Hardapple, as she opened the letter, "the man who ran over our old crippled cow with his automobile wants to know how much she was worth."

"Tell him about six dollars," drawled Hiram Hardapple. "Let me see, it was that poor village doctor, wasn't it?"

"No, Hiram; it was a city feller."

"Was, eh? Well, by heck, tell him she was a first-class critter and worth every cent of $50."

"And come to think of it, Hiram, his automobile was almost as long as a steamboat, with glass windows, six lights and a horn that you could hear five miles."

"What? Then write and tell him the cow he killed was a genuine imported prize-winning Holstein and worth $500, and if he doesn't settle up every cent in cash I'll put the law on him."

PANTRY CLEANED

A Way Some People Have.

A doctor said:—

"Before marriage my wife observed in summer and country homes, coming in touch with families of varied means, culture, tastes and discriminating tendencies, that the families using Postum seemed to average better than those using coffee.

"When we were married two years ago, Postum was among our first order of groceries. We also put in some coffee and tea for guests, but after both had stood around the pantry about a year untouched, they were thrown away, and Postum used only.

"Up to the age of 28 I had been accustomed to drink coffee as a routine habit and suffered constantly from indigestion and all its relative disorders. Since using Postum all the old complaints have completely left me and I sometimes wonder if I ever had them."

At times when you don't feel just right when you have a bad stomach take something right away that will assist digestion not sumething that will stimulate for a time but something that will positively do the work that the stomach performs under normal condition something that will make the food digest. To do this you must take a natural digestant like Kodol for dyspepsia. Kodol is a scientific preparation of vegetable adids with natural digestants and contains the same juices found in a healthy stomach. Each dose will digest more than 3,000 grains of food. It is sure to afford prompt relief, it digests what you eat and is pleasant to take. Sold by J L Harr & Co.

SIZZLING MESSAGE SENT TO CONGRESS

PRESIDENT ROOSEVELT SCORES BIG CORPORATIONS BECAUSE OF THEIR ATTITUDE.

STANDARD'S METHODS ARE TORN TO PIECES

Tendency of Oil Concern to "Over-Awe, Crush and Disdain Public," Proves Warm Theme in Chief's Communication.

President Roosevelt's sizzling message to congress asked the enactment of a fair employers' liability law, more powers for the Interstate Commerce Commission, and the executive again called to the attention of the lawmakers his campaign against the "specially privileged rich." Regarding the employers' liability act, recently declared unconstitutional by the supreme court, the president said:

"As regards the employers' liability law, I advocate its immediate reenactment, limiting its scope so that it shall apply only to the class of cases as to which the court says it can constitutionally apply, but strengthening its provisions within this scope. Interstate employment being thus covered by an adequate national law, the field of intrastate employment will be left to the action of the several states. With this clear definition of responsibility the states will undoubtedly give to the performance of their duty within their field the consideration the importance of the subject demands.

"I also very urgently advise that a comprehensive act be passed providing for compensation by the government to all employes injured in the government service. Under the present law an injured workman in the employment of the government has no remedy, and the entire burden of the accident falls on the helpless man, his wife, and his young children. This is an outrage. It is a matter of humiliation to the nation that there should not be on our statute books provision to meet and partially atone for cruel misfortune when it comes upon a man through no fault of his own while faithfully serving the public."

Assails Injunction Abuse.

Abuse of the use of the injunction in labor cases provided another theme for the executive. He declared there is some need for action regarding the rights and wrongs of labor from blacklisting to boycotting. Continuing, he said:

"As regards injunctions, I can do little but repeat what I have said in my last message to congress. Even though it were possible, I should consider it most unwise to abolish the use of the process of injunction. It is necessary in order that the courts may maintain their own dignity and in order that they may in effective manner check disorder and violence. The judge who uses it cautiously and conservatively, but who, when the need arises, uses it fearlessly, confers the greatest service upon our people, and his preeminent usefulness as a public servant should be heartily recognized. But there is no question in my mind that it has sometimes been used heedlessly and unjustly, and that some of the injunctions issued inflict grave and occasionally irreparable wrong upon those enjoined."

That the Santa Fe railroad president had guilty knowledge of rebating is an assertion which the executive made with effect. In his message he inclosed letters of correspondence, which he declared point to the truth of his statements. His words in this connection are:

"In enclose herewith a statement issued by the chief of the bureau of corporations in answer to certain statements (which I also enclose), made by and on behalf of the agents of the Standard Oil Corporation and a letter of the attorney-general containing an answer to certain statements, also inclosed, made by the president of the Santa Fe Railway Company. The Standard Oil Corporation and the railway company have both been found guilty by the courts of criminal misconduct; both have been sentenced to pay heavy fines; and each has issued and published broadcast these statements, asserting their innocence and denouncing as improper the action of the courts and juries in convicting them of guilt. These statements are very elaborate, are very ingenious, and are untruthful in important particulars. The letter and inclosure from Mr. Heney sufficiently illustrate the methods of the high officials of the Santa Fe and show the utter falsity of their plea of ignorance, the similar plea of the Standard Oil being equally without foundation."

Would See Traffic Associations.

Uniformity of railroad rates was another one of the executive's themes which is of interest to the general public and President Roosevelt advised a pool of traffic associations for the purpose of conferring on rates. In that connection he contiuned as follows:

"I desire to repeat my recommendation that railways be permitted to form traffic associations for the purpose of conferring about and agreeing upon rates, regulations, and practices affecting interstate business in which the members of the association are mutually interested. This does not mean that they should be given the right to pool their earnings or their traffic. The law requires that rates shall be so adjusted as not to discriminate between individuals, localities, or different species of traffic. Ordinarily rates by all competing lines must be the same. As applied to practical conditions, the railway operations of this country can not be conducted according to law without what is equivalent to conference and agreement. The articles under which such associations operate should be approved by the commission; all their operations should be open to public inspection; and the rates, regulations, and practices upon which they agree should be subject to disapproval by the commission."

Then followed a "roast" on the "evil rich." The president told of the campaign which the wealthy lawbreakers conducted and set forth remedial legislation. His statement in that regard follows:

"Under no circumstances would we countenance attacks upon law-abiding property, or do aught but condemn those who hold up rich men as being evil men because of their riches. On the contrary, our whole effort is to insist upon conduct, and neither wealth nor property nor any other class distinction, as being the proper standard by which to judge the actions of men. For the honest man of great wealth we have a hearty regard, just as we have a hearty regard for the honest politician and honest newspaper. But part of the movement to uphold honesty must be a movement to frown on dishonesty. We attack only corrupt men of wealth, who find in the purchased politician the most efficient instrument of corruption and in the purchased newspaper the most efficient defender of corruption. Our main quarrel is not with these agents and representatives of the interests. They derive their chief power from the great sinister offenders who stand behind them. They are but puppets who move as the strings are pulled. It is not the puppets, but the strong cunning men and the mighty forces working for evil behind and through the puppets, with whom we have to deal. We seek to control law-defying wealth; in the first place to prevent its doing dire evil to the republic, and in the next place to avoid the vindictive and dreadful radicalism which, if left uncontrolled, it is certain in the end to arouse."

Big Corporations Are Hit.

By easy stages the president drew near to the Standard Oil trouble of a short time ago, and then he told of alleged methods of the Rockefeller syndicate to "overawe common carriers, crush out every competitor and look down upon the people with a contempt which the public deserves as long as it permits such men to act with impunity." It was at that point and in connection with the insurance and Chicago & Alton scandals that Mr. Roosevelt took the heaviest fall out of wealthy corporations which have been held to account by the government. The message continued:

"The keynote of all these attacks upon the effort to secure honesty in business and in politics is well expressed in brazen protests against any effort for the moral regeneration of the business world, on the ground that it is unnatural, unwarranted and injurious, and that business panic is the necessary penalty for such effort to secure business honesty. The morality of such a plea is precisely as great as if made on behalf of the men caught in a gambling establishment when that gambling establishment is raided by the police. If such words mean anything they mean that those whose sentiments they represent stand against the effort to bring about a moral regeneration of business which will prevent a repetition of the insurance, banking and street railroad scandals in New York; a repetition of the Chicago & Alton deal; a repetition of the combination between certain professional politicians, certain professional labor leaders, and certain big financiers, from the disgrace of which San Francisco has just been rescued; a repetition of the successful effort by the Standard Oil people to crush out every competitor, to overawe the common carriers, and to establish a monopoly which treats the public with a contempt which the public deserves so long as it permits men of such principles and such sentiments to avow and act on them with impunity. The outcry against stopping dishonest practices among wrongdoers who happen to be wealthy is precisely similar to the outcry raised against every effort for cleanliness and decency in city government, because, forsooth, it will 'hurt business.'"

Tells of Criticising Judges.

"Our opponents have recently been bitterly criticising the two judges referred to in the accompanying communications from the Standard Oil Company and the Santa Fe Railroad for having imposed heavy fines on these two corporations; and yet these same critics of these two judges exhaust themselves in denouncing the most respectful and cautious discussion of the official action of a judge which results in immunity to wealthy and powerful wrongdoers. Most certainly it behooves us all to treat with the utmost respect the high office of judge, and our judges, as a whole, are brave and upright men. Respect for the law must go hand in hand with respect for the judges; and, as a whole, it is true now as in the past that the judges stand in character and service above all other men among their fellow-servants of the public. The judge who does his full duty well stands higher, and renders a better service to the people, than any other public servant; he is entitled to greater respect; and if he is a true servant of the people, if he is upright, wise and fearless, he will unhesitatingly disregard even the wishes of the people if they conflict with the eternal principles of right as against wrong. He must serve the people; but he must serve his own conscience first. All honor to such a judge; and all honor can not be rendered him if it is rendered equally to his brethren who fall immeasurably below the high ideals for which he stands. Untruthful criticism is wicked at all times, and whoever may be the object; but it is a peculiarly flagrant iniquity when a judge is the object. No man should lightly criticise a judge; no man should, even in his own mind, condemn a judge unless he is sure of the facts. If a judge is assailed for standing against popular folly, and above all for standing against mob violence, all honorable men should rally instantly to his support. Nevertheless if he clearly fails to do his duty by the public in dealing with lawbreaking corporations, lawbreaking men of wealth, he must expect to feel the weight of public opinion; and this is but right, for except in extreme cases this is the only way in which he can be reached at all. No servant of the people has a right to expect to be free from just and honest criticism.

"An Ethical Movement."

"The opponents of the measures we champion single out now one and now another measure for especial attack, and speak as if the movement in which we are engaged was purely economic. It has a large economic side, but it is fundamentally an ethical movement. It is not a movement to be completed in one year, or two years or three years; it is a movement which must be persevered in until the spirit which lies behind it sinks deep into the heart and the conscience of the whole people. It is always important to choose the right means to achieve our purpose, but it is even more important to keep this purpose clearly before us; and this purpose is to secure national honesty in business and in politics. We do not subscribe to the cynical belief that dishonesty and unfair dealing are essential to business success, and are to be condoned when the success is moderate and applauded when the success is great. The methods by which the Standard Oil people and those engaged in the other combinations of which I have spoken above have achieved great fortunes can only be justified by the advocacy of a system of morality which would also justify every form of criminality on the part of a labor union, and every form of violence, corruption, and fraud, from murder to bribery and ballot-box stuffing in politics. We are trying to secure equality of opportunity for all; and the struggle for honesty is the same whether it is made on behalf of one set of men or of another. In the interest of the small settlers and landowners, and against the embittered opposition of wealthy owners of huge wandering flocks of sheep, or of corporations desiring to rob the people of coal and timber, we strive to put an end to the theft of public land in the west. When we do this, and protest against the action of all men, whether in public life or in private life, who either take part in or refuse to try to stop such theft, we are really engaged in the same policy as when we endeavor to put a stop to rebates or to prevent the upgrowth of uncontrolled monopolies. Our effort is simply to enforce the principles of common honesty and common sense. It would indeed be ill for the country should there be any halt in our work."

State Government Must Aid.

Either the state or national government may [illegible] the remedy [illegible] tion, of which the president spoke, and the executive asked the commonwealths to share the responsibility of curbing those corporations, which are accused of evil-doing. "Of course in any event both the national and state governments must each do its part," said President Roosevelt's message, and each can do a certain amount that the other cannot do, while the only really satisfactory results must be obtained by the representatives of the national and state governments working heartily together within their respective spheres. But in my judgment thorough-going and satisfactory control can in the end only be obtained by the action of the national government, for almost all the corporations of enormous wealth—that is, the corporations which it is especially desirable to control—are engaged in interstate commerce, and derive their power and their importance not from that portion of their business which is intrastate, but from the interstate business. It is not easy always to decide just where the line of demarcation between the two kinds of business falls. This line must ultimately be drawn by the federal courts. Much of the effort to secure adequate control of the great corporations by state action has been wise and effective, but much of it has been neither; for when the effort is made to accomplish by the action of the state what can only be accomplished by the action of the nation, the result can only be disappointment, and in the end the law will probably be declared unconstitutional. So likewise in the national arena, we who believe in the measures herein advocated are hampered and not aided by the extremists who advocate action so violent that it would either be useless or else would cause more mischief than it would remedy.

Points to the Future.

"The laws must in the future be administered as they are now being administered, so that the department of justice may continue to be, what it now is, in very fact the department of justice, where so far as our ability permits justice is meted out with an even hand to great and small, rich and poor, weak and strong. Moreover, there should be no delay in supplementing the laws now on the statute books by the enactment of further legislation as outlined in the message I sent to the congress on its assembling. Under the existing laws much, very much, has been actually accomplished during the past six years, and it has been shown by actual experience that they can be enforced against the wealthiest corporation and the richest and most powerful manager or manipulator of that corporation, as rigorously and fearlessly as against the humblest offender. Above all, they have been enforced against the very wrongdoers and agents of wrongdoers who have for so many years gone scot-free and flouted the laws with impunity, against great law-defying corporations of immense wealth, which, until within the last half dozen years have treated themselves and have expected others to treat them as being beyond and above all possible check from law. It is especially necessary to secure to the representatives of the national government full power to deal with the great corporations engaged in interstate comerce, and above all, with the great interstate common carriers. Our people should clearly recognize that while there are difficulties in any course of conduct to be followed in dealing with these great corporations, these difficulties must be faced, and one of three courses followed. The first course is to abandon all effort to oversee and control their actions in the interest of the general public and to permit a return to the utter lack of control which would obtain if they were left to the common law. I do not for one moment believe that our people would tolerate this position. The extraordinary growth of modern industrialism has rendered the common law, which grew up under and was adapted to deal with totally different conditions, in many respects inadequate to deal with the new conditions. These new conditions make it necessary to shackle cunning as in the past we have shackled force. The vast individual and corporate fortunes, the vast combinations of capital, which have marked the development of our industrial system, create new conditions, and necessitate a change from the old attitude of the state and the nation toward the rules regulating the acquisition and untrammeled business use of property, in order both that property may be adequately protected, and that at the same time those who hold it may be prevented from wrongdoing.

Talks of Financial Stress.

"We have just pased through two months of acute financial stress. At any such time it is a sad fact that entirely innocent people suffer from no fault of their own; and every one must feel the keenest sympathy for the large body of honest business men, of honest investors, of honest wageworkers, who suffer because involved in a crash for which they are in no way responsible. At such a time there is a natural tendency on the part of many men to feel gloomy and frightened at the outlook; but there is no justification for this feeling. There is no nation so absolutely sure of ultimate success as ours. Of course we shall succeed. Ours is a nation of masterful energy, with a continent for its domain, and it feels within its veins the thrill which comes to those who know that they possess the future. We are not cast down by the fear of failure. We are upheld by the confident hope of ultimate triumph. The wrongs that exist are to be corrected; but they in no way justify doubt as to the final outcome, doubt as to the great material prosperity of the future, or of the lofty spiritual life which is to be built upon that prosperity as a foundation. No misdeeds done in the present must be permitted to shroud from our eyes the glorious future of the nation; but because of this very fact it behooves us never to swerve from our resolute purpose to cut out wrongdoing and uphold what is right. I do not for a moment believe that the actions of this administration have brought on business distress; so far as this is due to local and not world-wide causes, and to the actions of any particular individuals, it is due to the speculative folly and flagrant dishonesty of a few men of great wealth, who seek to shield themselves from the effects of their own wrongdoing by ascribing its results to the actions of those who have sought to put a stop to the wrongdoing. But if it were true that to cut out rottenness from the body politic meant a momentary check to an unhealthy seeming prosperity, I should not for one moment hesitate to put the knife to the corruption. On behalf of all our people, on behalf no less of the honest man of means than of the honest man who earns each day's livelihood by the day's sweat of his brow, it is necessary to insist upon honesty in business and in politics alike, in all walks of life, in big things and in little things; upon just and fair dealing as between man and man. Those who demand this are striving for the right in the spirit of Abraham Lincoln," said the president in conclusion.

Belasco a Hard Worker.

David Belasco is the hardest worker of all the American playwrights. It is not an unusual occurrence for him to rehearse a company for 10 or 12 hours at a stretch, and then when the actors are tired he dismisses them and goes to work on pruning and fixing up bits of his play.

THIRTY YEARS OF IT.

A Fearfully Long Siege of Daily Pain and Misery.

Charles Von Soehnen of 210 A St., Colfax, Wash., says: "For at least thirty years I suffered with kidney troubles, and the attacks laid me up for days at a time with pain in the back and rheumatism. When I was up and around sharp twinges caught me, and for fifteen years the frequent passages of kidney secretions annoyed me. But Doan's Kidney Pills have given me almost entire freedom from this trouble and I cannot speak too highly in their praise."

KING CARLOS I AND SON SLAIN

RULER AND CROWN PRINCE OF PORTUGAL ASSASSINATED.

QUEEN'S EFFORTS SAVE SON

Prince Manuel Also Wounded by Band of Assassins Firing Carbines.

Lisbon, Feb. 1.—King Carlos of Portugal and the crown prince, Luiz Philippe, were assassinated yesterday and the city is in a state of uproar. The king's second son, the infant Manuel, was slightly wounded but Queen Amelie, who strove to save the crown prince's life by throwing herself upon him, was unhurt.

A band of men waiting at the corner of the Praco de Commercio and the Rua de Arscenal suddenly sprang toward the open carriage in which the royal family were driving to the palace, and, leveling carbines which they had concealed upon them, fired. The king and the crown prince, upon whom the attack was directed, were each shot three times and they lived only long enough to be carried to the marine arsenal nearby, where they expired.

Almost at the first shot the king fell back on the cushions dying and at the same moment the crown prince was seen to half rise and then sink back on the seat. Queen Amelie leaped up and threw herself toward the crown prince in an apparent effort to save his life at the cost of her own, but the prince already had received his death wound.

The palace guard fired on the assassins, killing three the police killed one.

For days and weeks there has been the greatest crisis in the history of Portugal and the administration of Premier Franco is held responsible for the present outrage. The king all along had favored his premier whom he believed to be the man who would eventually re-establish peace in the realm.

A recurrence of the scenes of the French revolution is feared. The military authorities of the city are doing everything in their power to prevent the uprising.

Regiments of soldiers which are known to be loyal to the reigning house are being thrown into the city and the streets are being cleared of the people.

Intense excitement prevails. All messages are being censored and no one is allowed to leave the country or cross the frontier into Spain.

While there had been considerable disruption in political affairs in Portugal for a long time, the strained relations between King Carlos and parliament were brought to a head only on May 11 last by the dissolution of the chambers. The state councillors addressed a letter to the king protesting against the state of absolutism which resulted from the dissolution and declared then that the king and the country had been placed in a dangerous position.

Lisbon, Feb. 3.—A boy king who hence forth will be known as Manuel II, is now the ruler of the kingdom of Portugal, and the revolution into which the instigators of the bloody events of Saturday had hoped to plunge the country, has not yet at least engulfed the nation.

Franco, the dictator and real commander of the country's destinies, whom the moral and physical might of all parties and interests have not succeeded in destroying, remains still the triumphant leader, not only unconquered and unaffrighted, but retained in power by the new king, at all costs to prevent further violence and insurrection and to preserve the monarchy.

The only word of indication that universal order in Portugal has possibly been broken came from Oporto in the form of a rumor that a republic has been proclaimed there, but this was not confined.

THAW IS NOT GUILTY.

Not Held for the Killing of Stanford White.

New York., Feb. 2.—Adjudged not guilty of the murder of Stanford White by reason of insanity at the time the fatal shot was fired, Harry Kendall Thaw yesterday was held by the court to be a dangerous lunatic and was whirled away to the state hospital for the criminal insane at Matteawan.

It was a quick transition from the dingy little cell in the Tombs which had been the young man's home for more than eighteen months to the white bedded wards of the big asylum tucked away on the snow covered sloping banks of the Hudson river fifty miles above this city.

The verdict came after twenty-five hours of waiting and when every one connected with the case had abandoned all hope of an agreement ever being reached in this or any other trial. Four hours after the foreman's lips had framed the words "not guilty" with the accompanying insanity clause, Thaw protesting he was sane was on his way to Matteawan. A little after nightfall he had been received in the institution under commitment papers which directed his detention "until discharged by due course of law."

IT SEEMED INCURABLE

Body Raw with Eczema—Discharged from Hospitals as Hopeless—Cuticura Remedies Cured Him.

"From the age of three months until fifteen years old, my son Owen's life was made intolerable by eczema in its worst form. In spite of treatments the disease gradually spread until nearly every part of his body was quite raw. He used to tear himself dreadfully in his sleep and the agony he went through is quite beyond words. The regimental doctor pronounced the case hopeless. We had him in hospitals four times and he was pronounced one of the worst cases ever admitted. From each he was discharged as incurable. We kept trying remedy after remedy, but had gotten almost past hoping for a cure. Six months ago we purchased a set of Cuticura Remedies. The result was truly marvelous and to-day he is perfectly cured. Mrs. Lily Hedge, Camblewell Green, England, Jan. 12, 1907."

OPENS GRAVE FOR A PICTURE.

Sorrowing Widow Had to Have Picture by Which to Remember Hubby.

To be exhumed after he had been buried for 20 days and told to sit up and "look pleasant" was the tough luck that befell a corpse out at Woodlawn cemetery, New York, the other day. Henry Brown, a train dispatcher on the One Hundred and Twenty-ninth street elevated road, died December 6 of rheumatic gout and was buried decently and in order. Some two weeks after the funeral it occurred to Mrs. Brown that she would like a photograph of her husband, having none that did him justice. Immediately she petitioned the Bronx health department for permission to exhume Henry and snapshot him. The health department was somewhat dazed, but granted the request, and so, with a photographer and an undertaker, Mrs. Brown went to Woodlawn and had the three weeks' corpse dug up. Brown was taken both profile and full face.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

M. Hancock County, Iowa.

You are hereby notified that an amended report has been filed in the office of County Auditor of Hancock County by the Engineer in charge of the construction of the ditches and drains in Drainage District Number Fourteen (14), which report recommends the following changes in said ditches and drains, viz:

Lateral No. 1 from Station 0 to Station 22 changed from an open ditch to twenty (20) inch tile, from Station 22 to Station 85 changed from an open ditch to eighteen (18) inch tile, from Station 85 to Station 97 changed from an open ditch to fifteen (15) inch tile, from Station 97 to Station 102 changed from an open ditch to (12) inch tile.

Lateral No. 2 from Station 0 to Station 18 changed from ten (10) to twelve (12) inch tile, from Station 18 to Station 29 changed from eight (8) to ten (10) inch tile.

Lateral No. 3 changed from six (6) to eight (8) inch tile.

You are further notified that the Board of Supervisors has fixed the 2d day of March, A. D., 1908 as the day for hearing on said proposed changes to be held at the Court House in Garner, Iowa, and that all claims for damages or compensation by reason thereof must be filed in the office of said County Auditor not less than five [5] days before the day fixed for hearing and that unless you do so file claims for damages or appear against said proposed changes the said recommendation of the Engineer will be adopted and the changes made and you and each of you will be barred from objecting thereto or claiming damages on account thereof.

Witness my hand and official seal this 27th day of January, A. D., 1908.

Bertha Schaub of Charles City, was in Klemme a few days the guest of Meta Stork.

Esther Gruetzmacher was confined to the house all of last week suffering with a sore throat.

Mrs. Louis Sampson was to Mason City Monday to see Dr Blaize. Her eyes have caused her siderable trouble of late.

Mr. and Mrs. Joe Holthaus of Colesburg, spent a few days in this vicinity. They were married last week and are on their wedding trip.

The Klemme W. F. M. S. meets with Mrs. Jno Josten Thursday afternoon.

H. Griewe's Sunday school class will give a program Sunday evening.

Mrs. H. Griewe has been waiting on her sister Mrs. Nissen the first of the week.

Paul Gast and wife set up housekeeping this week on the Wm. Stork farm.

We will not attempt to mention all those either sick or ailing with a cold or the "grip."

Elmer Ludeke was home over Saturday and Sunday returning Monday to resume his studies.

Aug. Wenz expects to go to Iowa City the last of the week and spend a few days with E. L. Schaub.

The Klemme Standard Bearers will meet Friday evening with Meta Stork for their monthly program.

A number of our Germantown farmers helped Mr. Jennings move his household goods, stock and machinery to Duncan on Tuesday, where he loaded them for Rockwell City.

The Germantown W. F. M. S. met with Mrs. Kahler Tuesday afternoon. The north side prayer meeting was to be held at the same place this week, but the storm kept a number away.

"It might have been worse" is the consolation Frank Gruetzmacher has after taking a stumble half way across the street the other night. A sore knee and a fractured rib still remind him of his quick move.

Fred Ridder recently purchased a fine driver in Charles City which he brought home last week. We partly expected Fred would bring home an automobile some day but in our judgement he has made a wise choice.

The Klemme and Germantown Leagues have arranged an exchange of programs. On Feb. 23 the Klemme League will give a program in Germantown and Mar. 15 the Germantown League will give a program in Klemme. We are looking for something a little above the average.

Proper Ventilation of Cars

It is very important that railway cars be adequately and properly ventilated.

In sleeping cars, especially, passengers appreciate pure air—an absence of that "stuffy" atmosphere which means headache and car-sickness.

All Pullman sleeping cars on the "Rock Island" are now equipped with the new Garland Car Ventilator—a most effective device.

The "Rock Island" was the ***first Western road*** to install the ventilator on its coaches, and is to-day the ***only*** line having them in general use.

It is just one more point of advantage in "Rock Island" service.

Our meal service—our Golden State Limited—our Rocky Mountain Limited—our trains generally—all present the highest type of travel comfort.

REPRESENTATIVES.

I hereby announce myself a candidate for Representative in the next General Assembly of Iowa, subject to nomination by the republican party in the regular primary election.

George P. Hardwick, Britt, Iowa.
Dated Jan. 23, 1908.

To the Republican voters of Hancock County, Iowa:

I hereby announce that I am a candidate for the republican nomination for the office of Representative in the state legislature from Hancock county I respectfully solicit your support at the Primary Election to be held June 2, 1908. A. C. Ripley.

Dated Jan. 23, 1908.

We have felt the pulse of the people pretty thoroughly in regard to the candidacy of our present county superintendent, A. M. Deyoe, for another term, and have found the sentiment unaminous for his renomination. They all express a high regard for his manly worth, his efficiency in school work, and his honest, energetic adminstration of his school duties. This office should be removed from politics and the people should see to it that politicians should not be permitted to meddle in the least with the office that reaches every home more directly than any or all other offices in the county. Mr. Deyoe has not asked this nomination but his friends all over the county are asking it for him.—Corwith Hustler.

CALLED TO REST.

Last Wednesday morning at 8:15 o'clock the angel of death hovering near the home of Mr. and Mrs. Tom Hamilton called to rest their little one.

The loved and loving little one died where life's early dawn almost touches that of morning and while the shadows were still falling toward the west.

He had not passed on life's highway the mark which he expected to lead thru' life, he had not yet chosen a calling in this world and was pure and innocent from the worldiness of this world and passed to rest in the innocence of childhood.

The little one had been ailing ever since infancy with an incurable malady and had suffered much until finally called to the regions above the heaven of rest

The interment taking place last Friday at the Belmond Catholic Cemetery.

Our sympathy goes out to the afflicted ones in this their sad bereavement

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. Boni grows desperate as his meal ticket vanishes.

The Japanese have all they can do to look after their lives at home in a time of profound peace. They are getting automobiles by the cargo.

Argentine farmers just now are busy hauling a big wheat crop to market. Automobile drummers should pack their grips for South America.

A French inventor now claims to be able to send photographs by wireless telegraphy. What would a sudden wind storm do to Gov. Hughes' whiskers?

About the nearest thing we remember to living music heretofore has been the crying of a baby at 2 a. m. as the patient father walked the chilly floor.

Really, Count Boni is a man of spirit. He will make faces at the prince or do something equally dreadful if the latter dares to marry his former wife.

A moving-picture machine exploded in Canton and 300 Chinese lost their lives in the resulting panic. Civilization is dangerous unless one knows how to hande it.

Science has harnessed the potato bug, as it were, and is making it do stunts in the interests of humanity. That is grand, sweet revenge for all the miserable hours it has brought to boys who had to "bug 'taters" when the fishing in the branch was fine.

Defects of speech such as stammering are so prevalent in Germany that the government is said to have instituted a campaign against them by establishing a special department in the medical college of the University of Berlin, both for the cure of such impediments and for educating doctors how to treat them. Perhaps the suggestion is unkind, says the Baltimore American, but would not the trouble be more readily disposed of by going to the root of the matter and adopting a new language—one easier to get the tongue around?

COUSINS RETIRES.

Congressman Announces He will not Enter the Race.

Cedar Rapids.—Congressman Robert G. Cousins will not be a candidate for renomination by the republicans of the Fifth district. He is out in a letter announcing his retirement and giving as the reason the need of devoting himself to his private interests. The letter is authoritatively published by the Cedar Rapids Republican and is as follows:

"No one having announced any candidacy for congress in the Fifth district and the date of the forthcoming primary being near, I deem it due to my friends and to our party to state that I shall not qualify under the primary law and shall not be a candidate for renomination for the office of representative in congress.

"Appreciating most keenly the confidence that has been continuously manifested and the honor that has been eight times consecutively conferred upon me, both in convention and at the polls, I have done diligently and conscientiously the best I could to serve the interests of our district and of the nation and I make this announcement so that the republicans of the district may have ample opportunity to consider whom they prefer to represent them in the congress.

"My reason for withdrawing, while of course immaterial to the public, is essentially material to me. It is simply that, having given the best part of my life to the public service, and having opportunity, I must now do something for myself. Very truly,

"Robert Cousins."

The Cedar Rapids Republican says that this letter is final and irrevocable.

BIRDSALL WILL NOT RUN.

Judge, However, Avoids Telling Why He Has Retired.

Washinton, D. C.,—Representative B. P. Birdsall, of Iowa, has confirmed the reports in circulation here and which have been afloat in Iowa of late to the effect that he had decided to retire from congress at the end of his present term, which will end March 3, 1909. He will not be a candidate for re-election. He has written a letter to George Wright, republican congressional chairman of the Third district. It was he who has made this announcement.

Judge Birdsall did not wish to go into the reasons for his conclusion to retire. He said that the real reason was his desire to return to his law business, that he had talked the matter over when he was in his district about two weeks ago and he felt that it was only fair to the other candidates to announce that he would not be in the field.

SHOT BY HIGHWAYMEN

C. A. Snyder, Butcher of Waterloo, Near Death's Door.

Waterloo.—C. A. Snyder fought to his probable death on his own doorstep against two highwaymen in the presence of his wife. He is now lying at the point of death with two bullet wounds in his body. The attackers are at large.

Snyder and his wife were returning across the street from the butcher shop of which Snyder is the proprietor, with the money, $85, taken in during the day in their hands. As they stepped up to their door two masked men shouted, "Hold up your hands". Not an instant elapsed until two shots were fired. They both entered Snyder's body, one his side and the other his breast.

Snyder fought like a demon. He knocked the revolver out of the hands of one of the villains and so vicious was his attack that they soon both fled without the money. The wife supported the husband into the house and sent for the police.

The police, with the aid of the revolver Snyder captured from the men, are working might and main on the case. It is thought that the men are perhaps members of the gang which infested Waterloo last summer and committed and attack on F. G. Ballou.

Two youths had called at the butcher shop several times during the evening, probably intent upon robbing Mr. Snyder. His wife's presence deterred them.

JUDGE GIVEN IS DEAD.

Aged Jurist Passes Away After Long Illness.

Des Moines.—Judge Josiah Given, one of the pioneer jurists of Iowa, died on the 3d, at the home of his daughter, 1442 Ninth street.

He was for a great many years one of the pioneer lawyers of Des Moines and served on the district bench for a number of years. For several years he has been an invalid and has for a part of that time traveled in the interests of his health. Besides his wife, he leaves two sons and a daughter.

EXCITING MAN HUNT.

Posse Chases Burglars Seventy-five Miles Into Iowa.

Council Bluffs.—An exciting man hunt, extending over a territory nearly seventy-five miles long, from Rockport, Mo., to Pacific Junction, Ia., ended in the latter place by the arrest of two men charged with the burglary and wholesale robbery of a store at Rockport.

The most sensational incident of the chase occurred at McPaul at about 2 o'clock in the morning. Marshal McChesney and Constable Withrowe had been notified of the burglary and had a description of the suspects. McChesney and Withrowe entered the waiting room of the depot at the hour named where they found the two men.

Marshal McChesney laid his hand on the shoulder of one of the men, saying: "I guess we want you". The fellow whipped out a revolver, and leveling it at the officer's head replied: "I guess you are mistaken about that, ain't you?"

The stranger then ordered McChesney and the constable to leave the depot, instructing them to take the back step. The officers, seeing that resistance to the demand was useless, backed out of the depot and a moment later the two strangers disappeared in the darkness.

An alarm was sounded and a posse took up the trail of the suspects, which was lost in the darkness. But a few hours later both of the fugitives were overtaken at Pacific Junction and arrested, a sheriff, who had been on the trail of the men, being in at the finish.

COULD NOT FIND EVIDENCE.

But Dubuque Grand Jury Roasts Water Works Officials.

Dubuque.—The report of the Dubuque county grand jury declared that though much time had been consumed in investigating the water works scandal, it had been impossible to unearth evidence warranting indictments against the old trustees. But in strong terms the report declared that the irregularities and foolish extravagance, if not actually criminal, were strongly and vigorously condemned. It was shown that members of the city council and other officials until two years ago failed to pay any water tax. Then suddenly the cash book shows a grand rush to liquidate. The investigation is still open and is likely to be taken up to the next grand jury. The present body stated that one man, "McArthur, now in the penitentiary." could, if he would, give evidence that would likely convict higher officials.

SIOUX CITYANS PERISH.

Two Burn to Death in Fierce Conflagration.

Sioux City.—Two persons were burned to death and six injured in a fire at South Sioux City on the night of the 7th.

The fire broke out in the rooming house of Edward Streator. It was burned to the ground. The dead:

Edward Streator.
Moritz Albertson.

The injured:

Dolly Hart, daughter of Streator; leg broken.

Unknown Winnebago Indian, both legs broken.

William Tuekcrist, broken ankle.

Edward Stainer, ankles injured and internal injuries.

A. Paseyladt, legs injured.

The injured persons were compelled to jump from the second story windows. The bodies of Streator and Albertson were not recovered.

TUBERCULAR MILK SOLD.

Council Bluffs Veterinarian Makes Disclosures.

Council Bluffs.—After a series of investigations into the prevalence of tuberculosis among cattle, Dr. F. H. Hollingsworth, a local veterinarian of repute, has startled the people of this city by his revelations. In a number of instances milk from tubercular cows was being fed to infants, and one family was actually milking pus from an affected cow and feeding it to a baby. Dr. Hollingsworth gave a number of instances of this character, and followed with the statement that people do not realize how prevalent tuberculosis in cattle really is.

"I do not wish to be understood as saying that this part of the state is worse than any other," said Dr. Hollingsworth.

Arrest The Cashier.

Davenport.—B. S. McCully, former cashier of the Princeton savings bank, has been placed under arrest, charged with making false entries in the bank's books. State Auditor Carroll recently removed Cashier McCully and appointed William Gruenwald of Davenport receiver of the bank. It is stated that the shortage in the bank's accounts amount to nearly $10,000. McCully furnished a bond of $3,000.

BOY TRAMPS HOLD MEETING

EXCLUDED BY HOBOES, THE LADS HAVE OWN CONVENTION.

"Kids" from Various Cities Tell Their Experiences and Give Advice to Others.

St. Louis. — Boy tramps who were drawn here by the national convention of the unemployed, now in session, and who were not permitted in the councils, which were limited to "hoboes," held a meeting Friday at which addresses were made by men of reputation among the wanderers.

"Kansas City Kid" was the guest of honor, because his "moniker" (monogram) is on more water tanks than that of any other traveler, and short speeches, brimful of advice, were delivered by other well-known tramps.

"New Haven Kid" contrasted conditions in the east and west and said his experience had been that a tramp is more liable to arrest in the east than the west. "Kid Murphy" of Springfield, Ill., advised against the use of "white line" (alcohol and water), saying it caused many hold-ups. "Jersey Red," who recently returned from Africa, advised tramps to keep away from the sea, because they had to work hard on ships. "Chi Kid Vi," with pathos in his voice, told of 22 arrests in two months and advised the boys never to get off trains in front of stations, and recited the advantages of a "good front."

"Gen." J. S. Coxey urged the tramps to settle down that they might be voters by the time his bill came up in congress.

Rev. John Eills and Dr. Reitman, who styles himself "King of Tramps," also spoke, urging the tramps to become "hoboes" and seek after work.

YARMOUTH MARRIAGE ANNULLED

Alice Thaw Freed from Earl by British Divorce Court.

London.—Sir Birrell Barnes, president of the divorce court Wednesday granted the countess of Yarmouth, who was Miss Alice Thaw, of Pittsburg, a decree nullifying her marriage to the earl of Yarmouth. The case was heard in private. At the time fixed for the commencement of the proceedings every one not actually engaged on the case was excluded from the court room. The case was practically undefended, and the hearing lasted for only half an hour. The countess, attired in a fashionable black gown, was present, but the earl of Yarmouth was not in court.

The earl of Yarmouth did not defend the case, his lawyer satisfying himself with pointing out that the evidence of the doctor removed any stigma placed upon the earl by the evidence of the plaintiff and that there was no ground upon which the countess could have sued for divorce. The judge pronounced his decree, annulling the marriage without comment. In the ordinary course of events it will be made absolute in six months. No mention was made of a marriage settlement, and it was learned from an authoritative source that, contrary to certain published statements, the question of revising the settlement has not been discussed by the principals or their solicitors and that it is not likely to be discussed. The brevity of the proceedings came as a surprise to everybody except those engaged on the case.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous feud. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans.

CHAPTER XI.—Continued.

"How many were there?" interjects Barnes hurriedly.

"About four, Monsieur. Only one know how to sail ze ship. But ze night is fine and aftaire bringing me to make ze breakfast during ze darkness, ze one who knew ze coast steered us here. Zen zey drop ze anchor and cry to me: 'Cook, stay on board. You tell ze cursed Americano, Signore Barnes of New York to come to Bocognano if he would rescue his wife. We have greeting for him zere vitch he vill not forget!' Zay all take off zaire hats, as ze young cavalier bring upon deck your beautiful lady, who looked like a goddess, so haughty, so noble. To him as he bowed before her, she says: 'Monsieur Bernardo Saliceti, you who were vere un gentilhomme a few days ago and have now become a kidnapper, tell your savages to keep zaire hands off me and I vill go with you.'

"To me she command as she stepped into ze boat: 'Loboeuf, have a good meal for Mr. Barnes, who vill be coming soon;' Zen she look at me with her eyes. I know she means I am not to forget something. Ah, your mariee vas vaire brave. Only once in ze long night, as I listen with my ears, I hear from ze cabin a short, quick sob."

"My wife's eyes told you to remember something? What was it?" asks Barnes very eagerly, though his gaze is dim.

"Oh, voila! Vhen ze ruffians were preparing ze boat for her, Madame whispered in my ear: 'Tell my husband to look in ze third drawer of ze cabin locker.'"

Before the last words have left the Frenchman's lips, the American is down the companionway and has torn open the drawer indicated. He hurriedly tosses aside the contents and produces a note, the superscription of which, in the dear hand he knows, makes him falter. It is simply addressed: "Mr. Burton H. Barnes," and reads:

My Darling Husband: I have little time to write, for they are preparing to take me on shore in a boat. We are now anchored off Corsica somewhere.

Last evening, through some careless message of Thompson misinterpreted by my own eagerness, I came on board the yacht alone, thinking you had gone there before me to avoid some encounter with Danella that might delay our wedding trip. A boat was waiting for me at the landing place. In the darkness, during the short hundred yards to the yacht, I noticed nothing suspicious in the oarsmen, probably because my thoughts were so entirely of you.

Flying into the cabin, expecting to meet you, I heard the doors close upon me and a voice in Corsican French say: "She is ours!" Then the slipping of bolts outside told me I was a prisoner. No cries of mine or commands were heeded. The yacht got under way.

Ah, what a night I've passed here in this cabin that should have been our honeymoon home, thinking of your misery when you found you had lost me.

But knowing by your love that you will pursue and find me, I send you this warning, which is of great importance.

I have learned by some careless French conversation that has drifted in to me that I am to be made the lure to bring you to the death of the vendetta in Bocognano. To me Saliceti has boasted that they have notified you they take me to Corsica. They are sure your affection for me will make you follow me, rash and careless in your agony. There Saliceti means to assassinate you, thinking by that to gain the votes of his peculiar countrymen because he has nobly fulfilled his diabolical oath of the horrible vendetta that they worship. Therefore, by your love for me, my husband, I charge you not to risk your dear life unduly, and to bring with you enough friends to protect you from these assassins. I hear the splash of the boat put overboard; they will be coming for me, so kiss the letter where I sign and you'll meet the lips of, in life or death, always, YOUR WIFE.

Barnes reads this letter carefully twice. Once he gazes up; but the sight of the cabin decorated for his honeymoon, about which are scattered his wife's dainty belongings brought on board for a nuptial voyage, makes him close his misty eyes with a shudder.

Leboeuf is now calling down the companionway: "Monsieur, I have obeyed your wife's commands. A good meal is served on deck for you and Madame Anstruther."

He must eat to keep his strength up for the work that is ahead of him. The American steps alertly on deck and

"We Have the Beasts for a Week at Thirty Francs Apiece."

tries to show his appreciation of the French chef's art, but anguish is a bar to appetite.

After a moment Barnes passes Enid's letter over to Edwin's wife. When she has read it, he says: "I have been thinking if it wouldn't be better to sail to Ajaccio and get De Belloc and some of his troopers to go with us to Bocognano."

"With De Belloc and his troopers you would never find her," answers Marina. "The sight of their cavalry uniforms would be signalled up the Valley of the Gravona; Enid would not be in Bocognano. In the mountain fastnesses of Del Oro they would hide her where you would never find her."

"Then some honest countrymen, from this neighborhood; they can be hired?" suggests Barnes.

"But not by a foreigner to strike against a Corsican," replies Marina, almost proudly. "To have any hope of finding your wife we must go alone. I'll lead you by secret paths through the mountains; on the main road did they see you coming they would ambush and kill you." Her eyes look eagerly upon the shore, she rises and says, resolutely: "Come!"

Barnes, more eager than she, quickly dresses himself in the simple hunting suit he has brought with him.

"Oh, you must look more Corsican," cries the girl, and deftly puts a cock's feather plucked from one of his bride's bonnets in his hat. "Some soot, Felix," she commands the cook, "to make Monsieur's eyebrows darker and his moustache black."

"Yes, that's it!" she adds eagerly.

"And you?" asks Barnes placing his eyes on Marina's white Parisian fete dress.

"Oh, I've brought a Corsican peasant's costume with me," and the lady calls to Graham to bring on board a little bundle she had left upon the deck of the fishing smack.

Then Marina runs down the companionway and secludes herself in the salon while Barnes gives his directions to Graham. "You had better return that fishing boat to Villefranche by two of your crew."

"Yes, even a land lubber can sail her across in this fine weather without any trouble," answers the mate.

"I am sorry, my gallant fellow, I cannot take you with me," says the American; "only Marina and I must go."

"Hoot, man! not lone wi' that delicate lassie."

"We are safer alone than with a few," replies Barnes. "But have the yacht ready to sail and a sharp lookout kept for me. During the night have a boat ashore there with a couple of men in it, so that, if necessary, I may immediately come on board of you."

"Aye, aye! Night and day I'll look for you," answers the mate.

"Now, bring the boat alongside."

"Not yet, Monsieur," cries Leboeuf, issuing from the galley, "not without something to eat, to support you and Madame," and he produces a big haversack filled with provisions.

"You're right. By evening we shall be hungry, if not before," answers the American, "and it will be best to avoid as much as possible native inns." He calls: "Madame Anstruther, I am ready!"

"And so am I." And Marina trips to the deck, a peasant girl of her island—her dark brown tresses shaded by the graceful mandile and a faldetta of grey cloth draping her agile figure. Her short skirts disclose her delicate feet shod in strong country shoes fit for use over the stones of mountain paths.

Both are eager. Within five minutes they are in the boat, and pulled by two Scotch tars, soon land upon the rocky shore. As Marina's feet touch the soil, she looks at it passionately and murmurs bitterly: "To think that I come back to my native island with the hands of so many of the friends of my childhood against me, with so many hearts that once turned toward me turned away." Then she draws herself up and says desperately, yet proudly: "But I will show to them my hands are free of the blood of Tomasso Monaldi."

Clambering over the sea-washed rocks, they reach the green woodland, and soon through its soft foliage of Ilex, beech and wild citron, tread a romantic path that leads them to the more dusty highway which skirts the coast, slightly to the south of the little quay of Sagone. This Marina says is fortunate, that they need not excite curiosity by passing through the seaside village to reach the road to Vico, by which they will strike east to reach the vast glen between Monte Rotondo and Monte Del Oro.

A little while along this road, roasting beneath the hot sun and stifled by the dust of early summer, when Marina says, pointing to a farmer's house: "Stay here and I'll bargain for the use of two of the native ponies I see in his barnyard."

A few minutes of apparently excited gesticulation and talk with the peasant who is hoeing in his field, and she brings into the road two sturdy, shaggy brown ponies.

Mounting astride one of these, Corsican fashion, Marina says almost gaily: "We have the beasts for a week at 30 francs apiece. Now I feel at home again."

Upon the other Barnes would dash forward, but some very serious words from his companion stop him. "It was lucky I saw that farmer. He said: 'I would give you a more gentle beast, girl, had not four men three hours ago engaged my gentle Mandalina for a lady's use. Of course, my best was at Signore Saliceti's order. I had heard him speak up in the mountains at the polling booth great words on the glory of Corsica, which had given France a Bonaparte and one day would give her another.'"

Suddenly the girl calls: "But you cannot overtake Enid in a second," for the American's heels are beating a tattoo on the sides of his sturdy little cob, and he is hurrying forward muttering: "Three hours ahead of me. Perhaps we can overtake my darling before night!"

"Don't ride so fast," exclaims his companion, galloping her pony to him. Then her voice growing very solemn, she says warningly: "From some hilltop, should we get too near, they will see us coming, and in a vendetta ambush, some knife might reach not only your heart but—Enid's. When you have enemies in Corsica, beware the path ahead of you!"

MACHINE WAS ALL RIGHT.

Figured So Well Merchant Decided That He Needed Two.

"Sir," said the man as he entered the office, "I wish to exhibit to you my universal calculating machine—a thing that should be found in the counting room of every business man. It will add, subtract, divide, multiply, and there is no such thing as failure." "I have heard of it," replied the merchant, "but I never understood it was much of a success." "O, sir, but it is perfection! Give me any example you will, and I will guarantee a correct solution." "Very well. I bought two dozen leghorn chickens at $3 each. I built a coop at an expense of $30. In one year I bought $25 worth of feed. In the same year I got six eggs. What was my profit or loss for the year?" "Why, you paid out $127 and got back about 20 cents. In actual figures, your loss was $126.80." "I guess that's correct," sighed the merchant, "and you may leave me two machines. I'll keep one busy on my chickens and the other figuring out how much profit I make in raising my own celery and cucumbers."

QUITE A NEAT EVASION.

Pastor Could Not Be Drawn Into Giving Direct Testimony.

The wealthy parishioner had with him his pastor, and miles of road were thrown into clouds of dust by the plunging automobile. "Halt!" commanded the officer, but no more attention was given to him than to the flitting telephone poles. Over those poles, however, sped a message, and at the next crossroads a barrier was encountered and also another representative of the law. "Not only did he break the speed law," complained the constable, when the party had assembled in court, but he also told me to go to the devil." "You lie," thundered the wealthy parishioner, "I never used such language." "We must protect our officers from profanity," intoned the justice. Then turning to the clergyman. "Perhaps this gentleman, who will not make a misstatement, will tell us whether or not the devil was mentioned in this controversy." "Your honor," pleaded the clergyman, "I and my brethren refer to his satanic majesty so frequently that any additional allusion to him would not impress itself upon me sufficiently to remember the incident."

The Love Note in Fiction.

There is something irritating and at the same time fascinating in the dominance of the note of love in western novels. Few have not felt at some time in their lives the responsive echo in their own natures even to the crudest love story; passion in some degree is universal; we are all involved and there is no escape; hence the novel, no matter of what materials it is built up, pays tribute to the primary law of man's nature by giving precedence in finality to love.—Parsi, Bombay.

Millions in Oats and Barley.

Nothing will pay you better for 1908 than to sow a plenty of big yielding oats and barley with oats at 40c to 50c a bu. (Salzer's new Emperor William Oats averaged 50 bu. per acre more than any other variety in 1907) would pay immensely while Salzer's Silver King Barley which proved itself the biggest yielder at the Wisconsin Agricultural Station during 1907 if you had planted 50 acres would have given you in 1907 just $3,500.00 on 50 acres. It is an enormous yielder.

JUST SEND THIS NOTICE AND 10c to the John A. Salzer Seed Co., La Crosse, Wis., and we will mail you the only original seed catalog published in America with samples of Emperor William Oats, Silver King Barley, Billion Dollar Grass which produces 12 tons per acre. Sainfoin the dry soil luxuriator, etc., etc., and if you send 14c we add a package of new farm seeds never before seen by you.

HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases.

Mrs. Norman R. Barndt, of Allentown, Pa., writes:

"Ever since I was sixteen years of age I had suffered from an organic derangement and female weakness; in consequence I had dreadful headaches and was extremely nervous. My physician said I must go through an operation to get well. A friend told me about Lydia E. Pinkham's Vegetable Compound, and I took it and wrote you for advice, following your directions carefully, and thanks to you I am today a well woman, and I am telling all my friends of my experience."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

German M. E. Church Items

Clara Griewe and Lurena Wessel were "gripping" the first of the week.

Nearly all of Mr. Blank's family were sick with the "grip" last week.

Mrs. Wessel was in Garner Wednesday to have some dental work done.

Emil Beier returned Tuesday from a two weeks visit in Waterloo. Will Lemke attended to his work during his absence.

J. J. Stille was in town Tuesday with about a dozen of his neighbors, hauling out lumber for a new barn which he will erect on his farm this spring.

We are pleased to report that J. E. Stille's little boy is improving. Mrs. Stille was able to get to church last Sunday for the first time in many weeks, which was a treat to her and all were glad to see her out.

August Wenz went "through" the State's University at Iowa City last Saturday and returned Tuesday looking all the wiser. He also took in the dedication exercises of the $75,000 M. E. church at the same place. On his return trip he stopped off a day in Waterloo.

A stereoptican lecture on "India in Transition" will be given in Klemme Saturday evening and Germantown Sunday evening. A very interesting story will be told while 100 views will cross the canvas, representing customs, sceneries, sacred temples, innumerable Gods and "Holy Men," high cast, low cast, out cast, superstition, misery, crime, the degradation of women etc. No admission, but a collection will be taken.

On account of sickness Henry Griewe's S. S. class did not give their program last Sunday night, Geo. Gruetzmacher preached instead. They will give their program this coming Sunday evening. The following numbers will be given, besides the opening exercises and choir songs

Deolamation—Sarah Ludeke.
Duett—Esther Gruetzmacher and Meta Stork.
Reading—Mary Griffen.
Solo—Esther Gruetzmacher.
Declamation—Martha Lau.
Class prophesy—Meta Stork.
Duett—Hulda and Esther Gruetzmacher.
Address—Mr. Griewe.
Trio—Meta Stork Hulda and Esther Gruetzmacher.

The Troubadours pleased a large and enthusiastic audience last Monday evening. The singing and dancing was given with the dash and spirit which charterizes the colored people. Mr. McCabe and his wife gave a charming sketch entitled "the Octoroon and the Octocoon." Miss Cassie Busch the lady baritone sang "Asleep in the Deep" and with Mr. Matt Turner rendered a sketch concluding with an Indian dance. Mr. Turner is a funny end man and Mr. Tom Scott is a clever dancer. The two little McCabe boys, Rudolph and Willie were extremely cleaver and Miss Julia Walton and Miss Edna McCabe both did creditable work. The show was given under difficulties as the size of the hall hindered the use of the special scenery the company carries, but it is safe to say every one was well satisfied.

AS IN WASHINGTON'S DAY

Fraunce's Tavern Restored to Its Old-Time Aspect

WASHINGTON might recognize the exterior of Fraunces' Tavern should he ride down Broad street, New York, in these days, but once inside there would be a number of details which would be novel to him. As he entered the "Colonial" hall he would see waiters in modern bob-tailed evening coats flitting about earning honest tips. Instead of being permitted to climb the stairs to the "Long Room," where he bade farewell to his officers after the close of the revolution, he might be invited to go up in an elevator. Passing the "tap room" on his way to the elevator, possibly he would be urged to try a cigar, "best Virginia leaf." His eyes, accustomed to guttering candles, would be astonished at the steady glow of electric lights, and, doubtless, he would want to know more about the way in which Franklin's lightning could be secured on a clear day for use in lighting. His quick ear would detect the click of the typewriter as he stepped through the passage toward the "Long Room," although he might not recognize the origin of the peculiar noise, and he would be mystified at the spectacle of a man talking into a telephone receiver.

Fraunces' Tavern, "the oldest landmark" in New York city, comes into the public eye now more because on December 4, 1907, the 124th anniversary of Washington's farewell to his officers in the big dining room of the old inn, the restored building was formally turned over by the committee having the restoration in charge to the owners, the Sons of the Revolution, and two tablets were unveiled. The reception to the guests was held in the hall of the Chamber of Commerce after the tablets were unveiled. One of the tablets was attached to the wall of the famous "Long Room," in which Washington's historic and touching farewell to his comrades and assistants occurred, and the other affixed to the exterior.

The history of the building is concisely told on the tablet placed in the "Long Room." It reads:

"Fraunces' Tavern, erected 1719; Queen's Head Tavern, 1762; Chamber of Commerce founded here, 1768; headquarters of Committee of Correspondence of 51, 1774; this room the scene of the farewell of Gen. Washington to his officers, December 4, 1783; Sons of the Revolution reorganized here December 4, 1883; the property purchased by the Sons of the Revolution in the state of New York, 1904; formal occupation taken by the Sons of the Revolution, December 4, 1907."

W. H. Mersereau, the architect who made the restoration, after much investigation of all the evidence drew the design which has been realized in the building as it stands to-day. It is now supposed to look as it appeared when Washington visited it, and all of the bricks and timbers remaining of the building which was known as Fraunces' Tavern are still in the places they then occupied.

The restoration is based on an advertisement printed in 1775 in which Fraunces offered his inn for sale and described it as "three-stories high with a tile and lead roof, has 14 fireplaces, a most excellent large kitchen, fine dry cellars, with good and convenient offices, etc." The earliest picture of it is dated 1854. This showed the building as it appeared after its recovery from the damage caused by the "great fire" of 1835. In the same year it was again visited by fire. This time the "Long Room" was burned out, and the wall on the Pearl street side above the second story fell outward. When the building was restored this time it was made five stories high with a flat roof, and, barring the saloon on the ground floor, looked as it did until the recent restoration.

When the building was dismantled for restoration the lines of the old

Fraunces' Tavern, Restored.

roof indicating the top of the walls and the slope and height of the roof were found in the walls. The difference in the bricks in the walls also helped to determine what portion was old and what modern. It will be observed that the wall fronting on Broad street is of thin yellow bricks. These are the same kind as are found in the old Dutch church in Tarrytown. In order to secure an additional supply to fill up the opening on the first floor they had to be made to order in a yard in Holland where bricks of the same size and kind are still made. The bricks on the Pearl street side are red. As they are an inch longer and somewhat thinner than the bricks made to-day it was only by searching through many yards, tape measure in hand, and picking up abnormal bricks that enough could be secured to "piece out" the original wall. By such means the old building was put back into a shape that would probably be recognized by "Black Sam" Fraunces if he should appear to-day.

LAID IN ROYAL TOMB

FINAL ACT IN BLOODY TRAGEDY OF PORTUGAL TAKES PLACE.

FUNERAL IS IMPRESSIVE

Manuel and the Queens Unable to Follow Coffin on Foot—Franco Arrives at Bordeaux.

Lisbon.—The simple but impressive funeral services Saturday were the final act in the bloody tragedy of the royal family. All the arrangements for the solemn march through the city and the ceremonies at the Church of San Vincente were carried out.

Although it is the ancient custom in Portugal for the new sovereign to walk behind the coffin of the dead monarch, as King Carlos did when his father was buried, neither of the queens nor the boy king was able to endure this trying ordeal. Additional troops were brought into Lisbon to accompany the cortege and line the route of march.

Many Floral Tributes.

The last of the special foreign missions to attend the funerals arrived in Lisbon Friday night and hundreds of floral tributes were received at the palace. Practically every government was represented. Charles Page Bryan, the American minister, sent two wreaths, one to King Manuel, with expressions of the most profound sorrow of President Roosevelt and the American people, and the other to Queen Amelie, conveying the heartfelt regrets of the American nation. The bodies of the king and the crown prince were viewed by the members of the diplomatic corps Friday afternoon as they lay in the royal chapel.

Every hour during the day masses were said at the altars in the palace chapel and, according to tradition, priests prayed before the caskets, sprinkled them with holy water and burned insense. The principal mass of the day was celebrated by the Papal Nuncio. It was attended by King Manuel and Queen Amelie and the members of the diplomatic corps in uniform and the gentlemen and ladies of the court.

Franco at Bordeaux.

Bordeaux.—Senhor Franco arrived here Friday. The former premier of Portugal brought a large amount of baggage with him. A group of newspaper men awaited him at the station, but when they stepped up he waved them away with a gesture of weariness and ignored the questions they asked him. He walked quickly to his hotel.

The face of the man is haggard and he appears to be pre-occupied. He looks constantly to the right and to the left, as if he felt he should be prepared to forestall some impending physical danger.

Senhor Franco told the manager of the hotel that he would remain over night, as he wished to change his Portuguese money into French money, having none of the latter. He did not say where he purposed going Saturday. The hotel was guarded all night by the police.

ICE DEALERS SENT TO JAIL.

Three Prominent Toledo Men Given Six Months.

Toledo, O. — Roland Beard and Compton Leaman of the Hygeia Ice Company and Joseph Miller, manager of the Toledo Ice and Coal Company, were Tuesday sentenced to six months in the county jail and to pay costs of prosecution by Judge Kinkade for conspiracy in restraint of trade.

These men were found guilty last July and at that time Judge Kinkade sentenced each of them to six months in the workhouse and to pay $2,500 fine. The case was appealed and a few days ago the supreme court handed down a decision declaring the convicted men could be sent to jail, but not to the workhouse. They were remanded to the common pleas court for resentence and while the fine was not assessed the workhouse sentence was changed to the county jail.

No further effort will be made in behalf of the defendants. They at once began their term of sentence. All the men are of prominent Toledo families.

Shoots at Train, Wounds Woman.

Elevator at Storm Lake Burns.

Storm Lake, Ia.—Wagner's elevator was completely destroyed by fire Friday afternoon. The building contained about 15,000 bushels of oats and a carload of flour and feed. The total loss is about $70,000.

SON SLAYS JUDGE HARGIS

NOTORIOUS KENTUCKY FEUDIST KILLED AFTER QUARREL.

Victim Long Prominent in Politics and Had Been Accused of Complicity in Many Murders.

Jackson, Ky.—Former County Judge James Hargis, for many years member of the state Democratic executive committee, accused of complicity in many murders and a prominent figure in the feuds which have disrupted Breathitt county for several years, was shot and instantly killed in his general store here about 3:30 o'clock Thursday afternoon by his son, Beach Hargis.

The son fired five shots in rapid succession at his father, who fell dead while his clerks were waiting on customers.

The exact cause of the murder has not been learned, but it is supposed to have been the result of differences which have existed between father and son for some time. The two men are reported to have had a severe quarrel several months ago, when the father, it is alleged, was compelled to resort to violence to restrain his son.

Young Hargis, it is said, has been drinking heavily of late. He came into the store late in the afternoon and was apparently under the influence of liquor. Judge Hargis, it is said, spoke to his son about his drinking and a quarrel resulted. Father and son stepped behind a counter in the store, when the son, after only a few minutes' conversation, drew a revolver and fired five shots. Four took effect, the noted mountain character falling dead. The young woman stenographer and the customers in the store rushed for the doors and fled in fright.

Young Hargis was arrested by the town marshal and Grover Blanton and placed in jail. He was raving like a maniac and the officers were compelled to drag him to jail.

Judge Hargis had been for years a prominent figure in Kentucky in political and criminal circles. He had figured in the courts in the mountains for years on account of the murders of Dr. Cox, Attorney Marcum and James Cockrill.

NIGHT RIDERS TERRORIZE.

Destroy Tennessee Barns and Wound Several Persons.

Adams, Tenn. — Night riders, well armed and mounted, visited the farms of Hugh C. Lawrence and Wash T. Vicker, within three miles of this place, destroyed the barns on both farms, together with 20,000 pounds of tobacco, shot and wounded Lawrence and his son Bradley Lawrence, and whipped a negro named Motlow unmercifully.

The riders first visited the farm of Lawrence. He and his son were in the barn loading their tobacco on wagons and heard the night riders coming. They came out of the barn and started toward the house, and when within 15 or 20 yards of the house they met ten or a dozen of the riders and at once opened fire on them. They returned the fire, wounding Lawrence in the cheek and hand, and his son in the leg.

The raiders retreated at the Lawrences' first fire, but rallied with some ten or fifteen reenforcements and renewed the attack, firing 70 or 80 shots through the windows of his house, where he and son had retreated after emptying their weapons. The Lawrences returned the fire, but no casualties occurred. Mrs. Lawrence, who was in the house, narrowly escaped being struck by the flying bullets.

Caid MacLean Is Released.

Tangier.—Caid Sir Harry MacLean, commander of the sultan's bodyguard and next to the sultan the most influential man in Morocco, has arrived here under an escort from the Bandit Raisuli, who has held him under bondage for the past seven months.

He was brought here in accordance with the agreement which the British government finally succeeded in making with Raisuli for his release, in return for which Great Britain will pay $100,000 to Raisuli and guarantee him protection and immunity from arrest.

Country in Grip of Storm.

Chicago.—A sleetstorm which turned to rain Wednesday seriously affected telegraphic communication between Chicago and many outside cities, especially in the west. St. Louis, Omaha and Kansas City were entirely cut off from the east during the early hours by a sleetstorm which surrounded St. Louis and extended into Iowa. In Chicago the storm affected much of the transportation in rush hours. Electric railroads were the principal sufferers.

Public Printer Suspended.

Washington.—President Roosevelt Wednesday temporarily suspended as public printer Charles A. Stillings and appointed William S Rossiter temporarily to fill the duties of that office. The action, as explained officially, is to facilitate the investigation now being made of the government printing office by congress.

WAR IN NEAR EAST

RUSSIA AND TURKEY ARMING FOR INEVITABLE STRUGGLE.

DUMA VOTES APPROPRIATION

Slavs Mobilize 60,000 Soldiers and Turkey Has 100,000 on Persian Border—Austria Involved.

St. Petersburg, Feb. 9.—The Russo-Turkish relationship has reached a crisis. Alarmed at the unchecked Turkish penetration of Persia and mobilization in Armenia, the Russian government has dispatched a compact expedition of 60,000 select troops from central Russia with full war equipment to the frontier.

The war office has drawn up plans of the expedition and submitted them hurriedly for legislative enactment to the duma Friday. The committee on national defense assembled in virtually a closed session and unanimously voted money necessary to carry out the plans. At the same session the war department obtained sanction for a further item of $10,000,000 to create floating batteries along the Baltic coast which, owing to the weakness of the navy, is at the mercy of Germany.

Rome, Feb. 9.—The situation in the Balkans which suddenly has attracted attention here through the reported recall of Price Urusoff, Russian ambassador to Austria-Hungary, seems to be graver than official statements make it appear. Austria and Germany charge that Russia is trying to obtain revenge for her failure in the far east by turning her attention to the near east and is resuming her ancient traditional hatred against Constantinople.

It is further asserted by officials of these governments that Russia is helped in this above board by France and secretly by Great Britian, the latter thus opposing German influence.

Russia has emphatically declared that it would be impossible to tolerate the carrying out of the proposed plan for the construction of railways in the Balkans as announced by Baron von Aehrenthal, the Austro-Hungarian foreign minister, as it would mean under the guise of commercial interest a practical Austrian supremacy throughout the Balkans. Indeed, it would mean Austria's reaching Salonika, and Russia remarks this would be equivalent to having Germany at Saloniki.

It is believed here that the conflict will not be between Russia and Austria, but between Russia and Turkey, the latter being accused of favoring the Austrian plans under German influence.

The Populo Romano chronicles the rumor that a Russo-Turkish war is likely to occur in the spring. Turkey has been making preparations, for she now has in Armenia 100,000 of her best troops, officered to a great extent by Germans.

CARLOS AND LUIZ AT REST.

Vast Concourse Lines Streets of Portugal's Capitol.

Lisbon, Feb. 9.—With the church bells tolling continually, the bodies of the murdered king and crown prince in two golden chariots, shrouded in black velvet and drawn by eight hooded horses, were escorted by a glittering funeral pageant yesterday across Lisbon to the Portuguese pantheon and laid at rest beside their ancestors of the Braganza dynasty.

Seven hours elapsed from the time the foreign princes and the special ambassadors and all the peers gathered at the palace for the ceremony until three salvos of the twenty-one guns, and the three volleys of musketry, sounding over the terraced hills and answered by the British warships in the harbor, announced that the last rites were over.

Not a single untoward incident marred the last act of Portugal's tragedy. The vague forbodings proved baseless and there is a general feeling of relief that all passed well in view of the political turmoil. The great outpouring of people along the line of procession was noteworthy. They packed the pavements, crowded the windows and choked the side streets. While evidence of deep and popular sorrow seemed to be absent, many stood with uncovered heads and nowhere was actual disrespect witnessed.

Troops gathered the streets and were massed in numerous parks and plazas along the route; all shops and cafes were closed and shutters covered the windows of the ministerial buildings of the Praca Do Commercio, where the king and crown prince were assassinated a week ago.

ROOSEVELT GIVES LIE.

Denies Using Federal Patronage To Boost Taft.

Washington, D. C., Feb. 10.—President Roosevelt yesterday made answer to the recent public statements that he has made use of federal patronage to further the presidential interests of Secretary Taft. The answer is in form of a letter addressed to William Dudley Foulke, of Richmond, Ind., and includes a letter from Mr. Foulke to the president, suggesting the need of such a statement. The president begins by characterizing the charges as "false and malicious." He follows this with an analysis of all appointments sent by him to the senate to show that in no case has the proximity of a presidential contest influenced his actions.

SHE COULD NOT WALK

For Months—Burning Humor on Ankles —Opiates Alone Brought Sleep —Eczema Yielded to Cuticura.

"I had eczema for over two years. I had two physicians, but they only gave me relief for a short time and I cannot enumerate the ointments and lotions I used to no purpose. My ankles were one mass of sores. The itching and burning were so intense that I could not sleep. I could not walk for nearly four months. One day my husband said I had better try the Cuticura Remedies. After using them three times I had the best night's rest in months unless I took an opiate. I used one set of Cuticura Soap, Ointment, and Pills, and my ankles healed in a short time. It is now a year since I used Cuticura, and there has been no return of the eczema. CARE OF THE KITCHEN.

Clean Walls Are an Essential to Sanitary Cooking.

It is not only important to know how to cook, but it is equally important to know where to cook. Cooking in a dirty kitchen can never produce good food. The idea is simply preposterous, yet kitchen walls are left for months—sometimes for years without cleansing.

In the first place the kitchen wall should have a light tint that the merest fleck of dirt can be seen; that the sheerest cobweb can be brushed away; that the tiniest water bug can be discerned. It is all folly expecting clean food in a kitchen with dirty walls.

Never put a wall coating on a kitchen wall that is mixed with hot water or that has glue in it, or sour milk in it if mixed with cold water. Glue walls made from horses' hoofs colored up with cheap colorings do not indicate good housekeeping. The glue is constantly flecking off, falling into the food and the idea of food flavored with glue made from horses' hoofs is not appetizing.

Kitchen walls to be thoroughly satisfactory should be alabastined the same as every other wall in the house. They should be coated regularly in the spring and fall of each year with a light tint.

The care of the pantry requires constant attention. The walls should be brushed over every year, the dishes removed from the shelves which should be thoroughly wiped with hot water. If there are ant holes or any other insects in the pantries a thick putty of the wall coating can be made and all the ant holes, even small mice holes can be filled with it which will protect the pantry from the incursions of disagreeable insects and mice.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good!! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

EASY MEANS OF ATTAINING A GRACEFUL FIGURE.

Simple Exercise Recommended by a Famous Physical Culturist—Mistakes of Beginners.

An English physical culturist has invented some exercises which he calls the empire exercises. He took them to Paris, but he found that the women there did not need them. And now he has sent them to this country.

These exercises, gathered together briefly, are these: They are called the empire exercises, and they are for the reduction of the belt line. Only this, and nothing more, unless one is full in the throat, when there are exercises for making the throat smaller.

Most people practicing the empire exercises will tighten up the belt. But this is not the way. The belt should be very loose to give the waist muscles full play. The corset should be taken off while one is exercising.

The empire exercises are simple enough. Put on something loose and do this: Step forward and sink upon knee. Regain your position and step forward with the other foot and sink upon the other knee. One foot goes

forward and the other knee bends. That is the way to do it. The rule is to keep on until you are pretty well tired out.

The English instructor advises moderation. He says amateurs do too much in the beginning, and the result is a serious relapse. They get so tired that they take to the couch, and then there is no more exercise for weeks and months. Maybe the disgusted beginner gives it up forever.

The next of the empire exercises consists in bending from side to side. This is hard enough, and most likely a strain upon the muscles. But the enthusiast can take hold of a chair by way of assistance, and not bend too far either way. The idea is to bend the body until it feels supple. The more one bends in moderation the better.

The neck must be small if one is going to get the empire figure, and next winter one must have this figure, even though one does not plan to wear an empire gown. All dresses are to be a little shorter in the waist line, and not a word is heard about the straight front.

The Child's Viewpoint.

Percy Alder, M. P., of London, told an amusing story of a small girl at a recent meeting of the Children's Happy Evenings association. The child had been sent away to the country for a holiday, and questioned as to what in all her holiday had pleased her most, this little slum maiden, whose London home adjoined a waste piece of land, replied: "Seeing no dead cats."

Birds Not Afraid of Man.

Among southern African birds which manifest wonderful tameness is the Cape wagtail, which not only penetrates to the living room in search of flies, but will pick them from the old Boer's velschoons as he sits on his stoep, and perch about his chair.

A Complete Defense.

An Irish woman was accused of having stolen an iron soap kettle and cracked it, so that its usefulness was ended.

Her defense, when brought before the judge, was as follows: "Oi have witnesses here, yer honor, t' prove, 'rst, that Oi niver had th' kittle in me 'ssession; second, that Oi returned t' Mrs. Casey widout a crack in it; 'd, third, that th' old kittle was acked whin Oi sthole it."

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

For Weak Kidneys, Backache, inflammation of the bladder and all urinary troubles DeWitt's Kidney and Bladder Pills are unsurpassed.

IDEAS FOR THE HOSTESS.

Some Novel and Simple Ways to Entertain Guests.

A Handkerchief Shower.

This affair for a prospective bride was arranged in a very clever manner. Twelve intimate friends were invited to luncheon with the request to bring the gift "mouchoir" rolled up into the smallest package possible. Before going to the dining-room the hostess took all the packages and disapepared. When luncheon was announced, with one voice the guests exclaimed "how pretty." Suspended from the chandalier there was an inverted Japanese umbrella, from each rib there was a smaller umbrella and from this hung by ribbons there was a gilded watering can the sprinkler of which had 12 holes with baby ribbons of different colors coming out. At the end of each ribbon there was a tightly rolled package. The effect was lovely. The place cards were miniature "Jap" parasols with the cards tied to the handles. The candle shades were ornamented with these same tiny parasols and small lanetrns filled with candied puffed rice were at each place. The mint sherbert, which was the dessert, had smilax twined around the tall glass with another little umbrella in the top of the glass.

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. MADMAN RUNS AMUCK.

City Physician Miller of Des Moines Critically Wounded.

Des Moines.—Shot through the right lung by M. E. Davis, who had previously wounded his wife, Dr. J. E. Miller, city physician, lies in a dangerous condition at Mercy hospital. Although exceedingly weak, Dr. Miller may recover.

Mrs. Bessie Collins-Davis is at the Methodist hospital with a bullet in her right leg just above the knee. Her condition is not considered serious.

Davis, who used a 22-caliber Marlin repeating rifle to shoot down his two victims in cold blood, was captured by the police after they had stormed the house in which he had barricaded himself. He is lodged in the city jail.

Davis is a druggist at Ninth and Center streets. He came home, attempted to shoot his wife, but because of the interference of a neighbor, Mrs. Stella Banks, succeeded in merely wounding the woman. It was then that the police were notified and Dr. Miller went with the officers to the scene of the shooting for the purpose of taking care of the wounded woman. Davis had barricaded the doors and windows with furniture and shot Dr. Miller from an upstairs window in the dark and without warning. The ball lodged in the doctor's back after entering the breast and passing through his body. A few minutes after the shooting Dr. Miller, Davis was captured at the point of half a dozen police revolvers.

While is was first supposed that Davis was crazed by drink he now declares that he was mad at his wife, whom, he declares, he loved too much. He says he at first determined to kill all who came for him but is glad now he changed his mind.

Dr. Miller's condition is critical. The bullet has not been located.

A $40,000 COAL BILL.

Suit Is Filed Against the City of Dubuque.

Dubuque.—An echo of the water works scandal was neard when the Martin Strelau company, dealers in coal, served notice on Mayor Schunk that they demanded payment for a coal bill of approximately $40,000. The debt was contracted by the old trustees of the water works and had been kept under cover by the trustees until it grew to the dimensions stated. The city has steadfastly refused to pay the account and it is not unlikely that the old trustees and their bondsmen will be drawn into the litigation.

A hot fight is promised when the case comes to trial. The mayor declares that the account will never be paid with his sanction. The old trustees have been deposed and the old superintendent is in the penitentiary for embezzlement.

LID FOR BURLINGTON.

Attorney General Byers Orders Enforcement of Law.

Burlington.—County Attorney Kuhlemeier has received a letter from Attorney General Byers ordering him peremptorily to enforce the mulct law in Burlington in its fullest provisions. A failure to comply with this demand, the attorney general threatens, will mean the ousting of Mr. Kuhlemeier from his office.

Mr. Kuhlemeier said he would take the matter under advisement and that he was not prepared to state at the present time what action he would take. The mulct law is being partially enforced under a compromise agreement in this city at the present time.

FOUR IN NEW HOSPITAL.

All Are Said to Be Making Excellent Headway.

Iowa City.—Although opened but a fortnight ago, Dr. Kirschner, of the Iowa State sanatorium, has received many applications for admission to the institution, and it is expected that a number of new patients will be received this week. A number of applications have been turned down, as the invalids did not come within the limits prescribed by the state.

Four patients, who have been in the sanitarium since it opened, are making excellent headway, says Supt. Kirschner. One of them has gained weight to an avearge of over a pound a day. All are sleeping out of doors and are living on eggs and milk.

Knife in Iowa City Fight.

Iowa City.—A drunken row in a shanty ten miles west of Iowa City almost ended in a tragedy. Three neighbors—August Rexelius, August Kramer and Adolph Bauch—had been drinking in Bauch's house and got into an altercation. In the fight Kramer was slashed on the hand with a knife, although the other two deny inflicting the wounds. Bauch was also battered up, while Rexelius denies being implicated in the fight. All were brought to Iowa City and lodged in jail pending an investigation.

IS FOUND MURDERED.

Divorced Wife of Creston Merchant Finds Body.

Creston.—Lying dead in a pool of blood with a bullet hole through the left jaw severing the jugular vein, N. Z. Taylor, a confectionery merchant, was found in his apartments in his store building shortly before 8 o'clock p. m.

The discovery was made by Taylor's former wife, from whom he had been divorced only a few months. She reported the murder to the police, who made an immediate search of the premises but found no clue to the murderer that they have made known. The revolver with which the shooting was done was missing.

According to the officers, the only possible motive for the crime was a personal one; no robbery was attempted.

Taylor and his wife, during their matrimonial experience, quarreled frequently and violently. After their divorce she continued her visits to his place of business and to his apartments and there sometimes quarrels followed. Mrs. Taylor said that she went to her former husband's room to see him when she made the ghastly discovery of his body.

ADMITS KILLING MERCHANT.

Bert Hendersliter, Mrs. Taylor's Son, Confesses.

Creston.—Bert Hendersliter, son of Mrs. Belle Taylor, and stepson of the murdered man, Nathan Taylor, has confessed that he fired the shots which ended Taylor's life. He did this only after several hours in the sweat box and persistent cross-questioning by the sheriff and police.

He stated that Taylor had illtreated his mother and he took this method for revenge. He produced a watch and chain also which he had taken from the body. The young murderer is hardly responsible mentally and will probably be committed to the criminally insane ward at the penitentiary.

Stephen Taylor was murdered in front of his confectionery store. No clew to the crime was apparent.

The woman has secured a well known criminal lawyer here.

AFTER DRUG STORES.

Said to be Selling Booze at Council Bluffs Fountains.

Council Bluffs.—Candidates for the mayoralty in the coming municipal election are to be quizzed on their attitude toward the druggists who inject wines and other fancy liquors into the drinks sold over their fountains. Some druggists have frankly admitted that they sell liquor in their soda fountain beverages, though denying that the young are permitted to drink them. At any rate, the tip is given out that this feature of the liquor question is to be considered by those who are demanding from the candidates for mayor definite statements on their attitude on law enforcement.

Members of the Ministerial association disclaim any knowledge of the agitation to get the candidates on record in regard to what their policy would be toward the druggists.

KILLED BY STREET CAR.

Awfu Death of Woman Before Eyes of Daughter.

Des Moines.—Mrs. Solomon Grund was cut to pieces and killed by a street car on East Seventh street and Grand avenue, while her young daughter look on, powerless to aid, and Mrs. Meyer Goldenson, who lies at Mercy hospital in a semi-conscious condition, was seriously injured, but physicians hold out hopes for her recovery.

The accdent happened when the women attempted to cross the street and walking behind an eastbound car stepped on the rails in front of a westbound. They were dragged over 100 feet before the car was stopped and backed off of Mrs. Grund's body. Then both were taken to Mercy hospital, where Mrs. Grund died within a short time.

MacKown Writing His Life.

Webster City.—George MacKnown, in jail here awaiting his second trial upon the charge of burning to the ground Webster City's $100,000 felt shoe factory, is spending his time upon a literary effort, which is to be the complete history of his life. MacKown has must literary talent, is finely educated and the volume he is writing would be of deep interest to everyone in Hamilton county. It is not MacKown's nitention, however, to ever put the volume in the hands of a printer, so it is hardly likely that any eyes except his own, and those of his attorneys and one or two other close friends, will ever peruse the pages he is writing.

PERUNA EDITORIAL NO. I.

Dr. Hartman is now offering Peruna to the public as a regular pharmaceutical product. It is just as ethical as any compound put up for the medical profession. No straining of medical ethics can find any fault with it. The PRINCIPAL ACTIVE INGREDIENTS are prominently incorporated in the label on the bottle, that the people may know that the claims made for Peruna have a true justification.

The only departure we shall make from medical ethics in the conduct of Peruna affairs in the future, is the fact that we shall continue to advertise and sell our product TO THE PEOPLE.

If we would agree to sell to doctors only, to advertise for doctors only, then the medical fraternity would be obliged to recognize Peruna as being entirely within their approval.

BUT WE SHALL NOT DO THIS.

We shall continue to offer Peruna to the people. We shall continue to convey to the people our claims for Peruna as a household remedy. We shall continue to supply the people with free literature, teaching them how to use our medicine, teaching them how to avoid disease, teaching them many things of benefit to the home. We shall continue to do this, whether the medical profession like it or not.

We are proposing from this time on to take the public into our confidence. Notwithstanding that some imitators and substitutors will be attempting to put up something which they consider just as good as Peruna, we are going to draw aside the veil of secrecy and allow any one who chooses to know exactly OF WHAT PERUNA IS COMPOSED.

This ought to disarm all honest criticism. We expect, however, that criticism will continue. On some pretext or other those who are envious of the success of Peruna will continue to find fault. But we are determined to please such people no just complaint.

PERUNA IS A GREAT MEDICINE

It has become a household word in millions of homes. Our faith in the remedy is stronger than ever. Every year we expect to establish new plants in foreign lands until the people of all the world are supplied with this valuable household remedy.

People Who Object to Liquid Medicines Can Now Secure Peruna Tablets.

WE CLAIM PERUNA TO BE A CATARRH REMEDY. Buy a bottle and try it. If it helps you, be honest and acknowledge that it has helped you.

If you want us to we will publish your statement exactly as you furnish it to us. We will add no words, take away no words. If you wish us to we will publish your portrait in connection with it. We will not do this without your written request, without your entire consent.

Peruna has cured thousands of people of chronic catarrh, in many places and locations. At least, that is what the people say to us, through unsolicited testimonials. Peruna will cure many thousand more, in spite of fabricated slanders to the contrary.

WE GUARANTEE EVERY BOTTLE OF PERUNA TO CONTAIN THE INGREDIENTS PRINTED ON THE LABEL.

We guarantee that every testimonial we use is absolutely true—in the exact language of the testifier.

We guarantee that every photograph published is the photograph of the person whose name it bears, that every word of every testimonial was authorized by the hand that signed it.

We are determined to beat our opponents by being fairer than they are, by dealing squarer than they dare to. We are determined to meet falsehood with truth, duplicity with candor, insincerity with sincerity.

We know that the users of Peruna will appreciate our stand. We believe that the dealers in Peruna will applaud our course. We expect even our opponents will be obliged to acknowledge finally that Peruna is not only an honest and useful remedy, but one of the GREATEST HOUSEHOLD MEDICINES ON THE CONTINENT.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous feud. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Enid informing him that the kidnaping is for the purpose of entrapping Barnes, so the vendetta may kill him.

CHAPTER XII.

The Mountain Chalet.

Forced to a more moderate pace, the two journey up the winding road between some cornfields made red by poppies. Soon after they pass into the wooded hill lands, their path bordered by myrtles and arbutus.

After a little, the way grows wilder, the hills much steeper, and climbing the lofty Colle di San Antonio they can look down upon hill vistas, beautifully wooded, that descend to the distant sea. In the sunlit gleam of the far-off water, Barnes, using his field glasses, sees the yacht lying alone at anchor. "Graham has sent back the fishing smack," he says.

"Then thank the Virgin," cries Marina, "another letter is going to my husband telling him his disobedient wife is trying to save his sister."

They descend sharply into the little valley of the Liamone, and enter the village of Vico, whose inn is now welcoming the first summer visitors from Ajaccio.

Here Marina says: "'Twould be wrong if I sent not a telegram to my anxious spouse." So they dismount at the little telegraph office peculiar to Corsican villages. As they slip in, a countryman slouches out and mounting a horse rides off up the main street. Her message dispatched, Marina coming from the office, says: "How hurriedly that fellow went away."

"You think he was looking for us?" asks Barnes, as he places her on her pony.

"Perhaps; Bernardo is astute. He may guess that his message to you brought you after him by water and that you would find the yacht."

"Then after him!" says Burton, and turning more to the east they follow a rapid stream, passing the Sulphur Baths of Guagno, where they can see the diligence depositing patients at its hospital for rheumatics.

They have not overtaken the man, but no one has passed them on the road, their pace has been so rapid. The peasants they have seen, so many of them carrying guns that Barnes thinks he is in the Rocky Mountains, have received the usual greetings in the patois of the country from Marina, her escort wisely keeping his sombrero pulled down over his eyes and saying nothing. But now a farmer, pausing, says: "Girl, you and your man had better not go beyond Guagno. Last night the two accursed bandits, Rochini and his mate, killed Nicolo, the sheep grower, up at his house by the lake, and carried off his daughter."

"Thank you for your advice," answers Marina politely. She glances at Barnes, but he scarcely heeds. He is urging his pony toward the mountain pass through which Enid must now be journeying.

"Who is this Rochini?" asks Barnes, to take Mrs. Anstruther's thoughts to happier things.

"He and his fellows are the only bandits of which Corsica is not proud," answers the girl, savagely. "This wretch with his underlings murders men for money. Other bandits only kill for hate or to escape capture by the gendarmes. Also this Rochini drags shrieking women to his lair, while other bandits doff their hats to ladies."

Then as they ride along the Corsican girl gives Mr. Barnes some curious information about bandits.

"This murderous Rochini is not of our commune; he has been driven from Rotondo by the farmers because of his outrages and came over to Del Oro," she remarks, excitedly. "Our own Bocognano bandits, the brave Bellacoscia," Marina's tone is proud, "whose family name is Bonelli, only fled to the mountains to escape pursuit from our cruel gendarmes, because, forsooth, the elder Antonio killed Marc' Angeli, who dared to marry the girl upon whom he had set his heart. The younger, Giacomo, because he would not endure the French conscription, so he slew the brigadier and his men who came to arrest him. Still Antonio Bonelli, when the Teutons overran France, offered to go over and fight the German Von Moltke with his 500 Bellacoscia—brothers, sons, grandsons and nephews—if they would give him safe conduct from arrest. At first Monsieur Gambetta accepted, then he refused, fearing there might be a new Bonaparte among these Corsicans to again save France and rule the country."

"Oh, we are devoted to the Bellacoscia," she continues fervidly. "Every boy by the wayside gives them warning of the gendarmes; every child picking flowers in the mountains tells them of the coming of the brigadiers who would capture or slay them. Though many men and women, some of gentle blood, are placed in prison for aiding them, the authorities never receive information from their lips. But these wretches, Rochini and Romano, are abhorred by all, and blessings would be showered on any who might bring their bodies into Bocognano."

All this has been said as they hurried through the dust and sun for three more miles. They enter the village of Guagno. There is no way of avoiding the hamlet; it stands almost at the entrance of the deep gorge between the two great mountains—besides, the ponies need rest.

"It would be better if we were not seen here," suggests Marina, "though the inn looks comfortable."

"And you must both rest and eat," remarks Barnes, who has noticed that his fragile companion, unaccustomed to the severe exercise of horseback travel in the hot sun and stifling dust, is somewhat fatigued.

They ride up to the auberge, dismount and give their ponies to the care of a Corsican boy, who leads them away.

Entering, they are met by the loquacious landlord, who tells them, as they demand a hurried meal, that business is not very brisk, the season being too early for many invalids at the baths, besides all travellers are kept from the mountains beyond by fear of Rochini and Romano.

"May the curse of God rest on them—they spoil my business even down here," says the hotel man savagely as he goes to bring the food.

"I do not think you had better go with me farther," remarks Barnes seriously.

"What, stand back because a murderer threatens the way to Enid?" cries Marina. "Besides, you can shoot your pistol."

"Then may God curse me if I let harm come to you for your devotion to my wife," returns the American with grateful eyes.

"Then I'm safe," says the Corsican girl simply, who has supreme faith in the deadly marksmanship of her escort.

From the little garden outside, the conversation of two rustics drifts in to them. One is apparently a local wool buyer, the other a shepherd from the neighboring mountain, who is bargaining with him for his shearing.

A moment later their host places the dinner in front of them. "Here are trout from our Liamone, a filch of moufflon killed on Rotondo and some chianti made from the vines outside. Real moufflon, real chianti, besides chestnuts from my own grove!" he remarks proudly, as he arranges their knives and forks.

I Give You Additional Warning, To- night You Must Stay in My Inn.

"You have also a few visitors, I presume, to eat them?" queries Marina, sympathetically.

"Oh, none to-day; there are not enough invalids at the baths; the season is too early. Besides, young Saliceti didn't stop here with his party, but hurried on three hours ago. Does that young statesman expect to get the vote of Vincenzo, the landlord? Not even a drink of wine did he buy. But the reprobate has an eye for beauty if not for political influence. A yellow-haired girl was with him, though his followers kept so close about her I could not see her face. But I give you additional warning. To-night you must stay in my inn. Toward the mountains there is another bandit, an extra one."

"An extra bandit!" Barnes opens his eyes.

"How do you know that?" asks Marina.

"How? Why, even the accursed Rochini and his fellow, who murder men and seize women, never steal from me, who fearing their knives give them wine and warning of the gendarmes; but this new fellow sneaks down at night and eats my chickens May Satan take him, he has the appetite of a table d'hote!"

"Nevertheless, we must risk the unprofessional chicken thief and go to the mountains," says Marina determinedly, as she goes away, attended by mine host, to make preparations for her departure.

Barnes, having five minutes for a whiff, produces his cigar case, but some words entering from the two rustics amid the vines of the garden outside, cause him to forget even his last cigar.

Their trade being closed, they are now discussing local news. "Diavolo," remarks the wool trader, "did you meet young Saliceti on the road?"

"Aye, that I did, three miles above, near the waterfall. To me he said: 'Good Luigi, shall I have your vote for deputy?' 'That you will,' said I, 'great Saliceti, when you perform your oath of vendetta against the Americano who came to Bocognano and by De Belloc's soldiers killed the man who would have been your father-in-law.' 'Then I shall have it,' he cried. 'Just wait here for a couple of hours, and you'll see it done.' But I had to meet you to sell my wool, besides I remembered Rochini and his murderous gun, and so I came along."

"Cospetto, if Saliceti does it, he has my vote also!" cries the wool trader. "The crafty politician must have the Americano trapped somehow. It was rumored that the devil fled with the Englishman whom Mademoiselle Paoli wedded, though he had slain her brother. Santos, may death come to a girl who for lust betrays her race."

To this Barnes listens impatiently but seriously.

"This political hustler wants to sacrifice me on their altar of vengeance, so as to draw their votes," cogitates Barnes savagely. "By the Eternal, he shall have an ox at his barbecue who will disagree with his stomach!"

There is a peculiar glint in the American's eyes as, five minutes later, he places Marina carefully upon her pony, and they leave the inn. He now asks almost lightly: "By the bye, Madame Anstruther, do you know a waterfall some three miles up this path?" For all traces of a wagon road have ended at Guagno, leaving only a little bridle path that runs up the foaming Liamone, which, contracted in its banks, has become a torrent.

Marina thinks a moment; then says: "Oh, yes; I remember a mountain trail often travelled as a girl. But it is very steep."

"Would you kindly show it to me when we come to it?"

(TO BE CONTINUED.)

Butcher's Inference.

One day Emperor Francis Joseph was entering a village in his domain on horseback and was met on the outskirts by a butcher who had gone out in hope of catching an early glimpse of the Austrian kaiser. The emperor asked the butcher the way to an inn, and after directions had been given the butcher in turn inquired: "Have you seen the kaiser?" "Very recently," answered Francis Joseph. "Are you sure? Do you know him certainly?" asked the eager butcher. "Well, I ought to," replied the monarch, puffing out his chest. "I have shaved him often enough." "Ah, and you are the court barber," said the abashed butcher in awestruck tones, as he doffed his cap and backed to the roadside.

Beautiful Eyes.

The almost universal habit of turning the head in whichever direction you look deprives the eye of the exercise to which it is entitled. The law of vision is such that, when your eyes are set straight to the front you can see in almost every direction, except behind your head. Every now and then you see a woman with eyes that seem to roll in their sockets, taking in everything without a suggestion of head movement. Those are the eyes that drive men to distraction. Ox eyes. Honest eyes. Usually brown eyes. Open eyes. Altogether different from the small, ferret eyes of the detective, which pretend to be looking at the ground, yet see sidewise out of both slits.

Wanted the Worth of His Money.

"All we can afford to give you, miss," said the trustee of school district No. 16 to the young woman who had applied for the position of teacher, "is $45 a month." "At that figure, of course, you wouldn't expect me to teach any fads," she said. "Fads?" echoed the trustee, taken slightly aback; "why—h'm—yes, if you can teach it we'll want that, too." "But if it isn't in the curriculum——" "You may as well understand, miss, that we ain't throwin' any money away. The $45 a month is to pay for the whole thing—fads, crickalum and everything else that's goin'."—Chicago Tribune.

The Result of Habit.

"Just think what professional habit will do for a man!"

"In what way?"

"I know a fellow who used to belong to a minstrel troupe, and he says daily custom so hardened his sense of shame, that he never heard mention of the family skeleton in the closet without wanting to rattle his bones."

VOLUMES MIGHT BE WRITTEN

Of the Success That Awaits the Farmer in Western Canada.

The story of wheat farming in Western Canada (that portion of Canada lying north of Dakota and Montana) has been frequently told, but it will stand a lot of telling, and still retain its touch of interest. During the year just closed 277,376 persons made their homes in Canada as compared with 215,912 for the year 1906, an increase of 61,464. Those from the United States numbered 56,551. A writer in "Industry" recently said: "To-day the "Dominion of Canada is witnessing a "mightier movement of population "than ever stimulated a Biblical writ-"er to pen a chapter of Scripture." The same writer says: "From the Rhine "and the Rhone river valleys; from "the port cities of Germany and the "farms of the Fatherland, from the "peasant soil of Russia; and out from "the grimy Lancashire and over-popu-"lated Yorkshire, the discontented "and ambitious of every clime are "seeking to take advantage of the "opportunities afforded by the fertile "soil and exhilarating climate of the "Empire of the North."

Continuing the same writer says: "While a million human beings throng "the shores of the United States every "year, the smaller number arriving in "Canada come with a more well-de-"fined purpose." The question has been asked why do these people come to Canada? The available land between the Mississippi and the Pacific has been exhausted, and the farmers within that territory find that their sons have to seek newer climes. Canada offers one hundred and sixty acres of land free to each. This land yields from 20 to 40 bushels of wheat to the acre. In Southern Alberta, the winter wheat belt of Canada, as high as 60 bushels per acre have been harvested. Less yields than the one mentioned have netted the farmer as much as $35 per acre. There are no words that tell the tale so effectively as those of the farmer himself, the man who has ploughed the fields, sowed the grain, and with folded hands rests while nature, bounteous in that country, in less than three months, placed at his disposal hundreds of acres of ripened grain, now waiting the arrival of the reaper, and therefore we reproduce the following letter.

Any agent of the Canadian government will be pleased to give information regarding the district mentioned or any of any other that may be desired.

E. T. Holmes, Esq.,
Canadian Government Agent,
St. Paul, Minn.

Dear Sir:—

In 1905 I located on a claim about 30 miles from the town of Wadena, on the Canadian Northern Railroad, have lived on my claim most of the time since. I consider this to be one of the best districts in the country for grain growing. In 1906 wheat averaged from 30 to 51 bushels per acre on some of my neighbors' farms, within 4 miles of my claim. Oats go from 75 to 100 bushels. It is also a good country for stock. Where I am there is plenty of fuel. Homesteads nearly all taken the settlement being largely Germans, and Americans, all well-to-do. I left Wadena in February, 1907, returning April 25, so that I missed part of the winter, which the old settlers tell me was one of the worst they ever saw, but there was no suffering, as the people are pretty well fixed, and there are no blizzards in that country, at least there never has been known to be one. Wild land sells at from $10 to $15; closer to town it is higher.

In the summer we have all sorts of wild fruits very plentiful, and I never saw better vegetables, and game is so plentiful a man need not starve for want of something to eat. Plenty of good water too. You need not hesitate to recommend this district, but the homesteads are nearly all taken, most of the homesteaders are living right on their claims.

One to Three at Whist.

The late Senator Hoar was extremely fond of whist, which he played with remarkable skill.

A friend says that the only time he ever knew the usually placid and genial man from Masachusetts to be absolutely impatient was when on one occasion at whist the senator had an unusually stupid partner. Notwithstanding this handicap, the pair were winning right along even against good players.

In the middle of one game, some one paused behind the senator's chair and asked, "Well, senator, how are you getting on?"

"Very well, indeed," was the reply, "in view of the fact that I have three adversaries."—Sunday Magazine.

AT REST.

After a short illness, Mrs. Eliza Adams of Klemme, departed this life on Thursday afternoon, Feb. 13th, 1908 at the age of 77 years, 10 months and 8 days

From her life we quote the following:

Mrs. Eliza Adams, daughter of John and Eva Miller, was born April 5th, 1830 in Center county, Pa. May 4th, 1854 she married Mr. Samuel Adams a physician; they began life in Salona, Pa. and there resited several years, then moved to Lock Haven, Pa. where her husband continued the practice of medicine. In 1872 they moved to Three Rivers, Mich., her husband in this latter place becoming one of its leading physicians The health of her husband failing at Three Rivers they moved to Belmond, Iowa in the fall of 1879 and in Belmond and on their farm they lived until the death of her husband which occurred Sept. 26, 1891. Most of the time thereafter she lived with Mr. and Mrs. Bloom here in Klemme but spent three or four years with her son in Kalamazoo, Mich.

She had four children, one daughter who died in infancy. John W. Adams of Kalamazoo, Mich; Susan Ideela who died at Three Rivers, Mich. aged nine years, and Sarah J. Bloom of Klemme.

She was a woman of remarkable energy, devoted to her house and family, always busy; she believed only in honorable, upright and pure living. She was absolutely unselfish and most self-sacrificing to those near and dear to her. She was very unassuming and in the last few years of her life rather retiring. She was a christian woman and loved her bible.

The funeral service was held at the home of Mr. and Mrs. Bloom, conducted by Rev. A. Muehlmeier. A selected quartette rendered several very appropriate songs. A special train took the remains to Belmond cemetery where interment took place. A large number of friends were in attendance. The bereaved family has the sympathy of their large circle of friends.

How He Hunted Bear.

A New York Irishman was visiting a friend in the Adirondacks and was taken with a desire to go hunting. Borrowing a gun from his friend he set off alone in search of game. Some time after his host heard a distant report of a gun. A few minutes later he heard some one shouting. From a window he spied, in the distance, his friend, hot-footing it for home, and behind him a bear, gaining at every step. Nearly spent, the pursued reached the door just in time to cry out:

"Quick, Mike! Quick! Open the door! I'm bringing him home aloive!"

Last Sunday evening at the German M. E. Church the Sunday school class of Henry Griewe rendered a very elaborate program. The program was interspersed with recitatio is, readings and music. The recitations and readings were very good and especially the class prophecy of Miss Meta Stork was ably written and Miss Meta made an excellent attempt in giving this and we believe that Miss Meta must surely have had some inside information in order to give such a thorough prophecy of affairs. The music rendered was surely very entertaining and especially do we wish to commend upon the vocal solo rendered by Miss Esther Gruetzmacher this was a beautiful selection and a masterpiece and Miss Esther certainly did herself proud in giving this selection and bringing out the desired effect. Miss Esther is surely endowed with a beautilul and entertaining voice which is very rare and we can not commend to highly upon this selection. The trio given by Misses Gruetzmacher and Miss Meta Stork was also a very good selection and is not to be forgotton. Throughout the entire program was a grand success and we believe that Mr. Henry Griewe can feel proud to be at the head of such a class.

School Entertainment.

The Klemme Public School is preparing an entertainment for the benefit of the school library. The entertainment is called "Columbia, or America's Cantata." It is a clean patriotic spectacular entertainment and requires the whole school to give it, and then we are a little short of numbers. The teachers are working and drilling the pupils in the dialogue, songs and marches. We hope to give the date of the entertainment next week. We need a few new books and we need the hearty co-operation of all patrons and friends of the school in order to make it a success.

TORNADOES IN SOUTH

TYLER, TEX., DEVASTATED BY TERRIFIC WINDSTORM.

SEVERAL PERSONS DEAD

Towns of Mossville, Soso and Service, In Mississippi, Are Blown Away and Many Killed.

Tyler, Tex.—Tyler was swept by the most disastrous tornado in its history Friday morning about four o'clock. Coming up from the southwest, the storm swept over the main residence section of the city, leaving a trail of death and devastation.

The known dead in Tyler number four, C. A. Francis, agent of the Dallas News, wife and child about one year old, and a negro named Moses Lee, 80 years of age.

Francis was about 28 years of age and occupied a high place in the esteem of his fellow-townsmen. His dead body was found 100 yards from his wrecked home, and the body of his child was found in the street. Mrs. Francis was in the wreckage of the building.

Six Seriously Injured.

Six persons were seriously injured. They were Irwin Franklin, Mrs. Franklin and their four children. One of the children is expected to die. They were caught in the wreckage of their homes. Twelve buildings were wrecked and in the confusion which exists it is difficult to compile an accurate list of the casualties.

Wires are down in all directions from Tyler and, while reports from farmers who are hastening in to ascertain the extent of the damage are to the effect that farmhouses all around Tyler were blown down, it is impossible to ascertain the loss of life or to approximate the extent of the disaster. It is known, however, that the tornado swept everything clean for a distance of five miles.

Mississippi Towns Destroyed.

Meridian, Miss. — Three small Mississippi towns were practically demolished by a tornado Friday. Reports of the number killed range from six to ten, with the smaller number probably correct.

Mossville, Service and Soso are the towns destroyed. They are all in Jones county and all are very small, being merely a handful of scattered dwellings. L. S. Morrison, a resident of Mossville, who came here after the storm, said he was outdoors during the blow and was compelled to grasp a wire fence to keep from being blown away. He said the dead at Mossville are Alec Windham and wife, negroes. Near the town, he said, four white persons had been killed, a man and wife and their two children, whose names he did not learn. Near Service one child of Ike Holloway is reported dead and also an unknown negro.

BIG AUTO RACE BEGINS.

Six Cars Leave New York for the Run to Paris.

New York.—The six automobiles contesting in the New York-to-Paris race started from Times square, Forty-second street and Broadway, Wednesday cheered by a throng of several thousand people. Accompanied by more than 200 motors of all descriptions the racing machines made their way up Broadway and Riverside drive to the city limits, where they turned north on the road to Albany.

From that city the route to San Francisco, which is the objective point of the first stage of the trip, lies across New York state to Buffalo, thence through Cleveland and Toledo to Chicago, to Omaha, Cheyenne, Ogden, Reno, Goldfield, San Luis Obispo and San Francisco. Mayor McClellan was to have given the word to start, but was delayed, and Colgate Hoyt of the Automobile Club of America took his place.

All traffic in the neighborhood of Times square was stopped a half hour before the start. Automobiles clogged the intersecting streets and lined the route for many blocks up Broadway. No such aggregation of machines has been seen in or about New York since the last Vanderbilt cup race was run. A band in the official grandstand played the anthems of the nations as the cars lined up for the start. A pistol shot sent the contestants away amid the cheering of the people.

Cervera's Rescuer Dies.

Boston.—George H. Norman of Brookline and Newport, prominent in society and as a polo player, who distinguished himself especially when, as an officer on the gunboat Gloucester during the Spanish-American war, he took Admiral Cervera of the Spanish fleet off the burning flagship Infanta Maria Teresa, died Thursday night at the Corey Hill hospital, in Brookline. Mr. Norman went to the hospital two weeks ago to undergo an operation. He was operated upon twice, after which pneumonia developed.

Tommy—Well, you see, it was this way: We had ten examples a day, and I got the teacher to help me to do five, and Eric Jones got her to help him on the other five. Then we swapped helps, see?—Harper's Bazar.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

Couldn't Set Her Back.

American ladies, when in England, are the occasion of many jokes, good, bad and indifferent. Here is a recent one, which has for its scene the magnificence of Windsor castle.

Fair American—Butler, any chance to get a glimpse of the queen?"

Gentleman Address—I am not the butler. I am the prince of Wales."

Fair American—How lucky! Is your mother in?—Human Life.

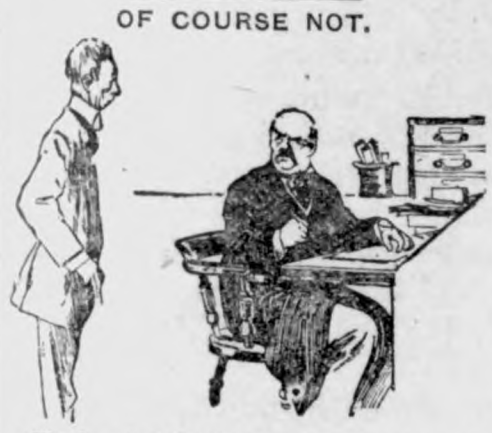
As He Understood It.

A youngster who has been living with his grandmother in Nutley, N. J., was brought to the city for a visit a short time ago, and while here was taken to the theater for the first time in his life. In one of the scenes a butler comes on the stage and announces, "My lord, the carriage waits."

When the little fellow returned to his grandmother's home he started in at once to describe to her the play he had seen.

"And then, Granny," he said, in his excited description, a big man with gold buttons on his coat came on the stage and said: 'My God, there's a hack outside.' "—N. Y. Times.

OF COURSE NOT.



Clerk—A blind man to see you, sir.
Master—Can't see me!

An All-Round Man.

William V. McManus, the new president of the Letter Carriers' association of New York, had been discussing the ideal letter carrier.

With a laugh he ended:

"Yes, the ideal letter carrier needs to be as all-round, as many-sided, as divinely gifted, as the man a Cincinnati suburbanite advertised for last month.

"The advertisement ran:

"'Wanted—A man able to teach Spanish, water color painting, and the violin, and to look after the bull.'"

COFFEE DRINKING

A Doctor Says it Weakens the Heart.

"In my opinion," says a well known German physician, "no one can truthfully say that coffee agrees with him, as it has long since been proven that caffeine, contained in coffee, is an injurious, poisonous substance which weakens and degenerates the heart muscles.

"For this reason the regular use of coffee, soon or late, causes a condition of undernourishment, which leads to various kinds of organic disease.

"Convinced of this fact, I have often sought for some healthful beverage to use instead of coffee. At last I found the thing desired in Postum. Having had occasion to forbid people using coffee, whose hearts were affected, I have recommended Postum as a beverage, since it is free from all injurious or exciting substances. I know this from results in my own family, and among patients.

"Hundreds of persons who now use Postum in place of coffee, are greatly benefited thereby." "There's a Reason."

THEIR DEGREES OF HAPPINESS.

Marital Relations of Rural Postmasters Not All Serene.

The chief clerk of the post office department at Washington recently sent to all the postmasters in the country a list of questions asking for certain information, says the New York Sun, to be used in the preparation of the government Blue Book. One of the questions in the list was, "What are your marital relations?"

The object of this particular question was to find out whether the postmasters are married, single, widowed or divorced. But some of the rural postmasters did not understand, and many answers were received in which the persons addressed endeavored to give a clear and lucid explanation of the status of their married life. One postmaster briefly stated that his domestic affairs were "Fine and dandy." Another, not so fortunate, replied: "Fairly middling," while a third filled in the blank space with two words: "The worst."

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

SAFE TIP.

Willie — Say, dad, I'll bet you there won't be any more plaster falling off the ceiling under the nursery.

Dad — Why, Billy?

Willie — 'Cause they ain't no more left. We bumped it all off yesterday.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

At the Church Fair.

He paused at the booth where the prettiest girls were in charge.

They greeted him with winning smiles.

"Can you change a ten?" he anxiously inquired.

"We have no change," they chorused.

"And I have no ten," he reluctantly murmured.

Then he moved away.

His Idea.

Casey—What is this game called goluf that I do be readin' about?

Sullivan—Well, Mike, it's me own belafe thot it is hockey wid a collige eddication.

This woman says Lydia Pinkham's Vegetable Compound saved her life. Read her letter.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:

"I can truly say that Lydia E. Pinkham's Vegetable Compound saved my life, and I cannot express my gratitude to you in words. For years I suffered with the worst forms of female complaints, continually doctoring and spending lots of money for medicine without help. I wrote you for advice, followed it as directed, and took Lydia E. Pinkham's Vegetable Compound, and it has restored me to perfect health. Had it not been for you I should have been in my grave to-day. I wish every suffering woman would try it."

FACTS FOR SICK WOMEN

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

AN OPPORTUNE TIME

Fortune is said to knock at one's door but once in a lifetime, and opportunity is very often lost to the man or woman who waits until to-morrow to consider, and then forgets. Most of the great men of our country gained fame and wealth by arriving at conclusions and grasping the opportunity of a proffered fortune, before others could get in ahead of them. Such an opportunity is now offered to you and you should not turn it aside lightly. IT IS YOUR TIME. What we offer you is an investment as safe as any bank can give you and with much greater earning powers. GOLD IS THE STANDARD MONEY OF THE WORLD.

The Nevada Empress Gold Mines and Milling Company owns 140 acres of Nevada's richest mineral lands, there has been expended in cash on the property upwards of forty thousand dollars in opening up the vast rich ore bodies by great tunnels and shafts, and several tons of rich ore have been taken out ready for the mill, and many thousand tons are in sight in the great mine ready to be taken out, the average value of which by actual mill test is twenty dollars per ton.

The following figures are a conservative estimate of earnings of a forty-ton mill such as we shall install:

Capacity of mill per day		40 tons
Value of ore per ton		$20.00
Gross value per day		$800.00
Cost of mining 40 tons	$80.00	
Mill expense per day	15.00	95.00
Net earnings per day		$705.00
Working days per year		313
Net earnings per year		$220,665.00

Just consider these vast earnings for a moment and ask yourself if you can afford to let this opportunity go by; this is not all, we will increase our mill facilities to 100 tons within a few months, which will have an annual earning capacity of $571,225.00. Here is a profit of over one hundred (100%) per cent. on the outstanding capitalization. Can you conceive of anything so vastly rich? We have an option on 50,000 shares of the Nevada Empress stock which we offer you at fifty (50) cents per share, par value one dollar, fully paid and forever nonassessable. Don't let this opportunity to get some of this stock get away from you, you will never get another chance like this one. Don't wait until to-morrow lest you forget, buy now or you may be forever too late.

We expect an over-subscription of this stock, therefore those that come first will be sure to get the stock and share the profits of this company. All over-subscriptions will be returned with the money. The price of Nevada Empress shares will be advanced to $1.00 after the closing of the sale of this 50,000 shares and there will be no more for sale after this issue. It is the company's intention to pay a dividend this year. No orders will be accepted for less than 100 shares. Remit by postoffice order or bank draft. Mail your order to us to-day, it may be too late to-morrow.

BALKAN POT BOILS

IT MAY OVERFLOW AT ANY TIME IN THE FUTURE.

AUSTRIA THE SCAPEGOAT

Russia Declares Francis Joseph Violated Treaty of 1903 and She Is No Longer Bound.

St. Petersbubrg, Feb. 17.—Baron von Aehrenthal's reiteration of the determination of Austria to build a railroad through Novipazar, as a connecting link for the Austrian line through Bosnia, with the Turkish line to Saloniki and the announcement by the German foreign office of its financial support of this plan have left no illusions here regarding the fate of the agreement, looking to joint action in the Balkins, negotiated by Emperor Nicholas and Emperor Francis Joseph at Muerbstegg in the autumn of 1903, which was the ground work of the subsequent programme of reforms in Macedonia

The attitude of the Russian foreign offices as learned through the inspired press, is that the agreement, which is regarded as already violated in spirit by the Austrian foreign minister's efforts to extend and consolidate the Austrian sphere of influence by a private bargain with the sultan for construction of the railroad should be abrogated.

Russia is now left a free hand to work out her own policy in the near east. Negotiations are still being conducted to the end of inducing Austria to withdraw her railroad scheme, but no hope of their success is held out on either the Austrian or the Russian side.

The Russian ambassador to Turkey, M. Zinoviefff, at a lengthy audience with the sultan on Friday, submitted Russia's objections to the construction of the proposed railroad, which it is confidently expected here, will result in the postponement of the Austrian project

The impression that Austria is acting with the full cognizance and support of Germany, which has been confirmed by formal statements given out by German government officials, has resulted in an outburst of anger against that country affecting all circles of the Russian press and public. This antagonism is felt with especial force in the army, where it is believed Teutonic influences are back of Turkish activity on the Perso-Russian frontier, which again has assumed a menacing phase.

ENGLAND URGES ACTION.

John Bull Says Austria Has Broken Faith.

London, Feb. 17.—The leaders in the movement for reforms in Macedonia are urging upon Sir Edward Grey, the secretary for foreign affairs, that the breaking up of the concert of powers gives the government opportunity for action which should bring about beneficial results. They contend that Great Britain is now free to act vigorously and, being outside of the group of concession seekers, here demands will be the more likely to receive attention.

The cabinet, as yet, has not decided whether Great Britain will act independently, but the foreign office is formulating a new scheme, which will be outlined by the foreign secretary in a speech on Feb. 25.

Among the press and public the breaking up of the concert is overshadowed by "fight for railways", which Austria, with the sympathy, if not the support of Germany, has started. All authorities adhere the first impression that Austria's action is inopportune and an apparent breach of the understanding with Russia whereby these two powers agreed not to seek concessions without crossing each other.

Thus far there has been but little reference to the notification of the German ambassador at Constantinople. Baron Marschall von Bierbeistein to the other ambassadors, that Germany would no longer act with the other powers in insisting that Turkey consent to their demands but officially that is considered the more serious phase of the question.

MISS SHONTS MARRIED.

New York, Feb. 16.—Miss Theodora Shonts, daughter of Theodore P. Shonts, formerly chairman of the Isthmian canal commission, married yesterday at noon to Manuel Theodoric Bernard d'Albert de Luynes, duc de Chaulnes, of Paris. The wedding took place at the home of the bride's father at 128 East Thirty-fifth street, the ceremony being performed by Mgr. Le Velle, rector of St. Patrick's cathedral. Although considerable interest has been aroused because of its international phase, it was planned to to be an unostentatious home wedding without unusual display or exceptional gathering of guests. Notable among the guests, however, was the Duchess d'Uzes, a sister of the duc and a member of the most aristocratic families of Paris; the Baron Louis d'Conde of Paris, a friend of the duc, and several members of the French embassy in Washington, including the counsellor of the embassy, M. Des Portes de la Fosse, Madame Des Portes and their daughter, the latter a personal friend of the bride, and Lieutenant Commander de Blampre, the French naval attache, and Madame Blampre.

Mr. Johnson Willing to Give Well-Written Note of Hand.

The financial prospects of Mr. Washington Lafayette Johnson were decidedly clouded, but he still preserved a sanguine spirit, which his friends did not always appreciate.

"I'd like to borrow jes' a little money ob you," said Mr. Johnson, confidentially, to a friend. "I—I wouldn't ax you fo' it, but I ain' got a single cent left in de worl'."

"What secu'ity can you gib me?" asked his friend, without any enthusiasm.

"Why, I gib you my note ob hand!" and Mr. Johnson looked pained and amazed at such a question. "I reckon you don' know what a good, clear handwriting I got in de ebening school."—Youth's Companion.

BABY CRIED AND SCRATCHED

All the Time—Covered with Torturing Eczema—Doctor Said Sores Would Last for Years—Perfect Cure by Cuticura.

"My baby niece was suffering from that terrible torture, eczema. It was all over her body but the worst was on her face and hands. She cried and scratched all the time and could not sleep night or day from the scratching. I had her under the doctor's care for a year and a half and he seemed to do her no good. I took her to the best doctor in the city and he said that she would have the sores until she was six years old. But if I had depended on the doctor my baby would have lost her mind and died from the want of aid. But I used Cuticura Soap and Cuticura Ointment and she was cured in three months. Alice L. Dowell, 4769 Easton Ave., St. Louis, Mo., May 2 and 20, 1907."

Betrayed by His Language.

"Have you any visible means of support?" asked the policeman sternly.

"Me? Yes, sah. I sure has. As a wash lady mah wife is out of sight."

"Then she's not visible," rejoined the policeman, and the march to the patrol box began.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop to the creation of that now very popular Stomach remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Mrs. Aug. Lau, Jr. and little daughter returned from Reinbeck Monday where she had been visiting her parents.

There will be no services in the Klemme church Sunday evening. The Klemme League will give a program in the Germantown church. Three weeks later the Germantown League will give their program in Klemme.

Mrs Wessel gave a reception to the members of the Germantown Epworth League at the parsonage last Friday evening. As the roads were very bad some failed to materialize. Those who did come seemed to enjoy the occasion and had a social time

Perhaps the largest delegation ever went from this place to a convention are in attendance in Fenton this week. Tohse who have gone are Rev. Wessel. Mr. and Mrs. Wm. Bredlow, Lizzie Riemer, Lydia Beier, Dell Schlei, Erick Josten, Minnie Lenz, Alice Griffen, Emma Sampson, Sarah Ludeke, and Martha Lau.

Henry Griewe and his Sunday school class gave an interesting program Sunday evening. Seated on the platform, the teacher to the right and his class of 8 young ladies dresssed in white to his left, they made an impressive appearance. Their solo, duetts, trio, and quartettes were good. The class prophesy by Miss Stork was full of humor and sincerity, and her imaginative engunity she gave the audience a masterly production The address of the teacher also bears special mention. Mr. Griewe dropped many good points, as what a scholar ought to be and what may be expected of such a class. Bertha Bettin is also a member of this class, but is in Charles City at present.

Basket Social and School Program.

Friday, Feb 14th a basket social and school program was held in school house Dist. No. 1, Twin Lake. Owing to the bad roads the attendance was not large, but the scholars made up for the absence of a large crowd by the excellent and right up-to-date manner in which they carried out the program The parents of the schools were highly pleased with the teacher J. D. G Houghton for the pains taken with the children to enable them to recite and sing in an attractive style which they did.

The program being concluded, after a short recess the "Social" part of the entertainment began. F. Haupt, Director pleading a cold Valentine Josten, Jr. was unanimously elected auctioneer, (and a most efficient and popular auctioneer he proved to be as the baskets sold averaged almost a dollar) and J. D. G. Houghton as clerk. The contents of the baskets fully answered to the description of the auctioneer and were fully enjoyed by the lucky purchasers (and their partners) after which the usual games and good time for which No. 1 Twin Lake is noted prevailed until a late hour which surprised all precent, so quickly and pleasantly had the evening passed

Took the Wrong House.

On one of the Southern railroads there is a station building that is commonly known by travelers as the smallest railroad station in America.

It is of this station that the story is told that an old farmer was expecting a chicken house to arrive there, and he sent one of his hands, a newcomer, to fetch it.

Arriving there the man saw the house, loaded it on his wagon and started for home.

On the way he met a man in uniform with the words "Station Agent" on his cap.

"Say, hold on. What have you got on that wagon," he asked.

"My chicken house, of course," was the reply.

"Chicken house be jiggered," exploded the official. "That's the station."

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

For Weak Kidneys, Backache, inflammation of the bladder and all urinary troubles DeWitt's Kidney and Bladder Pills are unsurpassed.

CHIEF HITS ROADS

PRESIDENT ROOSEVELT ASKS WAGE CUT PROBE.

SCENTS INDUSTRIAL WAR

Executive Addresses Commission Regarding Proposed Pay Reductions—Investigation Requested in Order to Avert Strife.

Washington.—Serious industrial disputes in prospect were in the mind of President Roosevelt when he wrote a letter to the interstate commerce commission which has been made public. He says that information has reached him that on account of the enactment of drastic laws by the congress and by the various state legislatures it is regarded as necessary by railroad companies to reduce the pay of employes. He points out that, under the law, either party may demand the services of the chairman of the interstate commerce commission and of the commissioner of labor as a board of conciliation. He suggests, therefore, that the interstate commerce commission make such an investigation as will enable it to furnish data concerning wage conditions on various railroads as may relate, directly or indirectly, to the possible impending controversy.

Notice Served, Says Chief.

The text of the president's letter follows:

"The White House, Washington, Feb. 18, 1908.—To the Interstate Commerce Commission: I am informed that a number of railroad companies have served notice of a proposed reduction of wages on their employes. One of them, the Louisville & Nashville, in announcing the reduction, states that 'the drastic laws inimical to the interests of the railroads that have in the past year or two been enacted by congress and the state legislatures' are largely or chiefly responsible for the conditions requiring the reduction. Under such circumstances it is possible that the public may soon be confronted by serious industrial disputes, and the law provides that in such case either party may demand the services of your chairman and of the commissioner of labor as a board of mediation and concilation. These reductions in wages may be warranted, or they may not.

Public Is Vitally Interested.

"As to this, the public, which is a vitally interested party, can form no judgment without a more complete knowledge of the essential facts and real merits of the case than it now has or than it can possibly obtain from the special pleadings certain to be put forth by each side in case their dispute should bring about serious interruption to traffic. If the reduction in wages is due to natural causes, the loss of business being such that the burden should be, and is, equitably distributed between capitalist and wage worker, the public should know it. If it is caused by legislation, the public and congress should know it, and if it is caused by misconduct in the past financial or other operations of any railroad, then everybody should know it, especially if the excuse of unfriendly legislation is advanced as a method of covering up past business misconduct by the railroad managers, or as a justification for failure to treat fairly the employe."

KIDNAPERS FOUND GUILTY.

Man and Woman Who Stole Chicago Girl Given Long Term.

Chicago. — Thirty years in the penitentiary for William Jones and 25 years in the penitentiary for his wife, Irene Alzina Jones—such was the punishment fixed for the kidnapers of Lillian Wulff in Judge Kersten's court Wednesday night by the jury in rendering a verdict of guilty.

Imprisonment in the penitentiary for 25 years was the punishment meted out by the jurymen to Mrs. Alzina Birmingham, while the woman's husband, William Jones, alias Birmingham, was sentenced to 30 years at hard labor in the same institution. Incidents of tense dramatic interest marked the return of the verdict. The reading of the decision of the jurymen by Court Clerk Schmidt precipitated a scene seldom witnessed in the criminal court of the county. The woman kidnaper, with her back to the wall within a few feet of the jury box, heard the words that doomed her to imprisonment for the next quarter of a century. The sentencing of her companion affected her but little. "We, the jury, find the defendant, Alzina Jones, alias Birmingham, guilty and fix her punishment at 25 years imprisonment in the penitentiary."

Military Court Pronounces Notice of Fate—Inferior Officers Allowed to Escape.

St. Petersburg.—Lieut. Gen. Stoessel, once known as "the Hero of Port Arthur," was condemned to death Thursday evening by a military court for the surrender of that fort to the Japanese.

Gen. Fock, who commanded the Fourth East Siberian division of Port Arthur, was ordered reprimanded for a disciplinary offense, which was not connected with the surrender, and Gen. Smirnoff, acting commander of the fortress, and Maj. Gen. Reiss, chief of staff to Gen. Stoessel, were

acquitted of the charges against them for lack of proof. The court recommended that the death sentence upon Lieut. Gen. Stoessel be commuted to ten years imprisonment in a fortress and that he be excluded from the service. Gen. Vodar, president of the court, read the sentences amid a tense silence. By a great effort of self-control, Gen. Stoessel maintained a rigid soldier-like impassivity. Gen. Smirnoff also was seemingly unmoved, but there were tears in the eyes of Gen. Reiss.

The sentence of death was pronounced upon Gen. Stoessel, "for surrendering the fortress before all the means of defense had been exhausted; for failing to enforce his authority, and for military misdemeanors."

POWDER BLAST KILLS 28.

Explosion at Berkeley, Cal., Fatal to Chinese and Whites.

Berkeley, Cal. — With a force that shook the entire bay region like an earthquake the packing house of the Hercules Powder works at Pinole, 14 miles north of here, blew up late Thursday afternoon and in the explosion four white men and 24 Chinamen were killed.

Ten tons of dynamite went up in the terrific blast, shattering the sheds to dust and splinters.

W. W. Stillwell, foreman of the packing house, was blown to atoms at his post of duty. Manuel Enos, Joseph Grace and W. A. Rodriguez were the other white men killed. The 28 dead included every man who was at work in the packing house. Flames burst forth in the ruins following the explosion, and threatened the gelatine house, where two score girls were at work. A panic ensued, and many were cut by flying glass and crushed and trampled in the mad rush for the doors. The loss to the company due to the accident is placed at about $100,000. No definite cause for the accident can be given.

The men, most of whom were Italians and Poles, marched from the foreign settlement in the lower section of the city. The leaders and a score of others carried red flags having a black border. Several wagons attempted to pass through the line. The drivers were dragged from their seats by the marchers and beaten.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursuit and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous feud. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Enid informing him that the kidnaping is for the purpose of entrapping Barnes, so the vendetta may kill him. Barnes and Marina have unusual adventures in their search for Enid.

CHAPTER XII.—Continued.

They dash up the gorge for half a mile and she says sharply, "It is here," pointing to a steep ascent that, cumbered by ferns and wild flowers, makes a most unpromising roadway. Then she catches her breath and whispers: "You expect an ambush?" for the American has now his rifle on the saddle in front of him, western fashion, and his pistols ready in his belt.

"I do," answered Barnes and relates the words of the shepherd.

"Quick!" cries the girl. "This trail will take you right up Del Oro, where you can look down on Bocognano. By it, you will get between your enemies and your destination."

"My destination is my wife. She is in this valley with those men."

"Oh, I think not. Saliceti is too crafty. He is still conveying Enid to Bocognano and has left only some of his followers to slay you. Come on."

Barnes follows his guide up the steep little path, that covered with vines and wild flowers is difficult to discern, but after they had gone a few hundred yards, the rocks growing larger, the trail more precipitous, Marina says: "Here we must leave our ponies and climb on foot." So they pasture the two hardy little brutes in a vale full of soft grasses and leave them munching contentedly, Barnes, slinging his haversack over his shoulder, Marina having nothing to carry with her.

Before her now strides the American, his alert eyes always glancing down the steep declivities to their left, for the almost unused trail they are following is hundreds of feet above the travelled bridle path that keeps to the torrent, dashing through the bottom of the valley. After nearly an hour of this, the noise of a waterfall strikes their ears, gradually growing louder.

Five minutes later, Barnes holds up his hand cautiously. Marina's glance follows his; far below them, concealed in the big rocks that skirt the stream at the little bridge near the waterfall, are several crouching, armed men. A little farther down the rapid, in the top of a big beech tree, is perched another, his hand shading his eyes from the rays of the declining sun that shines in his face as he looks down the pathway coming from the east.

"These gentlemen are waiting for me," remarks the American, in his face the supreme joy of a sportsman who will bag not only one head, but a battue. He puts his rifle on the ground, loosens both revolvers in his belt and asks: "The way to descend the precipice from here?"

"Why?" falters the girl.

"Why? Because I am now the hunter," answers Barnes. "Do you think I am going to spare the wretches who have stolen my wife? None of them! Quick, the path by which I can intercept them and cut them off to the last man!"

Marina looks at his fatal pistols and shudders! "Thank God, there is no path!"

"Ah, then I will have to be content with the sentry, that fellow in the beech tree there."

"My God, if you kill any of them," gasps Marina, "you will never get Enid out of the island alive. You came to save her, not to murder her." She puts a white imploring hand on

Concealed in Big Rocks that Skirt the Stream Are Several Cronching Men.

Barnes, who is already preparing his rifle. Then she suddenly half cries: "Your wife! You want her!" and points far up to the top of the pass between the two great mountains, Rotondo and Del Oro, and Barnes' eyes following her hand, he sees figures silhouetted against the clear blue Alpine air. All are mounted, and one is surely a woman.

"You think that is my wife?"

"I am sure of it. Saliceti has only left some of his men behind to waylay you if you come on unguardedly."

Barnes doesn't even answer her. His quick steps are carrying him so rapidly in pursuit along the dizzy mountain path that Marina, though the poor girl half runs, can scarce keep up with him.

Their path leads along the precipices, now and again reaching some little mountain valley through which a stream trickles between stunted pines, and about whose rocks are growing the sweet forget-me-nots and violets of Corsica.

But as they near the summit of the mountain, darkness comes also and a blinding mist, cold with the chill of melting snow, descends upon them, and enveloping them with a fleecy sheen, the rocks and lichens about the path are shrouded from their gaze.

They are above the timber line and the great bare granite blocks bruise Marina's tender feet as they stumble among them.

The girl lays her hand upon her companion's arm. "We may reach the summit before darkness," she pants, out of breath, "but the dizzy descent on the other side is impossible without daylight."

"I remember," answers Burton. "I have passed down it hunting moufflon." Then he takes off his hunting coat and places it carefully over the delicate shoulders of his fragile companion, already shivering in her light summer garment under the icy mist about her. "I am thinking of some shelter for you, for we must pass the night upon the mountain," he says tenderly; then asks anxiously: "Do you know one?"

"Y-e-s," she replies, her teeth chattering, "if we can reach it in this storm. The little chalet where poor old Tomasso sometimes took me when he brought me here as a child to pluck the flowers of the mountain."

With this she turns abruptly to the left, and Barnes following her, they struggle up a couloir filled with massive boulders, but nearing the summit the mist becomes colder, the wind sharper and the gloom more deep. Surrounded, as they are, by frightful precipices, this is appalling.

"I've lost my way," mutters Marina, her voice low with faintness, but a moment after she cries: "Ah, see the granite cliff. Follow its wall! The cabin is beneath it. But beware! beyond the cabin there is a very deep crevice."

The wind howls about them. The night is even blacker, but keeping the sheen of the cliff close at his left, Barnes stumbles over the granite slabs almost carrying the exhausted girl. Finally, compelled by the howling of the wind, he calls into her ear: "Courage! I see the hut. Thank God, someone has a fire inside it."

"Perhaps it is made by the awful bandits, the Rochini and Romano who murder so many poor travellers," shudders Marina.

But undeterred by this, using the light as a beacon, her escort rapidly approaches the open door of the little cabin, from which issues a cheerful gleam.

Suddenly they pause, for a deep tone issues threateningly from its interior: "Hola, if you are gendarmes, beware of me!"

"Madre mia," gasps Marina, with a low scream, "that voice."

"Bandit or no bandit, you shall give us warmth and shelter!" calls Barnes in answer. Then he too, stands astounded, as from the rough door strides a man, and outlined by the flickering blazes and surrounded by the mists of the mountains is a face that makes Marina tremble and shrink: "Holy Mother of God, a ghost!"

For it is the countenance of her foster father, old Tomasso Monaldi, whom everyone had thought dead from the night of her wedding.

But now the goblin recognizes her; it cries: "Marina! daughter of my heart! you have come to succor your poor old hunted down Tomasso," and sinking on his knees, it catches the half fainting girl's hand, and kisses it reverently.

"You, alive, dear old Tomasso? Impossible!" half shudders, half sobs the girl, sinking down beside the spirit and looking into his deep, dark eyes that gleam so lovingly upon her.

"Two weeks ago, on the morning of the tragedy, De Belloc's soldiers reported to that officer in my presence that they'd killed you," says Barnes impressively.

"Bah!" sneers the ghost; "the sergeant, I suppose, told his officer they shot me. The soldiers fired. It was easier for me to fall down behind a granite boulder than stand up and let them shoot again, though it was the darkness of the early morning. Then I came up on the mountain here, and fearing the soldiers would again pursue me, I have been a hermit, descending at night to the lower valleys to garner chickens and steal sheep."

"Holy smoke," grins the American, "here's the fellow for whose death they have vendettaed me, alive and talking!"

CHAPTER XIII.

"Glorious Bandits."

The storm fairly howls about them, but Marina forgets it as Tomasso half sobs: "Your coming here, dear mistress, shows you forgive me for the killing of the Englishman, your husband, the one who murdered Antonio in the duel," and the flickering light revealing Barnes' face, he exclaims: "The American who saw your brother slain. Ah, now you agree with me this accursed Anstruther's death was just."

"Thank God, you didn't murder him!" cries the girl. "Your stiletto entered the heart of Musso Danella, who deserved death for his lies."

"I killed poor Musso Danella?" stammers the old Corsican. Then he mutters as if he can't believe: "No, no, I heard his groan as I struck through the curtains."

"'Twas the groan of Musso Danella," answers Marina. "That you killed the right man proves my husband innocent. 'Twas the hand of God directed you." The girl's voice is very reverent.

"Then if it was the hand of God, Danella's death is sure proof your husband killed not Antonio," says Tomasso solemnly, making the sign of the cross; but again breaks forth: "No, no—the proofs Musso gave to both you and me made us believe this Anstruther, your spouse, shot your brother. The things he held up to our very eyes——"

"Were the property of another English officer—one killed in action on a British warship under the Egyptian guns at Alexandria! Do you think I'd live in the arms of a man with my brother's blood upon him?" cries the young wife fervidly.

"No, that is not possible, also," agrees old Monaldi.

"But," interjects Barnes, "while you jabber here, your darling mistress dies of cold."

"Oh, my heart is warm enough with joy at seeing Tomasso live to make me forget the icy wind," and the enthusiastic girl kisses the rugged face of her old servitor.

"Nevertheless, I have not forgotten supper," suggests the common-sense American, and half drags Marina into the cabin. "Eating first and affection afterward."

Change in School Methods.

"The old country schoolhouse of not so long ago will soon be a relic of the past," said James Tighe of Altoona, Pa., according to the Washington Post. "Although one traveling through the country sees many of these old fashioned structures, he does not realize that they are rapidly being deserted and that a consolidated schoolhouse will be met with farther up the road. These new buildings are graded, and many have several high school courses, so that one teacher now teaches only one class, whereas in the old days the pedagogue taught everything from the alphabet to Latin. Of course, the consolidated schoolhouse is not so convenient to all the children, as they have to go a greater distance, but all of them ride to school nowadays. The consolidated school is much cheaper to the community, and what the farmer saves in taxes he puts in sleighs and wagons, so that his children may ride. Pupils can also remain at their home school much longer than they formerly could, and this also is a great saving. We may expect great results from this change, for the farmers with their poor schools have turned out some wonderful men, and they should do even better under the new conditions.

Duration of Animal Life.

A great variance as to length of life appears among different animals. Some insects live only for a few hours, while fish, elephants and turtles are frequently centenarians. The average life of the mosquito is three days. Toads usually live to the age of about 15 years, while carp have been known to reach a hundred and fifty. Chickens live from 12 to 15 years; dogs to the age of 10 and occasionally 15, and parrots to extreme age. These birds have been known to pass the age of 200 years. Turtles are also frequently centenarians, as are storks, and elephants are said to reach the age of 300 years.

A lady writer who not only has done good literary work, but reared a family, found in Grape-Nuts the ideal food for brain work and to develop healthy children. She writes:—

"I am an enthusiastic proclaimer of Grape-Nuts as a regular diet. I formerly had no appetite in the morning and for 8 years while nursing my four children, had insufficient nourishment for them.

"Unable to eat breakfast I felt faint later, and would go to the pantry and eat cold chops, sausage, cookies, doughnuts or anything I happened to find. Being a writer, at times my head felt heavy and my brain asleep.

"When I read of Grape-Nuts I began eating it every morning, also gave it to the children, including, my 10 months old baby, who soon grew as fat as a litle pig, good natured and contented.

"Within a week I had plenty of breast milk, and felt stronger within two weeks. I wrote evenings and feeling the need of sustained brain power, began eating a small saucer of Grape-Nuts with milk instead of my usual indigestible hot pudding, pie, or cake for dessert at night.

"Grape-Nuts did wonders for me and I learned to like it. I did not mind my housework or mother's cares, for I felt strong and full of 'go.' I grew plump, nerves strong, and when I wrote my brain was active and clear; indeed, the dull head pain never returned."

CHIEF HITS ROADS

PRESIDENT ROOSEVELT ASKS WAGE CUT PROBE.

SCENTS INDUSTRIAL WAR

Executive Addresses Commission Regarding Proposed Pay Reductions—Investigation Requested in Order to Avert Strife.

Washington.—Serious industrial disputes in prospect were in the mind of President Roosevelt when he wrote a letter to the interstate commerce commission which has been made public. He says that information has reached him that on account of the enactment of drastic laws by the congress and by the various state legislatures it is regarded as necessary by railroad companies to reduce the pay of employes. He points out that, under the law, either party may demand the services of the chairman of the interstate commerce commission and of the commissioner of labor as a board of conciliation. He suggests, therefore, that the interstate commerce commission make such an investigation as will enable it to furnish data concerning wage conditions on various railroads as may relate, directly or indirectly, to the possible impending controversy.

Notice Served, Says Chief.

The text of the president's letter follows:

"The White House, Washington, Feb. 18, 1908.—To the Interstate Commerce Commission: I am informed that a number of railroad companies have served notice of a proposed reduction of wages on their employes. One of them, the Louisville & Nashville, in announcing the reduction, states that 'the drastic laws inimical to the interests of the railroads that have in the past year or two been enacted by congress and the state legislatures' are largely or chiefly responsible for the conditions requiring the reduction. Under such circumstances it is possible that the public may soon be confronted by serious industrial disputes, and the law provides that in such case either party may demand the services of your chairman and of the commissioner of labor as a board of mediation and concilation. These reductions in wages may be warranted, or they may not.

Public Is Vitally Interested.

"As to this, the public, which is a vitally interested party, can form no judgment without a more complete knowledge of the essential facts and real merits of the case than it now has or than it can possibly obtain from the special pleadings certain to be put forth by each side in case their dispute should bring about serious interruption to traffic. If the reduction in wages is due to natural causes, the loss of business being such that the burden should be, and is, equitably distributed between capitalist and wage worker, the public should know it. If it is caused by legislation, the public and congress should know it, and if it is caused by misconduct in the past financial or other operations of any railroad, then everybody should know it, especially if the excuse of unfriendly legislation is advanced as a method of covering up past business misconduct by the railroad managers, or as a justification for failure to treat fairly the employe."

KIDNAPERS FOUND GUILTY.

Man and Woman Who Stole Chicago Girl Given Long Term.

Chicago. — Thirty years in the penitentiary for William Jones and 25 years in the penitentiary for his wife, Irene Alzina Jones—such was the punishment fixed for the kidnapers of Lillian Wulff in Judge Kersten's court Wednesday night by the jury in rendering a verdict of guilty.

Imprisonment in the penitentiary for 25 years was the punishment meted out by the jurymen to Mrs. Alzina Birmingham, while the woman's husband, William Jones, alias Birmingham, was sentenced to 30 years at hard labor in the same institution. Incidents of tense dramatic interest marked the return of the verdict. The reading of the decision of the jurymen by Court Clerk Schmidt precipitated a scene seldom witnessed in the criminal court of the county. The woman kidnaper, with her back to the wall within a few feet of the jury box, heard the words that doomed her to imprisonment for the next quarter of a century. The sentencing of her companion affected her but little. "We, the jury, find the defendant, Alzina Jones, alias Birmingham, guilty and fix her punishment at 25 years imprisonment in the penitentiary."

Military Court Pronounces Notice of Fate—Inferior Officers Allowed to Escape.

St. Petersburg.—Lieut. Gen. Stoessel, once known as "the Hero of Port Arthur," was condemned to death Thursday evening by a military court for the surrender of that fort to the Japanese.

Gen. Fock, who commanded the Fourth East Siberian division of Port Arthur, was ordered reprimanded for a disciplinary offense, which was not connected with the surrender, and Gen. Smirnoff, acting commander of the fortress, and Maj. Gen. Reiss, chief of staff to Gen. Stoessel, were

acquitted of the charges against them for lack of proof. The court recommended that the death sentence upon Lieut. Gen. Stoessel be commuted to ten years imprisonment in a fortress and that he be excluded from the service. Gen. Vodar, president of the court, read the sentences amid a tense silence. By a great effort of self-control, Gen. Stoessel maintained a rigid soldier-like impassivity. Gen. Smirnoff also was seemingly unmoved, but there were tears in the eyes of Gen. Reiss.

The sentence of death was pronounced upon Gen. Stoessel, "for surrendering the fortress before all the means of defense had been exhausted; for failing to enforce his authority, and for military misdemeanors."

POWDER BLAST KILLS 28.

Explosion at Berkeley, Cal., Fatal to Chinese and Whites.

Berkeley, Cal. — With a force that shook the entire bay region like an earthquake the packing house of the Hercules Powder works at Pinole, 14 miles north of here, blew up late Thursday afternoon and in the explosion four white men and 24 Chinamen were killed.

Ten tons of dynamite went up in the terrific blast, shattering the sheds to dust and splinters.

W. W. Stillwell, foreman of the packing house, was blown to atoms at his post of duty. Manuel Enos, Joseph Grace and W. A. Rodriguez were the other white men killed. The 28 dead included every man who was at work in the packing house. Flames burst forth in the ruins following the explosion, and threatened the gelatine house, where two score girls were at work. A panic ensued, and many were cut by flying glass and crushed and trampled in the mad rush for the doors. The loss to the company due to the accident is placed at about $100,000. No definite cause for the accident can be given.

Attorney General Investigates Affairs of American Ice Concern.

New York.—The investigation instituted by Attorney General Jackson into the affairs of the American Ice company, promoted and formerly controlled by Charles W. Osborne, appointed to conduct the inquiry, appeared before the grand jury and began the submission of evidence which is expected to throw a light on the financial methods employed in the organization of the so-called ice trust and its conduct and alleged control of the ice trade. The present investigation resulted from representations made by Attorney General Jackson to Gov. Hughes, who directed the attorney general to take the matter out of the hands of District Attorney Jerome.

Philadelphia Unemployed Cause Fracas, Twenty Being Injured.

Philadelphia.—The marching of nearly 1,000 foreigners upon the city hall, where they said they intended to make demands upon Mayor Reyburn for work, precipitated a riot in Broad street late Thursday, in which 20 persons were injured before the police dispersed the marchers and arrested 14 of them. The men, most of whom were Italians and Poles, marched from the foreign settlement in the lower section of the city. The leaders and a score of others carried red flags having a black border. Several wagons attempted to pass through the line. The drivers were dragged from their seats by the marchers and beaten.

Big Auto Factory Burns.

Dayton, O. — Fire of unknown origin destroyed the mammoth plant of the Stoddard-Dayton Automobile factory Friday morning and swept through the old section of the plant, causing a loss of $300,000.

Despite the efforts of the department the blaze continued to spread and it was soon seen that but little of the plant could escape loss. The new section was a furnace of flames which lighted the sky for miles around. It was certain the plant would be a total loss.

The Stoddard-Dayton factory was the second largest automobile works in the country.

SYNOPSIS.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous feud. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Enid informing him that the kidnaping is for the purpose of entrapping Barnes, so the vendetta may kill him. Barnes and Marina have unusual adventures in their search for Enid.

CHAPTER XII.—Continued.

They dash up the gorge for half a mile and she says sharply, "It is here," pointing to a steep ascent that, cumbered by ferns and wild flowers, makes a most unpromising roadway. Then she catches her breath and whispers: "You expect an ambush?" for the American has now his rifle on the saddle in front of him, western fashion, and his pistols ready in his belt.

"I do," answered Barnes and relates the words of the shepherd.

"Quick!" cries the girl. "This trail will take you right up Del Oro, where you can look down on Bocognano. By it, you will get between your enemies and your destination."

"My destination is my wife. She is in this valley with those men."

"Oh, I think not. Saliceti is too crafty. He is still conveying Enid to Bocognano and has left only some of his followers to slay you. Come on."

Barnes follows his guide up the steep little path, that covered with vines and wild flowers is difficult to discern, but after they had gone a few hundred yards, the rocks growing larger, the trail more precipitous, Marina says: "Here we must leave our ponies and climb on foot." So they pasture the two hardy little brutes in a vale full of soft grasses and leave them munching contentedly, Barnes, slinging his haversack over his shoulder, Marina having nothing to carry with her.

Before her now strides the American, his alert eyes always glancing down the steep declivities to their left, for the almost unused trail they are following is hundreds of feet above the travelled bridle path that keeps to the torrent, dashing through the bottom of the valley. After nearly an hour of this, the noise of a waterfall strikes their ears, gradually growing louder.

Five minutes later, Barnes holds up his hand cautiously. Marina's glance follows his; far below them, concealed in the big rocks that skirt the stream at the little bridge near the waterfall, are several crouching, armed men. A little farther down the rapid, in the top of a big beech tree, is perched another, his hand shading his eyes from the rays of the declining sun that shines in his face as he looks down the pathway coming from the east.

"These gentlemen are waiting for me," remarks the American, in his face the supreme joy of a sportsman who will bag not only one head, but a battue. He puts his rifle on the ground, loosens both revolvers in his belt and asks: "The way to descend the precipice from here?"

"Why?" falters the girl.

"Why? Because I am now the hunter," answers Barnes. "Do you think I am going to spare the wretches who have stolen my wife? None of them! Quick, the path by which I can intercept them and cut them off to the last man!"

Marina looks at his fatal pistols and shudders! "Thank God, there is no path!"

"Ah, then I will have to be content with the sentry, that fellow in the beech tree there."

"My God, if you kill any of them," gasps Marina, "you will never get Enid out of the island alive. You came to save her, not to murder her." She puts a white imploring hand on

Concealed in Big Rocks that Skirt the Stream Are Several Cronching Men.

Barnes, who is already preparing his rifle. Then she suddenly half cries: "Your wife! You want her!" and points far up to the top of the pass between the two great mountains, Rotondo and Del Oro, and Barnes' eyes following her hand, he sees figures silhouetted against the clear blue Alpine air. All are mounted, and one is surely a woman.

"You think that is my wife?"

"I am sure of it. Saliceti has only left some of his men behind to waylay you if you come on unguardedly."

Barnes doesn't even answer her. His quick steps are carrying him so rapidly in pursuit along the dizzy mountain path that Marina, though the poor girl half runs, can scarce keep up with him.

Their path leads along the precipices, now and again reaching some little mountain valley through which a stream trickles between stunted pines, and about whose rocks are growing the sweet forget-me-nots and violets of Corsica.

But as they near the summit of the mountain, darkness comes also and a blinding mist, cold with the chill of melting snow, descends upon them, and enveloping them with a fleecy sheen, the rocks and lichens about the path are shrouded from their gaze.

They are above the timber line and the great bare granite blocks bruise Marina's tender feet as they stumble among them.

The girl lays her hand upon her companion's arm. "We may reach the summit before darkness," she pants, out of breath, "but the dizzy descent on the other side is impossible without daylight."

"I remember," answers Burton. "I have passed down it hunting moufflon." Then he takes off his hunting coat and places it carefully over the delicate shoulders of his fragile companion, already shivering in her light summer garment under the icy mist about her. "I am thinking of some shelter for you, for we must pass the night upon the mountain," he says tenderly; then asks anxiously: "Do you know one?"

"Y-e-s," she replies, her teeth chattering, "if we can reach it in this storm. The little chalet where poor old Tomasso sometimes took me when he brought me here as a child to pluck the flowers of the mountain."

With this she turns abruptly to the left, and Barnes following her, they struggle up a couloir filled with massive boulders, but nearing the summit the mist becomes colder, the wind sharper and the gloom more deep. Surrounded, as they are, by frightful precipices, this is appalling.

"I've lost my way," mutters Marina, her voice low with faintness, but a moment after she cries: "Ah, see the granite cliff. Follow its wall! The cabin is beneath it. But beware! beyond the cabin there is a very deep crevice."

The wind howls about them. The night is even blacker, but keeping the sheen of the cliff close at his left, Barnes stumbles over the granite slabs almost carrying the exhausted girl. Finally, compelled by the howling of the wind, he calls into her ear: "Courage! I see the hut. Thank God, someone has a fire inside it."

"Perhaps it is made by the awful bandits, the Rochini and Romano who murder so many poor travellers," shudders Marina.

But undeterred by this, using the light as a beacon, her escort rapidly approaches the open door of the little cabin, from which issues a cheerful gleam.

Suddenly they pause, for a deep tone issues threateningly from its interior: "Hola, if you are gendarmes, beware of me!"

"Madre mia," gasps Marina, with a low scream, "that voice."

"Bandit or no bandit, you shall give us warmth and shelter!" calls Barnes in answer. Then he too, stands astounded, as from the rough door strides a man, and outlined by the flickering blazes and surrounded by the mists of the mountains is a face that makes Marina tremble and shrink: "Holy Mother of God, a ghost!"

For it is the countenance of her foster father, old Tomasso Monaldi, whom everyone had thought dead from the night of her wedding.

But now the goblin recognizes her; it cries: "Marina! daughter of my heart! you have come to succor your poor old hunted down Tomasso," and sinking on his knees, it catches the half fainting girl's hand, and kisses it reverently.

"You, alive, dear old Tomasso? Impossible!" half shudders, half sobs the girl, sinking down beside the spirit and looking into his deep, dark eyes that gleam so lovingly upon her.

"Two weeks ago, on the morning of the tragedy, De Belloc's soldiers reported to that officer in my presence that they'd killed you," says Barnes impressively.

"Bah!" sneers the ghost; "the sergeant, I suppose, told his officer they shot me. The soldiers fired. It was easier for me to fall down behind a granite boulder than stand up and let them shoot again, though it was the darkness of the early morning. Then I came up on the mountain here, and fearing the soldiers would again pursue me, I have been a hermit, descending at night to the lower valleys to garner chickens and steal sheep."

"Holy smoke," grins the American, "here's the fellow for whose death they have vendettaed me, alive and talking!"

CHAPTER XIII.

"Glorious Bandits."

The storm fairly howls about them, but Marina forgets it as Tomasso half sobs: "Your coming here, dear mistress, shows you forgive me for the killing of the Englishman, your husband, the one who murdered Antonio in the duel," and the flickering light revealing Barnes' face, he exclaims: "The American who saw your brother slain. Ah, now you agree with me this accursed Anstruther's death was just."

"Thank God, you didn't murder him!" cries the girl. "Your stiletto entered the heart of Musso Danella, who deserved death for his lies."

"I killed poor Musso Danella?" stammers the old Corsican. Then he mutters as if he can't believe: "No, no, I heard his groan as I struck through the curtains."

"'Twas the groan of Musso Danella," answers Marina. "That you killed the right man proves my husband innocent. 'Twas the hand of God directed you." The girl's voice is very reverent.

"Then if it was the hand of God, Danella's death is sure proof your husband killed not Antonio," says Tomasso solemnly, making the sign of the cross; but again breaks forth: "No, no—the proofs Musso gave to both you and me made us believe this Anstruther, your spouse, shot your brother. The things he held up to our very eyes——"

"Were the property of another English officer—one killed in action on a British warship under the Egyptian guns at Alexandria! Do you think I'd live in the arms of a man with my brother's blood upon him?" cries the young wife fervidly.

"No, that is not possible, also," agrees old Monaldi.

"But," interjects Barnes, "while you jabber here, your darling mistress dies of cold."

"Oh, my heart is warm enough with joy at seeing Tomasso live to make me forget the icy wind," and the enthusiastic girl kisses the rugged face of her old servitor.

"Nevertheless, I have not forgotten supper," suggests the common-sense American, and half drags Marina into the cabin. "Eating first and affection afterward."

(TO BE CONTINUED.)

Change in School Methods.

"The old country schoolhouse of not so long ago will soon be a relic of the past," said James Tighe of Altoona, Pa., according to the Washington Post. "Although one traveling through the country sees many of these old fashioned structures, he does not realize that they are rapidly being deserted and that a consolidated schoolhouse will be met with farther up the road. These new buildings are graded, and many have several high school courses, so that one teacher now teaches only one class, whereas in the old days the pedagogue taught everything from the alphabet to Latin. Of course, the consolidated schoolhouse is not so convenient to all the children, as they have to go a greater distance, but all of them ride to school nowadays. The consolidated school is much cheaper to the community, and what the farmer saves in taxes he puts in sleighs and wagons, so that his children may ride. Pupils can also remain at their home school much longer than they formerly could, and this also is a great saving. We may expect great results from this change, for the farmers with their poor schools have turned out some wonderful men, and they should do even better under the new conditions.

Duration of Animal Life.

A great variance as to length of life appears among different animals. Some insects live only for a few hours, while fish, elephants and turtles are frequently centenarians. The average life of the mosquito is three days. Toads usually live to the age of about 15 years, while carp have been known to reach a hundred and fifty. Chickens live from 12 to 15 years; dogs to the age of 10 and occasionally 15, and parrots to extreme age. These birds have been known to pass the age of 200 years. Turtles are also frequently centenarians, as are storks, and elephants are said to reach the age of 300 years.

Macaroni Wheat.

Salzer's strain of Macaroni or Kubanka wheat is absolutely pure and is from seed obtained from the Department of Agriculture. Our strain is Dakota grown which laughs at droughts and elements and positively mocks black rust that terrible scorch and would be ashamed of itself if it did not return from 40 to 80 bu. of the finest wheat the sun shines on per acre in good Ill., Ia., Mich., Wis., Ohio, Penn., Mo., Neb., Kan., and other lands, and 40 to 60 bu. per acre in arid lands. No rust, no insects, no failure.

JUST SEND 10c AND THIS NOTICE to the John A. Salzer Seed Co., La Crosse, Wis., and they will send you the most original seed book published, together with free samples of farm seeds such as Macaroni Wheat, Billion Dollar Grass, Victoria Rape, Sainfoin, the dry soil luxuriator, Bromus Inermis, the desert grassifier, Emperor William Oats, more original than the Emperor himself, etc., etc., etc.

And if you send 14c they will mail in addition a package of farm seed never before seen by you. John A. Salzer Seed Co., La Crosse, Wis. K. & W.

GREATNESS.

The man who has greatness thrust upon him is always sure that he could have achieved it if that had been necessary.

HOW DO THEY GET IN?

Physiological Problem That Nora Could Not Solve.

A Philadelphia physician tells of an amusing conversation between two Irish girls in domestic service who, while on the board walk at Atlantic City one day not long ago, were exchanging views as to their various physical ailments.

"It's a sthrange thing, ain't it, Norah," asked one of the girls, "how manny new koinds of diseases people get these days. Only this mor-rnin' I were readin' an advertisement of a new midicine. It said it were wonderful for a sluggish liver."

"Gwan!" exclaimed the other girl, scornfully. "Liver trouble an't no new disase. Me own grandfather was havin' liver trouble whin I were not more'n tin years old."

"Maybe," was the laconic response. "But," added Norah, "what I want to know is: how do thim slugs get inside the liver, anyhow?"—Illustrated Sunday Magazine.

BRAIN POWER

Increased by Proper Feeding.

A lady writer who not only has done good literary work, but reared a family, found in Grape-Nuts the ideal food for brain work and to develop healthy children. She writes:—

"I am an enthusiastic proclaimer of Grape-Nuts as a regular diet. I formerly had no appetite in the morning and for 8 years while nursing my four children, had insufficient nourishment for them.

"Unable to eat breakfast I felt faint later, and would go to the pantry and eat cold chops, sausage, cookies, doughnuts or anything I happened to find. Being a writer, at times my head felt heavy and my brain asleep.

"When I read of Grape-Nuts I began eating it every morning, also gave it to the children, including, my 10 months old baby, who soon grew as fat as a litle pig, good natured and contented.

"Within a week I had plenty of breast milk, and felt stronger within two weeks. I wrote evenings and feeling the need of sustained brain power, began eating a small saucer of Grape-Nuts with milk instead of my usual indigestible hot pudding, pie, or cake for dessert at night.

"Grape-Nuts did wonders for me and I learned to like it. I did not mind my housework or mother's cares, for I felt strong and full of 'go.' I grew plump, nerves strong, and when I wrote my brain was active and clear; indeed, the dull head pain never returned."

REPRESENTATIVES.

I hereby announce myself a candidate for Representative in the next General Assembly of Iowa, subject to nomination by the republican party in the regular primary election.

George P. Hardwick, Britt, Iowa.

Dated Jan. 23, 1908.

To the Republican voters of Hancock County, Iowa:

I hereby announce that I am a candidate for the republican nomination for the office of Representative in the state legislature from Hancock county I respectfully solicit your support at the Primary Election to be held June 2, 1908. A. C. Ripley.

Dated Jan. 23, 1908.

F. H. Ridder had the misfortune one day this week to get seriously hurt. He was doing some repair work on a wagon and in some way the bolster struck him on his back which will lay him up for some time. We are in hopes that his injuries will not prove serious.

A DANGEROUS OPERATION

is the removal of ths appendix by a surgeon. No one who takes Doctor King's new life pills is ever subject to this frightful ordeal. They work so quietly you don't feel them. They cure constipation, headache, biliousnesss and malaria. 25c at J L Harr & Co. drug store.

In this edition of the Times in another column will be found the statement of the condition of the State Savings Bank as submitted to the Auditor of the State showing their condition on Feb. 14th. This statement is surely a credit to such a progressive institution as the State Savings Bank showing amply cash resources to take care of their customers needs and at their annual meeting they passed $3500.00 more into the surplus fund increasing that fund to $7500.00 half as great as their capital stock and this together with the undivided profits gives them a working capital of a little more than $23000.00 better than ever prepared to take care of their customers need. During the financial flurry last Fall the State Savings Bank took care of all its customers needs as well as clerking more sales than any other Bank in our county and this surely goes to exemplify that the State Savings is as solid as a rock and stands ready to weather its customers thru any financial storm and all they ask is that you give them a chance. The total resources are now amounting close to $140,000 which is a marvelous growth for the very short time the bank has been operating, the policy of the bank has always been to safeguard its depositors as well as other customers and yet for a safe and progressive growth, We wish to congratulate Cas Griesemer and Ass't Cash. Wenck for their incessant in building up such a mon of strength.

Everything taken into the stomach should be digested fully within a certain time. When you feel that your stomach is not in good order, that the food you have eaten is not being digested take a good natural digestant that will do the work the digestive juices are not doing. The best remedy known today for all stomach troubles is Kodol which is guaranteed to give prompt relief, It is a natural digestant it digests what you eat. it is pleasant to take and is sold by J L Harr & Co.

The basket sociable and program held at the Katter school last Friday evening was a grand success. The baskets sold well. Aug. Katter did the auctioneering act in the very latest style. The program was carried out in full and every one who took part did themselves credit. Mr. Foley is to be congratulated for his efficient work as a teacher and especially in the program which he had carried out.

At times when you don't feel just right when you have a bad stomach take something right away that will assist digestion not sumething that will stimulate for a time but something that will positively do the work that the stomach performs under normal condition something that will make the food digest. To do this you must take a natural digestant like Kodol for dyspepsia. Kodol is a scientific preparation of vegetable adids with natural digestants and contains the same juices found in a healthy stomach. Each dose will digest more than 3,000 grains of food. It is sure to afford prompt relief, it digests what you eat and is pleasant to take. Sold by J L Harr & Co.

A Nature Student.

The faculty with which the New York child grasps the "new idea" in matters educational is charmingly illustrated in a composition recently penned by a six-year-old. Her teacher had asked for brief compositions on "Animals I Have Seen." This is the result, written in the present day vertical penmanship:

"Do you see the little robin swinging on the tree? Do you see the little goldfish a-swimming in the bowl? Who teached these two to fly so beautifully together? Who struck the feathers on their breasts? 'Twas God —'Twas God. He done it."

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

DES MOINES PLAN O. K.

Supreme Court Says Law is Constitutional.

Des Moines.—Unanimous in its verdict, the state supreme court handed down its decision approving the Des Moines plan of government. It is a signal victory for the friends of the movement. It meets all of the anticipations so far as their contentions as to the legality and the constitutionality of the law were concerned.

The decision occupied forty-five typewritten pages and goes into the questions exhaustively. Judge Bishop prepared the document.

One of the main points of contention on the part of the opponents of the measure was that the law was unconstitutional for the reason that it joined the co-ordinate branches of the government in placing the control of the administrative, legislative and judicial in the power of one commission. The supreme court wiped away this contention with ease, asserting the Des Moines law was perfectly legal in combining these branches and that the statute books were full of instances where these functions had been combined. The court cited the villages and towns of the state where the mayor had a right to vote upon the city council. Many similar cases were cited where the functions were combined in the state laws.

In the matter of the referendum and recall the court held that the people had legislative functions and that they had a right to delegate this power in the manner in which they did and that the law as written in the Des Moines plan was perfectly legal and constitutional.

In fact the law was declared constitutional in every regard and detail.

CASHIER HOLDS HIM.

Davenport Banker Captures Burglar After Struggle.

Davenport.—After a fierce struggle, Cashier ulius Burmeister of the Iowa National bank overpowered a stranger believed to be wanted here and elsewhere for safe burglaries and other crimes.

The stranger called at the bank to cash a check which had been stolen from the safe of the Rock Island Fuel company, which was cracked the night before. All the Davenport banks had lists of the stolen checks, and the paper was at once recognized by Cashier Burmeister. When the man attempted to run, Burmeister seized and overpowered him, later turning him over to the police. He gave his name as Arthur Johnson, of Memphis, Tenn.

Davenport business men are becoming proficient as thief catchers, Henry Vonmaur, one of the proprietors of the Boston store, having recently captured a noted check forger after a similar struggle. This man was later sent east and given a ten year term for crimes committed in New ersey.

GIRL BURNED ALIVE.

Miss Maude Wilson's Fate at Independence Hotel.

Waterloo.—Miss Maude Wilson, who is employed as cook at the Gedney hotel at Independence, was so seriously burned that she will die.

Her terrifying screams brought a number of traveling men from the office, and they found the girl enveloped in flames. Miss Wilson lay on the floor semiconscious. The rescuers threw their coats over her and smothered the flames. The fire had burned away her hair and the flesh from one arm, also portions of her nose and chin.

The entire body was a mass of burns, and the terrible sight of the clothing clinging in patches to the tender flesh caused many of the traveling men, unused to such a sight, to leave the room.

The young girl is still living, but growing weaker, and there is no hope for her recovery.

The origin of the fire is unknown and an inquest will be held.

MAN BURNS TO DEATH.

Oil From Lantern Saturates His Clothing.

Burlington.—Deluged with oil from a lantern, Frank Oscar Magnuson coachman for Mrs. W. D. Gilbert, was burned to death while lying in the snow in the rear of the Gilbert home. The accident was a remarkable one. Mr. Magnuson was on his way to the stables to care for the animals shortly after 5 o'clock and a lantern was needed on account of the darkness. It is presumed that as he was about to enter the cow shed he was stricken with apoplexy and fell to the ground in the snow. The lantern, which fell from the powerless fingers, was overturned, soaking the helpless man. The oil was ablaze in a minute and Magnuson was enveloped in flames.

Neighbors who saw the accident ran to his assistance, but before the flames could be extinguished he had sustained burns which resulted in his death a few hours later.

BAD WRECK KILLS ONE.

Switch Engine on Minneaolis & St. Louis Derailed.

Fort Dodge.—As the result of a broken rail on the Minneapolis & St. Louis railway two miles south of this city, a switch engine plunged down a twenty-five foot embankment, instantly killing George Scott, switchman, and injuring four others on board, all living in this city.

Engineer Charles Snook and Fireman Ross Jutman had just helped the long southbound freight out of the city and over a steep grade near the Des Moines river and were returning to the yards with a light engine and three men aboard. The shock of striking the broken rail, broke the tender loose and threw Switchman Scott under the falling tender.

The engine stopped ten feet from the river while the tender remained parallel with the track further up the bank.

Other lives might have been added to the list of casualties but for the bravery of Floyd White, one of the men aboard, who, upon returning consciousness, remembered that an extra from the south was due at that moment. He dragged himself limping along the track and signalled the train as it rounded a sharp curve.

Sale of Loot Picked Up by Wife of Minister Conger.

New York, N. Y.—The second day's receipts of the sale of the collection of Chinese curios made by Mrs. E. H. Conger in Pekin before and during the Boxer uprising, while her husband was United States minister to China, amounted to $9,382, a total of $17,439 for the two day's sale. A large number of articles were purchased presumably for the Metropolitan Museum of Art. Mrs. W. K. Vanderbilt, Jr., also was a large purchaser.

"The imperial bell," one of the first articles offered for sale, hardly a foot high and less than 9 inches in diameter, was bid up to $560. This highly carved bell, made of brass, hung in the temple of agriculture in Pekin, and the story goes that, once each year it was the custom of the emperor of China to have it rung as the signal for beginning the planting season. As it sounded the emperor with his own hands ran a plow over prepared ground and then planted seed for the first crop. Antique war clubs of brass, wielded in defense of long forgotten dynasties brought far higher prices.

SUE BONDSMEN FOR DEPOSITS.

$50,000 Demanded by Lucas County of Defunct Bank Securities.

Chariton.—A suit has been filed with the county clerk by Messrs. Norman, White and Roberts, members of the board of supervisors of Lucas county, against the First National bank, the estate of F. R. Crocker and C. W. Ramsey, G. W. Larimer, Mrs. S. H. Mallory and Mrs. Jessie M. Thayer, for $50,000, which the defendants as bondsmen guaranteed to secure the county deposits in the First National bank, now defunct.

When the bank failed County Treasurer Wright demanded the $52,904.42 that he had deposited there, but his request was refused. The bank failed on Oct. 31 last and the bondsmen have not settled, so the board is bringing suit to enforce payment, with interest and costs.

BUSINESS MEN ARE ANGRY.

Sioux City Association Denounces Activity of Tax Ferrets.

Sioux City.—Denouncing in scathing terms the methods pursued by Woodbury county tex ferrets in attempting to collect back taxes alleged to be due on moneys, credits and real estate, 150 representatives of the commercial interests of Sioux City met and adopted stinging resolutions. The resolutions were presented by Mayor W. G. Sears and E. A. Burgess. At the conclusion of the meeting a delegation headed by Will H. Beck, president of the Commercial club, attended a hearing given by the Woodbury county board of supervisors. The committee protested strongly against the board authorizing the collection of back taxes on insurance policies from men who suffered in the big fire of 1904.

FIVE SALOONS ENJOINED.

Davenport.—Thomas G. Conant and J. W. Vascal, members of the Davenport Civic federation, through Attorney H. B. Betty, took out injunctions against five saloons, alleging that they were not observing the regulations of the mulct law. Those enjoined are Brick Munroe, Pearl Galvin, Pink Dillig, Claus Groth Hall, Assan Raphael and Parser Garden. All except Dillig conducted dance halls in connection with their saloons. Selling intoxicants to guests after the prohibited hours is stated to be the main basis for the prosecutions. It is stated that more prosecutions are to follow.

CUT OUT FOR A FINANCIER.

Shrewd Rascal Made Good Thing Out of Whistling Geese.

Two rogues passed a poultry shop. Seeing two geese hung up for sale one of the rogues inserted in the gullet of the goose a little bulb with whistle attached. When the bulb was pressed the whistle sounded.

Then, entering the store, he told the proprietor that he had hanging outside a very rare kind of whistling goose. The proprietor at once sold the goose for a big sum to a very learned professor, who was astonished to hear about the whistling goose. Seeking the man who had placed the whistle in the gullet of the bird, the proprietor asked him if he knew where others like it could be obtained.

"Well," said the crafty fellow, "I know of only one place, and if you will pay me a big price I will get several for you."

So the rogue brought a dozen fowls, in the gullet of each of which he thrust a whistle, and was paid an exorbitant price for them before the hoax was discovered.

ECZEMA FOR 55 YEARS.

Suffered Torments from Birth—In Frightful Condition—Got No Help Until Cuticura Cured Him.

"I had an itching, tormenting eczema ever since I came into the world, and I am now a man 55 years old. I tried all kinds of medicines I heard of, but found no relief. I was truly in a frightful condition. At last I broke out all over with red and white boils, which kept growing until they were as big as walnuts, causing great pain and misery, but I kept from scratching as well as I could. I was so run down that I could hardly do my work. I used Cuticura Soap, Ointment, Resolvent, and Pills for about eight months, and I can truthfully say I am cured. Hale Bordwell, Tipton, Ia., Aug. 17, 1907."

"I cheerfully endorse the above testimonial. It is the truth. I know Mr. Bordwell and know the condition he was in. Nelson R. Burnett, Tipton, Ia."

WOMAN'S BACKACHE

The back is the mainspring of woman's organism. It quickly calls attention to trouble by aching, and tells, with other symptoms, such as nervousness, headache, pains in the loins, weight in the lower part of the body, that a woman's feminine organism needs immediate attention.

In such cases the one sure remedy which speedily removes the cause and restores the feminine organism to a healthy, normal condition is

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Will Young, of 6 College Ave., Rockland, Me., says:

"I was troubled for a long time with dreadful backaches and a pain in my side, and was miserable in every way. I doctored until I was discouraged, and thought I would never get well. I knew what Lydia E. Pinkham's Vegetable Compound had done for others, and decided to try it; after taking a few bottles I can truly say that I never felt so well in my life."

Mrs. Augustus Lyon, of East Liberty, Pa., writes to Mrs. Pinkham:

"I had very severe backaches, bearing-down pains. I could not sleep, and had no appetite. Lydia E. Pinkham's Vegetable Compound cured me, and made me feel like a new woman."

FACTS FOR SICK WOMEN

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

ENGINEERS' CHIEF DISCUSSES REDUCTION IN WAGES.

DISTINCTION TO BE MADE

Pay by Mile Equivalent to Piecework Insist Injured Trainmen—Trouble Predicted.

Cleveland, O., Feb. 22.—Warren S. Stone, grand chief of the Brotherhood of Local Engineers, yesterday made the following statement in connection with the reported purpose of some railway companies to order a general reduction in the wages of employes:

"The threatened reduction in the wages of employes in train service is absolutely unjustified from any point of view. Their pay is based on mileage basis, practically piece work, and they are only paid when these services are performed. Wages of employes in train service fall parallel with the shrinkage in business, plus increased living expenses, away from home. When the earnings are $150 per month, their expense of living away from home is about 15 per cent, while at the present reduced rate of $70, which has to be met by hundreds under the conditions that expense will increase to at least 20 per cent of earnings because they are held away from the home terminal until there is a full tonnage train to be handled, making a total automatic reduction already in wages from 60 to 70 per cent.

"The roads are getting the same return in freight receipts for the service rendered as they did when the business was good and there is no consistency in asking men to accept further reductions than result from the present business shrinkage and the full power of the Brotherhood of Locomotive Engineers will be used, if necessary, in an effort to prevent any further reduction, because it would be absolutely unjust."

William G. Lee, assistant grand master of the Brotherhood of Railway Trainmen, speaking for his organization on the same subject, dictated the following:

"The wage workers have not had a thing to do with the panic and loss of business except to suffer from the mismanagement of some employers and speculators who blundered in the game of dollars on Wall street. If he works he produces just as much per hour as he ever did. His living expenses are just as high as ever before.

"All classes of trainmen are paid by the mile and trip and a reduction of miles run or trips made means a reduction of the amount paid for by the employer.

"There can be no good argument presented why trainmen should receive lower trip or mileage rates for mile run. Freight trains are not run unless business requires it. Corporations never carry an overload of labor, but labor is usually compelled to carry an overload of capitalization.

"It is no fault of labor that financiers play with their money and lose nor is it the business of labor to suffer the losses sustained when its employers reach too far into the fire and get their fingers burned.

"Our principal business now is to maintain the present standard of living which means to hold to the present standard of wages and unless all signs fail, railroad employes will oppose to the bitter end any attempt to reduce wages."

Southern Gardens Damaged.

New Orleans, La., Feb. 22.—Early fruits and vegetables, mostly intended for shipment to the north, have been damaged by the cold wave of the last two days. Reports from southern Mississippi and Louisana are that strawberries, which are in bloom, have been injured, and that lettuce, radishes and peas have suffered.

Peach, pear and orange trees, which were in blossom, have been hurt, but great numbers of such trees escaped. Long Beach, Miss., which is on the gulf shore, reported ice half an inch thick.

Kills Self For Stoessel.

Hartford, Conn., Feb. 22.—Because of her regret over the conviction of General Stoessel, at St. Petersburg, Amelie Karris killed herself here by inhaling illuminating gas. The girl was a Russian and had been formerly employed in the general's family. She was working here in the home of Joseph Silver and when she was informed of General Stoessel's conviction she went to her room and no more was heard from her. When the escaping gas caused the door of her room to be broken open she was found dead.

Cashier Skips Out.

West Point.—The Bank of West Point failed here and Cashier Lawrence Smith, who left the city Saturday night, has not been heard of since. It is claimed that all of the depositors will be paid in full. Herman Schroeder of Fort Madison has been appointed receiver. Mr. Smith is mayor of the city, his term expiring March next. The assets and liabilities of the bank are unknown.

Stock Yards a Violator.

Lincoln, Neb., Feb. 22.—In the federal court yesterday afternoon Judge T. C. Munger declared the Union Stock Yards company of South Omaha guilty of violating the safety appliance regulations of the interstate commerce act. A train engaged in switching to Council Bluffs was not properly equipped, it was charged.

IMMIGRATION FROM SOUTH EXPECTED

U. S. FARMERS ARE RECOGNIZING SPLENDID OPPORTUNITIES OFFERED BY WESTERN CANADA.

St. Paul, Minn., Feb. 9, 1908.—Present indications are that the Canadian Northwest will draw an exceptionally heavy movement of new settlers from the United States this year. It should surpass the banner record for 1907. This is not only based on the fact that the Americans have come to realize generally that the Canadian Northwest offers splendid opportunities, but also because the railroads have awakened to the fact and are offering rates to the Canadian Northwest which are exceptionally favorable.

The lines which lead to St. Paul from the east and south are offering homeseekers' rates to the Canadian Northwest this year which are on a parity with those in existence to the southwest for a couple of seasons.

These rates can be obtained from any agent of the Canadian government, who will be pleased to give all information possible regarding those districts which offer the greatest inducements to settlers. The weather throughout Western Canada has been remarkably good this year. A telegram from the winter wheat belt of Southern Alberta dated at Cardston, Alberta, January 29th, says:

"This winter up to January 25 was nothing short of a marvel, in fact, it was the finest anyone can remember for twenty-five years though there have been others nearly as good. The days were fine, sunny and warm with light frosts at night. Overcoats and gloves, etc., were discarded by most people in the day time. There was so little frost in the ground that post holes could be dug without any trouble after the first inch was broken through. Winter wheat remained fresh and green although there has been no snow since the September storm. If there is an early spring, winter wheat should gain a great start."

Amongst the reports of the yield of last year the following extracts are taken:

H. Howe, of Magrath, Alta, writing on November, 1907, says: "I have 70 acres in crop, 50 acres of wheat and seven acres of oats. My average yield of oats was 35 bushels to the acre, and of wheat 45 bushels. The value to me was $35 per acre."

J. F. Haycock, of Magrath, writes in November: "I had 65 acres in winter wheat, which went 60 bushels to the acre; oats averaged 80 bushels. I also had 12 tons of hay worth $10 per ton. I got 600 bushels of potatoes from three acres of land; I got eight tons per acre from five acres of sugar beet."

J. F. Bradshaw, of Magrath, had 1,030 acres of winter wheat last year which averaged 39½ bushels to the acre. The value of his farm products per acre was: Wheat, $31.60; oats, $11.20 and barley, $25.15.

"What?" asks the maiden aunt. "Going to marry that Mr. Newwun? Why, you hardly know the man, Imogene. In the few days you have been acquainted with him you cannot possibly have learned anything of his family of antecedents or habits or personal circumstances."

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in 10c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

Took the Wrong House.

On one of the Southern railroads there is a station building that is commonly known by travelers as the smallest railroad station in America.

It is of this station that the story is told that an old farmer was expecting a chicken house to arrive there, and he sent one of his hands, a newcomer, to fetch it.

Arriving there the man saw the house, loaded it on his wagon and started for home.

On the way he met a man in uniform with the words "Station Agent" on his cap.

"Say, hold on. What have you got on that wagon," he asked,

"My chicken house, of course," was the reply.

"Chicken house be jiggered," exploded the official. "That's the station."

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. Write now for our low prices and a dozen reasons why every farm should have them.

REAR ADMIRAL CAPPS REPLIES TO MAGAZINE ARTICLE.

Chief Constructor of Navy Answers Criticisms Before Senate Naval Committee.

Washington. — Rear Admiral Washington Lee Capps, chief constructor of the navy, Wednesday before the senate committee on naval affairs replied to the magazine article written by Henry Reuterdahl in criticism of the construction of American battleships. The admiral asserted that the American ships are the equal of ships of any navy of the world. The most serious charges made, he said, were of insufficient free board, meaning height from water line to deck; insufficient gun height, and improper location of main line armor belts, and all these he explained have been the subject of the closest study and experiment for many years by naval designers of every country. Admiral Capps characterized as "exploded" the theory that if a shell penetrated the armor plate at a slight incline it would be deflected upward by the armor of the protected deck. "All efforts," he added, "should be directed toward keeping the shell out; all the armor should be put on the ship in vertical form."

"Put it all on the outside?" remarked Senator Tillman.

"Exactly, for if a shell goes through 11 inches of armor it will explode any way. The protected deck would not be a protection at all."

The admiral said the fact that in the Dreadnaught class in Great Britain, and the Delaware class in the United States, the forward free board has been made one deck higher than the previous class does not indicate that the latter was too low.

"They are just right for their type," he said. "The Delaware is made high forward because she is designed on finer lines, much longer, and for greater speed, which, of course, casts the spray higher. No increase has been made in the free board except at the bow."

He stated that during the five hours firing in the fight of the sea of Japan, the rapidity of firing from big guns of Japanese vessels was only one-fourth of that maintained by the American navy during recent target practice.

RECEIVER FOR ROAD.

International Railway Goes Into New Hands.

Fort Worth, Tex.—On application made in behalf of the Metropolitan Trust company of New York, before Judge Edward R. Meek of the federal court of the Northern district of Texas, Wednesday afternoon, alleging default of the interest on a bond issue of 1892, T. J. Freeman of New Orleans was named as receiver for the International & Great Northern railroad. Surety will be executed and the receiver will soon qualify to take over the property. Mr. Freeman is general solicitor for the Texas & Pacific railroad and high in the counsels of the Gould lines. He left for Dallas Wednesday afternoon. The International & Great Northern Railroad company, organized in 1873 and reorganized in 1892, operates 1,158 miles of road in Texas, one branch running from Longview to Laredo, and other branches from Fort Worth and from Palestine to Galveston. The company has a bonded indebtedness of $25,327,053, and capital stock is issued to the amount of $9,755,000. George J. Gould is president of the International & Great Northern Railroad company and its main office is in Palestine, Tex.

RESOLVED TO SNUB EVE.

Mrs. Intheswim Intended to Draw Social Line in Heaven.

The minister had dropped in to tea, and the conversation had drifted through various channels to the question of whether or not we should know each other in heaven. Presuming that our physical beings would be perpetuated, and that recognition would be assured, the minister had asked various ones at the table among whom the Biblical characters they would be most interested in recognizing.

Some mentioned one prophet and some another, but one lady, noted for her social exclusiveness, had not spoken. Turning to her the minister said: "And who would you like to meet in heaven, Mrs. Intheswim?"

Mrs. Intheswim pursed her lips. "I really don't know," she said, "but there is one thing I do know, and that is that I shouldn't care to meet Eve. In fact, I don't know that I would speak to her if I did!"

"Some years ago my three little girls had a very bad form of eczema. Itching eruptions formed on the backs of their heads which were simply covered. I tried almost everything, but failed. Then my mother recommended the Cuticura Remedies. I washed my children's heads with Cuticura Soap and then applied the wonderful ointment, Cuticura. I did this four or five times and I can say that they have been entirely cured. I have another baby who is so plump that the folds of skin on his neck were broken and even bled. Then she drove back the dog and gave the wanderer half a loaf and a chunk of cold beef.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

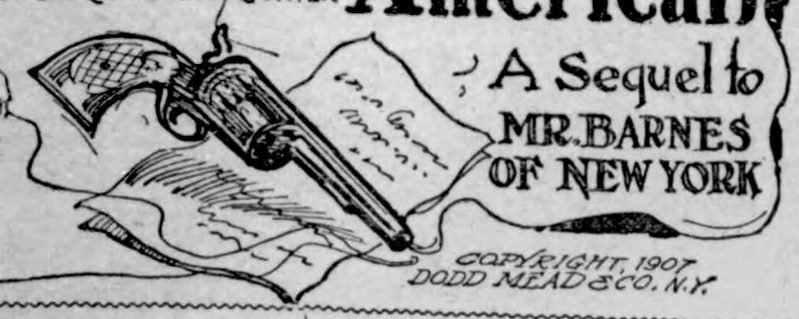
Mr. Barnes, American

By Archibald Clavering Gunter

Author of Mr. Barnes of New York, Mr. Potter of Texas, That Frenchman, etc.



A Sequel to Mr. Barnes of New York

COPYRIGHT, 1907, DODD MEAD & CO. N.Y.

SYNOPSIS.

Burton H. Barnes, a wealthy American during Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he saves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes gets part of the mysterious note and receives letters which inform him that he is marked by the vendetta. He employs an American detective and plans to beat the vendetta at their own game. For the purpose of securing the safety of the women Barnes arranges to have Lady Chartris lease a secluded villa at Nice to which the party is to be taken in a yacht. Barnes and Enid make arrangements for their marriage. The net tightens about Barnes. He receives a note from La Belle Blackwood, the American adventuress. Barnes hears that Elijah Emory, his detective, has been murdered by the Corsicans. He learns that the man supposed to be Corregio, who followed the party on their way to the boat, was Saliceti, a nephew of the count, and that Count Corregio had been in Nice for some time prior to the party's arrival. The count warns Barnes not to marry Enid unless he would have her also involved in the murderous vendetta. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves to search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Saliceti informing him that the kidnaping was for the purpose of entrapping Barnes, that the vendetta may kill him. Barnes and Marina have unusual adventures in their search for Enid. They come in sight of her and her captors in the Corsican mountain wilds just as night approaches. In seeking shelter from a storm the couple enter a hermitage and there to their amazement they discover Tomasso, the foster father of Marina, who was supposed to have been killed by De Belloc's soldiers, and for whose death Barnes had been vendettaed. Tomasso learns that Marina's husband did not kill her brother.

CHAPTER XIII.—Continued.

Here, as they warm themselves before the fire, Tomasso remarks: "I have little to offer you, dear mistress, but some dried sheep's flesh."

"Pish! hunger is nothing. You are alive, dear old Tomasso," retorts the girl, as he again fumbles her hand. Still the young lady's eyes seem happier when Barnes, opening his haversack, throws out cans of preserved meats, boiled chicken and tinned biscuits; also tea and coffee and tin cups and plates. These being followed by a box of cigars, the American emits a snort of joy, and remarks: "Little Leboet is a genius."

Immediately all together they go to work to make a mountain supper. Soon after, as they eat, Barnes remarks: "This is a mighty curious coincidence. Do you know, old Tomasso, that Saliceti, the young politician here, the one who is to marry your daughter, Etheria, has sworn a vendetta against me for putting the troops on your track and getting you shot to death?"

"A vendetta against you? Well, it is his duty, seeing he is to marry my daughter, had your soldiers killed me," returns the old Corsican, in his simple way.

A moment after, however, he chuckles to himself: "Per Dio, that was what Rochini and Romano wanted me to do to-day—I was to kill you."

"Those awful monsters," shudders Marina.

"What makes you think that, Monaldi?" asks Barnes, surprise upon his face.

"Well, this Rochini, and his mate, have been run out of Rotondo, the farmers there having got tired of their sheep disappearing too rapidly, and have come over to this mountain. To-day these two approached me some four hours ago and said: 'Brother Monaldi out of a job, join us. A messenger has been sent ahead and we are going down to help Saliceti make peace for himself by killing the American down in the vale toward Guardo.'"

"Hum! then you did not accept," remarks Barnes, lighting his cigar.

"I am not quite bandit enough to be not a man I have never heard of before," answers old Monaldi proudly, "I said: 'No.' 'Ah, but he will have to do with him,' cried Rochini. 'Foreigners always have gold,' said Romano, and the two went on their way. They are down the valley now."

"That is not all of it," says Barnes anxiously. "Your loved mistress—her life is in danger, too."

"Not by those or any other men while I, Tomasso, am alive," answers the old man savagely.

"No, but by Cipriano Danella, Musso's brother, and the scar-eyed young man, Musso's nephew."

"Oh, yes; I know them both. They—they threaten her?" The old Corsican gazes with love and reverence upon the being he adores. "Threaten her—these people?" he exclaims vindictively.

"Yes, because your stiletto killed Musso, they say she plotted with you for his murder, so as to save her husband," remarks Barnes, puffing his cigar.

"What, when she shrieked to me not to strike through the curtain. Ah, but I have something to say to Musso's relatives. And my friend, Saliceti, whom I once voted for, who is to marry my Etheria—if he is with them, I will have a word with Saliceti, and should he not prove pliable Etheria must get another for husband. Girls should not marry corpses, and Saliceti will be dead." As if the matter is ended, old Monaldi fills a battered cherrywood pipe with the strong, bitter, native tobacco of the island, lights it and goes to puffing contentedly.

"Neither of the Danellas is in Corsica," remarks Barnes. "The danger will come to your mistress when she returns to her husband on the French mainland. But Saliceti has abducted my wife and brought her here—so that I, following him, shall come to my death in Bocognano."

"Pah, nothing will come to your wife to-night," says old Monaldi. "Girls picking wild strawberries were talking that the day after to-morrow the people vote. They have a meeting this evening in Bocognano. I listened from behind a rock and heard them."

But Barnes is not so easy about his captured bride; he steps out of the cabin and finds the wind has died away, the mist has cleared with the rapidity usual to mountain storms.

He steps in and says anxiously to Marina: "The evening is very clear. You know my anguish—do you think you have strength to venture down the heights, assisted by Tomasso and me, and enter your own village?"

"Certainly, I am refreshed. Another cup of tea and I will go with you," cries the girl so eagerly that Barnes puts grateful eyes upon her, for he knows it is her spirit more than her strength that produces her assent to further journey.

They are making hurried preparations to leave the cabin. Barnes is bending over the fire, brewing Marina's tea—their guns, and even the American's revolvers are lying in their belt on the pile of boughs near the entrance. Tomasso is saying: "Will I not astonish the men who swore a vendetta against you for my death! I who am alive and—and—" when suddenly Tomasso stops. There is a rattle in his throat that causes Barnes to look hurriedly up. Marina has retreated to the corner of the cabin and Monaldi's eyes are full of horror.

Just across the fire from him stand two dark mountaineers. Rough, undressed sheepskins cover their brawny shoulders; long guns are in their hands and stilettos in their belts. One is a big, powerful looking ruffian; the other slighter, but his brown limbs lithe and sinewy. The eyes of both are shining malevolently in the blaze.

"Corp di diavolo, this is a rare catch you have made, hermit bandit, whose name we do not know," chuckles the bigger of the two men; "this Americano whose pockets Saliceti declared were lined with gold, he whom we waited for and missed in the vale below."

"Ah, you are Rochini and Romano, I believe from your speech, gentlemen," says Barnes quietly.

"Aye, that we are. And who is this woman of the beautiful eyes? Hand thy captives over to us, hermit bandit. Divide your spoils with us and we will save you the trouble of cutting the man's throat," jeers the slighter miscreant.

Certainly I Am Refreshed, Another Cup of Tea and I Will Go with You.

"As for the woman, the fire tells me she is very lovely both as to limbs and face, and I have a better use for her," guffaws the bigger man.

And never was Marina more beautiful. She confronts the ruffians with undaunted mien, and says commandingly: "Fellows, dare to lay your hands on me and the whole of Bocognano will hunt you down. The Bellacoscia will destroy you. I am Marina Paoli."

"Oh, she is merry with us, this girl who runs after foreign gentlemen. Now we will show her that Corsican kisses are as good as those of this Americano."

Brutally they draw near to her. As the girl draws back from the contaminating clasp of the monsters, Tomasso, with a savage cry, and uplifted stiletto, stands between.

In a second the old man will be dead under their knives and the brave girl their prey. Marina's undaunted eyes, turning in appeal to the American, see with astonishment that he makes no move to aid her, but is abjectly squirming toward the cabin door. Suddenly she utters a gasp of despair and a sigh of contempt; this great pistol shot is running timidly away, flying out of the cabin, though as he passes the pile of boughs he seizes the belt holding his two revolvers.

"He has the gold! After him!" cries Rochini.

"We'll knife him in a minute!" yells Romano, and the two, cocking their guns, fly after the dastard American.

But as they reach the door, the moment their athletic forms are outlined by the blaze of the fire, two quick, sharp pistol reports come from the outside, and Rochini and Romano, without even a cry, fall to the earth, inert and dead.

The smoke of Barnes' revolvers issues from them as he quietly re-enters and says apologetically: "I knew I wouldn't have time to grab my guns and shoot before they'd knife me, so I imitated the trick of Jerry, the Denver barkeeper, and ran away till I could get my weapons ready."

A moment later he says: "Come!" and taking Marina carefully in his arms, whispers: "Turn your face from them," and steps over the dead men lying in the entrance of the cabin.

Behind him, Tomasso, following, carrying the American's rifle, is saying: "Oh, you will be worshiped in this commune for this. So many poor men have been butchered, so many poor women have been carried away to the mountains by these dead devils."

But the reports have drawn others to the spot. As Barnes steps over the dead men lying in the entrance of the cabin, he suddenly says: "By heaven, here are more of them!" puts Marina down and would draw his revolvers were he not seized by three athletic young fellows who rise silently from the shadows about them.

A clear, commanding voice remarks: "No more of Rochini and his fellows. You have saved us the trouble of their killing. We are the Bellacoscia. Your pistols, stranger, have relieved us of the execution of these ruffians we were pursuing, who have brought discredit on the honored name of bandit."

And Tomasso is crying, "Antonio Bonelli," to a man of noble bearing, who, carbine in hand, comes into the cabin followed by eight stalwart young men, all armed as he is.

But the young men fear the supernatural and stand back, their eyes gleaming, and one shudders: "'Tis the ghost of old Monaldi, killed by De Belloc's troopers two weeks ago." For a moment they would retreat, but their leader laughs at them: "'Tis flesh and blood that is kissing my hand."

And old Tomasso says: "You know how well the troopers shoot. Do you think they'd hit a man at 200 yards hiding behind a rock in the gloom of the morning?"

But the flashing-eyed man orders: "Stand back, while I question this stranger who has done Bocognano a service to-night."

Marina has risen, murmuring: "Antonio Bonelli!"

"Gran Dio! Mademoiselle Paoli," says the man, and gallantly sinks upon his knee and kisses devotedly the fair hand the girl extends to him. After a moment he continues most emphatically: "It was with sorrow that Corsica heard that you had forgotten the oath of the vendetta in the arms of the English officer who killed your brother."

(TO BE CONTINUED.)

New York's Highest Building.

"How high is it?" This question at once directs thought to the Singer building, in lower Broadway. The question is asked by thousands of persons crossing from the Jersey shore. It was asked the other day of a tall, scholarly-looking man standing on the upper dick of one of the Pennsylvania ferryboats. "I do not know its exact height," said the man addressed, "but this I give as an opinion, that during a heavy thunder shower the height of that building would make it entirely possible for the sun to shine on the roof while the lower stories are being deluged by rain. The heavily laden rain clouds are only about 500 feet above the earth, while the lantern of the new Singer building will be almost 600 feet high. The building will tower high above the fog banks, I venture to say, thus affording New Yorkers one of the features of Switzerland right at their own doors."—N. Y. Tribune.

Sure Enough.

"Slick Pete seems to have got next to that young dude," said the first bunko man, "but I wonder what's the use." "Oh, there must be somethin' in it," replied the other, "for Pete don't waste his time." "Well, anyhow, it looks as if he was tryin' to do somethin' foolish."

Many a woman is jealous of a man who doesn't deserve the compliment.

Says Pe-ru-na is a Valuable Nerve and Blood Remedy.

MISS BESSIE FARRELL.

MISS BESSIE FARRELL 1011 Third Ave., Brooklyn, N. Y., is President of the Young People's Christian Temperance Association. She writes:

"Peruna is certainly a valuable nerve and blood remedy, calculated to build up the broken-down health of worn-out women. I have found by personal experience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn-out tissues. In my work I have had occasion to recommend it freely, especially to women.

"I know of nothing which is better to build up the strength of a young mother, in fact, all the ailments peculiar to women, so I am pleased to give it my hearty endorsement."

Dr. Hartman has prescribed Peruna for many thousand women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

Ernest Schwichtenberg is still very sick.

Albert Schmidt went to Woden, Tuesday.

Miss Dora Lau is helpiffg Mrs. Wm. Nuehring this week.

Adolph Schlichting is having his turn with the measles.

Wm. Nuehring and family visited at Charley Griffins' Sunday.

Roy Wendel and Willie Schuld have begun trapping at the Lakes.

Miss Anna Willert of Woden, is teaching the school in Dist. No. 2. this Township.

Wm. Nuehring shipped cattle Tuesday. Wm. Jr. went to Chicago the same date.

Some from this township attended the program in Germantown last Sunday evening.

Sunday proved to be a good day for the German meeting at the Center School house as there was a fair attendance.

Ernest Schwichtenberg son of Mr. John Schwichtenberg is quite sick with the "grip" and inflamatory rheumatism.

Herman Kipp moved from the Henry Martin farm recently purchased by Mr. Schwichtenberg, to the Wichman place near Garner.

Wenzels' and Sandrys' are enjoying a siege of measels. The Center school is having a poor attendance since they have been quarantined.

Mr. F. Loubeu and family left Saturday for Grundy County where they will live. Mr. H. Griffen of Germantown will soon move on the place they have vacated.

Fred Nuehring and August Rabe who have been visiting relatives and friends at Campbell Hill, Illinois and St Louis, Mo. returned home last Friday. They report an exceedingly good time.

The proceeds of the Basket Social in Dist. No. 1. Feb. 4th. were $10.75. Another Social was held in Dec. No. 3. Friday the 21st. Wm. Lau, daughters and son of Avery attended. Mr. Lau acted as auctioneer.

If our Editor thinks we are all snowed under, why doesn't he help us shovel our way out? We hope he can at least, tell us where to find the snow now. An invitation is extended to him to visit Twin Lake friends we will have something to write then.

Honors Easy.

People who were present smiled at the little passage of arms which took place between two young ladies at a luncheon recently. One of them, a bride, shaking hands in her characteristically cordial way, said to the other:

"I'm so glad to meet you! You have afforded me so very much amusement just lately."

"Amusement?" said the other.

"Oh, yes," went on the bride. "I've been through my husband's desk, and I've read all his old love letters. I found several very affectionate letters from you, and I enjoyed reading them, really, ever so much."

"I'm so glad you enjoyed them," purred the other. "But do come and see me very soon. Here is my card. I have the answers to all those letters and you might like to read them as well. Mr. X——'s letters are so much more affectionate than those I wrote to him. I know you'll enjoy reading them ever so much more than you did mine."

BIG FIRE AT TAMPA

EIGHTEEN AND A HALF RESIDENCE BLOCKS DEMOLISHED.

ONE WOMAN DIES OF FRIGHT

Tobacco Factories and Homes of Cigarmakers Burn — Property Loss Placed at $1,000,000.

Tampa, Fla., March 2. The entire extreme northern section of this city was destroyed by fire, which broke out in a boarding house yesterday and raged uninterruptedly for four hours. The area burned covered fifty-five acres, or eighteen and one-half city blocks, and 808 buildings were destroyed, with a total loss estimated at $1,000,000, and one woman is dead from excitement.

The burned section included four large and several smaller cigar factories and numerous restaurants, several boarding houses and 20 dwellings occupied by cigarmakers.

The factories burned were Mr. Stachelberg & Co., loss $100,000; M. Periz & Co., loss $50,000; Don Seales Fisher & Co., loss $40,000; Erberg Cunst & Co., branch of Stachelberg, loss $40,000; Fernadez & Bros., loss $2,000. All the factories carried large stocks.

The first was fanned by a strong wind and efforts of the fire department were crippled by weak water power to check it. Occupants of over 200 dwelling houses, thrown into a panic, rushed out, attempting to save but little of their belongings. A Cuban woman in a delicate condition dropped dead from the shock, her body being rescued from the burning house with difficulty.

Fire Chief Savage was overcome by heat and smoke early in the fire, but recovered later. Citizens volunteered assistance to the hard working firemen, but the spread of the flames was so rapid that little effectual work could be done.

Fully half the people rendered homeless were out of work and their shelter became an immediate problem. St. Joseph's convent was opened to them by order of the fathers and many found lodgings there, while others were accommodated by other city folk. Besides these, thousands of man will be out of work on account of the burning of factories.

The insurance is estimated at not more than half the loss.

AVANLANCHE KILLS MANY.

Atmospheric Wave Causes Swiss Hotel to Collapse.

Berne, Switzerland, March 2.—An avalanche descended yesterday near the village of Goppenstein. The enormous atmospheric pressure which accompanied it demolished a hotel at Lochberg tunnel, killed thirteen persons and injured fifteen others.

The occupants of the hotel were surprised while seated at the table by sinister rumblings. Almost immediately two children rushed into the dining room and screamed "An avalanche, an avalanche!" There was a rush to escape, but the building which was of a temporary nature, collapsed without warning. Both of the children were killed along with many of those they sought to save. Among the others killed was an American engineer named Mervart, who was installing an American machine to be used in tunneling.

The hotel had been erected by the tunnel contractors for the convenience of engineers and others engaged in construction work. There were no tourists there. The village postoffice and police station also were seriously damaged by the air wave and were keeled over to an angle of forty-five degrees, making occupancy impossible. The tunnel works were not damaged.

DECISION BOON TO ROADS.

Interstate Commerce Commission Says Wait.

Washington, D. C., March 2.—Responding to a letter of inquiry to the interstate commerce of the senate, the commission has written a letter taking a position in opposition to Senator Fulton's bill prohibiting railroad companies from advancing rates in the face of a protest by a shipper until the commission shall have passed upon the reasonableness of the increase.

"To give to the protest of a single shipper the effect of preventing the advance of any rate until the reasonableness of that advance was affirmately determined by the commission," says the letter, "would establish a hard and fast rule of doubtful fairness to the railroads and questionable advantage to the public. Under existing conditions we are of the opinion that it would be unwise to adopt the arbitrary limitation which this bill proposes, whatever may be found desirable or necessary in this regard in the future."

CHINA TO RELEASE STEAMER.

Peking, March 2.—It is announced that the Chinese government will surrender the Japanese steamer Tatsu Maru, which was seized on Feb. 7 by the Chinese customs cruisers outside of Macao while unloading a large consignment of rifles and ammunition, the rifles numbering several thousand. It was originally charged that an attempt was being made to bring war supplies into China for revolutionists.

Cause for Alarm.

A young man had been courting a girl for nine years. "Jennie," he said, one evening, "I read the other day that in 50,000 years Niagara falls would dry up."

Jennie clutched his arm excitedly. "Why, what's the matter?" he asked.

"Why, you promised to take me there on our bridal trip. Don't you think you had better be a little careful that it does not dry up before we get there?"

Hog Cholera.

The greatest drawback to the hog industry which breeders in this country have to contend with is what is known as "hog cholera" and "swine plague."

Hog cholera is a highly contagious disease and unless checked is liable to carry off a great number of hogs in a very short time.

Mr. A. P. Williams, of Burnetts Creek, Ind., tells of an experience which he had with some hogs that had the cholera. "Five years ago," says Mr. Williams, "I was in the employ of Mr. J. D. Richardson, Lafayette, Ind., as his barn foreman. Some fine hogs that I was feeding took the cholera. I gave them Sloan's Liniment and did not lose a hog. Some were so bad they would not drink sweet milk and I was compelled to drench them. I have tried it at every opportunity since and always find it O. K."

With an Eye to the Future.

Queen Alexandra attended last spring's annual Mansion House fete in London, and because of that auspicious fact there is a tale to tell—and worth the while. One of the diminutive flower maidens was both pretty and plump, and when her majesty stopped for an instant to smile down upon her, what did she do but put up her wee (and tempting) mouth for a kiss, which she received.

"Molly!" gasped her astounded mother, and after the distinguished visitor had passed on, "how could you!"

And Molly gave a good reason. "I fought," said she. "It 'uld be interestin' to tell my grandchildren."—Harper's Weekly.

OLD SURGEON

Found Coffee Caused Hands to Tremble.

The surgeon's duties require clear judgment and a steady hand. A slip or an unnecessary incision may do irreparable damage to the patient.

When he found that coffee drink'ng caused his hands to tremble, an lils. surgeon conscientiously gave it up and this is his story.

"For years I was a coffee drinker until my nervous system was nearly broken down, my hands trembled so I could hardly write, and insomnia tortured me at night.

"Besides, how could I safely perform operations with unsteady hands, using knives and instruments of precision? When I saw plainly the bad effects of coffee, I decided to stop it, and three years ago I prepared some Postum, of which I had received a sample.

"The first cupful surprised me. It was mild, soothing, delicious. At this time I gave some Postum to a friend who was in a similar condition to mine, from the use of coffee.

"A few days after, I met him and he was full of praise for Postum, declaring he would never return to coffee but stick to Postum. We then ordered a full supply and within a short time my nervousness and consequent trembling, as well as insomnia, disappeared, blood circulation became normal, no dizziness nor heat flashes.

"My friend became a Postum enthusiast, his whole family using it exclusively.

"It would be the fault of the one who brewed the Postum, if it did not taste good when served.

"The best food may be spoiled if not properly made. Postum should be boiled according to directions on the pkg. Then it is all right, anyone can rely on it. It ought to become the national drink." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

WINTER WHEAT CROP

HE REALIZED $38 PER ACRE. HIS OATS $37 PER ACRE IN SOUTHERN ALBERTA, WESTERN CANADA.

Coaldale, Alta, Can., Nov. 19, 1907.

Sir: I beg to say that this year we had 349 acres of grain, consisting of 197 acres of spring wheat and 152 acres of oats. The average yield of wheat was 38 bushels per acre and oats 74 bushels. We were offered $1.00 per bushel for wheat and 50 cents for oats, making the acre values for the two crops $38.00 and $37.00 respectively.

We also had 50 tons of hay worth $13.00 per ton, and 500 bushels of potatoes, worth 60 cents per bushel, the latter off 2½ acres of ground.

Our best yields this year were 107 acres of wheat, making 41 bushels per acre at $1. 00 per bushel, would be $41.00 per acre; 47 acres of oats, yielding 95 bushels per acre were sold for 50 cents per bushel. Proceeds, $47.00 per acre.

I might add that 50 acres of our oats were "stubbled in."

During the spring of 1906, we hired about 300 acres broken by steam. We put in and harvested 55 acres of grain last year, did the remainder of our breaking, worked up the ground and seeded this year's entire crop, put in seven acres of alfalfa and five acres of garden potatoes, trees, etc., all with one four-horse team. During harvest we hired other teams, but, aside from this, and part of the breaking, the one team did the work of raising practically 19,000 bushels of grain, worth $12,000.

Yours truly,
W. H. PAWSON, JR.

WINTER WHEAT 25 TO 30 BUSHELS TO THE ACRE IN SOUTHERN ALBERTA.

Warner, Alta, Canada, Jan. 9, 1908.

Dear Sir: This is the first year of farming in this settlement. Mr. A. L. Warner raised twenty-five hundred and fifteen bushels of fine winter wheat on one hundred acres of breaking and Tenny brothers had sixty acres that went thirty bushels per acre. The winter wheat that is in this year looks fine.

Spring wheat here went thirty bushels per acre, oats fifty to eighty, barley fifty, and flax ten to fifteen on sod.

The settlers here are all well pleased with the country. The stock have not required any feed except the grass up to this date and are all fat.

Yours truly,
F. S. LEFFINGWELL.

"Excuse me," said the playwright to his friend who was hissing the piece, "do you think it is good form to hiss my show when I gave you the ticket that admitted you?"

"Certainly," resentfully replied the friend. "If I'd bought a ticket I would have contented myself by going outside and swearing at myself."—Success Magazine.

After suffering for seven years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. Sallie French, of Paucaunla, Ind. Ter., writes to Mrs. Pinkham:

"I had female troubles for seven years—was all run-down, and so nervous I could not do anything. The doctors treated me for different troubles but did me no good. While in this condition I wrote to Mrs. Pinkham for advice and took Lydia E. Pinkham's Vegetable Compound, and I am now strong and well."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat your letter in confidence and advise you free. No woman ever regretted writing her, and because of her vast experience she has helped thousands. Address, Lynn, Mass.

Chimney Troubles
Cured to Stay Cured

Try This Top 30 Days

Does the rain beat in your chimney, running down and discoloring the walls inside? Does your chimney fail to create a strong, regular draft at all times? Are you tired of the trouble and expense of replacing galvanized iron extensions or galvanized iron revolving tops? Wouldn't you like to own a Chimney Top that would do away with all chimney troubles, and that would last as long as the chimney stands?

"The Best" T Chimney Top

made entirely of Cast Iron, will permanently cure all chimney troubles, because it is absolutely storm-proof, and creates a strong, steady draft to the chimney. It is adapted for use on chimneys that are lower than adjoining buildings or obstructions.

It is made so the outlets at the ends of the T can be turned to suit the condition under which it is to be used.

It's simple, durable, easy to attach, and is held as firmly as the chimney itself.

It is made to fit four different size chimneys, as the legs have a radial adjustment. Price, $5.00, freight prepaid anywhere. Postal us for free booklet. Money back if not satisfactory. Sold by all leading Hardware Dealers and Tinners.

TWO CHIEFS LUCKY

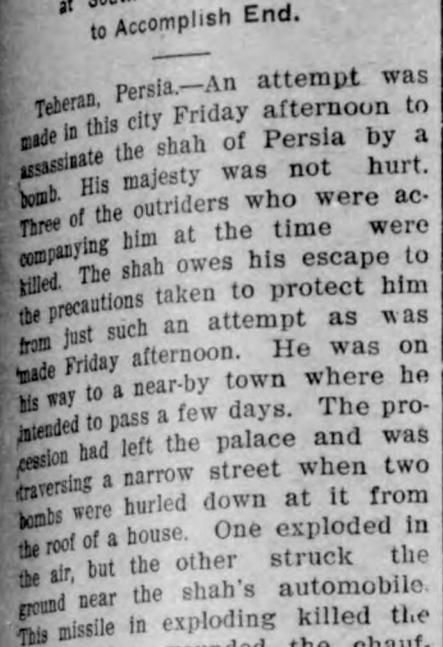
SHAH AND PRESIDENT ALCORTA DODGE BOMBS.

PERSIAN EFFORT FATAL

Three of Monarch's Outriders Are Slain While Explosive Tossed at South American Fails to Accomplish End.

Teheran, Persia.—An attempt was made in this city Friday afternoon to assassinate the shah of Persia by a bomb. His majesty was not hurt. Three of the outriders who were accompanying him at the time were killed. The shah owes his escape to the precautions taken to protect him from just such an attempt as was made Friday afternoon. He was on his way to a near-by town where he intended to pass a few days. The procession had left the palace and was traversing a narrow street when two bombs were hurled down at it from the roof of a house. One exploded in the air, but the other struck the ground near the shah's automobile. This missile in exploding killed the three outriders, wounded the chauffeur and a score of bystanders and shattered the vehicle.

The shah, however, was not in his automobile. He had taken the precaution to send the motor car on ahead



Shah of Persia.

and ride himself in a carriage further in the rear of the procession. The motor car was a closed one, and it was thought that the sovereign was inside.

America Congratulates Him.

Washington. — The shah of Persia Saturday received the congratulations of the American government on his escape from assassination. The message, signed by Secretary Root, was cabled to Minister Jackson at Teheran Friday: "Convey to his excellency hearty congratulations on his fortunate escape."

Outrage in Buenos Ayres.

Buenos Ayres.—A dynamite bomb was thrown Friday against a carriage in which President Alcorta was driving, but failed to explode. Four persons were arrested charged with complicity in the plot. Recently there has been political unrest in Argentina owing to the issuance January 26 of an executive decree closing the extraordinary sessions of congress and putting into effect for the current financial year the budget of 1907. This extreme measure was made necessary by the obstructive tactics of a majority in the senate which made impossible the passage of the budget or other legislation.

INDIAN SENATORS IN TILT.

Controversy Between Curtis and Owen Soothed by Carter.

Washington.—One of the most dramatic scenes ever witnessed in the senate was enacted Thursday when Senator Robert L. Owen of Oklahoma insisted in tragic tones and with face showing much emotion that the five civilized tribes of Indians were dead and that he as a member of the tribe of Cherokee Indians was not under the control of the secretary of the interior. The event was rendered all the more interesting by the fact that Senator Owen was sharply engaged in controversy by Senator Charles Curtis, (Kan.) himself a Kaw Indian. It was the first time that two men with Indian blood in their veins had ever locked horns as senators in the senate chamber. Senator Carter came to the rescue and attempted to show that both senators were right.

Special Message to Congress.

Washington. — President Roosevelt Wednesday transmitted to congress a special message on the report of the inland waterways commission.

The president's message approved the work of the body from its start and the chief executive went on record as favoring the proposed system of inland waterways, as advocated in the west and by the commission which has spent some time at work on the matter.

Last Friday evening the Klemme church choir gave Meta Stork, their organist a "Farewell," in the form of a surprise. All the members of the choir were present at the parsonage when Miss Meta was brought over with the excuse that the choir wanted to rehearse for Sunday when to her amazement it was a surprise on her. Meta has been one of the most faithful and willing workers among the young people, never pouty, iritable, or out of sorts. We wish her success and a bright future in her musical endevor.

Is lawlessness turned loose in Klemme? One of our neighbors butchered two porkers this week and placed the meat in the summer kitchen to cool over night. The next morning he found the door had been unlocked and the meat was covered with paris green Are we living in Russia? The swine business in the stock yards was attended to with all severity; but a lot of those with a swine nature running loose on main street the other night were not molested. Where are we comming to?

Governor Folk of Mo. recently contributed a very timely article for the "Youth's Companion on. "Respect for law" which we wish all of our people might read. He starts out in saying: "Respect for law is the foundation stone of the liberty of a free people." Then he goes on to say that many insist on the enforcement of such laws as they like and violate such as they do not like. Again no official has the right to violate the oath he takes to enforce the law simply because specially interested people do not want that law enforced. Nor can he excuse non-enforcement on the ground that public sentiment is against a law. This ough to be good food for many of our community. Let us stop and think—what are we comming to? Less than a year ago, complaint was made in this column, concerning some boys who disturbed a gathering of the Epworth League, and it was intimated what such rowdyism might lead to. A few parents were much wroth up about the article. The article was printed as a word of warning and we little expect it would ever come to that, but we are sorry to say the inevitable has already happened. Who is to blame? All those who no respect for law.

HOES MADE OF WOOD.

The ancient Egyptians used wooden hoes. The blades and handles were simply inserted the one into the other and bound together with a twisted rope.

Small Channel Island.

Jethou island is by far the smallest of the channel islands, and boasts the distinction of being the smallest inhabited island in Europe, having, indeed, only one dwelling house upon it. It has a population of seven souls. It has no road or pathway or post. At the last census more than half the population of the island was absent, having gone into Guernsey market with the butter and cream from the Jethou cows. The weather being bad, the visitors had to stay at Guernsey during the census time.

Secured Veteran Catfish.

Nearly asleep reading about a bear coming up a bank after a hunter, Howard Davidheiser was almost pulled into the water by a sudden pulling at his rod while fishing at Sanatoga Lake, Pa. The rod did finally break, but Davidheiser managed to land his prize, an ancient catfish over 17 inches long. He was badly stung in the thumb, however, and his hand swelled to alarming proportions. Half a dozen hooks were found inside the fish, an indication of how crafty he had been in escaping from the anglers.

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

For Weak Kidneys, Backache, inflammation of the bladder and all urinary troubles DeWitt's Kidney and Bladder Pills are unsurpassed.

When monarchs seek the simple life their subjects can well afford to follow their example.

Absence only makes Henry James fonder of America. That is why he stays in England all the time.

The hours we spend in wishing and craving for the impossible could be better spent in working for the attainable.

A man of intelligence, wealth and power who treats his subordinates with rudeness and insult is a natural coward.

People who show no kindness or mercy in wealth and power will certainly receive none when poverty comes to be their lot.

The man who doubts and the man who scoffs have this difference between them: The one uses his reason and the other his passion.

Possibly sleeping-car porters may become so wealthy that they will turn the tables and tip passengers who have made the jaunt unkickingly.

Prof. Ross says the idle rich are more dangerous than the hoboes. It must be admitted, however, that they are less apt to hit you with a piece of gaspipe.

"Only people with a million or more can afford to have 'stuporous melancholia,'" says the Washington Herald. Well, it isn't exactly a disease that many of us crave.

If the learned professor of Harvard should speak politely to the laboring man would not the laboring man give the learned professor a seat? Let the learned professor try it.

They are talking of sending wireless messages around the world. For what purpose? So that a man can telegraph to himself instead of tying a string around his thumb when he wants to remember something?

King Menelik of Abyssinia claims to be the descendant of Solomon and the queen of Sheba, and certainly it is no violent wrench of facts to say he is a much better behaved old fellow than some of our distinguished senators.

We do not know that it will make any particular difference in the world's history whether Gladys is happy or not. Would some of her patriotic advisers guarantee happiness for her with an American husband whom they might pick out?

The Sheridan statue commission has approved and accepted the model of the statue of Gen. Philip Sheridan, which is to ornament Sheridan Circle, Twenty-second street and Massachusetts avenue, in Washington. The model is the design of Gutzon Borglum of New York.

The battleship Mississippi has been accepted by the government. It is in order now for somebody to discover that she was constructed along antiquated lines and that it would be preposterous to expect her to last more than one round in a battle with anything bigger than a rowboat.

Farmers in many parts of the country have been able, owing to the mild winter, to do a good deal of work, according to reports, but have found it difficult to get help in spite of the number of unemployed men in cities. Getting up at 4 o'clock a. m., and going out to feed the stock does not appeal even to the hungry men.

Orsa, in Sweden, has, in the course of a generation, sold $5,550,000 worth of trees, and by means of judicious replanting has provided for a similar income every 30 or 40 years. In consequence of the development of this commercial wealth there are no taxes. Railways and telephones are free, and so are the schoolhouses, teaching, and many other things.

Now a movement has been started to compel women to take off their hats in church. The movement might as well be dropped at once before its advocates lose unnecessary sleep and grow thin through worry. If a woman is to take off her hat in church, what, she will naturally argue, is the good of her Easter millinery? The logical conclusion of this argument is too self-evident for formal statement.

Helen Keller's latest intimate and detailed account of her experiences and emotions in an existence where she is deprived of sight and hearing and restricted to the three other senses, is a remarkable paper in many respects. But is not more remarkable declares the Boston Herald, than her declaration that if a fairy bade her to choose between the sense of sight and touch she would not part with the warm and endearing contact of human hands. Those who possess both gifts of sight and hearing would perhaps ponder long before choosing.

IOWA STATE NEWS

Events of Recent Occurrence Throughout the Commonwealth.

CHARLES ALDRICH DIES.

Curator of State Historical Department Passes Away.

Des Moines.—Charles Aldrich, who passed away in Boone on the 8th, was the founder of the historical department of Iowa, a branch of the activity of the state government. He originated its beginnings and he developed its field. He put it on permanent foundations and before his death realized the cherished ambition of a quarter of a century when the building in which the department is housed through the generosity and appreciation of the state, was finished. For years he has been in delicate health but the love of his work and the undying hope of seeing the collection appropriately quartered have supplemented an extraordinary nervous force in lengthening his years until his hope was realized.

Mr. Aldrich was a journalist, primarily. He learned the printer's trade as a boy and he was connected with a half dozen newspapers during his early life. His first serious work was the publication of a newspaper. He became a pioneer of Iowa and he was a part of the whole of the history of the state. He entered political life and served in the union army as an Iowa soldier. And through it all the literary instinct persisted and led him, naturally, into the labor of love which builded him a monument while it gave to the people of his state an institution of tremendous value.

One of his chief and most beloved tasks in recent years was the editing of the Annals of Iowa, a quarterly publication devoted to Hawkeye historical subjects. He was assisted in the work by Miss Whitcomb, but directed it, generally. The Annals were established in 1863 but during the last twelve years or more their publication has been wholly in his hands, and the volumes which he has issued contain probably the most accurate and complete account of the historical features treated than any other authority published. In their production, the editor's newspaper experience and talent stood him in good stead.

Mr. Aldrich was born at Ellington, N. Y., in 1828, and came to Iowa in 1857.

ATE MEAT FROM "MAD" HOGS.

Boone County Family Exposed to Hydrophobia.

Boone.—A case of hydrophobia has developed in Colfax township, this county, which for a time threatened not only the stock owned by George Rockwell but members of his family. Recently a dog, which had gone mad, bit thirty of his chickens, killing them and also bit thirteen of his hogs. The dog was shot and the hogs isolated. They seemed to be recovering and soon appeared well. Saturday he butchered two of his herd and members of the family had eaten some of the meat. Monday another of the herd sudenly developed a defined case of rabbies and Dr. McLain of this city was summoned, who in turn summoned the assistant state veterinarian from Ft. Dodge. They both agreed on the case and the hog died shortly after they arrived here. They condemned the meat and isolated the entire herd of hogs and quaratined the place.

ANGRY SHOT AT CROWD.

Zearing Man Stirs up Trouble at McCallsburg.

Boone.—Jack Arnold, a prominent farmer of Zearing, angered at an article which appeared in the McCallsburg Tribune, took a shot at a crowd on the streets of that city. He has already paid a fine of $50 on a charge of discharging firearms in the city limits and he is still facing a charge of assault with intent to commit manslaughter, which is being probed by the grand jury of Story county. No one was hit by the shot.

Recently Guy Mills, editor of the Tribune, published a story reflecting on the sobriety of Arnold. Arnold met Mills on the street. After some words Arnold is reported to have pulled out a wicked looking gun. The altercation had drawn a crowd and when Arnold pulled the gun, members of the crowd started to interfere. Backing off, Arnold took a shot at the crowd.

Bank Cashier Is Released.

Marshalltown.—Cashier D. A. Johnson, of the Green Mountain Savings bank, has been released from the county jail on bonds of $3,000 furnished by President A. F. Balch and Vice President George A. Turner of the Marshalltown State bank. Vice President C. F. McGrew of the Omaha National bank is indemnifying the local bankers. Johnson had been in jail a little over a week on a charge of receiving deposits for an insolvent bank. The bond of $3,000 also covers the second charge lodged against Johnson, that of perjury. President MacDiarmid is still in jail.

GIRL WIFE IS HELD.

Mrs. Dolph, of Clinton, Is Locked Up and Refused Bail.

Clinton.—"Fred is dead—I've killed him," is the statement alleged to have been made by Mrs. Irene Dolph, accused of her husband's murder, to her mother, Mrs. Nellie Goldsmith, at Joliet, Ill. Mrs. Tolson, Mrs. Goldsmith's landlady, tells the police the story; and as she got the statement from Mrs. Goldsmith, and did not hear the daughter make it, the alleged confession cannot be admitted as testimony. But it strengthens the belief, which has come to be a conviction, that Mrs. Dolph murdered her husband before leaving and locking the house, to go to her mother in Joliet and confide in her the deed she had accomplished.

Mrs. Dolph was arraigned before Police Judge Leffingwell on the charge of murder. Her attorney entered a plea of not guilty, and waived examination, and the 17-year-old wife was held to the grand jury without bail. Her mother, Mrs. Goldsmith, who will be forced to testify against her daughter, is held under $1,000 bail as a witness, she being a nonresident of the state.

WHITING ELEVATOR BURNS.

Lightning Causes Loss of $15,000—Will Rebuild.

Whiting.—The first electrical storm of the season caused the destruction to the amount of $15,000 here. The double elevator of F. E. Smith was struck by lightning and totally destroyed. Twenty thousand bushels of grain, three small buildings and a car of hay were also destroyed.

The fire was discovered by Conductor Charles Siebert of the northbound St. Paul "flyer". He brought his train to a stop here to eject a tramp when he noticed sheets of flame leaping from the elevator. The engineer of the train blew his whistle frantically until the entire town was aroused and then, uncoupling his engine, pulled ten loaded cars of grain from the burning building. The loss is covered by insurance. Mr. Smith says he will rebuild at once.

MERE BOY IS A SUICIDE.

Despondent Because He Couldn't Go West and Be a Cowboy.

Fairfield.—After having run counter to the judgment of his parents in one thing and another, 16-year-old Clona McPherson, son of a well known family north of Fairfield, shot and killed himself on the porch of his home. The boy, a strange sort of a lad, was determined to go west and be a cowboy. His parents insisted that he continue in school. He determined to go anyway, wrote his father's name to a $50 check and tried to get it cashed in Fairfield. The check was rejected, the boy tore it up and rode back home. He asked then to go to an evening entertainment in the neighborhood and was refused. His despondency was too great, and he then procured a gun, went out on the porch and killed himself.

UNCLE SAM COULDN'T PAY HIM.

Lehigh Man Received Only $65 for a Pile of $4,000 Ashes.

Lehigh.—Sixty-five dollars—that is what George Cunningham of Lehigh got from Uncle Sam in exchange for his pile of ashes representing a $4,000 bonfire of paper currency. Cunningham became distrustful of the banks at the beginning of the recent financial flurry, withdrew his roll of $4,000 and deposited it in an old, unused stove. His wife wasn't aware of the hidding place, and one morning she started a fire in that treasure box with disastrous results. Cunningham saved the heap of ashes and carefully expressed them to Washington with a plea that they be redeemed. He has just received $65 from the treasury department, all that was allowed him.

Liquor Sellers Come to Time.

Davenport.—Judge Bollinger has issued permanent injunctions against the eight dance halls and summer gardens attacked by the civic federation. The injunctions restrain the owners from the "illegal sale of intoxicating liquors," allowing them to continue operating a bar if it is conducted in strict conformity with the Iowa mulct law.

Tables and chairs have been fired out of scores of Davenport saloons, and back and side doors nailed up, in response to the notice of the brewing companies that they would not deliver beer to saloons which were not conforming strictly with the law.

Fined for Beating a Child.

Guthrie Center.—Mr. and Mrs. J. Hanson of Grant township have been found guilty of cruelty to a foster son and find $50. The boy was recently found hiding in a straw stack, his entire body a mass of bruises and his face and hands in horrible condition. Neighbors took an interest in his case and the prosecution followed.

AFTER THE ROOF COLLAPSED.

Drawing Made from Photograph of Collinwood, O., School, Where Over 160 Pupils Lost Their Lives.

AWFUL SCHOOL HOLOCAUST NEAR CLEVELAND KILLS 167

Building Housing Elementary Pupils in the Suburb of Collinwood, O., Burns, Bringing Death to Children.

Cleveland, O.—Penned and held in narrow hallways, jammed up against doors that only opened inward, 167 children in the suburb of North Collinwood Wednesday were killed by fire by smoke, and beneath the grinding heels of their panic-stricken playmates.

The awful tragedy occurred in the public school of North Collinwood, ten miles east of this city. One hundred and sixty-five corpses were in the morgue at Collinwood Thursday, six children were unaccounted for, and all the hospitals and houses for two miles around contained numbers of children, some fatally, and many less seriously injured. All of the victims were between the ages of six and fifteen years. The school contained between 310 and 325 pupils, and of this entire number only about 80 are known to have left the building unhurt.

Fire Drill Is Forgotten.

The school building was supposed to be practically modern, although erected three or four years ago. The school children had been given fire drills, and were supposed to be in training for just such an emergency. When the crucial moment arrived the drill was forgotten and not the slightest effort to effect an orderly or prompt escape availed.

Victims Practically Incinerated.

As soon as firemen and volunteers could get close enough, attempts were made to pluck bodies from the death heaps at the doors. It was found that the flames had practically incinerated the bodies. Firemen with rakes, forks and shovels turned up blackened bones, little blackened skulls and masses of charred flesh, but bodies recognizable as such were no longer to be found. A fearful stench added to the horror of the scene.

Miss Anna Moran, the principal of the school, who escaped, says that the children made a mad rush for the door as soon as the alarm of fire was sounded, but were driven back by the choking smoke. Later the flames prevented the escape of many of them from the burning building.

County Coroner Burke immediately after the fire said:

"The construction of the schoolhouse was an outrage. The hallways were narrow and there was practically but one mode of exit. The children were caught like rats in a trap."

Terrible Scenes Enacted.

Fearful scenes were enacted around the burning schoolhouse. Fathers and mothers raved, cursed or prayed. Many tried to break through the crowd and some got so far as to dash toward the flaming doorways. One big man in overalls and jumper was restrained by force. Explaining in broken English that his "kinder" were in the building he struggled desperately with the three men who held him. Finally they threw him to the ground and sat on him, forcing his great form down in the ankle-deep mud.

The building was completely destroyed, only the outside brick walls remaining standing. The floors and roof fell into the interior early in the fire, making the rescue of intact bodies absolutely hopeless.

Dead Laid to Rest.

Cleveland, O.—Collinwood Friday came to a full realization of her woe.

Slowly and solemnly the processions of death began to wend their way towards the cemeteries, bearing the battered and charred remains of some of the 167 children whose lives were snuffed out in Wednesday morning's catastrophe in the Lakeview school. All day there was no cessation in the funeral corteges. Those who had no dead to mourn as a personal loss stood in the streets with bared heads as the grim processions passed. There was scarcely a dry eye in Collinwood. One of the sad funerals was that of the three children of Janitor Hirter, held jointly with the services for three other little ones.

Janitor Is Made Target.

Mutterings against the janitor could be heard about the village as half-crazed parents sought an object upon which to wreak vengeance, forgetting as they did that Hirter himself was walking with bowed head and broken heart behind the biers of three of his beloved. A detail of police was placed about the Hirter home when the hour for the funeral came. Fully 500 persons had gathered, but when the coffins were carried to the doorway the crowd spread and opened the way for them without protest or expression of hostility.

Altogether there were 50 burials Friday, and Saturday the grewsome task was repeated. Sunday will witness the last of the individual burials, and on Monday the remains of all those who are unidentified will be laid to rest with one funeral. Friday night there were 28 of these bundles of flesh that awaited claimants.

Fire Testimony Heard.

Testimony describing the mad rush to death of the school children was given Friday at the continued session of the coroner's inquest. Stories of heroism on the part of the women teachers were recited. F. P. Whitney, superintendent of the Collinwood schools, stated his belief to be that no fire department could have done any effective work after the fire had started. Two of the teachers told of their unavailing attempts to open one of the double doors at the rear, which they said was locked. The inquest also developed the fact that, after the first crush at the door, it was beyond human possibility to aid or save those whom the tongues of fire were devouring in the charnel house. The inquest will be resumed Monday.

Partitions Cause Great Loss.

In a statement Friday, Chief Wallace of the Cleveland fire department, after an examination of the ruins of the Collinwood school, said it was his opinion that the loss of life would not have been so great had there been no partitions at the sides of the storm doors at the rear entrance.

Scores American Milk.

Washington. — Surgeon General Walter Wyman of the public health service submitted to Secretary Cortelyou Wednesday a "report on milk in its relation to public health." The report is the result of an investigation ordered by President Roosevelt and conducted by federal experts. It declares much of the country's milk is impure.

U. S. Soldier Gets Raise.

Washington.—The army pay bill was passed by the senate Friday. The bill provides for army officers a graded increase of pay ranging from five per cent. for lieutenant generals to 25 per cent. for junior officers. It also provides that "the average pay of enlisted men of the army as now established is 40 per cent."

Has Madison (Ill.) Bank.

Madison, Ill.—J. C. Hinde, who was appointed by Judge Moore of the circuit court as receiver of the Tri-City State bank, Thursday took charge of the affairs of the institution. Two weeks ago the bank closed.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Enid informing him that the kidnaping is for the purpose of entrapping Barnes so the vendetta may kill him. Barnes and Marina have unusual adventures in their search for Enid. They come in sight of her and her captors in the Corsican mountain wilds just as night approaches. In seeking shelter from a storm the couple enter a hermitage and there to their amazement they discover Tomasso, the foster father of Marina, who was supposed to have been killed by De Belloc's soldiers, and for whose death Barnes had been vendettaed. Tomasso learns that Marina's husband did not kill her brother. Many wrongs are righted. Barnes is surprised in the hermitage by Rochini and Romano, the two detested bandits, who had been searching for him to murder him for his money. The bandits attempt to take away Marina. Barnes darts out the door. The bandits start to pursue, but as they reach the door both are laid low by Barnes' revolver. Members of the Bellacoscia enter and Barnes is honored for his great service to the community in killing the hated Rochini and Romano. The release of Enid is promised.

CHAPTER XIII.—Continued.

"That was not so," cries Marina. "The English officer who shot Antonio fell under the Egyptian guns by the hand of God. The man I love is free of any blood stain."

"Ah, the murderer of your brother fell by the hand of God. It is well. And this cavalier, is he your husband?"

"Oh, no; he is an American against whom foul wrong has been done by Saliceti," and introducing Barnes she says: "Tell this great bandit your story and he will give you justice. He has done so often in Bocognano."

Briefly the American relates the kidnaping of his wife, and listening to this, the Corsican says: "No outrage against woman was ever perpetrated in Bocognano without my avenging her, and this crime against a strange lady—ah, the hospitality of the island forbids it. Descend with me to the village, Americano, who has done such a great service in the slaying of these miscreants, who have dishonored our noble calling, and we, the Bellacoscia, will give your bride back to you and right your wrong."

"Dio mio," cries Marina excitedly. "Now that our glorious bandits love you, Burton, your wrongs will be righted!"

CHAPTER XIV.

Before a Corsican Election.

Escorted by the mountaineers, two stalwart young men carrying Mademoiselle Paoli down the dizzy path, they skirt the dread precipices of Del Oro and passing the vinelands and the clearings, come into the main road leading from Corte, then descending the hill are in the chestnut groves of Bocognano.

Then their leader turns to Marina and says: "Have no fear, Signora; your English sister shall be returned to this gentleman, but—" he lays his hand on Barnes' shoulder—"use not the weapons I see at your belt. Thy quarrel shall be my quarrel. No foreigner shall ever be compelled to protect a woman while I, Antonio Bonelli, dominate Bocognano."

"Were it not meeting night, everything would be silent save the dogs and pigs," chuckles Tomasso. "Now they'll have light enough to see I am alive."

"Cospetto, they are making a fete for you, Monaldi," laughs one of the young men, for lanterns are dangling from the overhanging boughs of the main street of the little village; some of the houses are illuminated, and round the communal building and the wine shops are gathered many men.

The little party tramp through the lantern-lighted streets, and coming to the door of the municipal building, the loungers who are smoking their pipes make way for them, doffing their bats and saying with great reverence: "The Bellacoscia!"

Near the entrance are two illuminated placards, one reading: "Vote for Saliceti, who upholds old Corsica!" The other: "Cast your ballots for Bernardo, the man who kills!"

Surrounded by the young men, Tomasso in the dim light is not noticed, and Marina has drawn her mandile close about her face.

The party enter the low hall of the municipal, which is lighted by lamps and decorated by myrtles and cyclamen flowers. It is well filled by a crowd of farmers, peasants, wool growers and shepherds. These are now being fervidly addressed by young Bernardo himself.

Catching sight of the commanding figure of the great bandit, the adroit politician bursts out rapturously: "Ah, thanks, grand Antonio Bonelli, for thy presence and countenance. You have come to say to me, 'Bernardo, you are a true Corsican; in you is upheld the honored custom of the vendetta to the twentieth generation.' So will all here say when to-morrow I shall have the body of the one who came to Marina's

"Gaspardo!" Cries Marina.

nuptials and left death behind him, this American who brought with him soldiers to shoot down poor old Tomasso Monaldi."

But the savage shouts that greet this are stilled by old Tomasso, who pushes through the crowd and stands facing the platform, his eyes flashing, and says: "I, Tomasso Monaldi, tell you there is no cause of a vendetta for me, because I am alive!"

At his words shuddering cries of "Ghost!" "Spirit!" "Spectre!" rise amid the tobacco smoke of the meeting, and some would slip from the door did not Antonio Bonelli command: "Let all remain!" as three of his stalwart descendants bar the entrance.

There is a sudden cry: "Father!" from a girl in black mandile and deep mourning who has been sitting with some other women in the retirement of a corner of the hall, listening to her lover's ferocious eloquence, and Etheria, with streaming eyes, is in Monaldi's arms.

"Aye, 'tis flesh and blood you're fondling, girl," laughs the great bandit, and striding to the platform he says in ringing tones: "But this is not all!" for now the crowd are gathered about Tomasso and are greeting him with words of sympathy because for the mere killing of a man, he had been forced to take to the macchia and become a bandit.

"Attention, all!" commands Antonio. "Listen to my words. If not, my followers shall give sharper notice to you!" And the crowd wisely becomes still.

"In pursuit of your suffrages, Saliceti has put a base outrage on our hospitality," continues the bandit chief in solemn tones. "He has abducted a young English lady and brought her to Bocognano to lure to death her husband, an American Signore who shoots well enough to be a bandit and who this night, with his own weapons, has slain Rochini and Romano, whose murders have made you all tremble as you went along mountain paths and whose outrages have caused our maids to have nightmares."

"Rochini and Romano dead? Impossible!" cries a shepherd, as a sigh of relief and then a yell of gratitude rises from the concourse.

"I saw him shoot the ruffians to death upon Del Oro, I, Antonio Bonelli. Don't dare say no!" This last is addressed to Saliceti, who, having recovered from his astonishment, is about to open his mouth.

"Ah, you admit it. Maladetta, where is the English lady?"

And Saliceti, being admonished to answer by a quick prick of the stiletto from a Bellacoscia youth who has stepped behind him, the young politician falters forth: "No harm has come to her. She is with my mother."

On this Barnes has looked from a distance, wisely reflecting that his battle is being fought for him, but with difficulty restraining his hands from putting a pistol ball through Saliceti. He now cries:

"Then, for God's sake, take me to her quick!"

This brings upon him the attention of the crowd. Learning that it is he who has relieved them of the terror of Rochini, the men cry "Viva!" and embrace him, and a little girl steals up to him and timidly kisses his hand.

"Your lady shall receive you soon, Signore Barnes," remarks Bonelli. "I would like you to see Corsican justice," and at some words from him two or three of the young men having left the hall on his errand, the hawk-eyed bandit continues: "Besides, I fear common report has done wrong to the lady of our town. Marina, child, step here and make your friends love you again."

To this time, she having stood in the shadows of the rear and the lamplight of the room being very dim, in their excitement the concourse had not noticed her; but as Marina steps forward, some men turn away, a woman whispers: "'Tis a pity the blood of Pasquale Paoli flows in her," and a young cavalier remarks: "We honored your wedding, Madame Anstruther, but then we did not know that you had forgotten your oath of the vendetta and were mating with the slayer of your brother."

"Gaspardo!" cries Marina, with a gasp of horror, "my childhood's friend, how dare you say this lie?" and staggering onto the platform, and seeing condemnation, horror and disgust in the faces she had known from childhood, the girl simply but with great nobility of manner, tells them how Musso Danella, inspired by devilish jealousy, had turned the articles in a dead man's trunk into evidence that the English officer whom she had nursed to life in the Egyptian hospitals and whom she loved with her whole heart, was the principal in the duel at Ajaccio, the man who had slain her brother.

The beauty of the suppliant, with the blood of the great Corsican patriot flowing in her veins, touches their passionate hearts. A lady from the little balcony seizing some of the cyclamen decorations, throws the flowers all over her, and her compatriots, whose faces had been cold to her, fly around, embrace her and beg her to forgive them.

"But there is one I will not forgive," cries the girl sternly; "this Saliceti, Bernardo, who had known me in my youth, who spread these reports all over the mountains that I have disgraced my very womanhood in giving myself to my brother's murderer."

"A bas Saliceti!" yells a sheep farmer from the valley.

"Demonios, his lies have dishonored our race!" growls a goatherd from the slopes of La Pintica.

"Leave him to us," says Bonelli calmly; his hawk's eyes are fixed unpleasantly on the candidate, who with muttered anathema is edging from the platform.

With this, Corsica's favorite bandit commands sternly: "Men of Bocognano, no one of you will cast your ballot at the polls for this politician who has disgraced our village. Otherwise you will hear from me. You will vote for Signore Ambrose Lucitano, the cigarette smoking statesman from Ajaccio, who begs your suffrages. He may be a greater fool, but he is not so great a rascal as our fellow townsman! Don't you even dare vote for yourself!" he cries, as the abashed Saliceti flies from the room pursued by jeers and execrations and even the taunts of his own sweetheart, who is still clasped in old Tomasso's arms.

"Now, reparation to you, Signore Barnes, the only one we can make. We will bear you in honor to Marina's home, where your bride now awaits you. Your wedding fete was postponed in Nice, I understand," the grim man smiles slightly. "We will give you in Bocognano a nuptial procession to a bride whose lips are as unsullied as when she made vows to you."

So, attended by the whole of the Bellacoscia and many girls, who have pulled down the floral ornaments of the communal room, waving the flowers about him, and young men shooting off their guns in his honor, Barnes, with Marina on his arm, is escorted beneath the lantern-lighted chestnut trees to the old mansion of the Paolis. As they pass along the main street a girl comes running from the telegraph office and places an envelope in Marina's hand. After glancing at it, a wild elation is in the young wife's face. She whispers some hurried directions to old Tomasso, and tripping to Barnes' side her step is as buoyant as his.

STIRRED UP NEW YORKERS.

Veteran Drove "Prairie Schooner" With Oxen Through City Streets.

New York—A team of oxen drawing a "prairie schooner," the driver of which was a rugged looking old man who wore typical western garb, including a sombrero, attracted great crowds on Broadway.

The vehicle and driver were not only in striking contrast with the jam of automobiles and carriages on the "Great White Way," but they were a decidedly novelty in New York.

The driver was Ezra Meeker, a pioneer of the Oregon trail, who had returned over the trail he followed to the west half a century ago. All along Riverside, from Grant's tomb to Seventy-second street, Meeker was followed by an interested and curious throng.

When Broadway was reached the crowd was so dense that the oxen, which the hale old man afterward described as Dave and Dandy, had a hard time to make any headway. Meeker's trip ended at last at the Battery. He had come all the way from Puyallup, Wash., to New York in 626 days.

Meeker's object in making his unique journey is to persuade the government to build a national highway from east to west.

Why Is It?

The seats were in the orchestra, on the theater's left. "The left side of the house always sells out first," said the box-office man. "Everybody seems to prefer it to the right. I don't know why. "Boxes, especially. We can sell two left to one right box every time. Nobody takes the right side for choice. And there is no reason for this. As much goes on in the right extremity of the stage as in the left—we proprietors always look after that—and you see just as much from the right as from the left side. Why, then, is the left side always at a premium?"

Unfair.

The man who is afraid he can't seldom give himself a chance to find whether he can or not.

In the ponds of Norway the water is so clear that objects an inch and a half in diameter can be distinctly seen at a depth of one hundred and fifty feet.

Probably the heaviest chain ever made has been turned out by an English firm for the Japanese Government. The common links weigh 200 pounds each, and the end link 300 pounds.

Toads, frogs and serpents often spend months without any nourishment; and if the instances of finding toads in blocks of stone be true, these animals must have spent hundreds of years as total abstainers.

China's great wall was recently measured by an engineer, the height being given as 18 feet. For 1,300 miles the wall goes over plains and mountains, every foot of the foundation being of granite blocks, and the rest of the structure solid masonry.

An organized band of kidnappers exists in the City of Mexico. During the past two months they have stolen forty-nine persons—twenty-two boys and twenty-seven girls. The ages of the victims range from two to seven teen years. The culprits are unknown.

An innocent piece of blotting-paper caused a domestic rumpus in a New Orleans family. Shortly after the husband had risen from his desk, the wife examined the blotting-paper, and this is what met her amazed eyes:

A patient and ingenious blacksmith in Hungary recently sent, as a present to the Emperor of Austria, a horseshoe, a pair of pinchers, a file, and a knife all ingeniously nailed to a goose's egg, with minute nails, without the egg being broken. The emperor forwarded in return his photograph, a gold medal, and thirty ducats.

A young woman in Indianapolis advertised for a position as "stenographer, and not sweetheart". She had found so many employers who were more like lovers than employers that she was compelled to try this method of securing work. She received a vast number of replies to her advertisement, and now has well-remunerated employment with a gentleman who never becomes too ardent.

OBITUARY.

Jan Busemann, a son of Mr. and Mrs. Henry Busemann, Sen. died at the home of his parents Feb. 27th at 10 o'clock a. m. He was born Oct. 3rd, 1869 at Warsingsfehn, Germany. His childhood days he spent in his home abroad where he also received his education. When his parents emigrated to this country years ago their son Jan was on duty in the marine and could not occompany them. He came over to America in the year of 1892 his point of destination being Klemme, Iowa. In this vicinity he worked on the farm for several years, than going to Minnesota and Dakota. His last years he mostly spent in the west where he had purchased a piece of land. For quite a number of years already the deceased might have been called a sick man. Never-the less he was hardly ever idle, but hard at work until almost to the end of his life. His parents hearing of his failing health urged him to come home at once. He came home about a week before his death, reaching the age of 38 years, 4 months and 24 days and leaving his parents, brothers and sisters, relatives and friends to morn his loss. The funeral service was held Sunday afternoon March 1st at the German Reformed church conducted by Rev. A. Muehlmeier and attended by many. Interment took place at Klemme Cemetery The breaved family has our sincere sympathy.

DES MOINES LETTER

Items of Interest From Our Correspondent at the State Capital.

May Shut Down Mines.

Des Moines.—A complete shut down of the coal mines in Iowa, worked by 15,000 miners, is threatened.

The agreement now existing between the mine operators and the miners expires March 31 and because of the failure of miners and operators in eastern states to reach an agreement last week it is probable that the Iowa miners and operators, who have heretofore followed the example of the eastern states, will not be able to make a new agreement before March 31. This would mean a discontinuation of work in every coal mine in Iowa and 15,000 men would be thrown into idleness.

The probability of the shut down of the Iowa mines was discussed by John P. Reese, secretary and commissioner of the Iowa Coal Operators' association, with a reporter.

Mr. Reese expressed the belief that the mines would undoubtedly be shut down April 1. He declared that he could see nothing which could prevent it in the face of the failure of the eastern miners and operators to agree.

A joint conference of the miners and operators of Indiana, Ohio, Illinois and Pennsylvania was held last week at Indianapolis. After a failure to re-establish the interstate wage conference the conference adjourned sine die. The miners and operators were unable to reach an understanding.

It has been the custom of the Iowa miners to follow the precedent of the eastern miners. A joint conference of the operators and miners of Iowa was to be held March 17. At the request of the miners the conference has been postponed to March 24. The national convention of coal miners will be held at Indianapolis March 1- and a week later the Iowa convention will behold in this city. Unless something is done at the national convention to relieve the situation of the eastern states, the cessation of work in the coal mines on April 1 is imminent.

It is declared by the operators that only a small quantity of coal has been stocked at the mines. A shut down would mean a famine for consumers who had failed to store at least a sixty days' supply. The miners are relying upon the national convention for instructions and the postponement of the conference was asked for that reason.

Passes Are Still Issued.

Practically all of the important railroad companies have reported the lists of persons to whom they have issued passes since July 4, 1907, when the antipass law went into effect.

Only the Burlington, of the principal lines, has not reported, and its report is delayed exclusively because of the correspondence to discover exactly the information required by the council under the law, the original blanks being slightly ambiguous.

Some of the companies filed full lists of all their employes; others full lists of the passes issued to stockmen, and others filed no lists of officers under the impression that the list of wage earners, which is not required by the law, would also include the officers.

The council required "a statement showing the names of all persons within the state of Iowa to whom this company has issued, furnished or given a free ticket, a free pass, free transportation, or a discriminating reduced rate, since July 4, 1907 and during the year, except wage earners in their ordinary employment, and families of such wage earners," and a note appended to the request said: "The word 'wage earners' in section 5 will be construed to mean 'workingmen' as this term is ordinarily understood."

Names of very few prominent men appear in the lists of pass holders. Pending the decision in the Schultz case some lines issue passes to lawyers and doctors, but the principal lines do not.

Section 2 of the anti-pass law permits the issuance of passes to employes whose chief occupation is service to the roads, to their families, to the officers, to sleeping car employes, linemen, etc., to postoffice inspectors to caretakers of live stock, etc., to officers and attaches of homes of reform, etc., to superannuated employes, to ministers of religion, to policemen and firemen to persons exclusively engaged in charitable and elemosynary institutions, traveling secretaries of railroad Y. M. C. A., school children, etc. Passes issued to these classes therefore, named in the reported lists were legally issued.

For State Mine Inspector.

Examinations for the position of mine inspector have been held this week by the state board of examiners. Four of the six who took the examinations passed the required test.

Those who qualified for the positions are John Jeffries and William Holland, of Monroe county; J. B. Conner, of Appanoose county and William Abrams, of Jasper county.

Excursion Rates Will Come Again.

The railroads to all appearances have withdrawn their determination to maintain a minimum rate of 2 cents per mile for passenger business during the summer.

When the two cent rate was forced upon the railroads, it was reported that excursion rates would henceforth be discontinued. With the opening of the spring season and prospective immigration to the southwest, however, the railroads one by one are announcing excursion rates the same as those of last summer.

In Chicago the report has been circulated that the Burlington proposes to conduct excursions to the Denver democratic national convention at a rate of 3 cents a mile for the round trip.

This report could not be confirmed at the local office of the Burlington. The city passenger agent has not yet been notified of the rates to prevail this season.

The city office of the Great Western has not received official information on summer rates but in Chicago it is asserted that the Great Western will make low rates to all convention cities.

CHAS

The local office of the Rock Island has received official notice that the excursion rates of last summer, which are lower than 2 cents a mile, will prevail this year. City Passenger Agent George R. Kline received a communication from F. B. Rutherford, division passenger agent of the Rock Island at Omaha, stating that excursion and tourists' rates from Lincoln, Council Bluffs, Omaha and Des Moines to Denver, Colorado Springs and Pueblo would be the same this season as they were last year. Mr. Rutherford said in his letter that he had been so notified by the Chicago office.

Mr. Kline said, however, that no special convention rate would be given within the state but that former interstate convention rates will not be effected.

Declare War on Drys.

The Traveling Men's Liberty league of Iowa is going after the Iowa prohibitionists hammer and tongue, through the advertising columns of the daily papers, and by means of tons of circulars and literature of various kinds. Headquarters have been opened in the Crocker building.

The board of directors of the society met at the Kirkwood to effect permanent organization and to elect a secretary to take charge of the headquarters in Des Moines. J. B. Stewart, of Clinton, an old newspaper man, and for several years editor of the Clinton Evening Journal, was selected to fill the place. He will remove to Des Moines at once and inaugurate the fight.

The T. M. L. L. of I. is a new society. It was formed temporarily at Davenport recently. All traveling men who "sell" saloons, salesmen for breweries, wholesale liquor interests, cigar men, bottlers, fixture manufacturers, and the allied interests are eligible to membership. The charter members of the association number 400.

The following officers were elected for the ensuing year: President, E. A. Lucius, Marshalltown; first vice president, Theodore Sindt, Davenport; second vice president, Frank Thimmesch, Dubuque; secretary, J. B. Stewart, Clinton; treasurer, F. P. Mattes, Des Moines.

Bennett Asks for Pardon.

Gov. Cummins heard arguments in the case of Barton R. Bennett of Bremer county, recently convicted in that county. He is applicant for a pardon. He was convicted and the supreme court recently affirmed the decision. Burton E. Sweet, candidate for congress, and former County Attorney Mitchell appeared in his behalf in the hearing before the governor and Mr. Farwell and County Attorney Sager appeared against the aplicant.

President Invites Cummins.

Governor Cummins has received an invitation from President Roosevelt to attend a dinner at the White house the evening of May 12. The conference of governor for the consideration of means to husband the natural resources of the country will be held May 13, 14 and 15.

An invitation was also received by the governor to be present at the ceremonies of greeting to the American fleet on its arrival at San Francisco.

Bank Deposits Increase.

Bank deposits in the state and savings banks of the state increased during the three months between the last bank call and the one preceding.

Footings on the reports made by the banks to the auditor of state have not been completed, but it is stated that they will show an increase in deposits amounting to several millions, and the total deposits are likely to be in excess of $200,000.000 again.

BRYAN HOME CHOICE

NEBRASKA PLEDGES PRESIDENTIAL ALLEGIANCE.

DEMOCRATS IN SESSION

All Sorts of Warm Greetings Thrown at Man Whom Party Leaders Term the "Ideal American."

Omaha, Neb.—Friday was "Bryan Day" in Omaha. For that matter it was "Bryan Day" throughout Nebraska. With the Democratic state convention as a nucleus, party leaders from every county and practically every primary district in the commonwealth pledged allegiance to the presidential aspirations of Mr. Bryan and to consider means for furthering his interests before the Democratic national convention at Denver next July. Enthusiasm was prevalent throughout Thursday. It broke loose early in the afternoon session of the convention and gradually gathering volume broke out in tumultuous vociferations when at the beginning of the evening session the platform committee presented a resolution. The resolution: "The Democratic party of Nebraska again declares confindence in, and admiration for William Jennings Bryan. In him we behold the ideal American citizen—the ideal Democrat. We rejoice that the principles which he has so

William Jennings Bryan.

ably advocated have been gladly received and as now generally accepted by the American people. Resolved, That the delegates by this convention chosen, be and are hereby instructed to vote as a unit for the nomination of Mr. Bryan for the presidency." Brief as this official indorsement of Mr. Bryan's candidacy, it met in full the approval of the delegates. The ironclad instructions to the 16 men selected during the afternoon to represent the state at Denver will, it was thought, leave no doubt as to where Bryan's home state stands.

Kansas Republicans for Taft.

Topeka, Kan.—Kansas Republicans in state convention here Wednesday elected four delegates-at-large to the Chicago convention instructed to vote for the nomination of Secretary W. H. Taft for president.

Minnesota Democrats for Johnson.

St. Paul, Minn.—The Democratic state committee of Minnesota Friday afternoon, after a bitter fight, adopted a resolution indorsing Gov. John A. Johnson of Minnesota for the Democratic presidential nomination and recommending that he be named by the national convention at Denver next July. The state committee besides adopting the Johnson resolution, voted that the state convention to elect delegates to the national convention should be held in St. Paul on May 14. The matter of calling a convention to nominate state officers was left to a committee of five to be appointed by State Chairman Frank A. Day.

St. Petersburg.—The Russian Duma has adopted unanimously an interpellation asking M. Kokovsoff, the finance minister, to explain his reasons for inducing the emperor to issue a ukase about the end of January authorizing an international loan of $83,000,000 in violation of a provision of the fundamental law requiring the sanction of the Duma in all budget operations.

Italian Is Slain.

Moosup, Conn.—By the finding of the dismembered body of an Italian believed to have been Dino Pietro of New York in the Moosup river Thursday afternoon, a brutal murder was discovered. Salvatore Capagello, also Italian, 20 years old, accused by his wife of connection with the murder, is under arrest.

JUDGING BY THE RESULTS.

Villager's Conversion Had Not Been of Great Avail.

"In our business we get many doubtful compliments," said Col. John F. Bishop, deputy surveyor of the port, the other day, "but I do not think I ever received a compliment such as my grandfather got down in my native state of Tennessee. My grandfather was a minister and I was a very small boy when we both strolled down the road one day. One of our fellow villagers came along toward us.

"'Good morning,' said the villager, who apparently had looked upon the cup. 'I-sh conver—hic—ted, parson,' he stammered with difficulty. 'Antwashyou—hic—that con—hic—converted—hic—me.'

"'That must be so,' replied my grandfather, 'for it's certain the Almighty had nothing to do with your conversion.'"—New York Evening Telegram.

THREE CURES OF ECZEMA.

Woman Tells of Her Brother's Terrible Suffering—Two Babies Also Cured —Cuticura Invaluable.

"My brother had eczema three different summers. Each summer it came out between his shoulders and down his back, and he said his suffering was terrible. When it came on the third summer, he bought a box of Cuticura Ointment and gave it a faithful trial. Soon he began to feel better and he cured himself entirely of eczema with Cuticura. A lady in Indiana heard of how my daughter, Mrs. Miller, had cured her little son of terrible eczema by the Cuticura Remedies. This lady's little one had the eczema so badly that they thought they would lose it. She used Cuticura Remedies and they cured her child entirely, and the disease never came back. Mrs. Sarah E. Lusk, Coldwater, Mich., Aug. 15 and Sept. 2, 1907."

The Son of Ham.

"During a revival in Texas," said Philip R. Bangs of Toledo, O., his turn for a story having come, "a negro was reputed to have had visions about Heaven and hell. His boss called him up and interrogated him as to what he saw in both places, and first as to what the white men and darkies were doing in Heaven. 'Lord, boss, the white men was all a-tilting back in their chairs, with their heels on the banisters, a-smoking cigars, and the niggers was down on their knees a-shining up their golden slippers.' Then as to what was going on at the other place. 'Ef you believe me, boss, every single white man had nigger in his hands a-holdin' him up between him and the flames.'"—Washington Herald.

Kleptomania.

It has been announced on the highest medical authority that kleptomania is more prevalent among women than among men. Be that as it may, the newest and most unique plea in this connection was that advanced by a negro in a Lynchburg (Va.) court. After listening to a long explanation from his counsel, the darky thought to impress the judge by adding his mite. So he broke in with:

"Yessah, dat's it! Jedge, yo' honah, dat's it! De chickens done hypnotize me, jedge, an' den de kleptomania come on!"—Illustrated Sunday Magazine.

THE DOCTOR'S GIFT.

Food Worth Its Weight in Gold.

We usually expect the doctor to put us on some kind of penance and give us bitter medicines.

A Penn. doctor brought a patient something entirely different and the results are truly interesting.

"Two years ago," writes this patient, "I was a frequent victim of acute indigestion and biliousness, being allowed to eat very few things. One day our family doctor brought me a small package, saying he had found something for me to eat, at last.

"He said it was a food called Grape-Nuts, and even as its golden color might suggest, it was worth its weight in gold. I was sick and tired, trying one thing after another to no avail, but at last consented to try this new food.

"Well! it surpassed my doctor's fondest anticipation and every day since then I have blessed the good doctor and the inventor of Grape-Nuts.

"I noticed improvement at once and in a month's time my former spells of indigestion had disappeared. In two months I felt like a new man. My brain was much clearer and keener, my body took on the vitality of youth, and this condition has continued."

FACTS FOR SICK WOMEN

LYDIA E. PINKHAM

No other medicine has been so successful in relieving the suffering of women or received so many genuine testimonials as has **Lydia E. Pinkham's Vegetable Compound.**

In every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every one you meet has either been benefited by it, or has friends who have.

In the Pinkham Laboratory at Lynn, Mass., any **woman** any day may see the files containing over one million one hundred thousand letters from women seeking health, and here are the letters in which they openly state over their own signatures that they were cured by Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made from roots and herbs, without drugs, and is wholesome and harmless.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful is because it contains ingredients which act directly upon the feminine organism, restoring it to a healthy normal condition.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

WAR IN FAR EAST

JAPAN PREPARES WARSHIPS TO LEAVE SASEBO MARCH 14.

NAVAL BASE IS VERY BUSY

Several Jap Cruisers Leave Port While Others Are Being Coaled —Situation Is Critical.

London, March 9.—A special dispatch received here states that China has apologized to Japan for hauling down the Japanese flag when the Tatsu Maru was seized. The dispatch further states that China later will reply to the Japanese government regarding the seizure of the steamer and its cargo.

Tokio, March 9.—The fates seem almost resolved to embroil Japan and China by fair means or foul. No sooner does one diplomatic issue appear on the eve of satisfactory settlement than another one crops up to prolong the agony and keep the Tokio foreign officers and the Chinese foreign board more or less busy.

Japan is undoubtedly preparing for eventualties. The entire decision in the matter rests with Premier Saionji and Foreign Minister Mayashi. There has been no indication of the period as to time that Japan would await China's reply.

It is presumed that Yuan Shi Kai will require four days' consultation with the viceroy of Canton, consequently no decision may be reached before March 10 or 11.

The naval base at Sasebo is extremely active. It is announced that a part of the first squadron will leave port March 14. The armored cruiser Chi Yoda suddenly left port on Saturday night. Coaling is proceeding rapidly, a number of torpedo boat destroyers have already coaled. Enormous supplies in storage at Sasebo are being hurried aboard the vessels.

The Kanto, a boundary, the Tsin-Tsin-Tun-Rakumen railway, the North Manchurian customs and the telegraph questions—all these have now ceased to excite much concern in the minds of those who can see below the surface of the political current. But, on the other hand, as though the Chinese themselves were determined to furnish the Japanese opposition with its strongest arguments in favor of a more spirited policy vis-a-vis, the middle kingdom, whose Chinese warships seized a Japanese merchant steamer—the Tatsu Maru—in Chinese territorial waters, just outside Macao harbor and escorted her to Canton on the charge that she was engaged in an attempt to smuggle arms and ammunition into China.

The facts of the case as nearly as can be ascertained from both sides appear to be these:

The Japanese contention is that the vessel left Kobe on January 26 witn ninety-four cases of rifles and forty cases of ammunition, consigned by the Ataka Shokai of Osaka to Messrs. Kwong Yo & Co. of Macao, who are licensed by the Macao government to deal in arms. It is asserted that the Ataka Shokai had obtained the necessary permit from the Macao authorities with regard to the arms and ammunition and that the usual customs and police formalities had been complied with at Kobe. The fact that the Tatsu Maru anchored outside Macao harbor is explained by the statement that her draft was too great to permit her to enter the harbor in safety, and that the intention of the captain and the consignees was to have the cargo discharged into lighters. According to the captain's story the vessel was surrounded by four Chinese gunboats and was shortly afterwards boarded by the Chinese commander, who declared that although the steamer was in possession of a certificate issued by the Portuguese authorities at Macao, the government was inforced that she was bound for Macao with a cargo of 134 cases of arms and ammunition consigned to a Chinese, and that he had been ordered by the Taotal of Canton to stop the discharge of this cargo. Later two customs officers and twenty blue jackets boarded the steamer.

The incident created no small excitement among the steamer's passengers, some apprehension being entertained that the Japanese cruisers in Hong Kong harbor might attempt a rescue, in which event it is deemed probable that the Chinese gunboats would have sent the Tatsu Maru to the bottom without further ceremony. The fat then would have been in a fire with a vengeance.

Further inquiry has elicited the information that the seizure of the Tatsu Maru was brought about through a report sent from Kobe or Osaka to the Chinese to the effect that although the rifles and ammunition were consigned to a firm in Macao, they were really to be smuggled into the hands of insurgents in the interior of China. Acting on this assurance the Chinese authorities took immediate steps to seize the steamer. It is surmised that the informant of the Chinese may have been a Chinese residing in Japan.

The urine was discolored and though I used one remedy after another, I was not helped until I used Doan's Kidney Pills, and I was so bad then that the first box made only a slight change. "Sure," replied Dennis. "Its because of the difficulty they'd have in collicting the eggs."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. WHAT WINTER WHEAT IS DOING FOR SOUTHERN ALBERTA.

Splendid Crops on the Former Ranching Plains of Canadian West.

That portion of the country in Western Canada formerly recognized as ranching country has developed into one of the best winter wheat districts in the continent. Yields are quoted running from 30 to 60 bushels to the acre, and giving a return to the farmer of from $25 to $50 per acre. These lands are now selling at from $12 to $20 per acre, and pay well at that figure. H. Howes of Magrath, Alberta, Western Canada, had 50 acres of land in wheat, which averaged 45 bushels to the acre; his yield of oats was 35 bushels. The value to him per acre of wheat was $35.00. J. F. Haycock of the same place, says: "I had 65 acres of wheat, 35 acres of oats and four acres of barley. My average yield of oats to the acre was 80 bushels; wheat—winter—60 bushels and red fyfe, 33 bushels, and barley, 50 bushels. The value to me per acre was, wheat, $28.00; oats, $32.00, and barley, $24.00." J. F. Bradshaw of Magrath, had 1,030 acres of wheat in crop that averaged 39½ bushels to the acre, his oats, 32 bushels; barley, 53 bushels. He threshed 31,000 bushels of wheat from 540 acres. He also had 250 tons of sugar beets from 25 acres worth $5.62½ per ton. W. S. Sherod, of Lethbridge, says: "I came to Lethbridge from Souris, North Dakota, in April, 1907, having purchased 900 acres of land in this district last fall. I had 128 acres of Alberta Red winter wheat which was put in on breaking in the fall of 1906, which yielded 41½ bushels to the acre, for which I received 87½ cents per bushel, which paid me $36.30 per acre. I had 190 acres "stubbled in" that is disced in on the stubble, which yielded 22 bushels to the acre at 87½ cents per bushel, which paid me $19.25 to the acre. I also had 350 acres of strictly volunteer crop, which it was intended to prepare in the summer; but when it was seen that it was a good looking crop, it was allowed to go. From this we threshed 15 bushels to the acre, which paid us at the rate of 87½ cents per bushel or $13.12 per acre. Our total crop yielded us 14,742 bushels of first-class wheat. Taking it as a whole, I consider that I had a first-class crop all through; and, taking into consideration the fact of part of the crop having been "stubbled in," and part strictly volunteer (which was never touched at all until the binder was put into it), I consider I had a heavy crop. I might say that I was in North Dakota five years, and I never grew as heavy a crop during that time. This is the 25th day of November, and my teams are still ploughing, and, from the appearance of the weather, will be for some time yet." R. W. Bradshaw of Magrath, says: "I had this year 400 acres in crop, viz.: 200 acres of wheat and 200 acres in oats. My average yield of oats to the acre was 50 bushels, and wheat, 22½ bushels. The value to me per acre for wheat was $19.00, and oats, $17.00. The highest price obtained by me this year or offered me for my grain was for wheat 82 cents per bushel, and $1.05 per hundred for oats. I also had 100 tons of hay worth $12.00 per ton, and will say my wheat was all volunteer this year. Lots of wheat is averaging from 50 to 60 bushels per acre on summer fallow, and on new breaking, when the breaking was done early in the spring." Writing from Spring Coulee, Alberta, W. L. Thompson says: "I had this year 3,000 acres in crop, viz.: 2,000 acres of wheat and 1,000 acres of oats. My average yield of oats to the acre was 30 bushels and of wheat 35 bushels. The value to me per acre for wheat was $27.00 and for oats $15.00."

Marble Consolation.

"Never mind, dear," said the author's wife, "the world doesn't appreciate you now, but some of these days it will see things in a different light, and give you a big monument; and if it should not, you just keep up your life insurance, and I'll see to it myself. You deserve a monument, if ever man did!"

And then he said it looked like rain, but he thought he'd risk it outside awhile, anyhow."

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it unfailingly cures all curable cases of this heretofore dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood seem to dissolve and pass away under the action of this remedy as easily as does sugar when added to pure water and then, when dissolved, these poisonous wastes easily pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Mrs. Geo. Schaefer is on the sick list this week. Dr. Spooner is attending.

Ernest Schwichtenberg is still very sick but a slight improvement seems to be noticable.

The Klemme "Standard Bearers" will meet next week with Mrs. Wessel for their monthly program.

Mr. and Mrs. Henry Griffin had their little boy boy christened last Sunday and named him Harvey Carl.

The second quarterly meeting will be held in the Germantown church Saturday and Sunday. There will be no services in the Klemme chuch.

Mrs. Jno. Gruetzmacher and two daughters were in Garner Tuesday to witness the christening of the baby girl of Mr. and Mrs. Jno. Schuler.

Grandma Lau had the misfortune to loose her driving horse last week. In the evening it was appearant well and the next morning it was dead.

Geo. Gast departed Wednesday for Beltrami, Minn. after spending a few months at his old home. We are sorry to see him go as he has always been a favorite among the young people.

Another illustrated lecture was given in Klemme last Sunday evening and in Germantown Tuesday evening. The subject was: "The Diamond Fields of Dixie, or a trip through the sunry south."

The following was received through the mail Tuesday:

"In reply to your item in last week's paper would like to ask what you expect of the common people, but thieves, robbers and would be murderers when our bankers and leading business men—(or they think they are the leaders) run a keg business in the "front alleys" and run "private joints" and anything to get votes and business. Please reply through the paper"

CARRIE N. THE SECOND.

Now we take it for granted that the above was written in good faith and that the writer is serious in that matter for we do not want to be any ones cat's paw to rake the other fellows chestnuts out of the fire. In the first place permit us to explain that we hold the pulpit and the press to be the "Watchtower" of the people and as such have always wielded a mighty influence in moulding character and conditions. We believe this is expected of both if they are true to their calling and purpose Conceding this, it stands to reason that whenever and wherever the pulpit and press wink at crime and cover up lawlessness the community soon degenerates from bad to worse. If conditions are any way near what the author of the abvoe letter claims to be facts, it is time that the public sentiment be aroused and all law abiding citizens stand together and bid "halt." If we really have "leading business men" in our town who resort to "kegs" and "joints" to get votes and business, the better class ought to raise the standard of citizenship so high that these men will feel ashamed of such low degrading practices. Such practices were resorted a half century ago and we should shun them. In conclusion let us say we believe the yellow novel and street loafing of the young does more to make thieves and robbers of our boys than anything else.

People who were present smiled at the little passage of arms which took place between two young ladies at a luncheon recently. One of them, a bride, shaking hands in her characteristically cordial way, said to the other:

"I'm so glad to meet you! You have afforded me so very much amusement just lately."

"Amusement?" said the other.

"Oh, yes," went on the bride. "I've been through my husband's desk, and I've read all his old love letters. I found several very affectionate letters from you, and I enjoyed reading them, really, ever so much."

"I'm so glad you enjoyed them," purred the other. "But do come and see me very soon. Here is my card. I have the answers to all those letters and you might like to read them as well. Mr. X——'s letters are so much more affectionate than those I wrote to him. I know you'll enjoy reading them ever so much more than you did mine."

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

For Weak Kidneys, Backache, inflammation of the bladder and all urinary troubles DeWitt's Kidney and Bladder Pills are unsurpassed.

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. RECORD CRUISE OF BATTLESHIP FLEET NEAR END.

VESSELS IN FINE SHAPE

Squadron to Complete Trip in San Francisco After Target Practice—Entertainments for Sailors Planned.

PROGRESS OF FLEET'S CRUISE.

Sailed from Hampton Roads December 16, after send-off by President Roosevelt.

Reached Trinidad December 24 and stopped four days.

Sailed from Trinidad December 28 and arrived at Rio Janeiro January 11 for a stop of ten days.

Sailed from Rio Janeiro January 21 and reached Punta Arenas, Straits of Magellan, January 31.

Left Punta Arenas February 5 and arrived at Callao, Peru, February 13.

Sailed from Callao February 28 and arrived at Magdalena bay, Lower California, March 12.

Total length of cruise from Hampton Roads to San Francisco, 14,000 miles.

San Diego, Cal.—When the American battleship fleet under command of Rear Admiral Robley D. Evans steamed Thursday into Magdalena bay, passing through the rocky gateway marked by Sail Rock on the

Admiral Evans.

north and Redondo point on the south and dropped anchors behind the high peninsula's promontory which stretched a protecting arm down from the main land and makes Man-o'-War cove the most sheltered harbor of the lower Pacific coast, the history making naval cruise of more than 13,000 miles begun at Hampton roads less than three months ago, practically came to an end. Magdalena is the present naval base of the Pacific for American target work and battle practice drills, and by right of temporary ownership through government lease, the vessels, if not the men of the fleet, may feel that they are again in home waters. There remains to be made the trip from Magdalena bay to San Francisco, the destination originally announced, and a matter of some 1,100 miles, but it will not be begun until after target practice is concluded and fleet drills are done. This last stage of the journey will be a tour of holiday making, with stops at San Diego, Los Angeles, Santa Barbara and Santa Cruz, where reception committees are planning all manner of entertainments for officers and men. The California committees announce that the uniforms of the enlisted men far from being a bar to any place of amusement, as has sometimes been known to be the case in other places, will be a mark of hospitality and welcome all along the Pacific coast.

Fleet to Circle Globe.

Washington.—Admiral Evans, battleship fleet, after leaving San Francisco, will visit Hawaii, Samoa, Melbourne and Sydney, Australia, the Philippines and return to New York by way of the Suez canal.

Secretary Metcalf announced the above future movements of the fleet after the cabinet meeting Friday. It will leave San Francisco on July 6 "for our Pacific possessions" as Mr. Metcalf styled it. The vessels will first touch at Hawaii, where they will coal. After that they will go to Samoa, following this up by a visit to Australia.

Accused of $40,000,000 Loot.

New York.—Charges that E. H. Harriman has caused a loss to the stockholders of the Union Pacific railroad of over $40,000,000 by his stock speculations with the funds of that corporation were filed with the board of directors Thursday.

WARE FOUND GUILTY.

Seymour Banker Confesses and Gets Five Years.

Corydon.—Leroy Ware, who has been held in jail for some months for fraudulent banking as cashier of the defunct Farmers and Drovers' State bank of Seymour, pleaded guilty in district court here rather than stand trial and was sentenced to serve five years in the penitentiary. Ware pleaded guilty to one of the indictments for making fraudulent entries in the books of the bank. There were twenty-one other indictments found against him, all of which will be permitted to stand for the present.

While Ware's plea of guilty was but a short cut to a certain conviction, there were many depositors who hoped for a thorough airing of the whole bank muddle in the courts. There is a strong feeling here that Ware is as much sinned against as a sinner and that he was in many respects a mere cat's paw.

"The policy of the bank, for which the directors were responsible, was one that meant destruction under any circumstances," declared W. L. Livingston, attorney for Ware, in commenting upon the action of his client. "The books show that time and time again the officers of the bank drew dividends from the bank at from 6 to 12½ per cent and even higher, and that at the same time they were paid as high at 12½ per cent interst on their time deposits, all while the bank was in a precarious condition.

"As late as January, 1907, only a short time before the failure, the stockholders at a regular meeting increased the capital of the institution from $60,000 to $80,000 on a pretended undivided surplus and profits and at the same time paid the stockholders a dividend of 11 per cent on a capitalization of $80,000. The attorneys for the bank claim that the books will disclose that for the year preceding this action there was an actual deficit of $10,000 instead of a surplus or profit.

"Among the old papers of the bank are found undisputed evidences of a system of rediscounting through the bank, whereby the favored directors or officers would take from the bank paper bearing 8 per cent interest and other paper guaranteed by the bank and then rediscount the paper at 6 per cent and pocket the 2 per cent at the expense of the bank.

"Without trying to create any maudlin sympathy for Mr. Ware it can be truly said of him that he was suddenly left in 1895 in full command of the bank without sufficient clerical help and no one to advise him and without previous experience to bear the brunt of the burden of passing on credits and extending credits except men of the disposition above indicated. He was physically weak from youth, and from hard labor had become deformed in body. He lacked the essential foundation for the strain of so difficult a task as to withstand alone and unaided the strain and pressure of certain officers and customers of the bank, whose will power overreached and dominated his will power without Mr. Ware suspecting the wrong of his acts. Disinterested people here are charitable enough to believe that his mistakes were of judgment and not of the heart. The blame may never be placed where it belongs, but to my mind the blame rests primarily upon the directors who gave him insufficient help and likely insufficient pay, and surely insufficient advice, prompted by a greedy and parsimonious policy."

SHOOTS WIFE; SUICIDES.

Drunken Oskaloosa Man Commits Double Crime.

Oskaloosa.—While drunk and desperately jealous, Lee Grubb, a cook, shot and killed his wife on the street here, attempted to shoot their 2-year-old baby, and then shot and killed himself. Both Grubb and his wife died instantly. The baby was not injured.

Mr. and Mrs. Grubb had not lived together all the time of late because of violent quarrels, due to the husband's jealousy. The woman and her babe, with a friend, Mrs. Wile, were enroute to the theater and while they were in the Bertsch-Schurtz drug store, Grubb called his wife out on the street. After a brief and angry talk with her, he pulled a revolver from his pocket, fired one shot at his wife, a second at the baby, which was prattling in its cab and a third bullet he sent crashing into his own temple. Grubb dropped dead instantly and his wife expired very soon afterward.

Grubb was born and reared in Oskaloosa and was 24 years old. His wife was Miss Townend, of Rose Hill, and he married her husband four years ago.

Lacey and M'Cord Named.

Oskaloosa.—Delegates from the Sixth district to the national convention were named by the unanimous selection of Major John F. Lacey of Mahaska county and Hon. M. A. McCord of Jasper county.

TO ENFORCE THE LAW.

Davenport Business Men Meet and Adopt a Programme.

Davenport.—The civic federation order to the 180 Davenport saloons that they must remove all tables and chairs and nail up all entrances but the front door resulted in a mass-meeting attended by forty leading Davenport business men at the Commercial club. Resolutions offered by ex-Congressman Joe R. Lane were adopted as follows:

"Resolved, That the business men of Davenport, this day assembled, being in favor of good government in our city, now place ourselves on record, that not expressing any opinion on the merits of the mulct law, there should be the enforcement of the so-called mulct law in its substantial and material requirements.

"The requirements thus referred to are to witness: Closing as provided in the law; exclusion of women and wine rooms, minors and drunkards; giving bonds as required by law; removal of screens and curtains as provided by law; and no gambling, as provided by law. We request the civic federation to cease further prosecutions for a reasonable time, except as may be in violation of the law as above defined."

As a guaranty to the civic federation that Davenport business men would see that the above provisions of the law were observed, the meeting appointed a committee to represent business men in the enforcement of the law. The committee is the Hon. Joe R. Lane, Col. G. Watson French, George T. Baker, W. R. Weir, B. F. Tillinghast, A. P. Adler and Dr. George E. Decker.

ATROCIOUS CRIME.

Mother Fiendlishly Kills Babe To Cover Up Her Shame.

Burlington.—Miss Geneva Smith, aged 23, the daughter of the Rev. E. B. Smith, of West Grove, formerly of Fairfield, has confessed to the chief of police here that she had murdered her illegitimate child. The body of the infant newly born was found under the girl's bed. Examination showed the mother's crime had been brutal in the extreme.

The discovery was made by a doctor who had been called to the hospital to examine Miss Smith, who was in great pain. She vehemently denied that she had become a mother, but when the chief of police arrived she confessed the terrible crime and told where the body could be found.

Miss Smith has been working as a domestic and was engaged to be married to a reputable young man next week, named William Lyons, who, however, she states had nothing to do with her condition. She will be held to the grand jury on the charge of murder.

It is believed by the physicians who examined the girl that the committed the deed while insane, the means used to end the little one's life being those only resorted to by a fiend.

Carl Stemple, a young business man in Burlington, but whose home is in Ft. Madison, was arrested on charges of seduction sworn out by the father of the girl. The latter states that Stemple was the father of the child she murdered.

MRS. DAVIS DIES.

Murderer Is Arested And Taken To Jail.

Des Moines.—Martin E. Davis, alleged wife assassin, who was arrested as he left the bed where his wife lay dead at the Methodist hospital from the shot he fired at her a month ago, will fight the charge of murder with expert testimony to show that the woman died from worry over him and not from the bullet. Attorney John B. Sullivan outlined that defense when he asked Judge A. J. Mathis to fix the murderer's bonds at arraignment. Davis was bound over to the district court without bonds and lies now in the St. Louis steel cage in the county jail.

Mrs. Davis died at the Methodist hospital after ten days of delirium and slow sinking spells. The physician who attended Mrs. Davis said:

"Mrs. Davis died both from the effect of the bullet and from worry and shock. The infection came from the inside and was present from the first. The operation two weeks ago to remove the bullet from near the bone left her in a very serious condition. She had no fever when she left the hospital and she left with the authority of those in attendance."

IOWA MEN ARE MURDERED.

Two Arcadia Youths Did Not Kill Each Other.

Arcadia.—The news that William Duncker and Herman Hansen, both of this city, had killed each other in a duel in their room at a Ranchester, Wyo., hotel met with a firm denial. The record of the two men precludes any such a conclusion, as they were lifelong friends. It is declared that they were evidently both murdered by some one who knew they possessed money.

PERUNA EDITORIAL NO. 2.

Dr. Hartman has claimed for many years that Peruna is an EXCELLENT CATARRH REMEDY. Some of the doctor's critics have disputed the doctor's claim as to the efficacy of Peruna.

Since the ingredients of Peruna are no longer a secret, what do the medical authorities say concerning the remedies of which Peruna is composed?

Take, for instance, the ingredient HYDRASTIS CANADENSIS, OR GOLDEN SEAL. The United States Dispensatory says of this herbal remedy, that it is largely employed in the treatment of depraved mucous membranes, chronic rhinitis (nasal catarrh), atonic dyspepsia (catarrh of the stomach), chronic intestinal catarrh, catarrhal jaundice (catarrh of the liver), and in diseased mucous membranes of the pelvic organs. It is also recommended for the treatment of various forms of diseases peculiar to women.

Another ingredient of Peruna, CORYDALIS FORMOSA, is classed in the United States Dispensatory as a tonic.

CEDRON SEEDS is another ingredient of Peruna, an excellent drug that has been very largely overlooked by the medical profession for the past fifty years. THE SEEDS ARE TO BE FOUND IN VERY FEW DRUG STORES. The United States Dispensatory says of the action of cedron that it is used as a bitter tonic and in the treatment of dysentery, and in intermittent diseases as a SUBSTITUTE FOR QUININE.

OIL OF COPAIBA, another ingredient of Peruna, is classed by the United States Dispensatory as a mild stimulant and diuretic. It acts on the stomach and intestinal tract. It acts as a stimulant on the genito-urinary membranes. Useful in chronic cystitis, chronic dysentery and diarrhea, and some chronic diseases of the liver and kidneys.

Our Peruna Tablet Is Peruna With Fluid Removed.

These opinions as to the ingredients of Peruna are held by all writers on the subject, including Bartholow and Scudder.

OF HYDRASTIS, BARTHOLOW SAYS it is applicable to stomatitis (catarrh of the mucous surfaces of the mouth), follicular pharyngitis (catarrh of the pharynx), chronic coryza (catarrh of the head). This writer classes hydrastis as a stomachic tonic, useful in atonic dyspepsia (chronic gastric catarrh), catarrh of the duodenum, catarrh of the gall duct, catarrh of the intestines, catarrh of the kidneys (chronic Bright's disease), catarrh of the bladder, and catarrh of other pelvic organs.

BARTHOLOW REGARDS COPAIBA as an excellent remedy for chronic catarrh of the bladder, chronic bronchitis (catarrh of the bronchial tubes).

BARTHOLOW STATES THAT CUBEB, an ingredient of Peruna, promotes the appetite and digestion, increases the circulation of the blood. Useful in chronic nasal catarrh, follicular pharyngitis (catarrh of the pharynx), increasing the tonicity of the mucous membranes of the throat. It also relieves hoarseness. Useful in atonic dyspepsia (catarrh of the stomach), and in chronic catarrh of the colon and rectum, catarrh of the bladder, prostatorrhea, and chronic bronchial affections.

MILLSPAUGH, MEDICINAL PLANTS, one of the most authoritative works on medicinal herbs in the English language, in commenting upon COLLINSONIA CANADENSIS, says that it acts on the pneumogastric and vaso motor nerves. It increases the secretions of the mucous membranes in general. In the mountains of Virginia, Kentucky, Tennessee and Carolina, collinsonia canadensis is considered a panacea for many disorders, including headache, colic, cramp, dropsy and indigestion. DR. SCUDDER regards it highly as a remedy in chronic diseases of the lungs, heart disease and asthma.

These citations ought to be sufficient to show to any candid mind that Peruna is a catarrh remedy. Surely, such herbal remedies, that command the enthusiastic confidence of the highest authorities obtainable, brought together in proper combination, ought to make a catarrh remedy of the highest efficacy.

This is our claim, and we are able to substantiate this claim by ample quotations from the HIGHEST MEDICAL AUTHORITIES IN THE WORLD.

"You had better see Enid first," remarks Burton, following her.

"No, I think not. Your interview should be before mine and I haven't time. The drive to Bastia is so long." Barnes hurriedly puts her into the vehicle. "May you be happy as I am," she calls to him, and the young Corsican wife is driven rapidly down the great avenue of chestnut trees, Tomasso being, apparently, also eager to leave the gendarmes that have hunted him over the mountains.

CHAPTER XV.

A Little Surprise for Mr. Barnes.

The American springs up the steps into the house again, and rapidly ascending the stairway to the second floor, sees a very faint gleam of light shining under the doorway of the great guest chamber in the front of the old Corsican mansion.

He knocks almost reverently and a faint, sweet voice answers timidly: "Come in."

His heart lighted by hope and love, his whole form trembling with anxiety to take his bride within his arms, the thought that she is his and safe making his flashing eyes very tender, the eager bridegroom opens the door.

Reclining on a lounge in a white robe her head bashfully turned from him, the long, beautiful, almost disheveled hair streaming over her shoulders, is his rescued bride.

She is in a nook of the big room well from the faint candle light.

He passes an arm about her slender waist and kisses her passionately. Her lips respond as sweetly and clingingly as ever did those of a young bride.

But even in the midst of the kiss, Barnes starts back with a sharp, amazed cry of almost horror: "My God, Sally Blackwood!"

And the lady turning to him so that the candle light shines upon her radiant features that are almost laughing, says archly: "Yes, I'm all here, La Belle Blackwood. It is a little surprise, is it not, my ardent bridegroom, Mr. Barnes of New York?"

"My heaven, how did you come here?" Burton's voice is hoarse with amazement.

"How? In Cipriano's swift yacht and afterward on a Corsican pony."

"And why?" An awful anxiety has crept into his voice.

"Why? To save your life!"

"To save my life?" Burton's tone is incredulous.

"Yes. I guessed from Cipriano that they were luring you to Corsica for your death. I came here to warn you."

"And Mr. Ruggles?" remarks Barnes, still astounded.

"Oh, Ruggles quarreled with me; got jealous of you or Cipriano, I don't know which. I was tired of Dan. Then bizarre Cipriano, he is so funny—he said to me: 'Ma chere, you want to even yourself with Barnes of New York?' I had told him you were such a gallant knight you wouldn't even kiss an old sweetheart because you were going to be married to a pretty-faced, fair-haired, blue-eyed English ingenue, and so, at Cip's suggestion, I came over to Corsica by Cipriano's fast yacht yesterday."

"But where is Enid and by what devil's chance did you take my bride's place?" asks Barnes.

"Oh, the Corsicans—they wanted you to follow them. They expected that. They didn't intend for you to get your bride, at all events not until you had given them several chances to kill you. So I was on the shore at Sagone waiting for them when Saliceti arrived per schedule on the Seagull. I saw them from a distance. They brought your bride off the yatch all right. Great Scott, she has a fine nerve, that young lady of yours. Haughty as a captured goddess."

"By the Eternal, have they killed her?" Barnes is white to the lips.

"Oh, not yet anyway. Saliceti, with two friends, hurried her on a long way ahead of me through the mountains. Some dark-eyed gentleman escorting me gave you a distant chance to see us. You were never on the same road as your wife after you left Vico—you were pursuing me!"

"My God!"

"It was such an exciting affair," she half laughs; "something so out of the ordinary, an adventure so bizaree that I liked to do it. Word was brought you were in pursuit up the mountain path. I knew they wanted to ambush you. So I told a shepherd to give you warning at the inn of Guagno. I hope you got it."

"Where did they take my wife?"

"That I shall not tell you—at least, not without a bribe. Shall I have a farewell kiss for the information?"

"Never!"

"Oh, Burton, don't kill me!" she gasps, for Barnes' hand, in his agony and rage, is nearly on her white throat.

"Pish, you are not worth it."

Uncompromisingly he tears himself from her and commands: "Tell me where I will find her now; tell me so that I can go back to her and dare to kiss my wife's lips, knowing that I am true to her. Think—think what you once were when your father and mother in Ohio loved you and believed in their little girl. By heaven, I know there is good in you, Sally—only let it come out, just this time," he entreats. "Just tell me where I can find my darling, so that I can rescue her in time, for you know these are villains who have stolen her from me."

A being of impulse, La Belle Blackwood wrings her hands, her head droops and she sobs: "Then, Burton, I'll forgive you and tell you. There is a little good in me—I'll tell you all I know of your bride, which is very little. I think the road they took her was north of the path that we followed. But where Enid is, I know not."

"Then Saliceti! I'll tear it from him."

"I hardly think he can tell you. His followers were strangely frightened and embarrassed when the Bellacoscia young men demanded your bride from them, and as an evasion, substituted me." Then, noting the fearful look on Barnes' face, she cries: "Don't waste your time here; ask the man who knows."

"Ah!"

"Cipriano Danella! The head of this affair didn't want you to find her—not until they killed you, if it were possible. Oh, this Corsican count who is playing with you is a great man—not a boy."

"This is all you can tell me? Is it the truth?"

"Yes, as God will never forgive me—yes."

"Very well," says Barnes, "I thank you for the information. I will now see that you get out of Corsica safely."

"How?"

"My friend, the great Bellacoscia, will do it for me."

"The great bandit! He will take me from Corsica? Diable, the magnificent bandit—that would be an adventure," laughs the volatile lady airily. "The ferocious bandit I have read of! This Bellacoscia who kills gendarmes as if they were flies! That's greater than even a pork packer, a cattle man or a Count Danella, isn't it? I thank you for the bandit, Mr. Barnes."

Barnes runs down the stairs and steps out upon the porch.

A happy-faced young man with elated air and dust-covered clothes is spurring hastily up the avenue, a native boy trotting beside him. Seeing the American, he calls out: "Glad to hear you and Enid are again yardarm to yardarm; though you look lovesick enough, Barnes of New York.

Awaking with a start, Burton looks at him and gasps. "Edwin, you here?"

"Easy enough. I found a letter left with Lady Chartris' housekeeper by my wife to be delivered to me this morning, which told me Marina had come to Bocognano. So I rushed into Nice. By good luck I found Alingham's yacht was coming straight to Ajaccio. For my sake he put on steam. I made the 25 miles up here from the Corsican capital on a horse, arriving before they extinguished the lights in the inn. There they told me of my noble wife and how Marina's words had banished our vendetta from Bocognano."

(TO BE CONTINUED.)

"I Thank You for the Bandit, Mr. Barnes."

PENALTIES OF GREAT PLACE.

Thrice Servants Those Who Have Risen to High Estate.

Men in great place are thrice servants—servants of the sovereign or state, servants of fame, and servants of business; so as they have no freedom neither in their persons, nor in their actions, nor in their times. It is a strange desire to seek power, and to lose liberty, or to seek power over others and to lose power over a man's self. The rising unto place is laborious, and by pains men come to greater pains, and it is sometimes base and by indignities men come to dignities. The standing is slippery and the regret is either a downfall or at least an eclipse, which is a melancholy thing. "Cum non sis qui fueris, non esse cur velis vivere." (Since you are not what you were, there is no reason why you should wish to live.) Nay, retire—men cannot when they would, neither will they when it were reason; but are impatient of privateness even in age and sickness which requires the shadow; like old townsmen, that will be still sitting at their street door, though thereby they offer age to scorn.—From Lord Bacon's Essay, "Of Great Place."

Modern Turpentine Gathering.

Twenty million turpentine cups are used in the pine forests of the south to catch the flow of resin from the trees, and 7,000,000 or 8,000,000 are added each year. These simple-looking cups, which are not unlike flowerpots in size and shape, indicate a rapid and highly important change in the American method of gathering turpentine, due to the need of economy in using all forest products and to the application of science in an old-fashioned industry.

The Great American Novel.

The pretty nurse had taken the best of care of the steel millionaire. "I want you to marry me," said he simply. "Why, Mr. Giltedge; this is rather sudden." "I know, child, I know. But you'll have plenty of time to get used to the idea. I'll have a fierce job to get rid of my wife."—Louisville Courier-Journal.

Beauty is the first gift Nature gives to woman, and the first she takes from her.—Mere.

China has apoligized to Japan, thus earning the contempt of a lot of would-be war correspondents.

The south has recently had what is called "an orderly lynching." Still, the lynchee probably failed to enjoy it.

There is nothing a man of good sense dreads in a wife so much as her having more sense than himself.—Fielding.

The Chronic Kicker is thoroughly convinced that April will more than make up for the bad weather we are not having in March.

Male firmness is very often obstinacy. Women have always something better, worth all qualities. They have tact.—Lord Beaconsfield.

Harriman now controls railroads that stretch from ocean to ocean. He, too, probably regards it as foolish to go on with the Panama Canal.

Evelyn is going to sue for a divorce on the ground that Harry was insane when he married her. There are women who would hate to set up a plea of that kind.

Pugilist Jeffries has declined an offer of $25,000 to appear in a boxing contest. Apparently there is at least one man in the world who knows when he has had enough.

A big diamond firm which failed the other day blames its trouble on "the public's craze for automobiles." The old saying may, therefore, be changed to "Stick to me and you'll ride in an automobile."

A New York burglar, as part of his loot, carried off 200 neckties. His arrest and conviction quickly followed, and now he is extremely sorry because not even one of the neckties matches his suit of stripes.

An octopus measuring ten feet six inches in length, while being killed at Tooradin, Victoria, twined a tentacle so firmly around the foot of one of its captor that the membrane had to be cut to free the man.

China imagines that her sovereignty has been restored in Manchuria, yet it is a fact that the South Manchurian Railway refuses to carry Chinese mails unless they are sent through the Japanese post-office, and international rates paid on what is considered to be Chinese inland correspondence.

A horse led at the funeral of a cavalry officer is a relic of the custom when a charger was sacrificed at the grave, an officer led the horse from behind the bier to the brink of the grave, and it was there slain and thrown in upon the coffin. The last occurrence of this kind took place at Treves, Germany, in 1781.

In years long past the German was considered the greatest smoker on earth. He is so no longer. The Belgian smokes 6.21 pounds of tobacco yearly; the inhabitants of the United States, 5.40 pounds; while the German's share is only 3.44 pounds. The Englishmen is really a most moderate smoker; 1.95 pounds last him a year.

GRAND OPENING.

Last Saturday evening the business men of Klemme met in banquet at the Newell Hotel to celebrate the opening of another enterprise launched in Klemme and which in time without question will give Klemme one of the finest little hotels in northern Iowa.

Supper was served from 5 o'clock and it was 7:30 o'clock p. m. before the last guests were served. The tables elaborately set and delicious to gaze upon and the host and hostess put forth every effort to see that all guests were bounteously served and in this connection we cannont forget the waiters who were very painstaking in trying to wait upon the guests that became the height of fashion and especially can we commend Mr. Hull who seemed to be conspicuous in every part of the lobby making himself agreeable to the guests and with a pompus smile bid them adieu and cheerfully extended an invitation to call again.

Our hotel service for the past few years has been badly crippled and we sincerely nope that the boycott causing this condition will be lifted as the new management has taken charge and that everybody will put their shoulders to the wheel to build up a splendid hotel business as we believe that Mr. and Mrs. Newell will serve the public in the fashion and manner in which they have been accustomed.

We would suggest that it behooves every business man to try and do all he can to make the hotel a grand success and in the end it will benefit us all.

We believe that it would be very nice indeed if the business men would meet in banquet say about twice a year and become better acquainted with each other. So far the State Savings Bank has been the only progressive institution in serving its stockholders at least once each year to a banquet—cannot we arrange for a business men's banquet within the next few short weeks and wake up to a new regime in our little city. Mr. and Mrs. Newell can surely take care and conduct a banquet of this kind which would be a credit to themselves and long linges in the memories of the participants.

THE PUBLIC HEALTH

RULES RESPECTING QUARANTINE AND DISINFECTION.

ADOPTED BY BOARD OF HEALTH

Rules and Regulations for Restriction and Prevention of Contagious and Infectious Diseases.

The following rules and regulations respecting quarantine and disinfection were revised and adopted by the Iowa State Board of Health, August 28, 1907:

INFECTIOUS DISEASES.

Definition.

Rule 1. Section 1. An infectious disease is one caused by a living microorganism or germ. Those infectious diseases which are readily transmissible from one person to another or from man to the lower animals, or vice versa, are contagious diseases.

Sec. 2. The following diseases, viz: Scarlet Fever (including Scarlatina and Scarlet Rash), Diphtheria (including Membranous Croup), Smallpox, Epidemic Cerebrospinal Meningitis, Asiatic Cholera, Bubonic Plague, Leprosy, Measles, Whooping Cough Chickenpox, Mumps, Puerperal Fever, Typhoid Fever, Tuberculosis (including Consumption), and Pneumonia, are hereby declared by the Iowa State Board of Health to be contagious and infectious diseases, and dangerous to the public health.

Notification of Contagious and Infectious Diseases.

Rule 2. It is hereby ordered by the Iowa State Board of Health, that every physician and every Osteopath practicing within the State of Iowa, shall give immediate notice (by telephone if accessible), to the mayor of the city or town, or the clerk of the township, of every recognized case of any of the diseases mentioned in Section 2, Rule 1, of this Chapter, which he is called upon to attend professionally, and within twelve (12) hours after making his diagnosis, he shall give written notice of the same to the above named official. In cases where there is a reasonable doubt as to the character of a disease, the attending physician shall advise immediate isolation of the patient until a diagnosis is determined. In all cases unattended by a physician, it shall be the duty of the head of the family or the person in charge of the patient or premises occupied by the patient to give notice in like manner to that required by physicians, and any school teacher or officer of a school who has knowledge of the existence of any contagious or infectious disease among persons attending such school, shall give immediate notice of the same as herein provided.

Mayor and Township Clerk to Report to Secretary of the State Board of Health.

Rule 3. It shall be the duty of the mayor of every city or town, and the clerk of every township, to report to the Secretary of the State Board of Health, within twenty-four (24) hours after being notified thereof every case of contagious or infectious disease reported to him and upon receiving notice of the subsidence of such disease, to likewise immediately report that fact, together with the mode of termination, whether by death or recovery. All reports provided for in this regulation, shall be made upon postal cards in accordance with the following forms adopted by the State Board of Health.

Sec. 2. No person shall enter or leave quarantined premises, except the attending physician, unless in possession of a written permit signed by the mayor or township clerk.

Sec. 3. Physicians in attendance upon cases of quarantinable disease shall cover their clothing with a proper suit or gown before entering the premises, and upon leaving shall disinfect said suit or gown and wash their hands and face with a disinfecting solution.

Isolation.

Rule 6. Section 1. Isolation means the complete separation of the patient, and those attendant upon him from all other persons upon the premises.

Sec. 2. Every article that has been used on or about the patient, or in the sick room, shall be properly disinfected by immersion in a strong disinfecting solution, before being removed from the sick room.

Sec. 3. When possible, a nurse should be obtained to care for the patient, but where from necessity or choice the parents or other members of the family assume the duties of nurse, the isolation shall apply to them.

Sec. 4. The discharges from the patient's bowels and bladder shall be received in a covered vessel containing an approved disinfectant, and shall remain therein for at least one hour. The discharges may then be buried or turned into a sewer. When such discharges are to be buried, the site selected shall not be less than 150 feet from a well, and a sufficient amount of unslacked lime shall be used to insure the complete destruction of such discharges. All vessels used in the sick room must be kept scrupulously clean and properly disinfected.

Quarantine Period.

Rule 1. Section 1. Quarantine shall be established and maintained in each and every case for the period specially and severally named herein:

Asiatic Cholera	21 days
Epidemic Cerebrospinal Meningitis.	14 days

Smallpox	40 days
Diphtheria (Membranous Croup) (except as provided in Rule 18)	35 days
Leprosy Continuous confinement to premises.	

Sec. 2. The Local Board of Health shall have authority to continue a quarantine beyond the time specified herein when such continuance is deemed necessary to safe-guard the public health.

Defacing Quarantine Sign.

Rule 8. If any person shall wilfully or maliciously, or without written authority, remove or deface. or cause to be removed or defaced, any quarantine sign or signal of danger, officially posted upon the quarantined premises, or upon premises subject to placard as provided by regulations of the State Board of Health, he shall be deemed to have violated the regulations of the State Board of Health, and shall be prosecuted accordingly.

Disinfection Before Release of Quarantine.

Rule 9. After the termination of either of the following named diseases: Asiatic Cholera, Bubonic Plague, Epidemic Cerebrospinal Meningitis, Diphtheria (including Membranous Croup), Measles (including German Measles), Scarlet Fever (including Scarletina and Scarlet Rash), Mumps, Smallpox, Chickenpox, Tuberculosis (including Consumption) Typhoid Fever, Typhus Fever, Puerperal Fever, Erysipelas, Pneumonia and Whooping Cough, the Mayor of the city or town, or the Clerk of the township, shall order the premises whereon or wherein the disease occurred, together with all persons, furniture, bedding, clothing, books, and all other articles thereon or therein contained to be properly disinfected under the personal supervision of the Health Officer, and in strict accordance with the regulations prescribed by the State Board of Health (See Chapter 2, of Disinfection.)

General Requirements for Release of Quarantine.

Rule 10. No order for the release of quarantine shall be made by the mayor, or township clerk until he receives a written report from the attending physician stating the number of persons on the quarantined premises, the number who have been sick with the infectious disease, their names, ages, and when the disease first appeared in each case, and when and how it terminated. If the mayor or township clerk shall find that the regulations of the State and Local Boards of Health relative to the period of quarantine, have been fully complied with, he shall order the premises and all persons and effects thereon to be disinfected in accordance with the regulations of the State Board of Health. (See Chapter 2 on Disinfection.) When all requirements have been properly complied with, the quarantine may be released. If quarantine regulations have not been fully complied with, or if proper disinfection has not been done, the mayor, or township clerk, shall continue the quarantine for the proper period, and until disinfection is completed and certified to by the Health officer. All disinfecting provided for in this Chapter shall be done under the personal supervision of the Health Officer and at public expense.

Special Provisions Under Which Quarantine May Be Released in Less Than the Prescribed Period.

Rule 11. Section 1. At the termination of any quarantinable disease except Diphtheria, when there are no further exposures thereto, upon the premises, the quarantine may be released, even though the period prescribed in Rule 7 has not elapsed. Provided, that no release from quarantine shall be permitted until the following conditions have been complied with, viz:

Sec. 2. Seventeen days must have elapsed after the date of complete recovery or death of the last case on the premises, to which fact the attending physician must certify in writing.

Sec. 3. The entire body of the patient and all exposed individuals must be bathed in a 1 to 3000 solution Bichloride of Mercury, or other approved disinfectant, and thoroughly washed with soap and hot water The clothing and other personal effects must be properly disinfected as provided in Rule 7, Chapter 2.

Sec. 4. In cases of Smallpox, attention to the following additional requirements in imperative: Unvaccinated persons who have been exposed to Smallpox must be vaccinated at once. and kept isolated until it is evident that the vaccination is successful. Of if such exposed person promptly submit to vaccination, he may at the discretion of the Local Board of Health, be permitted to go at large, provided that he make personal daily report for a period of twenty-one (21) days to his attending physician, or the Health Officer of the Local Board of Health. In either case, the requirements of Section 3 of this Rule relating to disinfection must be complied with. If the vaccination should fail in the normal period of time (ten days) the isolation, or observation with daily report must be continued until twenty-one (21) days after the date of exposure when the person may be released; provided that the requirements of Section 3 of this Rule relative to disinfection, have been complied with Persons who are able to show satisfactory proof that they have been successfully vaccinated within three years prior to the date of exposure are subject only to the requirements of Section 3.

Sec. 5. Persons who have once been successfully vaccinated, but not within a period of three years next preceding the date of exposure, must be revaccinated, or upon refusal, be dealt with as unvaccinated individuals and subject to the requirements of Section 4 of this Rule.

Release of Nurses from Quarantine.

Rule 12. After proper disinfection nurses who have been employed to care for the sick, may be released from quarantine when their services are no longer required. The order for such release must be made in writing and signed by the Mayor or Township Clerk. In cases quarantined for Diphtheria, at least one culture test of swabings taken from the nose and throat of the nurse as provided for in Section 3 of Rule 18, Chapter 1, must be required before the nurse is released.

Quarantine Premises. Who May Enter or Leave.

Rule 13. No person except the attending physician shall be permitted to enter or leave any premises while the same are under quarantine. except as specially provided for by the regulation of the State Board of Health and in strict accordance therewith.

Infected Letters.

Rule 14. No letter or other articles coming from quarantined premises shall under any circumstances be placed in any post office, letter box or rural delivery. If on account of carelessness or neglect, any such infected article shall have been placed in a post office, letter box or rural delivery, all such letters or articles together with such other articles as have come in contact therewith, shall be detained and immediately disinfected by the Health Officer, without unnecessary delay or removal from the custody of the post master.

Second Hand Clothing, Books, and Traveling Libraries.

Rule 15. Section 1. No person shall publicly sell or offer to sell any second hand clothing, books or other articles. until the same have been properly disinfected.

Sec. 2. Books contained in traveling libraries shall be disinfected before being shipped from one community to another.

Sec. 3. All disinfection provided for in this Rule shall be done under the supervision of the Health Officer.

School Teachers.

Rule 16. School teachers boarding or residing with a family in which any disease, subject to quarantine or placard, is known or suspected to exist shall immediately remove to premises not so infected, and provided they have not been actually exposed to Diphtheria, Scarlet Fever or Smallpox may be allowed to continue their attendance at school. In all cases they shall conform to the requirements of the State Board of Health relative to disinfection.

Superintendents of Schools.

Rule 17. All persons suffering from any disease subject to quarantine or placard or residing upon premises infected with any such disease. shall be excluded from the public schools. The superintendent, teacher or other official in charge of any school, shall be held personally responsible for the enforcement of this regulation, and under no circumstances shall such superintendent, teacher or official allow any person so excluded to re-enter such school, except upon the presentation of a written permit, showing that such person has been properly disinfected and regularly released from quarantine. All such permits must be signed by the mayor, or township clerk, and by the Health Officer of the Local Board of Health This regulation shall also apply to Academies, Seminaries and Colleges.

Laboratory Cultures in Cases of Diphtheria.

Rule 18. Section 1. Where possible laboratory findings shall be used to determine the period of quarantine for each individual case of Diphtheria. Specimens for culture shall be taken by the attending physician from the nose and throat of each suspected patient. and forwarded to the State Board of Health Laboratory for diagnosis. Quarantine and isolation shall be established immediately upon the appearance of suspicious symptoms. In districts where it is not possible for the physician to avail himself of the Laboratory tests, and the clinical symptoms are those of Diphtheria quarantine shall be established and maintained for the regular period of thirty-five (35) days, provided, however, that if antitoxin was administered within the first twenty-four hours from the discovery of the initial symptoms, the quarantine may be released at the expiration of twenty-eight (28) days, provided the patient has made a complete recovery and these facts are certified to by the attending physician.

Sec. 2. Cultures for the release of quarantine shall not be taken until after fourteen (14) days from the date of initial symptoms. When release from quarantine is to be determined by laboratory findings, all infected persons on the premises must show two consecutive negative results from cultures taken synchronously from the nose and throat of each. The second and subsequent cultures for release of quarantine shall not be taken until after the expiration of forty-eight (48) hours after the first or subsequent cultures were obtained.

Sec. 3. All culture examinations for the release of quarantine must be made by a bacteriologist of the State Board of Health, and the reports thereof shall be filed with the Local Board of Health. Before the release of any person or persons quarantined on account of Diphtheria, the rules of this Board relative to disinfection must be fully complied with. (See Chapter II.)

Sec. 4. The rules and regulations of the State Board of Health pertaining to diagnosis, quarantine and disinfection in cases of Diphtheria, shall apply equally to all cases of Membranous Croup.

Leprosy.

Rule 19. All persons affected with leprosy shall be continuously confined upon their home premises. It shall be the duty of the Health Officer of the Local Board of Health to report to the Secretary of the State Board of Health, the name, age, social condition and residence of all persons affected with this disease within the community over which he has jurisdiction, and the Local Board shall keep a record of the particulars required herein.

Pet Animals, Flies and Rodents.

Rule 20. Whenever any premises are quarantined, special attention must be given to all pet animals kept thereon. Cats and dogs shall be excluded from the house, and prevented from running at large. Before the quarantine is raised all such animals shall be thoroughly washed in a disinfecting solution. Special precautions must be taken to destroy all mice and rats. When flies are present all doors and windows shall be securely screened and fresh fly paper placed in each room daily.

Sale of Milk from Infected Premises Phohibited.

Rule 21. When Asiatic Cholera Epidemic Cerebrospinal Meningitis Smallpox, Diphtheria (including Membranous Croup), Scarlet Fever (including Scarlatina and Scarlet Rash) Typhoid Fever, Measles or Tuberculosis exists in any house or dwelling occupied by a dealer or seller of milk or other dairy products, he shall discontinue to give, sell or distribute such products to any person, or to creameries or butter factories, and such milk or dairy products shall not be removed from the infected or quarantined premises until a written permit is granted therefor by the Mayor or Township Clerk, and countersigned by the Health Officer. No person who attends cows, or does the milking, or who has care of milk vessels, or who manufactures or handles butter or other dairy products, or has for sale or distribution butter, milk, or other dairy products, shall be permitted to enter a premises wherein exists any of the diseases named herein, nor shall he come in contact either directly or indirectly with any person who resides in, or upon, or is an occupant of such infected or quarantined place or premises.

Prevention of Tuberculosis.

Rule 22. Section 1. The sputum expectorated by persons affected with Tuberculosis (Consumption), is infectious, and therefore a serious menace to the public health. In order to prevent dissemination of this disease, it is hereby ordered by the State Board of Health of Iowa, that spitting upon the public sidewalks. or upon the floors or stairs of any public building or other premises where the public congregate, or upon the floors or steps of any street or railway car. or other public conveyance is hereby prohibited and forbidden.

Sec. 2. The custodian of every public building and the manager of every street or railway car operating in this state, shall cause all cuspidors used therein to be cleansed and disinfected by steam or other approved disinfectant, at least once each day, and shall keep not less than one-half (½) pint of a 5 per cent solution of carbolic acid in each cuspidor. (See Standard Solution No. 1. Chapter II.)

Sec. 3. All apartments and dwellings occupied by persons affected with Tuberculosis (Consumption) shall be deemed to be infected premises. It shall be the duty of the Local Boards of Health upon the death of any person affected with Tuberculosis, to disinfect the premises occupied by such person in accordance with the rules prescribed by the State Board of Health relative to infectious diseases. Every dwelling, apartment or furnished room, occupied and vacated by a person affected with Tuberculosis shall be closed until properly disinfected as provided for in this Rule, and it shall be unlawful for any person either as owner or occupant, to rent or occupy any such premises without first obtaining from the Health Officer of the Local Board, a certificate showing that the said premises have been properly disinfected as herein provided.

Sec. 4. All Local Boards of Health and Peace Officers are hereby ordered to pay strict attention to the enforcement of the Regulations contained in this Rule.

Persons Affected with Tuberculosis Not to Attend Schools or Engage in Certain Employments.

Rule 23. Section 1. Whenever a principal or superintendent of any school or a county superintendent in any county, or any Health Officer in the State of Iowa, shall have reason to believe that any superintendent, principal, teacher, pupil or employee in any school, public or private, in this state, is affected with Tuberculosis, he shall so inform the Health Officer, whose duty it shall be to procure or cause to be procured by the family physician, a sample of the sputum or other discharges of such supposed infected person, and forward the same to the Laboratory of the State Board of Health at Iowa City for examination. Should such examination reveal the presence of Tubercle bacilli, such superintendent principal, teacher, pupil or employee shall be excluded from the schools until such time as Laboratory examination subsequently made, shall fail to reveal the presence of tubercle bacilli. All Laboratory examinations made under this regulation shall be free of expense to the patient.

Sec. 2. The employment of any tubercular person in or about any confectionary, bakery, dairy, meat market, hotel, restaurant, railway train or dining car, theatre, library, church, department store, or other place where numbers of persons habitually congregate is hereby prohibited.

Car Sanitation.

Rule 24. Section 1. All railway passenger cars operated or used in this state or occupied by passengers while in transit through this state shall be fitted with water closets and urinals so constructed as to properly disinfect the discharges deposited therein before such discharges are removed or allowed to escape from the car.

Sec. 2. Any manager or agent of a railway company neglecting to comply with the provisions of this Rule or any employee or other person allowing such discharges to escape from the proper receptacle without proper disinfection as herein provided, shall be deemed to have violated the rules and regulations of the State Board of Health, and shall be prosecuted accordingly.

Secretary of the State Board of Health Shall Supervise Local Boards.

Rule 25. Section 1. The Secretary of the State Board of Health is the Executive Officer of the Board. He shall have general supervision over all Local Boards in the enforcement of quarantine and the prevention of infectious diseases. When he has reason to believe that the regulations of this Board are not properly enforced by the Local Board of any city, town or township, and that the public health is endangered by reason of such neglect upon the part of any such Local Board, he shall instruct the officials of said Board regarding their duties, and in the event of their failure to conform to such instructions, shall notify the President of the State Board of Health, who may convene the State Board in special sesion, whereupon the said Board shall, if it deem necessary, immediately assume control within the territorial jurisdiction of such Local Board, and shall continue in control until such time as there is no further danger to the public. All expenses thus incurred by the State Board or its representatives, shall be paid as provided for in Section 2572 of the Code as amended by Chapter 107, Acts of the 29th General Assembly.

Sec. 2. The Secretary of the State Board of Health or any member thereof is hereby authorized to enter and leave any and all quarantined premises within the State, when necessary to make an investigation or to enforce the regulations of the State Board of Health.

Local Boards to Keep Record.

Rule 26. The Mayor of each incorporated city or town, and the Clerk of the Township, shall keep a complete record of all cases of contagious or infectious diseases reported within his jurisdiction; said record shall include the name, age, sex, social condition and address of each patient and the name of the attending physician, and nurse, the date of quarantine and release, the date of disinfection, and the name of the person who disinfected the premises. A copy of said record shall be forwarded to the Secretary of the State Board of Health by the 1st day of August in each year and shall include all data recorded up to and including June 30th preceding.

Health Officer, Election, Qualifications and Compensation Of.

Rule 27. Every Local Board of Health, shall at its first meeting in April of each year, elect a competent physician as Health Officer, whose term of office shall be one year, unless sooner removed by said Board or the acts of a body having superior jurisdiction. In the event of such removal, or if a vacancy occur from other causes, the Board shall immediately proceed to fill such vacancy. To be qualified for election as Health Officer, the person selected must be the legal holder of certificate regularly issued by the State Board of Medical Examiners of this state, authorizing him to practice medicine in the State of Iowa, and said certificate must be recorded in the office of the County Recorder of the county wherein he resides. The physisian selected as Health Officer should be the most competent person available for this position. The salary of the Health Officer shall be determined by the Local Board of Health, and should be an amount sufficient to compensate him for the time and ability required to properly discharge the duties of his office.

Duties of the Health Officer.

Rule 28. The Health Officer shall be the sanitary advisor of the Local Board of Health, and in addition thereto shall personally inspect the schools and all public buildings, and public utilities within the jurisdiction of the Local Board. He shall require the owners, managers, or superintendents of all such institutions to conduct and maintain the same in a proper sanitary condition, and order persons affected with any transmissible disease or ailment excluded from the schools and other places used by the general public. All orders for the release of quarantine in incorporated cities or towns, must have the approval of the Health Officer before such orders are valid. In cases of sickness where no physician is in attendance, the Health Officer shall investigate as to the character of such sickness, and report to the Mayor or Township Clerk, and in like circumstances, when the sickness is caused by an infectious disease, determine the fact of recovery. He shall also attend and represent his Local Board at the sanitary conferences called by the State Board of Health, his actual expenses therefor being allowed and paid by the Local Board of Health so represented.

Revocation of Physician's Certificate.

Rule 29. If any Physician or Osteopath fail or neglect to conform to quarantine regulations, or to promptly report cases of infectious disease to which he has been called professionally, to the Mayor or Township Clerk, that official shall make affidavit setting forth the facts and the names of witnesses thereto, and file same with the Secretary of the State Board of Health, whereupon the offender shall be cited to appear before the State Board of Medical Examiners and show cause why his certificate should not be suspended or revoked.

Adopted August 28, 1907.

DISINFECTION.

Rule 1. Definition: The term "disinfection" has reference to the destruction of disease, reducing bacteria. The agents used for such are called "disinfectants" or "germicides".

An "antiseptic" is an agent which prevents the development of bacteria but does not necessarily destroy them.

A "deodorant" is a substance which has power to remove offensive odors but is not necessarily a disinfectant.

"Sterilization" is a term used to designate the destruction of germs by heat, where "disinfection" refers more properly to their destruction by chemical agents.

The term "aseptic" and "sterile" have reference to a condition denoting the absence of germ life.

Diseases in Which Disinfection Is Required.

Rule 2. Disinfection of the premises, patient, patient's secretions excretions and exudates, books, clothing and furniture and everything used by the patient shall be carried out in the following infectious diseases:

Asiatic Cholera, Bubonic Plague Epidemic Cerebrospinal Meningitis Diphtheria (including Membranous Croup), Measles (including German Measles), Mumps, Scarlet Fever (including Scarlet Rash and Scarlatina Smallpox, Chickenpox, Tuberculosis (including Consumption), Typhoid Fever, Typhus Fever, Puerpera Fever, Erysipelas, Pneumonia, Whooping Cough, and it is strongly recommended that disinfection also be carried out in Influenza.

Preliminary Precautions.

Rule 3. Before beginning disinfection, the requirements as prescribed in the following Sections shall be complied with:

Section 1. The person employed to do the disinfecting shall wear a cap and gown so constructed as to completely cover his clothing, and shall cover his face with a piece of gauze. After all arrangements are complete these garments shall be left on the premises and disinfected in the same manner as other infected articles.

Sec. 2. All holes, cracks and other external apertures shall be sealed by pasting over them pieces of paper, or filling them with clean, damp cotton rags.

Sec. 3. All bedding and other clothing, carpets and rugs should be hung on chairs, or upon lines stretched across the room for that purpose. Books should be placed on edge, or hung upon a line in such a manner as to spread the pages. Drawers, cupboards and trunks should be opened, and while their contents need not be unnecessarily disarranged, they should be loosened in such a manner as to give free access to the disinfecting gas. Windows should be securely closed, but left unlocked, in order to admit of their being opened from the outside, after the disinfection is complete.

Sec. 4. When using Formaldehyde no open vessel containing water should be left in the room, (except as provided in Rule 12.)

Sec. 5. The temperature of the room shall in no case be below 60 degrees F. (preferably 70 degrees F. or above). If the atmosphere is unusually dry, the amount of moisture should be increased by boiling a kettle of water in the room, or by pouring boiling water from one vessel to another for five or ten minutes before beginning the disinfection.

Sec. 6. A large wash tub should be placed near the center of the room conveniently situated so as to be seen through one of the windows. In this should be placed a tin or iron pail about 12 to 16 inches deep. (It is advisable to cover the outside of the pail with asbestos paper, leaving the top open.)

Materials to be Used for Disinfection

Rule 4. For every 1,000 cubic feet of space to be disinfected, the following materials and quantities shall be used:

40 per cent Solution of Formaldehyde, 20 ounces.

Permanganate of Potash (Fine Crystals) 8½ ounces.

These quantities are to be used to disinfect premises following cases of:

Asiatic Cholera, Bubonic Plague Cerebrospinal Meningitis, Diphtheria (Membranous Croup), Scarlet Fever (Scarlet Rash and Scarlatina), Smallpox, Chickenpox, Tuberculosis (Consumption), Typhoid Fever, Typhus Fever, Erysipelas and Puerperal Fever. In cases of Measles (German Measles), Mumps, Whooping Cough and Pneumonia, only half the above quantities are required.

Mode of Operation.

Rule 5. Section 1. When the room or house to be disinfected has been properly prepared in accordance with the requirements of Rule 3, the proper quantity of Permanganate of Potash, as prescribed in Rule 4 should be placed in the pail. The solution of 40 per cent Formaldehyde should be placed in a tin dipper or other vessel convenient for pouring rapidly. The operator, when everything is in readiness, should pour the Formaldehyde upon the crystals of Permanganate of Potash contained in the pail, and immediately leave the room, closing the door and stopping all cracks in the manner indicated in Rule 3. This operation should be performed quickly, as the gas generates very rapidly. The door should be locked in order to prevent accidents, and the room, or building, as the case may be, kept closed for at least eight hours. At the expiration of this time the windows should be opened from the outside and in the space of 15 or 20 minutes, the door may be opened, allowing the air to blow through the room. If the odor remaining is very strong, a little ammonia water sprinkled upon the floor will soon neutralize the Formaldehyde and hasten the disappearance of the odor.

Sec. 2. After the fumigation, as prescribed in this Rule, has been completed, all bedding, clothing, etc., that will not be harmed by boiling, should be boiled for at least half an hour. When possible, mattresses, rugs and heavy curtains, should be sterilized by steam under pressure at 120 degrees C. for 30 minutes. Where this is not possible, these articles should be taken out of doors and thoroughly aired and exposed to the rays of the sun for an hour or so.

Note. In disinfecting, it is necessary to see that the shoes worn or used by the operator and all persons upon the premises are properly disinfected, as these articles are frequently overlooked and become the conveyors of infectious diseases. They may be readily disinfected by using Standard Solutions 1 and 2.

Articles to be Destroyed.

Rule 6. Under the method prescribed in Rule 5, it is unnecessary to destroy any articles of value. Papers, rags, cheap books, and other articles of little or no value, should be burned. In cases of Scarlet Fever, Smallpox and Diphtheria, in addition to the requirements of Rule 5, all woodwork and if possible, the walls, should be washed with a liquid disinfectant such as a solution of Bichloride of Mercury, one part of Bichloride of Mercury to 1,000 parts of water. Where the wall paper is loose or dilapidated, it should be removed and burned.

Disinfection of Persons Who Have Been Affected With or Exposed To Infectious of Contagious Diseases.

Rule 7. Before release from quarantine, all persons who have been affected with or exposed to an infectious or contagious disease, shall be subjected to the following requirements: They shall be removed to a room that has been disinfected according to Rule 5. The entire body including the hair, shall be washed with a solution of Bichloride of Mercury, one part Bichloride of Mercury to 3,000 parts of water (See Standard Solution No. 4) or a 2½ per cent solution of Carbolic Acid (See Standard Disinfectant No. 2). They shall then be subjected to a full bath with plenty of soap and hot water, after which they shall be provided with clothing that has been properly disinfected, or that has not previously been upon the infected premises.

Disinfection of the Dead.

Rule 8. The remains of all persons who die from infectious or contagious diseases should be thoroughly injected with a disinfecting embalming fluid. External orifices must be securely closed with absorbent cotton and the entire body, including the hair, thoroughly cleansed with a reliable disinfectant, such as Standard Solution No. 3.

In cases where it is impracticable to prepare a dead body as indicated in this rule, the body must be wrapped in a sheet or cloth saturated with Standard Solution No. 3, before being placed in the casket. The preparation of bodies as prescribed in this rule must in all cases be done by a licensed embalmer.

Disinfection of Vehicles.

Rule 9. Section 1. All cabs, boats hearses and other vehicles used in the removal of a patient or the body of a person affected with, or who has died from any contagious or infectious disease, shall be disinfected in the manner defined in Section 2 of this Rule.

Sec. 2. Remove all cushions, curtains and other accessories and place them in a small room or tight cupboard, and disinfect them in accordance with the requirements prescribed in Rule 5. If the vehicle can be closed up, it should be fumigated in the same manner as prescribed in Rule 5. If this is impracticable, it should be washed inside and out with a solution of Bichloride of Mercury, one part to 1,000 parts of water.

Pet Animals.

Rule 10. All cats and dogs and other pet animals kept upon the premises infected with any contagious or infectious disease, shall be thoroughly washed with soap in a tub of hot water containing 5 per cent solu- of Carbolic Acid.

Additional Requirements.

Rule 11. When it is necessary to disinfect any premises and the presence of bed bugs or other vermin is suspected, Sulphur must be used in addition to Formaldehyde. The following is the most convenient and effective manner of using the same:

Place in the room a wash boiler containing about 6 to 8 inches of boiling water. Place a brick in the center of the water, and upon this a sulphur candle. Light the candle, and be sure that it is burning well, before starting the Formaldehyde fumigation. If possible the water in the wash boiler should be kept boiling by means of a stove or gas lamp.

Notes.

Sunshine is Nature's best disinfectant and should be utilized as much as possible. Let it enter the sick room freely.

Many of the so-called disinfectants that have been placed upon the market are absolutely worthless and should be avoided.

Local Boards of Health should buy their Formaldehyde and Permanganate of Potash from reliable firms. If these articles are purchased in sufficiently large quantities the wholesale price can be obtained.

Disinfection should always be done under the direction of the Local Board of Health, and at public expense, and under the personal supervision of the Health Officer. The person employed to do the disinfecting should be one specially trained to understand the various methods to be used, and the precautions to be observed, and should be held personally responsible to the Local Board of Health.

STANDARD DISINFECTANTS.
(All should be plainly labeled "POISON".)

Solution No. 1.

Carbolic Acid. 5 per cent Carbolic Acid, one-half pint; water, five quarts. May be used for sputum cups, washing furniture, metal surfaces, various secretions, excretions and exudates. Caution.—This should not be used for the face or on delicate skins.

Solution No. 2.

Cabolic Acid, 2½ per cent solution. Mix one part of Sol. No. 1 with one part of water. May be used for washing hands, face or entire body.

Solution No. 3.

Bichloride of Mercury Solution, 1 to 1,000. Prepare by dissolving one drachm (60 grains) of Corrosive Sublimate in one gallon of soft boiled water. (The ordinary solution of Bichloride of Mercury deteriorates in a very short time.) A convenient way of using Bichloride is by the use of specially prepared tablets which may be purchased at any drug store, or to have on hand a stock solution which will not deteriorate. This may be prepared as follows:

Bichloride of Mercury..330½ grams.
Citric Acid .....156 grams.
Water .....20 liters or 5 gallons.
A little coloring material.

M. Sig. One ounce of this solution mixed with one pint of water makes a solution of 1-1000.

Prepare in glass, earthen or wooden vessels (not in metal vessel); it must not be used for disinfecting metal surfaces. Use for disinfecting hands, clothing, woodwork, discharges, etc. Good for sprinkling floors of offices and public buildings before sweeping.

Solution No. 4.

Bichloride of Mercury, 1-3000. Mix one part of Sol. No. 3 with two parts of water. May be used for bathing entire body.

Solution No. 5.

Chloride of Lime. Dissolve six ounces of fresh Chloride of Lime (best quality) in one gallon of water. Especially useful for faces, urine and sputum.

JUSTICE HAS INNING

PENNSYLVANIA CAPITOL BOODLERS ARE CONVICTED.

WALSH GIVEN FIVE YEARS

Judge Denies Application for New Trial, Saying He Had Fair Trial.

Harrisburg, Pa., March 14.—All the defendants in the notorious Pennsylvania state capitol graft case were found guilty at 8:53 o'clock last night, when the jury completed its deliberations.

The state of Pennsylvania has been swindled out of about $9,000,000 in the erection of its magnificent capitol. An effort was made by the defense to prove that there were no overcharges—in some instances 200 to 500 per cent. This was unsuccessful.

Penitentiary sentences await four "conspirators" in the notorious graft case.

Maximum penalties for each defendan tin this case is two years imprisonment and $1,000 fine.

The convicted men are:

John H. Sanderson, a Philadelphia furniture dealer and contractor; former Auditor General W. P. Snyder; former State Treasurer W. L. Matthues and James M. Shumaker, former superintendent of the board of ground and buildings, charged with defrauding the state.

The arguments were concluded on Thursday and yesterday Judge Kunkel gave final instructions to the jurors, who have listened to testimony and speeches since Jan. 27. The present case constituted one of the longest jury trials in the history of Pennsylvania courts, and it attracted much attention throughout the state.

The prosecution of the alleged capitol frauds is the indirect outcome of the great political upheaval in Philadelphia in 1905, which resulted in the fall of that year in the election of W. H. Berry, a democrat, to the office of state treasurer. After Berry took office he startled the people of the state by charging that the books of the state treasury showed that the capitol instead of costing $4,000,000 had actually cost $13,000,000.

A legislative investigation followed and the findings of the investigators were to the effect that great frauds were committed in the furnishing and decorating of the building. The case was laid before the attorney general who began proceedings which resulted in the indictment of fourteen persons.

After the sentencing of the four defendants now before the court has been disposed of the prosecution of the others will be taken up. The state alleges that the frauds in the furnishing and decorating of the capitol aggregated nearly $9,000,000.

WALSH GETS FIVE YEARS.

Judge Denies Application for New Trial.

Chicago, March 14.—John R. Walsh, former president of the Chicago National bank of this city, who was convicted of illegal use of the funds of the institution, was yesterday denied a new trial by Judge Anderson in the United States district court and sentenced to serve five years in the federal penitentiary at Fort Leavenworth.

As soon as the court had announced the refusal to grant a new trial, the attorneys for the defense entered a motion in arrest of judgment on which they argued for some time. It was generally believed around the court room that they would consume two or more hours, stating their reasons for the granting of this motion, but Attorney Hart, who presented it, ceased speaking in about thirty minutes. Judge Anderson then promptly overruled the motion and sentenced the banker to five years in Fort Leavenworth.

Judge Anderson in denying the motion for a new trial spoke without notes, his decision requiring about one hour in delivery. He first took up the question of the alleged nonassent to the verdict of Juror Palmer, reciting circumstances from the records of the court, and declaring:

"I cannot be said for a moment that Palmer dissented from the verdict. To my mind there is but one construction to be placed upon the whole matter, and that is that he assented to the verdict. If it had appeared to counsel for the defendant that he did not do so, they should either have asked that the jury be sent back for further deliberation or that it be discharged. No such request was made and the court is therefore justified in saying that counsel took at that time, the same view as was held by the court, and that was that the verdict was entirely regular."

The court further declared that the charges of misconduct on the part of the jury were not founded on fact, saying that counsel for the defense had stated in open court that they had no objections to offer to whatever degree of liberty the court might allow the jury at times when court was not in session. This being the case, he declared that counsel was barred from claiming that too much liberty had been allowed, particularly when it had not been shown that any improper use had been made of the freedom granted.

HOW TO KNOW PURE PAINT.

A Way in Which It May Be Identified Before Using.

After a building has been painted long enough for a weather test, it is easy to tell if the paint used was made of pure White Lead or not. But such belated knowledge comes like locking the barn after the colt is stolen.

What one wants is a test that will tell the quality of the paint before it and the labor of putting it on are paid for.

Nature has provided a way in which genuine White Lead may be positively distinguished from adulterated or fake White Lead before you spend a cent on your painting.

Pure White Lead is made from metallic lead, and, under intense heat, such as is produced by a blow-pipe, pure White Lead will resolve itself back into metallic lead. If, however, it is not genuine White Lead, or if it contains the slightest trace of adulteration, the change will not take place. Therefore the "blow-pipe" test is an absolute and final one.

The National Lead Company are urging everyone interested in painting to make this test of paint before using it, and they guarantee that the pure White Lead sold under their "Dutch Boy Painter" trade-mark will always prove absolutely pure under the "blow-pipe" or any other test. To make it easy for you to perform the experiment they will send you free upon request a blow-pipe and everything necessary for you to make the test, together with a valuable booklet on paint. Address, National Lead Company, Woodbridge Building, New York City.

Good Eye, Cuchuillin!

Who can set bounds to the soaring imagination of the Celt? An enthusiastic New Yorker recently watching a game of hurling—which resembles lacrosse—between stalwart teams, was moved to ask President Conway of the Irish Athletic association how far a good man could drive the ball.

"Well, I'll tell you," responded Mr. Conway, with a twinkle in his eye that contradicted his serious speech. "In the good old days when Cuchuillin was champion of Ireland, the king and all the nobility were assembled at the great games of Tailtin. Cuchuillin struck up a hurley ball into the sky, and then walked off to his pavilion and took a drink of potheen, and strolled back to the spot in good time to catch the ball on his hurley."—Harper's Weekly.

His Choice.

A country clergyman on his round of visits interviewed a youngster as to his acquaintance with Bible stories.

"My lad," he said, "you have, of course, heard of the parables?"

"Yes, sir," shyly answered the boy, whose mother had inducted him in sacred history. "Yes, sir."

"Good!" said the clergyman. "Now which of them do you like the best of all?"

The boy squirmed, but at last, heeding his mother's frowns, he replied.

"I guess I like that one where somebody loafs and fishes."

No Chance to Kick.

Ostend—Does money talk, pa?"

Pa—No, my son. If money could talk the new ten dollar gold pieces would let out a wail about the eagle in pajamas and the Shakespearean Indian.

MUSIC STUDENTS

Should Have Steady Nerves.

The nervous system of the musician is often very sensitive and any habit like coffee drinking may so upset the nerves as to make regular and necessary daily practise next to impossible.

"I practise from seven to eight hours a day and study Harmony two hours," writes a Mich. music student. "Last September I was so nervous I could only practise a few minutes at a time, and mother said I would have to drop my music for a year.

"This was terribly discouraging as I couldn't bear the thought of losing a whole year of study. Becoming convinced that my nervousness was caused largely by coffee, and seeing Postum so highly spoken of, I decided I would test it for a while.

"Mother followed the directions carefully and I thought I had never tasted such a delicious drink. We drank Postum every morning instead of coffee, and by November I felt more like myself than for years, and was ready to resume my music.

"I now practise as usual, do my studying and when my day's work is finished I am not any more nervous than when I began.

"I cannot too highly recommend Postum to musicians who practise half a day. My father is a physician and recommends Postum to his patients. Words cannot express my appreciation for this most valuable health beverage, and experience has proven its superiority over all others." "There's a Reason."

CLIMATE IS IDEAL

GREAT WEALTH ACQUIRED IN GROWING GRAIN.

Writing from Saskatoon, Saskatchewan, Canada, W. H. Ellwanger, who was formerly a resident of Green Mountain, Iowa, says: "The climate in summer is ideal for growing grain. Long, clear days of sunshine, no bad storms. We never need to guard against cyclones; I never saw a better climate in my life. We made more money during the season of 1906 than any previous five years in central Iowa—one of the best districts in the state." But Mr. Ellwanger was a resident of the town, and it might be more interesting to read what a farmer has to say about Western Canada. From hundreds of letters all filled with words of praise, recounting success in Western Canada there has been one selected. It is as follows:

Paynton, Sask., Canada,
Dec. 10th, 1907.

To Whom This May Concern:

I moved to this address February 3, 1907, from Montgomery, Iowa, and took a homestead 35 miles north of Paynton. It was cold when I moved here but it did not stay cold long; it broke up the 8th of February, and was not so cold after that but the spring was late on account of the heavy snow fall, but in spite of the late spring I saw better grain than I ever saw in the states, raised this year. I helped a man finish sowing oats the 4th of July and they made fair oats. In a good year oats will go 100 bushels to the acre and wheat 25 to 50; all root crops do well here. I saw turnips weigh 7 and 8 pounds. I raised potatoes this year that measured 11½ inches one way and 18½ the other in circumference. This is a fine stock country; hay in abundance, good water, plenty of fuel, free and plenty of building material—the government gives us timber to saw into lumber and we can get it sawed for about $6.00 per thousand. All small fruit grows wild here, then there are ducks, geese, grouse, pheasants, deer, moose, elk and fish in abundance. I was over to Turtle Lake yesterday where there is lots of fishing being done this winter. I saw about a carload of white fish in one pile. I gave 25 cents for 86 pounds of fish. What do you think of that, Brother Yankee? I think this is a fine place both to make money and to live. There was an old man up here visiting his brother-in-law. Now this man owns land close to Des Moines, Iowa, and is in good circumstances, but he took a homestead and says he will be contented if he can only put in the rest of his days in Canada. He would get up in the morn- and look out of the door and say: "Well, who wouldn't live in Canada?" Now I have been in 13 different states in the United States, and I never saw the chance that there is here for a man that has a little muscle and a little brains. Three cheers for Canada! (Signed.)

W. A. SPICE."

CHINA APOLOGIZES

SATISFIES JAPAN AND TATSU MARU AFFAIR IS AT AN END.

EMPIRE IS GREATLY EXCITED

Canton Viceroy Resigns Rather than Surrender Japanese Vessel—Great Indignation Meeting Held.

Tokio, March 16.—A satisfactory settlement of the Tatsu affair was announced yesterday afternoon. China has conceded all the Japanese demands. She will purchase the arms and ammunition on board the Tatsu and will hoist the Japanese flag over the vessel. While the flag is beng raised a Chinese warship will fire a salute.

There is a general feeling of relief in consequence of the settlement of the incident.

Hongkong, March 16.—At a meeting in Canton over the Tatsu Maru matter last night indignation was shown to be very strong, and if diplomacy fails a boycott will be organized soon.

During the excitement the viceroy of Canton resigned rather than release the vessel. His resignation was accepted.

China will soon take up negotations with Portugal regarding the contraband traffic at Macao. She hopes that an accurate delimitation of Portuguese waters at Macao now will be secured, and that the gambling for which Macao is notorious, as well as the smuggling done through that port, may be materially restricted.

The discovery of China's well organized army equipped and trained according to Europeon standards does not necessarily mean that the emperor of China is raising forces to defend the shores against the encroachments of the Japanese; but it shows to the world that the limitless empire of the orient has been awake for years preparing for the expected advance of western industrialism over the territories of the flowery kingdom.

Sons of sages and statesmen from all the provinces of China have been attending the military schools of Europe and America for ten years, and while tales of the precocious brilliancy of Japanese pupils in the same institutions have been scattered broadcast over the world, Chinese youths have been plugging away at their studies, making records as enviable as their brother students from Japan.

European and American soldiers of fortune have been in China for at least eight years working in harmony with Chinese of advanced thought. Many American soldiers have gone to China from the Philippines after having served their enlistments in the American army and have done much to whip into a wonderful military machine the one hundred and fifty thousand men brought together under the empire.

RACE WAR IN KENTUCKY.

Two Traveling Men Ambushed By Negro Sharpshooters.

Dixon, Ky., March 16.—The fatal shooting of Deputy Marshal Smith Childers by M. McDowell at Poodiville, Ky., has started a race war and was the indirect cause of two traveling men being shot. P. B. Carter, a traveling men at Chattanooga, was dangerously and perhaps fatally wounded, and J. B. Barry, another commercial traveler, was painfully wounded.

The two men were shot from ambush by negroes while driving between Dixon and Providence in company with two other "drummers." The negroes who did the shooting evidently labored under the impression that the quartette were members of a mob pursuing McDowell.

Deputy Marshal Childers was shot while attempting to arrest McDowell. The negro was immediately taken into custody and hurried to Dixon for safe keeping. A mob of whites immediately began forming and the negroes in the vicinity of Providence, hearing of this, also armed themselves and lay in wait on the road over which the mob was expected to pass. They mistook the traveling men for the advance guard of the mob and after firing on them made their escape.

McDowell, after being brought to Dixon, was hurried on to Henderson. The mob in pursuit arrived at the Dixon jail at 2 o'clock yesterday morning and, finding there no chance of getting McDowell, immediately set out to beat the country with bloodhounds for the negroes who had fired on the traveling men.

DRAFTERS ARE UNSENTENCED.

Harrisburg Conspirators Ask New Trial and May Not Be Sentenced.

Harrisburg, Pa., March 15.—John P. Sanderson, the capitol furnishing contractor, former auditor-general William P. Snyder, former state treasurer William L. Matthues and former superintendent of grounds and buildings James M. Shumaker, who were on Friday night found guilty of conspiracy to defraud the state, may not be called for sentence for many months, if at all. As soon as the jury, which had been sitting in the case for seven weeks, returned its verdict of guilty as to all four men, Judge Kunkel received motions for new trials and allowed thirty days in which to file the reasons. When they are entered upon the record Judge Kunkel will set a time for argument and will decide the matter at his convenience. The general belief is that no new trial will be granted.

Witness Evidently Was a Man of Unusual Qualifications.

S. T. Jocelyn of Wichita was court stenographer for Judge Pancoast of Oklahoma for several years. One time a case was being tried before Judge Pancoast and they were endeavoring to find out through a witness whether there had been any liquor sold.

"What is your business?" asked the lawyer. "My business?" repeated the witness laconically. "Oh, I have lots of business." "Answer the question," said the lawyer. "What is your business?" "Must I tell all my business?" insisted the witness again. "Answer the question," interposed the judge severely.

"Well," responded he cheerfully, "I'm deputy sheriff and city marshal for Guiner, janitor of the church and bartender of the El Paso saloon."—Kansas City Times.

EYESIGHT WAS IN DANGER

From Terrible Eczema—Baby's Head a Mass of Itching Rash and Sores —Disease Cured by Cuticura.

"Our little girl was two months old when she got a rash on her face and within five days her face and head were all one sore. We used different remedies but it got worse instead of better and we thought she would turn blind and that her ears would fall off. She suffered terribly, and would scratch until the blood came. This went on until she was five months old, then I had her under our family doctor's care, but she continued to grow worse. He said it was eczema. When she was seven months old I started to use the Cuticura Remedies and in two months our baby was a different girl. You could not see a sign of a sore and she was as fair as a newborn baby. She has not had a sign of the eczema since. Mrs. H. F. Budke, LeSueur, Minn., Apr. 15 and May 2, '07."

"Sure, John," answered his wife, sweetly, "you will doubtless have leisure to burn."——Illustrated Sunday Magazine.

LUMBAGO

This is really Rheumatism of the Muscles of the Loins and is characterized by a severe, at times, agonizing pain in the small of the back, allowing the sufferer scarcely a moment's rest, while the ailment is at its worst. It can come from cold, exposure to draft, from getting wet feet or wearing wet or damp clothing. It causes acute suffering, and if allowed to become chronic it may permanently disable the sufferer. The way to secure quickest relief is to redden the skin over the painful part by rubbing with a flesh brush or piece of flannel rag, and then apply ST. JACOBS OIL by gentle friction with the hand.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves — re-establish them as needed, with

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

For Weak Kidneys, Backache, inflammation of the bladder and all urinary troubles DeWitt's Kidney and Bladder Pills are unsurpassed.

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. Fortunately for him, Napoleon did not make his retreat from Moscow through the snow in an automobile.

Some European immigrants, not being used to liberty at home, do not know what to do with it when they get it.

We do not see where any one else has a grievance in the matter if the Brooklyn boy himself was willing to stand for his coming-out party.

An Arizona man claims to have sheared 300 sheep in nine hours. There are people in Wall street who will be inclined just now to regard him with envy.

"Can a whale scream?" is the inquiry sent forth by the Brooklyn Eagle. This is rather hard to answer, but there are certain lobsters which squeal when they are "done."

In the oyster discussion no one has proposed to trim down the oyster navy to fit the oyster revenues. But the wisdom of such a course would have its points with practical business men.

Instead of going after the rats with traps and poison, it might be cheaper to turn loose a lot of educated rats and put up signs: "No rats allowed inside the city." Then the educated ones could tell the others and they would all go.

Mr. E. R. Thomas of New York says that he cannot live comfortably in that city for less than $50,000 a year. And yet there are some people who labor under the delusion that they are very comfortable living upon one-tenth of that amount.

One student has been in Columbia university 27 years. With such an example of constancy before them the undergraduates of the largest university in America ought to be able, after awhile, to make something better than a joke in athletics.

A Virginia man is suing for divorce from his wife upon the grounds that she is not a good cook. There is nothing very romantic about the theory, but it does appear that the woman who said "feed the brute" had a pretty good recipe for a happy home.

The unfortunate Pittsburg millionaires are again in trouble. A minister in the Smoky City has started a crusade against the style of weddings adopted by the "sudden rich." Between panics and preachers, punsters and the press, there seems to be very little fun in being a Pittsburg millionaires these days.

The pupils of a western military academy have expelled a member of their class because he was a mollycoddle, and the faculty of the institution has decided to allow the scholars to indulge in this form of self-government. Apparently, the expelled pupil was not the only mollycoddle in that establishment.

An Indiana woman has discovered a strenuous cure for drunkenness. When her husband returned home in an intoxicated condition she sewed him up in a blanket and horsewhipped him. While the average man may be very sincere in his desire to reform he cannot be expected to advocate the employment of such a painful method.

A New York boy who had the "What?" habit was sent home by his employer with a note to his father asking that he be cured. "Then send him back, for we like him," the note concluded. This boy received more considerate treatment than others with the pernicious habit are likely to get when they go out to work.

The common council of Newark New Jersey, has attacked the bill board nuisance at a vulnerable point by forbidding the display of representations of crime and pictures that border upon indecency. There are commercial posters which could rally defenders on the ground that they are works of art; but theatrical advertising, of the kind that the Newark authorities condemn, seldom rises above the esthetic and moral standards of a color-blind maniac.

IOWA STATE NEWS

Events of Recent Occurrence Throughout the Commonwealth.

MACKOWN IS NOT GUILTY.

Jury Acquits Him of the Charge of Arson.

Webster City.—George MacKown, accused of burning Webster City's magnificent felt shoe factory, and who, after a chase of four years, was apprehended in California last July, since which time he has been a prisoner in this city, is now a free man, the jury at Clarion having brought in a verdict of not guilty.

The case of the state on the arson charge was weak after MacKown had secured a verdict of acquittal upon the embezzlement charge, which crime constituted the state's chief motive for arson.

The jury which gave MacKown his liberty took but a few ballots before reaching its verdict. From the very first it stood eleven to one in his favor.

CHAS

While there was no demonstration upon the arrival of this brilliant and dashing young man in this city, nevertheless there was a goodly crowd at the depot to see him arrive. Many shook his hand and all wished him a prosperous and happy future. The contrast between MacKown's arrival from Clarion and his arrival early in August of last year was noted by all. Grimy and dusty from long travel, having come all the way from Bakersfield, Cal., with Sheriff Thompson and County Attorney Porter, he looked the picture of depression. On the return from Clarion he swung off the coach with his same old dapper manner, his same old smile, the MacKown of four years ago—promoter, booster, prominent citizen.

The trial of MacKown at Clarion on the charge of burning to the ground the shoe factory, was the third ordeal he has passed through in the last five months and brought to a close his career as a prisoner in Hamilton county. It is hinted that perjury proceedings may grow out of the embezzlement trial at Fort Dodge, but the general belief is that Hamilton county will let MacKown alone and that MacKown will leave this city just as soon as possible.

HOW TAR AND FEATHERS FIT.

Sensational $200,000 Damage Suit Tells the Story.

Farmington.—Editor E. R. Rockwell of the Farmington Herald, tells how it feels to be tarred and feathered, in a sensational $200,000 damage suit just filed by him against ten prominent citizens who are accused of having kidnaped the editor and covered his body with tar and feathers.

The men accused are B. F. Ketchum, J. C. Schee, Martin Marnagel, Robert Merrick, P. K. Ware, P. M. Cahill, Clark Ross, J. W. Miller, W. H. Knott and W. H. Coulter. They were all members of a faction of lodge men which resented a newspaper story published by Rockwell, ridiculing one of their initiation ceremonies. They retaliated by securing an indictment against the editor for libel, which was later dismissed for lack of evidence, and they are also accused of having conspired to tar and feather the newspaper man.

DAVIS PLEADS NOT GUILTY.

Attempt Made to Secure His Release Under Bonds.

Des Moines.—M. E. Davis, who shot his young wife and City Physician J. E. Miller, was arraigned in criminal court and pleaded not guilty to an indictment for murder in the first degree. His attorney, John B. Sullivan, will seek to have him released from the county jail under bonds. The law provides that persons indicted for a capital offense may give bail when the presumption of innocence is strong. Attorney Sullivan will contend that the evidence before the grand jury did not warrant an indictment for murder in the first degree, as it showed Davis was drunk and his crime was not premeditated.

Judge McHenry fixed the bonds in the case for assault to murder Dr. Miller at $10,000. It is said that if the court allows bonds in the murder charge, Davis will have no difficulty in raising the necessary amount.

Will Install Telephones.

Dubuque.—It has been announced in authoritative circles that the Illinois Central will install a telephone service from Fort Dodge to Sioux City has supported herself since coming to ing away with telegraph operators in the territory mentioned and reducing the pay rolls. The system is now in vogue between Chicago and Kankakee.

Grant Neeley, a prominent farmer aged 44, died at his home four miles southwest of Sidney. His death was the result of injuries received by a wagon heavily loaded with sand. He leaves a widow and seven children

SLAYER'S WIFE DIVORCED.

Anna M. Thomas Tired Waiting for Husband's Release.

Omaha, Neb.—Anna M. Thomas, wife of Charles C. Thomas, the Des Moines hack driver who, five years ago, was convicted of the murder of Mabel Scofield was granted a divorce by the district court. The decree was granted on the grounds that her husband had been convicted of a felony.

The court records do not show any history of the famous murder case and Attorney Shoemaker, who had charge of Mrs. Thomas' suit, declined to talk of the matter. Mrs. Thomas also declined to talk at length of the matter, saying the case already had been given more publicity than she desired.

"I came to Omaha to secure the decree because I was anxious to avoid the sensation that might come with a divorce suit in Des Moines," she admitted.

"I have been in the city nearly a year and may continue my residence here, although that I have not definitely decided upon."

The divorce suit was filed last July and has been held up for various reasons since that time. Mrs. Thomas has supported herself since coming to the city, being employed in several downtown concerns.

The murder of Mabel Scofield whose body was found in the river caused a sensation and was given considerable attention.

Mrs. Thomas said that she had nothing to regret in remaining loyal to her husband until now and indicated that the present step was taken because she feared his term of imprisonment could not be reduced, although efforts are now being made to that end.

MARSHAL SHOOTS BAD MAN.

Cresco Bootlegger Resisted Arrest With Pitchfork.

Cresco.—Jim Boyd, identified with the bootlegging fraternity of this community, lies dangerously wounded by a bullet fired by City Marshal Ham Brown. Boyd was shot while resisting arrest on a serious charge, the marshal shooting to protect himself against an attack with pitchforks.

Boyd came home from Calmar loaded inside and outside with liquor. He went to a resort on the south side of town and there tried to raise a rough house. The mistress, Mrs. Gibby, an old woman over 70 years of age, objected and finally put him out of the house. Boyd then broke in the door, beat Mrs. Gibby and dragged her about by the hair. The woman called the marshal, who secured a warrant and proceeded to arrest Boyd. When the marshal found Boyd, the latter, with a companion, made a rush for the officer, who shot in self-defense, wounding Boyd seriously in the thigh.

FARMER MURDERED.

Dead Body is Found Mutilated in His Barnyard.

West Union.—Arlow Whitbrock a farmer living seven miles northwest of this city, was murdered while at his barn doing chores.

A neighbor, William Stickley, found the body, which was in a badly mutilated condition, the head being literally pounded to pieces with a club. In his hand was a lock of hair, which, however, was probably his own. The motive was undoubtedly robbery, but it is not known how much money was taken, as he was not in the habit of carrying any amount with him.

No definite clue is known to the murderer.

Whitbrock was 60 years old and had lived here fifty years.

SHOT AT CHARIVARI.

Earl Lippingoos Victim of Angry Groom.

Muscatine.—While serenading at the home of Mrs. Nellie Hawn, Earl Lippingoos was shot by Walter Height, who, hoping to break up the charivari, fired into the crowd with a revolver.

The bullet struck the man in the shoulder and was not located. It was thought that Height and Mrs. Hawn were married at Rock Island.

Height was chased by the crowd and hid in a barn for several hours. He was captured at a late hour by the police. Mrs. Hawn has five children and was divorced from her husband in January. She denies the reported marriage to Height.

Gay Hosiery Almost Fatal.

Council Bluffs.—B. H. Kersker, a commercial traveler from Cincinnati who has been confined in the hospital here for a week as a result of poisoning coming from wearing hose of variegated colors, was able to leave for his home, where he will be laid up for some time. Kersker's left shoe rubbed the heel and caused inflammation, the coloring matter in the hose infecting the abrasion.

MILWAUKEE MAN CHLOROFORMS AND SHOOTS HIS SPOUSE.

Badly Wounds Himself—Tells Police Story of Twenty Years of Domestic Unhappiness.

Milwaukee.—George Willoughby, manager of the Jewett & Sherman company, coffee and spice millers, early Friday morning chloroformed and then shot and killed his wife, Florence Willoughby, at their home on Prospect avenue. After the murder Willoughby fired two shots over his heart. Physicians believe he will recover as he has a vigorous constitution.

Willoughby made a full confession to the police, in substance as follows:

"I married my wife 20 years ago. I did not love her, but married her mostly out of sympathy, she being a poor woman. We frequently quarreled. Mrs. Willoughby was insanely jealous of me. She continually accused me of not being true to her and on the whole we both lived a miserable existence. Matters went on this way for years. Four years ago while I was on my way to New York I met a woman on the train. Our acquaintance ripened into love. Then for the first time I realized I had met a woman I truly loved. This woman also was living an unhappy life. Her husband was cruel to her, and soon after I met her he deserted her and her two small children. I then began to support her. We became intimate, and have been so for several years. Two years ago she obtained a divorce, and since that time I have been providing for her and her children. She is living in Chicago.

"My domestic affairs did not improve, and a long time ago I decided that I would end it all. I began to collect chloroform. I bought it in small lots, and began to keep it until I had a bottle of the drug. Friday, after my wife had fallen asleep, I obtained the chloroform and then I shot her. I then fired two shots into my breast, intending to shoot myself in the heart, but I failed. I did not have any more cartridges."

HEAVY DAMAGE AT PITTSBURG.

Flood, However, Is Not So Serious as Had Been Expected.

Pittsburg, Pa.—A feeling of relief swept over Pittsburg and vicinity early Thursday night when officials of the United States weather bureau announced that conditions had suddently changed and that the flood which came upon the city with unusual suddenness in the morning would not be as serious as they had expected.

However, the flood will be attended by enormous loss, much of which has already been inflicted. The rise came with such suddenness that there was not time to remove goods and take other precautions such as saved property of enormous value a few weeks ago. Many families are prisoners in their homes and are being furnished food and other necessities by the flood patrol. Railroads are delayed and crippled and heavy losers of property. River craft have suffered severely.

New Message to Congress.

Washington.—As the result of an extended discussion of the necessity of again directing the attention of congress to the recommendations of the president looking to legislation amendatory to the Sherman anti-trust law and of other topics mentioned in his previous message, a decision has been reached to send another message to congress within a day or two.

THOMAS TO SUCCEED EVANS.

Rear Admiral Sperry Will Bring Battleships Home.

Washington.—At Admiral Evans' personal request he will be relieved of the command of the battleship fleet on reaching San Francisco. Rear Admiral Thomas, the next in seniority, will succeed Admiral Evans in command of the fleet.

Rear Admiral Charles S. Sperry will bring the battleship fleet from San Francisco to the Atlantic coast by way of the Suez canal. This detail was announced by Secretary Metcalf late Tuesday.

Admiral Evans will retain command of the fleet until after the grand naval review to be held at San Francisco May 8. The admiral retires in August. It is expected he will return at once to Washington. Secretary Metcalf said, however, that he had no special duty in mind for the admiral between his relinquishment of command and the date of his retirement. Rear Admiral Thomas, who will succeed Admiral Evans in command until the homeward journey begins, is scheduled to retire in October. When he relinquishes the command to Admiral Sperry it is expected that he also will return to Washington. The vacancies caused by the retirement of Admirals Evans and Thomas will be filled by the promotion to that rank of Captains Seaton, Schroeder and Richard Wainwright, each of whom now commands a battleship in the fleet.

NEW LIABILITY ACT ASSURED

Speaker Cannon Tells Labor Delegation Bill Will Pass.

Washington.—Speaker Cannon and Vice-President Fairbanks Thursday announced their belief that the present congress will pass an employers' liability act which will meet and overcome the unconstitutionalities of the present law pointed out by the supreme court of the United States in a recent decision.

These statements were made unreservedly by Speaker Cannon, and guardedly by the vice-president to a delegation, led by Samuel Gompers, president of the American Federation of Labor, from 87 national and international trade and labor organizations and farmers' organizations assembled in a national conference in this city. The delegation called on the speaker to lay before the house of representatives, through him, a memorial entitled "Labor's Protest to Congress."

ASKS MERCY FOR ORCHARD.

Judge Pronounces Death Sentence But Recommends Commutation.

Caldwell, Idaho.—Harry Orchard was sentenced to death Wednesday for the series of murders the confession of which shocked the world. But after all he may not pay the penalty which since his conversion in prison he has not turned a hand to escape.

Stating that he believed Orchard in his testimony in the trials of William D. Haywood and George A. Pettibone for the murder of ex-Gov. Frank Steunenberg told the exact truth, attempting to conceal nothing, Judge Wood recommended that the state board of pardons commute Orchard's sentence of death to imprisonment in the penitentiary. The sentence of death was pronounced in accordance with the plea of guilty entered by Orchard Tuesday of last week, when he was arraigned.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he saves, Enid Anstruther, sister of the Englishman, lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves in search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Bonelli informing him that the kidnaping is for the purpose of entrapping Barnes so the vendetta may kill him. Barnes and Marina have unusual adventures in their search for Enid. They come in sight of her and her captors in the Corsican mountain wilds just as night approaches. In seeking shelter from a storm the couple enter a hermitage and there to their amazement they discover Tomasso, the foster father of Marina, who was supposed to have been killed by the Belloc's soldiers, and for whose death Barnes had been vendettaed. Tomasso learns that Marina's husband did not kill her brother. Many wrongs are righted. Barnes is surprised in the hermitage by Rochini and Romano, the two detested bandits, who had been searching for him to murder him for his money. The bandits attempt to take away Marina. Barnes darts out the door. The bandits start to pursue, but as they reach the door both are laid low by Barnes' revolver. Members of the Bellacoscia enter and Barnes is honored for his great service to the community in killing the hated Rochini and Romano. The release of Enid is promised. Barnes is conveyed in triumph to Bocognano. Marina acquaints the Bellacoscia with Saliceti's plot against her husband and the people are instructed to vote against him at the coming election. Barnes is taken to the mansion of the Paolis to meet Enid. Marina receives a telegram. She starts for Bastia to meet her husband. Entering the room to greet his wife Barnes is bewildered to find the adventuress La Belle Blackwood, but not Enid. She had been substituted for the American's bride by a shrewd plot.

CHAPTER XV.—Continued.

This is spoken as he springs off the horse, tosses the bridle to the boy, and runs up the stairs. "Marina is inside, I imagine," he says, and calls through the doorway.

"Marina left for Bastia over an hour ago," says Barnes.

"Why did she leave for Bastia?"

"A telegram," answers Barnes, "purporting to come from you stating that you would be at that place to-morrow morning. Notwithstanding her fatigue, she went on by carriage to meet you."

"A telegram? Impossible! Bastia is at the north end of the island. I arrived at Ajaccio, the south end. Besides, I sent no telegram."

Edwin is interrupted by a short cry from Barnes: "Cipriano Danella!"

With an execration Anstruther asks hoarsely: "Do you think he has aught to do with this?"

"I am pretty certain of it. You do not realize that fellow's passion for—"

"For my wife? By heaven, I'll kill him!" and the young English officer looks round to call the boy who has come with him, but the urchin, being eager for bed, is already out of hearing with the horse. Suddenly he cries: "Barnes, you're not going to leave Enid here unprotected," for the American is almost running down the avenue, Edwin after him.

"I haven't found my wife."

"The lady upstairs, whom I heard?"

"Was not Enid. It was that infernal La Belle Blackwood, and yet I forgive her, for she told me the direction she thought Enid had taken," and as they half trot, half stride down the avenue under the chestnut trees, Burton epitomizes his adventures of the day.

"What are you going to do now?"

"Get horses and follow your wife. She is the one to which we have a clew. We must prevent her falling into Danella's hands. Perhaph—I pray God—in following her we may find also the way to my wife."

"Why?"

"Because Cipriano is the real brains of this infernal outrage."

As they reach the gateway of the grounds they are abruptly intercepted. One of the young Bellacoscia, hidden by a tree, springs out to them, gun in hand, but recognizing Mr. Barnes, the young man says: "I am one of those watching that no Saliceti troubles you. I let this man pass because I saw he was a foreigner."

"That's all right," replies Burton, "but could you show me the telegraph station and where to get horses?"

"Beside Hotel Mouvrages in the main street is the telegraph station," answers the young man, "and a stable to hire horses is at the inn."

"Thank you. Also I want to see your chief, if he hasn't already gone to the mountains."

"Is it important?"

"Very."

"Then Signore Antonio will be here in a few minutes," answers the young fellow and speeds off through a neighboring lane.

The two hurry to the inn, but Bocognano has gone to bed. Its houses are all unlighted, their doors are locked.

There will be no chance to telegraph to Bastia or any way station on that road before to-morrow morning. It is nearly an hour before they succeed in arousing a somnolent hostler at the inn stables, who mutters all the horses are tired and must have a night's rest. But stimulated by a gold piece placed

"Thank the Saints, You Got Here Alive in Time to Drink the Water of Orezza."

in his sleepy hand the man finally awakens sufficiently to saddle two horses, which he says are the liveliest of any in the stable.

On two sorry beasts they dash up to Marina's home and find waiting on its steps the great bandit and one or two of his men.

"I have a favor to ask you, Signore Bonelli, in addition to the others you have done me; that you will escort to the yacht at Sagone the lady within this house and get her safely out of Corsica."

"Oh, you needn't ask that, Mr. Barnes of New York," cries La Belle Blackwood, stepping airily onto the veranda. "I have already petitioned the great Bellacoscia, and I think he will protect me against any man; won't you, Signore Bonelli?"

"Sapristi, will not I!" says the magnificent man, his hawk's eyes flashing as they look upon the loveliness of the entrancing American adventuress. "Count on Bonelli to his heart's blood." Then he asks moodily: "But why are you compelled to leave your wife, Signore Barnes?"

"This lady is not my wife."

"Santa Maria, not your wife! Gran Dio, whose spouse is she?"

"Nobody's."

"Diavola suprema!" cries the great bandit, a tremendous joy flying into his face. "And you—you leave this loveliness?" he adds.

"Her loveliness is not mine, Signore Bonelli," remarks Burton, coldly. "Besides, it is a matter of life and death that calls me. This gentleman—" Barnes introduces Edwin—"is the husband of Mademoiselle Paoli, who has been lured from here by a lying telegram to Bastia. We journey to protect her against a design upon her safety—upon even her honor. Lieut. Anstruther, unused to the language, would be of little use."

"Design against the honor of the daughter of the Paoli!" snarls Bonelli. "Impossible! I will go with you upon this errand myself."

But the enchanting tones of Sally Blackwood make him pause; she is pleading: "What, and desert me among your wild mountains?"

"No, 'tis best I go not," remarks the bandit chief. "Gendarmes, with me in your company, would be an embarrassment, and they in their bungling way may doubtless aid you. And your wife, where is she, Signore Barnes?"

"Still in the hands of Saliceti or his friends."

"They did not surrender her as they agreed?"

"No. They substituted this lady."

"Corpo di Diavolo, Saliceti has tricked me! I proclaim a vendetta against Bernardo Eduardo Saliceti."

CHAPTER XVI.

Along the Cyclamen Path.

Both young men are riding light; Barnes for this speedy dash has left his rifle and his field glasses behind him, and they gallop up the pass of the Force. But the ascent is so steep they are soon compelled to walk their horses. A precipice is on one side of them and the great flanks of Del Oro are on the other. Both Edwin and Burton have been silent, thinking of their wives. The latter now remarks, pointing to a deep gorge running up the mountain side: "That, I believe, leads to La Pintica, the home of the Bellacoscia, which the gendarmes never dare to visit."

But they having reached the summit of the Col, now speed their horses sharply down the declivities into the great forest of Vizzavona, the road leading them through pines, beeches and the inevitable chestnut trees.

They have passed no one in the darkness. In fact, they have not yet gone far enough to have any hope of overtaking Marina unless accident has befallen her vehicle. Besides, her horses were fresh; theirs, according to the hostler, had been ridden during the preceding day.

Soon after, they dash through the village of Vivario, announced by the barking of some curs and the grunting of some pigs. "Every house in the village is closed and no one would open for us in the dead of night in this land of the vendetta," remarks Barnes.

They go to climbing again, and soon after descend through the gorge of the rapid Vecchio, the river foaming far beneath the road, while rocky hills and sharp mountains rise on either side.

They have knocked at no doors; they have made no inquiries; they have only hurried on. But some hour after the red-tiled houses of Corte loom up before them and a few minutes later they jog their tired steeds up one of the principal streets of the central inland town of Corsica, the great Monte Rotondo now looking down upon them.

Above them are tall elm trees that catch the rays of the rising sun. Flanked on each side by white stone, red-roofed houses, they pass between the hotels Pierracci and Paoli, almost deserted now, this being the beginning of the hot summer season. Along the street are many placards indicating the approaching election. Every time he sees the name of Saliceti, Barnes, compressing his lips, thinks of his lost darling.

At the Pierracci they learn from one of the waiters that a lady had paused to obtain a relay of horses, and had brought out to her at her request a cup of coffee.

"Was she driven by an old man?" questions Edwin, hurriedly.

"Yes, with a beard like a bandit," answers the man with a grin. "The carriage was full of cyclamen flowers. You could smell them all over the street."

"It's your wife," whispers Barnes, giving the man a 20-franc piece that makes him look almost as happy as this news does Anstruther.

"Only an hour ago! We will overtake Marina long before she reaches Bastia," cries Edwin.

They ride hurriedly, the road skirting the torrent of the foaming Vecchio until considerably over an hour after leaving Corte they reach Ponte-alla-Lecchio, where the big bridge crosses the river Golo. During this the horsemen note more signs of the coming casting of votes.

Some of the "Lucchese" workmen from Italy are throwing stones at an election placard that displeases them. "The pests from Lucca," mutters a Corsican shopkeeper as they buy a glass of wine from him, "are always riotous, and at election times batter every one's heads with stones—their own included. They've been here since sunrise fighting and brawling. I heard their shouts when I was in bed. But everyone pardons the 'Lucchese;' they do all our hard work," adds the man with a grin, pocketing the coin Edwin hands him.

But the wine shop keeper can tell them nothing of a woman traveling, and to their astonishment, though they make many inquiries, they hear of no lady in a carriage passing through the village this morning.

"It's quite possible," says Edwin to Barnes, "she didn't stop here. Her horses were fresh. She's gone on. No one has noticed her."

"That's very true," answers Burton, though his face grows more concerned and gloomy.

Therefore they ride rapidly along over the now well-kept road, which generally skirts the Golo. Turning north, they spur on over the causeway that crosses the great lagoons and soon after passing through some small villages, they come out upon the sea and ride almost straight along its shores, to enter that miniature Genoa, called Bastia, some two hours before midday.

Barnes pilots his companion to the Hotel de France. "You should like this inn," he observes; "it's on the Boulevard Paoli."

Catching sight of a gentleman in a tall hat and a swallowtail coat, Barnes says: "These are the only ones in Corsica, I think, and that's Monsieur Staffe, the head of the hotel. I know him. Now we'll get news of your wife; she's probably put up here."

Horse Kicked Out Show Window.

Chicago.—A double runaway in Madison street caused panic among down-town crowds during the noon hour. A horse attached to a newspaper delivery wagon plunged into a plate-glass window frightening another horse so that it ran away and collided with a passing car.

Policeman Michael Collins stopped the first horse, but in doing so he was thrown to the ground and slightly injured.

Guests in a restaurant at Madison and Franklin streets screamed and hundreds of persons rushed into the street when the plate-glass window was shattered.

Heavy pieces of glass fell. Safety of hundreds of pedestrians in Madison street was imperiled both by the flying fragments of glass and the rush of frightened horses.

Men and women passing at the time escaped serious injury by a narrow margin.

Gold in Yukon Gravel.

The Canadian government has had an examination made of the gold-producing districts on the Yukon to see what amount of gold was still to be obtained from gravel banks, hillsides and valleys where the pioneer miner with placer methods skimmed off the riches. A season was spent by four members of the survey sampling, boring and measuring the gravels, and they estimated that there is still $67,000,000 in gold to be taken from the gravel, which has already yielded $119,000,000. Advanced methods will be necessary to recover what is scattered through the soil.

INSTRUCTED FOR W. H. TAFT

IOWA REPUBLICANS ENDORSE OHIO MAN.

DECLARE FOR TARIFF REVISION

Endorsement of Senator Allison and Seating of W. J. Blythe Brings Contests.

Des Moines.—The standpat forces were in complete control of the Republican state convention, held in the Auditorium on the 18th.

They named Joe R. Lane of Davenport, George D. Perkins of Sioux City, Frank Simmons of Ottumwa, and Lafayette Young of Des Moines, as delegates-at-large to the Republican National Convention; adopted a platform which endorses that portion of the Ohio platform which calls for "revision of the tariff at a special session of the next congress"; intructed the delegates to the national convention to use their influence in support of the candidacy of William H. Taft; and declared in favor of retaining Senator Allison in the senate.

Alternates-at-large are as follows: D. L. Heinsheimer of Glenwood, W. F. Lake of Arlington, E. J. C. Bealer of Cedar Rapids, George H. Spahr of Henry county.

The district conventions resulted in the selection of the folowing delegates:

First district—H. I. Sawyer, Lee; H. S. Rand, Des Moines. Alternates—N. E. Currin, Louisa; S. A. White, Des Moines.

Second district—F. W. Ellis, Clinton; David Brandt, Johnson. Alternates—R. G. Popham, Iowa; G. E. Hillsinger, Jackson.

Third district—J. R. Guthrie, Dubuque; Eugene Schafter, Wright. Alternates—Ralph H. Plock; H. E. Chappell, Buchanan.

Fourth district—Duncan Rule, Cerro Gordo; Charles Webster, Winneshiek. Alternates—W. L. Eaton, Mitchell; Mr. Beddo.

Fifth district—S. Wertheim, Benton, S. R. Moore, Linn. Alternates—C. O. Boling, Cedar; E. G. Peet, Jones.

Sixth ditsrict—Maj. J. F. Lacey, Mahaska; M. A. McCord, Jasper. Alternates—Prof. Jesse Macy, Poweshiek; J. A. Spears, Monroe.

Seventh district—C. R. Quade, Story; L. N. Hayes, Marion. Alternates—C. W. Lyon, Polk; John Gucher, Madison.

Eighth district—Frank A. Abbott, Union; J. A. Harvey, Decatur. Alternates—T. S. Stevens of Fremont and W. E. Crum of Taylor.

Ninth district—L. F. Potter, Shelby; J. H. Duell, Harrison. Alternates—D. H. Scott, Cass; A. L. Brooks, Audubon.

Tenth district—Robert Healy, Webster; A. D. Clark, Kossuth. Alternates—S. D. Goldtwaithe, Boone; J. E. Wickham, Hancock.

Eleventh district—M. E. DeWolf, Clay; W. C. Metcalf, O'Brien. Alternates—Simon Fisher, Lyon; George B. Perkins, Sac.

Attorney General Byers was temporary chairman of the convention. He stood firmly upon the policies and principles of Theodore Roosevelt and declared that the endorsement of Taft to carry out the program of the president is but just and right.

Senator C. G. Saunders of Pottawattamie county was permanent chairman.

In taking the gavel Mr. Saunders spoke briefly.

The writing of the platform was accomplished by the joint efforts of John T. Lacey, who was the chairman of the committee on resolutions, W. R. Boyd of Cedar Rapids, Joe R. Lane of Davenport and Victor E. Bender of Council Bluffs. The committee was made up as follows: First, N. N. Jones, Lee; Second, S. A. Finger, Scott; Third, L. G. Hourd, Dubuque; Fourth, James A. Smith, Mitchell; Fifth, W. R. Boyd, Linn; Sixth, John F. Lacey, Mahaska; Seventh, Thos. A. Cheshire, Polk; Eighth, J. L. Lo[illegible], Clark; Ninth, Victor E. Bender, Pottawattamie; Tenth, S. J. Dyer, Boone; Eleventh, S. D. Riniker, Lyon.

The platform follows:

"Resolved, by the republicans of the state of Iowa, in convention assembled, that the record of our party during more than 50 years of unexampled national history is the largest asset of the republican party and the pride of all republicans; that we earnestly desire the continued supremacy and expanding influence of this great organization; and we hereby renew our expression of pride in the recent record of the party in administration and legislation. We have faith to believe that the republican party under the guidance of the people will meet just public requirements in the future, as in the past.

"We declare unequivocally for protection as a cardinal principle of the republican party, and we affirm our unalterable purpose to maintain it.

"Events have confirmed the wisdom of the makers of the national platform of 1904, wherein the party pledged 'Readjustment of rates of duty only when conditions so change that the public interests demand their alteration.' In accordance with this declaration of four years ago the republican party of Iowa endorses the declaration of the Ohio republican platform of this year in behalf of 'Revision of the tariff by a special session of the next congress insuring the maintenance of the true principle of protection by imposing such customs duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit, to the end that without excessive duties American manufacturers, farmers, producers and wage earners may have adequate protection.'

"Resolved, that we will favor the nomination of William H. Taft by the republican national convention to assemble on the 16th of June. We have confidence in his ability, his independent manhood, his comprehension of large and vital public questions, his uncompromising integrity and his unfaltering courage. We believe him to be the choice of the republicans of this state, who have never failed to endorse the official record of President Roosevelt.

"Therefore, we unequivocally instruct our delegates-at-large to vote for William H. Taft and we earnestly request them and our district delegates to use their united influence in support of the Taft candidacy.

"Resolved, that we favor the retention of Senator William B. Allison in his place; that we do this because he has brought great distinction to the state, because he has served the whole party and the whole country with singular fidelity and ability, because of his present commanding position in the senate and in the counsels of the nation, and because he has strength in all situations and all emergencies. He is recognized as the master legislative architect of his time. The nation, almost without regard to party, admonishes the people of Iowa of its interest in this great statesman. Therefore, we stand for his re-election, the continuance of his wise counsel and the retention of his services to the country at large."

Only two contests developed in the convention. The progressives objected to the seating of the standpat delegation from Des Moines county, headed by W. J. Blythe, and to the endorsement of Senator Allison for re-election.

The roll-call showed a victory for the standpatters by a vote of 673 to 510.

The protests of the progressives against the resolution endorsing Senator Allison was based on a series of reasons presented to the convention by Hon. Thomas A. Cheshire, of Des Moines, in which it was recited that the convention "had not the right to usurp the rights and privileges guaranteed to the voters of the party by the primary law."

Addresses were made by George D. Perkins, Lafayette Young, Congressman Birdsall, Major Lacey and General Ellis.

An Opening For A Bright Young Man.

"Say, boss," inquired a knowing young fellow from Chicago, recently arrived at a new Western town, "have you got a hotel in this one-horse city?"

"You bet we have!" replied a native, eying the new importation with little favor.

"Have you a postoffice?"

"You bet."

"A bank?"

"Certainly."

"A grocery?"

"Two of 'em."

"A dry-goods store?"

"Three of 'em."

"Then," exclaimed the man from the East impatiently, "is there nothing left for me to open."

"There is," replied his informant, as he drew a revolver from his pocket with one hand and pointed to the door with the other; "if you are not out of this in two seconds you will have a mighty good chance of opening our new cemetery!"

The blue-grass region of Kentucky and Tennessee was the first national park and game and forest preserve in America. It was so set apart before the white man had come with profaning foot and conquering firearms, by the great Iroquis tribes of Indians—the Six Nations. They forbade any settlement or agriculture in all that great region, and it became known as the "hunting-grounds."

DO YOU KNOW WHAT WHITE LEAD IS?

Its Chief Use and a Method of Determining Good from Bad Explained.

White Lead is the standard paint material all over the world. It is made by corroding metallic lead into a white powder, through exposing it to the fumes of weak acetic acid and carbonic acid gas; this powder is then ground and mixed with linseed oil, making a thick paste, in which form it is packed and sold for painting purposes. The painter thins it down to the proper consistency for application by the addition of more linseed oil.

The above refers, of course, to pure, genuine White Lead only. Adulterated and fake "White Lead," of which there are many brands on the market, is generally some sort of composition containing only a percentage of white lead; sometimes no White Lead at all; in such stuff, barytes or ground rock, chalk, and similar cheap substances are used to make bulk and imitate the appearance of pure White Lead.

There is, however, a positive test by which the purity or impurity of White Lead may be proved or exposed, before painting with it.

The blow-pipe flame will reduce pure white lead to metallic lead. If a supposed white lead be thus tested and it only partially reduces to lead, leaving a residue, it is proof that something else was there besides white lead.

The National Lead Company guarantee all White Lead sold in packages bearing its "Dutch Boy Painter" trademark to prove absolutely pure under this blow-pipe test, and that you may make the test yourself in your own home, they will send free upon request a blow-pipe and everything else necessary to make the test, together with a valuable booklet on paint. Address, National Lead Company, Woodbridge Building, New York.

Strenuous Method of Saving Life.

Two officers who were hunting wolves on the Dry mountain in central Servia lost their way in a fog. After wandering for 14 hours one of them lay down in the snow and speedily became unconscious. His comrade bound him with cords, placed him in a sitting position and then rolled him down the mountain. He glided down the slope at terrific speed and reached the bottom safely, being found an hour later in an exhausted condition by a peasant. He is now in the hospital being treated for the lacerations he received in bumping over the rocks during his descent. His companion is unhurt.

Didn't Need It.

Agent—Here's a book that will be welcome in every family. It contains all the rules of etiquette and directions for avoiding slips in grammar.

Hiram Grasscutt—Don't need nothin' of that kind. Got a daughter hum from boardin' school, a son goin' to high school an' a hired man who's a college feller workin' fer his health. But, by jing, partner, it's a relief to talk once in a while to a common, ordinary person. I don't need the book, but I'm darned glad you called.

Answered Truthfully.

During the late financial flurry a St. Louis business man was called to serve on a jury. "What is your name?" asked the attorney. "John Smith," the business man replied. "Your color?" the attorney continued. "White," said John Smith. "Your age?" "Forty-eight," quoth Mr. Smith." "Your business?" "Rotten," said John Smith.

HAPPY OLD AGE

Most Likely to Follow Proper Eating.

As old age advances, we require less food to replace waste, and food that will not overtax the digestive organs, while supplying true nourishment.

Such an ideal food is found in Grape-Nuts, made of whole wheat and barley by long baking and action of diastase in the barley which changes the starch into sugar.

The phosphates also, placed up under the bran-coat of the wheat, are included in Grape-Nuts, but left out of white flour. They are necessary to the building of brain and nerve cells.

"I have used Grape-Nuts," writes an Iowa man, "for 8 years and feel as good and am stronger than I was ten years ago. I am over 74 years old, and attend to my business every day.

"Among my customers I meet a man every day who is 92 years old and attributes his good health to the use of Grape-Nuts and Postum which he has used for the last 5 years. He mixes Grape-Nuts with Postum and says they go fine together.

"For many years before I began to eat Grape-Nuts, I could not say that I enjoyed life or knew what it was to be able to say 'I am well.' I suffered greatly with constipation, now my habits are as regular as ever in my life.

"Whenever I make extra effort I depend on Grape-Nuts food and it just fills the bill. I can think and write a great deal easier."

GLAD TO HAVE HIM GO.

Toll-Gate Keeper Thought He Had Visit from His Satanic Majesty.

This is not the only age in which motor cars have created excitement and disturbance. In 1802 such apparitions were few and far between; at present they are too frequent to attract attention. Mr. Joseph Hatton, in "Old Lamps and New," tells of the fright caused by one of Trevithick's steam locomotives, made to run on unrailed roads in the early part of the last century.

Now and then one of these extraordinary vehicles would be encountered, snorting and puffing on the highway. The countrymen regarded them as the evil one in disguise.

One of the cars, coming to a toll-gate, stopped for the gate to be opened. The toll-man came hurrying out. He flung the gate open with trembling hands, and teeth which chattered audibly.

The driver asked him how much toll there was to pay.

"O, nothing, dear Mr. Satan, nothing!" hastily assured the man. "Go on as fast as you like; there's nothing to pay."—Youth's Companion.

One Woman's Wrongs.

Mrs. Smallpurse (who found only a few dimes in her husband's pockets that morning)—I am just sick of this plodding along year after year. Why don't you do something to make money?

Mr. Smallpurse—I can't make any more than a living at my business, no matter how hard I work.

Mrs. Smallpurse—Then do something else. Invent something. Any American can invent.

Mr. Smallpurse (some months after)—My dear, I've hit it, and I've got a patent. My fortune is made.

Mrs. Smallpurse (delighted)—Isn't that grand! What did you invent?

Mr. Smallpurse—I have invented a barbed-wire safety pocket for husbands.—New York Weekly.

The Telephone Girl's Amendment.

Said the business man with a grouch against the telephone central:

"I said, 'Get me fourteen-hundred so-and-so.' And the girl asked, 'One-four-oh-oh so-and-so.'"

"I had eczema on my hands for about seven years and during that time I had used several so-called remedies, together with physicians' and druggists' prescriptions. The disease was so bad on my hands that I could lay a slate-pencil in one of the cracks and a rule placed across the hand would not touch the pencil. I kept using remedy after remedy, and while some gave partial relief, none relieved as much as did the first box of Cuticura Ointment. "I was greatly run-down in health from a weakness peculiar to my sex, when Lydia E. Pinkham's Vegetable Compound was recommended to me. It not only restored me to perfect health, but to my delight I am a mother."

Mrs. Josephine Hall, of Bardstown, Ky., writes:

"I was a very great sufferer from female troubles, and my physician failed to help me. Lydia E. Pinkham's Vegetable Compound not only restored me to perfect health, but I am now a proud mother."

FACTS FOR SICK WOMEN

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Romans in Scotland.

Recent discoveries in the neighborhood of Edinburgh and as far north as the confines of Perth and Inverness are exciting unprecedented interest in the Roman occupation. Accumulating evidence that it took a far more solid work than is currently supposed has stimulated the exertions of the Scottish antiquaries and resulted in an appeal for funds to which public generosity is not slow in responding. Interest is guided and stimulated by what may truly be called the Roman museum, now open to inspection in the rooms of the antiquaries, on the second floor of the national portrait gallery in Edinburgh. There may be seen the surprisingly rich bronze helmet and the remarkably beautiful visored tilting helmet, or mask, recently unearthed at Newstead, being within a mile of Melrose Abbey. If the throngs of tourists were not such cut-and-dried affairs, visitors to Abbotsford, Dryburgh and Melrose might readily include in their purview the Roman camp and Roman baths which Miss Curle has there brought to light—the bath is now in process of excavation. Besides the helmets, Mr. Curle has found vases in bronze, helmets, swords and axes, which, along with plentiful shards of Samian and other ware, suggest that Newstead was a very solid and firmly rooted outpost.

Black Bear a Thief.

The black bear of the north is a roving animal, continually shifting from one place to another at all seasons except the few months in which it curls up and lies dormant like the woodchuck. The bear seems instinctively to know where to go to find blackberries, beech nuts, succulent roots and other food in which it delights. The bear roots up the ground under beech trees, much as a hog would, in search for beech nuts.

The bear discovers where the chipmunks and squirrels have stored nuts in the ground for the winter supply and robs their storehouse. We are told that bears break into the pigsties of pioneers, carrying off pigs. I have never known of such attacks, but I have known them to attack beehives with impunity for the honey which they relish.

I have heard of bears attracted to telegraph poles by the humming of the wires, thinking that they were in the vicinity of a beehive.—Forest and Stream.

Some Costly Funerals.

Some foreign papers have been discussing the cost of the recent funeral of King Carlos and the crown prince of Portugal, incidentally recalling the reported outlay on other royal obsequies. Tit-Bits says that no modern ruler has been buried at the cost of Alexander the Great, at whose funeral \$5,000,000 was spent, part of the money going toward providing a solid gold coffin for the dead ruler. Emperor William of Germany was buried at a cost of $125,000, and the last rites of Grand Duke Nicholas used up about $50,000. At the funeral of President Faure not $30,000 was spent on flowers alone. When the duke of Wellington was laid to rest, in 1852, $350,000 was spent, giving him what has been described as the most splendid funeral of the nineteenth century.

Wiser.

"He's been in Paris for a year, I believe. He must be very wealthy."

"Well, he used to have more money than he knew what to do with."

"You mean he isn't as wealthy as he was?"

"Oh, no; I mean he has been in Paris long enough to acquire more knowledge."

Documentary Evidence.

Her Mother—I should rather you would not go sailing with that young man, Clara; I don't believe he knows anything about a sailboat.

Clara—Oh, but he does, mamma; he showed me a letter of recommendation from a New York firm he used to work for, and they speak very highly of his salesmanship.—The Circle.

ROOSEVELT'S PLANS

ANSWERS PLEAS OF BUSINESS MEN WITH MESSAGE

TO CONGRESS IN A FEW DAYS

President Has Secured Minute Data at Special Conference with Reliable Representatives of People.

Washington, D. C., March 22.—President Roosevelt has determined on a legislative programme, the enactment of which will be urged upon congress in a special message, which he said yesterday will go in this week. Each of the measures to be proposed involves perplexing difficulties and each will have a far-reaching effect on the business and economic conditions of the country.

The programme is the product of important conferences through which the president has been put in possession of the views of all interests concerned. Likewise the attitude of the leaders in both branches of congress has been made known. Its success depends upon the combined efforts which he believes can be brought to bear in behalf of the whole plan by those affected practically by some of its features.

The support of the business and financial interests of the middle west was pledged to the president on this programme, following an extended conference held at the White house on Friday night. A most satisfactory conference was held at the president's offices yesterday with leaders of the two houses of congress. The details of Friday night's session were purposely withheld pending the morning conference. At the conclusion of the latter a statement was made public by Secretary Loeb, setting forth in detail the results of these conferences.

At the conference on Friday night an address was presented to the president in which it was stated that the committee presenting it represented 4,500 business men who come in contact with almost every portion of the country. They recite the prosperity of the country prior to the panic of last fall; tell of the sudden change in condition from prosperity to stagnation and distrust by the people as to the stability of our institutions. There were two primary causes for this condition, says the statement:

"First, the gross violation of law by some corporations and grafting by some public officials, and, secondly, a deficient currency system wholly incapable of responding to the needs of commerce when fear and uncertainty are engendered in the minds of the masses."

The statement reviews the panic from its start in the exposure of insurance affairs in New York through the San Francisco earthquake, and exposure of public officials of that city who were charged with violation of almost every trust, and finally to the exposure of high finance in railroads and corporations. The statement then gives the president credit for "compelling a respect for the law by the great and small;" and expresses the opinion that it will have a beneficial effect upon business morality. The statement concludes:

"We now urge you to consider with extreme patience the unusual conditions that prevail, and while abandoning no expressed principle to adjust your executive actions to the requirements of this period of business timidity.

"We ask you, Mr. President, to indicate to the congress the corrective measures you deem it necessary to take. We believe that the first step towards resumption of normal business conditions can be taken by the congress in response to explicit recommendations by the chief executive."

Yesterday the president indicated to a sub-committee of the committee presenting the above statement that he would probably communicate to congress this week explicit recommendations concerning the legislation needed.

The president, Senator Aldrich and Representatives Payne and Dalzell of Pennsylvania and Hepburn of Iowa participated in the conference yesterday. The chief subject considered was tariff revision, but there will be other conferences at which other questions will be taken up in detail.

An agreement was reached between the president and the leaders of the house and senate in favor of a declaration for a revision of the tariff at a special session to be held after March 4, 1909. It was decided that the best manner in which to prepare for the legislation is to have investigations conducted by the ways and means committee of the house and the finance committee of the senate. These investigations will not be in the form of hearings, but experts will be called in to assist the committee in preparing data. The plan is opposed to the appointment of a tariff commission such as it proposed in the Beveridge and La Follette bills.

WESTERN CANADA CROPS CANNOT BE CHECKED.

OATS YIELDED 90 BUSHELS TO THE ACRE.

The following letter written the Dominion Government Commissioner of Emigration speaks for itself. It proves the story of the Agents of the Government that on the free homesteads offered by the Government it is possible to become comfortably well off in a few years:

Regina, Sask., 23rd Nov., 1907.

Commissioner of Immigration,
Winnipeg.

Dear Sir:

It is with pleasure that I reply to your request. Some years ago I took up a homestead for myself and also one for my son. The half section which we own is situated between Rouleau and Drinkwater, adjoining the Moose Jaw creek, is a low level and heavy land. We put in 70 acres of wheat in stubble, which went 20 bushels to the acre, and 30 acres of summer fallow, which went 25 bushels to the acre. All the wheat we harvested this year is No. 1 hard. That means the best wheat that can be raised on the earth. We did not sell any wheat yet as we intend to keep one part for our own seed, and sell the other part to people who want first-class seed, for there is no doubt if you sow good wheat you will harvest good wheat. We also threshed 9,000 bushels of first-class oats out of 160 acres. 80 acres has been fall plowing which yielded 90 bushels per acre, and 80 acres stubble, which went 30 bushels to the acre. These oats are the best kind that can be raised. We have shipped three car loads of them, and got 53 cents per bushel clear. All our grain was cut in the last week of the month of August before any frost could touch it.

Notwithstanding the fact that we have had a late spring, and that the weather conditions this year were very adverse and unfavorable, we will make more money out of our crop this year than last.

For myself I feel compelled to say that Western Canada crops cannot be checked, even by unusual conditions.

I am, dear sir,

Yours truly,

(Signed) A. Kaltenbrunner.

WHY THEY SLEEP IN CHURCH.

Hypnotism, Not Drowsiness, Declared to Be the Cause.

"Churchgoers don't sleep in church. They undergo an hypnotic trance. The soothing voices and mild music and monotonous recitative of a church service put forth powerful hypnotic influences, and that is why the pews resemble a railroad track in the abundance of their sleepers."

The speaker, a hypnotist, banged the table vehemently.

"Don't laugh," he said. "It's true. Hypnotism, not drowsiness, is what makes you sleep in church. Through your auditory nerve sound waves are passed to your brain that are as effective as though a professional hypnotist had made them. Sound, you know, is the newest and best hypnotic.

"At first, in the church service, the periodicity of the wave alterations is short. There is a little speaking, then more music. And just when you are getting properly lulled the clergyman, in a modulated, agreeable, soothing voice, speaks on and on and on—and you begin to nod. You are, hypnotically speaking, entranced.

"The average church service is a scientifically correct hypnotic instrument. No wonder, then, it puts many of us to sleep."

Transmitted Snake Bite.

An extraordinary case of snake poisoning is reported from a country hospital in Victoria, N. S. W. An old man was brought in in a comatose state and showing all the symptoms of having been bitten by a venomous snake. But on investigation it was found he had been bitten by a dog, which died almost immediately afterward from snake bite. Medical treatment was successful, and the man gradually recovered from the snake poison which the reptile had indirectly transmitted to him.

PUBLIC LAND OPENING.

The opening of the large tract of irrigated Government land in the Big Horn Basin affords an opportunity to secure an irrigated farm in a delightful section of the country on easy payments. \$211 down secures 40 acres; \$421 down secures 80 acres; \$631 down secures 120 acres; \$841 down secures 160 acres. The settler has nine years in which to pay the balance. Final proof can be made and a patent secured by a residence of only thirty days. If this looks good to you, sit down right now, and write to the Irrigation Department, 405 Home Insurance Building, Chicago, for full information.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential.

Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

Wm. Stille and family attended services in Klemme last Sunday.

Mrs. Arnold and son Clarence were Germantown visitors last Sunday.

Emma Sampson spent the first of the week with her sister Mrs. Gast.

Carl Wellemeyer and wife were Klemme visitors Sunday afternoon and stayed for evening program.

Father and Mother Kraus, Mother Schwichtenberg, Mrs. Aug. Ridder and son Bennie called on Jno. Schwichtenberg last Friday.

Mrs. Louis Sampson gave a birthday dinner in honor of Fred's 20th birthday. A number of friends and relatives were present.

Mrs. Wessel is slowly improving from her rheumatic attack. She can sit up part of the time but has not recovered the use of her lower limbs thus far. She has greatly appreciated the sympathy of all those who called on or remembered her.

Bishop Chas. H. Fowler of the M. E. church died last week at his home in New York after a short illness. He was one of the great orators of the land. His lectures on "Abraham Lincoln," and "Missions and World Movements." were, to say the least, great.

If any family, not receiving "Der Hausfreund" will drop us a card to this effect, we will promptly have the paper sent to them. Our business men are paying for this paper with their advertisements. Dont forget to thank them for it and favor them as often as possible.

Twelve jurymen in New York recently reached a verdict for the defendant against a street railway by tossing a coin. Prior to using this method the jury stood nine to three for the claimant. When the judge of the court was told of this device, he promptly set the verdict aside, fined each juror fifty dollars and gave them an indignant lecture. Is there not in this instance an illustration of a type of ignorance and neglect of civic duty which is quite too common on the part of the average citizen?

We will give the fourth illustrated lecture on missions in the Germantown church Sunday evening and Klemme Monday evening. The subject will be "At the gate and within." It will be a pictorial study of American immigration and how Uncle Sam greets new comers. It will also give a glimpse of Honolulu and Porto Rico with their native villages, customes and beautiful scenery. To this we will add a few new illustrated songs and as the latter are very expensive we trust the collection will be accordingly.

The church in Klemme was packed till to the out side door Sunday evening. The Germantown League did themselves credit with their program. It consisted of four recitations delivered by Alice Griffen, Della Schlei, G. I. Schaper and Nettie Griffen, an essay by Wm. Bredlow, paper by Erick Josten, solos by Carl Wellemeyer and Etna Suckow, duett by Meta Bredlow and Lizzie Riemer, quartett by Ell Schlei, Lydia Beier, G. I. Schaper and E. G. Beier and a dialogue by 8 young men and ladies. Several numbers were especially pleasing and appreciated.

We fully believe in "Progress" but we are "Standpatter" enough that we were very much pleased with the out come of the state convention last week. We lived four years in Allison's home city and have ever since considered him as "Iowa's grand old man." Tho' his age is against him his long experience as a senator, his clean record and conservative judgement in weighty matters make him a strong man still and his advice counts for much. On the other hand from what we personally know and have heard we have never been able to muster up an ounce of sympathy or love for Cummins.

Chamberlain's Cough Remedy

Cures Colds, Croup and Whooping Cough.

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Enid informing him that the kidnaping is for the purpose of entrapping Barnes so the vendetta may kill him. Barnes and Marina have unusual adventures in their search for Enid. They come in sight of her and her captors in the Corsican mountain wilds just as the night approaches. In seeking shelter from a storm the couple enter a hermitage and there to their amazement they discover Tomasso, the foster father of Marina, who was supposed to have been killed by De Belloc's soldiers, and for whose death Barnes had been vendettaed. Tomasso learns that Marina's husband did not kill her brother. Many wrongs are righted. Barnes is surprised in the hermitage by Rochini and Romano, the two detested bandits, who had been searching for him to murder him for his money. The bandits attempt to take away Marina. Barnes darts out the door. The bandits start to pursue, but as they reach the door both are laid low by Barnes' revolver. Members of the Bellacoscia enter and Barnes is honored for his great service to the community in killing the hated Rochini and Romano. The release of Enid is promised. Barnes is conveyed in triumph to Bocognano. Marina acquaints the Bellacoscia with Saliceti's plot against her husband and the people are instructed to vote against him at the coming election. Barnes is taken to the mansion of the Paolis to meet Enid. Marina receives a telegram. She starts for Bastia to meet her husband. Entering the room to greet his wife Barnes is bewildered to find the adventuress La Belle Blackwood, but not Enid. She had been substituted for the American's bride by a shrewd plot. Lieut. Anstruther arrives to find Marina and learns that she has been lured away by the telegram which had been sent by another without his knowledge. The two start in search of Marina.

CHAPTER XVI.—Continued.

So they spring off their horses and dear old Monsieur Staffe, recognizing the American, is about to offer them rooms when they both suddenly question him and learn to their concern that no lady has arrived from the interior this day at his hotel.

"She is drawn by two horses driven by an old Corsican with a beard several weeks old," says Barnes.

"It doesn't matter how she was driven; no lady has arrived here, gentlemen."

"Then Marina must have gone to inquire at the steamer offices as to when I'll arrive," cries Edwin.

"Mon Dieu!" ejaculates Monsieur Staffe, his eyes lighting up, "you are the young English naval officer whose wedding to Mademoiselle Paoli created such an excitement in the island two weeks ago. Believe me, Monsieur, your wife is not in Bastia, or I should have heard of it. Everybody here honors the name of Paoli—and your sweet spouse is very much loved for her own dear self."

Despite Monsieur Staffe's assertions, the two young men stride out of his hotel, and though desperately fatigued, make inquiries at the offices of the Fraissinet and the Florio Ruballinio companies, but no lady asking for arriving boats has been there, at all events, none answering Marina's description.

"We may have passed her on the road," remarks Barnes sympathetically, his anguish making him feel for his companion. "We'll give her two hours to come in and overtake us—two hours of rest," the poor fellow stretches his limbs wearily. "I'm flesh and blood, Anstruther. You didn't climb mountains all yesterday, as I did."

But Edwin, being unaccustomed to horseback exercise, though wiry enough upon the ship's deck, is stiff and sore. Compelled from very fatigue, the young men contrive to limp back to the Hotel de France, where they are very well taken care of, and two hours' sleep measurably revives them. Barnes has had a shave and would look almost debonair when he comes down to breakfast at noon, but the cavities which hold his eyes abnormally brightened by anxiety give the lie to any appearance of lightness.

Anstruther is even more worried than before—and now as the day draws on, without his wife appearing, a look of fear comes into the young man's face that is horrible.

Gazing at him, Barnes mutters: "Are you good for another ride?"

"Yes—where?"

"We must take the back track," says the American. "We rode too rapidly this morning, thinking Marina was just ahead of us, for a critical investigation."

"Get under way," answers the lieutenant, and the two ride out of Bastia, making inquiries at every village and learning nothing.

In fact, the peasants, as they get nearer Ponte-alla-Lecchia, are too much excited over the election of the morrow to talk about much else. "Voting-day is to be enlivened by a race riot of the Lucchese," says one whom Barnes is questioning on the highway just where the Morosaglia road leaves it leading to the Tuscan sea.

Edwin has dismounted and is slouching morosely about the road to ease his tortured legs.

"Why don't they wipe out these mutinous Lucchese?" says the officer in

"It Doesn't Matter How She Was Driven, No Lady Has Arrived Here, Gentlemen."

quarterdeck tones as they get on their horses again.

"Then the native Corsicans would have to work. These Lucchese come over here from Italy and do the manual labor for them. But I can find no trace of your loved one or of mine," adds Barnes, almost despairingly, as they ride along the road, their inquiries growing more close and persistent till they reach Corte.

Together, disconsolately, the poor fellows force themselves to try to eat. The election excitement is growing higher, a brass band comes past, at its head a placard, "Vote for Saliceti!" and Barnes gnashes his teeth.

But turning from this, he rather curiously says suddenly: "Anstruther, you've got a flower in your buttonhole."

"Oh, yes, I was so miserable I hardly knew what I was doing. I picked up this crimson thing in the road when you were talking to the peasant who was telling you of the Lucchese riots down at Orezza."

"There was no tree bearing the flower where you picked it up?" asks the American suddenly.

"No, I think not. I don't believe there was a shrub of any kind within a hundred feet of it. Why do you ask?" for the other's tone is excited.

"Why, because that's the cyclamen flower, one of the kind of which Marina bore whole branches in her carriage. Was there a branch attached to it?"

"I think there was. Hang it, I remember, I pulled it off. I—what are you driving at?"

"Well could that flower have been dropped at the entrance of the Morosaglia road with design by your wife out of her carriage?"

The English seaman gasps for breath. but tired as he is and stiff as he is he staggers up and says hurriedly: "Come!" and the two, through the night again, for it has grown very dark, ride down to Ponte-alla-Lecchia.

"By heaven, I wish we had hope of my sister also," says Edwin as they hurry along, though the poor sailor has difficulty in keeping himself in the saddle.

"I have a little," answers Barnes.

"You think Enid might be with Marina?"

"Yes, if Cipriano Danella has her. He apparently wants a chance at my life if Saliceti misses it. He may have taken Enid to some out of the way place, so that striving to find her I may die in his vendetta."

So he and Edwin walk their horses up to the junction of the Morosaglia road.

"Did you find that flower here?" he asks Edwin.

"Yes, pretty well toward the middle of the path."

Though the moon has just risen they can find no more cyclamen blossoms and here a sudden complication confronts them. Another road leading toward the northwest and running to Novella, Belgodere and the Ile Rousse, also leaves the Bastia road at the same point.

"It is just as probable that Marina's course was directed toward the northwest as toward the east. In fact, it is a toss-up which way your wife went," remarks Barnes. "Now, there is only one way to settle it, if this cyclamen flower means anything. That is for you to investigate one road and I the other."

So it is arranged that Barnes takes the road toward the Ile Rousse, and Edwin follows the path leading to the east toward Morosaglia.

"If I find no more of these flowers going toward the northwest, I'll return here and follow you," remarks Burton.

After giving these directions, the American, desperately fatigued and mightily sleepy, jogs his steed in the direction of Ile Rousse, 20 miles to the northwest. In the moonlight, the distracted man, though he dismounts often, discovers no cyclamen flowers lying in the road. But he doggedly keeps on, hoping to find some of the flowers that may indicate he is following Marina.

"It's the only clew we have now to Marina, and it may lead me to Cipriano," he mutters, as he struggles to keep himself in the saddle.

Finally, arriving at Belgodere in the early morning and learning from the innkeeper that no carriage has passed through, exhausted, worn out and disappointed, even Barnes succumbs to nature. He has been 48 hours under headway, 30 of these on horseback and eight of them climbing precipices; and despite despair and anxiety sleep claims him—the terrible sleep of exhaustion.

It is late when he opens his again and with a start wonders w he is. He looks over the brill mountains, he sees the vines and a few miles away, the waters be which stands Isola Rossa. The night before, Edwin, turnin the east, begins to climb the awful leading to the Morosaglia. DEMOCRATS AT CEDAR RAPIDS

GENERAL WEAVER IS LEFT OFF DELEGATION.

HE WILL RUN FOR GOVERNOR

Convention Is for Bryan — State Chairman Announces Retirement.

Cedar Rapids.—Claude R. Porter of Centerville, Jerry B. Sullivan of Des Moines and E. G. Dunn of Mason City were chosen as delegates at large on the first ballot by the democratic state convention, and C. F. Duncombe of Fort Dodge was chosen on the next ballot.

The platform indorses Bryan and instructs for him under the unit rule.

Gen. J. B. Weaver and his friends made a hard fight for delegate at large, but he was defeated. Later General Weaver gave out the following interview:

"The Hon. Claude R. Porter stated to me this evening that he would not enter the June democratic primaries as a candidate for governor as I had hoped he would do. This being the case, at the solicitation of friends I have concluded to enter the primary myself for that office."

During the day Chairman Miller of the state committee announced that he would not be a candidate to succeed himself.

Claude R. Porter, temporary chairman, delivered an address in which he made an urgent plea to the democrats of Iowa and of the nation to unite and reassert the great and undying principles of democracy. He declared that there was in the present situation greater promise of democratic success than in many years, and that there ought to be a harmonious fight under the democratic banner against republicanism.

While the convention was waiting the report of the committee on resolutions, following the speech of Permanent Chairman Denison, there was a series of time filling speeches by Judge Wade, Congressman Dan Hamilton, Fred White, General Weaver and others. Finally the committee proceeded to the election of delegates at large.

On the first ballot Claude R. Porter of Centerville, Jerry B. Sullivan of Des Moines, and E. G. Dunn of Mason City, were chosen.

On the ballot for the election of the fourth delegate at large the candidates were John Craig of Lee county, Major Carr of Manchester, General Weaver, C. F. Duncombe, and Will Whiting, the latter of whom withdrew. Duncombe's vote was 616, and Weaver's 442.

As alternates six men were chosen. Each will have two-thirds vote. They are: J. E. Craig, Keokuk; M. V. Gannon, Scott county; A. R. McCook, Butler; E. M. Carr, Delaware; J. E. Stanton, Marshall; S. P. Wadsworth, Pottawattamie.

Delegates.

District delegates were chosen as follows:

First district—J. P. Cruickshank, Lee; W. P. Lippincott, Van Buren.

Second district—E. M. Sharon, Davenport; A. Brandt, Jackson.

Third district—W. B. Higbee, Buchanan; H. G. Liggett, Black Hawk.

Fourth district—John McCook, Howard; H. B. Lorsey, Mitchell.

Fifth district—(Double delegation.)—R. I. Williamson, Grundy; H. P. Fitzgerald, Tama; John W. Waley, Marshall; C. H. Pattenburg, Benton.

Sixth district—S. B. Reynolds, Mahaska; Claud Meyers, Wapello.

Seventh district—John T. Mulvaney, Polk; P. J. O'Malley, Dallas.

Eighth district—J. J. Dunnegan, Page; E. J. Sankey, Decatur.

Ninth district—John Blake, Cass; W. C. Campbell, Sheby.

Tenth district—D. L. Caswell, Crawford; J. H. Menton, Boone.

Eleventh district—W. F. Hutton, Ida; C. C. Cannon, O'Brien.

The platform is understood to be the product of G. F. Rinehart of Des Moines, prepared after the Nebraska platform at the suggestion of Mr. Bryan himself.

The convention struck out the financial plank of the platform on the ground that it was not happily and properly expressed, and empowered the committee on resolutions to substitute a new plank.

The platform follows:

"We, the representatives of the democracy of Iowa, in convention assembled hereby proclaim our faith in and adherence to the principles of democracy as propounded by the illustrious founders of our party, Thomas Jefferson, defended so earnestly and effectively by Andrew Jackson and expounded so lucidly by the greatest living champion of democracy, William Jennings Bryan.

"We rejoice in the great moral awakening of the American people, the exposures of graft and political corruption and the manifest evidences of public sentiment that demands the punishment of the guilty, and we see therein ample evidence of the ability of the people to work out their own salvation and shape their own destiny. We recognize as the paramount issue of this campaign the famous dictum of Jefferson, 'Equal rights to all and special privileges to none,' and we declare that in the adoption and execution of the principles therein outlined lies the only path to civic righteousness.

"We believe that in the preservation as inviolate and inviolable, of the reserved rights of the states to regulate and control internal rights of the state, lies the only security for popular government; and we are, therefore, firm in the conviction that federal legislation should assist, rather than retard or oppose, state legislation in providing remedies for public wrongs.

"We hold that foreign corporations doing business in competition with state corporations or individuals should be held amenable to the laws of the states in which they operate, and that in all controversies between the individual and the corporation due recognition should be given to the distinction between the natural person that God has made and the artificial person that man has made, to the end that the corporation shall not have any undue advantage over the individual.

"We rejoice in legislation for cheaper railroad fares, and we see in the abolition of the railroad pass one of the most happy auguries for juster relations between the railroad corporations and the public.

"In the election of United States senators by direct vote of the people lies the most accessible avenue to national reforms, and until this result is accomplished the people cannot hope for the largest measure of public good.

"As before iterated and reiterated in our national platforms, we declare that a private monopoly is indefensible and intolerable and to the end that it may be abolished we favor the rigorous enforcement of the criminal as well as the civil laws against trusts as monopolistic corporations, and trust magnates as individuals, and if the present laws are inefficient we demand the enactment of additional laws that will regulate and control every private monopoly.

"We charge to republican discrimination and favoritism the enormous development of the trust evil and declare that the republican tariff has become the parent and custodian of giant monopolies that thrive by unjust extortions, both from those who produce the raw materials and those who consume the finished products, and we favor the immediate removal of all tariffs from goods sold in competition with trust made articles until a revenue basis has been reached by our tariff system.

"We condemn the deceit and duplicity of republican platform promises for tariff reform, that, like the will-o'-the-wisp, is always just beyond reach, promising a revision that has been defined by an Iowa republican platform to mean a lowering of schedules that are too high and a raising of schedules that are too low; and the determination that tariff schedules must be revised by friends of the tariff leaves the beneficiaries of high tariff schedules the sole judges of whether or not they are too high or whether they are too low. For many years the promise has been made that the tariff would be revised after election. Since then several elections have occurred, and the republican party yet points to some election in the future as the time for this will-o'-the-wisp to submit to capture.

"We believe that all public utilities should be conducted for the benefit of the whole people without discrimination or extortion, and we favor the enlargement of the powers of the national and state railroad commissions to the end that every individual shall have full protection; and to do this it is necessary to ascertain the present values of the railroads and prevent that process of highway robbery known as watered stock, insuring to the stockholders of the railroad a fair return on their investment and to the shipper a reasonable rate for the transportation of his products.

"The present financial stringency, occurring after twelve years of absolute republican supremacy, shows the incompetency or unwillingness of the leaders of the republican party to afford the people any relief further than to loan to the gamblers of Wall street the money of the people needed to handle the commerce of the country and market the crops of real things in which honest men deal. We favor the issue and control by the general government only, of emergency currency in times of financial stress and strain, to be loaned upon adequate security, without discrimination, at such rate of interest as will insure its retirement when the necessity for its issuance has passed. We condemn the attempt of the leaders of the republican party to pass the Aldrich bill or the Fowler bill as an attempt to take the constitutional prerogative of issuing money from the general government where it belongs and placing it in the hands of individuals or classes, where it does not belong, and where its exercise means renewed danger to popular liberty.

"We believe that in all contests between capital and labor arbitration is the best method of arriving at just conclusions as between the parties and at the same time it avoids in a great measure the demoralization to public business that results from prolonged strikes and lockouts, which not only injure both employer and employe, but affect disastrously the innocent public which is in no wise responsible for the situation; and we condemn the abuse of the writ of injunction in labor disputes, believing that it should be granted only after due notice and full hearing, trial to be had before some judge other than the one who issues the writ, and a jury trial to be had in every case except where the contempt alleged occurs in the presence of the court.

"We favor an eight hour working day and an employers' liability law applicable alike to public and private employers, and we call the attention of labor to the fact that the democratic party was the first to declare for a department of labor at Washington; that democratic platforms have always recognized the rights of labor to its just reward, honest pay for honest work, but no platform of the democratic party ever promised a 'dollar good in Europe,' and then substituted a 'clearing house certificate,' nor a 'full dinner pail' that disappeared and left only the odor of the free soup house in its stead.

"We favor the protection of all foreigners residing in the United States under treaty, but we are opposed to the admission of Asiatic emigrants who can never be assimilated with our people, and whose presence raises a race issue and involves us in diplomatic controversies with oriental powers ,and we demand stricter immigation laws to the end that no foreigner who believes in assassination as a means of reforming government can be permitted to land on our shores.

"We favor an amendment to our national constitution making an income tax part of our revenue system, that those who reap the benefits of government may share its burdens, and we favor an inheritance tax to reach the swollen fortunes already in existence, recognizing that permanent measures should be taken to prevent piling up of predatory wealth by removing the privilege and favoritism upon which it is based.

"We congratulate Oklahoma upon its auspicious entrance into the sisterhood of states, and we demand for Arizona and New Mexico separate statehood, and for Porto Rico, a territorial form of government. We favor the reclamation of arid lands, the protection of the forests yet remaining and the replanting of the denuded districts left a ruin by the rapacity of the lumber trust. We charge the tariff on lumber with the responsibility in a large measure for the destruction of our forests, and the high price of lumber and of print paper has in the meantime extorted an enormous tax from every man who builds and every man who reads, thus making enterprise and intelligence pay a tribute to the greed of lumber barons, while a waste of stumpage is left as an inheritance to our children. We believe in improving waterways wherever possible to give the people the advantage of competing lines of transportation and hope for the speedy completion of the Panama canal.

"While we deprecate war, we believe in a generous pension policy in justice to the surviving veterans, and because it also relieves the country of the necessity of maintaining a large standing army.

"We condemn the experiment in imperialism as an inexcusable blunder which has involved us in useless expense, brought us weakness instead of strength, and laid the nation open to the charge of abandoning the fundamental doctrine of self-government.

"We favor the immediate declaration of the national purpose to recognize the independence of the Philippine islands, as soon as a stable government can be established, such independence to be guaranteed as we now guarantee the independence of Cuba.

"We favor international arbitration in all disputes between nations where diplomacy fails and we are opposed to the employment of our navy in the collection of private debts.

"We favor honest and impartial inspection of public grain storage warehouses at market centers, such storage facilities to be free from special privileges, railroad favoritism or monopolistic influence, subject to honest inspection and open competition, that the interests of the producer, shipper and consumer may be protected.

"We approve of the enforcement of all laws tending toward the elimination of gambling in prices of grain or other farm products, but approve of those commercial organizations which promote only legal and equitable methods in the merchandising of all agricultural products.

"We believe that the restoration of confidence will do more to put money into circulation than any currency legislation that can possibly be enacted; therefore we favor the enactment of a law evolving some scheme absolutely guaranteeing bank deposits.

"Firmly believing in these principles, we declare that an administration should be chosen that will put them into effect, not under the whip and spur of public sentiment, but with the enthusiasm of earnest desire to have them incorporated into the policy of this nation; therefore, we favor for president of the United States the man who, above all others, is the very embodiment of these principles, with the determination to adhere to them and the ability to administer them with lasting credit to himself and honor to the American people; therefore, we hereby instruct the delegates present from Iowa in the national convention at Denver to vote as a unit on all questions coming before said convention, and to support for the nomination for president of the United States, first, last and all the time that typical citizen, exalted patriot and incorruptible democrat, William Jennings Bryan."

The Reason.

"He always patronizes that one restaurant."

"Who? Stinjay? Yes, there are waitresses there, you know."

"But he doesn't care for the girls."

"No, but you don't have to tip girls."

The Evolution of Household Remedies.

The modern patent medicine business is the natural outgrowth of the old-time household remedies.

In the early history of this country, EVERY FAMILY HAD ITS HOME-MADE MEDICINES. Herb teas, bitters, laxatives and tonics, were to be found in almost every house, compounded by the housewife, sometimes assisted by the apothecary or the family doctor. Such remedies as picra, which was aloes and quassia, dissolved in apple brandy. Sometimes a hop tonic, made of whiskey, hops and bitter barks. A score or more of popular, home-made remedies were thus compounded, the formulae for which were passed along from house to house, sometimes written, sometimes verbally communicated.

The patent medicine business is a natural outgrowth from this wholesome, old-time custom. In the beginning, some enterprising doctor, impressed by the usefulness of one of these home-made remedies, would take it up, improve it in many ways, manufacture it on a large scale, advertise it mainly through almanacs for the home, and thus it would become used over a large area. LATTERLY THE HOUSEHOLD REMEDY BUSINESS TOOK A MORE EXACT AND SCIENTIFIC FORM.

Peruna was originally one of these old-time remedies. It was used by the Mennonites, of Pennsylvania, before it was offered to the public for sale. Dr. Hartman, THE ORIGINAL COMPOUNDER OF PERUNA, is of Mennonite origin. First, he prescribed it for his neighbors and his patients. The sale of it increased, and at last he established a manufactory and furnished it to the general drug trade.

Peruna is useful in a great many climatic ailments, such as coughs, colds, sore throat, bronchitis, and catarrhal diseases generally. THOUSANDS OF FAMILIES HAVE LEARNED THE USE OF PERUNA and its value in the treatment of these ailments. They have learned to trust and believe in Dr. Hartman's judgment, and to rely on his remedy, Peruna.

One Thing Lacking.

Dressed in the latest and most approved motor-cycling costume, with goggles all complete, the motor-cyclist gayly toot-tooted his way by Regents park towards the zoo. Suddenly he slackened, dismounted, and said to a small, grubby urchin:

"I say, my boy, am I right for the zoo?"

The boy gasped at so strange a sight, and thought it must be some new animal for the gardens.

"You may be all right if they have a spare cage," he said, when he could find his tongue, "but you'd ha' stood a far better chance if you'd 'ad a tail'"—London Answers.

EX-SPEAKER GEORGE W. CLARKE
OF DALLAS COUNTY

Republican Candidate for Lieutenant-Governor. Member of the 28th, 29th, 30th and 31st General Assembly. Speaker of the 30th and 31st General Assembly.

Our city election which took place Monday, March 30, 1908, was a rather tame affair. The fight was mostly for the assessor office. The men elected as a whole will make good officers. Following we give the returns of the votes cast for the several candidates running for office.

Everybody is welcome when we feel good and we feel that way only when our digestive organs are working properly. Dr. King's New life pills regulate the action of stomach, live and bowels so perfectly one can't help feeling good when he uses these pills 25c at J L Harr & Co.

To Thomas Duff, County Auditor.

Under the new Primary Law it is necessary that candidates for Township officers such as Justice of the Peace. constables. Township Trustees, Township Clerks, and Assessors should file with the County Auditor their affidavits as required by the law in order that their names may be printed on the ballot for the primary election.

It is possible that candidates for such offices will not ask that their names be placed on the ballot nor take pains to file the proper affidavits.

I would suggest that the committeeman for each precinct or township should look after these matters and obtain from the County Auditor, free of expense, the necessary blanks for making the affidavits and see that they are promperly filled and signed and filed with the Auditor.

I would also call the attention of the committeemen to the fact that they are required to certify to the Auditor the number of delegates each township or precinct is entitled to at the county convention to be held after the primary in order that the blanks may be left on the ballot and also call their attention to the fact that unless they do so certify the number of delegates the Auditor must make an apportioment of such delegates.

If the committeemen from each township of the various parties will give the foregoing matters attention in time so that the foregoing may be properly attended to at least thirty days before June 2nd, 1908, it will save much trouble and possible leaving blank places on the ballots which are not contemplated by the law, and I would suggest that you give these matters as much publicity as early as convenient.

W. H Ramsay, County Attorney.

Appeals to Iowa's Pride.

One of the warmest and most qualified endorsements Senator Allison's candidacy for re-election has received comes from the Springfield Republican, a Massachusetts publication of national reputation for editorial integrity and ability. The Republican expresses the hope that Iowi will "continue this faithful public servant in office until the end," and declares that "state pride and honorable sentiment alike inspire to this action.

THE PRESIDENT GIVES OUTLINE OF LEGISLATION

In Special Message He Asks the Passage of Several Pending Bills.

WOULD AMEND TRUST LAWS

Believes Some Features of Present Statues Are Obsolete and Need Revising.

Would Prevent Both Blacklist and Boycott—Sees Need of Tariff Revision Commission and Immediate Waterway Legislation.

Washington, Mar. 25.—The following is the full text of the president's message sent to congress Wednesday:

To the Senate and House of Representatives: I call your attention to certain measures as to which I think there should be action by the congress before the close of the present session. There is ample time for their consideration. As regards most if not all of the matters, bills have been introduced into one or the other of the two houses, and it is not too much to hope that action will be taken one way or the other on these bills at the present session. In my message at the opening of the present session, and, indeed, in various messages to previous congresses, I have repeatedly suggested action on most of these measures.

Child labor should be prohibited throughout the nation. At least a model child-labor bill should be passed for the District of Columbia. It is unfortunate that in the one place solely dependent upon congress for its legislation there should be no law whatever to protect children by forbidding or regulating their labor.

I renew my recommendation for the immediate re-enactment of an employers' liability law, drawn to conform to the recent decision of the supreme court. Within the limits indicated by the court, the law should be made thorough and comprehensive, and the protection it affords should embrace every class of employe to which the power of the congress can extend.

In addition to a liability law protecting the employes of common carriers, the government should show its good faith by enacting a further law giving compensation to its own employes for injury or death incurred in its service. It is a reproach to us as a nation that in both federal and state legislation we have afforded less protection to public and private employes than any other industrial country of the world.

Injunction Legislation.

I also urge that action be taken along the line of the recommendations I have already made concerning injunctions in labor disputes. No temporary restraining order should be issued by any court without notice; and the petition for a permanent injunction upon which such temporary restraining order has been issued should be heard by the court issuing the same within a reasonable time—say, not to exceed a week or thereabouts from the date when the order was issued. It is worth considering whether it would not give greater popular confidence in the impartiality of sentences for contempt if it was required that the issue should be decided by another judge than the one issuing the injunction, except where the contempt is committed in the presence of the court, or in other case of urgency.

Rate Law Amendments.

I again call attention to the urgent need of amending the interstate commerce law and especially the anti-trust law along the lines indicated in my last message. The interstate commerce law should be amended so as to give railroads the right to make traffic agreements, subject to these agreements being approved by the interstate commerce commission and published in all of their details. The commission should also be given the power to make public and to pass upon the issuance of all securities hereafter issued by railroads doing an interstate commerce business.

A law should be passed providing in effect that when a federal court determines to place a common carrier or other public utility concern under the control of a receivership, the attorney general should have the right to nominate at least one of the receivers; or else in some other way the interests of the stockholders should be consulted, so that the management may not be wholly re-delivered to the man or men the failure of whose policy may have necessitated the creation of the receivership. Receiverships should be used, not to operate roads, but as speedily as possible to pay their debts and return them to the proper owners.

Would Amend Anti-Trust Law.

In addition to the reasons I have already urged on your attention, it has now become important that there should be an amendment of the anti-trust law, because of the uncertainty as to how this law affects combinations among labor men and farmers, if the combination has any tendency to restrict interstate commerce. All of these combinations, if and while existing for and engaged in the promotion of innocent and proper purposes, should be recognized as legal. As I have repeatedly pointed out, this anti-trust law was a most unwisely drawn statute.

In the modern industrial world combinations are absolutely necessary; they are necessary among business men, they are necessary among laboring men, they are becoming more and more necessary among farmers. Some of these combinations are among the most powerful of all instruments for wrongdoing. Others offer the only effective way of meeting actual business needs. It is mischievous and unwholesome to keep upon the statute books unmodified a law, like the antitrust law, which, while in practice only partially effective against vicious combinations, has nevertheless in theory been construed so as sweepingly to prohibit every combination for the transaction of modern business. Some real good has resulted from this law. But the time has come when it is imperative to modify it. Such modification is urgently needed for the sake of the business men of the country, for the sake of the wageworkers and for the sake of the farmers. The congress can not afford to leave it on the statute books in its present shape.

Remedies Advised.

It has now become uncertain how far this law may involve all labor organizations and farmers' organizations, as well as all business organizations, in conflict with the law; or, if we secure literal compliance with the law, how far it may result in the destruction of the organization necessary for the transaction of modern business, as well as of labor organizations and farmers' organizations, completely check the wise movement for securing business cooperation among farmers, and put back half a century the progress of the movement for the betterment of labor. A bill has been presented in congress to remedy this situation. Some such measure as this bill is needed in the interest of all engaged in the industries which are essential to the country's well-being.

I would suggest, merely tentatively, the following changes in the law:

The substantive part of the anti-trust law should remain as at present; that is, every contract in restraint of trade or commerce among the several states or with foreign nations should continue to be declared illegal; provided, however, that some proper governmental authority (such as the commissioner of corporations acting under the secretary of commerce and labor) be allowed to pass on any such contracts. Probably the best method of providing for this would be to enact that any contract subject to the prohibition contained in the antitrust law, into which it is desired to enter, might be filed with the bureau of corporations or other appropriate executive body. This would provide publicity. Within, say, 60 days of the filing—which period could be extended by order of the department whenever for any reason it did not give the department sufficient time for a thorough examination—the executive department having power might forbid the contract, which would then become subject to the provisions of the antitrust law, if at all in restraint of trade.

If no such prohibition was issued, the contract would then only be liable to attack on the ground that it constituted an unreasonable restraint of trade. Whenever the period of filing had passed without any such prohibition, the contracts or combinations could be disapproved or forbidden only after notice and hearing with a reasonable provision for summary review on appeal by the courts. Labor organizations, farmers' organizations, and other organizations not organized for purposes of profit, should be allowed to register under the law by giving the location of the head office, the charter and by-laws, and the names and addresses of their principal officers. In the interest of all these organizations—business, labor, and farmers' organizations alike—the present provision permitting the recovery of threefold damages should be abolished, and as a substitute therefor the right of recovery allowed for should be only the damages sustained by the plaintiff and the cost of suit, including a reasonable attorney's fee.

Labor Organizations.

It is important that we should encourage trade agreements between employer and employe where they are just and fair. A strike is a clumsy weapon for righting wrongs done to labor, and we should extend, so far as possible, the process of conciliation and arbitration for strikes. Moreover, violence, disorder and coercion, when committed in connection with strikes, should be as promptly and severely repressed as when committed in any other connection. But strikes themselves are, and should be, recognized to be entirely legal. Combinations of workingmen have a peculiar reason for their existence. The very wealthy individual employer, and still more the very wealthy corporation, stand at an enormous advantage when compared to the individual workingman; and while there are many cases where it may not be necessary for laborers to form a union, in many other cases it is indispensable, for otherwise the thousands of small units, the thousands of individual workingmen, will be left helpless in their dealings with the big one unit, the big individual or corporate employer.

Twenty-two years ago, by the act of June 29, 1886, trades unions were recognized by law, and the right of laboring people to combine for all lawful purposes was formally recognized, this right including combinations for mutual protection and benefits, the regulation of wages, hours and conditions of labor, and the protection of the individual rights of the workmen in the prosecution of their trade or trades; and in the act of June 1, 1898, strikes were recognized as legal in the same provision that forbade participation in or instigation of force or violence against persons or property, or the attempt to prevent others from working, by violence, threat or intimidation. The business man must be protected in person and property, and so must the farmer and the wageworker; and as regards all alike, the right of peaceful combination for all lawful purposes should be explicitly recognized.

Objects to Boycott.

The right of employers to combine and contract with one another and with their employes should be explicitly recognized; and so should the right of the employes to combine and to contract with one another and with the employers, and to seek peaceably to persuade others to accept their views, and to strike for the purpose of peaceably obtaining from employers satisfactory terms for their labor. Nothing should be done to legalize either a blacklist or a boycott that would be illegal at common law, this being the type of boycott defined and condemned by the anthracite strike commission.

The question of financial legislation is now receiving such attention in both houses that we have a right to expect action before the close of the session. It is urgently necessary that there should be such action. Moreover, action should be taken to establish postal savings banks. These postal savings banks are imperatively needed for the benefit of the wageworkers and men of small means, and will be a valuable adjunct to our whole financial system.

Tariff Revision.

The time has come when we should prepare for a revision of the tariff. This should be, and indeed must be, preceded by careful investigation. It is peculiarly the province of the congress and not of the president, and indeed peculiarly the province of the house of representatives, to originate a tariff bill and to determine upon its terms; and this I fully realize. Yet it seems to me that before the close of this session provision should be made for collecting full material which will enable the congress elected next fall to act immediately after it comes into existence. This would necessitate some action by the congress at its present session, perhaps in the shape of directing the proper committee to gather the necessary information, both through the committee itself and through government agents who should report to the committee and should lay before it the facts which would permit it to act with prompt and intelligent fairness.

I am of the opinion, however, that one change in the tariff could with advantage be made forthwith. Our forests need every protection, and one method of protecting them would be to put upon the free list wood pulp, with a corresponding reduction upon paper made from wood pulp, when they come from any country that does not put an export duty upon them.

Waterways Commission.

Ample provision should be made for a permanent waterways commission, with whatever power is required to make it effective. The reasonable expectation of the people will not be met unless the congress provides at this session for the beginning and prosecution of the actual work of waterway improvement and control. The congress should recognize in fullest fashion the fact that the subject of the conservation of our natural resources, with which this commission deals, is literally vital for the future of the nation.

$16 AN ACRE REALIZED ON CROP IN WESTERN CANADA.

ANOTHER FARMER REALIZES $22.50 PER ACRE FROM HIS WHEAT CROP LAST YEAR.

Charles McCormick of Kenville, Manitoba, writes:

"During the season of 1907, I had 100 acres in crop on the S. W. quarter of section 18, township 35, range 27 west of the Principal Meridian, Western Canada, yielded as follows:

"80 acres at 22 bushels per acre, which I sold for 90 cents per bushel; and 20 acres oats yielding 60 bushels per acre I sold for 35 cents per bushel so that my total crop realized $2,004.00. From this I deducted for expenses of threshing, hired help, etc., $400.00, leaving me a net profit on this year's crop ot over $1,600."

Thomas Sawatzky of Herbert, Saskatchewan, says:

"The value of my crop per acre of wheat is $22.50. I threshed 1,750 bushels of wheat from 70 acres, and was offered 90 cents a bushel for it. Oats, 15 acres, 500 bushels; and barley, 5 acres, 80 bushels. I do not know if I have been doing the best in this district, but I know if all the farmers were doing as well, Western Canada would have no kick coming as far as grain growing is concerned; and I further say that if you want to put this in one of your advertisements, this is true and I can put my name to it."

CONSCIENCE HAD SLEPT LONG.

Purloiner of Cake of Soap Makes Restitution After Twenty Years.

Imagine a conscience that would span 20 years and drive a man to remember a theft of a cake of soap. That there is such a conscience, however, is proved by the receipt a few weeks ago of two cakes of soap by a storekeeper in a little town in Minnesota. Twenty years ago this man, Edward Hamilton, had a small store in St. Paul. In front of his establishment he had a showcase in which he displayed several large cakes of soap of special make. One morning he found the glass broken open and one of the cakes of soap missing. The theft was so small that the matter was never reported, and Hamilton had forgotten it, till he received a letter from the thief, which read:

"Dear Sir: I send you two cakes of soap in payment for one I took from your showcase in St. Paul many years ago. I recently saw your advertisement in a country paper and learned of the change of your place of business. I regret deeply having taken the soap, and trust that this which I send will satisfactorily take its place."—Sunday Magazine.

NEURALGIA

The real meaning of the word Neuralgia is nerve-pain, and any one who has suffered with the malady will not be so anxious to know of its nature as to hear of its antidote. Though scarcely recognized by the profession and people half a century ago, it is now one of the most common and painful ailments which afflict humanity. As now generally understood the word signifies an affection of the nervous system, with pain in the course of the principal nerves.

The two great causes of Neuralgia are, Impoverishment of the Blood and Deficiency of Nerve Force; and the treatment of it is not so obscure as many would be led to suppose. The first thing is to relieve the pain, which is done more quickly and satisfactorily by ST. JACOBS OIL than by any other remedy known; the second object is to remove the cause, which is accomplished by the abundant use of nourishing food, of a nature to strengthen and give tone to both the muscular and nervous systems.

Mother's Modest Demands.

Lawyers will take almost any case, and Chicago lawyers, it seems, will take anything. A Chicago woman put her son in a children's home there, and is now bringing suit because they cut off the boy's curls. "Every curl was worth $1,000 to me," she says, "and they gave him a bath, too, against my wishes. He is a delicate child and bathing makes him sick. I haven't given him a bath since a year ago Christmas." She will ask $15,000 because of the curls and bath.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BOMB KILLS TWO

BIG NEW YORK LABOR MEETING ENDS IN CARNAGE.

ANARCHY WAVES ITS HEAD

Assassin Who Hurled Engine Torn to Shreds—Infernal Machine Intended for Police

New York, March 29.—A red flag fluttered in Union Square yesterday; a bomb fell; two men lay dying in the people's playground; and New York awoke to the fact that it harbored those prepared to give their lives in armed resistance to constituted authority.

The bomb was intended for police who, with rough firmness, had broken up a meeting of 10,000 unemployed. It exploded prematurely in the hands of the assassin, horribly wounding him, killing his companion, injuring slightly four policemen and throwing to the ground a score of those who were massed in the vicinity.

Bomb throwing in the foreign settlements of the east side is a rather common occurrence, but for the first time yesterday saw an engine of destruction openly and deliberately directed against a squad of police officers. It was meant for Captain Heilly's squad of twenty men and a longer or slower burning fuse would have perfected an instrument of death for probably every man of the twenty-one.

A labor, or, more exactly, a laborless meeting without permission had been advertised in the park yesterday afternoon. In the thousands that gathered were many of a riotous disposition, a large number wore red hats, and here and there a red flag was displayed. Suddenly an order to clear the park was given and the 150 police, half of them mounted, charged the jeering, hooting crowds, arriving in time to drive them back to the streets of the square circling the park. In the wide streets the crowds, fast assuming the nature of a mob, fell into an indifferent formation and marched about the square. Having cleared the park of all but a few apparently harmless men who occupied benches the police contented themselves with keeping all moving.

Encouraged, the procession grew; shouts of derision and oaths directed at the police filled the air, and then as though by prearrangement the strains of "The Marseillaise" rose from 10,000 throats. The police, hastily reinforced, held themselves in restraint. Captain Reilly's squad, which had been stationed at the east side of the square, started at a double-quick pace, two abreast, across the park. As they neared the fountain that marks the center of the recreation grounds a slightly built man darted out from the shadow cast by the heroic statute of George Washington and ran toward the officers, whose backs were now turned to their pursuer.

A large man kept at the other's heels. Within twenty paces of the maving squad the two men halted and the smaller raised a hand in which was clasped a smoking bomb. Even as he drew back his arm to throw the weapon it exploded. The shock that shook the skyscrapers of the square threw a score of people to the ground. The assassin and his companion fell, the latter dead with his breast torn out. The bomb thrower still lived, but is right hand was shot off, both of his eyes were gouged out and his skull and shoulder was fractured.

The four policemen who brought up the rear were injured, but not seriously, one of them being hit in the foot by a piece of the bomb. A panic followed the explosion and the thousands that surrounded the park crushed together as perhaps half of the number rushed towards the scene of the killing, while as many more turned in fright from the square. Many were injured as the mounted police surrounded the injured and again drove the mob back. A half dozen arrests were made offhand of those nearest the bomb throwers, but no particular importance is attached to the arrests.

Little is known of the bomb thrower beyond what he has told himself. Rendered unconscious at first, he later regained his senses at a hospital and under prolonged questioning declared that he had been commissioned to kill the police. They had beat him, he said. At first he had insisted that he acted alone, and later, when he said that his act was inspired, he refused to reveal the identity of his companion. He said he made the bomb himself out of a piece of gas pipe, that he came to the United States two years ago from Russia, where his wife and two children still live.

He refused to incriminate others and nothing further had been learned from him when he was placed under an anaesthetic preparatory to an operation. There is little chance that he will long survive. His companion has not been identified. Portions of the bomb and of the bodies of the two victims were picked up a hundred yards from where the bomb exploded.

AN INTERESTING CHEMICAL EXPERIMENT

Any Child Can Do It—The Result Is Almost Like Magic—Useful, Too.

Anything in the nature of a chemical experiment is always interesting and usually educative. Here is a simple experiment which any child can perform and which is instructive in a very practical way: Get a bit of White Lead about the size of a pea, a piece of charcoal, a common candle in a candlestick, and a blow-pipe. Scoop out a little hollow in the charcoal to hold the White Lead, then light the candle, take the charcoal and lead in one hand and the blow-pipe in the other, with the large end of the blow-pipe between the lips; blow the flame of the candle steadily against the bit of White Lead on the charcoal and if the White Lead is pure it will presently resolve itself into little shining globules of metallic lead, under the intense heat of the blow-pipe, leaving no residue.

If, however, the White Lead is adulterated in the slightest degree, it will not wholly change into lead. So, it will be seen, that this experiment is not only an entertaining chemical demonstration, but also of practical use in the home. White Lead is the most important ingredient of paint. It should be bought pure and unadulterated and mixed with pure linseed oil. That is the best paint. The above easy experiment enables anyone to know whether the paint is the kind which will wear or not.

The National Lead Company guarantee that white lead taken from a package bearing their "Dutch Boy Painter" trade-mark will prove absolutely pure under the blow-pipe test; and to encourage people to make the test and prove the purity of paint before using it, they will send free a blow-pipe and a valuable booklet on paint to anyone writing them asking for Test Equipment. Address National Lead Company, Woodbridge Building, New York City.

PRESCRIBED CUTICURA

After Other Treatment Failed—Raw Eczema on Baby's Face Had Lasted Three Months—At Last Doctor Found Cure.

"Our baby boy broke out with eczema on his face when one month old. One place on the side of his face the size of a nickel was raw like beefsteak for three months, and he would cry out when I bathed the parts that were sore and broken out. I gave him three months' treatment from a good doctor, but at the end of that time the child was no better. Then my doctor recommended Cuticura. After using a cake of Cuticura Soap, a third of a box of Cuticura Ointment, and half a bottle of Cuticura Resolvent he was well and his face was as smooth as any baby's. He is now two years and a half old and no eczema has reappeared. Mrs. M. L. Harris, Alton, Kan., May 14 and June 12, 1907."

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

The Iowa Gate for the farm

(Hog tight, sheep tight, chicken tight)

Iowa gates can be hung close to the ground but will never drag because the outer end is adjustable. Hog tight mesh and stretches on every wire. Gate fastened at both the top and bottom, plain strong hinges, no wearing parts. The rolled steel tubing used in the frame instead of gas pipe makes them proof against any stock. A chain is only as strong as its weakest link. Why not use Iowa gate to match your good fences. You will find them strong but easy to handle—convenient in winter and summer—will swing up hill or down hill as you wish. Cheaper than wood. Write now for our low prices and a dozen reasons why every farm should have them.

Waste of Life in Coal Mining.

During the year 1906 nearly 7,000 men were killed or injured in the coal mines of the United States, and indications point to an increase in that number since that period, due to a lack of proper and enforceable mine regulations; to the lack of reliable information concerning explosives used in mining, and the conditions under which they can be used with safety; to the presence of gas and dust encountered in the mines and to the fact that in the development of coal mining not only is the number of coal miners increasing, but many areas from which coal is being taken are either deeper or farther from the entrance, where good ventilation is more difficult and the dangerous accumulations of explosive gas are more frequent. To remedy this state of affairs, says Review of Reviews, the United States must adopt the means that have proved successful in European countries. In 1895 our ratio of killed in every 1,000 employed in mines was 2.67. In 1906 it reached 3.40. Effective mining legislation tells a different tale in Europe. In this country 50 per cent. of all the fatal accidents and 39 per cent. of all the nonfatal accidents were due to falls of roofs and coal. In all European coal-producing countries the use of excessive charges of explosives is prohibited by law, and definite limits are set to the amount of any explosive that may be used. In the United States there is no limit. In this country during 1906 11 per cent. of deaths in coal mines were due to gas and dust explosions. Abroad, governmental testing stations are maintained, where investigations into the use of explosives are conducted.

Be Careful of Your Eyes.

Rest is essential in the treatment of diseased or overworked eyes—rest of eyes, rest of body and mind. Avoid also wind, dust and smoke. Personal habits enter into the question of the causation of eye disease, and their regulation becomes, therefore, a part of the hygienic treatment. Diet is important, chiefly through its effects upon indigestion and general health, which frequently have much to do with the condition of the eye. The first offense against the eyes is reading with a poor light. This requires the ciliary muscle to do extra work to sharpen sight. It applies to dim lights, twilight, and sitting too far from the light. The second offense, says the New York Weekly, is one of posture. Stooping or lying down congests the eye, besides requiring unnatural work of the eye muscles. Reading in railroad trains is a third offense, the motion causing such frequent changes of focus and position as to tax the muscles of accommodation as well as the muscles of fixation. Reading without needed glasses, or with badly fitted ones, is the last imprudence. Eye-strain is certainly a factor in producing disease of every part of the eye. Old age is the time of retribution for those who have sinned against their eyes. Young folk, take good care of your eyes, and when you are old you will reap a rich reward by retaining good eyesight till late in life.

The forthcoming trip by Mrs. Roosevelt and a party of her friends up the Mississippi from the gulf to St. Paul is evidently a direct result of the president's journey down the river when on his way to the Louisiana bear hunt. He expressed himself publicly at the time as enjoying the experience, and no doubt went home and talked enthusiastically about it. The tour planned is well worth taking, remarks the Indianapolis Star, and when it is ended the travelers will know many new things about their country. River travel has many attractions for people who wish an outing and are not afflicted with the mad American haste to "get somewhere."

The report by the Illinois Pupils' Reading Circle that, during the year 1907 22,739 books were distributed among the school children of the state may well encourage the formation of circulating libraries in every populous school district in other states. For adults, as well as for the children, the good literature thus provided greatly relieves the tedium of the long winter evenings and cultivates a taste for reading that is altogether beneficial. In the rural districts there are already many such libraries, but not enough of them, says the St. Louis Republic.

GOTCH IS CHAMPION

IOWA FARMER IS CHAMPION WRESTLER OF THE WORLD.

HACKENSCHMIDT IS QUITTER

Hackenschmidt Finds Roughness of the Champion Heartbreaking and Gives Up Contest.

Dexter Park Pavilion, Chicago, April 4.—Frank Gotch, American champion wrestler, became shortly after midnight this morning, champion of the world in addition to his former title. After the most remarkable dsplay of endurance and skill in history he caught George Hackenschmidt, the Russian Lion, in what is known as a flying fall, and when the Russian arose he gave up the match.

In addition to the title, Gotch takes down $10,000 and numerous side bets. The match was witnessed by a record crowd. It was held at the Stock Yards pavilion because of the exceptional facilities and high prices were paid for admission. For two hours both men tried every trick for which each was famous. Both displayed the utmost respect for the prowess of the other and for eighty minutes the contest was a series of futile grappling, ducking and skillful dodging. At the expiration of that time they finally went to the mat in the first real clinch of the bout.

Gotch immediately secured his famous toe hold, but Hackenschmidt quickly broke it. Hack in turn tried his equally famous head grappe, but Gotch shook him off. Once Gotch lifted his burly opponent clear off the mat and rushing to the side of the arena threw the Russian with great force, but Hack quickly turned over, avoiding a fall. Hack was up quickly and rushed Gotch around the ring, but the Iowan turned and pursued the Russian, finally getting the grip which permitted the flying fall. When the ponderous Russian struck the mat squarely upon his back, he shook the pavilion with the force of his fall. He was no longer the Russian Lion when he arose, but a meek and defeated champion.

After more than two hours of unavailing tugging and desperate scrambling the Russian said to Gotch:

"I'll give you the match."

Referee Ed Smith at once declared Gotch the winner.

The end came so unexpectedly that the great crowd of 8,000 which witnessed the contest could scarcely comprehend what had happened. Not until the referee had announced that Hackenschmidt had surrendered the championship of the world to Frank Gotch did the full significance of the event strike home. Then the excited men swarmed into the ring, surging about Gotch until the police came to his rescue and drove the crowd back through the ropes.

The match was in some respects sensational, but it served mainly to show that Gotch has a defensive system which no one can break down. For an hour and forty-five minutes he eluded every attempt of the Russian Lion to fasten a grip on him. Gotch side stepped, roughed his man's features with his knuckles, butted him under the chin, and generally worried him until the foreigner was totally at a loss to proceed.

But when in the clinch that finally came Gotch slammed his opponent to the mat and came within an ace of securing a firm toe hold, following this by lifting Hack clear off the mat and slamming him on his shoulders with terrific force, the European exponent was heartbroken. The lines slowly deepened on his face, the hoots and gibes of the crowd hurt his feelings and after considering the matter for a few seconds, he decided that it was time to quit. Few of the spectators but were willing to give Gotch the palm. The Iowa farmer was in the better condition, was quicker and trickier and showed the knowledge of the game.

Hackenschmidt kept his feet well away from Gotch's fingers. Hackenschmidt struggled free, but Gotch caught him for a flying fall which he could not hold. They were near the grip on Hackenschmidt's leg and tugging desperately at the Russian, when he cried "Oh".

Then came the sensational end depicted above.

POPULISTS NAME WATSON.

St. Louis, Mo., Apri 4.—Thomas A. Watson of Georgia and Samuel W Williams were nominated for president and vice president, respectively. After adopting a platform, the populist national convention adjourned sine die.

Nebraska and Minnesota delegations bolted the convention upon the nomination of Watson.

Immediately following the adoption of a platform a call was made for nominations for president of the United States. As soon as the chairman announced that nominations were in order, J. B. Jones of Nebraska moved that the convention do not proceed to make nominations. Bedlam was instantly loosed in the convention, the Watson men shouting "No," "No" at the top of their voices Jones mounted the platform, but for a time was not given a chance to speak. He refused to yield, however and Chairman Honnecker finally restored a semblance of order, and Jones demanded that nominations be put off until July 16.

This the convention declined to do

ALFRED VANDERBILT IS SUED

WIFE BEGINS AN ACTION FOR DIVORCE OR SEPARATION.

Papers Filed Just After the Multimillionaire Sails and Nature of Suit Is Not Revealed.

New York.—Within an hour after he had sailed for Europe Wednesday, Alfred Gwynne Vanderbilt was made the defendant in a suit filed with the supreme court by his wife, Ellen French Vanderbilt. The nature of the action was not immediately disclosed and counsel for the plaintiff refused to say whether Mrs. Vanderbilt seeks a divorce or legal separation from her husband.

Justice O'Gorman, before whom the proceedings were instituted, appointed David McClure, a local attorney, as referee to hear testimony and to report findings and recommendations to the court.

Mrs. Vanderbilt was Ellen French, daughter of the late Francis Ormond French, president of the Manhattan Trust company and director of many railroads. Her mother has been abroad for several years but is returning for the wedding of her granddaughter, Miss Pauline Leroy French, and Samuel Wagstaff, to take place at Newport on May 5. Ellen, or as she was more generally known, Elsie, French was married to Alfred Vanderbilt on January 11, 1901. A year later their only child, William Henry, was born.

Mr. Vanderbilt, as the second son of the late Cornelius Vanderbilt, inherited something like $60,000,000. He has been regarded as the head of the family since the estrangement which followed the marriage of Cornelius, the eldest son, to Miss Grace Wilson.

The domestic affairs of Mr. and Mrs. Vanderbilt have engaged public attention since March 24, when Mrs. Vanderbilt, accompanied by their son and maids, left Oakland Farm, near Newport, R. I., and went to the home of her brother, Amos Tuck French, at Tuxedo Park, this state. Much of the furnishings at the Newport home have been shipped to Tuxedo Park.

WEALTHY FARMER MURDERED.

Two Farm Hands Held for Crime in North Dakota.

Minot, N. D.—Gus Johnson, a wealthy farmer who lived five miles south of Kenmare, has been murdered and R. S. Noah and "Patsy" Coyle are in jail charged with the crime. Recently Johnson employed Noah to work for him and in a few days the latter reported in Kenmare that Johnson had gone to Sweden and had left him and Coyle, who proved to be an ex-convict, to run his farm in his absence. They commenced to sell grain and stock from the farm, and neighbors, becoming suspicious, made a search and found the dead body of Johnson, bearing unmistakable evidences of violence, in the cellar, where it had been pitched through a trap door.

$10,000 for Would-Be Assassin.

Telluride, Col. — Rewards offered for the capture of the person or persons who dynamited Gen. Bulkeley Wells in an effort to kill him, aggregate $10,000. Sheriff Fitzpatrick said Monday that sufficient evidence to warrant arrests had not yet been obtained. Henry Anker, a waiter, arrested for using incendiary language, has been found to have had no connection with the crime.

SEVERAL PERISH IN FLOODS.

Rivers in Virginia and West Virginia on the Rampage.

Elkhorn, W. Va.—The greatest flood ever recorded in the history of the Tug river and Elkhorn valleys, with the exception of that caused by the cloudburst of seven years ago, when a hundred lives were lost, now prevails. In 36 hours the rainfall registered three inches and the Elkhorn Tug, Bluestone and other streams in Virginia and West Virginia are out of their banks.

Wednesday night along the Elkhorn many hundreds of families were camping along the mountain sides, their homes being inundated. Three lives were reported lost at North Fork, W. Va., and two at Keystone, W. Va. Bridges are washed away along the Norfolk & Western railroad and traffic has been suspended.

CHAPTER XVI.—Continued.

As he gallops from the little hamlet, me cyclamen branches greet him, he ges on his steed.

And what a ride it is, under the eat trees of La Castagniccia, where estnuts big as eggs drop upon him, e giant chestnuts that fed Paoli's triot army, the bread of Corsica, ch dozen trees being a peasant maid- 's marriage dower.

But though the woods are all chest- ts, Edwin still sees in his road cycla- en branches, slightly withered now, eir fragrance fading, and hope ows higher in his heart.

So he rides along the parklike vales La Castagniccia, and before him is e green of the great Bavella forest ding away down the hillsides toward e distant and still unseen Tuscan a.

Here Edwin checks his horse, rings off and picks up a cylamen anch, and as he rides along, looking the flowers, suddenly ejaculates: Jove, how fresh their perfume and lucked two days since."

But the lately cut flowers give no arning to the sailor; he is too eager ow. Pausing at the little village of ietra, Edwin steps into the inn to ask me questions and hears news that akes him frenzied.

The landlord, delighted at his lib- al hand, tells him to avoid the com- unal where the voting is going on. 'The Lucchese' have got full of wine nd are having a riot in that direction. They are perfect devils, these fellows rom Lucca over across the sea that Danella imported to work upon his states here."

"Count Cipriano Danella has estates ere?" asks Edwin excitedly.

"Yes, now it is Cipriano. Down to- ard Cervione, where the cliffs run nto the sea, the only place where it is ot sickly and they have no lagoons. You can know it by the Genoese watch ower that was in ruins, but the count ome years ago had repaired and made habitable."

"It's curious I never heard anyone mention Cipriano's properties here," mutters the sailor.

"Oh, possibly not. Till a fortnight since, they belonged to Musso Danella, the dead one, but Count Cipriano has now taken possession of them."

"He is there?"

"Why, I think so. A boy who came up the pass yesterday said the new count had come there in a vessel."

"He is there at present?"

"Quite sure!" laughs the man. "Cipriano himself rode through here yesterday escorting a lady with some of his followers."

"Aha, in a carriage driven by an old Corsican?"

"She was in a carriage, but was not driven by an old Corsican; a boy whipped the horses."

"She was young and beautiful?"

"My eyes are old, I could not see well, Signore. The carriage came rapidly past me, three or four riding about it. The lady looked as if she would say some words; she rose almost as if to spring out, but something in the carriage seemed to check her, and they whipped up the horses. Oh, Signore, how terrible you look!"

"The quickest way to Cipriano's estates?" asked Anstruther hoarsely.

"Down the road there, through the forest, over two ranges of hills and his land begins. But be careful how you go that way; the 'Lucchese' are just beyond the village. Hear them? They are rioting now," as Neapolitan outcries and Tuscan exercrations and oaths and the rattle of stones are heard further to the east. "Best take a by-path."

Edwin takes the road pointed out to him; he wishes no delay with these Italian workmen, whom, imported in great numbers into the island, the Corsicans would probably butcher to a man did not their natural laziness make them prefer to let the "Lucchese" live and work for them.

But the by-path doesn't rid him entirely of the "Lucchese." Just after he has left the village he finds himself confronted by some hundred Italian workmen, who threateningly demand drink money, and unfortunately noting the cyclamen flower in the sailor's hand, the red being the color of the candidate they do not favor, they rush at him with upraised pitchforks and scythes.

But the lieutenant, remembering Napoleon's recipe for mobs, pulls out his pistol. Dodging one volley of stones, some of which come dangerously near to him, he dashes on, and there are two wounded "Lucchese" as he rides away—and three empty cylinders in his revolver.

Here a broken cyclamen branch makes him forget all else, and riding hurriedly, after some hours of mountain vistas, he reaches a little hill and gazes at a view which causes him for one moment to pause. The dark emerald of the woods descending quite rapidly, reaches the paler emerald of the sunlit Tuscan sea.

Few sails are on the quiet waters of the tropic sea, though a sailing fisher craft of some burden is anchored off the shore.

But what holds most strongly the hungry eye of Edwin Anstruther is the foreground of this wondrous picture.

Running into the gentle waves about half a mile from him is a cliff, topped by a fairy green of foliage; upon it stands a ruined turret. Its time-stained stones indicate it had been a watch tower of the Genoese in olden days and that from its top centuries ago had flamed beacons warning the fleeing people that the galleys of Barbary pirates were ravaging these shores. The mass of ruined masonry rising above the foliage has been now apparently repaired. The Englishman sees the sheen of glass in some of the little loop-holed windows. Beside it on the same cliff some 50 yards away is a comfortable Corsican farmhouse, increased by a long modern addition whose windows are large and whose portico is spacious. Of a sudden he thinks he sees a white hand waving some piece of woman's lingerie from the tower, and gallops down the road, careless of all except that it may be his wife. Though it is nearly dusk, the cyclamen flowers still greet him with their perfume. He rides across a little bridge that spans a chasm awful in its depth through which the sea rushes. It is light enough to see very indistinctly, and he finds himself on a lawn planted with ilex, citron and orange trees. On one side is the farmhouse; on the other the lone Genoese tower.

There Are Two Wounded "Lucchese" as He Rides Away.

Some broken branches of cyclamen flowers lead him toward the turret. A light is now streaming from its upper story. Riding his horse to the low-arched masonry that is the entrance to the lower story, he springs off to alight upon cyclamen blooms. The odor of the flowers issues from the building itself.

The heavy oaken doors of the entrance are open invitingly, but he scares notices them. There is only one thought in his heart: "Is my wife upstairs?"

With his revolver ready in his hand, he dashes rapidly up the circular stone stairway, upon which open little loopholes. After nightfall, these give him no light. But the illumination of a lamp or candle comes down the stairway as he passes higher up. He calls: "Marina, are you there?" and enters the chamber at the top of the tower.

It is lighted by a lamp and fitted up for occupancy. There is a little bed in it, some old chairs and an oaken table. Upon the bed are a bunch of cyclamen flowers and articles of woman's apparel. He flies to examine them. They are not those of his wife.

Upon the table is an envelope addressed:

"Lieut. Edwin Gerard Anstruther."

Its contents, written in the same hand as that of Marina's letter, makes the young man's eyes roll in his head:

Mon Cher Anstruther:

I have been watching your coming, over the hills, following the cyclamen flowers the charming Marina so astutely dropped into the path to bring you here—and am prepared for your visit.

I thought you would be attracted to the light in this chamber when all else was dark.

As you read this you are already trapped.

Do you think I will spare anyone who brought about my brother's death? Ask Tomasso, who is already gone.

Do you imagine, English lieutenant, who call yourself husband to the woman I have decreed shall be mine, that you shall be scathless—

The sharp clang of the doors below makes Edwin drop the letter and spring like a topman down the stairs.

Though he is quick, somebody is quicker. The strong doors are closed. As he reaches the lower step, he hears steel bars falling into their sockets outside. From without a jeering laugh makes him know this has been planned. This is confirmed by the creaky turning of a great key.

"Unlock this door!" he commands in quarterdeck tones.

Without a word Anstruther discharges his revolver into the lock of the door. He has exhausted his three remaining cartridges, when the impingement of the bullets shows that the lock is protected by steel and his attempts abortive.

He is interrupted by loud cries of terror from almost beneath his feet: "Hang it, quit that shooting! Do you want to blow us up? I saw that scar-faced chap shove sticks of nitroglycerin all around in the crevices. This tower's mined, and that scoundrel has got a fuse or electric wire running to it."

His own language with a Yankee twang coming from below startles Edwin. He has some matches in his pocket; strikes one, looks round and sees a trap door in the flooring almost beneath his feet. He pulls it up and peers down. His eyes glare into those of another man gazing up from an underground vault. Holding the match so that he can see the face he gasps: "Great guns, Emory! I thought you dead!"

"I'm almost dead," growls the detective, Edwin, almost stunned by surprise, gazing at him petrified. "By the living Jingo, where's Barnes? I guessed some of you'd find me out," adds the Pinkerton man in relieved voice. "I reckoned you'd rescue a chap who's been risking his life and getting a good deal the worst of it in your employ."

"I came to find my wife," cries Edwin shortly. "Have you seen her?"

"Oh, there's a lady, I think, in the house."

"In the house? And they have cooped me up in this tower." Anstruther frantically assaults the door again.

"Oh, I reckoned they'd be doing something underhand to you," calls Emory. "Come down and help me out first."

"Why don't you come up? There's a ladder."

"I can't. Dash it, they've got leg irons on me. They feed me on soup and bread and don't even leave a spoon with me to dig out. I was seized and smuggled from St. Tropez in that fishing craft that followed your yacht just the moment I had it fixed so I'd hear their plans. They're crafty as snakes."

"A Pinkerton man like you captured in this disgraceful way!" says Anstruther sternly. For he thinks had Emory kept his eyes open and done his duty, Enid would have escaped abduction and the rest never have come to pass.

(TO BE CONTINUED.)

Easy Entertaining.

One woman who does her own work and yet likes to entertain a good deal has brought order out of chaos and made the work lighter for herself by limiting her dinner to three hot dishes. She serves first iced cantaloupe, grape fruit or oysters, according to the season; then meat, potatoes and one vegetable. Salad and dessert are prepared beforehand, and so is the coffee. She serves all but the three hot dishes—which, of course must be brought from the kitchen—from a small serving table at her side, which has two shelves beneath it and an outstanding bracket shelf for the clean and used dishes. The coffee, in a French coffee pot, stands on one of the brackets of the serving table and boils merrily until required.

A Lover of Mankind.

A good man is friendly to his fellow creatures and a lover of mankind; and so will, upon every occasion, and often without any, say all the good he can of everybody; but, so far as he is a good man, will never be disposed to speak evil of any, unless there be some other reason for it besides barely that it is true. If he be charged with having given an ill character he will scarce think it a sufficient justification of himself to say that it was a true one, unless he can also give some further account how he came to do so; a just indignation against particular instances of villainy, where they are great and scandalous; or to prevent an innocent man from being deceived and betrayed, when he has great trust and confidence in one who does not deserve it.—Joseph Butler.

A SURGICAL OPERATION

If there is any one thing that a woman dreads more than another it is a surgical operation.

We can state without fear of a contradiction that there are hundreds, yes, thousands, of operations performed upon women in our hospitals which are entirely unnecessary and many have been avoided by

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

For proof of this statement read the following letters.

Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham:

"For eight years I suffered from the most severe form of female troubles and was told that an operation was my only hope of recovery. I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

Mrs. Arthur R. House, of Church Road, Moorestown. N. J., writes:

"I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles, and last March my physician decided that an operation was necessary. My husband objected, and urged me to try Lydia E. Pinkham's Vegetable Compound, and to-day I am well and strong."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, and backache.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Do You Want to MAKE MONEY?

Of course you do. If you are not at present employed **write me.** If you are anxious to make more money than you are making at present, **write me.** I have helped others to make money and there is no reason why I cannot help you. I want a good salesman in your county to call on every intelligent citizen, and I have a plan of selling that will enable you to make money. Jay Gould made his first $5,000 selling atlases in New York state, and, while I never expect to be as rich as he was, I have made more money in the atlas business than I have in anything else. I am going to put out a new World's Atlas with large scale double paged maps that is worth any man's $5 and sell it at $2.95. The opportunity to make a fortune is here presented to you. Alfred Knoll Drowned.

Last week Friday afternoon Alfred Knoll who lives northeast of Kanawha was hunting ducks on west Twin Lakes and was drowed. The way the incident occured as it was reported to us was that he went onto the lake in a shallow boat and shot at ducks and fell overboard. He then swam towards the shore but concluded that he could reach the boat sooner and swam back, took hold of the boat and turned the boat on top of him. A farmer on shore seen the accident and made the alarm. Help was soon secured and the lake was dragged for his body, but was not found until Monday evening at 7 o'clock. He was about 22 years of age and leaves his parents and brothers to mourn him.

To Thomas Duff, County Auditor.

Under the new Primary Law it is necessary that candidates for Township officers such as Justice of the Peace, constables, Township Trustees, Township Clerks, and Assessors should file with the County Auditor their affidavits as required by the law in order that their names may be printed on the ballot for the primary election.

It is possible that candidates for such offices will not ask that their names be placed on the ballot nor take pains to file the proper affidavits.

I would suggest that the committeeman for each precinct or townsphip should look after these matters and obtain from the County Auditor, free of expense, the necessary blanks for making the affidavits and see that they are promperly filled and signed and filed with the Auditor.

I would also call the attention of the committeemen to the fact that they are required to certify to the Auditor the number of delegates each township or precinct is entitled to at the county convention to be held after the primary in order that the blanks may be left on the ballot and also call their attention to the fact that unless they do so certify the number of delegates the Auditor must make an apportioment of such delegates.

If the committeemen from each township of the various parties will give the foregoing matters attention in time so that the foregoing may be properly attended to at least thirty days before June 2nd, 1908, it will save much trouble and possible leaving blank places on the ballots which are not contemplated by the law, and I would suggest that you give these matters as much publicity as early as convenient.

W. H Ramsay, County Attorney.

The announcement comes from Mason City that A. H. Gale the present state senator of this district will not be a candidate again but that J. H. Stevens of Mason City will be a candidate in his place. Mr. Stevens has been a resident of Mason City the past 25 years and has been engaged in the shoe business there. He is very highly spoken of for the office he aspires. Recognizing his worth of ability and integrity the people of Mason City in 1889 unanimously elected him to the position of Mayor and was re-elected serving until 1891. His announcement card appears in this issue.

That languid, lifeless feeling that comes with spring and early summer can be quick changed to a feeling of buoyance and energ by the judicious use of Dr. Shoop's Restorative. Last week Saturday a certain family purchased a dozen of eggs from one of our grocery stores and on Sunday morning expected to cook some of them for breakfast but found them to be all spoiled. It was proven later that they were incubator eggs. Every one should remember that we have now a Pure Food Law and that there is a heavy penalty if caught disposing of such eggs. If you are not sure ot your eggs being fresh, candle them before taking them to your merchants as the merchant will candle them also. The merchant is liable to a fine if he disposes of such eggs and also has the privilege of fining his customers for selling them to him according to law. Please bear this in mind.

NEIGHBORHOOD FAVORITE.

Mrs E D Charles of Harbor, Maine, speaking of electric bitters says It is a neighborhood favorite here with us. It deserves to be a favorite everywhere. It gives quick relief in dyspepsia liver complaint kidney derangement malnutritiod nerviousness weakness and general debility. Its action on the blood as a through purifier makes it especialy useful as a spring medicine. This grand alterative tonic is sold under guarantee at J L Harr & Co drug store.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

"Ginger Magonnigle had brought his best guyl to the grand civic ball of the East Side Gentlemen's Sons Terpsichorean Coterie, ticket admitting lady and gent, including hat check, 50 cents. The guyl, fascinated by a better waltzer, abandoned her escort and danced three times with the stranger. As they were beginning their fourth waltz they were stopped by the hand of Ginger Magonnigle, which clutched the arm of the guyl. Gazing deep into her eyes, and with a voice in which were mingled surprise, self-pity, reproach, resentment and menace, he exclaimed:

WOMAN FATALLY BURNED.

Awful Experience of Wife of Des Moines Traveling Man.

Des Moines.—Mrs. N. S. Wales, wife of a prominent traveling man, was fatally burned while alone in her home, 1814 Ninth street. Seated in front of a grate fire, Mrs. Wales was engaged shortly before 10 o'clock in cutting clippings from a newspaper, when one of the strips of paper fell forward into the grate, was ignited, and before Mrs. Wales could arise, had set fire to her clothing.

Practically the whole of Mrs. Wales' body is a mass of seared flesh. Physicias in attendance say she can live but a few hours. After her blazing clothing had been extinguished by several men who came to her rescue, Mrs. Wales was removed to the J. Fickel home, 1810 Ninth street, where she now is, hovering between life and death.

When the first horrible realization of her plight was impressed upon her senses, Mrs. Wales rushed to the kitchen of her home, where, alone and unassisted, she attempted to quench the flames at the sink. She was unsuccessful. Then the woman rushed creaming to the front porch, a human torch. A Ninth street car had just left the end of the line and had started downtown. The motorman saw the awful sight, then as rapidly as possible stopped his car.

Reinforced by a half dozen passengers, the motorman leaped from his car and went to the woman's assistance. In a few moment they succeeded in quenching the flames which by this time were dying down. Mrs. Wales lay prostrate on the porch. As quickly as possible she was removed to the Fickel home and physicians summoned. They made her as comfortable as possible, but none of them expressed the belief that she would recover.

VICTIM OF FEUD IS DEAD.

Long Standing Quarrel Between Mason City Men Ends Fatally.

Mason City.—After lingering for two days, George Stevens, who was shot by F. H. McDonnell, timekeeper at the Northwestern States cement plant, died of infection from the wounds. An operation was performed hoping to remove the bullets and remedy the damage done, but that could not be accomplished.

The trouble between the two men has been of long standing. It began last fall and then resulted in the discharge of Stevens from the employ of the company. This feud was kept up until a week ago Stevens assaulted McDonnell, and was arrested and fined. After this each kept agitating the difficulty. Sunday, J. H. Martin landlord at the Plant hotel, and McDonnell got into some dispute over board money which was taken up by Stevens, and, after some high words, Stevens followed McDonnell upstairs where the shooting occurred. McDonnell is in jail under a $2,000 bond.

LAND CASES ARE DECIDED.

Title to Many Farms in Northwest Iowa Are Settled.

Dubuque.—Judge Reed, in federal court, decided cases involving fifteen suits, all based on an act of congress of May 12, 1864, making grants of lands to aid in the construction of railroads in the west.

Over 400,000 acres of land were offered the Chicago, Milwaukee & St. Paul Railway company under certain conditions. The Milwaukee built sufficient road to acquire without question 300,000 acres of this, but failed to connect Sioux City with the Minnesota state line. But it assumed that it had complied, and it disposed of the other 100,000 acres to homesteaders, who took possession. The titles to this 100,000 acres were in conflict in the cases Judge Reed decided, he holding that those settlers having priority of residence are entitled to hold the property. The land is all located in northwestern Iowa.

Black Hand Mystery Cleared.

Chatsworth.—The black hand mystery of Chatsworth has been solved. The guilt is fastened on George Heinrich aged 18 years.

Frank Wakeman, a wealthy grain merchant, found a note under his door latch addressed to him. On opening it he learned that if he did not deposit $10,000 at a certain place in the railroad yard and maintain absolute silence, he, his family and all his property would be destroyed.

Wakeman identified the writing as exactly like indorsements written on checks by young Heinrichs. After sweating processes the authorities secured a confession of guilt. He was held for trial.

Treasurer Of Afton 33 Years.

Afton.—Theodore Shunk holds the Iowa record for continuous office-holding, having served 33 years as city treasurer, 27 of which have been continuous. He was first nominated in 1871.

MUST PAY HEAVY PENALTY.

Council Bluffs Liquor Dealers Fined $1,000 Each.

Council Bluffs.—H. A. Larsen and Martin Jensen, proprietors of the Manhattan saloon, were fined $1,000 each by Judge O. D. Wheeler for contempt of court in violating an injunction against their place of business. No defense was offered by either Larsen or Jensen.

After imposing the fines, Judge Wheeler committed the defendants to the custody of the sheriff until the fines and costs should be paid, which was done late in the day. The fine and costs amounted to $2,130.

When the judge announced the amount of the fine loud applause broke out among the members of the Woman's Christian Temperance union who were in the body of the court room, which the judge stopped by hammering upon his desk.

"That is almost as grave a violation as the other," said Judge Wheeler, turning to the women.

"Such a thing has never happened in my court before and I hope it will never occur again. That is a very grave offense you have committed. The court does not want such expressions. He does not need it."

The evidence against the men was secured by members of the Ministerial association last election day. The Manhattan has been notorious for its alleged violations of the law.

WHITE MAY LEAD DEMOCRATS.

Weaver and Dennison Said to Have Agreed to Withdraw.

Des Moines.—The gathering of the prominent democrats of Iowa in Des Moines because of the visit of W. J. Bryan of Nebraska in the city resulted in a political conference which ended in an agreement between General J. B. Weaver of Colfax and Hon. John Dennison, Jr., of Dubuque, both tacitly candidates for the democratic nomination for governor, to withdraw and leave a clear field for Fred White of Webster. Mr. White was called up on the long distance telephone and was urged by both Weaver and Dennison to enter the race and join every interest of the party. He has thus far refused to become a candidate, but will withhold his decision until later.

The announcement of Weaver for governor aroused the ire of the democrats in the river counties, the stronghold of the party in Iowa. Dennison is a choice of the German element, yet the fight would be drawn along prohibition lines, which would, it is feared, cause a division of the party. White is acceptable to both elements.

It developed as well that the names of Claude R. Porter of Centerville and Jerry Sullivan of Des Moines would go on the primary ticket for senator. The contest will be a purely friendly one and will not be marked by any campaign of serious proportions.

CHARITON HAS $30,000 FIRE.

Its Business District Suffers a Heavy Loss.

Chariton.—Chariton was visited by a $30,000 fire early on the 4th. At 2 o'clock a. m. fire was discovered in the rear of the building occupied by George Scott & Son's meat market. It had already made considerable headway, having spread to the upper stories of the two buildings on the west. The fire department worked heroically and soon had the flames under control, but not before a great amount of damage was done to the buildings and to the contents. The Hollingson & Larimer building, where the fire originated, suffered the greatest damage, the loss amounting to about $6,000, covered by insurance. It was occupied by Scott's meat market, the loss on which amounts to between $1,500 and $2,000, with insurance of only $1,300. In the upstairs rooms some household goods belonging to Mrs. Mary Gorman, who is now in Colorado, were stored, and they were completely destroyed. Her loss is covered by insurance.

Child Falls Into Cistern.

Boone.—Nearly dead from a long bath in the ice cold waters of a cistern, the one-year-old infant of Mr. and Mrs. Joe Martindall, and her crippled sister, were rescued by the frenzied mother and a band of neighbors recently. The child was missed by the mother and was only discovered after several minutes search. It had fallen in such a manner that its mouth was above the water. A deformed sister was lowered into the cistern and held the infant up till help arrived.

$2,106.80 for Wife's Death.

Logan.—A verdict for $2,106.80 was returned by the jury in the Leo Chapman suit against the Pisgah department store as a result of the burning of his wife and three children about one year ago. Chapman purchased a gallon of oil for use in a coal oil lamp. An explosion occurred. The oil was found to contain 21 per cent gasoline. A former verdict of $2,000 was held exorbitant and a new trial granted.

HIS WHEAT WENT 22 BUSHELS TO THE ACRE.

HE REALIZED $18 PER ACRE FROM IT, WHILE OATS GAVE HIM $17 AN ACRE.

Moose Jaw, Sask., Nov. 18th, 1907. Writing from Moose Jaw, Saskatchewan, Mr. S. K. Rathwall says:

"I have much pleasure in saying that on my farm this year I had 500 acres in wheat, and 120 acres in oats. My wheat averaged about 22 bushels per acre, and I had 200 acres cut before the frost, which I sold at 85 cents per bushel, thus realizing on that wheat $18.00 per acre, not counting cost of twine, seed and labor. With regard to the other 300 acres of wheat, it got touched with frost but is worth 60 cents per bushel. It will net me $13.00 per acre, but I do not intend to sell it at that price, as I can make more money by feeding it to hogs.

"My oats turned out about 50 bushels to the acre, and at 35 cents per bushel will give me $17.00 to the acre, not counting seed, twine and labor.

"On account of the late spring, a percentage of the grain was touched with frost, but on account of good prices, farmers will realize a fair profit on their farms even this year. We are as usual up against a shortage of cars to get our grain removed."

PROBABLY HE WAS.

Doctor—Can't you put your tongue out a little further, Mrs. Mugg?

Mrs. Mugg—Are you one of those people, doctor, who believe that there is no end to a woman's tongue?

A Stayer.

"Mildred," said the prudent mamma, "I want you to treat Mr. Ketchley, who called on you last evening, with some consideration and respect. He may not be particularly handsome or attractive, but he is sensible, well connected, highly successful in business, and is regarded as one of the coming men."

"I wouldn't mind his being one of the coming men," said Miss Mildred "if it didn't take him so long to go.

When It Came to Raising.

"I hope, now that you've become a young wife," said the enthusiastic anti-race suicide lady, to the newly-wedded country girl, "you'll make good use of your blessing and raise many children.

"Wall," spoke up the rural husband, who had overheard this utterance and deemed it akin to interference, "a deal o' her time outside th' kitchen'll be put t' raisin' vegetables!"—Illustrated Sunday Magazine.

THEY GROW.

Good Humor and Cheerfulness from Right Food.

Cheerfulness is like sunlight. It dispels the clouds from the mind as sunlight chases away the shadows of night.

The good humored man can pick up and carry off a load that the man with a grouch wouldn't attempt to lift.

Anything that interferes with good health is apt to keep cheerfulness and good humor in the background. A Washington lady found that letting coffee alone made things bright for her. She writes:

"Four years ago I was practically given up by my doctor and was not expected to live long. My nervous system was in a bad condition.

"But I was young and did not want to die so I began to look about for the cause of my chronic trouble. I used to have nervous spells which would exhaust me and after each spell it would take me days before I could sit up in a chair.

"I became convinced my trouble was caused by coffee. I decided to stop it and bought some Postum.

"The first cup, which I made according to directions, had a soothing effect on my nerves and I liked the taste. For a time I nearly lived on Postum and ate little food besides. I am today a healthy woman.

"My family and relatives wonder if I am the same person I was four years ago, when I could do no work on account of nervousness. Now I am doing my own housework, take care of two babies—one twenty, the other two months old. I am so busy that I hardly get time to write a letter, yet I do it all with the cheerfulness and good humor that comes from enjoying good health.

"I tell my friends it is to Postum I owe my life today."

RAISED FROM A SICK BED.

After Being an Invalid with Kidney Disorders for Many Years.

John Armstrong, Cloverport, Ky., says: "I was an invalid with kidney complaints for many years, and cannot tell what agony I endured from backache. My limbs were swollen to natural size and my sight was weakening. The kidney secretions were disordered and had a sediment. When I wished to eat my wife had to raise me up in bed. Physicians were unable to help me and I was going down fast when I began using Doan's Kidney Pills. After a short time I felt a great improvement and am now as strong and healthy as a man could be. I give Doan's Kidney Pills all the credit for it."

THE PART HE PREFERRED.

Subtle Meaning in Poet's Criticism of Decollete Costume.

Joaquin Miller, the poet of the Sierras, is something of a recluse and rarely comes into San Francisco, but when he does he is made a good deal of a lion. On his last visit he was one of the guests at a rather formal dinner at a friend's house where he stayed overnight. His hostess had known the poet since her childhood, so she felt priviliged, next morning, to discourse to him of the beauties of the Parisian gown she had worn the night before—beauties which seemed to have escaped his observation.

Mr. Miller listened to all that she had to say and remained silent.

"But didn't you really like the dress?" pleaded the lady.

"Well," replied the poet, "I did like part of it well enough."

The lady brightened.

"Indeed?" she said. "What part?"

"The part you had on," answered the poet; and that ended the discussion.—Lippincott's.

SKIN TROUBLES CURED.

First Had Itching Rash—Threatened Later With Blood-Poison in Leg—Relied on Cuticura Remedies.

"About twelve or fifteen years ago I had a breaking-out, and it itched and stung so badly that I could not have any peace because of it. The doctors did not help me. Then I used some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent and began to get better right away. They cured me and I have not been bothered with the itching since, to amount to anything. About two years ago I had la grippe and pneumonia which left me with a pain in my side. Treatment ran it into my leg, which then swelled and began to break out. The doctor was afraid it would turn to blood-poison. I used his medicine but it did no good, then I used the Cuticura Remedies three times and cured the breaking-out on my leg. J. D. Hennen, Milan, Mo., May 13, 1907."

BLIND MAN SWAYS THOUSANDS.

w Senator from Texas has Overcome a Stupendous Handicap.

A man totally blind would hardly
em adapted for modern political
e, yet one so afflicted has fought
rough three exciting campaigns, and
s just been elected United States
nator from Oklahoma. The blind-
ss of Thomas Pryor Gore was
used by two painful accidents. At
ght a boy playmate injured his left
e with a stone; three years later
himself shot a toy arrow into the
her.

When his father suggested his at-
nding a school for the blind, he de-
ared, "I will go to school here. A
hool for the blind will furnish
either the books nor the opportunity
seek." Events justified his choice,
ys the April Delineator; he gained
e highest honors there and at law
hool and college. At nineteen he
as nominee for the Legislature; at
enty-two populistic delegate-at-
rge in Mississippi, and was unani-
ously selected in 1900 as congres-
onal standard-bearer for the same
arty in Texas.

He owes his success to his power as
n orator. His memory is remarkable.
is recorded that at a meeting with
n opposition speaker—Senator
oney—Gore asked for a division of
me. Disregarding his youth and
indness, Money replied: "I will
eak as long as I please; you are at
berty to do the same."

For three hours he harangued,
hinking to exhaust Gore's patience
he latter patiently bided his time,
nd then for four hours more enter-
ained the howlingly appreciative
udience. Page after page of the
Congressional Record" he quoted
rom memory,—quotations that filled
is antagonist with rage, but stripped
im of every defense. Now Gore's
pponents realize that he is not a
an to be tampered with or ignored
His career in the Senate will be worth
atching.

KILLS IN COURTROOM

STARTLING TRAGEDY ENACTED IN TERRE HAUTE.

BULLETS FOLLOW VERDICT

Dynamiter, Found Guilty, Slays Detective, Shoots Others and Is Himself Badly Wounded by Police.

Terre Haute, Ind.—Found guilty of charge of arson, Henry F. McDonald, in the circuit courtroom Thursday shot and killed Detective William E. Dwyer, wounded other officers and was himself seriously wounded. The shooting followed the announcement of the verdict of the jury before which McDonald had been tried on a charge of dynamiting stores and a church in Sanford last year.

When the jury reported its verdict, McDonald jumped to his feet and drew a revolver. He fired at Prosecuting Attorney James A. Cooper, Jr., but missed. Mr. Cooper dodged and McDonald directed his fire at the officers seated around the table.

Is Shot Down by Officers.

Without an opportunity to defend himself, Detective Dwyer was shot down. Almost in an instant police officers and deputy sheriffs in the courtroom drew their revolvers and opened fire on McDonald. The convicted man fell with half a dozen bullets in his body.

Harvey V. Jones, superintendent of police, was shot in the side. Deputy Sheriff Ira Wellman sustained a wound in the chin. Sylvester Doyle, city court bailiff, was shot in the leg. Another shot struck a bystander.

The shooting was the climax of a sensational trial which has been bitterly contested. McDonald was known to be a "bad man," but he had been permitted his liberty during the trial. The police department has been active in the case and several officers were in the courtroom to hear the verdict.

Panic in Courtroom.

The jurors jumped to their feet at the first shot. Judge J. T. Walker, one of the attorneys, tried to stop McDonald, but his action only hindered the officers, who were afraid of hitting him when they shot at McDonald.

Judge Crane, who presided throughout the trial, rose from his chair and ran to the railing by the jury. The spectators were rushing out and confusion was everywhere. Persons in the offices below heard the shots, rushed to the upper floor and collided with the people leaving the room. A crowd of about 1,000 collected around the building in a few minutes, and the police had to be called to prevent the angry people from forcing their way into the courthouse. Every one about the room was dazed by the tragedy.

Some of the persons said McDonald's brother had a revolver and also fired. The officers are looking for him.

Outcome of Dynamite Outrages.

Events which culminated so tragically had their origin in the dynamiting outrages that destroyed the Methodist church and the general stores of Shickle & Johnson and J. W. Reese of Sanford on the night of February 21. Henry McDonald and James Scanlon were arrested the next day charged with the crime. In a former trial the jury stood 11 for conviction. Scanlon has not been tried.

William E. Dwyer, the dead man, was chief of the Terre Haute detective bureau. He was well known throughout the country and had worked on several big cases. He was active in getting evidence which convicted McDonald.

STUDENTS GO ON STRIKE.

New York Varsity Boys Clash with the Faculty.

New York.—New York university students went "on strike" Thursday as a result of the temporary suspension by the faculty of Albert Young, president of the junior class, following investigation of the ducking in the college "horse trough" of Harry Bloch, a freshman.

The boys were notified officially by the faculty's committee on discipline that the body of students must return first to their classes as a preliminary to a complete adjustment of the present difficulty.

Indiana Express Rates Cut.

Indianapolis, Ind.—Express rates in Indiana are reduced on an average of between ten and 12 per cent. in an opinion and order issued Monday by the Indiana railroad commission. The new schedule is to be adopted by the express companies within 30 days. The total annual business of all express companies in the state is about $1,000,000, according to information collected by the commission, and the reduction means a decrease of more than $100,000 a year in the money to be paid out for express service.

SADLY MISTAKEN.

Hubby (disgustedly)—The doctor is a fool.

Wifey—What's the matter, dear?

Hubby—He said I need exercise. Think of it! Exercise! Exercise for a man who has looked after his own furnace all winter, and is now contemplating the opening of the lawn mower season!

HOW TO APPLY PAINT.

Greatest care should be taken when painting buildings or implements which are exposed to the weather, to have the paint applied properly. No excellence of material can make up for carelessness of application, any more than care in applying it can make poor paint wear well.

The surface to be painted should be dry and scraped and sandpapered hard and smooth. Pure white lead should be mixed with pure linseed oil, fresh for the job, and should be well brushed out, not flowed on thick. When painting is done in this manner with National Lead Company's pure white lead (trade marked with "The Dutch Boy Painter") there is every chance that the job will be satisfactory. White lead is capable of absolute test for purity. National Lead Company, Woodbridge Building, New York, will send a testing outfit free to any one interested.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things usually come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good!! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

KIND WORDS FOR ALLISON

Graceful Tribute of Former Senator William V. Allen of Nebraska.

Of all the tributes that have been written or spoken relative to Senator Allison—and there has been a multitude of them—nothing more complete in its way has appeared, says the Cedar Rapids Republican, than the tribute to the senior senator from Iowa contained in a letter written by former Senator William V. Allen of Nebraska to a friend in Sioux City. The letter is as follows:

"Madison, Neb., March 25, 1908.—A. F. Allen, Sioux City, Ia.—Dear Sir: I have your letter of recent date respecting Senator Allison. In reply I have to say that I am not, as you probably know, his political affiliant, but personally, I esteem him so highly that I can speak of him only in the most kindly terms.

"I have known Senator Allison for more than forty years. I knew him when he entered the house of representatives, and I knew him as a senatorial colleague for eight years, and as the able, conscientious and accomplished chairman of the senate committee on appropriations, the greatest and most responsible committee of either house of congress.

Senator Allison's ability is beyond question. He is, in my judgment, in all respects the best equipped man of his party in active political service today, is better informed on legislative matters than any other man in the chamber. While Mr. Allison is not an orator, he is a great debater, and when he states a historical or other fact you will find his statement to be correct. It is a mistake to believe that he is not an aggressive man. I know of no one having a keener sense of right and wrong, or a stronger disposition to maintain the right and oppose the wrong, than Mr. Allison; but he does so as far as he can in a mild and persuasive manner. If he can reach a desired end by diplomacy, he does so, and he is a master of diplomacy. If, however, the situation requires heroic and aggressive action he is not averse to taking it.

"Senator Allison is rigidly and religiously an honest and conscientious gentleman; no evil or sinister influence can reach him. I have often thought that in his zeal to serve his party he has said things he ought not to have said, but I know of no partisan that is not guilty of like offending.

"Senator Allison is a man of a remarkably fine sense of right and wrong, and I think so much of him that, notwithstanding I differ from him respecting public policies and measures, if I were a resident of the great state of Iowa it would be difficult for me to refrain from supporting him for any position he might desire, regardless of his undesirable political beliefs.

"I have the honor to be very respectfully yours,

"WILLIAM V. ALLEN."

It will be remembered that Mr. Allen represented the state of Nebraska, in the senate first by appointment, and afterwards by election, for eight years. In politics he was a Populist; but he was everywhere recognized as a strong intelligent character, and an honest man. His pen picture of Allison will be recognized by all who enjoy anything like an intimate acquaintance with Iowa's senior senator as being approximately perfect. It is often stated that Iowa has honored Senator Allison greatly. This is true, but it is also true that Senator Allison has honored Iowa even more than Iowa has honored him.

GOVERNOR AND THE FARMERS.

Tells Senate Committee Rates on Dairy Products are Too Low.

When the rate bill Seantor Allen put through congress was pending, Gov. Cummins testified as follows before the senate committee on interstate commerce:

"I think our people go into the eastern market with butter and eggs upon a rate to which they are not entitled in any fair adjustment."

"Your people are not entitled to it?"

"They are not entitled to it upon any fair adjustment of rates throughout the United States."

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

For Weak Kidneys, Backache, inflammation of the bladder and all urinary troubles DeWitt's Kidney and Bladder Pills are unsurpassed.

WHAT IS IT?

Merely a little map to show you something of the immensity of the territory served by the Rock Island-Frisco-C. & E. I. Lines.

Just think of all those miles of steel humming to the tune of whirling wheels, day and night!

Some size to a system like that—don't you think?

And it means a great deal to the welfare of your community—this railroad which carries you and your freight.

It's a bond of communication between you and your neighbors—between you and the market for your products.

It's an enterprise worthy of fostering—is it not?

Remember, too, that the country needs the railroads as an aid in development and in the transaction of business, and the railroads need you, the traveler and the shipper—it's a community interest proposition, you know.

Let's all pull together!

GUARANTEED BANK DEPOSITS.

A man who wants to be Governor of Iowa puts this plank in his platform. We believe in Guaranteed Bank Deposits. do not believe that either the Federal or State Government should guarantee deposits and make the strong, sound, conservative banks pay the losses of weak, unsound, speculative banks. We guarantee deposits in this bank by—

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. When Barnes and Marina arrive in Corsica he is given a note written by Enid informing him that the kidnaping is for the purpose of entrapping Barnes so the vendetta may kill him. Barnes and Marina have unusual adventures in their search for Enid. They come in sight of her and her captors in the Corsican mountain wilds just as the night approaches. In seeking shelter from a storm the couple enter a hermitage and there to their amazement they discover Tomasso, the foster father of Marina, who was supposed to have been killed by De Belloc's soldiers, and for whose death Barnes had been vendettaed. Tomasso learns that Marina's husband did not kill her brother. Many wrongs are righted. Barnes is surprised in the hermitage by Rochini and Romano, the two detested bandits, who had been searching for him to murder him for his money. The bandits attempt to take away Marina. Barnes darts out the door. The bandits start to pursue, but as they reach the door both are laid low by Barnes' revolver. Members of the Bellacoscia enter and Barnes is honored for his great service to the community in killing the hated Rochini and Romano. The release of Enid is promised. Barnes is conveyed in triumph to Bocognano. Marina acquaints the Bellacoscia with Saliceti's plot against her husband and the people are instructed to vote against him at the coming election. Barnes is taken to the mansion of the Paolis to meet Enid. Marina receives a telegram. She starts for Bastia to meet her husband. Entering the room to greet his wife Barnes is bewildered to find the adventuress La Belle Blackwood, but not Enid. She had been substituted for the American's bride by a shrewd plot. Lieut. Anstruther arrives to find Marina and learns that she has been lured away by the telegram which had been sent by another without his knowledge. The two start in search of Marina. Barnes and Edwin take different roads in their search. Edwin is trapped in a tower where he is made prisoner. In endeavoring to escape he opens a trap door where he finds Emory, the detective, who had been imprisoned there previously.

CHAPTER XVI.—Continued.

"Oh, hang it, what have they done to you, smarty?" growls the detective angrily. Then he cries: "Glory hallelujah! Bully for you!" for Edwin has run down the ladder and is busy trying to unloosen the irons from the American's legs.

"They've got keys somewhere," snarls Emory. "Hang it, think of their cheek, manacling a detective."

Edwin is up the ladder again. He strikes another match and on the ground story finds, after some little delay, a bunch of keys hanging on the wall.

After some trouble with the locks, which are rusty, Elijah's legs are released and he ascends with Edwin, his jaws almost snapping with rage as he tells his wrongs.

"I was playing the fisherman at St. Tropez," he says. "I had got onto them, all right. I knew the head devil, the elder man, Cipriano, when, like a fool, I went on board of that big, cursed fishing felucca to them, pretending to want to get a job, thinking I would find out what the devil they were driving at. That was the end of me. I hadn't more than got in the forecastle than I was covered with two long knives, and that scar-faced fellow said to me: 'The first time, you were warned to keep out of this affair. This is the second time—' They were savage enough to kill me, but they simply corded me up and threw me in the hold, and oh, what a time I had as their infernal vessel dashed about the Mediterranean after you. When they gave up chasing you they stopped here and put me away carefully in that hole down there."

Suddenly he cries: "What are you doing?" for Edwin has his hands in an iron ring and is trying to pull up another trap door in the flooring.

"I want tools by which we can break enough masonry from one of these embrasures to get out!" says the sailor.

But pulling up the trap door, both he and the American gaze astounded into the other vault.

Two red flaming eyes encounter theirs. "If you come to kill me, I'll die like a Corsican, my teeth in your throat!" cries a low, hoarse voice.

Then as Anstruther lights another match, a shriek rises to them: "The husband of Marina, Madre di Dio!"

"Tomasso!" exclaims Edwin, adding: "In God's name, where is my wife?"

"Diavolo, of course, you have come here to find her. At the fork of the Bastia road, I thought the 'Lucchese' captured my mistress and myself and forced us to drive toward the east. Coming over the mountains, their language told me they were not 'Luchchese,' but Corsicans. I would have told Marina, but when I got out to water the horses at the little fountain up near Pietra, two of them struck me insensible and I awoke and found myself here. But, Signore, I beg you to note one thing. Your true wife and my honored mistress believes she was rescued from the 'Lucchese' by Cipriano Danella, and she is grateful to him. Get me to the light that I may aid you." The old Corsican has faintly staggered up; a moment later he is pulled from the vault by the strong hands of Anstruther and the detective.

"This is old Tomasso Monaldi," says Edwin shortly, "who was supposed to be killed."

"Holy smoke, the fellow who was believed dead and they vendettaed Barnes about!"

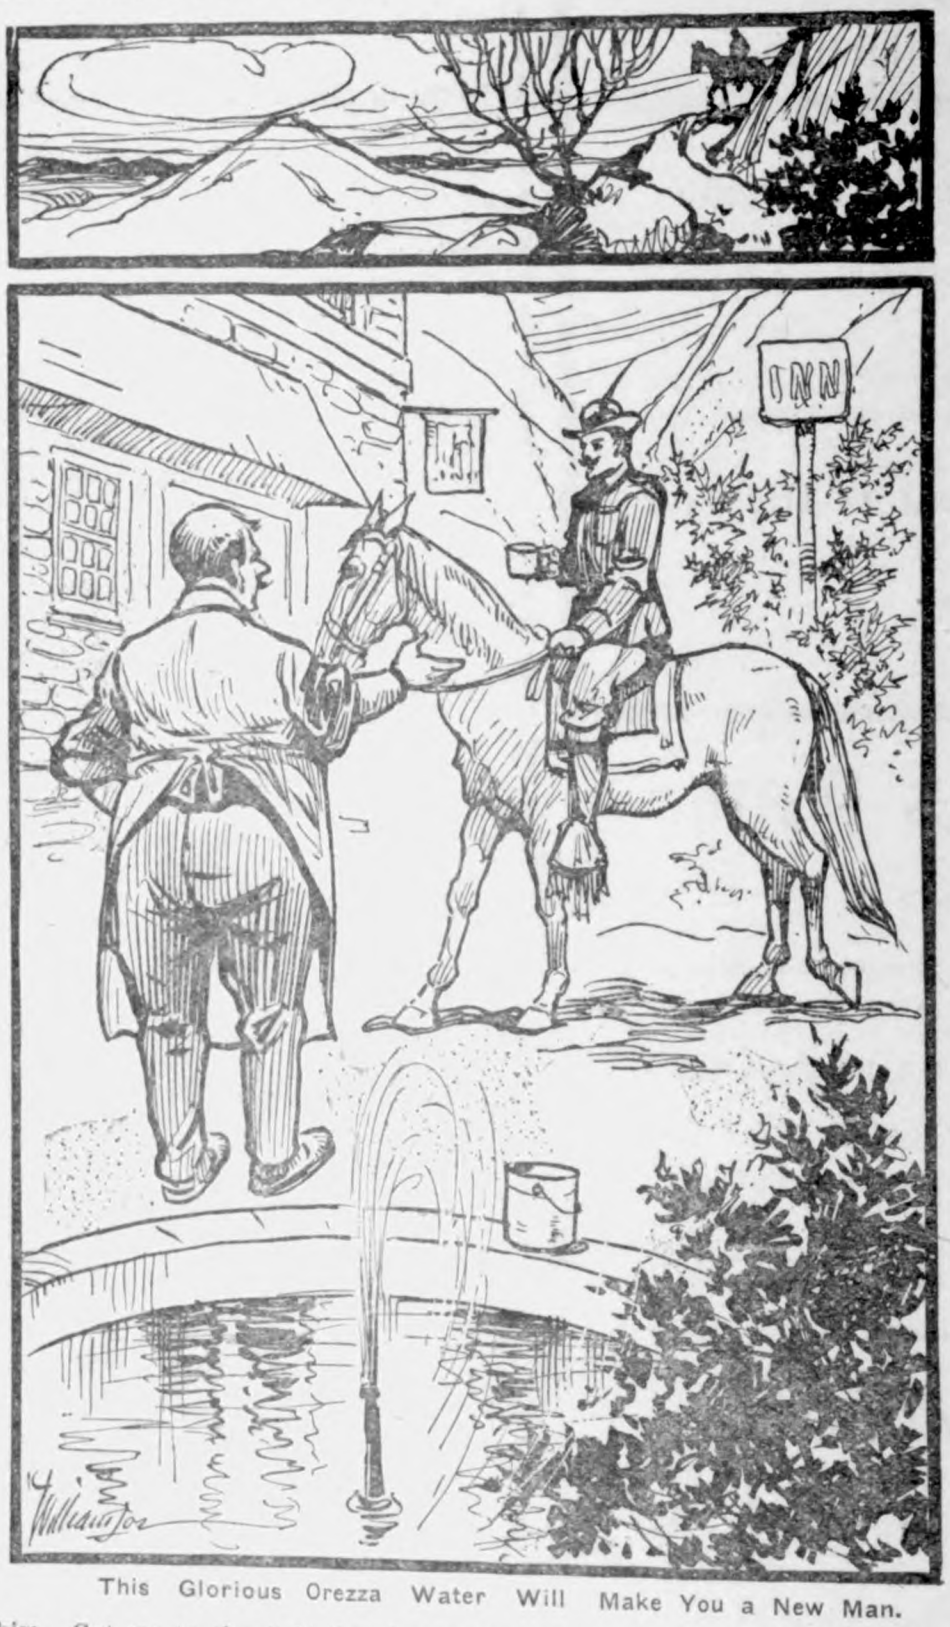
"Yes."

But Tomasso's words make them feel they have little time to lose. Besides, Emory is always whispering with white lips: "This tower is mined!" Together they go up the stairs, carefully examining every orifice in the building, but find them all loopholes too small to permit the exit of a man."

"There is nothing but to get out of the upper chamber," says Edwin. "I'm a sailor. With half a chance, a single vine, with even the assistance of our clothes torn into lengths, I can scramble down. Some way I'll do it."

They have reached the upper room. Anstruther has thrown off his coat and vest, kicked off his shoes and taken off his stockings. Toes will cling to the rough stonework better than boots. He picks up the letter and the concluding sentences seem to make him crazy. He springs to the window and a muttered oath parts his white lips, for he encounters a grillage of heavy iron so securely fastened on the outside that it is impossible for him to make exit.

But even as Edwin struggles with the grating, he utters a low cry, half of longing, half of despair.



This Glorious Orezza Water Will Make You a New Man.

Upon the portico of the modern portion of the farmhouse, pleasant with vines and flowers, almost reclining in a hammock is Marina. Robed in white, the young wife looks like a dream of love to her despairing husband. Her face is flushed, if not happily, at least excitedly. To her, speaking—the distance is too great for Edwin to understand the words, but apparently from the gestures they are those of amity—is Count Cipriano Danella, his eyes sparkling vivaciously, his costume the romantic one of Corsica.

CHAPTER XVII.

Whiffs in the Air.

Some time after midday, Mr. Barnes, in pursuit of Anstruther, reaches Ponte-alla-Lecchia, where the people are now crowding about the polling house. He doesn't stop here and continues rapidly on, notwithstanding the sun is very hot, the dust is very heavy. As he climbs the high hills toward Morosaglia, he commences to find cyclamen flowers, quite faded now and having but little perfume.

"By Jove," he remarks, "I gave Edwin the right path. I should have turned back and followed him last night, not to-day."

This makes him hurry all the more, and his horse is quite exhausted when he descends the hill past the convent and pauses at the little inn near the famous water of Orezza.

The American has heard of their curious powers, and asks for some, as he gazes languidly on the communal of the little village, around which the men are still clustering.

The heat has been tremendous; his speed has been quite great; the hills have been precipitous. Barnes' face is again covered with lines of fatigue.

"This glorious Orezza water will make you a new man," chats the landlord pleasantly; and never had the wondrous youth-giving chalybeate a better patient to work upon, for as the effervescent fluid, cold from the springs of the mountain, flies down the American's throat, new power, new vigor seem to enter each nerve, each limb.

It is now quite late in the afternoon. Burton soon passes the chestnut lands of La Castagniccia, still finding a few faded cyclamen blooms to guide him on his way. But now a little shock thrills him. He checks his horse abruptly, springs off and picks up a bunch of the wild flowers. As he rides along examining it he ejaculates: "This is very extraordinary. This branch, which I supposed Marina dropped out of the carriage yesterday, was certainly cut this very morning."

Suspicion flashes through him as he questions: "Can these flowers have been strewn in the road by Cipriano's agents to lead someone on?" and what had been no warning to the easy-going sailor becomes a danger signal to the man of the world.

Yet, twist it how he will, Barnes can see no reason why Danella should want anyone near him save Marina. If the Corsican's passion for that young lady is what he thinks it is, he will prefer a free hand to deal with her alone. "And yet it is evident somebody wanted somebody to follow the cyclamen trail, and whether somebody wants it or not, I am here anyway," thinks the American grimly. "And thanks to the divine Orezza water I am rather fit for fighting." Then carefully examining his revolver, the pistol shot remarks: "And that's fit also, thank God."

With this, resolutely but more circumspectly, Mr. Barnes continues his way over the path marked by the cyclamen branches.

By the time he has come out on the hills looking down toward the Tuscan sea, it is very dark. There is no moon yet, but the light from the lone watch tower attracts him. The cyclamen flowers he occasionally picks up make him know this is the road Anstruther must have traveled.

Suddenly, but quietly, he turns his horse from the path, and in the recession of a thicket of wild grapes, some tens. Some dozen men are coming from the east; he hears one of them growl: "Why, there's no 'Lucchese' nearer than Pietra to fight, though the count ordered every man about the farm to go out and protect the vicinity from them."

"Well, there's some good reason for Maestro Cipriano's orders. Perchance the Italian laborers in the Green Orezza quarry have risen up," adds another.

"Perhaps with the lady he wishes not to be disturbed," giggles a third. "The count has musicians in a boat on the shore."

The men have no sooner passed than Barnes starts quickly down the road. The "lady," he guesses, must be either Marina or his own bride, though of the last he has slight hope. A subdued light from the town guides him in the darkness.

But when he is within less than a hundred yards of the building, his horse, with a sudden snort of terror, draws up right in the path, crouches on his haunches, and Barnes peering over his steed's head, gazes into the deep chasm that descends sheer to the very sea. Springing from his trembling horse, the American finds that the bridge, which is a light, swinging one not over 35 feet in length, has been swung to the other side.

The scent of a fresh cyclamen blossom enters his nostrils. He looks at the removed bridge and remarks acutely: "It's evident Cipriano has got on the other side the person he wished to follow these flowers."

So Barnes gazes across the chasm he cannot pass. The night being very still, he hears over the soft murmur of the waves beneath him the sweet romantic music of Corsica rising from a boat. 'Tis the playing of stringed instruments accompanying a sweet native love song, each stanza ending in that curious prolonged note peculiar to these island ditties.

"What the deuce is that binary crafty devil's game?" wonders the American. Then he hears voices from the low Corsican house. Beyond the crevices he sees Marina in white robes amid the lights and flowers of the veranda. Her sweet tones are scarce audible. Then Danella's voice reaches him faintly in the soft night air.

He begins to understand and mutters: "Good God!"

After a little cry of love yet despair rends the heavens from the tower. It is Anstruther's. 'Tis mingled with a woman's shriek for mercy. "My husband!" in Marina's voice.

Next Barnes hears Cipriano's short triumphant laugh, and he mutters: "My God, for a pistol it's a fearful long shot, but it's the only way!"

Where Mark Twain Had Gone.

When Mark Twain was working hard on one of his earlier books that brought him fame he sailed for Europe with his family. He kept up his writing on shipboard, leaving it only for brief recreations. One day an approaching storm drove him to his cabin, and as he retired to work he left word with his daughter, then a very little girl, to explain his absence. "If they ask for me," he said to her, "say that I won't be long; I have only gone to write an anecdote." An hour later a passenger accosted the child. "Where has your father gone?" "He won't be gone long," lisped the child, "he'th only going to ride a nanny goat."

How Paderewski Works.

The world's greatest pianist frequently sits at his instrument until well into the small hours of the morning. Hence he seldom rises until 9 or 10 a. m., and immediately he is dressed he gets to work, generally practicing on the piano, but often composing. He keeps to his task until 1 o'clock, and not a minute earlier does he break his fast. By that time, however, his appetite is keen, and a feeling that he has already earned his breakfast helps to make the hour's his first meal by far the most enjoyable of the day, says Home Chat. He follows it with a quiet game of billiards against himself. He is an enthusiastic devotee of the game.

If you want to set the pace, be sure you're on the right path.

FIERCE RIOT IN PENSACOLA

IMPORTATION OF STRIKE BREAKERS CAUSES BATTLE.

Street Car Men from St. Louis Are Attacked and Fifteen of Them Are Beaten.

Pensacola, Fla.—The bringing of a carload of strike breakers from St. Louis Friday afternoon by the Pensacola Electric company was the signal for rioting and disorder which resulted in the injury of 15 of the imported men.

No sooner had the strike breakers arrived and started for the car sheds than a fight occurred between them and the sympathizers of the union men and from the corner of Palafox and Wright streets, where the first battle occurred, there was a continual riot in which bricks, bottles and shells were hurled at the strike breakers, and in turn the latter fired shots and used heavy sticks and bricks. For over an hour the riot continued, the strike breakers gradually getting nearer to the car barns, but before they reached there 15 had been wounded.

When near the car barns, so fierce was the onslaught on the body of imported men, that they separated and fled, 30 running into a negro's house, while the remainder reached the car barn and barricaded the doors. The 30 men in the house barricaded the doors and it took the police over an hour to disperse the mob and remove the men to places of safety.

All night there were great crowds on the streets.

The mayor has issued a proclamation closing all saloons and the board of public safety has ordered the marshal to swear in a sufficient number of deputies to quell the disturbance.

Seventy strike breakers were marched to the city jail, where they were kept in safety all night.

Benjamin Commons, vice-president of the International Association of Street Railway Employes, made an address, urging the strikers to disperse and go to their homes quietly.

BAD FLOODS IN SOUTHWEST.

One Man Killed and Traffic Impeded in Missouri.

Joplin, Mo.—One man killed, railroad traffic impeded, cave-ins on the electric and St. Louis & San Francisco lines near Joplin and mines in the Badger-Peacock district inundated, are some of the features of the flood that is sweeping southwest Missouri. Levi Sevier, a miner was drowned in the Iroquois mine.

Near Monett, the overflow from Spring river washed out the St. Louis & San Francisco tracks and trains are delayed. The tracks of the Missouri Pacific are washed out near Granby. Portions of Carthage are inundated. The big dam of the Spring River Water company at Varck, Kan., is holding its own against the great volume of water that is pressing against it.

CANADIAN OFFICIAL ARRESTED.

American Immigrant Officer Takes Son of Mayor Prisoner.

Winnipeg, Man.—Herbert Wright, a Canadian customs officer at Emerson, Man., was arrested at Noyes, Minn., Wednesday at the point of a revolver by a United States immigrant officer, on a charge of having smuggled into the United States May French, who had been denied admission to the United States two weeks ago.

Wright is a son of Mayor Wright of Emerson. He was taken to Crookston, Minn., for trial. There is much bitter feeling between the officials of the two governments at Emerson and Noyes.

OFFERED MONEY FOR MURDER.

Serious Evidence Against Thomas McGonnigle and Mrs. Burnett.

Richmond, Mo.—In the trial here Friday of Thomas McGonnigle and Mrs. Jane Burnett, accused of the murder of Mrs. Margaret McGonnigle, Thomas Bailey, 21 years old, son of a farmer, said that in 1907 Thomas McGonnigle offered him $150 if he would kill Mrs. McGonnigle. Bailey said he refused to do so, and that McGonnigle then threatened to kill him if he revealed what he had said.

Mrs. Fannie Davis testified that Tom McGonnigle and his sister, Mrs. Burnett, had offered her $50 to kill Mrs. McGonnigle. Thomas, she testified, had fixed a bottle of wine with poison in it to give to Mrs. McGonnigle, but witness had destroyed the wine. Then they wanted her to shoot Mrs. McGonnigle, she testified, and leave the revolver and a hat at the house to give the impression that a man had killed her. At another time they gave her some poisoned cake to give to her. Mrs. Jane Burnett, the witness said, had told her that she would kill Mrs. McGonnigle.

DETROIT JURY IS SCORED.

Judge Angered by Acquittal of Self-Confessed Murderer.

Detroit, Mich.—"This is one of the vilest miscarriages of justice that has ever been heard of in this community," said Judge Phelan in the recorder's court Thursday afternoon, when a jury found 18-year-old Percy Bowin of Woodville, Ont., not guilty of the brutal murder on January 7 of 63-year-old Mrs. Cornelia Welch, proprietress of a disreputable place on Congress street east which Bowin had frequented.

Bowin had admitted his guilt and made a detailed confession of how he killed the old woman and stole and pawned her diamonds. This confession, signed by Bowin, was placed in evidence. Then Bowin took the stand and repudiated it absolutely, saying that Capt. McDonnell induced him to make it by talking of the strong case against him and promising to help him to a pardon later. This the captain and other officers denied absolutely. The police offered a great deal of evidence to confirm the statements in Bowin's confession.

STRANGE CAREER IS ENDED.

Dr. J. S. Cabanne of St. Louis Dies in an Asylum.

St. Louis.—After a career ranging from respect and affluence to poverty and disgrace, Dr. James Shapard Cabanne, 69 years old, founder of the fashionable residence district known as Cabanne place, died Tuesday at St. Vincent's asylum.

For 25 years Dr. Cabanne lived a dual life in St. Louis, maintaining one home in Cabanne place, where he was known as a wealthy and successful physician, and in another in North St. Louis, where he was known as "Mr. Norris."

Mrs. Cabanne divorced her husband in 1904. Soon afterward he lost his money through unfortunate speculation. Last May, as an act of reparation, he wedded Delia Doherty, a former domestic in his household and the mother of four of his children, who with these children lived in the "Norris" home in North St. Louis.

Electric Car Kills Five.

Chicago — Four women were instantly killed and one man fatally injured when a west-bound Aurora, Elgin and Chicago electric car struck a carriage two miles west of Maywood, a suburb, Wednesday afternoon. The man, who was driver of the carriage, died four hours later in the Maywood Union hospital without recovering consciousness.

SPRING KIDNEY TROUBLE.

Vividly Described by One Who Has Suffered from It.

Mrs. H. Mutzabaugh, of Duncannon, Pa., says: "I was sick and miserable all last Spring and as I did not know what was the matter I kept going down and down until I was a physical wreck. I had smothering spells, flashes of heat over the kidneys and pain in passing the kidney secretions, which contained sediment. My husband urged me to try Doan's Kidney Pills, and at last I did so. They did me much good, and I used in all eight boxes which restored me to perfect health."

ONE LESSON WHOLLY WASTED.

Little Surprise Planned by Billiger McSwat Not a Success.

"Lobelia," asked Mr. McSwat, who was rummaging in one of the closets, "have you done anything with that old coat of mine that used to hang on the last hook in here?"

"Yes," answered Mrs. McSwat. "I gave it to the Volunteers."

"You did, did you?" Well, you'll be sorry to learn, perhaps, that there was a five-dollar bill in it which I was going to give you if I found that coat undisturbed at the beginning of March."

"O, I think not, Billiger. I searched it thoroughly before I gave it away."

"You're a pretty smart woman, Lobelia, but it didn't occur to you to look inside the lining."

"O, yes, it did, and I found the five-dollar bill. I spent it for the rubber plant in the front parlor that you have admired so much and wondered how I managed to buy out of my allowance. You're a pretty smart man, Billiger, but there are times when you don't look the part."

There being no further business before the house, Mr. McSwat adjourned without form.

GIRL WAS DELIRIOUS

With Fearful Eczema—Pain, Heat, and Tingling Were Excruciating—Cuticura Acted Like Magic.

"An eruption broke out on my daughter's chest. I took her to a doctor, and he pronounced it to be eczema of a very bad form. He treated her, but the disease spread to her back, and then the whole of her head was affected, and all her hair had to be cut off. The pain she suffered was excruciating, and with that and the heat and tingling her life was almost unbearable. Occasionally she was delirious and she did not have a proper hour's sleep for many nights. The second doctor we tried afforded her just as little relief as the first. Then I purchased Cuticura Soap, Ointment, and Pills, and before the Ointment was three-quarters finished every trace of the disease was gone. It really seemed like magic. Mrs. T. W. Hyde, Brentwood, Essex, England, Mar. 8, 1907."

THE MEAN MAN.

"I believe," his wife angrily declared, "that if I were dead you would be married again inside of a year."

"Oh, no," the mean man replied, "you are mistaken. Try me and I'll prove it."

Couldn't Spare O'Connell.

Daniel O'Connell had got a man off at one time for highway robbery and at another for burglary; but on the third occasion, for stealing a coasting brig, the task of hoodwinking the jury seemed too great for even his powers of cajolery. However, he made out that the crime was committed on the high seas and obtained an acquittal. The prisoner lifted up his hands and eyes to heaven and exclaimed: "May the Lord long spare you, Mr. O'Connell—to me!"

A Counter Stroke.

A stylishly-dressed woman entered a Chinese laundry and paid for a laundered shirt.

"Why do you wear those 'rats,' I think you call them, in your hair?" inquired the Chinaman, who had an inquisitive turn of mind.

"Tush, Mr. John," replied his customer. "I always thought it was Chinese etiquette not to talk about the things they like best."

The Oriental blinked his eyes as the lady passed out.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Rubbing It In.

"What's that crank in 38 kicking about?" asked the hotel clerk.

"He's explaining that everything's too old and shabby," replied the bellboy. "He wants everything new."

"All right. Begin by giving him those new stiff towels."

A human act once set in motion flows on for ever to the great account. Our deathlessness is in what we do, not in what we are.—George Meredith.

This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound.

Lena V. Henry, of Norristown, Ga., writes to Mrs. Pinkham:

"I suffered untold misery from female troubles. My doctor said an operation was the only chance I had, and I dreaded it almost as much as death.

"One day I read how other women had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it. Before I had taken the first bottle I was better, and now I am entirely cured.

"Every woman suffering with any female trouble should take Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

The question as to whether the state primary ought to settle who will be the next U. S. Senator from Iowa is being raised by some newspapers of the state. Of course the primary election ought to settle it. What is the use of letting the people vote on the question at all if it is not to count or amount to anything. The people of the state of Iowa are capable of making their decision in the matter and they do not care to go to the trouble of voting just for the fun of the thing. By all means let the primary settle it.—Garner Signal.

NEIGHBORHOOD FAVORITE.

Mrs E D Charles of Harbor, Maine speaking of electric bitters says It is a neighborhood favorite here with us. It deserves to be a favorite every where. It gives quick relief in dyspepsia liver complaint kidney derangement malnutritiod nerviousness weakness and general debility. Its action on the blood as a through purifier makes it especialy useful as a spring medicine. This grand alterative tonic is sold under guarantee at J L Harr & Co drug store. 50c.

MACHINE-GROUND PAINT.

Occasionally one hears the "hand-mixed" paint of the painter slightingly spoken of as "unscientific" and "not thoroughly mixed." The facts are all on the side of the painter and his hand-prepared paint.

It is the most "scientific" paint there is, because it is made on the spot to suit the particular purpose for which it is to be used. It is as scientific as a good doctor's prescription. If the painter did not mix it thus it would be as unscientific as a patent medicine. Moreover, the paint which a good painter turns out is made of genuine white lead and pure linseed oil. If he does not mix it himself he is not sure what is in it, and consequently his client cannot be sure.

As for not being thoroughly mixed by machinery, that is simply a misstatement. White Lead as made by National Lead Company is thoroughly incorporated with 7 or 8 per cent. of pure Linseed oil in the factory, making a paste. This paste need only be thinned with additional linseed oil to make it ready for the brush.

The thorough incorporation of pigment and oil has already been accomplished before the painter gets it.

To know how to tell pure white lead is a great advantage to both painter and house-owner. National Lead Company will send a tester free to anyone interested. Address the company at Woodbridge Building, New York, N. Y.

Genuine greatness is marked by simplicity, unostentatiousness, self-forgetfulness, a hearty interest in others, a feeling of brotherhood with the human family.

Her Kick.

"John, I wish you would not be quite so polite, and so considerate of me when we are in company."

"Why, dear, I want them—the whole world—to see how I love you."

"That's all right but they—the whole world—thinks I've got you scared."—Houston Post.

Hope.

Walter Damrosch tells of a matron in Chicago who, in company with her young nephew, was attending a musical entertainment.

The selections were apparently entirely unfamiliar to the youth; but when the "Wedding March" of Mendelssohn was begun he began to evince more interst.

"That sounds familiar," he said. "I'm not strong on these classical pieces, but that's a good one. What is it?"

"That," gravely explained the matron, "is the 'Maiden's Prayer.'"—Harper's Weekly.

An Undesirable Article.

When Mr. B. went to call upon some friends the other afternoon, he was on his way out of town and so had his traveling bag with him. This he placed in a corner, and when he rose to leave he overlooked it. His hostess happened to notice it before he had reached the door, and called to her little daughter:

"Marie, run after Mr. B. and tell him he has left his grip here!"

The little one gave her mother one swift glance of surprise, but flew dutifully to obey orders.

"Oh, Mr. B.," they heard her say, "mother says you have forgotten to take your grip with you." Then she added, quickly, in a tone of polite apology: "You see, most all of us have had it this winter, and we'd rather not have any more!"

LOST $300.

Buying Medicine When Right Food Was Needed.

Money spent for "tonics" and "bracers" to relieve indigestion, while the poor old stomach is loaded with pastry and pork, is worse than losing a pocketbook containing the money.

If the money only is lost it's bad enough, but with lost health from wrong eating, it is hard to make the money back.

A Mich. young lady lost money on drugs but is thankful she found a way to get back her health by proper food. She writes:

"I had been a victim of nervous dyspepsia for six years and spent three hundred dollars for treatment in the attempt to get well. None of it did me any good.

"Finally I tried Grape-Nuts food, and the results were such that, if it cost a dollar a package, I would not be without it. My trouble had been caused by eating rich food such as pastry and pork.

"The most wonderful thing that ever happened to me, I am sure, was the change in my condition after I began to eat Grape-Nuts. I began to improve at once and the first week gained four pounds.

"I feel that I cannot express myself in terms that are worthy of the benefit Grape-Nuts has brought to me, and you are perfectly free to publish this letter if it will send some poor sufferer relief, such as has come to me."

Eldora.—Dr. Harry W. Emery, a prominent osteopath of this city, is lying at Emergency hospital, suffering from a bullet wound in the left breast, inflicted by Edward Nuckolls, a well known young man here, and associated with his father, Ezra Nuckolls, in the jewelry business. Dr. N. C. Morse, who is caring for the patient, does not as yet venture a prediction as to Emeny's chances for living.

Considerable mystery surrounds the shooting, and different stories can be heard. It is stated that Nuckolls found Emeny trying to enter his house at about 2 o'clock a. m., and emtied his revolver into the flying form in the darkness.

The Nuckolls home has been under quarantine because the Nuckolls children were supposed to have scarlet fever. Mr. Nuckolls had not been staying at home, but, hearing that the children had whooping cough, went home to see just what the situation was.

About midnight, it is claimed, he was awakened by a rap at the door. He answered the call and found Dr. Emeny, who informed Nuckolls that he was looking for him and wanted him to go down to his office and sample some fine wine that he had purchased. Nuckolls complied, but after a short time excused himself, and said he would go to his room at the store and go to bed.

Nuckolls was apparently suspistore and remaining, went for his revolver and returned home. An hour and a half later Emeny is said to have again appeared at the Nuckolls home. Nuckolls was on guard and waiting, and immediately opened the door and began shooting. Emeny fled and Nuckolls followed him long enough to empty his revolver at him.

FALL APPLES FOR PACKING.

Demonstration of Keeping Qualities Is Successful.

Mason City.—The result of the examination of the stored apples, picked from Iowa orchards and put in storage in the Higley plant of this city, has demonstrated that with proper packing a great majority of Iowa grown fall apples will keep and keep well. Among the varieties put in storage here were the Wealthies, Patton's Greenings, Salome, Winesaps Iowa Blush, Grimes, Scott's Winter, Black Annette, Melinda, Langfords, Nelson Sweets and Clemmons Seedlings.

The apples were grown at Missouri Valley, Storm Lake, Floyd, Ardale, Williamsburg Rockford, and Randolph, and comprised about seventy different varieties and manners of packing.

In packing, three methods were followed: First, each apple was wrapped in paper immediately after being taken from the tree last fall and packed; second, the apple was packed without paper immediately after being taken from the tree, and third, the fruit was packed from ten days to two weeks after it was taken from the tree. In each instance the wrapped apples of all varieties came out in good solid condition. The apples packed immediately after picking without wrapping were second best, being in very good condition. The apples which were not packed till some time after picking showed signs of rot and decay. The Wealthies showed up in the worst condition.

Professor Fenney, who had charge of the demonstration, lectured to the gathering, covering the points demonstrated by the result of the storage.

Term For Naughty Letters.

Cedar Rapids.—In federal court Mrs. Nellie Anderson was sentenced to two years in the government prison at Moundsville, W. Va., and her paramour, Jadie Patterson, a negro, was given two years in the government prison at Fort Leavenworth. Both pleaded guilty to sending obscene matter through the mails. The woman deserted her husband at Vinton, leaving a good home, and coming to this city, fell in with Patterson, who is a rough looking negro.

Ill Health Causes Suicide.

Waterloo.—Roy Miller, aged 20 years, a sophomore in the college at Fayettte, shot himself to death at his home in Manchester. He left a note saying the deed was caused by ill health. He also gave a list of the debts he owed at school. He is a son of G. W. Miller, a wealthy implement dealer of Manchester.

ACCOUNTS WRONG.

Pottawattamie County Clerk Owes County Money.

Council Bluffs.—H. V. Battey, clerk of the district court in Pottawattamie county was ousted by Judge Wheeler of the district court on the strength of the report filed with the board of supervisors by an expert of a Des Moines accounting company, employed by the board to check the clerk's office, and pending a hearing H. J. Chambers, formerly clerk of the district court, was appointed to take temporary charge of the office. Chambers' bond was fixed at $20,000.

Judge Wheeler, in a statement in open court, said that the action taken by him was not in any sense a prejudgment of the case.

C. J. Richman, the expert accountant sent here by the National Accounting company of Des Moines upon request of the board of supervisors for the purpose of checking the office of Clerk Battey, made his report to the board. The accounting, based upon strict construction of the statute, shows on its face $2,197.86 due the county from the clerk. The report covers the period of Mr. Battey's incumbency and was referred to the judge of the district court and the county attorney. Included in this amount as $1,139 in fees as clerk and member of the insanity commission, which it has been customary for the clerk to draw in this county and in many other counties of the state.

WATERLOO TO PERRY.

Interurban Road To Be Built During The Summer.

Waterloo.—Plans are laid for the construction this summer of an electric railroad 114 miles in length to extend from Waterloo to Perry, with a stub line from Story City to Ames, where connection with an existing road will be made which will carry traffic direct into the city of Des Moines.

The name of the new line is the Iowa railroad and it is financed by capitalists and railroad builders in Chicago and Eldora.

The proposed route is from Waterloo direct weste to Cedar Falls and then southwest, touching at Fredsville, Dike, Lincoln, Grundy Center, Eldora, Hubbard, Garden City, Story City, Boone, Moingona and Perry. Hourly service between these points is proposed and the route will permit of several hours' reduction in time over any other of the routes now maintained.

The new road will open a new field for Waterloo manufacturers and will give the towns mentioned connection with Des Moines and Waterloo which will be of great advantage to them. The main headquarters will be established at Eldora, where a couple of bankers largely interested make their homes.

LIQUOR INTERESTS FIGHT.

Organize in Burlington to Oppose Civic Federation.

Burlington.—A widespread movement to oppose the anti-saloon forces of Burlington, especially the civic federation, has been inaugurated here.

The organizers of the movement expect to enroll several thousand workers against the enforcement of the mulct law, and every legal method will be used to check any attempt to curb the freedom of the saloon interests in Burlington.

John Deterick, of Chicago, an organizer employed by the big brewing and liquor interests of the west, is here to assist in the movement. A permanent organization will be formed and the members will participate actively in political affairs and in other ways to further the interests of the liquor people.

"AUNT BECKY" YOUNG DEAD.

Aged Army Nurse Passes Away at Des Moines.

Des Moines.—"Aunt Becky" Young is dead.

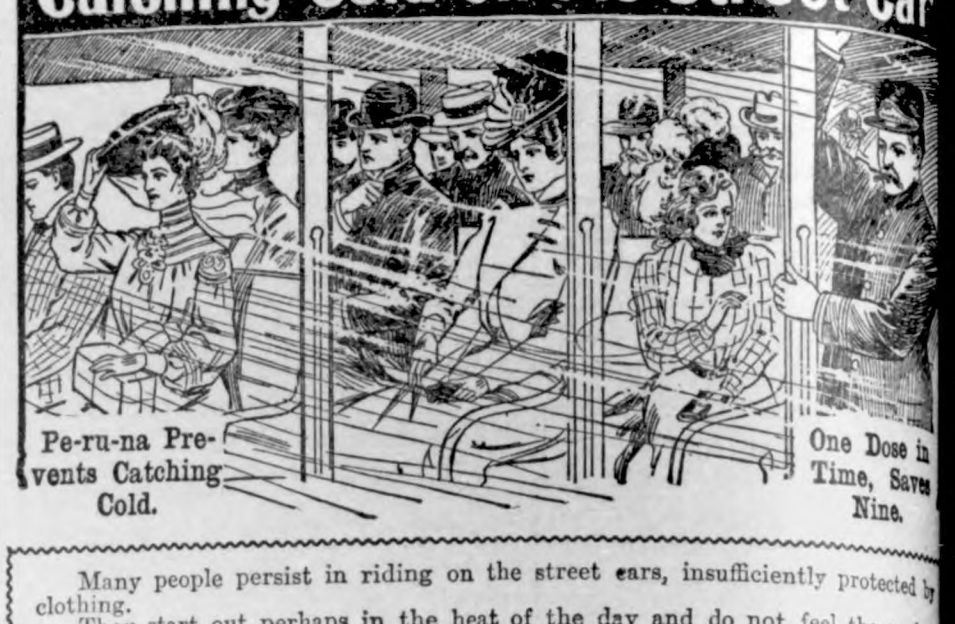
The death of the famous old war nurse occurred at 2 o'clock on the morning of the 6th, after weeks of struggle against grim death. She was 76 years old and would have been celebrating on the 6th the forty-first anniversary of her marriage to David C. Young had death spared her.

Burglar Hits Combination.

Burlington.—Thieves broke a window and worked the combination of a safe at the office of the Mt. Pleasant Milling company. Forty-four dollars was secured.

NO ONE CAN ALWAYS AVOID

Catching Cold on the Street Car



Pe-ru-na Prevents Catching Cold.

One Dose in Time, Saves Nine.

Many people persist in riding on the street cars, insufficiently protected by clothing.

They start out perhaps in the heat of the day and do not feel the need of wraps.

The rapid moving of the car cools the body unduly. When they board the car perhaps they are slightly perspiring. When the body is in this condition it is easily chilled. This is especially true when a person is sitting.

Beginning a street car ride in the middle of the day and ending it in the evening almost invariably requires extra wraps, but people do not observe these precautions, hence they catch cold.

Colds are very frequent in the Spring on this account, and as the Summer advances, they do not decrease. During the Spring months, no one should think of riding on the car without being provided with a wrap.

A cold caught in the Spring is liable to last through the entire Summer. Great caution should be observed at this season against exposure to cold. During the first few pleasant days of Spring, the liability of catching cold is great.

No wonder so many people acquire muscular rheumatism and catarrhal diseases during this season.

However, in spite of the greatest precautions, colds will be caught.

At the appearance of the first symptom, Peruna should be taken according to directions on the bottle, and continued until every symptom disappears.

Do not put it off. Do not waste time by taking other remedies. Begin at once to take Peruna and continue taking it until you are positive that the cold has entirely disappeared. This may save you a long and perhaps serious illness later on.

Bad Effects From Cold.

Mr. M. J. Deutsch, Secretary Building Material Trades Council, 151 Washington St., Chicago, Ill., writes:

"I have found your medicine to be unusually efficacious in getting rid of bad *effects from cold,* and more especially in driving away all symptoms of catarrh, with which I am frequently troubled.

"The *relief Peruna gives* in catarrhal troubles alone is well worth the price per bottle. I have used the remedy for several years now."

Spells of Coughing.

Mrs. C. E. Long, writes from Atwood, Colorado, as follows:

"When I wrote you for advice my little three-year-old girl had a cough that had been troubling her for four months. She *took cold easily,* and would wheeze and have spells of coughing that would sometimes last for half hour.

"Now we can never thank you enough for the change you have made in our little one's health. Before she began taking your Peruna she suffered everything in the way of cough, colds and croup, but now she has taken not quite a bottle of Peruna, and is *well and strong* as she has ever been in her life."

Pe-ru-na for Colds.

Mr. James Morrison, 68 East 16th St., Paterson, N. J., writes:

"I have given Peruna a fair trial, and I find it to be just what you claim it to be. I cannot praise it too highly. I have used two bottles in my family for colds, and everything imaginable, and can safely say that your medicine is the best I have ever used."

Prompt Payment.

A village doctor, whose most troublesome patient was an elderly woman practically on the free list, received a sound rating from her one day for not coming when summoned the night before.

"You can go to see your other patients at night," she said, "why can't you come when I send for you? Ain't my money as good as other people's?"

"I don't know, madam," was the reply. "I never saw any of it."

Plymouth Rock Gelatine Co., Boston, Mass.

A Rustic Sarcasm.

"Did your husband ketch chills an' fever?" asked the woman who was standing in front of the cabin.

"No," answered the woman who was driving a spring wagon. "He wouldn't have that much git-up-an'-git. He jes' sot around an' let 'em overtake him."

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

are Mile of Chelsea Is Swept by Flames—Terrific Aids.

oston, April 13.—At an early hour morning the ruins of the burned rict in Chelsea were under guard fourteen companies of the state tia and marines from the Charlesn navy yard, and the city was put er martial law to prevent loot- The soldiers were supplied with cartridges.

oston, Mass., April 13.—An apparly insignificant fire which started ong rags of a dump in the city of lsea yesterday was fanned by a thwest gale into a conflagration ch obliterated over one-third of city. Five hundred dwelling ses and public buildings were deyed, fifteen hundred families were ven from their habitations and ten usand people made homeless.

hree lives are known to have been , and at a late hour last night it reported that two other persons perished, one a woman, having herself in a frenzy over her inlity to save her property. From to one hundred were injured.

ccurate estimate of the loss is imsible. The city solicitor estites it at $10,000,000. The fire, ich was the worst Greater Boston known in many years, raged be- a forty-five mile gale for more n twelve hours, defying the utst efforts of the combined fire detments of Chelsea and several rby cities and a large detachment Boston firemen and apparatus.

The fire area, which was in the m of an elipse, a mile and a half and a half wide at its broadpart, extended diagonally across city from a point near the boundbetween Everett and Chelsea to waters of Chelsea creek. It was less for the firemen to attempt to ck the onrushing flames before gale, and their main efforts were prevent a spread of the fire on her side. Their last stand was en at Chelsea square late in the ernoon, and for hours a doubtful ttle was waged, but at 10:50 o'clock t night the fire was under control. The state fire insurance commisner declares the insurance will bably total $5,000,000.

The great majority of the buildgs were of wood and were comely destroyed but structures of er material were almost as quickand thoroughly incinerated by the rceness of the blaze. All the banks re than three-quarters of the urches, half of the business blocks d nearly all the school houses re wiped out. One hospital and a nursery were destroyed. In the moil many of the sick and infirm nd difficulty in obtaining assistce and several of them had narrow capes.

The exact cause of the fire is not own, but it is supposed that spontaneous combustion among the rags s responsible. A high wind b at forty-five miles an hour from northwest drove the flames from rag heaps directly upon the ooden buildings of the Boston cking company. The buildings re soon a mass of flames, and as surrounding property consisted gely of wooden buildings used for orage of rags, the fire department alized that a serious fire was then reatened, and a general alarm was unded. In the gale, shingles, burng paper and oil soaked rags were ng high into the air and went soarg over the city.

Among the structures destroyed re thirteen churches, two hospitals, public library, city hall, five hool houses, twenty business blocks, arly a score of factories and upards of 30 tenements and dwelling uses.

NEW ARRIVALS IN CANADA NEARLY 300,000 IN 1907.

ABOUT SIXTY THOUSAND FROM THE UNITED STATES.

Now that it is known that in the year just closed nearly sixty thousand from the United States declared their intention of making their homes in Canada, it might not be out of place to search for some reasons that would bring this about. These people are but following the example of the fifty-five or sixty thousand who did the same thing the year previous, and an almost equal number who the year before that but followed the example of the thousands of the year preceding. An excellent climate, certain and positive crops of grain of all kinds, good markets for their produce, land—and good land, too— at low prices, easy terms of payment, (not forgetting the 160 acres of land given free by the Government, particulars of which the Canadian Government Agent whose name appears elsewhere will tell you about) and then the splendid social conditions. The situation is pretty well sized up by a writer in one of the magazines. Quoting from this article, we find this: "Those of us who made good in the States," interjected another settler as if to continue the story of his neighbor, "have had it easy from the start; a little money is a mighty good thing on coming into a new country. But those who make an entry, or even buy lands at low rates, are able to square things in two or three seasons' crops. There are hardships in building shanties, and then with increasing prosperity getting things into shape for better homes. But affairs go much as in the States. We have the largest liberty in the world; there is more home rule in the Provinces than in the several states of the Republic. Taxes are light and with only a few million people west of Winnipeg we don't get in each other's way. One's friends over the line probably thought we would not live through the winter; and while it is cold, real cold, it is free from the moisture experienced in the east. Schools are good as encouraged by the Government; the enterprising American promoter and Yankee drummer see to it that we take notice of the latest improvements and best agricultural machinery. Altogether we are as near to affairs as we would be on our own farms in the States. Winnipeg bears the same relation to us as Chicago did at home; and Edmonton with the surrounding region advances as Omaha did in the days when we were as young as the boys yonder. We get together much as they did in the granges over the border; the government has established experimental schools of agriculture, and progress in every line is stimulated. This is a great region for grazing," we hear the Calgary citizen continuing, "and then with building elevators of wheat at one dollar a bushel, many of us find time to go over to the live stock exhibition in Chicago or visit old friends during the course of the winter. Every man is taken for what he is worth or for what he can raise; and in this good air and on this fertile soil we intend to show our old friends that we are made of the right stuff—that we are chips of the old block who built up the American West."

The Wrong Tense.

Dorothea's father was sitting before a window in his country house with Dorothea on his knees. He was looking across the fields with unseeing eyes, when the lassie broke in on his reverie with, "What are you looking at, papa?"

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

"ALL DEALERS"

STRONG MEN AT EIGHTY.

Senator Allison One of Many Who Have Grown Great With the Years.

The April number of the Century Magazine, 1908, contains a masterful article on "The Age of Mental Virility, an Inquiry Into the Record of Achievements of the World's Chief Workers and Thinkers," by Dr. W. A. Newman Dorland.

In view of the effort to induce the people of Iowa to retire the leader of the United States Senate, the work of Dr. Dorland may well command our attention at the present time, as the chief argument is based upon his age, the contention being that he cannot perform the duties of the office of United States senator.

The article, in-so-far as it is germane to the advisability of retiring Iowa's senior senator because of his age, is quoted freely:

"What shall we say of the octogenarians and of those who were older? As is well known, Cato at this age began the study of Greek, Plutarch began his first lessons in Latin, and Socrates learned to play on instruments of music. Arnauld, the theologian and sage, translated Josephus in his eightieth year. Gladstone began his great Midlothian campaign, which overthrew the Conservative government, and put himself and his party in power, at eighty years of age. He became premier for the fourth time at eighty-three, and held the office for two years. West painted admirably until eighty years of age, and Goethe, at Weimer, completed 'Faust' when as old. Hahnemann married at eighty, and was working at ninety-one years. Simonides won the prize for verse when over eighty years of age, and Ranke at the age of eighty began his 'History of the World,' and lived to complete twelve volumes, dying at the age of ninety-one. His later works show no diminution of power, and he wrote until within a few days of his death. Buffon, the great French naturalist, until shortly before his death at eighty-one, labored upon his 'Natural History,' a work of forty-four volumes. Henry G. Davis at eighty-one was nominated for the vice presidency of the United States; Palmerston was prime minister of England when he died at that age, and John Quincy Adams was a power in the house of representatives when stricken at eighty-one. Bancroft published the concluding volume of his 'History' at eighty-two and died at ninety-one. Charles Willson Peale, the painter, at eighty-two, wielded his brush without the aid of spectacles, and did some of his best work. Voltaire at eighty-three published a tragedy, 'Irene,' and Tennyson, whose age was eighty-three, gave the world in his 'Crossing the Bar,' one of the most beautiful of swan songs. Nowton at eighty-three worked as hard as he did in middle life, and Herbert Spencer died at the same age, almost with pen in hand. Thomas Jefferson was fruitful in council until the day of his death at eighty-three. Rennell at eighty-three read a paper 'Concerning the Identity of the Remains at Jerach, Whether They Are Those of Gerasa or Pella,' and the next year another 'Concerning the Place Where Julius Caesar Landed in Britain.' Talleyrand, dying at eighty-four, had, under successive French rulers, been a power all his life. Lander wrote his 'Imaginary Conversations' when eighty-five years old, and at eighty-seven published his last volume of 'Heroic Idylls.' Guizot at eighty-seven showed unimpaired mental vigor and activity, and Hobbes, the English philosopher, at the same age published his version of the 'Odysey,' and his 'Iliad' one year later. A few weeks before his death, in his ninetieth year, he wrote to his publisher, 'I shall have something in English for you shortly.' Von Moltke, when eighty-eight, was still chief of staff of the Prussian army, and John Wesley at that age preached almost every day and still held the helm of Methodism. At eighty-nine Michel Angelo was still painting his great canvases; Theophrastus's greatest work, 'The Character of Man,' was begun on his ninetieth birthday, and Frank Izaak Walton wielded a ready pen at ninety. John Adams retained all his great mental ability up to the time of his death at ninety-one, and Pope Leo XIII showed no sign of intellectual decreptitude when he died of old age at ninety-three. Cornara was in far better health at ninety-five than at thirty, and, it is said, was as happy as a boy. Fontanelle was as light-hearted at ninety-eight as at forty. Titian at ninety-eight painted his 'Battle of Lepanto,' and, wonder of wonders! Chevreul, the greatest scientist, whose untiring labors in the realm of color have so enriched the world, was busy, keen and active when death called him at the age of 103.

"With such achievements of the truly aged confronting us, who so bold as to attempt to set a limit to the usefulness of any man? It remains true, as the venerable Dr. Cuyler has indicated, that for many of the purposes and achievements of life youth and early manhood are the most favorable; but for certain others the compacted mental fiber, long experience and matured judgment of old age, are the most serviceable endowments. The one cannot usurp the place of the other, and the first only paves the way for the second."

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

DeWitt's Kidney and Bladder Pills

promptly eliminate poisons from the system and at the same time make the kidneys well and strong.

For Weak Kidneys, Backache, inflammation of the bladder and all urinary troubles DeWitt's Kidney and Bladder Pills are unsurpassed.

WHAT IS IT?

Merely a little map to show you something of the immensity of the territory served by the Rock Island-Frisco-C. & E. I. Lines.

Just think of all those miles of steel humming to the tune of whirling wheels, day and night!

Some size to a system like that—don't you think?

And it means a great deal to the welfare of your community—this railroad which carries you and your freight.

It's a bond of communication between you and your neighbors—between you and the market for your products.

It's an enterprise worthy of fostering—is it not?

Remember, too, that the country needs the railroads as an aid in development and in the transaction of business, and the railroads need you, the traveler and the shipper—it's a community interest proposition, you know.

Let's all pull together!

"To be dunned" is a phrase more familiar than popular. Yet "to dun" can claim an ancestry equal or superior to a good many of the sprigs of nobility that frequently land on our shores. ROUT KURD RIDERS

COSSACKS WIN PITCHED BATTLE THOUGH OUTNUMBERED.

DESTROY THREE VILLAGES

Robber Tribes in Persian Territory Severely Punished—French Repulse Fierce Attack of Berbers.

Tiflis. — The Russian troops which recently invaded Persian territory in the vicinity of Lenkoran for the purpose of punishing Kurdish raiders of the Russian garrison at the Frontier post, Belesuvar, April 13, acted with a promptitude calculated to overawe the tribes of the first class near Belesuvar.

The fight which ensued assumed the proportions of a pitched battle. The Russians were greatly outnumbered, but they pressed the battle with great vigor and routed the Persians, inflicting a loss of 34 men killed and 50 wounded. The remainder of the tribesmen broke and fled. The Russians lost one officer and seven soldiers wounded.

Cossacks Destroy Villages.

The cannonade set fire to the village of Belesuvar, the destruction of which was completed by the Cossacks after a ruthless house to house search for the Russian arms stolen during the raid of April 13.

Pressing their advantage, the Russians bombarded the neighboring villages of Kodzhabeklu and Zariah and razed both.

The non-combatants suffered great losses.

Home of Robber Tribes.

The theater of war is in the mountain range of Karadagh, which wedges in the Russian boundary, and is the traditional kingdom of robber tribes which boast thousands of fighters armed with modern implements of war and organized with a semblance of military discipline. The robbers had cut the telegraph lines in order to hamper the mobilization of an expedition which Persia is assembling against them at Tabriz.

The Russian expeditionary force now on Persian soil aggregates 400 Cossacks, a squadron of sharpshooters and a battery of machine guns. It was intended to send a much larger force there, but a phenomenal flood of the Aras river hinders the concentration of reinforcements from Baku and other points north.

French Repulse Berbers.

Colomb Bechar, Algeria.—A French column posted on Talzaza hill, which commands the plain of Tamet, was attacked fiercely at daylight by a number of Berbers, who, with nomad Arabs, have been concentrating for some weeks past on the western frontier of Algeria.

Although surprised, the French force rallied and fought desperately, not only beating off their adversaries, but pursuing them for a distance of six miles.

So hot was the pursuit that the Arabs, in their headlong flight, abandoned their dead and wounded.

Several green flags of the prophet also fell into the hands of the French.

This French victory was costly. Twenty-eight men, including an officer, were killed and 100 men, including ten officers, were wounded.

The losses were greatest in the Foreign Legion.

The Berber losses were much heavier, no less than 125 dead bodies being found by the French troops.

The French pursuit was stopped by darkness.

ALDRICH BILL TABLED.

House Committee Votes to Lay Aside Currency Measure.

Washington.—The house committee on banking and currency Friday voted unanimously to table the Aldrich financial bill. It also was decided to give a hearing to Representative Vreeland of New York, who recently introduced a financial bill which is looked upon as a substitute for the Aldrich measure.

The discussion in committee was brief. The only point debated was as to whether or not the committee should make a formal report giving its reasons to the house for its unfavorable action, and the conclusion finally was reached that no reasons should be given. Consequently the committee's report will be a mere statement of the action of the committee.

Pat McCarren Unseated.

New York.—State Senator Patrick H. McCarren, leader of the Kings County Democracy, was unseated Wednesday night as a delegate to the party's state convention in Carnegie hall to select representatives to the Denver national convention.

The convention then selected delegates-at-large and adopted a platform which declared the delegation should be unhampered by instructions.

FLOOD LOSS IS MILLIONS

TOWN OF CRAIG DESTROYED BY THE HAUSER LAKE DISASTER.

Broken Dam Certainly Will Be Rebuilt—City of Great Falls Not in Danger.

Helena, Mont. — With the little town of Craig wiped entirely off the map, thousands of head of cattle and livestock drowned and scores of valuable ranches greatly damaged, the loss from the flood caused by the breaking of the great 70-foot dam at Hauser lake, it is conservatively estimated, will reach several million dollars.

In view, however, of the contract between the Helena Power Transmission company, owners of the dam and the Wisconsin Bridge and Iron company of Milwaukee, the latter company, it is said, will be liable for all damage resulting from the flood.

After making a careful examination of the dam site Wednesday, since the water receded, A. H. Gerry, Jr., general manager, is of the opinion that the wrecked structure can be rebuilt at a cost of probably less than $250,000. That the dam will be rebuilt at once and the construction of the third dam at Wolf creek which was approved by Secretary of War Taft will not be delayed, is assured by a telegram received in Helena from former Gov. Samuel T. Hauser, president of the Helena Power Transmission company, who is now in New York.

The indications are that the water has receded sufficiently to prevent any great damage at Great Falls. Every precaution has been taken to protect the Boston and Montana smelter, which is situated on the river banks at Great Falls, and it is now believed that the plant will not suffer from the flood waters.

Butte, Mont. — Great Northern Agent Stewart of Wolf creek reports to the local office that the track from Wolf creek east as far as he can see is flooded to a depth of three feet and that for three miles or more it is completely washed out. It is figured conservatively that for at least 20 days no trains can go over the line.

BAD FLOODS IN SOUTHWEST.

Rivers in Texas and Arkansas Doing Great Damage.

Fort Worth, Tex. — Clear Fork and West Fork are raging torrents and the water is the highest for 20 years. One man lost his life in Clear Fork in sight of citizens who were unable to rescue him. People are leaving lowlands for higher ground and several had narrow escapes from drowning.

Little Rock, Ark. — Reports from the Lower Arkansas river say the levees are breaking in many places on account of high water. A message received here from the penitentiary told of a break in the levee above the state farm. Hundreds of convicts rushed to the break and aided in closing it. The levees opposite the farm will have to be cut in order to save them.

Society Girls as Firemen.

Baltimore, Md.—Carrying buckets of water across the sloping roof of Miss Marie B. Rogers' handsome country residence, near Rogers Station, Misses Mary and Fanny Bayly and Mildred Dulany, three young society women of Baltimore, Friday held in check for an hour a fire which had broken out near a chimney. When the fire companies arrived the blaze was extinguished after the rear part of the house had been badly damaged. The Misses Bayly are nieces of Miss Rogers and Miss Dulany is their guest.

MISSING CROOK ROBS BANK

ESCAPED CONVICT LOOTS BANK AT CHAUTAUQUA, KAN.

Bandits Secure $3,000 and Depart for Osage Hills with Posse in Pursuit—One Is Recognized.

Coffeyville, Kan. — Two men entered the Citizens' bank at Chautauqua, 25 miles west of Coffeyville, Friday, and after forcing Cashier C. C. Walterhouse and Del Easley, a business man, to enter the vault, locked them in, secured all the currency in sight, amounting to about $3,000, and escaped into the Osage hills across the line in Oklahoma. Four posses started in pursuit and as the roads were muddy it was believed the robbers would be captured. The robbers secured but half an hour's start.

The robbery was one of the most daring ever executed in this part of Kansas, the scene of many daring hold-ups on the part of the Dalton, Starr and other gangs of outlaws who from time to time have made their rendezvous in the mountainous country of near-by Oklahoma.

Cashier Walterhouse had scarcely opened the bank at Chautauqua in the morning and placed his currency on the counter ready for the day's business when the two robbers entered. The only other person in the place was Del Easley. The robbers, both of them well dressed, made their way leisurely to the cashier's window. One of them was a man well known about town, and when he commanded Walterhouse and Easley to throw up their hands, the latter two took the matter in the light of a joke. The serious intentions of the robbers were realized a moment later however, when they both drew revolvers, and, pointing them at their victims, ordered them to get into the vault. Without further ado Walterhouse and Easley complied. The robbers quickly slammed the door shut, and then leisurely went about their business of

Cashier Walterhouse stated positively that one of the robbers was William Tenant, aged 23 years, formerly of Chautauqua, and who recently escaped from a jail at Nowata, Okla., where he was being held on a charge of horse stealing. Tenant some time ago borrowed a small sum of money from the bank, and Mr. Walterhouse said that when Tenant entered the bank Friday he supposed he had come to renew the note or to take it up.

MINNESOTA SOLID FOR TAFT.

Republican Convention Instructs for the Secretary of War.

Minneapolis, Minn.—The Minnesota Republican state convention Thursday elected four delegates-at-large to the national convention at Chicago and instructed them to vote for the nomination of Secretary of War Taft until he is "selected by the convention."

The action of the convention insures that the 22 votes of Minnesota in the national convention will be cast for the secretary of war, as all the 18 district delegates are under Taft instructions.

Theater Panic Averted.

Saginaw, Mich.—The Bijou vaudeville theater here was emptied in two minutes Friday night without a panic when the building was filled with dense smoke from the explosion of a gasoline lighting plant in an adjoining building. Flames were leaping 60 feet in the air as the audience emerged from the theater, but cool heads prevailed and the exits were kept clear.

CLAPP IS MADE CROW CHIEF.

Minnesota Senator Honored by Montana Indians.

Washington. — Senator Clapp of Minnesota, chairman of the committee on Indian affairs, is now a "Head Big Indian," chief of the Crow tribe.

He was given a great surprise Thursday by Chief Plenty Coos and his fellow-tribesmen, who have been witnesses before the Indian committee for the past three weeks. The chief marched into the committee room at the head of the band and through an interpreter phlegmatically informed the senator that the treatment that had been accorded the Indians was highly appreciated, and that an appropriate gift was due the white chief of the committee. Chief Plenty Coos then took from one of his followers a huge war bonnet, which had been the chief's insignia of rank and worn by him whenever he went into battle. He said that he was now a man of peace and that the bonnet was of less value to him on the reservation than it would be to the senator in congress and therefore he wanted the senator to take it.

Senator Clapp was "completely flabbergasted," according to his own description of his emotions. He took the war bonnet and thanked the chief.

The decoration would create a sensation in the senate chamber if the senator should decide to wear it there. It is made of eagle feathers, a band of which goes entirely around the head and droops almost to the feet.

Plenty Coos and his band started for their reservation home in Montana Friday.

FUN FOR FLEET CREWS.

Men from Battleships Have Gay Day at San Diego.

San Diego, Cal. — After two days of pageantry on sea and land there was a restful lull in San Diego's celebration in honor of the American of the officers, including Rear Admiral Thomas, were entertained at a picnic some 30 miles in the country. Boat races on the bay during the morning, a baseball game in the afternoon, free lemonade and fruit, horseback rides, trolley excursions and sight-seeing tours occupied the attention of the 2,000 sailors who came ashore on liberty.

All of the 16 vessels of the fleet at anchorage off Coronado were thrown open to visitors from ten a. m. to five p. m., and the excursion launches running out to sea had all they could do to handle the interested throngs. At night there were fireworks.

Attacks Grain Dealers.

Lincoln, Neb. — Complaint was filed with Attorney General Thompson Tuesday against the Nebraska Grain Dealers' association, alleging that it is a trust and as such is trying to drive independent dealers out of business. The complainant is G. F. Godown, secretary of the Beaver Valley Grain company, at Danbury, who asserts the members of the association, in an effort to deprive him of business, are paying several cents more for grain at Danbury than the market prices and much more than they pay at their elevators in other towns where they have no competition.

Stampede of Elephants.

Los Angeles, Cal.—An explosion and fire at the Standard Oil company's plant at Riverside Thursday afternoon, caused a stampede of elephants belonging to a circus, resulting in one person being killed, another fatally injured and several injured. The elephants are at large.

SYNOPSIS.

arton H. Barnes, a wealthy American ing Corsica, rescues the young Eng- lieutenant, Edward Gerard Anstruth- and his Corsican bride, Marina, hter of the Paolis, from the mur- us vendetta, understanding that his rd is to be the hand of the girl he , Enid Anstruther, sister of the Eng- lieutenant. The four fly from Ajac- to Marseilles on board the French mer Constantine. The vendetta pur- and as the quartet are about to d the train for London at Marseilles, ina is handed a mysterious note ch causes her to collapse and necessi- a postponement of the journey. nes and Enid are married. Soon r their wedding Barnes' bride dis- ears. Barnes discovers she has n kidnaped and taken to Corsica. groom secures a fishing vessel and bout to start in pursuit of his bride's tors when he hears a scream from villa and rushes back to hear that truther's wife, Marina, is also miss- Barnes is compelled to depart for sica without delay, and so he leaves search for Marina to her husband le he goes to hunt for Enid. Just be- Barnes' boat lands on Corsica's e Marina is discovered hiding in a ner of the vessel. She explains her ion by saying she has come to help nes rescue his wife from the Corsi- s. Barnes and Marina have unusual entures in their search for Enid. In king shelter from a storm the couple er a hermitage and there to their azement they discover Tomasso, the ter father of Marina. Tomasso learns t Marina's husband did not kill her ther. Many wrongs are righted. Barnes surprised in the hermitage by Rochini d Romano, the two detested bandits, o have been searching for him to rder him for his money. The bandits empt to take away Marina. Barnes rts out the door. The bandits start to rsue, but as they reach the door both laid low by Barnes' revolver. Anstru- r arrives to find Marina and learns that has been lured away by the telegram hich had been sent by another without knowledge. The two start in search of arina. Barnes and Edwin take different ads in their search. Edwin is trapped a tower where he is made prisoner. In deavoring to escape he opens a trap or where he finds Emory, the detec- e, who had been imprisoned there pre- usly. In another secret chamber To- sso is found imprisoned. Edwin in mbing down a wall sees upon the porti- of a farm house Marina and Count anella sitting and talking together. rnes arrives and finds the bridge swung eventing his crossing over. He hears e voice of Marina crying for mercy. He amines his revolver.

CHAPTER XVII.—Continued.

Hastily he selects a spot with a good ne of sight and stands waiting—wait- g for the chance; for intervening ines trouble him, and the foliage of a reat orange tree, standing alone in he garden and midway between the ouse and the turret, jumbles the light, hich is only the faint sheen of the ising moon.

* * * * *

Slightly before this, Marina had een sitting on the long veranda of he Corsican farmhouse, the lighted amps placing some tinges of ruby in er dark brown hair and giving color o the light costume that enhances er loveliness.

Quietly entering from the house, Cipriano Danella, costumed in the old ime, romantic Corsican garb, gazes pon the exquisite girl outlined by the ight costume.

The eagerness of his glance draws Mrs. Anstruther's eyes to him. She looks up and says: "Ah, Count Cipri- ano, it was very noble of you, who I had feared would hate me, to rescue me from the 'Lucchese.' At your ad- vice, I have rested here, but to-mor- row, notwithstanding the romantic serenade you have provided for me, I must go on to Bastia."

"Oh, yes, to Bastia," murmurs the count softly, and stepping nearer, says suavely, though there is a weird sug- gestion in his voice that somewhat dis- quiets the lady: "We are alone here in my old farmhouse, only old Martha, the cook, who, far away, will snore till dawn, and my nephew, Count Enrico."

"I haven't seen him," remarks the girl uneasily.

"Parbleu, you did once, the gentle- man with the scar upon his face, the one who delivered the letter that caused your nerves to jump in the Marseilles railroad station. Even now his name seems to have an ill effect upon you," for Marina has started up, and the fluttering of her light skirts shows her limbs are trembling.

"Mia Madre, was he the man?" she shudders. "And was it you who penned it?" Then some divination entering her mind, she implores pathetically: "Holy Virgin, no harm has come to Edwin? Have I not kept the cruel pact? Have I not deserted my dear husband? It was the promise of that awful letter that no evil should come to Edwin if I left his arms."

"Ah, but you intended to return to them, bella mia," smiles the gentle- man.

The young wife scarcely heeds the insinuation of the subtle Italian term, but stammers confused: "Why do you think that?"

"Ma foi, you were journeying to Bas- tia to meet your husband, lured there by a telegram I directed to be sent to you from that place," whispers the count significantly.

"The telegram was false? Edwin is not in Corsica? Edwin is safe? Madre di Dio, I thank thee!" Marina's voice rings with a hope that produces a su- preme joy in Cipriano's occult mind.

This lady upon whom he has set his fervid heart, is courage personified as regards her own safety, but the great love she bears this Englishman makes her timid for him. 'Tis Danella's plan to use for its own destruction this gen- erous and mighty love.

"That's what I wish to discuss with you," he observes quietly, gazing upon a face to which each wave of passion adds such loveliness that he cannot restrain the monstrous proposition on his tongue. It breaks forth. "My poor brother loved you, but you gave him death," he whispers passionately. "I love you, but, per Baccho, you will not give me death—but love!"

"Love? Impossible?" Marina starts from him wildly; then scorn coming to her eyes and voice, remarks haughti- ly: "You are speaking to a wedded wife, Monsieur."

"Not legally wedded, I have hopes. My brother, poor Musso, perchance by his lips in private gave his consent to your nuptials, but of that I have no proof. There is no written document. You are still a child—but 20—accord- ing to the French law, you cannot wed without the consent of your guardian for several years. Anstruther, in his

"Edwin, My Husband——My Flowers Brought You to This!"

careless English way, thought not of my husband—my flowers brought you it; you were too eager for his wooing to this—following for love of me—" to note the omission. By my poor brother's death, his authority as your guardian passes to me."

"Pish! I was wedded in Musso's very presence," answers the girl, proudly; then cries: "I am Edwin Gerard An- struther's wife, by the church and by my love."

"'Tis a pity; you compel me to make you his widow."

"Edwin's widow?" At that awful word, Marina shudders and sinks over- come into a chair.

"Listen to me!" Cipriano's voice is deep with menace, yet soft with pas- sion. "On the further cliff down the coast are quarries of dazzling-hued green Orezza marble that is taken from this island to deck palaces."

"Orezza marble, what has that to do with Edwin's life?" half scoffs the girl.

"But it may have something to do with his death," observes Danella. "For the blasting of the rock is used much dynamite. I have robbed the quarries and have mined the base of yonder turret with the explosive. In it are three men: one, old Tomasso, whose knife entered my brother's heart; the other, an American detec- tive who has placed his Yankee nose into this vendetta, unfortunately for himself. Emory is in that turret. You will give something for these men's lives?"

"For Emory and dear old Tomasso? Certainly—anything in reason." The lovely eyes are filled with a strange alarm.

"Ah, but it must not be in reason—it must be in a passion as exalted as my own—for you. When I direct my nephew, who is bound to me not only by ties of blood, but of gratitude, and who is inflamed against you all by his oath of vendetta for the murdered Musso, he will light the fuse leading to the mine, and puff!—that tower, with every man who's in it, goes into the air!"

"Murderer!" shudders Marina, who has listened astounded.

"Ah, you have sympathy for these poor fellows! That is well; I shall love you more for your tender heart," continues Cipriano softly.

"But the law!" half screams the lady.

"Pah—in Corsica—in a vendetta. Besides, the blown-up tower will be thought but another outrage of the rioting 'Lucchese.' Oh, this is no worse than dagger thrusts or blows from bullets which always come in a blood feud. And in that mined turret," Ci- priano's voice is low but terrible, "there is another man, who following the cyclamen flowers you dropped in the road and a few more we added to lead him into that fatal tower—"

"Edwin!" Marina's limbs hardly up- hold her.

"The man you foolishly call hus- band." The finger of the suave wooer points to the turret's upper floor.

Then the game is on!

Her eyes following his gesture, a shuddering cry, low, broken, despair- ing yet full of tenderest love, issues from the girl's lips that have now be- come white as death itself: "Edwin, my husband—my flowers brought you to this—following for love of me—"

"He is caught like a rat in my trap!" smiles the count.

"Not without warning, wretch!" She would spring from the veranda and run over to the base of the tower and call up to the man whose face she sees outlined against the grillage of the upper window, through whose iron bars he is struggling to force his way.

But Cipriano's strong hand clutches her white arm; he pulls her back into the seat and commands: "Not until you've heard my words, which may save his life!"

"His life? Tell me!"

"I have explained you are not legal- ly this man's spouse," Cipriano's voice is trembling with desire. "Become mine! I had purposed in Nice to give you a very cruel death for what you had to do with my brother's killing, but when I saw your beauties and knew that the little child I had once seen had grown into a Venus, but no marble one, to myself I said: 'Corpo di Baccho, 'tis in the blood of the Danel- las to love this woman. I am enamored of her as wildly as poor dead Musso. 'Tis a medieval idea; instead of slay- ing her, I'll have revenge in winning her—against herself, the wife—also against the husband."

"Not against Edwin! You have no cause of hate against him."

"Vendettas are caused by love as well as hate! He dares to call you wife. Each moment my eye rests upon you increases thy sweetness to me. You are Corsican—so am I—no for- eigner should stand between us."

"Holy Virgin, you expect me to love you?" stammers the girl.

To this he answers with Machiavel- lian subtlety: "Of course not now, but that may come in time. At pres- ent you love Edwin! Because of this devoted love—to save this gentleman you adore—you give yourself to me."

At his hideous mathematics the girl utters a cry of horror.

"If you would save the life of this Englishman whom I should dispatch by my oath of the vendetta, at once your kisses.

"Would Edwin wish to live, his wife untrue? Monster!" Marina's face blazes with shame.

"Oh, no, not monster; simply a man who has gone crazy for thee. Understand, if you are mine, the man in that tower lives. To-night on the vessel that is anchored here, I'll bear you away to some far distant isle of Greece."

"My husband would follow us for- ever!"

"Not if he knew you were faithless! 'Tis not their English way. A woman who is dishonored is no more to them than a tainted orange."

"Dishonored in his eyes? Never!" cries the girl. "I'd sooner you killed him—sooner you killed me, much! I'm in your power; I'm alone here, help- less in your hands. Kill me. Let my darling go."

As Danella has clutched her, the old neck fastenings of the ancient gown have given way; she plucks its laces further apart over her dazzling bosom and begs: "Bury your stiletto here, but spare my husband."

Her pose only makes her the more alluring to his devouring eyes.

"What, kill the being I adore!" shudders Cipriano. "I have no stiletto and I have taken care no knife is near your desperate hands, my lady. Be- sides, I'll never let you go. If you will not leave your husband as his wife, leave him as his widow."

"Here, Enrico!" he calls.

The young cavalier with the scar above his eyebrow comes onto the veranda and says: "My uncle, I honor thee, you have decided to give this woman death?"

(TO BE CONTINUED.)

DRAINING SWAMP LANDS.

The Process Is Going on All Over the Country.

At an expense of about $20 an acre, Dan V. Stephens, of Fremont, Neb., is said to have converted 420 acres of practically worthless Platte Valley swamp into valuable farm land, worth, perhaps, $100 an acre. While the food producing capacity of the country and its home manufacture consuming ca- pacity are being enlarged by irriga- tion, the gaining of the same end by the converse process of drainage is not being neglected. The Dismal Swamp of Virginia and North Caro- lina, 1,000 square miles in extent, has long been shrinking as part after part has been drained and turned into the most fertile of farm land. Eventually, the entire area will be producing crops. Minnesota has recently drain- ed swamp lands belonging to the state, and the value of the land at once rose rapidly. The state of Florida is largely a swamp which will one day be turned into a garden spot. Drain- age operations are becoming common along the Missouri in Nebraska.—Kansas City Star.

A Strange Seed Pod.

The antirrhinum, or snapdragon, is one of the old-fashioned garden flow- ers known by everyone. Although it is a visitor from southern Europe it has been here so long that it has become naturalized. When we say "lion's mouth," "frog's mouth," "calf's mouth," "rabbit's mouth," we mean snapdragon, all these names being suggested by its grotesque, maskilke corolla. But there is something still more grotesque if we will wait till the seed time and gather the dried brown skeleton of the seed pod. Look at them sideways, under a bright lamplight if possible, and you will find they have quite a resemblance to a rhinoceros. Remove the calyx and the little horns on the nose, and look at them from the front, and they have a still more striking resemblance to human skulls, and by turning them about you get all sorts of queer ex- pressions on the grinning mouth.

Not a Disbeliever.

"I suppose," remarked the dear girl, "that you do not believe in love at first sight?"

"Oh, yes I do," rejoined the old bachelor. "If men were gifted with second sight they would never fall in love."—Home Magazine.

Britt, Iowa. Apr. 16, 1908.
To the citizens of Hancock Co:—

I, being a Candidate for State Representative of this County, it is a right, if not a duty, to state at least some of the grounds on which I ask support for said office.

I believe the Laws, (The Two-cent Fare Law, the Anto-pass Law, the Corporation Law and the Primary Law), passed by the last Legislature is a step forward and in the interests of the people. And I should favor laws passed governing the railroads, freight and express companies that would give the farmers and merchants a "square deal."

As to school laws, we have a commission of famous men in educational lines working at the present time who no doubt will support a Bill that will be on a practical business line, a saving to the public and a blessing to posterity. We may rest assured that that Commission will do their full duty.

As to the United States Senatorship, if I should be nominated and elected I would vote for either Senator Allison or Governor Cummins, whoever should receive the state wide nomination on June 2. 1908.

I would say further (personally) that I believe it is the best interests of the people of the State of Iowa that Senator Allison retire in all honor, and that we elect Gov. A. B. Cummins for United States Senator. I shall vote at the primaries on June 2nd. for Gov. Cummins for U. S. Senator.

Respectfully submitted,
A. J. Cole.

IOWA STATE NEWS

Events of Recent Occurrence Throughout the Commonwealth.

JOHN N. BALDWIN DIES.

Noted Iowan Passed Away at Omaha on the 19th.

Omaha.—John N. Baldwin, one of Iowa's most noted sons, died here on the morning of the 19th.

Mr. Baldwin was general solicitor of the Union Pacific Railroad company, having removed here from Council Bluffs in 1901 to assume the duties of that position. He was 50 years of age and for twenty-nine years had been in the practice of the law in Council Bluffs and Omaha. He was a son of Caleb Baldwin, one of the conspicuous jurists of early Iowa, and for several years a member of the supreme court of the state.

John Nehemiah Baldwin was born in Council Bluffs on July 9, 1857, his parents having removed there from Fairfield, Ia., where they had settled when the came from Pennsylvania, but a short time before. He was married in December, 1878, to Miss Lilia G. Holcomb of Cedar Rapids, and two children were born to them, a daughter and son.

Mr. Baldwin attained high position in his profession because of his power of oratory and his keenness of mind. He was forceful and eloquent and his good nature and genial qualities made him companionable and popular. Hon. George F. Wright, of Council Bluffs, was his associate in the law business while he was resident of that city, and the firm name of Wright & Baldwin has been perpetuated, George S. Wright having succeeded his father in the business at the time of the latter's demise in 1906.

Mr. Baldwin was a republican and at different times took a lively part in politics. He was chairman of the republican state convention of 1894 in Iowa and in 1892 was a candidate for presidential elector at large. In 1869 he nominated William B. Allison, Iowa's candidate for the presidency, at the St. Louis convention, this effort making him known widely for his oratorical ability.

His death was caused by Bright's disease. He returned a few weeks ago from California, where he spent several months for the benefit of his health, but was little improved upon returning.

DAN PATCH LINE STARTS.

Active Work on Electric Road To Begin at Once.

Dubuque.—A decided change in the plans of the Dan Patch Air Lane electric road, now in process of construction between Dubuque and Minneapolis, has been announced. The crews at present at work on the north end of the line, will be transferred to Dubuque and the active end of construction will be begun from here. Six hundred thousand dollars will be put into the local end of the work at once, which means a boom for Dubuque.

The government dredge boat No 26, which has been in course of construction at the Dubuque Boat and Boiler Works yards for the past six months, has been launched. The craft cost $125,000.

CLAIM THEY SAW WEAVER.

Iowa Falls Man Says He Recognized Missing Attorney.

Iowa Falls.—It is stated here that while Mr. and Mrs. A. C. Otterbach of this city were in Council Bluffs a few days ago, en route to the southwest, they saw Attorney W. L. Weaver, who has been missing since Feb. 24, on the streets of that city. While there is a persistent report that the last grand jury returned an indictment against Weaver, the report lacks verification, as nothing regarding the actions of the grand jury has been made public officially, as yet. The fact that the police officers of the county have taken no steps to locate Weaver, the indications are that the grand jury did not return an indictment.

Greek Feud Ends in Murder.

Davenport.—A feud which originated in Greece resulted in the fatal shooting of George Thotis, a Greek laborer, and the wounding of Gregoss Baromis. The murderer is Nicholas Baromis, a third Greek who made his escape, although the police scoured the vicinity and searched all outgoing trains.

Child Is Fatally Scalded

Boone.—The 5-year-old daughter of Mr. and Mrs. Sam Kelly, living east of Boone, sat down backward into a pail of scalding water. When the flesh was treated it dropped from the bones. The child's death is hourly expected.

HUNDREDS ARE "FIRED".

Crisis Is Reached in Fort Dodge Stucco Mill Strike.

Fort Dodge.—Without a moment's warning, 300 employes of the United States Gypsum company of this city were discharged on the 17th as the day shift started to make way for the night shift at the mill. The indications now point to a complete shutdown of the entire stucco industry here, which is the largest in the United States.

The trouble started when miners of the United States company, known as the "trust," asked that the old scale of 45 cents a ton for mining gypsum rock be restored. That was the price paid until the financial stringency came on last fall when the company cut the scale to 40 cents. The miners gave the company to understand that they would wait until the 22nd and if their demands were not granted the mill hands would strike in sympathy with the miners.

On the 16th, the miners at the American Independent Gypsum company gave notice to the manager that the scale would have to be advanced 5 cents a ton by the 21st or all would strike. The manager told them to take their dinner pails and go home for the mill would be closed down at once. All of the other mills had held their answer in abeyance until the evening of the 17th, when the men were notified that they were discharged. A general foreman and an assistant were retained to look after the mill.

There are but two independent mills running. The indications point to a general shutdown of all the mills as the miners in all mills demand an advance.

FIRE AT DESOTO.

Kile Lumber Company's Yards Are Destroyed

De Soto.—De Soto on the 16th was threatened with complete destruction when a mysterious fire starting at midnight destroyed the Kile Lumber company's yards, the J. W. Blackman ice houses and the large corn crib of H. L. Malcomb.

The total loss will be approximately $11,500, with $5,100 insurance on the lumber stock. The other losses will be total.

The wind was blowing almost a gale at the time was driving the fire directly upon the best residence street of the city.

The water in the city resevoir was quickly used up and the firemen were then compelled to get their supply from the De Soto Brick and Tile Company plant tank. Calls were sent to several of the surrounding towns and to Des Moines to be ready to send men and apparatus should the residence district start burning. But this was unnecessary as the wind quieted down and the flames slowly burned themselves out.

The origin of the fire is a mystery and it is probable that an investigation will be started by the officials.

KILLED BY DES MOINES BOY.

Massachusetts Woman Hit by Fred O. Thompson's Auto.

Cambridge, Mass.—Frederick Oliver Thompson, of Des Moines, Ia., a first year law student at Harvard university was placed under arrest, charged with manslaugtter, following an automobile accident in which an unknown woman was struck and fatally injured by a machine in which Thompson and another Harvard student were riding.

The woman died at the Cambridge hospital without recovering consciousness. Thompson was released on bonds of $5,000.

Des Moines.—Frederick Oliver Thompson is the son of H. DeVere Thompson, vice president of the Des Moines Union, and affiliated with the Hubbells in the real estate business in Des Moines. He is a graduate of the collegiate course and had entered upon his law course only last fall. He is 24 years of age and one of the most prominent among the Des Moines younger social set. A brother Oliver, is now in Colorado.

He Faces Shortage Charge.

Council Bluffs.—County Attorney J J. Hess filed a petition to oust permanently H. V. Battey, who was temporarily removed from office as clerk of district court by Judge Wheeler pending an investigation of alleged irregularities. The petition charges that Battey altered the records of his office and that he is short in his accounts about $2,000. Specific instance of alleged alteration of record are enumerated in the petition.

Losing a Tenant.

A landlord in the Highlands of Scotland had a "crofter" tenant, who paid him ten shillings a year as rent for the little farm. At the end of the second year the tenant came to the landlord and said that he was not able to pay more than five shillings a year, as crops had been poor. The landlord agreed to this.

At the end of the third year the tenant appeared before the landlord again and complained that things were going so poorly with him that he was not able to pay any rent. The landlord agreed to let him remain rent free. At the end of the fourth year the tenant once more appeared before the landlord, and said:

"Colonel, if you don't build me a barn I'll have to move."

The Thunder Cloud.

Rt. Rev. Chauncey B. Brewster, D. D., bishop of Connecticut, told an interesting story not long ago of a colored clergyman, who was far from being a brilliant preacher, and had the habit, when exhorting his brethren, of shouting in a very loud tone of voice. The bishop thought he reprove him, so suggested kindly that perhaps his sermons would have as good an effect if delivered more softly. But the colored minister replied: "Well, you see, it's this way, bishop, I has to make up in thunder what I lacks in lightning."—Harper's Weekly.

Out of the Mouths of Babes.

Little Arthur stood peering down into the countenance of his baby sister, whom the nurse was singing to sleep.

"Say, nurse," he finally whispered, "it's nearly unconscious, isn't it?"

The nurse nodded in the affirmative, and sang on.

"Then don't sing any more, or you'll kill it."

The Poet's Error.

"Of course," said the poet's friend, "he has his faults, but he's a true poet. He gives his life to the service of the muses—"

COFFEE EYES.

It Acts Slowly But Frequently Produces Blindness.

The curious effect of slow daily poisoning and the gradual building in of disease as a result, is shown in numbers of cases where the eyes are affected by coffee.

A case in point will illustrate:

A lady in Oswego, Mont., experienced a slow but sure disease settling upon her eyes in the form of increasing weakness and shooting pains with wavy, dancing lines of light, so vivid that nothing else could be seen for minutes at a time.

She says:

"This gradual failure of sight alarmed me and I naturally began a very earnest quest for the cause. About this time I was told that coffee poisoning sometimes took that form, and while I didn't believe that coffee was the cause of my trouble, I concluded to quit it and see.

"I took up Postum Food Coffee in spite of the jokes of Husband whose experience with one cup at a neighbor's was unsatisfactory. Well, I made Postum strictly according to directions, boiling it a little longer, because of our high altitude. The result was charming. I have now used Postum in place of coffee for about 3 months and my eyes are well, never paining me or showing any weakness. I know to a certainty that the cause of the trouble was coffee and the cure was in quitting it and building up the nervous system on Postum, for that was absolutely the only change I made in diet and I took no medicine.

"My nursing baby has been kept in a perfectly healthy state since I have used Postum.

"Mr. ———, a friend, discarded coffee and took on Postum to see if he could be rid of his dyspepsia and frequent headaches. The change produced a most remarkable improvement quickly."

THE CALL OF THE SOIL.

DAYS OF FINANCIAL STRESS MAKE FARM LANDS LOOK RICH.

A staff contributor of a southern newspaper has taken up the question of the return to the farm of many who had forsaken it for the glitter of the city. He says: "It is a well known fact that the history of this Government shows that those men who have been most successful in life and who have left their impress upon its people and its institutions as statesmen, soldiers, financiers—have as a rule been those whose youth was spent on the farm, and it is to such as these that there comes with overmastering power THE CALL OF THE SOIL. More especially does it come with redoubled persuasiveness, greater power and sweeter pleading to the man of affairs when the clouds of financial unrest begin to darken the sky; when the cry of panic causes people to lose their wits and act like stampeded cattle; when with reason or without reason there arises before him the specter of ruin, grinning in his face and waving its gaunt arms in threatening gesticulation.

The pitiable state into which some men were brought by the recent financial flurry, which happily is now passed, suggests these reflections. Some were ruined and a very few became insane because of their losses. Two or three took their own lives.

It is when such times come that the statesman, the great financier, and the man of affairs becomes tired of the struggle. He lays down his pen, turns from his desk and listens to the CALL OF THE SOIL.

There are hundreds of cases throughout the United States of those who have money in the banks and are looking for investment in lands. No investment is better or safer. Take, for instance, the lands in Western Canada that can be bought at from $10 to $15 per acre which yield a revenue equal to and often greater than their original cost. Those lands make a certain investment. During the past two months large investments in these lands have been made, some intending to use the lands for farming purposes of their own. Others to resell to farmer friends. The agents of the Government of Canada located at different points throughout the United States have in their possession particulars of districts in which there are free homestead grants of 160 acres each accessible to railways, markets, schools, churches, &c. These are valuable lands. These agents will be pleased to give information to any desirous of securing, and will tell all about the railway rates, &c.

Afraid of Reverses.

"Why did you turn that young man down?" asked the genial younger partner. "He looked willing and capable."

"He might have been all that," growled the crusty senior, "but I'm told he is an inveterate joker."

"Well, where's the harm in that?"

"It's this: The first thing he'll do if I take him on will be to take me off."

THE COME AND SEE

This sign is permanently attached to the front of the main building of the Lydia E. Pinkham Medicine Company, Lynn, Mass.

What Does This Sign Mean?

It means that public inspection of the Laboratory and methods of business is honestly desired. It means that there is nothing about the business which is not "open and aboveboard."

It means that a permanent invitation is extended to anyone to call and verify any and all statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound.

Is it a purely vegetable compound made from roots and herbs—free from drugs?

Come and See.

Do the women of America constantly use as much of it as we are told?

Come and See.

Was there ever such a person as Lydia E. Pinkham, and is there a Mrs. Pinkham now to whom women are asked to write?

Come and See.

Is the vast private correspondence with sick women conducted by women only, and are the letters strictly confidential?

Come and See.

Have they really got letters from over one million, one hundred thousand women correspondents?

Come and See.

Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See.

This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting suffering woman must, for her own sake, be taught confidence, for she might just as well regain her health.

of all are the painters, putting e finishing touches and giving new life to the boats that, now silent save for the presence of the workmen, will a few weeks hence echo with the merry laughter of hundreds of travelers.

The work of fitting out is by no means confined to the exterior of the boats. On the contrary, although more spectacular, this is in reality less essential than what is going on within. Here upholsterers and carpet layers and decorators by the score are busy. In the fall the boats are virtually stripped of their furnishings, which are put away in safe quarters for the winter. In the spring they are overhauled before being once more installed. Every mattress—and there are hundreds of them on many of the boats—is gone over carefully, every bit of bedding inspected, to see that it is in first-class shape. All the silver must be brought forth and polished, the china and glassware put in place.

And what a world of supplies are required. On the new City of Cleveland, which will shortly go into commission at Detroit, there are 3,400 pieces in the silver service, 6,500 pieces of crockery and 2,000 of glassware. Among the furnishings of the steamer will be 5,500 yards of carpet for the saloons and staterooms. For the latter there will be required 2,000 mattresses, 4,000 sheets, 4,000 pillow cases and 2,000 blankets. The equipment in the linen line will be rounded out by 5,000 towels and 3,000 napkins. Everything else is on a like scale, and the work of putting all this in shape is difficult to comprehend. These are things of which the public has slight knowledge, but which would call forth a vigorous protest should the slightest detail be overlooked.

A few weeks hence the labors of today will be forgotten in the rush of the daily routine, save by those furnished employment and the concerns that benefit from the immense sums distributed by the vessel companies.

HE WANTS A NEW GREETING

Captious Critic Says the Only Honest Welcome Is a Texan's.

"I do wish some one would introduce a new way of saying: 'How d'you do?' said the captious critic, as he shook hands with a friend. "I am getting a trifle tired of this worn-out facetiousness. I greet a man with: 'How do you do?' and follow it up with: 'Well, how do you do?' and follow it up with: 'Well, what are you doing now?' Invariably I get that idiotic answer: 'Oh, everything and everybody!' Of course, that stops the conversation right away, and I look upon the man as asinine.

"I used to know a lady, who to my greeting of: 'How are you?' would daily say: 'Oh, a little piano, thank you, just a wee bit piano!' She would dwell on that last word until she made me as much out of tune as she herself was.

"I had another acquaintance, also a lady, who was even worse. She was a rather elderly typewriter with opinions of her own. When I went into the office in which she was engaged, I invariably used to pass the time of day, and add: 'How are you this morning?' She never failed to reply: 'Thank you, Miss Jones is always well!' She was Miss Jones. One day, when she was evidently suffering from a severe cold, I thought I should surely receive a different answer. Not a bit of it. 'Miss Jones is always well,' came as usual. I afterward found out that she was a disciple of some school of New Thought, and that naturally accounted for her inevitable and continued good health.

"Take it all in all, there's no greeting like what I call 'the Texan how do you do?' There is an absence of a salutatory dialogue, and the grip is a bit strenuous, but still it's honest."

True.

Bullets can whistle, but it takes a brave man to listen to them.

THE LIVING ROOM.

It Should at All Times Be a "Livable" Room.

What to do with the living room is a problem that confronts every housekeeper. The living room should be in fact as well as in name a living room—a livable room. It is the room in which the most of our time at home is spent, the hours we have for leisure, the time we have for play, the place where we entertain our friends and it is absolutely essential that the walls and furnishings of the living room should be harmonious in color, suitable in texture, and durable in material.

The rich, soft, solid colored walls are the ideal walls for the living rooms. They make a better back ground for pictures, throw the furniture out in better relief, are less discordant with rugs and carpeting, and indicate a higher degree of taste and culture than do the colored monstrosities which we paste on when we apply wall paper.

Who ever saw roses climbing up a plastered wall growing out of a hardwood floor? Yet, that is what we suggest to the imagination when we paste paper covered with roses on our walls. They are neither artistic nor true. Roses are all very beautiful, but they were never made to climb up interior walls and they do not grow from hardwood flooring. The set figures of wall paper are also tiresome and equally disagreeable and repellant.

The alabastined wall is the only correct form of a tinted or solid colored wall. Fortunately it is the only clean way, and more fortunately it is the only permanent way; the only way that does not involve the endless labor in the future.

In lighting the walls some thought must be given the color. Light colors reflect 85% of the light thrown upon them. Dark colors reflect but 15%. Lighting bills can be saved by choosing a color which will reflect the largest degree of light. In north rooms use warm colors or colors which reflect light. In south and west rooms sometimes the light can be modified by the use of darker colors. Dark greens absorb the light; light yellows reflect it; browns modify it, and so on, through the scale of colors. The color scheme of a room not only is dependent upon the color of the carpetings but it is also dependent upon the light of the room.

CURE AT CITY MISSION.

Awful Case of Scabies—Body a Mass of Sores from Scratching—Her Tortures Yield to Cuticura.

"A young woman came to our city mission in a most awful condition physically. Our doctor examined her and told us that she had scabies (the itch), incipient paresis, rheumatism, etc., brought on from exposure. Her poor body was a mass of sores from scratching and she was not able to retain solid food. We worked hard over her for seven weeks but we could see little improvement. One day I bought a cake of Cuticura Soap and a bottle of Cuticura Resolvent, and we bathed our patient well and gave her a full dose of the Resolvent. She slept better that night and the next day I got a box of Cuticura Ointment. In five weeks this young woman was able to look for a position, and she is now strong and well. Laura Jane Bates, 85 Fifth Ave., New York, N. Y., Mar. 11, 1907."

Sympathy.

"It's a serious thing, Verena," sighed Mrs. Upmore, "to be the wife of a man who holds a public office. It demands so much of his time and keeps him away from his home."

"I know just how you feel, ma'am," said the elderly domestic. "My first husband was the grand imperial outside guard of the Amalgamated and Solidified Order of Fuzzy Guzzlers, and sometimes he was that busy tryin' to remember the signs and grips that I couldn't get a word out of him all day long."

A Dessert for Six—10c.

Buy a package of Plymouth Rock Coffee Jelly Compound. Add a pint of boiling water, cool and serve with sugar and cream. The most delicious dessert imaginable and so easy to prepare. If your grocer does not sell it, send his name and 10c to the Plymouth Rock Gelatine Co., Boston, Mass., and they will mail you a package.

There is no evil that we cannot either face or fly from but the consciousness of duty disregarded.—Daniel Webster.

THE PAINTING SEASON.

Good results in painting at the least cost depend largely upon the material chosen. Paint is a simple compound and the ingredients can be easily tested. The solid part or pigment should be White Lead. The liquid part should be Linseed Oil. Those best informed on painting always buy these ingredients separately and have their painter mix them fresh for each job. Before the mixing the test is made.

Place a pea-sized bit of White Lead on a piece of charcoal or piece of wood. Blow the flame against it and see what it will do. If it is pure White Lead, little drops of bright, pure metallic lead will appear, and with patience the White Lead can be completely reduced to one globule of metallic lead. This is because pure White Lead is made from metallic lead.

You may test dozens of other so-called White Leads and not be able to reduce one of them to lead. If they will not change wholly to lead but leave a residue, it is clear that some adulterant is present.

If you should have your painting done with such materials, no matter how cheap they might seem, it would be costly in the end.

National Lead Company, Woodbridge Building, New York City, are sending on request a blowpipe free to any one about to have painting done, so that the White Lead may be tested. With it will be sent a handsomely printed booklet having as its frontispiece the "Dutch Boy Painter," reproduced from the original painting. This little painter has become noted as the guaranty of pure White Lead.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in 10c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you

"GLADSTONE OF AMERICA."

Senator Allison Ranks With "Great Commoner" and Bismarck of Germany.

Roy Godsey, business manager of the Bloomfield Republican: There is a deep seated feeling among Republicans of Iowa that Senator Allison of Iowa should be retained in the senate. This feeling also pervades the national congress. This is the natural sequence to a life of faithful public service. No public servant has the influence in Washington that is now accorded the senior senator from this state; his remarkable record on the side of the people will give him great strength at the June primaries.

For thirty-five years he has been a commanding figure in the great policies of the Republican party and in making the American people the power they are today in the commercial and financial centers. He has never posed as an agitator or reformer, but his work speaks for the most advanced thought of the voters of Iowa and the entire country. He represents the solid, substantial type of statesmanship that stands the test of legal technicalities and the supreme court, thereby giving to the people enduring monuments of legislation. Today he is the very basis of President Roosevelt's power in controlling trusts and combines. He is old, but the ideas he represents and the statutes he has written and is now advocating are young and full of national vitality. Allison men have a right to be proud of a statesmanship that makes Allison the Gladstone of America and the equal of Bismarck of Germany.

Weak Kidneys

Cause more trouble than any other organ of the body. The function of the kidneys is to separate inorganic salt and water in the process of circulation, and to remove them and their attendant poisons from the body through the bladder. Therefore when the kidneys become diseased and weak they are naturally unable to perform their work properly, and pains in the back, inflammation of the bladder and urinary disorders are the result. It is imperative that a prompt relief be afforded, which is impossible unless you remove the cause.

WHAT IS IT?

Merely a little map to show you something of the immensity of the territory served by the Rock Island-Frisco-C. & E. I. Lines.

Just think of all those miles of steel humming to the tune of whirling wheels, day and night!

Some size to a system like that—don't you think?

And it means a great deal to the welfare of your community—this railroad which carries you and your freight.

It's a bond of communication between you and your neighbors—between you and the market for your products. It's an enterprise worthy of fostering—is it not?

Remember, too, that the country needs the railroads as an aid in development and in the transaction of business, and the railroads need you, the traveler and the shipper—it's a community interest proposition, you know.

Let's all pull together!

CRIMINALS MEN OF SCIENCE.

To Outwit Them Detectives Must Make Use of Modern Methods.

The methods employed by criminals have "improved." They have become scientific. The criminal of to-day handles chloroform, opium, morphia, with all the cleverness of a physician.

Again, the tools used by the modern jail bird are unrivaled masterpieces. One amazing proof of the scientific knowledge of the modern criminal and his keenness in keeping abreast of modern discoveries lies in the following fact: Recently in Marseilles the huge safe of a bank was rapidly opened by means of a complicated apparatus which had only been invented by a prominent engineer ten months previously!

But the detective also avails himself of scientific discovery. Formerly in cases of forgery, for instance, a drop of water was placed on the forged words. If the paper had been scratched and its size removed the water was immediately sucked in; if the paper had not been scratched the drop remained for awhile on the top. This process was primitive and spoiled the document.

Nowadays the suspicious paper is photographed and on the proof the marks of scratching are easily detected by clear differences in the color. Photography is used also in the case of forgeries made by means of chemicals.

When a heap of burned documents is found in the fireplace thin sheets of glass are inserted between the burned papers. As soon as one sheet is on the glass it is rendered less brittle by means of a special liquid and it is unfolded and photographed. The process is repeated with every sheet, and after a few hours all the documents are easily read.

A process formerly used for the classification of blood stains consisted in examining them under the microscope and from the appearance of the red globules the investigators would draw their conclusions as to the nature of the blood. Unfortunately this examination gave no result when the blood stains were not recent.

To-day a more scientific method is used. The stain is washed; a few drops of the water used are poured into a tube containing some specific serum from a rabbit inoculated with human blood. When the addition of water produces in the serum a fine deposit and gives a misty appearance to the liquid one can be perfectly certain that the blood stains were human.

Bribes for Clergymen.

"Three or four attempts have been made to bribe me," said a clergyman. "My friends of the cloth tell me that they, too, have been occasionally tempted with bribes.

"Once it was the advertising manager of a health food. He offered a subscription of $100 to our mission school if I would tell from the pulpit how much good health food had done me. I made him give me the money for the mission under threats of exposure, but of course I did not mention his food in the church. The church is no place for health food talks.

"The widow of a drunkard and general good-for-nothing offered me $50 if I would lie in praise of her husband in his funeral sermon. I praised the man heartily in the sermon—no matter how bad a man may be, if you examine his character you will find in it many traits worthy of praise—and to the widow I wrote a note of gentle rebuke.

"Often we are asked to date back marriage certificates—to say a couple were married in March, 1906, instead of March, 1907. A man once offered me $1,500 to perpetrate a wrong of this sort. I thrust a tract in his hand and turned him out of doors."

SYNOPSIS.

Burton H. Barnes, a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina, daughter of the Paolis, from the murderous vendetta, understanding that his reward is to be the hand of the girl he loves, Enid Anstruther, sister of the English lieutenant. The four fly from Ajaccio to Marseilles on board the French steamer Constantine. The vendetta pursues and as the quartet are about to board the train for London at Marseilles, Marina is handed a mysterious note which causes her to collapse and necessitates a postponement of the journey. Barnes and Enid are married. Soon after their wedding Barnes' bride disappears. Barnes discovers she has been kidnaped and taken to Corsica. The groom secures a fishing vessel and is about to start in pursuit of his bride's captors when he hears a scream from the villa and rushes back to hear that Anstruther's wife, Marina, is also missing. Barnes is compelled to depart for Corsica without delay, and so he leaves the search for Marina to her husband while he goes to hunt for Enid. Just before Barnes' boat lands on Corsica's shore Marina is discovered hiding in a corner of the vessel. She explains her action by saying she has come to help Barnes rescue his wife from the Corsicans. Barnes and Marina have unusual adventures in their search for Enid. In seeking shelter from a storm the couple enter a hermitage and their to their amazement they discover Tomasso, the foster father of Marina. Tomasso learns that Marina's husband did not kill her brother. Many wrongs are righted. Barnes is surprised in the hermitage by Rochini and Romano, the two detested bandits, who have been searching for him to murder him for his money. The bandits attempt to take away Marina. Barnes darts out the door. The bandits start to pursue, but as they reach the door both are laid low by Barnes' revolver. Anstruther arrives to find Marina and learns that she has been lured away by the telegram which had been sent by another without his knowledge. The two start in search of Marina. Barnes and Edwin take different roads in their search. Edwin is trapped in a tower where he is made prisoner. In endeavoring to escape he opens a trap door where he finds Emory, the detective, who had been imprisoned there previously. In another secret chamber Tomasso is found imprisoned. Edwin in climbing down a wall sees upon the portico of a farm house Marina and Count Danella sitting and talking together. Barnes arrives and finds the bridge swung preventing his crossing over. He hears the voice of Marina crying for mercy. He examines his revolver. Cipriano Danella threatens to light a fuse that would blow up the tower and kill her husband unless Marina surrenders herself to his passion.

CHAPTER XVII.—Continued.

"No; life—life and love! and death to those who stand between me and her! The torch to the lone orange tree in the center of the lawn—you placed the fuse—when I give the signal to you, light it."

"He will be blown to atoms?" screams the girl.

"Certainly, then you are free to marry me and can say your prayers with a good conscience!" laughs the count.

"My uncle, I am bound to your orders by the oath of the vendetta and thy promise to pay my gambling debts and make me rich again," said the young man. Enrico passes from the verandah and Marina sees the flame of the torch moving to the orange tree. She raises her voice and shrieks with all her force: "Edwin, my husband, you have only a minute to save your life. In some way, descend from the tower! They are going to blow it up!"

And a cry comes to her: "My wife, impossible!"

And over it are frantic curses from the American detective, and the voice of old Tomasso, croning: "It is the will of the Devil!"

Marina shouts: "I can only give you life by being this devil's!"

The answer of the young sailor comes, calm as the voice of an English officer should be facing death: "Not at that price, darling! Don't think of me!"

Then the tortured girl begins to wring her hands and sob as she sees the men in the tower struggling to break out, struggling as men in the turret of a sinking battleship. The face she adores is before her in its death agony—the weird music from the sea comes faintly to her, telling of woman's devotion, for the barbaric ballads have been selected with uncanny subtlety. For one dread moment, Marina wildly thinks: "I'll save my Edwin's life—then I'll keep myself from this crafty fiend by death in the waves from off the vessel on which he bears me away!" But the thought shoots through her: "My dear husband will believe I am a faithless and dishonored wife!"

To Cipriano, who is triumphantly murmuring: "I see, by your blushes, you're mine!" she shouts: "Never!" and desperately would run to the base of the tower and die with her husband.

But the arms of Danella encircle her, holding her firm as bands of steel. Inflamed by the propinquity of her loveliness, the contact of the perfect figure he clasps, the subtle perfume of her waving hair that tosses in tresses about, Cipriano is whispering: "You have still time. Anstruther may yet live, I have not given the signal. Be mine! But one long, sweet kiss to prove it."
